Temperature field calculation in infinite plate with heat transfer coefficient and ambient temperature arbitrary functions of time
10 p1809 A69-23430

Optimal multidimensional sequential filtration of signal on background of time correlated noise
11 p1859 A69-24967

Time-pulse function generator with piecewise parabolic approximation for converting value given by DC voltage or time interval into DC voltage for arbitrary functional relation
12 p2079 A69-25968

Sensitivity function in time domain defined for control system design
13 p2238 A69-27936

Force resonance oscillations of one degree of freedom system with randomly time varying natural frequency
16 p2813 A69-32285

Space-time variations for approximating sporadic E layer critical frequencies of geographic and time distribution curves
16 p2784 A69-32542

Maximum a posteriori estimate of modulation on carrier with noise, discussing iterative technique and FM test
17 p2994 A69-32917

Time function multiplex system for simultaneous communication via satellite between number of stations, considering transmission capacity decrease due to hard limiting amplifier
17 p2919 A69-33320

Linear time varying processes minimal time control by maximum principle to construct extremal control as explicit time function
20 p3509 A69-37139

Quantum mechanical multitime correlation functions derivation and applications to laser theory
22 p3965 A69-41152

N-dimensional theorem for evaluating time continuous channel capacity or rate distortion function of random process
24 p4284 A69-42721

TIME LAG

Wide range linear delay circuit with compensating bootstrap circuit generating linear ramp waveform and regenerative Schmitt trigger comparator
01 p0041 A69-10242

Magnetron ionization gauge in helium for low pressure measurement, discussing striking characteristics and time lags
01 p0012 A69-10660

Delayed response in threshold switching from rest state in ferrite memory cores consisting of magnesium compounds
01 p0045 A69-10739

Asymptotic stability conditions for delayed quasilinear nonautonomous systems periodic solutions derived by Shimanov method
02 p0280 A69-11700

Variable time delay achievement in fluid logic circuits based on Coanda effect devices
02 p0196 A69-12080

Mathematical basis for designing controllers of time lag systems by approximately solving differential equations
03 p0408 A69-12977

Phase path variations at three closely spaced points measuring horizontal drifts at E region level, investigating time shift variability in spaced fading records
03 p0421 A69-13322

Automatic recording device for cosmic ray bursts utilizing information time delay to allow detailed initial period study
03 p0430 A69-13543

Nonlinear oscillatory systems with constant delay under random forces action, noting use of stochastic difference-differential equations
03 p0468 A69-13866

Nonsteady coordinates of linear delay system determined from observable linear combination of phase coordinates
04 p0583 A69-15099

Delay between solar activity and density changes in upper atmosphere using Harris-Priester model
04 p0594 A69-15122

Frequency controlled time delay network for broadband phased array antenna steering
04 p0580 A69-15466

Hazards in pneumatic fluidic sequential circuit caused by delays in pneumatic tubing
05 p0706 A69-16174

Department of Defense Gravity Experiment (DODGE)/attitude stabilization simulation with time lag magnetic damping
06 p1014 A69-17584

Radio channel circuit outlined for tracking interplanetary spacecraft and probes with signal delay time prediction
06 p0888 A69-17622

Radial diffusion of high energy electrons in outer radiation belts, determining statistically delay time between electron intensity variations
06 p0919 A69-17720

Thermal explosion criterion used for explosion/ignition delay of exothermic material surrounding heated wires having good thermal conductivity
07 p1240 A69-18359

Two and three frequency techniques for measuring group delay time of communication channels
07 p1076 A69-18557

Root mean square time delay error with respect to playback time and autocorrelation function of tape recorded sine wave for studying jitter spectra
07 p1132 A69-18822

Recursive method for estimating number, amplitude and time delays of signals overlapping in time and in presence of additive white Gaussian noise
08 p1270 A69-19854

Signal correlation functions measurement errors due to randomly fluctuating delay, investigating additive and multiplicative noise with periodic and random signals
08 p1296 A69-19922

Pseudoexact Chebyshev response curves for bandpass filter design, discussing phase response and time delay characteristics
08 p1283 A69-20222

Time response of second order nonlinear overdamped systems calculated by Krylov-Bogoliubov method of variation of parameters
08 p1297 A69-20355

Wideband array antenna IF time delay steering realization, showing steering independence of bandwidth
08 p1290 A69-20977

- Time difference position determination system for space, surface and airborne vehicles, describing application to satellite navigation and air traffic control
08 p1348 A69-21066
- Round trip delay effect on probability of error in uncertainty feedback communication systems operating at channel capacity
09 p1453 A69-21322
- Electron content of earth-Venus interplanetary medium measured by observing relative propagation time of radar pulses to Venus
09 p1594 A69-21697
- Common mode rejection technique to determine phasing differences in digital systems by measuring pulse delay
09 p1463 A69-21896
- Time delay, red shift, equivalence principle, light deflection and perihelion motion tests of general relativity with Jupiter probe
09 p1597 A69-22089
- Orthogonal projection derived equation to optimally estimate state of nonstationary linear discrete systems with time delay, developing Kalman type filter
09 p1473 A69-22437
- Maximum principle in integral form for optimal control problems with delay differential system equations, using vector matrix notation
10 p1718 A69-23038
- Excitation of ultrathin Cd/SeS/ platelets with mode locked He-Ne laser for excitons formation, discussing time delay
10 p1703 A69-23512
- Tandem interleaved cyclic codes for digital HF communication with improved error rate at reduced decay time
10 p1655 A69-23530
- Hybrid simulation of transport lag with variable time delay, noting dynamic range limitations due to digital computer processing and memory capacity
10 p1661 A69-23852
- Time registration delays during photographic observations of satellites, describing NAFA type satellite camera and mechanical and electrical systems
11 p1880 A69-24365
- Jittering delay of triggering circuit driven by ramp signals of different finite slopes, noting tunnel diode discriminators and regenerative feedback loop circuits
11 p1858 A69-24568
- Steady state and dynamic characteristics of linear plant with constant lag element based on correlation function moments
11 p1859 A69-24965
- Differential equations describing system stability with delay in functional space
11 p1919 A69-25093
- Ignition of condensed homogeneous combustible materials in presence of phase transition in heated layer, discussing temperature distribution and ignition delay time in ammonium perchlorate
11 p2000 A69-25189
- Piezoelectric variometer with reduced indicator time lag for measuring pressure gradients in fluid media
11 p1889 A69-25427
- Tracking system for gain and time delay parameter measurements of compensatory control crossover model
12 p2022 A69-25930
- Visual receiving equipment for consistency determination of Loran-C sky wave signals apparent arrival times
12 p2029 A69-26052
- Time delay in temperature controlled transistorized time delay circuit determined by transistor unsteady thermal processes
12 p2043 A69-26883
- Delay time of pulse signals in radio channel transmission described by standard deviation of channel properties
13 p2218 A69-27215
- Stability test for linear unit feedback control system with second order lag and dead time compensated by PIO controller
13 p2238 A69-27395
- Periodic solution to equations describing nonlinear autonomous time lag system close to Liapunov systems
14 p2482 A69-28799
- Pulsed IR laser optimal Q switching mode by using semiconductor mirror with nonparabolic dispersion law and changing mirror opening moment delay time
15 p2633 A69-30064
- Group delay time for dispersive wave propagation velocity determined using correlation method
15 p2562 A69-30094
- Ignition delay of paraphenylenediamine associated with nitric acid, showing relation between grain diameter and hypergolic ignition mechanism, noting oxidizer concentration effects
15 p2561 A69-30185
- Subtractor performance for processing correlated random signals with different spectral widths in signal delay time indicator, discussing errors
15 p2572 A69-30346
- Type 3 radio bursts time profile for estimating magnetic field strength in solar corona
15 p2675 A69-30554
- Time delay errors compensation methods in analog-digital computation loops, finding digital scheme inferior to analog
15 p2572 A69-30618
- Time logarithmic switching to explain anomalous delay in threshold response of MgMnZn ferrite memory cores
15 p2668 A69-30688
- Program stretchout in aerospace procurement, discussing costs effect in relation to incentive contracts
15 p2721 A69-31071
- VLF and particle rocket experiment for group delay time between rocket and ground, discussing wave polarization and energy flows meaning
15 p2571 A69-31424
- Pseudoexact bandpass filter design, presenting graphs for passband loss, voltage standing wave ratio and time delay as function of frequency
15 p2581 A69-31526
- Holographical interferometry with laser spark radiation containing fundamental and second harmonic wavelengths, confirming heavy particle densities decrease in plasma with time
16 p2789 A69-31771
- Sudden enhancement of atmospheres recorded during IGY, noting time lag between flare and SEA maximum
16 p2778 A69-32192
- Latitude variations of delays between spread F and magnetic activity shown to be different at various parts of solar cycle
16 p2779 A69-32194
- Selective amplifier for recording time signals on Time Recorder 2 and measuring time lag caused by Philips 8RO 501 radio receiver
16 p2790 A69-32217
- Nonequilibrium inlet conditions effect on combustor performance during H and vitiated air combustion, studying ignition delays
16 p2881 A69-32767
- Jodrell Bank RF digital autocorrelation spectrometer based on time delay related to signal power spectrum through Fourier transform
17 p2970 A69-32856
- Stability conditions for time lag differential equation systems over finite interval employing Liapunov functions, noting similarity with systems having continuously acting disturbances
17 p2995 A69-33616
- Multiple input and output nonlinear time invariant feedback system under almost constant inputs
17 p2944 A69-33743
- Shifted pulse multichannel generator producing pulses and pulse sequences time delayed with respect to reference channel
17 p2938 A69-33899
- Quasi-transverse /Q-T/ point time lag on Faraday rotation records at widely spaced frequencies during satellite pass explained by refraction theory
18 p3100 A69-34251
- Discharge coefficient and opening time of pneumatic and hydraulic systems incorporating disks, nozzles and valves
18 p3094 A69-34981
- Electrooptical distance measurement based on laser pulse traveling time and phase measurements to determine satellite range
18 p3103 A69-35199
- GaAs-P injection laser time delay measured from start of current flow in p-n junction diode, studying effects of memory, temperature and reverse bias
19 p3387 A69-36536
- Delay in photoelectric recording of transit of stars, considering stellar image brightness distribution and temperature
20 p3608 A69-38053
- Variational or optimal control for delayed systems, involving integrated maximum principle for problems with nonlinear functional differential systems
21 p3754 A69-38429
- Chalcogenide semiconductor film switches time parameters, showing delay time decrement with thickness decrease and voltage increase
21 p3780 A69-39045
- Time difference position determination system for space, surface and airborne vehicles, describing application to satellite navigation and air traffic control
22 p3977 A69-39874
- Extension of Liapunov systems to time lag systems with small periodic parameter
22 p3980 A69-40107
- Time dependent mathematical double acceptor model including heat effects for analyzing Q switching and stimulated emission time delays in pulsed junction lasers
22 p3962 A69-40560
- Digital computer determination of stimulated emission time delay, Q switching temperature and current region and impurity profile effect across junction in junction lasers
22 p3962 A69-40561
- Extensive air showers temporal distribution of electrons by diffusion equations in A approximation compared with experiments and Monte Carlo calculations
22 p4007 A69-41054
- Electronically controlled microwave phasers and time delay elements design and operation, discussing beam width, steering and effects, directivity and planar arrays
23 p4135 A69-41353
- HF backscatter, long delay signals and round-the-world echoes as radio wave propagation modes
23 p4116 A69-41602
- Linear system propagation time measurement independent of input or output time functions
23 p4165 A69-41700
- Moving striations as plasma oscillations arising from transit time delays of neutral and charged particles moving through ionized gas, using continuity equation
24 p4356 A69-43122
- Thermosphere dynamic response to low altitude geomagnetic disturbances, showing time lag dependence on perturbation intensity
24 p4310 A69-43180
- Solar protons delayed access into polar regions during 2 November 1967 solar particle event, discussing north-south asymmetry
24 p4368 A69-43183
- Feedback controller for linear stationary differential systems with time lag and fixed unknown parameters, noting closed loop transfer function role
24 p4293 A69-43293
- Liapunov functionals for time delay systems by path integrals in state space, using convolution equations involving distributions with compact support
24 p4295 A69-43317
- Optimal control with computer prediction for inertial linear plants relay system containing time lag
24 p4295 A69-43706
- TIME LAPSE PHOTOGRAPHY**
U CHRONOPHOTOGRAPHY
- TIME MEASUREMENT**
NT CLOCK PARADOX
- Ephemeris Time and Atomic Clock Time roles in astronomy, discussing errors in daylength determination for mechanical, Shortt and atomic clocks, UT and Ephemeris Time
01 p0156 A69-10989
- EUV emission line radiative lifetime measurement by foil-excitation technique, noting correction for cascading, He II and transition probabilities for N II and O III
03 p0471 A69-13165
- Theory of relativity and role of time intervals in prediction experiments for rate of clocks
03 p0467 A69-13599
- Left ventricle rapid filling period measurement from rapid filling wave of apexcardiogram, noting possible influences of age and sex
03 p0376 A69-14081
- Radar round trip time of flight measurements to Venus for three month interval about inferior conjunction of August 1968
04 p0663 A69-15384
- Laboratory equipment for atomic and astronomical time and frequency measurement
05 p0827 A69-16582
- Device for measurement of time to failure of brittle materials in thermal-endurance testing, noting shock wave
06 p0927 A69-17690
- Two and three frequency techniques for measuring group delay time of communication channels
07 p1076 A69-18557
- Pulsating radio source pulse arrival time measurements at 1919 plus 21, determining highest SNR
07 p1214 A69-18665

Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects

07 p1065 A69-18981

Ground propagation of regular Pc 1 and irregular Pi 1 geomagnetic micropulsations demonstrated by precise time measurement

07 p1127 A69-19338

Incoherent m-ary frequency shift keying /MFSK/ system analysis concerning automatic time synchronization

08 p1274 A69-20133

Picosecond light pulse measurement by two photon excitation of photographic film

08 p1313 A69-20165

Geomagnetic field mean hourly values continuous smoothing from recordings at drifting arctic stations for determining time variations

09 p1487 A69-21553

Giant pulse buildup time in Nd-glass laser with passive shutter determined by comparing Q factor and peak power ratios of different modes

11 p1894 A69-24621

SNR measurement with time interval counter and computer, discussing accuracy

11 p1839 A69-25299

Practical time resolution of streak camera, discussing streak camera transfer function and measurement of resolution with pulsed laser diode emission

12 p2084 A69-26152

Intense ultrashort pulse widths determination by two photon fluorescence patterns, using model of partial laser mode locking

13 p2270 A69-27198

Lithium depletion in main sequence stars of one solar mass, suggesting e-folding time scale indicated by Coma Cluster data

14 p2517 A69-29089

Ultrasonic pulse-echo-overlap method modified for simultaneous measurement of time delay and relative voltages in determining sound velocities and attenuation of solids

14 p2450 A69-29567

Epochs in atmospheric circulation development over Northern Hemisphere, emphasizing solar activity roles in epochs appearances

14 p2478 A69-29837

Pulsar NP 0532 period measurements at various frequencies, obtaining accuracy in timing data reduction by linking pulse arrivals over interval of months

15 p2680 A69-30232

Crab Nebula pulsar NP 0532 simultaneous optical and radio observations, noting influence of interstellar dispersion shape uncertainty

15 p2680 A69-30233

Antenna, frequency converter and automatic spectrum recorder system for closest approach times prediction and satellite identification, discussing errors

15 p2569 A69-30800

Atomic and astronomical time and frequency measurement via Loran C and VLF/Omega phase tracking receivers

15 p2615 A69-31285

Geomagnetic field mean hourly values continuous smoothing from recordings at drifting arctic stations for determining time variations

16 p2784 A69-32548

Electrooptical /photomultiplier/ detection of satellite beacon flashes, establishing time of flash and measuring pulse shape and energy received

17 p2919 A69-33083

Epochs and ephemerides of asteroid Amor for 1916, 1924 and 1972, noting unfavorable observing conditions in future

17 p3038 A69-33723

Canopy filling time for parachutes under infinite mass conditions, using continuum equation and parachute inflation concept [AIAA PAPER 68-12]

17 p2902 A69-34032

Streak photographs by differential interferometer to study head wave standoff in shock tubes as function of time

18 p3085 A69-34473

Mean-time-to-repair of complex systems with consideration for repair policies and number of repairmen, noting application to systems reliability engineering

18 p3144 A69-34494

Time variation of laser flare plasma temperature related to pulse parameters, using soft X radiation from plasma

18 p3154 A69-35496

Analog device to compute running ten minute average and store latest ten minute peak of unipolar data input for wind speed sensors

19 p3312 A69-36278

Temporal position of pulse signal on noise background determined by measuring signal passage time through linear filter zero point

19 p3278 A69-36596

Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects

20 p3480 A69-38229

National Physical Laboratory atomic clock improvements, describing use of cesium 133 as second of time standard and phase shift effects on precision

21 p3720 A69-38548

Mean time between failures /MTBF/ for component, equipment or system subjected to total unit test hours at various confidence levels

21 p3684 A69-39700

Earth rotation rate variations connected to longitude variations of continents time services, noting atmospheric circulation and inertial forces role

22 p4024 A69-40609

Spherical lunar coordinates for arbitrary moment of time calculated by digital computer using Brown lunar motion theory

22 p4024 A69-40611

Linear system propagation time measurement independent of input or output time functions

23 p4165 A69-41700

TIME MEASURING INSTRUMENTS

NT ATOMIC CLOCKS

NT CHRONOMETERS

NT CLOCK PARADOX

NT CLOCKS

NT TIMING DEVICES

Soviet book on flight vehicles astronavigation covering automatic equipment accuracy, changes in spherical coordinates, time measuring, etc

18 p3168 A69-34355

TIME OF FLIGHT SPECTROMETERS

Residual gas analyzer and leak detector by time of flight measurements on neutral metastable atoms and molecules between pulsed electron gun and auger surface detector

13 p2262 A69-28006

Time of flight mass spectrometers for plasmoids generated by theta pinch and discharge over organic glass, showing ion and electron currents oscillograms

14 p2498 A69-29813

Shock wave studies of gaseous NO thermal ionization in Kr as function of temperature, using time-of-flight mass spectrometer

18 p3099 A69-34464

TIME OPTIMAL CONTROL

Time optimal control formulated for interconnected nonlinear controlled system described by fourth order differential equations

01 p0050 A69-10354

Variational calculus applied to time optimal trajectories between two points in range altitude space, discussing aircraft thrust and drag laws

01 p0009 A69-10414

Optimum control determination for low thrust spacecraft to minimize time for passing through radiation belt

01 p0113 A69-10571

Time optimal control design by algorithm method

01 p0052 A69-10794

Comparative analysis of variable structure adaptive systems and time optimal system for control of plant described by differential equation

01 p0052 A69-10795

Satellite optimal transfers from elliptic to parabolic orbits within set time

01 p0157 A69-11306

Discrete time optimal control problems solved by second order variational algorithm, developing recurrence relations for perturbation equations

01 p0054 A69-11416

Optimal control of linear stochastic systems using noise measurement data mathematical model

04 p0581 A69-14569

Time optimal turn maneuver for rocket with tilting engine and control nozzles, noting rotation moments distribution

04 p0665 A69-14832

Analysis and synthesis of optimal linear time invariant systems with uncertain or unknown parameters, considering mean square error

06 p0902 A69-17405

Optimal control of linear systems with state variables generated by linear feedback from output variables, considering time variance

06 p0903 A69-17406

Algorithms construction for aerospace vehicle trajectory optimization, considering quasi-lineariza-

tion method for computation of variable time optimum trajectories

06 p1006 A69-17569

Closed loop time optimal control achieved by exploiting generalization properties of threshold logic networks [AIAA PAPER 69-77]

06 p0905 A69-18092

Control systems stability under perturbations using time optimal control

07 p1115 A69-18514

Hologram storing on photochromic film, obtaining equations for optimal exposure time [IEEE PAPER F-1]

07 p1133 A69-19057

Aircraft position and velocity in directions normal to ILS reference path by correlation with inertial navigation system, noting minimal time controller

07 p1177 A69-19213

Sensitivity coefficients to solve two point boundary value problem arising from Pontryagin principle, with application to time optimal control studies

08 p1296 A69-20297

Centralized control with variable step interrogation of control points

08 p1298 A69-20422

Optimal rendezvous between satellite and spacecraft, determining power and time optimal coplanar rendezvous in circular orbit

09 p1538 A69-21759

Minimum time turns for spacecraft about fixed axis lying beyond plane of vehicle forces

09 p1609 A69-21760

Optimal control computation technique and application to minimal time flight profile optimization and isoperimetric problem of Lagrange with equality constraints

09 p1595 A69-21798

Optimal closed loop control system for linear time varying system with two independent parameters, noting trajectory sensitivity in large launch booster

09 p1473 A69-22439

Adaptive control algorithm operating on-line to make discrete time adjustments in controller parameters of continuous time control system

09 p1474 A69-22441

Stationary controller design for linear time varying control systems with state variables not always accessible for feedback

09 p1474 A69-22443

Optimum time interval for constant data transmission rate during single pass of satellite over ground station

09 p1457 A69-22462

Stability and local parametric synthesis conditions of programmed optimal control established for optimal control problem within fixed interval

09 p1475 A69-22666

Time optimal controlled linear systems with optimally chosen parameters, considering arbitrary second order oscillator controllability

10 p1666 A69-22922

Time optimal control system for searching for minimum of inertial object output value

10 p1666 A69-23816

Nondifferential function minimization on entire vector space or bounded subset for application to minimization problems in function spaces, time optimal control, etc

10 p1721 A69-23863

Asymptotic solution to problem of finding time optimal transformation for controlled plant with motion in phase space described by matrix differential equation

10 p1666 A69-23883

Time varying linear optimal control system sensitivity obtained by comparing closed loop with open loop sensitivity to parameter variations

10 p1667 A69-24058

Time optimal steering for rocket vehicle with trajectory defined between initial and final state, using minimum principle and boundary value problem solution

11 p1861 A69-25454

Optimal controllers analytical design for closed loop systems with pure time delay in actuating mechanism using differential equations

12 p2045 A69-25959

Sampled data time optimal control of linear multivariable system based on determination of system state variables control time and minimum sampling intervals

12 p2050 A69-26083

Time optimal controls for multivariable linear systems by computer programming of iterative calculations /Neustadt and fast convergence methods/

12 p2050 A69-26090

Optimal control of discrete time linear system with random parameters, noting case of additive noise in measurements

12 p2052 A69-26501

Time optimal regulator problem with recoverability constraint as restriction on system state during control synthesis

12 p2052 A69-26504

Error due to amplitude quantization and design of digital control systems in discrete time optimum control theory

12 p2053 A69-26507

Linear, quadratic, optimal control problems solved by sweep method, discussing time role, feedback control law and use of matrix equations

12 p2053 A69-26512

Negative exponential solution of matrix Riccati equation associated with linear optimal regulator and filter problems for time invariant plants

12 p2122 A69-26513

Controllability of stationary linear multivariable systems using frequency domain criterion with application to optimal control laws for minimum fuel and time control problems

12 p2054 A69-26519

Pursuit problem involving controllable pursuing plant, deriving condition for engagement with prescribed period of time

14 p2482 A69-28800

Optimal linear control systems with time limits on transient processes synthesized by reducing optimization to algebraic equations solution

14 p2425 A69-28820

Cauchy problem for Bellman dynamic programming equation in automatic control time minimization

14 p2426 A69-29478

Bayesian theory to determine maximum a posteriori estimation algorithms for optimum bit synchronization in digital communication systems

14 p2413 A69-29496

Stochastic saturating systems optimal control computation, considering attitude control and tracking system design by elliptical differential equation of dynamic programming

15 p2582 A69-30601

Optimum control determination for low thrust spacecraft to minimize time for passing through radiation belt

15 p2651 A69-30741

Pontryagin maximum principle applied to time optimal control of autonomous second order system with constant coefficients and differentiation in transfer function numerator

15 p2583 A69-31059

Minimum time single axis capture of satellite spinning about pitch axis by low thrust jets, considering gravity gradient phenomenon

17 p3048 A69-33237

Time optimal pitch motion of satellite in circular orbit based on maximum principle, considering variable and constant controls

18 p3207 A69-34677

Time and fuel optimization of angular momentum alignment and nutation elimination of spin stabilized bodies with inertial reference direction

18 p3208 A69-34775

Law for time variations of modulus-restricted control action at trajectory end, two point boundary value problem solution and use of Pontryagin principle

18 p3175 A69-35324

Optimal timing of measurements to minimize dispersion of navigational observation parameters by least squares method with application to Keplerian orbit elements

19 p3370 A69-36614

Linear time varying processes minimal time control by maximum principle to construct extremal control as explicit time function

20 p3509 A69-37139

Book on stochastic optimal linear estimation and control, discussing probability theory, models and continuous and discrete time linear systems

20 p3509 A69-37143

Response time estimation for control system with constrained phase coordinates, determining conditions for optimal control problem solution

21 p3769 A69-38568

Control function ensuring minimal response time of controlled plant with motion described by integral equations system, using method of distributed moments

21 p3685 A69-38847

Time optimal control for second order automatic system with motion described by differential equations

21 p3770 A69-38856

Continuity of optimal control of nonlinear plant, noting search time

21 p3686 A69-38884

Time optimal control for torsional vibrations of flight vehicle for limited energy case, illustrating uniform wing of constant rigidity

21 p3686 A69-38891

Control knob optimum diameter for minimum operation time, noting frictional resistance

21 p3664 A69-38969

Fuel-time optimal retrothrust control for vertical and gravity turn ballistic trajectories of soft landing nonlifting bodies based on Pontryagin principle [AIAA PAPER 69-868]

21 p3809 A69-39394

Time-optimal nuclear rocket propellant start-up with thermal stress constraints based on distributed parameter model, deriving algorithm for flow rate increase

21 p3768 A69-39632

Second order suboptimal control systems with time varying coefficients, calculating switching curves for quadratic cost functional

21 p3825 A69-39634

Interplanetary midcourse velocity correction schedules optimization, discussing timing equations modifications, mission simulation and role of earth based radar

21 p3766 A69-39646

Computerized algorithm facilitating automatic synthesis of time invariant linear compensation for highly complex multiloop control systems [AIAA PAPER 69-941]

22 p3917 A69-40324

Variable time of arrival /VTA/ guidance generalized, developing computational algorithms to supplement linear guidance method

22 p3979 A69-41186

Optimal control problems, discussing properties of signal producing response signals with transient functions at independent outlets of linear dynamic system

23 p4145 A69-41958

Optimum functions for mass and energy flow during spacecraft orbital transfer, emphasizing time behavior of propulsion variables

24 p4382 A69-42921

Optimal control computing method applied to minimal time flight profile optimization

24 p4383 A69-42954

Time optimal control of soft spring showing switching locus changes

24 p4289 A69-42955

Attitude control system with rate of change limiter to minimize launch vehicle drift during first stage ascent through atmosphere

24 p4394 A69-43277

Coefficient quantization in digital continuous time process controllers, applying results to nominal transfer function approximation

24 p4292 A69-43283

Suboptimal closed loop controller for linear time varying process subject to additive random disturbances and measurement noises

24 p4292 A69-43285

Minimal time closed loop controller design for linear systems with bounded control amplitudes and rates

24 p4293 A69-43304

Localizer acquisition system quasi-optimization technique based on time optimal control theory, with application to SST ILS problem

24 p4348 A69-43312

TIME RESPONSE

TAF /time and frequency/ code written in FORTRAN language for computing steady state, frequency and time response from nonlinear simultaneous differential equations

04 p0565 A69-15341

Gallium arsenide electro-optic switch measuring signal time response to radiation step of homogeneously broadened carbon dioxide, He and nitrogen laser amplifier

05 p0773 A69-16293

Inverted transistor parameters required for accurate prediction of electrical and radiation storage time, discussing computer predictions of radiation responses

06 p0977 A69-16884

Detection time to light point source noting response to dark, star field and glare source backgrounds

06 p0881 A69-17215

Laser small signal step response measured, deducing medium bandwidth [IEEE PAPER G-9]

07 p1151 A69-19056

Channel output SNR optimization in AM/FM telemetry system by using automatic gain control, discussing AGC time response and general characteristics

09 p1454 A69-21799

Time varying linear system with input-output relation described by differential equation calculated for impulse response using Taylor series

09 p1459 A69-22580

Response times for entire Knudsen number range in straight round pressure pipes, using digital computer in final integration

10 p1677 A69-22900

Low thrust propulsion devices high response impulse testing, describing limitations imposed by solenoid valve time response

10 p1672 A69-23278

Integral time characteristics for unsteady light scattering by using solution to corresponding steady state problem of light pulse scattering in medium

11 p1915 A69-24604

Single mode laser oscillations buildup for 0.633 micron transition of He-Ne laser at levels above threshold using fast intracavity chopper

12 p2105 A69-26318

Cross correlation methods for determining systems time domain response adapted to communications channel evaluation, discussing computer simulation of on-line testing

16 p2750 A69-31757

Pulse propagation through antipode, calculating time domain response of fields near axial caustic

18 p3100 A69-34233

EEG patterns computerized spatio-temporal display technique using CRT and motion picture camera

21 p3668 A69-39864

Heart electrical activity time sequence estimation based on multiple dipole binary model, deriving algorithm

21 p3668 A69-39865

Psychophysical threshold changes during subliminal monocular and interocular stimulation, studying conditioning flash size effects on temporal summation

22 p3881 A69-40860

Correction coefficients for time response of hybrid control systems with digital feedback elements containing quantized coefficients

24 p4293 A69-43302

TIME SERIES ANALYSIS

Mathematical modeling of gyro drift rate in inertial navigation based on stationary and nonstationary time series analysis

03 p0463 A69-13213

Computer program for obtaining information from stationary time series using Chree method of superposed epochs for processing unlimited data and epochs

13 p2225 A69-27617

Gyro drift rate mathematical modeling based on stationary and nonstationary time series analysis techniques with random process reduction to white noise residuals [AIAA PAPER 69-838]

21 p3761 A69-39369

TIME SHARING

Computer-analyzer system for nuclear chemistry, noting advantage of on-line data acquisition and analysis coupled with time sharing economy

05 p0725 A69-16584

Time division telemetry technique resolving data and control flow to and from remote locations /tactical aircraft/, noting application to environmental pollution control

07 p1081 A69-19100

SNODE /spectra numerical ordinary differential equations/ computer program for solving differential equations and integration with basic time sharing system

10 p1659 A69-23142

On-line central data processing system connected to time shared computer for recording data from test facilities, discussing hardware configuration, software considerations and advantages

17 p2932 A69-33106

Time sharing remote computer station allowing on-spot data processing and output answers, formulating best-fit equation representing statistical data [SAWE PAPER 799]

18 p3107 A69-34860

Parameters distinguishing analytic queueing models of time sharing algorithms, emphasizing techniques used for analyzing round-robin and multiple level queueing models

19 p3279 A69-35600

T shaped radio astronomical array, discussing time sharing technique providing simultaneous observation capability and merits of T and cross configuration telescopes

20 p3507 A69-37837

Colocated radio equipment time-sharing scheme for interference avoidance, describing switching method and sampling signal shape

23 p4142 A69-42228

TIME SIGNALS

TIME SIGNALS

Analog-hybrid computer configurations for average and rms values of signals with respect to time
06 p0891 A69-17220

Stellar occultations by moon observed with ear and eye method, not taking into account corrections to radio time signals
10 p1776 A69-23205

Worldwide clock synchronization by geostationary satellite transponder relaying VHF signals from reference clock, noting accuracy of radio propagation delay prediction
12 p2080 A69-26053

Selective amplifier for recording time signals on Time Recorder 2 and measuring time lag caused by Philips 8RO 501 radio receiver
16 p2790 A69-32217

Digital signal processing electronic device for linearizing signals from sensors with nonlinear frequency output by modifying time signal frequency
22 p3915 A69-40935

Loran C system for master station time and frequency dissemination, discussing application, coverage, timing accuracy and restrictions
23 p4116 A69-41601

TIMERS

U TIMING DEVICES

TIMING

U TIME MEASUREMENT

TIMING DEVICES

Satellite triangulation simultaneous and trailing methods, discussing timing devices design
[UN PAPER 68-95285] 01 p0064 A69-10475

Time coding system for recording balloon measurements on magnetic tape
05 p0762 A69-15825

Jittering delay of triggering circuit driven by ramp signals of different finite slopes, noting tunnel diode discriminators and regenerative feedback loop circuits
11 p1858 A69-24568

Selective amplifier for recording time signals on Time Recorder 2 and measuring time lag caused by Philips 8RO 501 radio receiver
16 p2790 A69-32217

TIN

Temperature dependent isomer shift and anharmonic binding of Sn 119 in niobium stannide, measuring Mossbauer recoil free fraction
01 p0134 A69-10009

Gray tin band structure, noting Shubnikov-de Haas oscillations, transport properties, piezo-Hall effect, magnetoreflection and free carrier absorption
02 p0295 A69-11783

Angular correlation of inelastically scattered alpha particles and gamma rays emitted from 2-plus state of Sn 120
03 p0469 A69-13098

Fermi surface topology effects on Nernst-Ettingshausen coefficient from measurements in magnetic field to 3.3 tesla and 1.2-4.2 K temperatures in metallic tin
05 p0808 A69-16357

Tin and zirconium addition effect on transformations of titanium alloys during heat treatment
07 p1162 A69-18775

Chondritic meteorites arsenic, tin and antimony content determined by anion-exchange chromatography and neutron activation analysis
13 p2344 A69-27630

TIN ALLOYS

Heats of solution of Ag and Cu in dilute Ag-Cu-Sn alloys at 720 K, using liquid metal-solution calorimeter
13 p2279 A69-27759

Friction effects on friction couples made of two different nonferrous alloys, discussing temperature regime difference effects on microgeometry and structure
15 p2629 A69-31027

TIN COMPOUNDS

U NIOBIUM STANNIDES

U STANNATES

TIN OXIDES

Chemisorbed oxygen effect on electrical conductivity of zinc doped polycrystalline tin oxides
07 p1201 A69-19478

TIN TELLURIDES

SnTe, SnSe and SnS epitaxial layers obtained by deposition of sublimates on cellulose-nitrite-varnish and single crystal NaCl and KBr substrates
02 p0298 A69-12049

Chemical compatibility estimation of lead and tin tellurides thermoelectric materials with metallic alloys
04 p0551 A69-15315

Band structure for narrow energy gaps of GeTe and SnTe by perturbation model, noting constant free path and relaxation time
19 p3385 A69-36516

TIP DRIVEN ROTORS

Tip turbine driven flush thin profile wing or platform lift fan design and operating considerations
05 p0696 A69-15554

Heavy lift helicopter design with 30 ton payload, considering fanjet drive hot cycle and shaft drive propulsion systems
[AHS PAPER 330] 17 p2901 A69-33532

TIP SPEED

Self excited rotor blade oscillation at high subsonic Mach numbers during flight tests of Sikorsky NH-3A compound helicopter
07 p1053 A69-18870

TIP VORTICES

U VORTICES

TIPS

U BLADE TIPS

U WING TIPS

TIRES

NT AIRCRAFT TIRES

Tires tested for road hazards, noting correlation to population density and rainfall
09 p1480 A69-22735

Standing waves in running tire shell wall, considering internal pressure, cross sections, wall thickness, cord angle, critical speed, etc
22 p4048 A69-41185

TIROS SATELLITES

Tiros satellite meteorological observations, discussing perturbation morphology and cloud mass organization
01 p0109 A69-10545

Satellites in meteorological service, describing TOS, ESSA and Nimbus satellites operation methods
08 p1409 A69-19960

TIROS global weather satellite system performance, reviewing TIROS and ESSA satellites, APT camera and ground stations and projected TIROS M/TOS satellite
10 p1722 A69-23145

Precipitation zone-cloud mass correlation based on Tiros cloud photographs, synoptic charts and weather maps for European U.S.S.R.
19 p3366 A69-36671

Tiros M requirements for earth resources sensor systems, discussing spacecraft structure, dynamics, power, command and communications subsystems
21 p3818 A69-38621

TIROS 9 SATELLITE

Wind velocity, geopotential and atmospheric layer temperature fields constructed from Tiros 9 satellite cloud data using least squares method and trigonometric polynomials
13 p2292 A69-27733

TIROS OPERATIONAL SATELLITE SYSTEM

Tiros Operational Satellite system for global weather analysis data acquisition and cloud cover photography, noting sensor development for numerical weather prediction
[UN PAPER 68-95823] 01 p0108 A69-10473

TIROS global weather satellite system performance, reviewing TIROS and ESSA satellites, APT camera and ground stations and projected TIROS M/TOS satellite
10 p1722 A69-23145

Tiros-ESSA satellite operations, describing first and second generation systems
19 p3433 A69-36909

TISSUES [BIOLOGY]

NT EPITHELIUM

Spectral absorption curves of hematoxylin stains in stained tissue sections of rat thyroid
01 p0015 A69-10924

Cell and tissue cultivation outside living organisms, discussing applications in space biology, space medicine and food protein sources
02 p0198 A69-11501

Molecular mechanisms leading to mineralization of organic tissues, noting role of protein and glycoprotein matrices
04 p0555 A69-14888

Microvillar bleb formation in proton irradiated primate hepatocytes with electron microscope, noting sinusoidal lumen
10 p1641 A69-23045

Rapid decompression and recompression in stapled eardrum, noting fibrous tissue response in middle ear at reconstructions utilizing polyethylene struts on gelfoam
14 p2406 A69-29292

Pulmonary oxygen toxicity, analyzing reticulum and elastic tissue damage and hyaline membranes by histochemical techniques
14 p2407 A69-29298

Histological changes in rat skin after 13 Mev proton irradiation, evaluating biopsies in tissue culture
14 p2407 A69-29298

Constitutive equations for living soft tissues free-deforming under negligible stresses with Hooke law limit
14 p2535 A69-29360

Invertebrate endoskeletal cartilage and cartilage-like tissues occurrence and nature, discussing cellular tissues and origin
15 p2555 A69-30412

Damage thresholds to ocular tissues from laser radiation, presenting comparative theoretical curves and recommended safe working levels
18 p3097 A69-34312

Statistical relations between minute blood circulation volume, O capacity and consumption rate in tissues of men and dogs
19 p3260 A69-35896

Noble gases effect at low pressures on O consumption by mammalian tissue, noting Xe, Kr, N and nitrous oxides effect on rat liver
19 p3258 A69-36454

Bubble size and blood perfusion effect on gas bubbles absorption in tissues, noting decompression sickness
21 p3651 A69-38389

Nerve tissue oxidation processes related to nervous system radiation sensitivity in dogs with cerebellum X-rayed after enzyme poisons administration
21 p3658 A69-39053

Device determining dynamic mechanical properties of tissues and various transducers, evaluating elastic properties of polyurethane, Hevea rubber and descending thoracic aorta
22 p3890 A69-40204

Tissue pressurized oxygenation during radiation therapy emphasized for overcoming tumor radioresistance attributed to oxygen deficiency
23 p4091 A69-41967

Nerve and muscle tissues subthreshold reactions on analog model, discussing transient characteristics under various excitations
23 p4109 A69-41980

Digital simulation of oxygen pressure fields and supply conditions in biological tissues
23 p4097 A69-42098

Microwave radiation effects on biological systems, discussing categories according to radiation protection guide /RPG/ numbers, tissue properties and interactions
24 p4270 A69-42579

Measurement technique using dielectric waveguides for studying microwave fields influence on and energy imparted to body tissue
24 p4279 A69-43705

TITAN LAUNCH VEHICLES

Titan 3C launch vehicle digital flight control system using flight equations time-shared with guidance equations
[AIAA PAPER 69-878] 21 p3824 A69-39404

TITAN 3 LAUNCH VEHICLE

BEEP /Best Estimate of Engine Performance/ program based on trajectory reconstruction and acceleration determination for evaluating Titan 3 propulsion system performance
[AIAA PAPER 68-585] 19 p3394 A69-35945

Addressable remote multiplexed PCM data system used on Titan III launch vehicles
19 p3274 A69-36279

Titan 3 transtage attitude control system hydrazine rocket engine design and performance, emphasizing problems associated with monopropellant
[AIAA PAPER 69-422] 19 p3394 A69-36300

TITANATES

U BARIUM TITANATES

U ILMENITE

U LEAD TITANATES

U PEROVSKITES

U STRONTIUM TITANATES

TITANIUM

Elastic anisotropy and polycrystalline orientations in cold rolled titanium sheets investigated by Fourier series method, discussing Young modulus values
01 p0094 A69-10431

Diffusion welding of AMS 4921 titanium, discussing premature pressure removal before completion of first joining stage
01 p0086 A69-10535

Strain hardening of alpha titanium studied for effects of grain size, strain rate, temperature and purity
01 p0095 A69-10610

Hydrogen content effect on relaxation spectrum of alpha titanium, using nondestructive tests
01 p0096 A69-10614

Strain measurements in pure polycrystalline Ti at constant temperature and strain, considering creep and elastic aftereffects
01 p0101 A69-11363

Ti for high temperature use in supersonic aircraft, noting compressibility limit on maneuvering load factor and cooling by H
02 p0192 A69-11891

Titanium production, discussing two stage electrode vacuum arc melting furnace, control and cooling equipment
02 p0229 A69-12068

Mechanical properties of titanium physically vapor deposited by electron beam high rate evaporation, noting results of tension testing
03 p0443 A69-13117

Lattice parameters of austenitic Fe-Ni-Ti alloys as function of titanium content, using Debye-Scherrer camera
03 p0443 A69-13123

Thermodynamic study of carburization of liquid titanium and zirconium, examining effects of atmosphere, graphite porosity and alloying elements
03 p0446 A69-13572

Diffusion bonding and forming of large and complex Ti structures, noting advantages in freedom of design and in economy
[ASM PAPER C7-2.3] 04 p0604 A69-14525

Heterodiffusion of metallic impurities in body centered phases of doped zirconium and titanium, determining diffusion coefficients via radioactive isotopes
04 p0613 A69-14557

Cobalt concentration reduction in maraging steels by Cr replacement and increased Mo and Ti additions
04 p0616 A69-14649

Solid solutions of O in Ti and Zr, noting superstructure formation and physical properties
04 p0618 A69-15078

Properties of electrolytic and reduced titanium powders and sinterability of porous compacts
05 p0782 A69-16795

Phosphate cements for bonding mica ceramic to titanium in jet engine equipment
05 p0786 A69-16799

Diamond pyramid hardness dependence on grain size of recrystallized alpha titanium
06 p0943 A69-17235

Titanium surface impurities effect on porosity in welds, proposing machining immediately before welding as solution
06 p0945 A69-17894

Electron microprobe analysis of vanadium in presence of titanium by compositional measurement of chromite in chondritic meteorites
07 p1073 A69-18419

Ti metallurgy and production, discussing vacuum separation of sponge Ti, Ti melting in arc furnaces, Mg thermal reduction and chlorine processing method
07 p1161 A69-18761

Titanium applications in metallurgy, galvanic technology and chemistry making use of corrosion resistant properties
07 p1161 A69-18767

Hydride, cold, irreversible and reversible hydrogen brittleness in titanium and titanium alloys
07 p1162 A69-18772

Oxygen diffusion parameters in beta-titanium measured by successive layer removal, noting lattice constant dependence on temperature
07 p1163 A69-18783

Titanium tetrachloride reduction to titanium by magnesium, showing autocatalytic process
07 p1163 A69-18784

Two stage sodium thermal reduction of Ti tetrachloride to metallic Ti, determining process parameters
07 p1164 A69-18785

Pressure properties of fluorides and silicofluorides as cutting and grinding lubricants for titanium
[ASLE PAPER 68-LC-20] 07 p1141 A69-19311

Technology of titanium for C-5A aircraft, discussing structural and functional components and machining, welding, forging, etc
[ASM PAPER D8-26.2] 07 p1143 A69-19672

Nitrogen diffusion coefficients in TiN and alpha-Ti determined by metallographic and roentgenographic

analyses, establishing linear equations for temperature dependence
09 p1523 A69-21736

Design, metallurgical and manufacturing problems of titanium application in superjet C5 and SST engines
09 p1570 A69-22062

Titanium fuselage skin contouring to shallow compound curvature of supersonic aircraft by elastic draping, shot peen forming and cold stretching, discussing residual stresses
09 p1512 A69-22374

Potential usage of titanium in cast parts for gas turbine engines, emphasizing alloys development
[ASME PAPER 69-GT-24] 09 p1513 A69-22494

Fracture surfaces of Ti and Ti-Sn alloys for stress corrosion cracking in methanol with HCl and in aqueous chloride solutions
10 p1710 A69-23085

Titanium compared with aluminum in application to supersonic aircraft structures, considering tests and costs
10 p1700 A69-23600

Annealing effects on cold rolled titanium sheets, noting changes in Young modulus and characteristics of recrystallized titanium
11 p1904 A69-24899

Hydrogen solubility in solid and liquid Ti close to melting point, showing no effect on welds and castings porosity
11 p1905 A69-24963

Annealing effects on titanium oxidation kinetics, indicating no relation between oxide formation and diffusion anisotropy of oxygen
12 p2112 A69-26039

Solid titanium surface energy determination, taking into account grain boundaries effect on accuracy
12 p2113 A69-26045

Diffusion bonded Ti honeycomb sandwich, demonstrating structural integrity, efficiency, low weight and cost effectiveness
12 p2115 A69-26828

Tension-compression fatigued alpha Ti twin formation contribution to fatigue damage during cyclic loading
12 p2116 A69-26913

Grain size effect on room temperature tensile strength of alpha-titanium analyzed by tensile testing and electron transmission
13 p2280 A69-27766

Spectral analysis of O and Ti based on O extraction, using Ni tank in A atmosphere with DC arc
14 p2446 A69-29158

Titanium corrosion resistance data tabulated for various environments and chemicals including salt solutions, organic chemicals and ionizable fluoride compounds
14 p2466 A69-29931

Maraging steel tensile strength increased, plasticity and toughness properties decreased with Ti content increase
15 p2639 A69-30630

Titanium effect on structural steels mechanical properties noting anisotropy ascribed to sulfides, nitrides and borides
15 p2640 A69-30633

Failure mechanism for intergranular stress corrosion cracking of vacuum annealed unalloyed Ti in alcohol iodine solutions
16 p2798 A69-31717

Inert gas diffusion of Xe 133 in aluminum and titanium at various temperature ranges, showing effects of recrystallization, plastic deformation and phase transformations
16 p2800 A69-31775

Ti corrosion resistance improved in special environments by oxidizing agents heavy metal ions and alloying
16 p2802 A69-32436

Spark source mass spectroscopy for determining trace elements in Ti and Ti alloys used in aeronautical and aerospace technology
[ONERA-TP-723] 18 p3155 A69-34638

Plating wear resistant electrodeposits of Ag, Cu, Ni and Cr on Ti, noting adhesion tests
18 p3148 A69-34654

Ti thermal diffusivity and conductivity at high temperatures measured from heat wave phase shift
18 p3156 A69-34699

Kinetics of titanium oxidation in transitional range at high temperatures, showing agreement with oxidation model
18 p3157 A69-35252

Annealing effect on transition zone cohesion strength in two layer steel-titanium sheet, investigating role of TiC formation
18 p3159 A69-35450

Diffusion bonded Ti honeycomb sandwich, discussing production, structural efficiency, high strength/weight ratio, etc
19 p3320 A69-35558

Strain hardening of titanium wire during room temperature stress relaxation shown equal to strain hardening during constant strain rate test
19 p3342 A69-35812

Ti and Ti alloys stress corrosion cracking, discussing metallurgical and environmental factors
19 p3351 A69-36900

Stress corrosion cracking of alpha Ti in liquid nitrogen tetroxide and various methanol environments, considering failure mechanisms
19 p3352 A69-36906

Titanium surface cleaning and descaling in preparation for machining, discussing acid pickling, mechanical abrasion, conditioning cycles, etc
20 p3549 A69-37434

Ti determination in presence of Nb or Ta by extraction-photometric method with diantipyrylmethane and thiocyanate
20 p3544 A69-37812

Colorimetric method to determine small amounts of Mn in metallic Ti by potassium periodate solution
20 p3544 A69-37813

Nitrogen diffusion coefficients in TiN and alpha-Ti determined by metallographic and roentgenographic analyses, establishing linear equations for temperature dependence
20 p3564 A69-38214

Ti structural components for forgings, noting problems facing die-forging industry and machining equipment
21 p3728 A69-38459

Neutral titanium Fraunhofer lines 4534, 4562, 5210 and 5238 Å, investigating profiles and asymmetries using spectrophotoelectrical methods
21 p3795 A69-38467

Titanium strengthened high strength hot-rolled steels, discussing cooling rates leading to complete ferrite phase transformation
21 p3743 A69-38652

X ray analysis of rolled and compressed Ti powder produced by calcium hydride reduction, noting coexistence of screw dislocations
21 p3745 A69-38952

Fluosilicic acid in chemical milling of Ti and Ti alloys
21 p3669 A69-38966

Thermal and athermal component of flow stress and deformation dynamics for Ti at low homologous temperatures determined by stress relaxation tests
21 p3749 A69-39598

Stacking fault formation probability in Ti and Zr by X ray diffraction techniques, using Fourier analysis and half-width measurements
21 p3749 A69-39600

Titanium stress pin with headed straight-shank pin and collar for reducing fatigue stress around holes
22 p3957 A69-40832

Angular distributions for Sc 45-Ti 46 nuclear reactions involving 41 Mev alpha particles bombardment described by Born approximation
22 p3988 A69-41044

H concentration and pore formation in Ti fusion welds
24 p4319 A69-42885

Room temperature tensile tests determining failure modes and defect influence on diffusion welds of unalloyed Ti, using electron microscopy and fractography
24 p4331 A69-42939

Chemical treatment of Ti during processing, discussing protective coating, scale conditioning, surface contaminant removal and acid pickling
24 p4324 A69-43432

Metallurgical and structural production of diffusion bonded titanium honeycomb sandwich panels for aerospace hardware weight saving
24 p4324 A69-43434

Al brazed Ti honeycomb sandwich structures brazed in vacuum and Ar, analyzing mechanical properties and corrosion resistance as functions of temperature and pressure
24 p4324 A69-43435

TITANIUM ALLOYS

Beta titanium alloys mechanical properties improvement, discussing effects of alloying elements, heat treatment and high temperature deformation
01 p0093 A69-10213

Titanium alloy VTZ-1 recrystallization and oxidation processes studied by heating within 700- 1200 C temperature range
01 p0094 A69-10214

Crack initiation and propagation in Ti alloys during thermal cyclic heating, noting influence of gas saturation
01 p0094 A69-10215

Charge materials purity found to increase beta-Ti alloys properties
01 p0094 A69-10216

Titanium alloy stress corrosion behavior in atmospheric salt environments at elevated temperatures related to aircraft engine part failures
01 p0099 A69-11056

Titanium-base alloys resistance to atmospheric corrosion based on weight change measurements and tensile tests after multiyear exposures
01 p0100 A69-11351

Martensite transformation by simple shear in equiatomic Ni-Ti alloy, using transmission electron microscopy
02 p0265 A69-12024

Fusion, resistance and pressure welding of titanium, discussing shielding, brazing, diffusion and adhesive bonding
02 p0253 A69-12064

Deformation temperature and reduction effects on structure and properties of cylindrical specimens of various titanium alloys
02 p0266 A69-12124

Phase diagram and heat resistance relation for ternary titanium alloys, considering component interactions and dissolution and dispersion effects
02 p0268 A69-12357

Structural influence on superconductivity of niobium-titanium alloys, using electron microscopy and measurements of current density vs magnetic field strength
02 p0269 A69-12763

Damping capacity and resistance to resonance fatigue of titanium and aluminum based steels and alloys
03 p0443 A69-13025

Grooved commercial Ti and Ti alloys mechanical properties under uniaxial static tension at low temperatures
03 p0443 A69-13028

Ti alloys anomalous variations in physical properties measuring electrical, thermal conductivity and thermal EMF
03 p0443 A69-13029

Superconductivity of niobium-titanium-oxygen alloy wires containing 40 percent minimum niobium weight, noting thermomechanical aging effect on critical current density
03 p0484 A69-13118

Salt water stress corrosion cracks morphology in titanium alloy, discussing crack propagation, brittle nature and chloride contamination effect
03 p0444 A69-13458
[SAE PAPER 680642]

Electrolytic deposits of titanium, vanadium and alloys from molten salts, discussing formation conditions, velocity and properties
03 p0446 A69-13574

Electrical resistivity, composition, and physical properties of titanium carbide, titanium oxide and titanium-oxygen-carbon alloys
03 p0446 A69-13575

Chemical treatment effects on mechanical properties of titanium alloy tubes
03 p0434 A69-13914

Transitional hexagonal omega phase of Ti-Fe alloys quenched in water and tempered
03 p0451 A69-13999

Geometrical and thermomechanical effects on pressure and forces in deformation of thin Ti alloy blanks
03 p0452 A69-14123

Bainite beta to alpha transformation in titanium-oxygen system, using high temperature metallography techniques
04 p0613 A69-14559

Cr-Si diffusion layers on Ti, noting results of roentgenographic and metallographic studies
04 p0614 A69-14578

Structural microheterogeneities in monophase Ti alpha alloys, using complex phase analysis method
04 p0617 A69-14939

Martensitic transformation in Ti-Al-Mo alloys, noting specific features and effects of Mo content
04 p0617 A69-14940

Shear type fracture formation mechanism in tensile test specimens of Ti alloys, noting transition in macrogeometry
04 p0617 A69-15076

Alloying elements and cold rolling deformation effects on formation of texture in Ti alloys, noting inhomogeneity
04 p0617 A69-15077

Phase equilibria, phase transformation temperatures and relation between resistivity and chemical composition for alloys of Ti-Al-Mo-Zr system
04 p0618 A69-15079

Quasi-ternary titanium dichromide-V-Mo system composition at high temperatures, physical properties and phase diagrams
04 p0618 A69-15080

Strain hardening and softening characteristics of maraging steels, Ni-Co and other steels and Ti-Al-Mo alloy
04 p0618 A69-15156

Hydrogen effect on interatomic bonds of Ti beta alloy and Young modulus, noting measurements at various temperatures
04 p0618 A69-15178

Cavities elongation in automatic inert gas shielded welds in titanium alloys
05 p0767 A69-15972

Electron microscopy of titanium alloys noting preparation, heat treatment of samples, crystallographic structure, etc
05 p0782 A69-16807

Electron microscopic and microdiffraction study of structure of quenched and annealed titanium alloy foils at high temperatures
05 p0783 A69-16810

Weldability of thermally stable titanium alloy, noting properties of electron beam and submerged arc welding
06 p0940 A69-17092

Oxygen free fluxes for fusion welding titanium alloys, discussing weld structure and properties
06 p0930 A69-17093

Titanium alloy interaction porosity with fillers during diffusion brazing, discussing joint strength as function of time, temperature and pressure
06 p0945 A69-17896

Surface treatment effect on weld porosity causes and removal in VT5-1 Ti alloy argon arc welding
06 p0945 A69-17897

Surface edge preparation of titanium alloy sheets for argon shielded arc welding
06 p0932 A69-17898

Mechanical stability of pressed and forged Ti alloy gas turbine disks at high temperatures and rates of rotation
06 p1026 A69-18018

Structure and critical superconductivity current of titanium niobium alloy as function of heat treatment and deformation
07 p1158 A69-18532

Titanium aluminum alloys two stage direct production by aluminothermal reduction of titanium tetrachloride
07 p1159 A69-18536

Soviet book on Ti alloys covering production technology, applications, metalchemistry, phase transformations and metallurgy
07 p1160 A69-18760

Ti alloy sheet, plates, rods, sectional shapes, forgings, stampings, pipes and wire production from ingots and blanks
07 p1161 A69-18762

Ti alloys chemical composition, fatigue life, stress rupture strength, crack susceptibility and nature of stress-strain rate
07 p1161 A69-18763

Ti metalchemistry investigations, noting atomic radius, electronegativity valency effect, first atom ionization potential and production of special Ti alloys
07 p1161 A69-18764

Ti alloy blanks production technology and quality control, noting rolling of sectional profiles
07 p1161 A69-18765

Ti alloys thermomechanical treatment effect on strength and plasticity characteristics, noting single and double phase alloys and rupture
07 p1161 A69-18766

Ti-Al-V alloys phase diagrams for isothermal cross sections and polythermal cross sections with constant Al/V ratios
07 p1161 A69-18768

Ti rich Ti-Al-Mo-Zr alloys phase diagrams at high temperatures, noting presence of solid solutions
07 p1161 A69-18769

Ti-Zr-Sn alloys phase equilibria and interaction between titanium stannide and solid solution of Ti and Zr
07 p1162 A69-18770

Thermal and metallographic analyses of Ti-Zr-Al system vertical sections close to Ti-Al edge, considering phase equilibrium
07 p1162 A69-18771

Hydride, cold, irreversible and reversible hydrogen brittleness in titanium and titanium alloys
07 p1162 A69-18772

Metastable phases in titanium alloys with beta alloying elements
07 p1162 A69-18773

Phase transformations in titanium alloys under nonequilibrium conditions
07 p1162 A69-18774

Tin and zirconium addition effect on transformation of titanium alloys during heat treatment
07 p1162 A69-18775

Phase and structural transformations in two phase quenched and aged titanium alloys, using electron microscopy and X ray analysis
07 p1162 A69-18776

Ti alloy beta phase variations in quantity, composition and dispersion during quenching, thermomechanical treatment and aging
07 p1163 A69-18777

Titanium vanadium martensite decomposition kinetics during heating, showing shearing process and dependence on temperature during quenching
07 p1163 A69-18778

Chemical composition relationship to heat resistance of titanium alloys, using diagrams for establishing composition of new multicomponent alloys
07 p1163 A69-18780

Corrosion resistance and mechanical properties of Ti-Mo alloy, developing processing methods for forgings, bars and sheets
07 p1163 A69-18781

Stress rupture, creep and thermal stability of AT-3 titanium alloy, discussing possible applications
07 p1163 A69-18782

Production technology of sheets, forgings and drop forgings from Ti and Ti alloys, discussing gas saturation prevention and plastic deformation
07 p1164 A69-18783

Soviet pipe production technology from Ti and Ti alloys, considering properties and methods improvement
07 p1164 A69-18784

Section pressing from Ti alloy, noting procedure and temperature dependent deformation parameters effects on microstructure and properties
07 p1164 A69-18785

Welding methods used for Ti and Ti alloys and difficulties encountered
07 p1139 A69-18786

Tungsten coatings applied on stainless steel and titanium alloy surfaces by plasma jet
07 p1165 A69-18931

Forging and heat treatment parameters effect on Ti-Al-V alloy low cycle fatigue properties, relating crack initiation and propagation rates to microstructures
07 p1169 A69-19665
[ASM PAPER D8-24.4]

Titanium hot forming and sizing die fabrication concepts for aircraft structures
07 p1143 A69-19671
[ASM PAPER D8-26.1]

Titanium alloys role in turbofan and turbojet engine design, noting use in components and introduction in manufacturing techniques
07 p1143 A69-19673
[ASM PAPER D8-26.4]

TIG welding introduced residual stresses amplitude and distribution in Ti sheets, studying effects on mechanical properties
07 p1169 A69-19674
[ASM PAPER GG8-6.2]

Weld mechanical properties of Ti-6Al-2Sn-4Zr-2Mo titanium alloy as function of cooling rate changes or transformation rate shifts resulting in wide range of hardnesses
08 p1318 A69-19965

Roll planishing and thermal treatments effects on gas tungsten arc welded Ti-6Al-4V alloy on residual stresses, tensile, formability and fracture toughness properties
08 p1319 A69-19966

Oxidation kinetics of niobium titanium alloy in air and oxygen at 1000 C, analyzing nitrogen and pressure effects
08 p1331 A69-20193

Oxidation kinetics of niobium titanium alloy in air and oxygen between 650 and 1000 C, analyzing activation energies and nitrogen effects
08 p1331 A69-20194

Phase identification and microstructural effects of gaseous nitrogen reaction with binary Nb-Ti alloys at 1000 C
08 p1331 A69-20195

Electrochemical kinetic and mass transport mode for studying stress corrosion crack propagation in Ti
08 p1332 A69-20359
[ECS PAPER 147]

Methanol-water-chloride solutions effect on titanium alloys failure time, noting effect of changing water volume on cracking

09 p1521 A69-21400

Forming and processing facility for producing one million titanium alloy parts per month for Boeing 747 aircraft

09 p1504 A69-22063

Increased Ti heat resistance by forming solid solutions and compounds having various dispersions and bond strength

09 p1525 A69-22140

Diffusion bonding parameters for producing hollow Ti-Al compressor blades, discussing surface preparation, postbound heat treatment quality control and mechanical properties

[ASME PAPER 69-GT-46]

09 p1513 A69-22484

Titanium alloy castings fatigue behavior at room and elevated temperatures in annealed and heat treated conditions

[ASME PAPER 69-GT-22]

09 p1619 A69-22497

Spontaneous martensite phase transformation in Ti-Cr alloy thin foils formed electrolytically

10 p1708 A69-22994

Crack propagation velocity in titanium alloys over varying stress intensities under adverse environment

10 p1709 A69-23058

Fracture surfaces of Ti and Ti-Sn alloys for stress corrosion cracking in methanol with HCl and in aqueous chloride solutions

10 p1710 A69-23085

Refractory alloys electrodes used for surface coating Ti alloys by electric spark method, studying microhardness and wear resistance

10 p1711 A69-23339

Initial aging stage in Fe-Ni-Ti alloys using diffuse X ray scattering with electron microscopy of thin foils

10 p1712 A69-23720

Brittle fracture at high temperatures in titanium alloys using scanning electron beam microanalysis, noting reaction diffusion with atmosphere and grain boundaries destruction

10 p1713 A69-23823

Cyclic stress-strain and fatigue behavior in aircraft structural metals, discussing hardening and softening in aluminum alloys, steels and titanium alloys

10 p1714 A69-23981

Cyclic deformation resistance and fatigue damage accumulation in aluminum alloys, aircraft steels and titanium alloys

10 p1715 A69-23983

Optimal processing parameters for producing ingots and semifinished products from corrosion resistant Ti alloys with added Mo

11 p1902 A69-24273

Diffusion constant of Ni in Ti alloys with Al, Mo and Nb, considering beta phase

11 p1902 A69-24274

Near boundary zones in VT15 Ti alloy not involved in beta phase decomposition during aging below 500 C attributed to vacancy concentration decrease

11 p1902 A69-24275

Structural inhomogeneity of Ti alloys cause increased susceptibility to production of sheets, forgings and drop forgings

11 p1902 A69-24276

Thermomechanical treatment effect on VT15 Ti alloy properties and welds after deformation, attaining high tensile strength and plastic properties

11 p1889 A69-24277

Stress corrosion cracking of Ti-6Al-4V alloy tensile tested in anhydrous methanol by electron fractography and diffraction, noting hydrogen embrittlement

11 p1903 A69-24576

Aluminum additive effects on copper-titanium alloy decomposition, discussing Guinier complexes, heterogeneous nucleation, plastic deformation and low temperature aging

11 p1905 A69-24922

Hydrogen effect on temperature dependence of tensile strength and stress rupture strength of Ti alloys, considering annealing, quenching and aging

11 p1905 A69-24962

Heat treatment effect on Ti-Mn alloy microstructure, discussing fcc martensite transformation into alpha, beta and intermediate phases as function of aging

11 p1906 A69-25578

Porosity sources in Ti alloy welds, discussing increased gas content and silica, edge surface finish and gas hose contaminants

11 p1892 A69-25668

Gas bubble formation in Ti welding associated with gas nuclei in metal, molten dwell time, gas diffusion coefficients, joint edge conditions, etc

11 p1892 A69-25669

High pressure vessels welding reliability improvement, discussing edge profile, air expulsion from vessel and shielding atmosphere

11 p1892 A69-25670

Yield to ultimate tensile strength ratio of titanium alloys subjected to thermomechanical treatment

11 p1906 A69-25683

Stress corrosion cracking of titanium alloys in contact with high temperature fuel tank sealants

12 p2112 A69-25945

Ti-Nb alloy structure in heat treatment states analyzed by diffuse scattering of X ray lines and by electron microscope

12 p2112 A69-26036

Precipitated phase composition and structure of Co-Ti solid solution during aging

12 p2112 A69-26037

Quenched titanium-niobium alloy structure effect on superconductivity properties, using electron microscope and X rays

12 p2112 A69-26040

Ni-Ti alloy intergranular deformation at constant tension within wide temperature range

12 p2113 A69-26044

Fatigue strength reduction in Ti alloy in sliding friction contact with metallic materials caused by fretting corrosion

12 p2113 A69-26125

Oxygen content effect on tension-compression fatigue of alpha Ti alloys, discussing internal damage associated with twin formation

12 p2116 A69-27134

Alloying effect on surface oxides determined from photoelectric polarization measurements for Ti-Nb and Ti-Ni

13 p2275 A69-27292

Martensite transformation in Ti-Cr binary alloys by thin foil electron microscopy, noting crystallographic theory

13 p2276 A69-27369

Low cycle fatigue crack initiation in Ti-6Al-4V at room and high temperatures and in aqueous salt environment

13 p2278 A69-27413

Stress corrosion crack initiation and propagation in titanium alloy

13 p2282 A69-28165

Transition zone structure and phase composition in Ti/stainless steel bimetal as function of rolling conditions and heat treatment

13 p2283 A69-28490

Titanium alloys for thermionic nuclear converters, discussing melting, forging, drawing and quality control of mechanical and physical properties

14 p2462 A69-29217

Beta Ti alloy initial state effect on mechanical properties and dislocation structure after cold deformation by rolling

14 p2463 A69-29313

Stress corrosion preventative metal-pigmented paints for titanium alloys, discussing chemicals added to increase cathodic potential

14 p2469 A69-29936

Martensite transformation with fcc lattice in Ti alloys containing 5.9 percent Fe analyzed as function of cooling rate using X ray analysis

15 p2636 A69-30105

Ion nitride hardening of Mo-Ti alloy at 1300 degrees C in cathode glow discharge tube

15 p2637 A69-30212

Titanium alloys fatigue properties at various temperatures using notched and unnotched specimens, considering vibrational fatigue strength and notch sensitivity

15 p2637 A69-30227

Oxygen content and grain structure influence on TS5 Ti alloy mechanical properties, notch and crack growth sensitivity at low temperature

15 p2637 A69-30266

Beta titanium alloys mechanical properties improvement, discussing effects of alloying elements heat treatment and high temperature deformation

15 p2637 A69-30269

Titanium alloy VT3-1 recrystallization and oxidation processes studied by heating from 700-1200 C

15 p2637 A69-30270

Crack initiation and propagation in Ti alloys during thermal cyclic heating noting influence of gas saturation

15 p2637 A69-30271

Charge materials purity found to increase beta-Ti alloys properties

15 p2638 A69-30272

Cr-Si diffusion layers on Ti, noting results of roentgenographic and metallographic studies

15 p2638 A69-30279

Titanium alloy tensile specimens tests in air, methanol and anhydrous methanol environments at known stress-strain-time relations examined by fractography and high resolution electron diffraction

16 p2799 A69-31718

Carbidothemic process for high melting metals and alloys production stressing Ti alloys

16 p2800 A69-31777

Ti alloys commercial applications and properties, discussing alloying elements influence, deformability, weldability, stress corrosion and market trends

16 p2801 A69-31784

Ti alloy forgings production for optimal mechanical properties by cross section and structural condition selection and avoidance of oxygen, nitrogen and hydrogen pickup

16 p2801 A69-31785

Slow forming forging and extrusion required for Ti alloys, discussing mechanical properties as function of beta transformation temperature

16 p2793 A69-31786

Time, temperature and transformation curves for Ti alloy by dilatometry, hardness measurements, X rays and micrography, discussing martensite and beta-alpha transformations

16 p2802 A69-32180

Hydrogen effects on ELI Ti-Al-Sn alloy, conducting tensile, fretting and abrasion tests on stressed and thermal cycled specimens

[AIAA PAPER 69-585]

16 p2803 A69-32760

Plastic flow anisotropy and texture shifting by rolling in Ti-Mo-V alloy, analyzing slip rotation, grain boundary shear and deformation mode

17 p2987 A69-33078

Ti-Al base alloys brittleness and stress corrosion cracking, discussing diffusion mechanism, hydrogen mobility, dislocations, etc

17 p2987 A69-33372

Steady state flux jumping for thin walled tubular superconducting NbTi subjected to coaxial superimposed AC and DC magnetic fields, discussing effective resistivity

17 p3016 A69-33787

Damping properties of turbine blade materials subjected to transverse bending vibrations in vacuum and at high temperatures, including Ti alloys

17 p2990 A69-33932

Titanium alloy martensites crystallography by electron microscope, discussing lattice parameters and spontaneous transformation

18 p3154 A69-34245

Finish turning cutting speed effects on titanium alloy surface layers

18 p3148 A69-34548

Omega phase formation in Ti and Zr alloys with transition metals, discussing effects on mechanical and superconducting properties

18 p3155 A69-34634

Spark source mass spectroscopy for determining trace elements in Ti and Ti alloys used in aeronautical and aerospace technology

[ONERA-TP-723]

18 p3155 A69-34638

Optimum conditions for producing Ti-V alloy sheet plated on one side with Nb by hot rolling

18 p3155 A69-34652

Beryllium diffusion coefficients in Zr and Ti bcc phases, using radioactive beryllium 7 at high temperatures

18 p3157 A69-35251

Ti-6Al-4V alloy general and stress corrosion behavior in Freon environments, discussing fracture mechanics

18 p3150 A69-35411

Capacitor discharge stud welding on Ti alloys, discussing weld zone microstructure, arc and mechanical properties

18 p3151 A69-35431

Soviet collection of papers on strength and plasticity of Ni and Ti and alloys covering high temperature internal friction, deformation and creep characteristics

18 p3158 A69-35442

Alpha Ti-Al and Ti alloys plastic deformation at low temperatures, noting slip and twin mechanisms role

18 p3158 A69-35444

Phase shape deformation and austenite stabilization in Fe-Ni and Fe-Ni-Ti alloys following secondary alpha phase of reversed martensite-austenite transformation

18 p3159 A69-35448

Mechanical properties associated with 55-Nitinol memory effect, presenting stress-strain and electrical resistivity as function of temperature

19 p3340 A69-35523

Wide panel Ti structural extrusions with integral stiffeners, discussing material, sizes, properties and tolerances

19 p3319 A69-35552

Controllable process for forming Ti-Ni intermetallic wear resistant coating on Ti alloys, discussing techniques, weight saving advantage, gear tests, etc

19 p3323 A69-35582

Ti sub 3, Rh sub 5 and Hf sub 3, Rh sub 5 existence and isomorphism confirmed by crystallographic and X ray methods

19 p3343 A69-35920

High strength titanium alloys subcritical stress corrosion crack propagation, studying stress and environment effects on cleavage mode

19 p3343 A69-35922

Ti-Al alloys yield and fracture characteristics as function of high exposure temperatures, studying causes of embrittlement

19 p3344 A69-35927

Ti transition metals alloys omega phase precipitation, discussing composition, morphology, coherency, formation, etc

19 p3344 A69-35928

Heat treatment effects on mechanical properties of Ti-Fe and Ti-Fe-Al alloys

19 p3344 A69-36151

Quenching temperature and deformation conditions for Ti alloy bars optimal mechanical properties, emphasizing effect of primary structure

19 p3328 A69-36152

Titanium alloys case hardened by diffusion of various metals at high temperatures, measuring increase in wear resistance

19 p3344 A69-36153

Ni-Ti maraging steel hardness impact strength and thermal EMF changes during quenching

19 p3345 A69-36154

Pyrolyzed tetraethoxysilane for carburizing steels and Ti alloys at 850-1050 C

19 p3328 A69-36161

Tempering time and temperature effect on microstructure, superconductivity, tensile strength and electrical conductivity of recrystallized Nb-Ti alloy

19 p3345 A69-36302

Structural aerospace materials development with emphasis on Be and Ti alloys, discussing material combinations and composites

19 p3345 A69-36319

Plane strain fracture toughness of high strength steels and Ti alloy from precracked notched bend test method

19 p3346 A69-36436

Titanium alloys wear and fatigue resistance as functions of time and temperature of nitriding by purified nitrogen

19 p3347 A69-36743

Ti and Ti alloys stress corrosion cracking, discussing metallurgical and environmental factors

19 p3351 A69-36900

Titanium alloys stress corrosion cracking in presence of chloride, bromide and iodide under potentiostatic conditions, postulating electrochemical kinetic and mass transport model

19 p3351 A69-36901

Titanium alloys stress corrosion cracking (SCC) from metallurgical-mechanical viewpoint, discussing phase transformations, dislocation arrangements, crack propagation, etc

19 p3352 A69-36902

Metallographic analysis of stress corrosion cracking of Ti alloys of Al and Sn in aqueous magnesium chloride solutions, noting cleavage process

19 p3352 A69-36903

Moisture and hydrogen role in hot chloride salt stress corrosion cracking of Ti alloys by radiotracer technique and mass spectroscopy

19 p3352 A69-36904

Titanium alloys hot salt stress corrosion cracking, studying effects of chlorides and surface oxides

19 p3352 A69-36905

Ti alloy stress corrosion susceptibility in salt water, alcohols and alkanes, comparing stress intensity for crack propagation in dry air

19 p3353 A69-36907

Singular factors affecting stress corrosion cracking resistance of Ti alloys in salt water and hot salt, finding immune single phase alloys

19 p3353 A69-36908

Phase transformations and strengthening mechanisms in Ti-Al-V alloy

20 p3556 A69-36954

Processing variables influence on microstructure of extruded Ti-Al-Sn alloy, noting deformation by slip over temperature range

20 p3557 A69-36955

Yield strength, deformation modes and fracture characteristics of Ti-Al alloys, examining strength and fracture characteristics as function of structure and chemical composition

20 p3557 A69-36959

Reactivity of hydrogen with surface of Ti-Al-V alloy under fatigue cycling at ambient and cryogenic temperatures

20 p3557 A69-36960

Alpha and alpha plus beta Ti alloys analyzed to relate phase composition and microstructure to stress corrosion cracking in NaCl solution

20 p3557 A69-36961

Spectral reflectivities of sintered Ti-TiN-TiC and Zr-ZrN-ZrC alloys and Zr-ZrN-ZrC alloys

20 p3559 A69-37330

Beta working effect on Ti alloy mechanical and fatigue properties [ASM PAPER D8-24.3]

20 p3564 A69-38136

Alpha Ti thermally activated tensile deformation, studying flow stress dependence on strain, temperature and strain rate [ASM PAPER W9-4.2]

21 p3729 A69-38659

Extrusion variables influence on microstructure and hardness level of Ti-Al-Sn compared with recrystallization behavior after cold swaging [ASM PAPER W9-8.2]

21 p3729 A69-38660

Ti-Al-V fasteners heat treated in beta field, showing superior mechanical properties to samples treated in alpha plus beta field

21 p3729 A69-38661

Texture hardening combined with age hardening for biaxial strength improvement of Ti-Al-V alloy, discussing applications to spherical pressure vessels

21 p3729 A69-38662

Stress corrosion cracking of alpha and alpha-beta Ti alloys in aqueous environment at ambient temperature, noting Al content and microconstituents

21 p3743 A69-38663

Ti honeycomb sandwich panels, comparing properties of Ti and Al based brazing alloys

21 p3730 A69-38665

Ti-Al-V sheets quenched from alpha plus beta field into salt bath at various high temperatures, studying effects of bath temperature and holding time on aging and mechanical properties

21 p3730 A69-38667

Oxidation resistant silicide coatings for tantalum and tungsten alloys at elevated temperatures

21 p3730 A69-38673

Torsional moments and forces during Ti alloy and refractory alloy milling with cylindrical cutter

21 p3731 A69-38877

Diffusion layers and elasticity-dependent interdiffusion coefficients of Ti binary systems, using X rays

21 p3745 A69-38954

Phase plasticity in Ti-O alloy as function of temperature in alpha Ti and TiO, noting role of increased oxygen diffusion mobility

21 p3746 A69-38959

Fluosilicic acid in chemical milling of Ti and Ti alloys

21 p3669 A69-38966

Tungsten coatings applied on stainless steel and titanium alloy surfaces by plasma jet

21 p3746 A69-39152

Ti-V martensite decay during heating, noting temperature dependence of elastic moduli and electrical conductivity

21 p3746 A69-39160

Plastic deformation in hardened Ti alloys with thermally unstable beta phase under static compression and tensile loads by electron microscope

21 p3746 A69-39161

Dislocation structures in Nb-Ti alloys formed after annealing

21 p3747 A69-39163

Hot salt stress corrosion of Ti alloy, discussing hydrogen generation during elevated temperature exposure and embrittlement as manifestation of strain rate

21 p3747 A69-39434

Ti-Al-V forgings macro /prior beta/ grain size and in-process thermal treatment effects on fatigue life [AIME PAPER S69-2]

21 p3732 A69-39470

Alpha-beta Ti-Al-V-Mo-Zr alloy with high strength, fracture toughness and crack propagation resistance, low density and adequate ductility, discussing test results

21 p3747 A69-39472

Soviet book on heat treatment of Ti alloys emphasizing structural and phase composition changes

21 p3749 A69-39526

Ti emission and absorption K spectra in Ti-Al intermetallics, suggesting hypothesis concerning long wave and fundamental subbands origin

21 p3749 A69-39787

Elastic modulus of beta Ti alloy containing Mo, Cr, Fe and Al measured under vibrations and shear modulus determined under torsion

22 p3969 A69-4007

Heat treated Ti-Al-Fe alloys thermal, microstructural and X ray analyses of phase transformations in Ti-rich corner

22 p3969 A69-4007

Fusibility diagrams for Ti-Ta-Cr by determining specimens melting points after homogenization at various temperatures in argon

22 p3969 A69-4007

Titanium alloys for strength and weight saving in aircraft fasteners operating at cryogenic or elevated temperatures, discussing corrosion and notch sensitivity

22 p3956 A69-40824

Creep at 400 degree C in Ti alloy sheets in short term plastic deformation due to work hardening by stepwise drawing in extensometric device

22 p3971 A69-41032

Joints structure, phase and chemical composition in kinetics of titanium diffusion brazing with copper

22 p3958 A69-41203

Al-Ni-Co alloys precipitation mechanism effect on magnetic properties, including heat treatment and Ti alloying effects

23 p4175 A69-41298

Titanium alloys hardness indirect measurement by determining electrochemical potential

23 p4177 A69-41598

Ti alloy aircraft components and equipment production, considering roles of temperature, deformation rate and thermal conductivity in drop forging and extrusion processes [DGLR-69-003]

23 p4170 A69-42162

Cold working and aging effects on mechanical properties of TiAl-V including creep and temperature effects [DGLR-69-002]

23 p4177 A69-42163

Fracture toughness and crack propagation in annealed aircraft titanium alloys tested per ASTM procedure, comparing results with high strength steel and aluminum alloys

23 p4177 A69-42165

Alpha Ti fatigue properties, studying internal precracking effects in alloys of various tensile strength

23 p4178 A69-42360

IR inspection system for detecting interstitially caused alpha segregation in Ti alloy disks

24 p4318 A69-42757

Wear protection of pressure loaded Ti-Mn alloy by heat diffused lubricated electrodeless Ni coatings

24 p4331 A69-42786

Nondestructive detection of titanium hydride formation in threaded joints of Ti alloy pressurization tanks by neutron radiography

24 p4320 A69-42998

Ellipsometer measurements for oxidation rates of binary Ti-Al alloys in vacuum and in pure and premixed gases, using in situ test cell

24 p4316 A69-43322

Ti-Al alloy structure manufacturing technology covering forming, cleaning, chem-milling, machining, fastening and welding

24 p4324 A69-43431

Ti and Ti alloys investment castings mechanical properties, dimensional control and corrosion resistance in aircraft and aerospace structural application

24 p4324 A69-43433

SST range-payload improvement by emphasizing Ti alloys honeycomb and trusscore sandwich panels fabrication for structural boxes in wing and empennage

24 p4324 A69-43436

TITANIUM BORIDES

Ti and Zr diborides sintering with Cr, Mo, W and Re additions, discussing activation, pressure effects and density

22 p3968 A69-39888

Titanium diboride electrodeposition on Inconel from molten salt electrolyte at high temperatures noting electrolyte metabolates and coating thickness range

22 p3970 A69-40735

TITANIUM CARBIDES

Electrical resistivity, composition, and physical properties of titanium carbide, titanium oxide and titanium-oxygen-carbon alloys

03 p0446 A69-13575

- Heavy titanium carbide precipitation on fatigue slip zones of stainless steel, noting rupture produced crystallographic facets
03 p0447 A69-13605
- Reducing decarburization of titanium carbide in argon plasma by carbon containing atmosphere, obtaining stable spheroidal particles
05 p0767 A69-15976
- X ray emission from powdered graphite, diamond and titanium carbides
06 p0946 A69-17545
- Phase composition and Co content effect in WC-Co and WC-TiC-Co alloys on magnetic properties behavior
13 p2275 A69-27343
- Homogeneous NbC and TiC specimens physical properties, discussing current carrier density and mobility dependence on composition
14 p2462 A69-28976
- Nb and Ti carbides investigated for lattice parameters, microhardness and resistivity in homogeneity domain
15 p2638 A69-30282
- Electrical resistance and temperature coefficient dependence on phase composition of Ti, Zr and Nb carbides
15 p2641 A69-31047
- TiC-Re phase diagram over wide range of temperatures and chemical compositions
15 p2641 A69-31247
- Annealing effect on transition zone cohesion strength in two layer steel-titanium sheet, investigating role of TiC formation
18 p3159 A69-35450
- Nb-Ti-C alloys electrical resistivity and thermal EMF noting nearly linear variations with temperature
20 p3558 A69-36976
- Recrystallization during sintering of free flowing Nb and Ti carbide powders, determining grain growth dependence on temperature and activation energy
22 p3970 A69-40636
- Wear resistant Ti carbide based cermets with alloy steel binder, noting electrical and heat conductivity dependence on composition and temperature
22 p3971 A69-40919
- TITANIUM CHLORIDES**
- Two stage sodium thermal reduction of Ti tetrachloride to metallic Ti, determining process parameters
07 p1164 A69-18785
- TITANIUM COMPOUNDS**
- NT ANATASE
NT BARIUM TITANATES
NT ILMENITE
NT LEAD TITANATES
NT PEROVSKITES
NT RUTILE
NT STRONTIUM TITANATES
- Crystal and molecular structure of mu-oxo-bis(chlorobis(2, 4-pentanedionato)titanium(IV)/chloroform solved by symbolic sign determination method and Patterson map interpretation
01 p0023 A69-10411
- Increased Ti heat resistance by forming solid solutions and compounds having various dispersions and bond strength
09 p1525 A69-22140
- Microstructure and crystallography of lamellar eutectic alloy of Ni and intermetallic Ni-Ti compound
10 p1707 A69-22986
- TiNi compound alloying with Al and Fe, considering effect on hot hardness at various temperatures
18 p3157 A69-35249
- Conditions for obtaining concentrated Ti-containing melts free of Al and V chlorides by cementing with metallic Ti and Ti-containing materials
22 p3957 A69-40918
- Aqueous hydrazine solution effect on Ti disulfide crystalline structure
23 p4112 A69-41426
- TITANIUM NITRIDES**
- Young modulus of sintered nonporous titanium, zirconium and chromium nitrides, computing characteristic temperature and root mean square atomic displacements in lattices
06 p0938 A69-16830
- Nitrogen diffusion coefficients in TiN and alpha-Ti determined by metallographic and roentgenographic analyses, establishing linear equations for temperature dependence
09 p1523 A69-21736
- Nitrogen diffusion coefficients in TiN and alpha-Ti determined by metallographic and roentgenographic analyses, establishing linear equations for temperature dependence
20 p3564 A69-38214
- TITANIUM OXIDES**
- NT ANATASE
NT ILMENITE
NT RUTILE
- Electrical resistivity, composition, and physical properties of titanium carbide, titanium oxide and titanium-oxygen-carbon alloys
03 p0446 A69-13575
- Electrical, optical, magnetic and structural properties of titanium oxide, stressing transition difference with vanadium oxide
03 p0490 A69-13923
- Frequency transformation coefficients in titanium oxide-chromide traveling wave maser
07 p1146 A69-18481
- Polymorphic characteristics of titanium pentoxide prepared by reducing titania, examining oxidation products with X ray diffraction
07 p1168 A69-19601
- TiO gas dissociation energy data discrepancies, discussing high temperature vaporization and thermodynamic properties
08 p1268 A69-21012
- Valence electrons mean density stability in Ti and V monoxides, describing mechanism for filling M vacancies with simultaneously forming O vacancies
09 p1523 A69-21738
- Photoelectric observations of color and titanium oxide in M7 giants in nuclear bulge of Galaxy compared with late giants near sun
16 p2863 A69-32396
- Ti and V sesquioxides and TiO-VO solid solutions crystallography and defect chemistry over entire range of compositions
20 p3484 A69-37526
- TiO bands identified in Mira variables IR region, discussing rotational structure and band strength-temperature relation
20 p3611 A69-38158
- Rotational analysis of O₂/O band of gamma-prime system of TiO molecule, considering transition to ground state
20 p3577 A69-38170
- Phase plasticity in Ti-O alloy as function of temperature in alpha Ti and TiO, noting role of increased oxygen diffusion mobility
21 p3746 A69-38959
- Aluminothermic reduction of Ti and Ni oxides for obtaining Ti-Ni-Al system
22 p3969 A69-40070
- TOCOPHEROL**
- Hyperoxia exposure and hemolysis in tocopherol deficient mice
06 p0874 A69-17837
- In vivo hemolytic susceptibility to hyperoxia in mice deficient in tocopherol
07 p1066 A69-19422
- TOLERANCES (MECHANICS)**
- NT IMPACT TOLERANCES
- Reflecting telescope objective for far UV and X ray regions, discussing microfinishing and optical and mechanical tolerances
01 p0121 A69-10896
- Statistical radomes design, analyzing dielectric constant and wall thickness tolerances effects on amplitude and phase of transmitted wave
07 p1111 A69-19531
- Damage tolerance as design consideration for aircraft safety and reliability, discussing application of failed single principal member concept to airframe construction
[AIAA PAPER 69-212] 07 p1056 A69-19574
- Reliability distribution parameters for electronic components, determining time and tolerance dependence of reliability
08 p1293 A69-21114
- Compressor to inlet distortion tolerance design techniques for gas turbine compressors, noting rotor matching, blade chord length, blade geometry, etc
[ASME PAPER 69-GT-115] 09 p1572 A69-22525
- True position dimensioning and tolerancing/TPDT/system usage in aerospace industry
10 p1700 A69-23355
- Tolerable surface roughness for transition stability in incompressible laminar boundary layer, including analysis of two and three dimensional roughness shape effects
12 p2063 A69-26774
- Rotating shafts impact damping efficiency increaseable by providing proper clearance to reduce shaft stress in critical resonance frequency region
17 p3066 A69-33946
- Error propagation and tolerance analysis in design and reliability engineering and stress analysis
21 p3842 A69-39303
- Wobble tolerance influence on axis deflection affecting accuracy during assembling of turbine rotors and stators
21 p3733 A69-39719
- Tolerance limits for uncertain requirements vector in linear programming with random variation, introducing nonparametric statistics with sensitivity analysis
[AAS PAPER 69-079] 24 p4340 A69-42821
- TOLERANCES (PHYSIOLOGY)**
- NT ACCELERATION TOLERANCE
NT ALTITUDE TOLERANCE
NT COLD TOLERANCE
NT HEAT TOLERANCE
NT HUMAN TOLERANCES
NT RADIATION TOLERANCE
- Resistance of animal organisms and cells to extreme environmental conditions discussing exobiological implications for extraterrestrial life systems
01 p0017 A69-11083
- Invertebrates resistance to explosive decompression and low end pressure, noting hypoxia and freezing as cause of death
07 p1059 A69-18537
- Resistance to bacterial pneumonia and influenza infection in space cabin environment tested on mice in simulation chamber
07 p1067 A69-19432
- Glucose disappearance rate from dogs blood at simulated 27,000 ft altitude compared with tolerance at ground level, discussing chlorpromazine administration effect
14 p2408 A69-29305
- Cladonia rangiferina resistance to stresses, considering suitable indices for stress response
18 p3095 A69-34539
- Environmental stress effects on medical leech studied to determine tolerance to spacecraft launching, orbiting and reentry
24 p4268 A69-43403
- TOLLMEIN-SCHLICHTING WAVES**
- Wall curvature effect on hydrodynamic stability of laminar incompressible boundary layer with respect to perturbing Tollmien-Schlichting waves
19 p3299 A69-36587
- TONE**
- U PITCH
- TONOMETRY**
- U INTRAOCULAR PRESSURE
U PRESSURE MEASUREMENTS
- TONUS**
- U MUSCULAR TONUS
- TOOLING**
- High strength room temperature vulcanizing silicone rubber for tooling and fabrication of aircraft and missile components
09 p1507 A69-22331
- Superimposed tool vibration function in deep drawing, ironing and cold forging, discussing equipment instrumentation, emphasizing dynamic force measurement
[ASME PAPER 69-VIBR-8] 10 p1700 A69-24164
- TOOLS**
- U BORING MACHINES
U MACHINE TOOLS
U SPACE TOOLS
- TOPOGRAPHY**
- NT LUNAR TOPOGRAPHY
NT TERRAIN
- Mirror image and oblique shadow method forming moire patterns to measure surface topography
08 p1312 A69-20103
- Mars photographic and radar data correlation indicating smoothness of dark areas and roughness of desert areas
11 p1964 A69-25406
- Multispectral and calibrated Alaskan Arctic aerial survey of sea ice, thaw lakes and polygonal soils
12 p2075 A69-26996
- Martian topography during rotation observed using radar round trip echo delay at 7840 MHz, discussing dark areas relation to elevation
16 p2860 A69-32238
- Topographic mapping by high altitude jet aircraft photography
18 p3134 A69-34339

- APQ-97 side-looking radar for topographic mapping of continually cloud covered areas, noting data reduction and compilation methods 20 p3519 A69-36928
- Geological radar in regional and detail studies, discussing area side scanning imagery and lithology changes detection 20 p3491 A69-37652

TOPOLOGY

- NT FIXED POINTS [MATHEMATICS]
NT IMBEDDINGS [MATHEMATICS]
NT INVARIANT IMBEDDINGS

Volterra equation generalization by method involving operator for mapping of topological space into Banach space 02 p0270 A69-11534

Topological principles of gate and contact self correcting circuits not using self correcting codes 03 p0410 A69-13421

Nonlinear Volterra integral equation, extending topological dynamics application of nonautonomous ordinary differential equations 04 p0626 A69-15288

Fermi surface topology effects on Nernst-Ettingshausen coefficient from measurements in magnetic fields to 3.3 tesla and 1.2-4.2 K temperatures in metallic tin 05 p0808 A69-16357

Linear network analysis by topological formulas for derivation of k-tree terms without generation of k-trees of graph 06 p0903 A69-17409

Topological codes and simplicial subclass information rates, minimum weights and word length 06 p0948 A69-17866

Topology of solar magnetic field differential rotation, using hydromagnetic equations 09 p1606 A69-22425

Generalized techniques for contour maps problem solution applied to problem of locating ground track of aircraft from elevation readings obtained during flight 09 p1461 A69-22599

Topologies introduced on state space for differential equations to obtain dynamical systems 11 p1909 A69-25409

Topological properties of plane flow in subsonic region behind smooth shock wave in uniform supersonic flow, discussing shock wave convexity 12 p2061 A69-25888

Description and automated research of correlation /DARC/ for establishing quantitative relationships between topology and properties of chemical substance 12 p2026 A69-26361

Closed linear operators in topological vector space generalized for Banach space case 13 p2288 A69-27734

Topological circuit analysis by digital computer, using conductivity matrix determinant in form of sum of trees 15 p2582 A69-30112

Finite elements concept cast in topological framework, presenting generalizations of Lagrange and Hermite interpolation functions 15 p2711 A69-30874

Conditional trajectory stability associated with first integral compared with orbital stability on base of topological method 16 p2853 A69-31622

Full stress design feasibility as function of load conditions, indeterminacy order and structure topology 16 p2872 A69-31915

Network synthesis technique applied to structural dynamics design, using topological formulas to express systems response transfer functions 17 p2933 A69-33709

Ordinary differential equations in linear topological space extended from Fattorini investigation, emphasizing use of linear operator 19 p3360 A69-36599

TORNADOES

Fully developed whirling steady state structure, discussing tornadoes maximum azimuthal speed, hurricanes rotational speed, model for mature hurricane and numerical computation [AIAA PAPER 69-671] 17 p2997 A69-33499

TOROIDAL DISCHARGE

U RING DISCHARGE

TOROIDAL PLASMAS

MHD waves and toroidal mode existence by mathematical approximation 02 p0236 A69-11430

Electrostatic acoustic wave mode with plasma motion in magnetic surfaces perpendicular to field in toroidal systems with geodesic curvature 03 p0475 A69-13147

Toroidal gas discharge in waveguide by coupling of microwave power into gas to heat gas, noting plasma confinement [IMPI PAPER A4] 04 p0636 A69-14999

Cusp magnetic field stabilizing superimposition on toroidal plasma discharge in polytron machine, noting role of Hall acceleration mechanism 06 p0965 A69-17514

Plasma diffusion in toroidal stellarator using integrals of drift equations for particle trajectories, determining distribution function 07 p1191 A69-18985

Toroidal plasma nonequilibrium in multiple confinement devices with conventional magnetically shielded supports 08 p1369 A69-20819

Asymptotic toroidal equilibrium for guiding center plasma model based on stellarator expansion, considering toroidal curvature, helical currents and plasma pressures 09 p1552 A69-22044

Plasma diffusion in toroidal stellarator, calculating collisional diffusion and diffusion constants 09 p1552 A69-22294

Toroidal theta pinched plasma column collapse, using snowplow model for study of column position shift and cross section deformation 11 p1924 A69-24303

Pfirsch-Schluter factor calculation for stationary toroidal plasma diffusion enhancement due to current along magnetic field over diffusion over that associated with diamagnetic current 11 p1925 A69-24312

Toroidal plasma radial drift suppression on curved theta pinch axis through introduction of transverse conducting ring inside vacuum tube 11 p1925 A69-24313

Turbulent heating of toroidal plasma system with current contained in ceramic vacuum chamber with copper housing 11 p1935 A69-25752

Unified model for spatial distribution of transpolar exospheric electron density for polar plasma study 12 p2151 A69-26952

Plasma jets tangential injection into toroidal magnetic field, discussing polarization interaction and depolarization effect 13 p2311 A69-28108

Transverse particle and energy fluxes in toroidal magnetic traps magnetic fields with ionized plasmas, discussing particle diffusion coefficient and thermal conductivity 13 p2314 A69-28446

Secular terms for parallel component of electric current parallel to permanent magnetic field in toroidal MHD oscillations 14 p2492 A69-29369

MHD mercury flow in rotating torus with little friction investigated for Reynolds numbers, considering induction pump forces and magnetic field influences 14 p2500 A69-29907

MHD stability and equilibrium of toroidal high beta configurations achieved by superimposing oscillating magnetic field on linear plasma column 15 p2660 A69-30877

Multipole configuration toroidal plasma confinement device MHD equilibrium and stability from measured data 16 p2823 A69-32563

TOROIDAL SHELLS

Small bending stiffness effect on inflated torus and cylindrical shells under radial load for determining large space structure stiffness 06 p1024 A69-17607

Liquid filled toroidal shaped rotating damping tube containing bubble, discussing parameters variation effect on spacecraft nutation 16 p2868 A69-32561

Nonaxisymmetric stability loss /buckling/ of closed toroidal shell of circular cross section under uniformly distributed external pressure, considering Volmir linear theory 17 p3055 A69-33130

Nonlinear equations for elastic strain of circular toroidal membrane shell under uniform pressure, computing stress and displacement fields 18 p3216 A69-34575

Standing waves in running tire shell wall, considering internal pressure, cross sections, wall thickness, cord angle, critical speed, etc 22 p4048 A69-41185

TOROIDS

Matched asymptotic expansions method applied to magnetic field induction in thin toroidal wire and flow past circular cylinder at small Reynolds number 07 p1180 A69-18811

Toroidal magnetic fields in ionosphere associated with solar quiet daily variations producing electric current and equatorial auroral electrojets 10 p1681 A69-22805

Toroidal configuration in stellar evolution, noting polar magnetic fields in stars and inclined rotators 12 p2173 A69-27174

Computer memory with digit wire magnetic circuit /torus/, discussing capacity, access and output 20 p3503 A69-37402

TORQUE

DC servo system with torque feedback, discussing bang-bang system comparison, analog simulation, damping and quasi-optimum behavior 07 p1059 A69-19229

Aerodynamic torque on spinning spherical satellite, noting applications to accommodation coefficient measurement and study of aerodynamic gas-surface interactions 09 p1611 A69-22087

Spacecraft attitude control with minimum energy control logic for small constant disturbance torques, considering reaction jet torquers and fuel consumption 11 p1966 A69-25446

Contact conformity effects on spinning torque and friction coefficient in angular contact ball bearings from lubricated and unlubricated tests [ASME PAPER 68-LUB-10] 15 p2628 A69-30901

Gravitational and magnetic torque effect on rotational motion of triaxial rigid body in regressing orbit about oblate primary mass 16 p2861 A69-32240

Gimbal torquing as function of gimbal structure response resulting in free gyro erection system, using any angular momentum at any initial starting angle 16 p2792 A69-32553

Gravity gradient satellite stabilization and magnetic hysteresis damping systems, outlining energy dissipation device involving torques 17 p3047 A69-33231

Elastohydrodynamic solution for ball torque spinning without rolling in nonconforming groove, showing increase in torque with stress and spinning and decreasing conformity [ASME PAPER 69-LUBS-11] 18 p3140 A69-34381

Torque calculations about joints of rigidly chain-like arranged clusters of flying bodies 18 p3208 A69-34776

Validity of Lorentz invariance, discussing nuclear magnetic resonance test on torque for spin of electrons, muons and neutrons 18 p3176 A69-35007

Gravity torque influence on axisymmetric dual spin satellites in fixed attitudes, using attitude stability studies of spinning single rigid bodies 19 p3429 A69-35917

Micell type optimum fiber arrangement for transferring torque across annulus, considering single straight, double and multiple annular arrays under single load system 19 p3447 A69-36851

Constraint torque elimination from vector equations canonical system for attitude dynamics of satellite consisting of arbitrarily interconnected rigid bodies [AIAA PAPER 69-923] 21 p3821 A69-39354

Aerodynamic and gravitational torque effects on orbiting satellites attitude stability, applying Liapunov direct method in case of conservative aerodynamic torque [AIAA PAPER 69-832] 21 p3821 A69-39363

TORQUE MEASURING APPARATUS

U TORQUEMETERS

TORQUE MOTORS

Brushless DC torque motor using reluctance magnetic circuit and toroidally distributed coil winding 01 p0012 A69-10154

Satellite attitude control, discussing mission requirements, typical guidance sensors, actuating torque, systems reliability, etc 09 p1609 A69-21617

TORQUEMETERS

Magnetoropometer for measuring torque /proportional to magnetic dipole moment/ exerted on object by earth magnetic field 02 p0248 A69-11768

Noncontacting torqueometers using magnetoelastic properties of steel shafts, discussing gas turbine and industrial applications
[ASME PAPER 69-GT-64] 09 p1500 A69-22480

Torsiograph systems analysis for rotors angular acceleration recording, discussing dynamic characteristics, system, environmental problems, etc 10 p1692 A69-23252

Short range telemetering strain gage system with astable multivibrator transmitter for measuring intercoupling displacement and shaft torque 22 p3946 A69-40314

TORSION

Torsion theory for modules over integral domain, giving definition of injective sums 13 p2287 A69-27339

Land gyrocompass on torsional suspensions in liquid filled chamber, considering design and operation in terms of precession theory 13 p2259 A69-27431

Natural oscillation frequency of gyrocompass mounted in torsional suspension, taking into account moments of inertia of sensitive element 16 p2791 A69-32282

Unstable metal deformation, discussing volume displacement in necking leading to fracture, homogeneous total deformation and torsion 17 p3053 A69-32987

Constrained elastoplastic torsion of closed thin walled cylindrical shells, analyzing tangential and normal stress by using equilibrium equations 18 p3222 A69-34978

Ronay effect in reversed cyclic torsion or tension in thin cylindrical viscoelastic tube showing creep under sustained load 20 p3625 A69-37596

Elastic-plastic torsion over complex polygonal domains without symmetry axis, using Sobolev space completeness characteristic to solve minimum variational problem 21 p3832 A69-38427

Saint Venant torsion problem using rederivation of integral equation by transferring external geometrical problem into internal static problem 21 p3836 A69-39003

Angular velocity of visual stimulus effect on human torsional eye movements using sectorized disks 22 p3883 A69-40874

Torsion analysis of curvilinear rectangular prismatic beam reinforced by off-center circular rod, using conformal mapping 22 p4049 A69-41279

Yield condition for elastic-plastic medium, considering pure torsion-associated second order effects and dissimilarity between stress and strain increment Mohr circles 23 p4234 A69-42409

TORSIONAL STRESS

Stress field and force system within torsional flow of cylindrical mass of incompressible anisotropic fluid 02 p0229 A69-11558

Torsion of variable cross sectional thin walled bars using shell theory equations 02 p0337 A69-11559

Numerical solutions of elastic problems by conformal mapping and finite difference method applied to circumferentially grooved shafts in torsion 02 p0346 A69-12419

Numerical solutions elastoplastic torsion of circumferentially grooved shafts based on flow and deformation type theories 02 p0346 A69-12420

Torsion bar with two inertia masses attached used to determine damping capacity and torsional fatigue strength 03 p0431 A69-13917

Yield curve softening in hard Al subject to cyclic torsional loading, noting deformation resistance, surface hardness and yield strength 04 p0671 A69-14411

Numerical method for stress function of elastic-plastic torsion of hollow bars during quasi-static monotonic twist compared with relaxation method solution 06 p1023 A69-17370

Circular bar elastoplastic behavior under combined axial force and torque in strain hardening range, noting elastic compressibility effects 06 p1023 A69-17371

Axially symmetric torsion of finite elastic cylindrical rod partially bonded to elastic half space, discussing coupling between dual Dini series and integral equations 07 p1236 A69-19474

Thin walled symmetrical angle section beam stability under bending moment by section deformation or torsional buckling 08 p1410 A69-19892

Polar elastic media pure torsion solved, noting couple-stresses influence on Poynting effect 08 p1414 A69-20527

Saint Venant torsion and flexure of prismatic bars analysis in polar coordinates, discussing boundary errors 09 p1621 A69-22770

Large uniform torsion of thin walled open section of circular cross section, deriving tube radius contraction observed in experiments 10 p1794 A69-22930

Dislocations velocity in high purity aluminum single crystals determined as function of applied stress at 74 and 83 K 10 p1713 A69-23840

Moment stresses effect on stress concentration in plates with common type hole, considering uniaxial and triaxial bending and torsion 11 p1971 A69-24646

Postbuckling behavior and subsequent imperfection sensitivity of thin walled cylinders subjected to torsion, considering perturbation 11 p1979 A69-24814

Plastic strains in aluminum alloy under biaxial tensile and combined tensile and torsion tests, discussing small elastoplastic deformation theory 11 p1905 A69-24948

Varying diameter anisotropic composite shafts torsion based on strain and stress functions 11 p1982 A69-24975

Rotor angular velocity and flexural strain interdependence at critical velocity 11 p1987 A69-25390

Elastic waves propagation in micropolar cylinder, treating longitudinal and torsional monochromatic waves in Cosserat medium 11 p1995 A69-25606

Electric analogy technique for torsion and flexure functions of uniform beams with terminal loads, considering Neumann boundary value problem 11 p1995 A69-25649

Torsion in composite inhomogeneous circular cylinder, obtaining solutions for elastic displacements and stresses 12 p2180 A69-26274

Torsional shearing stress in thick walled hollow rectangular cross sections 13 p2358 A69-27212

Torsional testing facility for delayed elastic and non-recoverable strains in materials, noting application to diffraction limited reflecting optics 13 p2240 A69-27955

Torsion of composite prismatic rod consisting of three different isotropic materials with two interfaces converging on cross section contour corner point 15 p2707 A69-30579

Oscillating beams lateral buckling allowing for torsional stress in determining critical load 15 p2712 A69-31015

Torsional stability of shallow shells of revolution, solving eigenvalue problem obtained from perturbation of nonlinear equations by finite differences 16 p2871 A69-31879

Plastic expansion in metals due to alternating torsional and static tensile loading 16 p2875 A69-32291

Tension-torsion-compression load testing machine of technological possibilities and accuracy [ONERA-TP-596] 17 p2945 A69-33065

Fatigue strength of highly loaded gears and stress measurements by strain gauges [AHS PAPER 371] 17 p3060 A69-33517

Equations in series form to describe composite beams behavior under nonuniform torsion 18 p3211 A69-34343

Elastoplastic boundaries of wave propagation of combined longitudinal and torsional stresses at tube end [ASME PAPER 69-APM-13] 18 p3213 A69-34389

Tension, bending and buckling torsion in thin walled beams described by extended beam model considered as one dimensional continuum 18 p3224 A69-35296

Creep strength of fiberglass reinforced polyester resins measured on structural components in long term tests under torsion 19 p3358 A69-35830

Dynamic recrystallization in Ni and Ni-Fe alloys during torsional high temperature deformation 19 p3344 A69-36147

Keyway stresses in shafts under tension, bending and torsion, using frozen stress photoelastic technique 19 p3445 A69-36827

Torsional moments and forces during Ti alloy and refractory alloy milling with cylindrical cutter 21 p3731 A69-38877

Stress-strain state of thick and thin walled closed shells of variable thickness during elastoplastic torsion developing in aircraft component production 21 p3835 A69-38882

Buckling of truncated conical shells under torsion with various boundary conditions, applying Galerkin method to estimate critical load and wave number 24 p4395 A69-42715

TORSIONAL VIBRATION

Torsional pendulum for stress and strain relaxation measurements of wire sample 01 p0079 A69-10221

Raman spectra and temperature dependent nuclear quadrupole resonance frequencies of p-dichlorobenzene and p-dichlorobenzene-D, calculating librational amplitudes 01 p0122 A69-10286

Semiautomatic computer for determining torsional oscillation natural frequency in multimass in-line systems 01 p0035 A69-10596

Torsional oscillations of elastic half space set up by rigid circular disk examined by integral equation method 01 p0169 A69-10809

Computer solution of forced torsional oscillation equations for periodic coupled machine system with viscous dampers 02 p0338 A69-11893

Spectral peaks for torsional oscillations of earth, estimating free periods from observations at six stations around earth 02 p0243 A69-12007

Flutter vibration of sails fixed along edge and single wing weather vanes in supersonic flows 02 p0192 A69-12824

Vacuum evaporated thin film components welding, using torsional ultrasonic vibrations for joint activation 04 p0605 A69-14561

Torsional elastic wave scattering from penny shaped crack, determining local dynamic stress field 04 p0678 A69-14872

Torsional or longitudinal vibrations of nonuniform bar with elastic end constraints, developing frequency and mode form equations suitable for computer 04 p0681 A69-15196

Bending-torsion mode of rotating tapered twisted turbomachine blade, analyzing coupled flexural and torsional vibrations effect on natural frequency [ASME PAPER 68-WA/GT-6] 05 p0838 A69-16141

Rotation wave propagation in elastic homogeneous isotropic centrosymmetric body in asymmetric elasticity theory 05 p0843 A69-16645

Heating effects produced by periodic stresses in viscoelastic bodies with resonance dispersion, considering torsional oscillations of viscoelastic cylinders 06 p1019 A69-16826

Glass fiber optical angular displacement noncontacting nonloading transducer suitable for measuring torsional vibrations 06 p0923 A69-16929

Anomalous spacecraft OGO-D motion explained by open section boom thermally induced oscillations, discussing corrective measures 07 p1231 A69-18331

Logarithmic decrement and period of disks performing torsional oscillations measured in viscous fluid, noting dependence on oscillation amplitude 08 p1417 A69-20781

Three dimensional vibration analysis of circular homogeneous elastic cylinder, obtaining differential equations and zero stress conditions 09 p1612 A69-21601

Three dimensional analysis of torsional vibrations of circular elastic homogeneous cylinder, stressing new torsional vibrations 09 p1612 A69-21603

Torsional vibrations of unstiffened cylindrical tubes analysis by differential equations and applications to free-free rectangular cross section 09 p1620 A69-22769

Torsional vibrations of composite elastic orthotropic cylinders, including cylindrical shells and isotropic composite cylinder 10 p1800 A69-23243

Forced torsional vibrations of turbine blades calculated by computer using mathematical models for resonance frequencies and tangential stresses
10 p1803 A69-24076

Response and stability of self sustained two degrees of freedom system with nonlinear damping, noting harmonic oscillations
[ASME PAPER 69-VIBR-24]
10 p1806 A69-24171

Heat generation in thin viscoelastic cylindrical shell with relaxation and resonance dispersion during torsional vibration
11 p2000 A69-25168

Optimum planform stabilizer selection for damping of rotational motion and elastic torsional stresses of aircraft fuselage about longitudinal axis
11 p1966 A69-25327

Thermally induced oscillatory instabilities in spacecraft booms, rederiving thermal torque equation to predict finite twist response
11 p1994 A69-25531

Directional solar thermal field /sunlight/ effect on coupled nonplanar transverse and torsional vibrations of satellite cylindrical antennas in orbit
11 p1994 A69-25534

Torsional oscillation of cylindrical shell of non-homogeneous material under periodic shearing force
13 p2361 A69-27462

W shear moduli at high temperatures measured by forced torsional vibration in wide frequency ranges, discussing grain boundary effects
14 p2465 A69-29651

Beam torsion nodal line displacement dependence on flexural and torsional bending frequency
18 p3223 A69-34998

Angular velocity torsional oscillations of solid sphere under elastic force couple rotating in viscous liquid bounded by immobile concentric sphere
18 p3175 A69-35320

Surrounding masses gravitational field effect on gravitational constant determination by torsional oscillations method, considering oscillation amplitude stability to eliminate errors
19 p3374 A69-36468

Tensional and torsional forced vibration tester for viscoelastic plastic materials under tensile strain
21 p3720 A69-38591

Optimal control of rotational and transversal motions of elastic flight vehicles, considering torsional and flexural deformations
21 p3760 A69-38890

Time optimal control for torsional vibrations of flight vehicle for limited energy case, illustrating uniform wing of constant rigidity
21 p3686 A69-38891

General system of equations derived for nonaxisymmetric oscillations of elastic spherical shells, obtaining expressions for oscillations from torsion, tension and bending
21 p3839 A69-39199

Linear and torsional vibration parameters measuring methods, discussing transducer characteristics
22 p3943 A69-39926

Natural frequency equations for torsional vibration of fixed/fixed and fixed/simply supported uniform thin walled beams of open section based on energy method
22 p4040 A69-39935

Uncoupled torsional vibrations of simply supported open cylindrical tubes analyzed by approximation equations, considering free edge boundary conditions
23 p4233 A69-42347

TORUSES

Solution procedure for torus with given surface loads or displacements, using series expansion of generalized analytical functions, discussing stress concentration near toroidal cavity
21 p3839 A69-39192

TOUCH

U TACTILE DISCRIMINATION

TOUGHNESS

NT NOTCH SENSITIVITY

Retained austenite content control, strain aging and autoforming to improve toughness of high strength martensitic stainless steel without strength loss
08 p1330 A69-20010

Thin walled maraging steel tube toughness determined by Charpy precrack testing of transverse and longitudinal impact properties
13 p2269 A69-28183

TOWED BODIES

Lateral stability of glider towed by cable in steady rectilinear horizontal flight, deriving motion equations as ordinary differential equations
09 p1433 A69-21498

TOWED TARGETS

U TARGETS

TOWNSEND DISCHARGE

NT GAS DISCHARGES

NT RING DISCHARGE

Monograph on ionization of Ar-CH mixtures during Townsend discharge, covering metastable Ar atoms lifetime in various pressure ranges
16 p2814 A69-31841

Townsend discharge formation time determination, taking into account impact ionization in positive ion cloud moving from anode to cathode
19 p3381 A69-36603

TOXIC DISEASES

NT CARBON MONOXIDE POISONING

Medical examinations of missile fuel handlers, noting some abnormal results in liver function tests and possible hydrazine toxicity
09 p1447 A69-22556

Atelectatic and direct toxic effects of oxygen on human subjects
22 p3873 A69-40208

TOXIC HAZARDS

Treatment procedure and preventive programs outlined for acute exposure to toxic rocket fuels or oxidizers
02 p0204 A69-12498

Renal pathology of acute methylhydrazine intoxication in dogs, noting hemolytic anemia and hemoglobinuric nephropathy
06 p0883 A69-17847

Medical factors as probable cause of aircraft accidents, discussing psychological factors, CO poisoning, hypoxia, alcohol, etc
07 p1067 A69-19433

General aviation accidents and hazards presented by drugs, ethyl alcohol, pesticides and carbon monoxide
07 p1068 A69-19435

Monomethylhydrazine /MMH/ toxic effects on cornea and blood aqueous barrier studied in vivo on dogs
09 p1447 A69-22547

Heat treatments in inert gas atmosphere improve elastic foam polyurethane by reducing capability of toxic outgassing
10 p1716 A69-23503

Ozone concentrations harmful to humans in atmosphere based on U.S. and Western European observations, emphasizing lower stratosphere
15 p2596 A69-30642

Toxic effects of Freon R FE 1301 on animals and human beings at different concentrations, assessing judgement, alertness and neuromuscular skill
18 p3098 A69-35061

TOXICITY

NT CARBON MONOXIDE POISONING

Fluorides or AMOX increased concentrations effect on thyroid growth rate, uptake and adrenal weight in rats
14 p2406 A69-29291

Sotalol and propranolol cardiovascular effects, comparing toxicity and blocking action against circulatory and cardiac effects of catecholamines
23 p4080 A69-41403

TOXICITY AND SAFETY HAZARD

Medical examinations of missile fuel handlers, noting some abnormal results in liver function tests and possible hydrazine toxicity
09 p1447 A69-22556

Alcohol and drug intake effects on drivers control of motor vehicles, describing postrotatory nystagmus test for toxicity measurement
21 p3652 A69-38791

Pilots and automobile drivers functional impairment due to alcohol and drugs
21 p3663 A69-38792

TOXICOLOGY

Alcohol role in pilot victims of aircraft accidents
01 p0022 A69-11345

Macaque monkey behavior after injection of monomethylhydrazine with and without pyridoxine HCl, noting effects of aversively and appetitively rewarded training
03 p0375 A69-14068

Aircraft accident toxicology, guidelines for collection, preservation, shipment and analysis of specimens and test result interpretation
12 p0222 A69-25842

TRACE CONTAMINANTS

Analytical determination of traces of metals caused by wear in aircraft liquid fuels, hydraulic fluids and lubricants, noting polarography and coulometry
03 p0435 A69-14101

Gas chromatographic determination of hydrocarbon quantity in methane in parts per billion range
03 p0382 A69-14115

Trace analysis /parts per billion/ of methane in helium, hydrogen and neon
03 p0382 A69-14116

Cholesteric liquid crystals application to trace contamination detection, describing color response measurement
06 p0885 A69-17842

Flame emission spectrophotometric method for ultraminate sodium contamination detection in thin silicon oxide films and cleaned silicon surfaces
[ECS PAPER 306]
08 p1314 A69-20361

Mass spectrometric analysis of silicon carbide for homogeneity in sample, noting metallic impurities
09 p1448 A69-22313

TRACE ELEMENTS

Hydrothermal investigation of Ge trace quantity distribution between metal, silicate and sulfide phases at controlled oxygen partial pressure by oxygen buffer techniques
05 p0819 A69-15624

Trace element distribution in metal phase of chondrites and iron meteorites, using neutron activation analysis with radiochemical separation
08 p1404 A69-20921

Trace elements distribution in Smithsonite iron meteorite by spark source mass spectrometry, noting terrestrial weathering effects
08 p1404 A69-20922

Trace element geochemistry of calc-alkaline andesites, discussing crustal composition models and trace elements distribution
08 p1309 A69-20940

Flow visualization tracer for quantitative measurements for laminar and turbulent flow, discussing mean velocity and shear stress
09 p1495 A69-21911

Mineral nutrition elements concentration stabilization by correcting solution additions during prolonged Chlorella cultivation with medium recycling
10 p1646 A69-23578

Possible sources of meteoritic material from Hopewell Indian burial mounds
11 p1963 A69-25401

Electron microautoradiograph preparation determining trace element amount and distribution by utilizing radioactive isotopes and high resolution of electron micrographs
13 p2263 A69-28168

Diffusion of ozone distribution tracers in stratosphere, based on photochemistry in oxygen-only and oxygen-hydrogen atmospheres
13 p2294 A69-28492

Trace elements influence on precipitation process and properties of Al-Cu, Al-Zn-Mg and Al-Mg alloys, using X ray diffraction
16 p2801 A69-31783

Spark source mass spectroscopy for determining trace elements in Ti and Ti alloys used in aeronautical and aerospace technology
[ONERA-TP-723]
18 p3155 A69-34638

Meteoritic trace elements with varying chemical and physical properties investigated for abundance by neutron activation technique
19 p3407 A69-36080

Meteoritic trace elements and radionuclides measured by gamma coincidence techniques, emphasizing Mn 53 and Al 26
19 p3412 A69-36103

Colorimetric method to determine small amounts of Mn in metallic Ti by potassium periodate solution
20 p3544 A69-37813

Trace elements role in precision metallurgy for obtaining certain steel properties
21 p3750 A69-39870

Detection and spectral examination of trace porphyrin complexes by demetallation with methanesulfonic acid and spectrofluorometry, compared to absorption spectrophotometry
24 p4279 A69-42557

TRACERS

Compartmental models for radioactive tracer experiments with known tracer material amount, using generalized Spearman simultaneous estimation procedure
24 p4339 A69-42765

TRACHEA

Respiratory pressure recording with tracheal cannulae applied on cats to obtain pneumograms and oscillograms of respiratory neurons
07 p1131 A69-18538

RACING

Cathode ray curve tracer to record capacitance-voltage characteristics of p-n junctions

04 p0602 A69-15406

RACKERS

U TRACKING [POSITION]

RACKING [POSITION]

NT COMPENSATORY TRACKING

NT INFRARED TRACKING

NT MISSILE TRACKING

NT OPTICAL TRACKING

NT PHOTOGRAPHIC TRACKING

NT PURSUIT TRACKING

NT RADAR TRACKING

NT RADIO TRACKING

NT RANGE AND RANGE RATE TRACKING

NT SATELLITE TRACKING

NT SPACECRAFT TRACKING

NT STAR TRACKERS

Stability of two coordinate automatic angular tracking systems

01 p0053 A69-10803

Satellite monitoring application to air traffic control in parallel track system, discussing lateral and longitudinal separation control

02 p0277 A69-11591

Neuromuscular actuation system model, noting compatibility with human physiological and anatomical data in tracking tasks

02 p0202 A69-11952

Working breadboard model of planet tracker under various illuminating conditions, discussing hardware and closed loop tracking error analysis accounting for signal to noise effects

03 p0463 A69-13214

Multimode direction tracking with polarization tracker used simultaneously, analyzing cross coupling and conical horn/reflector antenna

06 p0888 A69-17652

Limiting speed for target tracking hypersonic vehicle due to electrons formation through aerodynamic heating, calculating allowable flow conditions, maximum speeds and electron distribution

07 p1086 A69-19509

High field domains in Gunn effect diode in transit time mode of operation probed with stroboscopic electron beam in scanning electron microscope

08 p1283 A69-20162

Digital signal tracking module operation and stability, considering use of interconnecting modules to achieve adaptive tracking

09 p1459 A69-22477

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation

11 p1956 A69-24400

Lock-on characteristics of automatic tracking systems evaluated for case of variable vector signal, calculating transient response

11 p1861 A69-25716

Holographic position and velocity measurement techniques for high speed objects from explosions

12 p2087 A69-26174

Operational Q factor of optimal differential relay system with inertial plant during tracking process, noting cadence pulses high repetition rate influence

12 p2052 A69-26279

Closed loop target tracking system generating error signals for aligning target with tracking axis

19 p3310 A69-36063

Balloon-borne gondola azimuth stabilization using lunar tracker

20 p3538 A69-37300

Trajectory models accuracy beyond tracking intervals, studying roles of extrapolation and independent measurements number and accuracy

22 p4032 A69-41015

Maritime navigation hyperbolic charts for aircraft position determination

23 p4186 A69-42026

Design criteria for antenna control equipment for earth tracking from landing site on Martian surface [AIAA PAPER 68-868]

24 p4348 A69-43246

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation

24 p4391 A69-43790

RACKING ANTENNAS

U DIRECTIONAL ANTENNAS

RACKING FILTERS

Dynamic tracking filter analysis and capabilities as low threshold demodulator in frequency modulated frequency division multiplexing satellite system

01 p0034 A69-11140

Tracking filter steady state oscillation amplitude and phase distributions determined from Fokker-Planck equation for high and low noise levels

11 p1844 A69-24441

Negative resistance parametric amplifier used as tracking filter, noting resonant frequency dependence on pumping frequency and input and idler circuits

13 p2225 A69-27183

State space structure of model reference adaptive control and parameter tracking systems subject to noise

18 p3111 A69-34686

Coherent phase locked loop receiver as carrier and modulation loops combination with parallel bandpass filter for ranging signal reception and FM demodulation

19 p3274 A69-36277

Adaptive tracking filter for bending mode stabilization of large flexible boosters [AIAA PAPER 69-874]

21 p3823 A69-39400

Digital data transition tracking loop mean square phase noise computed as function of input SNR by Fokker-Planck technique

23 p4130 A69-42514

TRACKING NETWORKS

NT DEEP SPACE NETWORK

NT GLOBAL TRACKING NETWORK

NT STADAN [SATELLITE TRACKING NETWORK]

Deep space tracking network development, discussing capabilities and operational quality assurance

07 p1078 A69-18831

Spacecraft tracking network for determining spacecraft motion parameters, noting application to coordinates and velocities determination for terrestrial observers

07 p1087 A69-19609

Belier rocket launching facilities in Guiana, describing pads, tracking system, telecommunications network, etc

09 p1477 A69-22161

Radar unit for network component/wind patrol/ in statistical observations of wind drift conditions in meteor trails

17 p2939 A69-33901

Antenna high noise temperature reduction in single channel combined transmission and reception of tracking and communication data

19 p3275 A69-36328

Satellite tracking and orbit determination accuracy for system of two synchronous geostationary satellites [AIAA PAPER 68-449]

21 p3674 A69-39019

Assignment algorithm for target recognition in multiradar tracking systems

22 p3902 A69-41250

Tracking and Data Relay Satellite System with synchronous orbit satellites to relay data between low altitude earth orbital spacecraft and mission control centers

23 p4120 A69-41755

Tracking and data relay satellite system /TDRSS/ compared to ground based mission support, considering altitude coverage capability, economy and communication requirements

23 p4120 A69-41756

TRACKING RADAR

Tracking radar glint analysis model using diffraction theory to evaluate parameters of fields received from scattering centers on target aircraft

01 p0033 A69-11007

Areas of expectation for single radar automatic tracking of flying objects derived on basis of equation of circle in polar coordinates

01 p0035 A69-11296

Electromagnetic diffraction theory for radar cross section of aircraft, missiles and satellites, discussing mathematical representation of electromagnetic field for extreme wavelengths

03 p0383 A69-12902

Automatic sequential detector for noncoherent moving target indicator radar, describing noise and clutter residue control

03 p0389 A69-13197

Moving target indicator /MTI/ performance degradation by limiting clutter analyzed for various pulse cancellers and verified by time-domain Monte Carlo simulation

03 p0390 A69-13198

Multiradar system development for total view of air situation from single air views, using digital computers interconnected with central computer

05 p0719 A69-15932

Signal processors for implementation of monopulse tracking radar with three instead of four beams, investigating accuracy

08 p1270 A69-19855

Pulse Doppler radar operation, discussing Doppler shift, range resolution and systems components

10 p1659 A69-24084

Moving target selector radars subsystems amplitude and phase instability effects on interference signal suppression

15 p2576 A69-30339

Radial velocities measuring tracking rate meter performance for Doppler frequencies, allowing for multiplicative noise

15 p2576 A69-30350

Radar calibration techniques for accurate real time tracking data, describing GEOS-B C-band experiment [AIAA PAPER 69-872]

21 p3675 A69-39398

TRACKING STATIONS

NT DEEP SPACE INSTRUMENTATION FACILITY

NT GLOBAL TRACKING NETWORK

NT STADAN [SATELLITE TRACKING NETWORK]

Conversion from VHF to UHF at White Sands Missile Range, discussing telemetry acquisition, tracking and receiving systems

07 p1077 A69-18828

Caterpillar diesel electric sets for powering NASA tracking station in Australia during Apollo 8 flight

07 p1117 A69-19632

Transpondersondes for atmospheric measurements, considering ground tracking, radiosondes, rocketsondes and flight results

10 p1692 A69-23257

Soviet and foreign visual, photographic and photometric ground observations of satellites, emphasizing synchronous optical observations role in geodesy and geophysics

13 p2219 A69-27357

Optical observations of Geos 1 over North America in short arc reduction to improve tracking stations survey coordinates, discussing dependence on earth gravity and mass

15 p2599 A69-31342

Tesseral harmonics of geopotential and station coordinates based on combined Baker-Nunn, laser and range and rate satellite data

15 p2601 A69-31372

Active interferometer controlled telemetry tracking system for missile range, discussing automatic target acquisition, dish feed, costs and optimized data-channel antenna patterns

19 p3271 A69-36253

ELDO radio guidance station at Gove, discussing propulsion stage tracking and instruction transmitted to vehicle

22 p3919 A69-39920

More earth station equipment and design for satellite communication in INTELSAT network including antenna, feed and tracking, interconnect system, etc

22 p3900 A69-40679

TRACTION

Existence theorems for partial differential equations theory for traction boundary value problem of linearized elastostatics

12 p2188 A69-26928

Runway grooving to improve aircraft tire traction in adverse weather tested by F-4D and Convair 990A under wet conditions [AIAA PAPER 69-773]

19 p3244 A69-35649

Traction stresses distribution over contact surfaces using photoelastic frozen stress model

23 p4235 A69-42461

TRACTORS

U CRAWLER TRACTORS

TRACTS

U SITES

TRADEOFFS

Mission analysis for applications satellites, discussing tradeoffs among mission objectives, launch vehicles, spacecraft and geopolitical considerations

03 p0511 A69-13428

Open loop suboptimal control for linear time dependent tradeoff between energy expenditure and probability of target set entry

11 p1860 A69-25443

Cost model to trade off competing systems designs for space communications, navigation, operational availability and ballistic missile defense

19 p3454 A69-36007

Tradeoffs between measurement accuracy, false alarm and detection probability in practical setting of

thresholds for Neyman-Pearson criterion, analyzing noise samples
22 p3902 A69-41221

Space experimental design based on manned vs unmanned spacecraft value for multipurpose low cost flexible space station in low earth orbit
23 p4223 A69-42457

TRADESCANTIA

Drosophila melanogaster flies reproductive behavior and *Tradescantia paludosa* chromosome patterns after weightlessness onboard Vostok 3 and 4
07 p1063 A69-18597

Radiobiology of *Tradescantia* clone orbited in Biosatellite 2, analyzing space effects on spontaneous and radiation induced mutation and cytological changes
15 p2556 A69-31321

TRAFFIC

U AIR TRAFFIC

TRAFFIC CONTROL

NT AIR TRAFFIC CONTROL

NT RADAR APPROACH CONTROL

Nonmilitary marine uses of navigation satellites
[UN PAPER 68-95305] 01 p0112 A69-10469

Airport surface traffic control system /STRACS/ for detection of aircraft, identification, guidance on taxiways, tower display, fail-safe alarm logic, priority routings, conflict protection, etc
05 p0790 A69-16724

Automatic ground traffic control of aircraft on airport taxiway without visual detection, noting induction loop detection in surface traffic control system /STRACS/
11 p1913 A69-24267

Satellites and ground stations system providing transoceanic civil, air and marine traffic control in North Atlantic, discussing position determination, communication and navigation, etc
18 p3170 A69-35065

Telemetric control of urban transportation systems and law enforcement, considering automobiles as prime vehicle
19 p3272 A69-36256

TRAILBLAZER 2 REENTRY VEHICLE

Plasma electroacoustic resonance in reentry sheath of Trailblazer 2 vehicle excited by nonradiating coaxial antenna, deducing electron density gradient at vehicle surface
17 p3010 A69-32915

TRAILING-EDGE FLAPS

Hypersonic flow distribution and separation types over highly swept delta wings with trailing edge flaps at Mach 6
[AIAA PAPER 68-97] 02 p0189 A69-12522

Aircraft structural weight optimization based on design consideration of grouped related elements, noting application to Boeing 747 trailing edge flap drive
[SAWE PAPER 757] 18 p3220 A69-34888

TRAILING EDGES

Laminar two dimensional viscous wake behind finite flat plate, investigating upstream and downstream flow field of trailing edge region for high Reynolds numbers
[ASME PAPER 68-WA/APM-20] 04 p0541 A69-14387

Trailing edge velocity and stagnation points for isolated and latticed airfoils using Zhukovskii and Weing transformations
05 p0697 A69-15880

Initial turbulence influence on wakes formed behind trailing edges of cascade blades
09 p1431 A69-22235

Turbine blade cooling research programs, discussing effects of increased trailing edge thickness and cooling air on turbine efficiency
[ASME PAPER 69-GT-15] 09 p1432 A69-22501

Incompressible uniform shear flows merging behind trailing edge of semiinfinite flat plate, using inner-outer expansion method based on Navier-Stokes equation
13 p2248 A69-28223

Mechanical construction device for Carafoli profile in aerodynamics and hydraulics, establishing mechanism for tracing rounded and sharp trailing edges profiles
15 p2549 A69-31264

Optimum surface for thick delta wing in hypersonic flow obtained by variational method, assuming closed leading and trailing edges
16 p2731 A69-31559

Two dimensional model for analyzing turbulent separation and reattachment at blade trailing edge at supersonic speed
[ONERA-TF-678] 16 p2733 A69-32258

Slot height, position and trailing edge geometry effects on elliptically shaped rotors selected for hover efficiency, size, transitional gust insensitivity and rigidity
18 p3088 A69-35231

Incompressible fluid flow of given density and kinematic viscosity near trailing edge of flat plate
20 p3458 A69-37098

Compressor type cascade experiments to find closest possible traverse position to blade trailing edge
22 p3859 A69-40065

Laminar viscous flow and skin friction near trailing edge of flat plate analyzed by modified Oseen approximation, noting accuracy for high Reynolds numbers
22 p3930 A69-40683

Edge effects in efficiency of air cooled turbine blade cascades with cooling air ejection from blade trailing edges into gas flow
24 p4364 A69-43090

Shape, position and velocity of vortex wakes shed in unsteady multienergy flows near trailing edge, applying Kutta condition
[ASME PAPER 69-APMW-19] 24 p4245 A69-43099

TRAINERS

U TRAINING DEVICES

TRAINING

U EDUCATION

TRAINING AIRCRAFT

NT G-91 AIRCRAFT

NT JAGUAR AIRCRAFT

Hydraulic powered flight control system for Jaguar supersonic military training aircraft
01 p0012 A69-10634

Jaguar combat trainer/tactical support aircraft to meet France and UK military requirement, noting supersonic performance and honeycomb construction
04 p0549 A69-15062

Jaguar aircraft equipment conformity to maximum standardization with equipment for other programs
04 p0550 A69-15063

First flight test phase of multipurpose Vigen aircraft designed as basic platform for attack, trainer, reconnaissance and fighter versions
06 p0867 A69-17662

Concorde supersonic transport and Jaguar Military Strike/Trainer programs, discussing management and international cooperation
06 p1043 A69-17831

Air Transport Total In-Flight Simulator-707 /AT/TIFS-707/ concept for pilot training, stressing airframe and major flight systems
[SAWE PAPER 747] 18 p3118 A69-34884

NF106B-VST model follower flight control system, discussing design criteria/performance index, rigid/elastic math model development, flight test evaluation, hardware design, etc
[AIAA PAPER 69-886] 21 p3764 A69-39412

Aero L-39 low wing cantilever monoplane jet trainer developed in Czechoslovakia
24 p4251 A69-42797

TRAINING DEVICES

Digitally controlled flight systems simulators, noting design improvements over conventional trainers
05 p0742 A69-15884

French supersonic recycling wind tunnel for short duration experiments
07 p1116 A69-19289

Reliability management simulation exercise training technique for government personnel, discussing decision making in development, production, testing and field usage of systems
18 p3117 A69-34487

Automated programmed instruction /API/ for training backup interceptor control personnel to conduct air defense operations
[AIAA PAPER 69-956] 22 p3905 A69-40338

TRAINING SIMULATORS

NT COCKPIT SIMULATORS

NT FLIGHT SIMULATORS

NT SPACECRAFT CABIN SIMULATORS

Visual simulation for critical maneuvers of aircraft takeoff and landing, noting method based on limited corridor simulation and maneuver freedom
[AIAA PAPER 68-255] 11 p1866 A69-25376

Flight simulation requirements for reducing aircraft training flight time, discussing control system and instrument motion characteristics, visual simulation and critical maneuvers motion
22 p3928 A69-41139

Personnel training and selection systems, applying information processing models to diagnostic testing in job classification for performance improvement
24 p4274 A69-43020

TRAJECTORIES

NT ABORT TRAJECTORIES

NT ASCENT TRAJECTORIES

NT BALLISTIC TRAJECTORIES

NT CIRCULUNAR TRAJECTORIES

NT DESCENT TRAJECTORIES

NT EARTH-MARS TRAJECTORIES

NT EARTH-MOON TRAJECTORIES

NT ELECTRON TRAJECTORIES

NT HYPERBOLIC TRAJECTORIES

NT INTERPLANETARY TRAJECTORIES

NT LUNAR TRAJECTORIES

NT MIDCOURSE TRAJECTORIES

NT MISSILE TRAJECTORIES

NT MOON-EARTH TRAJECTORIES

NT PARTICLE TRAJECTORIES

NT REENTRY TRAJECTORIES

NT RENDEZVOUS TRAJECTORIES

NT ROUND TRIP TRAJECTORIES

NT SPACECRAFT TRAJECTORIES

NT SPINNING UNGUIDED ROCKET TRAJECTORY
Electromagnetic waves trajectory distortion in moving plasma due to additional time delay noting propagation of pearl pulsations, whistling atmospherics and proton whistlers
01 p0068 A69-111

Optimum thrust control of satellite along given trajectory to rendezvous at zero velocity with orbital satellite
13 p2356 A69-276

Angular velocity of aircraft rotation about longitudinal axis at arbitrary point of passive trajectory section, with assumptions on roll damping, momentum, etc
18 p3092 A69-349

Bovedy Chondrite fall in Northern Ireland, describing fragments trajectory and metal, sulphide and silicate presence
18 p3200 A69-349

TRAJECTORY ANALYSIS

Theory of generalized multistep methods, using a grid point extended to special second order differential equation, applied to unperturbed orbit trajectory
01 p0153 A69-108

Autonomous solution to orbital navigation problem yielding direct measure of orbital parameters
01 p0114 A69-110

Jupiter outer satellites orbits determination with computer program based on modified Cowell/Moulton methods for adjusting initial conditions
01 p0158 A69-113

Longitudinal range dispersion of unmanned Mars landers using VM-8 and VM-9 atmospheric model, discussing Syrtis Major as possible landing site
02 p0324 A69-123

Constant thrust deceleration formula for gravity turn soft landing maneuvers expressed in elementary trigonometric functions of initial conditions for descent
02 p0335 A69-125

Trajectories of elastic bodies analyzed by Hervey theory of impact
02 p0349 A69-128

Incidence for three dimensional reentry trajectory preprogrammed as function of velocity, finding ballistic angle as function of inclination
03 p0504 A69-128

Tactical aspects of pursuit and evasion, emphasizing analysis of conceptual framework and construction of analytic models
03 p0457 A69-138

Numerical calculation of trajectories of high energy cosmic rays in galactic disk, using quasi-longitudinal model of magnetic field
03 p0501 A69-139

Trajectory equations for outermost electron on beam in TWT operating in dynamic mode for Brillouin flow
03 p0406 A69-139

Spacecraft trajectories computation from initial conditions by techniques involving construction of N body reference orbit
03 p0518 A69-142

Focusing of relativistic cylindrical electron beam static axial electric and magnetic fields, using least action principle to derive trajectory differential equation
05 p0796 A69-157

Performance index sensitivity of nominally optimum controls noting initial and final target manifolds relationship to trajectory sensitivity
05 p0737 A69-158

Orbital trajectories about Mars or Venus, considering reentry to earth, planet perturbation effect, total mission time and orbital distance from planet
05 p0823 A69-160

Kepler hyperbolic sine equation calculated for Arend-Roland comet for case of constant residues by false position method

06 p0997 A69-16821

Adaptive modeler to estimate state and future trajectory of unknown plant having automatically synthesized control

06 p0900 A69-17353

Ellipticity of trajectory of free motions of pole of revolution of earth, using harmonic analysis of motion amplitudes and phases

06 p0919 A69-17536

Ballistic reentry trajectories, considering point mass motion in central force field under tangential thrust action and spherical atmospheric density distribution

06 p1006 A69-17564

Algorithms construction for aerospace vehicle trajectory optimization, considering quasi-linearization method for computation of variable time optimum trajectories

06 p1006 A69-17569

Nonlinear equations of motion for rendezvous in circular orbits, pursuer using minimum fuel and pursued having no propulsion

06 p1014 A69-17571

Jupiter unmanned flyby probes trajectory and mission analysis, considering planetary gravitational field role for trajectory shaping and flight times

06 p1007 A69-17598

Planetary landing vehicle design optimization, considering effects of trajectory, guidance and environmental parameters under uncertainty [AIAA PAPER 69-128]

06 p1018 A69-18107

Translational forces on Mariner 5 stemming from attitude control system studied to determine trajectory for scientific and operational purposes [AIAA PAPER 69-114]

06 p1018 A69-18108

Transfer orbits calculation between low and high satellite orbits, determining trajectories by method with minimum use of linearization

07 p1211 A69-18503

Coordinates and velocity components accuracy for artificial earth satellite moving in central Newtonian field, covering elliptic and circular orbits

07 p1178 A69-19606

Three dimensional atmospheric entry trajectories equations for satellite with aerodynamic lift, examining aerodynamic factors and bank angle effects

07 p1230 A69-19608

Longitudinal stability of unsteady motion of flight vehicle along ballistic trajectory, using linear differential equations

07 p1230 A69-19701

Atmospheric whistlers trajectories in magnetosphere calculated, assuming electron concentration as exponential function of altitude

08 p1309 A69-20429

Trajectory calculation of unguided meteorological rocket by digital computers and by equations of motion, discussing wind influence on ceiling and horizontal ranges

08 p1409 A69-20457

Trajectories minimizing missile velocity losses due to gravity by setting boundary conditions and trend of thrust in time

08 p1409 A69-20587

Space flight trajectory analysis of aerospace systems, discussing Analytical Trajectory Optimization Model

09 p1585 A69-21207

Spacecraft design, trajectory and mission analyses for multipurpose solar electric propulsion missions, emphasizing modular ion engine and fixed attitude spacecraft designs [AIAA PAPER 69-252]

09 p1568 A69-21729

Reentry trajectories from lunar surface and orbit obtained by computer with allowance for initial data spread

09 p1594 A69-21756

Spacecraft trajectory optimal determination without knowing measurements error distribution function, examining computer solution properties of linear programming

09 p1595 A69-21757

Optimal moments for trajectory parameters measurements determined by linear analysis to minimize error for initial conditions

09 p1495 A69-21758

Minimum time turns for spacecraft about fixed axis lying beyond plane of vehicle forces

09 p1609 A69-21760

Trajectory error propagation upper bounds in many body field for impulsive initial error, relating error to mission tolerances

09 p1595 A69-21937

Coasting arc determination in rocket trajectory problems by Lagrange multipliers

09 p1595 A69-21969

Optimal closed loop control system for linear time varying system with two independent parameters, noting trajectory sensitivity in large launch booster

09 p1473 A69-22439

Complex trajectory method for describing tunnel effect during atom ionization in strong light wave field, using quasi-classical approximation

09 p1543 A69-22658

Secular perturbations of remote satellites within lunar gravitation field, comparing observations and analytical data

10 p1779 A69-23614

Interstellar dust alignment mechanisms investigated by Monte Carlo model, discussing grain velocity maintenance by radiation pressure and effects of magnetic constraint on charged grain trajectory

10 p1781 A69-23675

Optimal interorbital transfers between closely spaced nearly circular noncoplanar orbits, taking into account active section length for low power thrusts

10 p1783 A69-23712

Trajectories of particles entrained by gas flow in nozzles for study of erosion damage during passage of gas-particle mixture

11 p1818 A69-25355

Configuration, trajectory planning, instrumentation, calorimetry and aerodynamic heating for planetary atmosphere entry

11 p1968 A69-25719

Venus and Mars atmospheric braking entry and associated equipment, discussing potential cost savings

11 p1968 A69-25722

Third phase dynamics of planetary approach of earth-Mars journey, computing approach trajectory on two body spacecraft-Mars assumption

11 p1968 A69-25725

Conservative system /with two degrees of freedom/ motion in plane harmonic force field with potential satisfying Laplace equation, discussing graphic trajectory construction

11 p1920 A69-25745

Soviet book on solid propellant guided/unguided rocket design with emphasis on thrust control, including trajectory calculations, optimal parameters and components estimation by weight analysis

12 p2175 A69-27077

Trajectory terminal state error analysis using adjoint-generated sensitivities in nonlinear time-varying systems

13 p2296 A69-27940

Canonical transformation and Hamilton-Jacobi theories applied to space vehicle trajectory analysis, discussing elliptical coast arc and optimal low thrust problems

13 p2353 A69-28202

Relay sampled data phase plane trajectories periodic motions increased with increase of system duty factor

14 p2425 A69-28898

Cosmic ray equators from trajectory tracing procedure for computing vertical cut-off rigidities with two different geomagnetic field simulations compared to experimental equators

14 p2511 A69-28961

Trajectory sensitivity analysis of open and closed loop optimal control systems, demonstrating previous analysis inaccuracy

14 p2427 A69-29539

Moving targets trajectories determination from radar data, using posteriori probability distribution represented by Markov chain

15 p2566 A69-30334

Target trajectories determination based on radar data with allowance for association between neighboring readings, using statistical characteristics obtained with Markov chains

15 p2566 A69-30335

Electromagnetic wave propagation in anisotropic inhomogeneous media by geometric optics approximation, obtaining equations for beam trajectories in spherically symmetrical medium

15 p2569 A69-30949

Satellite trajectory determination and expected errors for OGO 4 and Geos 1 orbits, noting geopotential, aerodynamic drag and integration contributions

15 p2698 A69-31331

Laser measurements for DIADEME satellites tracking to reconstruct actual trajectory in semidynamic geodesy

15 p2600 A69-31365

Conditional trajectory stability associated with first integral compared with orbital stability on base of topological method

16 p2853 A69-31622

Satellites trajectories under influence of earth oblateness and low radial thrust acceleration by nonlinear mechanics asymptotic method, discussing osculating orbits

16 p2856 A69-32009

Impulsive trajectories optimal and nonoptimal solutions, classifying known results for reference purposes

16 p2857 A69-32146

Trajectory calculation of axisymmetrical body during ballistic and vertical flight, assuming air drag proportional to square of velocity

17 p2889 A69-32950

Monograph on solar system space flight trajectory calculations covering solutions to differential equations, error analysis and gravitational effects

17 p3039 A69-33798

Radio wave trajectories for waves emitted at 15, 20 and 25 kHz within spherically stratified ionosphere below F 2 maximum

17 p2969 A69-34001

Distributions of close planet-comet encounters for various orbital elements, calculating trajectory by conic matching

18 p3195 A69-34433

Controlled vehicle disturbed trajectory multiple correction, considering constrained control or limited accessible coordinates for observations

18 p3174 A69-35316

Peano-Baker method for integration of variational equations to produce partial derivatives used in satellite trajectory estimation

19 p3398 A69-35616

Planetary navigation using spacecraft measurements and Doppler data from earth-based radio tracking, determining accuracy for earth-Mars trajectory

19 p3368 A69-35791

Aircraft takeoff airborne phase trajectory analysis, deriving expressions for projection angle, velocity, path length and instantaneous altitude

19 p3247 A69-35817

Mariner Mars 1969 flyby missions objectives, experiments, spacecraft configuration, trajectory design, sterilization, flight path control and photographic imaging [AAS PAPER 68-134]

19 p3402 A69-35938

Rapid Targeting Procedures computer program for optimized orbital payload and associated launch vehicle targeting data with one submittal and minimum user intervention

[AAS PAPER 68-148]

19 p3402 A69-35951

Digital computer controlled antenna positioning system computing spacecraft tracking trajectory from given parameter input set

19 p3267 A69-35997

Network for fireball trajectories rapid analysis to recover meteorites and obtain orbital elements data, noting role of planetariums

19 p3295 A69-36121

Self rotary motions of nearly conservative systems with one degree of freedom, deriving periodic solution of equation for phase trajectories

19 p3374 A69-36466

Trajectory sensitive vector introduction into closed loop linear optimal control, considering linear or nonlinear formulations

20 p3509 A69-37141

Moon to earth trajectories analyzed numerically to determine effect of specified earth entry conditions on hyperbolic elements near moon for abort [AAS PAPER 68-089]

20 p3595 A69-37174

Numerical solution of equations of motion of rocket under thrust in inverse square force field, discussing effects of initial acceleration

20 p3595 A69-37203

Flight times compared for intercept and pure pursuit missile trajectories

20 p3618 A69-37716

Orbital trajectories about Mars or Venus, considering reentry to earth, planet perturbation effect, total mission time and orbital distance from planet

20 p3606 A69-37951

Monograph on motion of solid body with cavities containing viscous liquid, covering kinetics involving completely or partly filled fluids

20 p3578 A69-38200

Optimal control of dynamic system motion described by linear differential equation, selecting vector function ensuring predetermined trajectory

21 p3685 A69-38452

Inertial navigation systems trajectory parameters errors due to inaccurate initial coordinates input, deriving trigonometric functions for autonomous error determination

21 p3760 A69-38572

Trajectories of roots of two channel systems with antisymmetric cross couplings using geometrical and analytical methods, noting hodograph

21 p3686 A69-38886

Two dimensional gravity assisted trajectories for solar probe missions in ecliptic plane, discussing Venus and Jupiter assist missions

21 p3804 A69-39022

CircumJovian powered and free return trajectories, analyzing round trip missions and departure opportunity

[AAS PAPER 68-117] 21 p3805 A69-39207

Exploration capabilities provided by Jupiter gravity assisted trajectories compared to direct ballistic flight trajectories

[AAS PAPER 68-116] 21 p3805 A69-39224

Interplanetary periodic orbits and flyby dates for multiple Earth-Venus swingby missions, describing various iterative solutions for trajectory

[AIAA PAPER 69-931] 21 p3809 A69-39359

Normalized hodographic mapping for constrained trajectory families, discussing mapping concepts, information content and applications

[AIAA PAPER 69-924] 21 p3809 A69-39362

Neighboring optimum feedback guidance to motivate min-distance lookup parameter determined by minimizing metric function of perturbed state and reference trajectory

[AIAA PAPER 69-888] 21 p3765 A69-39414

Time-similar and isotropic geodesic curves simulating paths of test bodies in Riemann space corresponding to gravitational field

21 p3772 A69-39621

Real time network support simulation allowing network configuration for nominal or perturbed trajectory for Saturn vehicles, applicable to any flight azimuth

22 p4020 A69-40319

Real time orbit determination system at NASA manned space center for Apollo missions

[AIAA PAPER 69-938] 22 p4020 A69-40321

Mission analysis and trajectory simulation /MATS/ program, discussing computer controls, modular design, integration evaluation

[AIAA PAPER 69-939] 22 p3904 A69-40322

Interactive graphics system for rocket vehicle trajectory simulation and performance analysis

[AIAA PAPER 69-954] 22 p3905 A69-40336

LM descent engine behavior upon contact with lunar surface simulated, basing test condition on statistical trajectory analysis indicating fire until touchdown possibility

[AIAA PAPER 69-1020] 22 p3923 A69-40391

Trajectory analysis of multiplanet Grand Tour mission to four large outer planets on single flight, discussing mission planning

[AIAA PAPER 68-1955] 22 p4023 A69-40544

Metric state-time dynamical polystem with sequentially compact topological space, noting sliding state trajectories

22 p3975 A69-40573

Equations of motion of unguided rocket under wind effect, calculating launch angles for wind compensation

22 p4037 A69-40815

Liquid fuel propulsion systems for geostationary satellites, discussing transfer orbits, payload increase and required thrust for various satellite trajectories

[DGLR-69-014] 23 p4202 A69-41929

Optimization of RF ion thruster cluster engines for ascending trajectory, discussing unfolding mechanism of solar cell panels

[DGLR-69-022] 23 p4203 A69-41933

Translational forces on Mariner 5 stemming from attitude control system, determining trajectory for scientific and operational purposes

[AIAA PAPER 69-114] 24 p4394 A69-43256

Unmodeled errors detection in recursive flight trajectory estimation, deriving equations for unmodeled parameters

24 p4387 A69-43585

TRAJECTORY CONTROL

Low thrust spacecraft motion continuous correction by dynamic programming, assuming continuous information on system state including fuel consumption

01 p0113 A69-10572

Capture and control in conservative dynamical systems, analyzing orbital mechanics of derelict and pursuit spaceships

05 p0826 A69-16462

Optimization of control independent cost functions in multidimensional system with linear controllers

06 p0905 A69-17945

Limited memory optimal filter theory, output and standard filter divergence due to errors

06 p0905 A69-17946

Black arrow rocket vehicle flight path computer programming, discussing geographical restrictions on design

09 p1593 A69-21616

Guidance law for autoguided system trajectory to impact target, noting kinematic study

10 p1723 A69-23701

Flight control system for automatic interplanetary stations /AIS/, comparing Venera series orientation and correction system to Mariner systems

10 p1792 A69-24198

Lifting entry concepts for return from earth orbit, discussing deceleration, heating and heat protection

11 p1968 A69-25720

Spacecraft longitudinal control during reentry of lunar orbiter into atmosphere, analyzing final range prediction, trajectory tracking and accelerometers performance

13 p2355 A69-27681

Spacecraft range control algorithm during reentry at parabolic velocity into atmosphere with varying parameter distributions

13 p2355 A69-27682

Dynamic process during rms deviation of nonlinear system from prescribed trajectory described by nonlinear differential equations

14 p2425 A69-28822

Low thrust spacecraft action continuous correction by dynamic programming, assuming continuous information on system state including fuel consumption

15 p2651 A69-30742

Electrically propelled TV satellite control maneuvers to reach target position in synchronous circular orbit from spiral ascent trajectory

16 p2868 A69-31935

Controlled vehicle disturbed trajectory multiple correction, considering constrained control or limited accessible coordinates for observations

18 p3174 A69-35316

Law for time variations of modulus-restricted control action at trajectory end, two point boundary value problem solution and use of Pontryagin principle

18 p3175 A69-35324

Interplanetary swingby trajectory correcting maneuvers for space vehicles return to earth after planet orbiting with emphasis on singular points

19 p3427 A69-36613

Numerical integration for continuously thrusting spacecraft optimal trajectory, considering rectangular Cartesian and polar cylindrical coordinates characteristics

[AIAA PAPER 69-903] 21 p3798 A69-38546

Control system generating compensating reactions for correcting trajectory deviations due to uncontrollable random factors, discussing linear automatic control system optimization

21 p3770 A69-38853

Spacecraft trajectory control algorithm for hypersonic reentry, describing onboard equipment role and simulation results

21 p3767 A69-39649

Kinematic and dynamic relations analyzed by vector method for motion time and orbital flight control of point

21 p3818 A69-39820

Long range space flight trajectory correction problem, obtaining algorithm for determining minimum number of corrections

21 p3818 A69-39822

Controlled motion of space vehicle about center of mass analyzed by equation expressing nutation angle invariance

21 p3830 A69-39839

Rendezvous control law for spacecraft moving in central gravitational field along trajectory representing target vehicle Keplerian orbit

22 p4036 A69-40115

Spherical trajectories control by star height maintenance, analyzing resulting cycloid and cartographic representations

23 p4186 A69-42023

Communication satellite systems using hydrazine engine thrust for trajectory correction, discussing trajectory deviations causes and ERNO engine design

[DGLR-69-013] 23 p4203 A69-42152

TRAJECTORY MEASUREMENT

Observability theory of dynamic objects application to composing measurements for space flights, solving parametric observability problem

07 p1087 A69-19604

Optimal moments for trajectory parameters measurements determined by linear analysis to minimize error for initial conditions

09 p1495 A69-21733

Rocket trajectory determination by tracking on board light source against star background with image orthicon TV system

12 p2033 A69-26964

Vibrating camera for photographic measurement of flow velocities and trajectories of bodies marked by light spots

13 p2261 A69-27911

Tabulation of basic solar system data and formulae concerning trajectory length, escape velocity, orbits etc

16 p2856 A69-32074

Photographic networks for meteors orbits and trajectories and meteorites impact points during nighttimes discussing fireball occurrence

19 p3415 A69-36120

Trajectory models accuracy beyond tracking intervals, studying roles of extrapolation and independent measurements number and accuracy

22 p4032 A69-41019

Satellite trajectory parameters estimation by maximum likelihood method applied to continuous satellite observations assuming random Gaussian process as measurement error

22 p3979 A69-41087

Satellite motion initial phase vector estimation for calculating satellite motion from selection of complete or increasing volume of measurements

22 p4033 A69-41088

TRAJECTORY OPTIMIZATION

Variational calculus applied to time optimal trajectories between two points in range altitude space, discussing aircraft thrust and drag laws

01 p0009 A69-10414

Planetary landing trajectory optimum single pulse correction determined by considering sum of correction and retro pulses minimum

01 p0151 A69-10564

Satellite trajectories calculated in form of parameters derived from processing measured functions, considering optimum mathematical description selection

01 p0151 A69-10570

Optimum control determination for low thrust spacecraft to minimize time for passing through radiation belt

01 p0113 A69-10571

Comparison of trajectories in optimum linear perturbation guidance

02 p0279 A69-12546

Planetary swingby theory mechanics and applications for optimization of interplanetary trajectories

02 p0331 A69-12818

Book on planetocentric, lunar and interplanetary transfer techniques covering communications and coordinate system selection, minimum fuel and time transfer and rendezvous, etc

04 p0652 A69-14458

Multilevel optimal control and decomposition of trajectories by studying static and dynamic systems

04 p0581 A69-14570

Trajectory optimization, obtaining sequence of control functions by iterative application of maximum principle /min H/ to nonoptimal functions

[DVL-852] 04 p0548 A69-14827

Optimum spacing of communication satellites on inclined circular synchronous orbits, applying figure 8 packing schemes

04 p0562 A69-15458

Iterative guidance mode /IGM/ applied to effective gravity vector prediction, acceleration measurement of noise sensitivity and energy limitations

[AIAA PAPER 67-620] 04 p0629 A69-15501

Minimum fuel consumption for low thrust jet engine propelled space vehicles maneuvering in circular trajectories

05 p0829 A69-15879

Minimum fuel rendezvous maneuver for two space vehicles in circular orbit, considering propelled tracking equipment nonlinear equations of motion

05 p0823 A69-16036

Space vehicle flight automatic optimization for maximum L/D reentry, considering perturbations causing trajectory inclination changes during roller coaster reentry

05 p0830 A69-16045

- Algorithms construction for aerospace vehicle trajectory optimization, considering quasi-linearization method for computation of variable time optimum trajectories
06 p1006 A69-17569
- Space vehicle trajectory optimization using computerized step by step steepest descent to minimum cost, considering cost gradient vs control
06 p1006 A69-17570
- Optimum low thrust interplanetary transfers involving swingby trajectory past intermediate planet analyzed, assuming impulsive velocity change at planet
06 p1006 A69-17572
- Successive approximation for iterative construction of near optimum guidance
06 p0954 A69-17573
- Spacecraft optimum low thrust trajectory analyzed by Hamilton-Jacobi perturbation theory, obtaining canonic constants of motion
06 p1007 A69-17574
- Optimality criterion and equations of motion determined for fixed time impulsive trajectory to minimize total characteristic velocity
06 p1007 A69-17575
- Optimization procedure developed and applied to minimum fuel midcourse guidance of spacecraft, discussing optimal closed loop control of linear stochastic systems
06 p0955 A69-17576
- Two point boundary value problems of optimal trajectories solved by offset vector method
06 p0903 A69-17577
- Linearized theory for minimum fuel guidance in neighborhood of minimum fuel space trajectory, unrestricted thrust magnitude and allowances for midcourse impulses
[AIAA PAPER 69-74] 06 p0956 A69-18183
- Trajectories minimizing missile velocity losses due to gravity by setting boundary conditions and trend of thrust in time
08 p1409 A69-20587
- Space flight trajectory analysis of aerospace systems, discussing Analytical Trajectory Optimization Model
09 p1585 A69-21207
- Low thrust interplanetary trajectories optimization, discussing hardware design considerations
09 p1585 A69-21209
- Automated parameter search techniques applied to low thrust mission design, stressing trajectories and mission optimization
09 p1585 A69-21211
- Convergence extensions in quasi-linearization for optimal control, showing results for brachistochrone and reentry trajectory problems
09 p1590 A69-21414
- Spacecraft trajectory using microthrust and lunar gravitational attraction for acceleration into heliocentric orbit
09 p1593 A69-21620
- Spacecraft trajectory optimal determination without knowing measurements error distribution function, examining computer solution properties of linear programming
09 p1595 A69-21757
- Optimal rendezvous between satellite and spacecraft, determining power and time optimal coplanar rendezvous in circular orbit
09 p1538 A69-21759
- Optimal lift and thrust control programs to maximize range of missile in horizontal flight
09 p1610 A69-22086
- Discrete variable approximation for computation of flight path optimization, discussing constrained and unconstrained minimizations
09 p1538 A69-22090
- Optimal interorbital transfers between closely spaced nearly circular noncoplanar orbits, taking into account active section length for low power thrusts
10 p1783 A69-23712
- Optimal transfer between coplanar orbits in Newtonian force field without intersecting circle boundaries
10 p1790 A69-24191
- Equation derivation to determine optimal parameters of spacecraft orbital elements, considering constraints imposed on measured quantities
10 p1791 A69-24192
- Angle of attack and bank angle for orbiting reentry glider, determining optimal trajectory for ground landing at given point
[ICAS PAPER 68-41] 11 p1966 A69-24750
- Pontryagin principle application to incorporation of singular sections into optimal trajectories of controlled systems, considering conjugation of singular and nonsingular extremals
11 p1960 A69-24764
- Dynamic programming determining optimal feedback control policies for optimal trajectories based on invariant imbedding
11 p1910 A69-25410
- Time optimal steering for rocket vehicle with trajectory defined between initial and final state, using minimum principle and boundary value problem solution
11 p1861 A69-25454
- Optimal control trajectories computation for bilinear regulator problems including neutron kinetics of nuclear reactor
12 p2049 A69-26083
- Suboptimal control with high performance index as alternative in restricted class of optimal control problems
12 p2054 A69-26518
- Optimum orbital transfer of material point subjected to reactive force with minimum mass loss, discussing Kepler motion kinematics
13 p2346 A69-27698
- Optimal control for minimum trajectory sensitivity of booster using algorithm and Riccati equation
13 p2261 A69-27943
- Canonical transformation and Hamilton-Jacobi theories applied to space vehicle trajectory analysis, discussing elliptical coast arc and optimal low thrust problems
13 p2353 A69-28202
- Finite difference Newton-Raphson algorithm extension to solve variational equations for simultaneous optimization of trajectories and associated parameters
[AIAA PAPER 68-115] 13 p2353 A69-28203
- Thrust, bank angle and angle of attack of aircraft minimum fuel lateral turns at constant altitude and specified velocities
13 p2203 A69-28245
- Planetary landing trajectory optimum single pulse correction determined by considering sum of correcting and retro pulses minimum
15 p2691 A69-30738
- Satellite trajectories calculated in form of parameters derived from processing measured functions, considering optimum mathematical description selection
15 p2691 A69-30740
- Optimum control determination for low thrust spacecraft to minimize time for passing through radiation belt
15 p2651 A69-30741
- Trajectory differential equations in state-variable form, presenting compatible difference equation adjoint scheme for trajectory integration
15 p2645 A69-31236
- Optimal rendezvous maneuver of pursuing vehicle with minimum fuel expenditure in approach stage on elliptic and hyperbolic orbits
15 p2701 A69-31548
- D-stationary principle to determine optimum hypersurfaces in configuration space containing optimal motion trajectories
16 p2811 A69-31625
- Impulsive trajectories optimal and nonoptimal solutions, classifying known results for reference purposes
16 p2857 A69-32146
- Multistage rocket trajectories optimized by second order numerical technique and digital computer program, considering coasting, vacuum flight and transition times
16 p2857 A69-32154
- Minimum fuel multiple impulse orbital rendezvous for fixed transfer time near circular orbits
16 p2857 A69-32161
- Low thrust trajectories for minimum time rendezvous between continuous thrust interceptor and passive target vehicle, comparing calculus of variations and steepest ascent analyses
16 p2857 A69-32177
- Optimum overestimate to obtain bound permitting use as convergence criterion for iterative process in orbital glider reentry trajectory optimization
[ONERA-TP-628] 16 p2805 A69-32332
- Hypervelocity glide vehicle optimum maneuvers, finding lift optimal control law for maximization of final velocity or altitude
17 p3025 A69-32836
- Bolza problem of calculus of variations extended to trajectory optimization problems with several subarcs
17 p3026 A69-32837
- Aircraft performance optimization using computationally oriented strategy for handling state variable inequality constraints
[AIAA PAPER 69-812] 19 p3243 A69-35628
- Space flight optimization - Conference, Liege, Belgium, June 1967
19 p3398 A69-35662
- Minimum fuel guidance from hyperbolic into specified circular orbit
19 p3367 A69-35663
- Two player zero-sum differential games with emphasis on play with state determined by differential equations, noting optimal solutions
19 p3359 A69-35665
- Steepest ascent convergence improved in orbital glider reentry trajectories optimization problems, discussing bang-bang and cosine control-variable changes
19 p3398 A69-35666
- Maximum trajectory for glider entering earth atmosphere at supercircular velocity, subject to maximum altitude constraint
19 p3399 A69-35667
- Maneuverability domains optimization with semilinear boundaries, noting application to orbital transfer
19 p3399 A69-35668
- Optimal transfers between Keplerian orbits for time free case, considering hyperbolas, ellipses external to and intersecting attracting planet
19 p3399 A69-35669
- Optimal fuel transfers between coplanar and noncoplanar coaxial elliptical orbits determined by Pontryagin maximum principle, using digital program for Hamiltonian equations solutions
19 p3399 A69-35670
- Variational equations uniform closed solution for optimal trajectories during coast without use of numerical integration
19 p3399 A69-35671
- Numerical integration of plane orbital transfers with multiple powered arcs, minimizing propellant expenditure of small thrust chemical rocket
19 p3400 A69-35673
- Optimal impulse rendezvous of long duration between quasi-circular, coplanar or noncoplanar close orbits
19 p3400 A69-35674
- Impulsive orbit transfer optimization using accelerated gradient program based on Newtonian algorithm for digital computer method
19 p3402 A69-35956
- Optimal landing of spacecraft on moon surface from low circular orbit, analyzing rocket thrust, altitude and landing site distance effect on spacecraft mass
19 p3431 A69-36616
- Lunar module motion during optimal ascent from moon surface into circular orbit of command module, noting descent maneuver similarity
19 p3431 A69-36617
- Optimal information selection for determining spacecraft trajectory, considering atmosphere, light speed and series expansion coefficients of planetary gravitational potentials
19 p3427 A69-36627
- Computation method for optimum finite thrust space trajectories based on approximation of state time history by polynomial
[AAS PAPER 68-080] 20 p3595 A69-37170
- Trajectory optimization of space vehicle with continuous thrust based on regularized equations, comparing perturbation method for earth-Jupiter rendezvous transfer
[AAS PAPER 68-099] 20 p3595 A69-37173
- Orbital rendezvous calculation in terms of adjoint variables vector associated with vehicle velocity vector
20 p3595 A69-37202
- Theorem extending results of techniques for analytical solutions of nonlinear ordinary differential equations applied to terrestrial brachistochrone problem
20 p3575 A69-37205
- Interstellar minimum fuel and time optimal trajectories for acceleration limited rockets determined by applying Pontryagin maximum principle to relativistic rocket equations of motion
20 p3602 A69-37530
- Optimal transfers in central gravitational field, using formulas for perturbations of osculating Keplerian orbital elements, applied to singular reticent solutions
[ONERA-TP-729] 20 p3604 A69-37752
- Space vehicle flight automatic optimization for maximum L/d reentry, considering perturbations causing trajectory inclination changes during roller coaster reentry
20 p3618 A69-37954
- Numerical integration for continuously thrusting spacecraft optimal trajectory, considering rectangular Cartesian and polar cylindrical coordinates characteristics
[AIAA PAPER 69-903] 21 p3798 A69-38546

Optimal transfer between coplanar elliptical orbits of spacecraft with combined small and large thrust propulsion system

21 p3803 A69-38848

Trajectory requirements and performance comparisons of single stage electrically propelled space vehicles

[AAS PAPER 68-106] 21 p3819 A69-39204

Secondary or abort mission maximized subject to primary mission constraints by variational treatment of optimal branched trajectories

[AAS PAPER 68-138] 21 p3819 A69-39210

Apollo translunar injection burn simulation, analyzing polynomial solutions of optimum geometry and characteristic velocity

[AAS PAPER 68-150] 21 p3820 A69-39225

Integrals of motion for minimum fuel rocket trajectories in inverse square field calculated for constant power and constant exhaust rockets

[AIAA PAPER 69-904] 21 p3806 A69-39336

Closed form solution for minimum fuel constant thrust trajectories for vehicle transfer in vacuum between arbitrary boundary conditions

[AIAA PAPER 69-905] 21 p3806 A69-39337

Vector integral extension to optimal trajectory coordinate multiplier systems with constant of motion demonstrated for coast-arc problem

[AIAA PAPER 69-907] 21 p3807 A69-39339

Minimum fuel thrust limited transfer trajectories computation for coplanar elliptic orbits

[AIAA PAPER 69-914] 21 p3808 A69-39344

Analytic approximation for initial adjoint vector for optimal/minimum propellant/ space trajectories

[AIAA PAPER 69-916] 21 p3808 A69-39345

Branched trajectory optimization for split rocket vehicles using projected gradient or steepest descent method

[AIAA PAPER 69-917] 21 p3808 A69-39346

Fuel-time optimal retrothrust control for vertical and gravity turn ballistic trajectories of soft landing nonlifting bodies based on Pontryagin principle

[AIAA PAPER 69-868] 21 p3809 A69-39394

STOL takeoff optimal trajectory maximizing altitude at given runway distance, using aircraft models

[AIAA PAPER 69-935] 21 p3649 A69-39427

Numerical algorithms for nonlinear optimal pursuit problems

21 p3757 A69-39536

Optimal pursuit control at constant moving velocity and limited angular velocities, using Pontryagin principle

21 p3825 A69-39629

Spacecraft descent trajectory optimization during atmospheric reentry, proposing algorithm for continuous trajectory determination

21 p3766 A69-39647

Spacecraft atmospheric entry descent trajectory optimization by stochastic procedure, requiring onboard digital computer to realize optimal algorithms

21 p3767 A69-39648

Flight dynamics boundary value problem for spacecraft trajectories optimization, using variational method

21 p3817 A69-39817

Trajectory optimization of second state of rocket launched into earth circular orbit in gravitational field by stepwise fuel control, using Pontryagin maximum principle

21 p3829 A69-39818

Optimal flight regime determination for variable mass body pursuing target by straddling method, presenting motion equations and approximate solutions

21 p3818 A69-39819

Flight vehicle motion in high density medium reacting with static, vortex and dynamic forces analyzed for optimal regime via Lagrange-Euler equation

21 p3768 A69-39824

Optimal minimum fuel rendezvous maneuver variational problem, generalizing circular orbit results to conical orbits

22 p4028 A69-40754

Thrust optimization for sounding rocket to reach maximum altitude with given initial and propellant weight, using polygonal time function and multiple-parameter numerical technique

22 p4037 A69-41050

Optimal pulsed orbital transfer between close nearly circular orbits in central field of gravity realized by geometrical solution

22 p4033 A69-41085

Minimum impulse time free transfer between neighboring noncoplanar almost circular orbits with line of nodes along common latus rectum

[AIAA PAPER 68-94] 23 p4215 A69-41879

Recurrent Lagrange multipliers for optimal low thrust earth-Jupiter transfers, using three dimensional solar system model

23 p4215 A69-41896

Extremal trajectory formulations for state variable inequality constrained optimization problems, forming augmented functional

23 p4182 A69-41907

Controlled plant in n dimensional Euclidean space, analyzing optimal trajectory using integral equations

23 p4183 A69-42472

Earth-Mars and earth-Venus economical transfers derived for optimal conditions with respect to characteristic velocity, obtaining exact numerical solution

[AAS PAPER 69-241] 24 p4380 A69-42855

Optimal transfer between hyperbolic asymptotes about finite size planet, discussing twelve types of analytical solutions in terms of arrival, departure and escape velocities

[AAS PAPER 69-242] 24 p4380 A69-42856

Optimal control computing method applied to minimal time flight profile optimization

24 p4383 A69-42954

Weight limitations effect on optimum motion parameters of variable mass body in gravitational field applied to spacecraft optimum propulsion system controls and trajectory determination

24 p4383 A69-42956

Fractional correction procedure for indirect trajectory optimization through extremal trajectory meeting boundary conditions

24 p4386 A69-43264

Apollo type reentry trajectory optimization numerical methods

24 p4386 A69-43281

Linear-quadratic pursuit-evasion game with dynamics perturbed by additive white Gaussian noise, obtaining linear minimax solutions

24 p4341 A69-43296

Quasi-optimum control law for minimum-time bounded acceleration rendezvous in central force field using Friedland technique, with application to lunar flight

24 p4349 A69-43313

Optimum climb trajectories at constant lift coefficient, using variational methods with final altitude and final flight path angle as end point constraints

24 p4254 A69-43727

Shock and vibration data recording, discussing transducer selection, accelerometer mounting, conditioning electronics and recording devices

01 p0083 A69-11050

Frequency domain stability criterion for nonlinear feedback system consisting of nonlinear amplifier, linear dynamical system and transducer with backlash

02 p0225 A69-11968

Self contained electrically servoed transducers for flight control, noting angle of attack transducer and force

05 p0766 A69-1675

Thermal performance of pressure transducers, accelerometers, displacement transducers, resistance thermometers and control mechanisms for NERVA reactor

06 p0956 A69-1688

Glass fiber optical angular displacement noncontacting nonloading transducer suitable for measuring torsional vibrations

06 p0923 A69-1692

Transistorized frequency detector for sensing system load changes affects speeds of control valves of prime movers

06 p0896 A69-17478

Resistance temperature transducers and thermocouples covering characteristics, readout and design for aerospace requirements

10 p1690 A69-23225

Strain gage transducers and measurements noting Wheatstone bridge, supporting structure and accuracy

10 p1690 A69-23227

Calibration for instrument systems including strain gages, piezoelectric, thermoelectric and thermoresistive transducers

10 p1691 A69-23229

Metal surface distribution of electromagnetic field from striding transducer in eddy current flow detection, calculating magnetic field component

10 p1697 A69-24071

Multicomponent force transducer for measuring track generated forces acting on rocket sled, discussing combined load and vibration tests

[ASME PAPER 69-VIBR-21] 10 p1698 A69-24168

Dynamics of gyroscopic synchronous servo system intended for remote measurement of spatial orientation coordinates of sensor moving element

11 p1881 A69-24558

Constant velocity moving object influence on indications of vertical gyroscope having electromagnetic compensation with residual imbalance of sensor element

11 p1881 A69-24561

Induction flowmeters design, discussing materials and structural details of sensor and transducer elements

11 p1887 A69-25208

Operational amplifier integrated circuits applications, discussing simple and transducer amplifiers, operational circuits, wave shapers and generators and power supplies

11 p1857 A69-25665

Love-wave propagation at UHF observed by thin film surface wave transducers

13 p2218 A69-27203

Optimal parameters of hydraulic sensor of angular accelerations for given dynamic and geometrical requirements

13 p2259 A69-27432

High pressure Hugoniot points made by hypervelocity gas gun, using laser beams to measure impact velocity and pressure transducer for impact stress

[AIAA PAPER 69-358] 13 p2264 A69-28291

Electrolytic vertical indicators response errors, discussing nonlinear properties of transducer steady state characteristics

14 p2446 A69-28925

Radiation method for temperature and heat flux measurement, discussing transducer with thermopile as sensor

15 p2607 A69-30154

Resonance measurement of power percentage in single spurious mode of overmoded waveguide, using back to back transducers and reflection at input

15 p2577 A69-30611

Interferometric displacement transducer for measuring linear displacements up to one and one-half inches

15 p2614 A69-31280

Optimizing control system design using fluidic digital circuitry and FM type transducers

15 p2583 A69-31296

Monograph on transmission characteristics of mechanical vibration transducers covering frequency response operators and analog computer simulation

16 p2789 A69-31842

Acoustic flow calorimeter for evaluating power transducers under loaded conditions

16 p2790 A69-32079

- Complex mechanical vibrations causes determined by sensor signals analysis 16 p2876 A69-32434
- Piezoelectric shaker consisting of combination of damped resonant cylindrical elements for wide frequency calibration of vibration pickups 17 p2975 A69-33665
- Calibration of inertial and surface temperature heat transfer transducers for hotshot and shock tube measurements developed and tested at ONERA [ONERA-TP-683] 19 p3305 A69-35726
- Ferroelectric transducer for heat transfer rates and flow measurement in gaseous systems with autostabilized temperature, noting film coefficient 19 p3307 A69-35749
- IR detectors defined as transducers producing electrical signal proportional to IR power incident on detector, classifying types 19 p3310 A69-36068
- Ionization manometer flange transducer with axial cathode and collector for high vacuum measurements, describing air resistant yttrium oxide coated cathode with Ir core 21 p3724 A69-39077
- Linear and torsional vibration parameters measuring methods, discussing transducer characteristics 22 p3943 A69-39926
- Dynamic parameters of full scale and equivalent structures of electromechanical transducer circuits determined experimentally 22 p3869 A69-40249
- Frequency modulating transducers advantages in process control by overcoming information loss due to series and shunt resistance, avoiding mains interference, easing commutation, etc 22 p3946 A69-40309
- Mechanical stress measurement in cylindrical steel subjected to loads inside coaxial transducer, using transducer signal in contactless eddy current method 24 p4296 A69-42654

- Linear active adjustable VLF filters for polynomial transfer functions 11 p1859 A69-25392
- Wideband inverter operational amplifier frequency response, open and closed loop transfer functions, beta, settling time and slew rate limits, discussing HF performance prediction 11 p1857 A69-25666
- Unsteady surface and internal waves diffraction induced by source in ideal incompressible fluid, obtaining solutions in form of convolution and transfer functions 12 p2061 A69-25953
- Linear automatic control system floating response to harmonic effects achieved by coinciding open loop system transfer function poles with disturbance pattern poles 12 p2045 A69-25967
- Matrix transfer functions factorization to obtain irreducible representations of multivariable control systems used for studying invariant linear multidimensional processes 12 p2047 A69-26072

Practical time resolution of streak camera, discussing streak camera transfer function and measurement of resolution with pulsed laser diode emission
12 p2084 A69-26152

Photographic emulsion layers depth dependence of darkening curve, modulation transfer function and granularity, determining properties by enzymatic and electrolytic treatments
12 p2089 A69-26196

Electrohydrodynamic equations and transfer coefficients for multicomponent plasma with volumetric charge in electric field, discussing Ohm law and equations for plasma motion
12 p2135 A69-26399

Digital differential analyzer as control element, analyzing performance limitations imposed by scaling constraints with canonical realization of transfer functions
12 p2053 A69-26509

Rational transfer function matrix realization into irreducible Jordan canonical form state equation by nonsingular transformations
12 p2122 A69-26511

Analytical expressions for transfer function matrices of four terminal signal shaping networks, assuming rational matrix spectral density of randomly polarized signal
12 p2031 A69-26644

Nonlinear control systems analysis by successive approximations, separating dominant component in transfer function of linear part
13 p2237 A69-27252

Passive adaptive sampled data control system with conditional feedback, discussing transfer function role and minimization of external disturbances and internal parameter variations effects
13 p2238 A69-27394

Optimal controller design and transfer functions in linear stabilization systems subjected to unknown disturbances determined by variational calculus
13 p2259 A69-27425

Microwave filters for canonical realization of non-minimum phase transfer functions, combining magic-T or hybrid junction with ladder structure network
13 p2228 A69-27668

Book on control theory covering automatic and remote position control, diagrams, transfer functions, operators, Laplace transform use with differential equations
13 p2238 A69-28345

Transistors transfer admittances measured indirectly, evaluating mean square error for transfer parameters
14 p2420 A69-29396

Linear analog computing elements realizing voltage transfer function with poles and zeros independently controlled, basing method on dummy variable technique
14 p2422 A69-29551

Transfer equation and Bouguer-Lambert-Beer equation application to multiple light scattering in plane medium
14 p2487 A69-29663

Lumped and distributed parameter systems, discussing transfer matrix elements, connecting lines, etc
15 p2582 A69-30319

FORTAN program for calculation of magnitude and phase of digital filter transfer functions and power spectra of periodic waveforms
15 p2567 A69-30612

Earth thermal emission intensity measured by two beam radiometer onboard Cosmos 149, noting discrepancy between empirical and theoretical transfer functions of atmosphere
15 p2596 A69-30651

Atmospheric transmission functions dependences on absorbing material, pressure and temperature in 15 micron band of carbon dioxide, introducing corrections
15 p2597 A69-30653

Cauchy system for reflection and transmission functions of finite isotropically scattering atmospheres with specular reflectors, noting use for ozone and cloud heights measurements
15 p2597 A69-31152

Universal transfer function computer based on synchronous spectrum analyzer having outputs combined in cross spectrum correlation computer to yield plot in Bode form
15 p2615 A69-31282

Linearly tapered transmission line equation and transfer matrix parameters, considering input impedances and microwave application
16 p2749 A69-31582

Solar image motion frequency spectra analysis via photoelectric equipment, showing influence on photographic pictures, spectra and modulation transfer functions for diffraction telescope
17 p3029 A69-33047

Modulation transfer function based on Fourier techniques, discussing nonlinear film development process
17 p3005 A69-33080

Network synthesis technique applied to structural dynamics design, using topological formulas to express systems response transfer functions
17 p2933 A69-33709

Rarefied gases transfer coefficients stochastic process calculation models, comparing results with correlation functions derived from transport equation
18 p3121 A69-34710

Automatic control system transient response oscillatory and aperiodic components calculation using open loop system transfer function
18 p3112 A69-35458

DYDRA data logger for dynamic measurements of pressure distributions on harmonically excited wind tunnel models, noting use as general transfer function analyzer
19 p3293 A69-35746

Transfer function in pulmonary ventilation and O tension in arterial blood analyzed by automatic control
19 p3260 A69-35897

Optical imaging with partially coherent nonthermal light, discussing correlation function propagation, transfer functions, spatial Fourier analysis, weak visibility and matrix form
19 p3372 A69-35907

Solar disk edge polarization rate determined by applying Feautrier method to transfer equations for polarized radiation
19 p3427 A69-36728

Vibration phenomena analysis by transfer function computer, discussing precision spectrum analyzers
20 p3498 A69-37003

Physical networks with lumped components and hydraulic, pneumatic, electric, thermal and elastic lines of transfer matrices
20 p3568 A69-37999

Second order system handling qualities analysis for pilot rating through human transfer function and closed loop control
21 p3668 A69-39792

Transfer matrix symmetry about secondary diagonal in vibration analysis useful for computer programming
22 p4040 A69-39938

Quadrupole network transfer matrix calculation from known octupole matrix, describing frequency response determination of coupled transmission lines
22 p3912 A69-40257

Magnetic field inhomogeneities effect on line contours and magnetographic measurements, constructing two stream models using Unno solution of transfer equations
22 p4019 A69-40288

Human eye modulation transfer function in reflected light by analyzing depolarized and polarized components emerging from eye
22 p3884 A69-40888

Exact solution of macroscopic line transfer equation including electron scattering terms for Milne-Eddington model atmosphere, discussing electron scattering effect on growth curves
22 p4007 A69-40903

Cascaded limiter and phase detector, analyzing SNR transfer characteristics for specific PM signals
23 p4131 A69-42525

Coefficient quantization in digital continuous time process controllers, applying results to nominal transfer function approximation
24 p4292 A69-43283

Feedback controller for linear stationary differential systems with time lag and fixed unknown parameters, noting closed loop transfer function role
24 p4293 A69-43293

TRANSFER OF TRAINING

Combined cueing and knowledge of results for transfer of training in visual monitoring
13 p2213 A69-28256

Aerospace management technology transfer, discussing conceptual contributions, planning, administrative and evaluation methods
18 p3236 A69-35086

TRANSFER ORBITS

NT INTERPLANETARY TRANSFER ORBITS

Satellite optimal transfers from elliptic to parabolic orbits within set time
01 p0157 A69-11306

Electric propulsion for payload transfer from low synchronous orbit of ELDO launch vehicles
03 p0496 A69-13959

Spacecraft orbital maneuvers by means of low thrust, discussing optimization and several orbital transfer examples
03 p0522 A69-14061

Single impulse noncoplanar orbital transfer with finite time of thrust action for satellite in elliptical orbit
05 p0823 A69-16048

Velocity increments for orbital transfer in satellite rendezvous in central Newtonian gravitational field by two impulse ballistic transfer method
05 p0789 A69-16065

Vehicle motion parameters in Newtonian central force field determined, using geometrical structures devised from properties of velocity hodograph
05 p0765 A69-16615

Electrical propulsion for space maneuvers discussing interrelationship of orbital change, payloads and time
06 p0998 A69-16858

Braking and acceleration speeds and maximum magnitude during transfer from circular orbit having earth center as focus to elliptical orbit within circular orbit
06 p1007 A69-17571

Minimum fuel control of spacecraft orbital elements for transfers between elliptical orbits by low variable thrust propulsion, noting interplanetary trajectory optimization
06 p0955 A69-17577

Transfer orbits calculation between low and high satellite orbits, determining trajectories by method with minimum use of linearization
07 p1211 A69-18504

Optimal interorbital transfers between closely spaced nearly circular noncoplanar orbits, taking into account active section length for low power thrusts
10 p1783 A69-23711

Optimal transfer between coplanar orbits in Newtonian force field without intersecting circle boundaries
10 p1790 A69-24198

Optimum orbital transfer of material point subjected to reactive force with minimum mass loss, discussing Kepler motion kinematics
13 p2346 A69-27690

Minimum fuel multiple impulse orbital rendezvous for fixed transfer time near circular orbits
16 p2857 A69-3216

Microthrusters thrust requirements for attitude control and orbital transfer of gravity gradient geostationary satellite
17 p3019 A69-33334

ELDO/PAS rocket motor for satellite launching from elliptic orbit apogee to synchronous orbit powered by ammonium perchlorate with organic binder and Al
17 p3022 A69-33604

Minimum fuel guidance from hyperbolic into specified circular orbit
19 p3367 A69-35663

Maneuverability domains optimization with semilinear boundaries, noting application to orbital transfer
19 p3399 A69-35664

Optimal transfers between Keplerian orbits for time free case, considering hyperbolas, ellipses external to and intersecting attracting planet
19 p3399 A69-35665

Optimal fuel transfers between coplanar and noncoplanar coaxial elliptical orbits determined by Pontryagin maximum principle, using digital program for Hamiltonian equations solutions
19 p3399 A69-35670

Numerical integration of plane orbital transfers with multiple powered arcs, minimizing propellant expenditure of small thrust chemical rocket
19 p3400 A69-35673

Optimal impulse rendezvous of long duration between quasi-circular, coplanar or noncoplanar close orbits
19 p3400 A69-35674

Minimum impulse transfer between circular and nearby noncoplanar elliptic orbit, applying Pontryagin principle
19 p3400 A69-35675

Coplanar impulsive transfers and second variation test, using maximum principle and Lagrangian multiplier technique for propellant expenditure minimization
19 p3400 A69-35676

Minimum-fuel controls in multidimensional optimum transfer problems
19 p3400 A69-35677

- Mission windows for single and multiple planet swingbys past Jupiter to outer planets
[AAS PAPER 68-115] 19 p3402 A69-35936
- Impulsive orbit transfer optimization using accelerated gradient program based on Newtonian algorithm for digital computer method
19 p3402 A69-35956
- Vehicles optimal flights with controlled or boundary level thrust in circular orbit neighborhood, using linearized equations of motion
19 p3427 A69-36612
- Optimal transfers in central gravitational field, using formulas for perturbations of osculating Keplerian orbital elements, applied to singular reticent solutions [ONERA-TP-729] 20 p3604 A69-37752
- Single impulse noncoplanar orbital transfer with finite time of thrust action for satellite in elliptical orbit
20 p3606 A69-37953
- Velocity increments for orbital transfer in satellite rendezvous in central Newtonian gravitational field by two impulse ballistic transfer method
20 p3574 A69-37955
- Geodetic satellites transfer between low ellipticity orbits by microthrust
21 p3793 A69-38338
- Optimal transfer between coplanar elliptical orbits of spacecraft with combined small and large thrust propulsion system
21 p3803 A69-38848
- Abort capability mission selection criterion, evaluating energy requirements, Mars flyby and velocity contours
[AAS PAPER 68-139] 21 p3805 A69-39209
- Minimum fuel thrust limited transfer trajectories computation for coplanar elliptic orbits
[AIAA PAPER 69-914] 21 p3808 A69-39344
- Satellite maneuver for changing plane of circular orbit to pass through given point, determining on-off engine switching and thrust vector control
21 p3765 A69-39640
- Optimal control system for earth satellite orbital transfer, using wandering ellipse technique to develop trajectory correction algorithm
21 p3767 A69-39652
- Satellite motion orbital elements dependence on large short impulse arbitrarily directed in space, analyzing optimal orbits transfer and thrust control
21 p3818 A69-39821
- Optimal pulsed orbital transfer between close nearly circular orbits in central field of gravity realized by geometrical solution
22 p4033 A69-41085
- Minimum impulse transfer of vehicle between noncoplanar Kepler orbits, applying optimal control principles to formulation
23 p4214 A69-41878
- Minimum impulse time free transfer between neighboring noncoplanar almost circular orbits with line of nodes along common latus rectum
[AIAA PAPER 68-94] 23 p4215 A69-41879
- Recurrent Lagrange multipliers for optimal low thrust earth-Jupiter transfers, using three dimensional solar system model
23 p4215 A69-41896
- Liquid fuel propulsion systems for geostationary satellites, discussing transfer orbits, payload increase and required thrust for various satellite trajectories [DGLR-69-014] 23 p4202 A69-41929
- Low thrust guidance for multirevolution trajectory required for earth parking orbit transfer to parabolic orbit insertion, noting advantages over high thrust scheme
[AAS PAPER 69-403] 24 p4379 A69-42832
- Earth-Mars and earth-Venus economical transfers derived for optimal conditions with respect to characteristic velocity, obtaining exact numerical solution
[AAS PAPER 69-241] 24 p4380 A69-42855
- Optimal transfer between hyperbolic asymptotes about finite size planet, discussing twelve types of analytical solutions in terms of arrival, departure and escape velocities
[AAS PAPER 69-242] 24 p4380 A69-42856
- TRANSFERRING**
- Activation energies of bimolecular multivalent transfer reactions of gaseous compounds, considering bond dissociation energy, length and order [WSCIPAPER 68-48] 07 p1239 A69-18321
- TRANSFORM INTEGRALS**
- U INTEGRAL TRANSFORMATIONS**
- TRANSFORMATION TENSORS**
- U TENSORS**
- TRANSFORMATIONS (MATHEMATICS)**
- NT COORDINATE TRANSFORMATIONS**
- Modified admittance yielding Kubo admittance at nonzero frequencies, discussing transformation of correlations of Ising model
01 p0115 A69-10019
- Unsteady heat flow in finite composite hollow circular cylinder using inverse method of eigenfunction expansion /method of finite integral transformation/
01 p0175 A69-10230
- Matrix technique for transformation of equation of motion into first order equation in analyzing perturbation forces producing mechanical oscillations
01 p0170 A69-10827
- Transformation laws for thermodynamic quantities confirming conventional formulation by mechanical model of heat
01 p0122 A69-11288
- Matrix transformation applications in dynamic system theory and stability test
02 p0281 A69-11943
- Integration for equations governing linearized thermoelastic transformations of incompressible solids
02 p0340 A69-12033
- Nonlinear first order equations solution by reduction method, using nonlinear transformation of dependent variable, noting two axis gyro drift
02 p0273 A69-12541
- Eigenvector approximation of complex matrix by inverse iteration, giving Algol 60 program
03 p0455 A69-13371
- Book on nonlinear programming, discussing transformation of constrained minimization problem into sequence of unconstrained minimizations of appropriate auxiliary functions
04 p0563 A69-14421
- Transformations useful for finite difference solution of differential equations with infinite regions, considering flow problems application
04 p0588 A69-14717
- Phenomena satisfying inhomogeneous Helmholtz equation in cylindrical coordinates, inferring equivalent infinite series directly from integral- transform method
04 p0623 A69-14896
- Two dimensional elementary transformation for obtaining eigenvalues, considering programming aspects for computing characteristic roots of matrix
04 p0624 A69-14967
- Theorems concerning interspherical fractionally linear transformations of operators in Hilbert spaces formulated and proved, analyzing unit sphere during fractional linear transformation
05 p0787 A69-16423
- Rearrangement inequalities for positivity of nonquadratic transformations, discussing stability of nonlinear feedback loop described by difference equations
06 p0904 A69-17943
- Transformation theory for compressible turbulent boundary layer with arbitrary pressure gradient
[AIAA PAPER 69-160] 06 p0912 A69-18073
- Wolf and generalized Parseval theorems applied to transformation of integral equation to S-plane in systems analysis
08 p1271 A69-19865
- Clebsch transformation application to equations describing viscous fluid, deducing canonical equations equivalent to Navier-Stokes equations
08 p1303 A69-20125
- Transforming equivalent circuits, keeping electrical characteristics defined by network functions within prescribed limits
09 p1472 A69-21784
- Kutta-Merson algorithm for converting partial differential equation for two dimensional unsteady state heat conduction to simultaneous ordinary differential equations
09 p1623 A69-22280
- Invariant transformation of equations for ideal gas plane steady motions, noting application to gas flows with shock waves and eddies
10 p1680 A69-23709
- Asymptotic solution to problem of finding time optimal transformation for controlled plant with motion in phase space described by matrix differential equation
10 p1666 A69-23883
- Invariant transformation of Euler equations of motion for plane steady flows of perfect compressible fluid
11 p1877 A69-25739
- Canonical transformations of unsteady control system motion equations, simplifying control process study and controller simulation on analog computer
12 p2045 A69-25960
- Differential equations application to electrical circuit problems, solving voltage for series LCR networks and transforming Mathieu into Hill equation
12 p2052 A69-26351
- Homeomorphism theorem for Petrovskii and homogeneous elliptic systems applied to boundary value problems and Green formula
13 p2287 A69-27515
- Group code decoding, discussing equivalent transformations of reference matrix and reduction of equipment losses
13 p2225 A69-28537
- Differential equations for shallow circular spherical shell transformation to equation describing stress-strain state of plate on elastic base
13 p2369 A69-28565
- Convolution property of Hermitian transform for odd integral values of n
15 p2645 A69-30863
- Bilinear covariant of linear differential form involving 2n independent variables used for grouping to achieve symplectic and contact transformations
16 p2804 A69-31623
- Vlasov-Poisson equations reformulation by arbitrary transformation to velocity variable, considering time or space secularity of perturbation theory
16 p2817 A69-31642
- Equations of transformation for hourly data harmonic terms used in computation and representation of solar and lunar daily magnetic variations
16 p2782 A69-32457
- Transformation of two dimensional boundary value equations for laminar power law nonNewtonian fluid flow to yield similar solutions
17 p2957 A69-34016
- Green functions theory for finite integral Lebedev-Kantorovich transforms derivation, with application to elastostatics boundary value problems
17 p3067 A69-34148
- Moment and discrete ordinate methods in radiative transfer problems in planar, radiating and nonscattering media, noting conical transformation of moment equations
18 p3174 A69-35237
- Canonical transformations depending on small parameter, utilizing Lie series
19 p3397 A69-35608
- Equilibrium equations for longitudinally hinged nonshallow cylindrical shells transformed into coupled equations with constant coefficients
19 p3439 A69-36581
- Transformation groups used to find similarity solutions for partial differential equations and heat equation
20 p3630 A69-36915
- Reduction of boundary value problems to initial value problems through variables transformation, considering application to eigenvalue problems
21 p3754 A69-38747
- Invariant transformations for hodograph matrix equations in gas dynamics
21 p3695 A69-39001
- Spacecraft natural vibrations analyzed using point transforms with allowance for control systems imperfections
21 p3826 A69-39637
- Slack variable to transform optimal control problem with scalar inequality constraint on state variables into unconstrained problem of higher dimension
24 p4291 A69-43270
- Stress wave propagation in nonhomogeneous elastic media, considering curvilinear characteristics transformation into equal slope straight lines by change of independent variable
24 p4403 A69-43574
- TRANSFORMERS**
- NT COUPLING CIRCUITS**
- NT MODE TRANSFORMERS**
- Passive circuit to transform voltage of indefinitely repeated positive or negative pulses using transistors, diodes and magnetic cores
01 p0043 A69-10564
- Self excitation conditions and output characteristics of tunnel diode DC to AC converters for spacecraft, discussing relaxation- oscillator and push-pull circuit converter types
01 p0046 A69-10755
- Regulated high voltage DC to DC converter with output voltage programmable numerically, noting application on board HEOS A satellite
04 p0602 A69-15400
- Transformer inrush transients control by selection of core material, primary turn number and trigger circuitry
06 p0894 A69-17221

- Pulse transformer design relationships and definitions, discussing core and winding structure choice
08 p1285 A69-20382
- Synthesis for asymmetrical branch guide directional coupler-impedance transformers, noting application in antenna design
13 p2233 A69-28069
- E shaped cores for miniaturized transformers and inductors from high permeability plastic bonded materials
13 p2237 A69-28586
- Computerized design of inhomogeneous transformers with cascaded quarter wave sections
14 p2423 A69-29762
- Equivalent circuit of single winding transformer, using distributed constant theory
15 p2578 A69-30793
- Rotary power transformer design for spin stabilized spacecraft power system, discussing efficiency and advantages
17 p3050 A69-34111
- Transformer for unilateral energy transfer using single domain uniaxial Permalloy film
21 p3684 A69-39454
- Autotransformer with static tap changer to provide varying power levels for controlled gradual heating of aircraft window to avoid thermal shock
22 p3869 A69-40414
- Isometric recording device for tensile stresses on muscle preparations in vitro, based on differential transformer
23 p4111 A69-42056
- S-band pin-diode switch for high CW power satellite and deep space probe communication, using multiple quarter-wave transformers to stepdown diode impedance
23 p4143 A69-42518
- TRANSFORMS**
U TRANSFORMATIONS [MATHEMATICS]
- TRANSIENT HEATING**
NT PULSE HEATING
NT SHOCK HEATING
- Semidiscrete approximate solution by analog computer of inverse problem of transient heat conduction [ASME PAPER 68-WA/HT-26]
05 p0848 A69-16127
- Transient temperature distribution for finite slab in phase transformations via single face temperature changes [ASME PAPER 68-WA/HT-37]
05 p0848 A69-16128
- One dimensional integral solution for cylindrical source generated transient temperature field and relation to thermal diffusivity of brain tissue
06 p0879 A69-17085
- Charring phenolic nylon ablator material pyrolysis and surface recession for cyclic and constant combined convective and radiative heating [AIAA PAPER 69-151]
06 p1036 A69-18055
- Safety problems associated with transient boiling of liquid metals in fast nuclear reactors, emphasizing behavioral differences between liquid metals and water
08 p1420 A69-20101
- Human reactions to increasing heat exposure, noting thermoregulation and metabolic and evaporative heat loss [AGARDOGRAPH-111]
08 p1265 A69-20675
- Transient free convection laminar boundary layer equations for heat transfer from vertical semiinfinite flat plate
08 p1305 A69-20842
- Upper atmosphere response to time dependent heating based on approximate analytic solutions of heat conduction equation
11 p1878 A69-25151
- Transient one dimensional temperature distribution determined for bodies with internal heat generation and nonlinear boundary condition, using Biot variational method [ASME PAPER 68-HT-6]
13 p2374 A69-27775
- Transient heat transfer in formation of steady crossed fields MHD plane Couette flow for walls, giving momentum, induction and energy equations
13 p2375 A69-27791
- Heating facility for testing ablative heat shield material models in combined convective and radiative heating environment with constant or transient heating conditions [AIAA PAPER 69-342]
13 p2243 A69-28278
- Green functions for Laplace, Poisson and transient heat diffusion equations solved by matrix multiplication
15 p2710 A69-30870
- Numerical methods using analog computer in linear one dimensional transient heat conduction
18 p3229 A69-34835

Stress strain state in thin circular elastoplastic disks under axially symmetric transient temperature distribution, noting moving annular plastic deformation region
20 p3629 A69-38028

Transient heat transfer single blow temperature response functions characterized by first moment of downstream-upstream fluid temperature difference, showing curve matching applications
21 p3851 A69-39291

TRANSIENT LOADS

NT BLAST LOADS
NT GUST LOADS
NT IMPACT LOADS
NT SHOCK LOADS

Mathematical models to investigate transient plane bending wave propagation in elastic plates, using elasticity and plate theories
03 p0525 A69-13606

Vertical, horizontal and rocking vibrations of body on surface of otherwise unloaded elastic half plane, estimating stiffness for coupled vibrations [ASME PAPER 68-WA/APM-12]
04 p0668 A69-14393

Stresses and displacements in anisotropic elastic solids under mechanical loading, determining general solution for treatment of time dependent boundary conditions
04 p0675 A69-14595

Forced vibration of thin elastic plate resting on elastic foundation and subjected to time dependent loads and external damping
08 p1416 A69-20692

Shock pulse criterion limitations and HF transients technique for design and tests of structures and components
12 p2182 A69-26731

Dynamic stresses in case bonded cylinder under transient angular accelerations, presenting numerical results for incompressible elastic cylinder
13 p2364 A69-28209

Materials and structural failures under short time compressive loadings, showing structural response to tensile stresses produced by rarefaction waves
15 p2639 A69-30364

Transient and long lasting space environment stresses, discussing accelerations, vibrations, shocks, rapid descent in vacuum, temperature variations, gravity, etc
15 p2625 A69-30824

Transient wave processes of deformation in spherical shell under load abruptly applied to geometrical pole
16 p2875 A69-32288

Secondary fatigue curves slope variation to determine preloaded materials fatigue life under unstationary loading
17 p3052 A69-32976

TRANSIENT OSCILLATIONS

Transient phenomenon analysis and filtering based on stage separation tests in vacuum chamber, with emphasis on selective integration method [ONERA-TP-684]
19 p3293 A69-35747

Transient oscillations in ammonia maser oscillator observation based on switching achieved by signal injection into cavity at molecular resonance frequency
19 p3339 A69-36825

Eye elemental response to individual frequency jumps in oscillations of light, noting transient effect polarity
21 p3650 A69-38320

TRANSIENT PRESSURES

Molecular flow network theory applicable to volumes interconnected by small orifices or porous membranes for transient pressure measurements
16 p2813 A69-32325

High speed transient pressure measurement, emphasizing forcing function measurement
18 p3133 A69-34244

Bubble oscillations in water filled pressure chamber with alternating pressure generated by piston, measuring temporal development
19 p3302 A69-36871

Miniature transducer to measure low transient pressures on models in rarefied shock tunnel flows, emphasizing mechanical vibration, convective heating and miniaturization
22 p3950 A69-41227

Stroboscope method for measuring pulsating flow transient velocity based on hot-wire chromometric recording of small ion clouds emitted during pulsation
22 p3951 A69-41257

TRANSIENT RESPONSE

Streak interferometry method for measuring transient deformation data on metallic solid surfaces
01 p0078 A69-10117

Transistor distributed amplifier theory, noting effect of collector line and base line delay difference on gain and transient responses
01 p0041 A69-10203

Transient nonlinear mode partially responsible for anomalous operation of IMPATT diodes below transit time cut-off frequency
01 p0043 A69-10559

Delayed response in threshold switching from reset state in ferrite memory cores consisting of magnesium compounds [IEEE PAPER 16.4]
01 p0045 A69-10719

Transistor parameters for operation as minority carrier charge controlled device, developing equivalent circuit for computer calculation of transient response
01 p0046 A69-10748

Equivalent circuits for transient characteristics approximation of distributed RC circuits
01 p0046 A69-10779

Transient process in n stage nonlinear amplifiers analyzed on basis of structural circuit
01 p0047 A69-10781

Zero memory frequency independent nonlinearities response to modulated input noting FM limiter, band-pass limiter and AC carrier control systems
01 p0034 A69-11142

One dimensional Vlasov plasma nonlinear response to external electric field varying in space and time
01 p0133 A69-11214

Transient laminar boundary layer development on flat plate following impulsive start of surrounding fluid motion, obtaining temperature and velocity distribution relationship [ASME PAPER 68-HT-10]
02 p0232 A69-12208

Pressure and velocity couplings effects on oscillatory and transient motions in solid propellant rocket motors, emphasizing unsteady burning calculations
02 p0305 A69-12501

Finite difference numerical integration technique for large elastoplastic deformation transient and permanent deflection responses of thin shells
02 p0347 A69-12518

Proper digital filters devoid of transient response analyzed as extension of time invariant filters
02 p0213 A69-12815

Unsteady transient flow of viscous fluid in suddenly rotating open pot, taking into account effect of bottom in determination of velocity profile
03 p0414 A69-13019

P-n junction under arbitrary transient conditions, solving one dimensional, two carrier transport equations by numerical iterative method
03 p0487 A69-13639

Galvanostatic transients of iron passive in 2N sulfuric acid, noting space charge effects and zero field current variation [ECS PAPER 84]
03 p0382 A69-13858

Transient electro-osmosis of water in capillary tubes for pumping and generation modes, analyzing response to step change in pressure or voltage change under external loading
04 p0555 A69-14862

Transfer function variation of invariant servodrive, comparing calculated and experimental transient response
04 p0584 A69-15418

Controlled transient signal distortion by shock monitoring instrumentation circuits using piezoelectric accelerometers
04 p0603 A69-15430

Models to predict transient radiation responses in microcircuits, discussing model accuracy for junction and dielectrically isolated circuits
06 p0977 A69-16887

Square loop magnetic core model for computer aided circuit transient analysis
06 p0899 A69-16888

Attitude control system for maintaining orientation of experimental package relative to space stabilized platform, noting transient response and steady state accuracy
06 p0955 A69-17587

Transient stability of AC generator analyzed by Liapunov direct method, considering effects of flux decay, speed governor and voltage regulator
07 p1058 A69-18644

Forward transient response characteristics of high resistivity, long base, low lifetime p-n-n silicon diodes doped with Au, noting voltage oscillations
07 p1101 A69-18652

Transient heat evolution response to reapplied stress of alloys plastically preformed at 4.2 K attributed to thermally softened defect structures
07 p1165 A69-18906

- Wave motion onset and waveforms in rotating annulus with sinusoidally varying temperature differences
07 p1126 A69-19039
- Transient response of targets subjected to hypervelocity impacts and quantitative aspects of impact process, noting study of wax targets interiors
07 p1234 A69-19380
- Feedback amplifier with transfer function poles on parabola, discussing small rise time with small overshoot combined in transient response
08 p1282 A69-20111
- Transient response spectrum of nonlinear cubic spring mass system subjected to step function input, discussing viscous damping effects on peak response
08 p1413 A69-20402
- Rocket engines transient thrust measurement by quartz transducers
08 p1301 A69-20589
- Transient thermal stress distribution in infinite orthotropic elastic cylinder of rectangular cross section in presence of heat sources
08 p1415 A69-20664
- Human reactions to increasing heat exposure, noting thermoregulation and metabolic and evaporative heat loss
[AGARDOGRAPH-111] 08 p1265 A69-20675
- Second order system response with variable damping computed by stepwise numerical integration
08 p1418 A69-20849
- Transistor large signal saturation time constant dependence on injection ratio, noting nonlinear response and saturation transistor switch storage time
09 p1464 A69-22117
- Transient behavior of DC measuring amplifiers with time variable feedback, using matrix method and Laplace transform
09 p1467 A69-22560
- Transient process in n stage nonlinear amplifiers analyzed on basis of structural circuit
10 p1661 A69-23110
- Transient characteristics of negative resistance zinc alloy diodes, investigating temperature effects
10 p1662 A69-23157
- Transient response of MOS capacitance caused by mechanisms dependent on electric field distribution between silicon and oxide
10 p1744 A69-23176
- Resonator field inhomogeneities effect on transient processes in quantum oscillator, considering two active crystals in cavity
10 p1705 A69-23948
- Finite difference method for transient and steady state response of vibrating plates, considering explicit and implicit formulas
11 p1983 A69-25020
- Numerical prediction for nonlinear transient response of structures, considering geometric and material nonlinearities in systems with line elements
11 p1993 A69-25526
- Transient dynamic response of linearly viscoelastic structures and continua, presenting finite element displacement formulation
11 p1993 A69-25528
- Transient behavior of transistor UHF oscillator, discussing network analysis for oscillation amplitude calculation by nonlinear transistor equivalent circuit diagram
11 p1854 A69-25613
- Numerical computation method for evaluating transition matrix of linear time invariant system, estimating error propagated in transient response
11 p1910 A69-25660
- Vignetting effect on impulse response of general coherent optical Fourier processor, noting time varying character and input position sensitivity
12 p2036 A69-25912
- Transient response of linear time invariant system from state transition matrix, eliminating evaluation of eigenvalues
12 p2120 A69-25913
- Modified scheme for simulation of delay with transient period independent of amount of delay, considering polynomial input
12 p2120 A69-25922
- Transmission and reflection scattering coefficient measurements of microwave networks by Fourier analysis of transient response to impulsive or steplike waveforms
12 p2038 A69-26056
- Uncontrollable modes effect on transient/steady behavior and limit cycles characteristics of nonlinear multivariable control system
12 p2048 A69-26078
- Transient ventilatory response to breaths of nitrogen at rest and during exercise in high altitude and sea level natives
12 p2019 A69-26131
- Photoelectric recorder with timebase image converter tube for investigating ultrashort light pulse transient response of laser
12 p2083 A69-26139
- Extrapolation of aperiodic step responses
12 p2051 A69-26237
- Transient responses of mutually synchronized signal systems, obtaining design parameters
12 p2030 A69-26388
- Transient processes in conduction type MHD generators due to external circuits induction distribution
12 p2017 A69-26545
- Transient response of transistor in common emitter circuit using charge method taking into account base current switching pulse parameters
12 p2043 A69-26884
- Transient response in liquid-metal conduction MHD generators, analyzing constant magnetic field using differential equation
13 p2207 A69-27506
- Numerical methods for solving steady state and transient heat transfer problems suitable for high speed digital computer
13 p2376 A69-28141
- Transient response of distributed gain amplifier employing m-derived filters and vacuum tubes
13 p2235 A69-28516
- Autonomous and nonautonomous transient processes in conservative and nonconservative nonlinear systems, deriving equations describing perturbations under loads, solving by asymptotic method
13 p2300 A69-28529
- Optimal linear control systems with time limits on transient processes synthesized by reducing optimization to algebraic equations solution
14 p2425 A69-28820
- Small signal transient characteristics of semiconductor diodes analyzed by charge method, studying processes during p-n junction diode switching at low currents
14 p2419 A69-28918
- Transient processes in counting circuits with tunnel diode chains, discussing operating point position for various conditions
14 p2419 A69-28921
- Capacitive parametric modulator transient processes and second harmonic effect analysis, obtaining transient response and recovery time
15 p2574 A69-30125
- Transient behavior of finite damped cantilever beam and circular plate analyzed by direct finite element method, noting applicability to dynamic problems
15 p2710 A69-30868
- Statistical characteristics of Q switched He-Ne laser emission gain fluctuations during transient process from subthreshold to superthreshold value
15 p2634 A69-30960
- High gas stream temperature levels and distributions from transient and intermittent probe measurements
15 p2612 A69-31268
- Approximate analytic solution to transient response of infinitely long cylindrical shell surrounded by viscoelastic medium, discussing composite and elastic shells
[AIAA PAPER 68-351] 16 p2871 A69-31877
- Digital simulation computer stability analysis scheme premised on use of perturbed transient responses
17 p2944 A69-32899
- Backscattered impulse response waveforms of conducting circular cylinder for broadside incidence utilizing Fourier synthesis
17 p2917 A69-32918
- Transient thermal analysis of space radiators excluding finite difference equations, noting computer adaptability and time saving
[AIAA PAPER 69-615] 17 p3070 A69-33261
- Collisionless cylindrical Langmuir probe response in turbulent plasma for mean and statistical properties
[AIAA PAPER 69-698] 17 p3010 A69-33438
- Electromagnetic transient wave propagation and reflection in lossless isotropic stratified ionized media, discussing time variations of fields due to incident plane unit step wave
17 p2924 A69-33839
- Switching time of transient two dimensional fluidic bistable wall attachment amplifiers based on mathematical model and separation bubble control
17 p2904 A69-34068
- Transient characteristics of three phase AC alternators with rectified outputs
17 p2905 A69-34089
- Automatic multichannel transient monitor for electrical transient detection and data processing, transmission and storage on aircraft
17 p2947 A69-34135
- Penumbra current distribution in plane electromagnetic waves diffraction by conducting cylinder, obtaining transient solution for impulsive excitation, discussing time harmonic problem
[AFRL-69-0038] 18 p3100 A69-34232
- Transient vibration linear analysis using Duhamel integral and Fourier and Laplace transformations, deriving receptances and application to aeroelastic systems
18 p3211 A69-34326
- Transient performance of full flow hydraulic turbine driven two speed pump inducer system, formulating computer model
[AIAA PAPER 69-551] 18 p3140 A69-34415
- Optimum automatic system for controlling helicopter formation flight, stressing transient response Q factor and transmission ratios
18 p3090 A69-34656
- Transient processes of strain wave propagation in elastic shells and plates under time varying loads
18 p3224 A69-35321
- Automatic control system transient response oscillatory and aperiodic components calculation using open loop system transfer function
18 p3112 A69-35458
- Algorithms for equivalence equation to approximate transient processes in higher order linear system by transient processes of lower order linear models
19 p3286 A69-36191
- Transient electrical responses from retinas, discussing visual pigment role in visual excitation, photochemistry, etc
19 p3258 A69-36377
- Phase and amplitude stabilization during phase modulated discrete data transmission
19 p3277 A69-36571
- High gas stream temperatures determination from short exposure probe based on inferring temperature from transient response of sensor
20 p3536 A69-37005
- Transient phenomena in bounded dispersive medium emphasizing surface wave propagation, discussing space and surface waves excitation in bounded cold magnetoplasma
20 p3494 A69-37842
- Transient effects of nuclear radiation bursts on dielectric properties of refractory low loss ceramics at L, S and X bands
20 p3584 A69-38065
- Transient current change with minor change in voltage with double injection of electrons and holes in CdS single crystals, obtaining time dependence
21 p3780 A69-38833
- Transient heat transfer single blow temperature response functions characterized by first moment of downstream-upstream fluid temperature difference, showing curve matching applications
21 p3851 A69-39291
- Satellite attitude stabilization systems transient response optimization using combined feedback
21 p3830 A69-39833
- Transient temperature response of cylindrical composite energy storage devices with thermal conductivity, density and specific heat independent of temperature
22 p3868 A69-40132
- Maximum errors of telemetering systems under interchannel transient distortions in multistage amplifier of video signals
22 p3899 A69-40250
- Piezoelectric transducer transient electrical response due to shock loaded stress using transform calculus
22 p3947 A69-40863
- Transient flow resulting from plane shock diffraction by analytic blunt body, basing analysis on Taylor series expansions in space and time variables
22 p3860 A69-40895
- Frequency response transient vibration testing of standing man, discussing data analysis procedure, test stand, and Welch correction for instrument dynamics
23 p4101 A69-41494
- Bounded input-output stability for lumped distributed systems by poles examination in S plane, considering transient response of linear time invariant systems
23 p4144 A69-41568
- Transient processes in microwave quadrupoles with ferrite resonators
23 p4139 A69-41948

- Optimal control problems, discussing properties of signal producing response signals with transient functions at independent outlets of linear dynamic system 23 p4145 A69-41958
- Nerve and muscle tissues subthreshold reactions on analog model, discussing transient characteristics under various excitations 23 p4109 A69-41980
- Potentiometer transient contact resistance determined as function of contacts physical parameters 23 p4166 A69-41996
- Shock wave transient motion during passage through ducts in inviscid gas containing convergences, using characteristics method 23 p4153 A69-42398
- Battery/fuel cell hybrid power source, discussing fast transient response [SAE PAPER 690205] 24 p4255 A69-42889
- Matrix method for analyzing elastic structures linear transient response to time dependent loads and temperature change 24 p4399 A69-42988
- Geometric dispersion of transient stress waves in linearly elastic laminated composite based on sinusoidal modes [ASME PAPER 69-APMW-20] 24 p4401 A69-43098
- Wick-limited heat pipe performance, discussing maximum, steady heat transfer rate and transient response [ASME PAPER 69-HT-20] 24 p4413 A69-43549
- TRANSIENTS [SURGES]**
U SURGES
- TRANSISTOR AMPLIFIERS**
- Transistorized feedback amplifier for data transmission over high voltage lines in conveyed wave systems 01 p0038 A69-10074
- Microwave transistor amplifier computerized design, discussing wide bandwidth and flat in-band gain response optimization on high dielectric substrates 01 p0040 A69-10194
- Darlington composite transistor hybrid parameters used to describe performance characteristics, noting load resistances and source 01 p0041 A69-10244
- S band solid state amplifier capable of 10 watts output power based on combination of transistor amplifiers 02 p0217 A69-12147
- Transistorized two stage amplifiers with common feedback operating under steady conditions and for short times 04 p0575 A69-14466
- Supply voltage limits for transistor amplifier circuit, examining processes during supply voltage variation 05 p0729 A69-16083
- Equivalent noise circuit for resonant transistor amplifier, deriving expression for noise factor 05 p0729 A69-16084
- Admittance between terminals measured for stabilizing single loop negative feedback transistor amplifier 05 p0739 A69-16341
- Transistorized receiver for satellite telecommunications having adjustable receiver center frequency within 20 MHz 05 p0734 A69-16594
- Noise properties of junction diodes and bipolar transistors as basis for low noise amplifiers design 08 p1286 A69-20839
- Self biasing influence on tunnel diode amplifiers dynamic range, determining limiting conditions for amplitude characteristics 09 p1469 A69-22633
- Transistorized assembly for amplification of signals emitted by platinum film probes in shock tubes, discussing application to chronometric device triggering 11 p1887 A69-25095
- Ultrawideband DC transistor amplifier for pulsed switching circuits with subnanosecond risetimes, discussing multistages with feedback dipoles, transient response and drift problems 11 p1854 A69-25612
- P-n-p planar epitaxial germanium microwave transistor used as amplifier in 1.4 GHz range and as high speed switch, summarizing design, fabrication and characterization 12 p2037 A69-25940
- Transistorized amplifiers reliability during operation in intense external environment 12 p2043 A69-26886

- Current driven AGC effectiveness in selective amplifiers, including conductance variation effect on pass-band instability and frequency response 12 p2043 A69-26887
- Emitter self bias in power stages of transistor transmitters, considering transistor parameters dispersion 13 p2226 A69-27217
- Voltage amplitude for combination frequency of small signal transistor amplifier calculated from feedback dependence 13 p2226 A69-27218
- Coupling coefficients for common-base/common-base circuits of bandpass filters in two circuit selective transistor amplifier 13 p2226 A69-27219
- Transistorized DC amplifier circuit with reversible and controllable transfer constant based on voltage conversion principle 13 p2235 A69-28511
- Large signal transit time effects in MOS transistor, noting drain current response 14 p2418 A69-28891
- Wideband transistorized amplifier frequency response analysis by simplified approximations, subdividing operational frequency range 15 p2573 A69-30113
- Solid state broadband RF power amplifier for airborne HF radio, eliminating total servosystem and all higher voltage components 17 p2942 A69-34114
- Silicon MOS transistor characteristics, discussing stability, temperature effects and inherent noise, noting applications to amplifier circuits 18 p3109 A69-35161
- Transistorized low noise reception antennas with built-in amplifying elements, discussing radiation patterns and noise problems 21 p3683 A69-39264
- TRANSISTOR CIRCUITS**
- Input transistor performance analysis in Schmitt trigger circuit, considering role of hysteresis 01 p0039 A69-10170
- Microwave amplifier design with hybrid integrated circuits of thin film lumped elements, noting gain and efficiency of transistor circuits 01 p0039 A69-10190
- Transistor distributed amplifier theory, noting effect of collector line and base line delay difference on gain and transient responses 01 p0041 A69-10203
- Transistor parameters for operation as minority carrier charge controlled device, developing equivalent circuit for computer calculation of transient response 01 p0046 A69-10748
- Impedance and gain approximation in transistor configurations, noting gyrator circuit 02 p0213 A69-11532
- Test procedure for obtaining large signal S characterization of nonlinear power transistors 02 p0214 A69-11600
- Low noise high power transistor oscillator using directional coupler, noting isolated port for injection phase locking 02 p0220 A69-12452
- Large scale integration /LSI/ arrays, discussing high yield manufacturing methods based on fixed nondiscretionary connections among components 02 p0254 A69-12467
- Linear transistor models synthesis based on measured characteristics of four terminal admittance parameters 03 p0404 A69-13596
- Transistor circuits analysis with aid of signal flow graphs 04 p0575 A69-14461
- Soviet book on impulse generators in transistors covering multivibrators and pulse generators with timer circuits, crystal controlled frequency and delayed feedback 04 p0578 A69-15053
- Transistor scattering matrix parameters determination, emphasizing directional coupler errors and impedance mismatches 04 p0582 A69-15067
- Transistorized LF generator, discussing tradeoff due to frequency range, harmonic distortion and output stability 04 p0579 A69-15225
- Bridge circuit n-type conductivity converter with internal compensation of parasitic effects 05 p0727 A69-15641

- Transistor-transistor logic switching circuits design for use in frequency dividers with variable division ratios in frequency processing systems 05 p0729 A69-15963
- Transistorized single sideband detector-converter operation in presence of large signal and heterodyne voltage levels, deriving equation for transmission coefficient 05 p0730 A69-16220
- Circuit with tunnel diodes and transistors for nonlinear amplification, noting current-voltage characteristics dependence on circuit parameters 05 p0829 A69-16222
- Tube and transistor type quartz crystal FM oscillators circuitry and operating characteristics, discussing generation of three frequencies 05 p0732 A69-16532
- Junction gate field effect transistor design covering geometries and impurity profiles 06 p0893 A69-17197
- Transistorized multichannel pulse height analyzer and recording system for balloon-borne cosmic ray payloads, discussing performance capacity 06 p0924 A69-17284
- Transistorized frequency detector for sensing system load changes affects speeds of control valves of prime movers 06 p0896 A69-17478
- Linearizing circuit for low velocity hot-wire anemometry, using analysis of transistor circuit to generate desired function 06 p0927 A69-17701
- Noise characteristics of transistorized feedback amplifier stages for application in amplifier design 07 p1090 A69-18284
- Analog multiplier using differential transistor pairs, discussing FM/AM detection, suppressed carrier modulation and TV chroma demodulation 07 p1103 A69-18880
- Integrated four transistor bridge network used for self neutralized active element in tuned RLC amplifier design 07 p1103 A69-18884
- Metal oxide semiconductor circuits with higher orders of complementarity for performing multiple electronic functions, noting I-V characteristics and effects of bias 07 p1104 A69-18887
- MOS transistor logic circuit performance optimization through component geometry and feed voltage 08 p1280 A69-19977
- Composite transistor simulation of circuit inductor effect for synthesizing frequency selective circuits 08 p1286 A69-20834
- Thermal instability in power transistor structures, considering effects of design, emitter and base resistance at high currents 08 p1373 A69-20858
- Nonlinear analysis of transistor networks using Kron mesh method, developing quasi-linear equations characterizing common emitter transistor 09 p1471 A69-21632
- Transistorized amplifier stage noise factor dependence on parameters and modes of operation of transistors 09 p1463 A69-21724
- Pulse generator switch consisting of avalanche transistors in series, describing voltage production and transmission, trigger pulse jitter and pulse amplitude 09 p1468 A69-22589
- Intrinsic amplitude and frequency fluctuations in transistor autooscillator, examining natural additive noise influence 09 p1469 A69-22632
- DC to DC converters design using HF transistors to achieve high switching speeds while reducing size and weight 10 p1635 A69-22983
- Transistorized electrophotometer for polarimetric and photometric analysis of weak light fluxes, noting pulse amplifying and shaping circuits 11 p1884 A69-24735
- Hybrid matrix algorithm for electronic circuits analysis, showing applications to transistorized circuits 11 p1859 A69-24954
- Transient behavior of transistor UHF oscillator, discussing network analysis for oscillation amplitude calculation by nonlinear transistor equivalent circuit diagram 11 p1854 A69-25613
- Critical review of statements concerning previous paper on noise in transistor mixers at HF 11 p1857 A69-25662

Multivibrator circuit for generation of oscillations with frequency stability against transistor ambient temperature changes
12 p2036 A69-25919

Transistorized tachometer for rotational speed measurement and overspeed protection of automotive internal combustion engines
12 p2090 A69-26240

Integrated circuits, discussing development from transistors and vacuum tubes, operation, fabrication and applications
12 p2038 A69-26331

Transistorized LF-HF RC filters and current amplifiers design, exhibiting polynomial type characteristics
12 p2040 A69-26488

Thermal stability of complex transistorized structures determined by extending method of single heat source equivalence to several interacting sources
12 p2042 A69-26882

Time delay in temperature controlled transistorized time delay circuit determined by transistor unsteady thermal processes
12 p2043 A69-26883

Transient response of transistor in common emitter circuit using charge method taking into account base current switching pulse parameters
12 p2043 A69-26884

Common source and common gate FET connections showing equivalent noise figures
13 p2227 A69-27237

Cut-in and cut-out characteristics of fast acting composite transistor circuit, noting pulse duration
13 p2235 A69-28517

Transistor circuits analysis with aid of signal flow graphs
14 p2418 A69-28832

Transistorized circuit operation with nonlinear feedback through tunnel diode analyzed by piecewise-linear approximation of I-V characteristics
15 p2573 A69-30114

AM sinusoidal current pulse generator for semiconductor lasers, describing solid state circuit
15 p2633 A69-30235

Transistors and IC reliability for memory control evaluated by Concerto subprograms
15 p2627 A69-30842

Transistorized VOR system using electronic goniometer and fixed antennas, describing power supply, transmitter, goniometer, antenna and design
16 p2827 A69-31938

Transistorized L band oscillator tuned by Ga-doped YIG, discussing ferrimagnetic material properties and device equivalent circuit
16 p2761 A69-32450

Power supply circuits in spacecraft, DC voltage control systems, transistor and thyristor regulators and modulators, etc
17 p2937 A69-33582

Silicon MOS transistor characteristics, discussing stability, temperature effects and inherent noise, noting applications to amplifier circuits
18 p3109 A69-35161

Equivalent circuit demonstrating noise reduction through input transistor integration into passive receiving antenna, stressing circuit loss control and preamplification role
19 p3281 A69-35764

Transistorized amplifier stage noise factor dependence on parameters and modes of operation of transistors
20 p3505 A69-37460

Spark gap protection of input transistors in radio receivers against antenna-collected static charge damage
21 p3681 A69-38395

Tensor analysis of brushless DC motor controlled by transistors, discussing torque phase, torque variation phase and efficiency phase characteristics
24 p4255 A69-42678

TRANSISTOR LOGIC

FET memory element charge storage two layer model for thin film dielectrics noting charge/discharge times
10 p1742 A69-22947

NDC-1070 solid state computer design featuring TTL, MSI and hybrid circuits, offering memory capacity flexibility and rapid maintainability
17 p2933 A69-34060

Integrated TTL flip-flop circuits, describing functional principles of circuits with DC and capacitive coupling
24 p4287 A69-43130

TRANSISTORS

NT FIELD EFFECT TRANSISTORS
NT JUNCTION TRANSISTORS
NT SILICON TRANSISTORS

Planar transistor micromode operation during collector junction avalanche breakdown
01 p0047 A69-10884

Transistors vs electron tubes as microwave power sources in UHF phased array radars, noting transistor cost competitive limit
01 p0048 A69-11041

Graphical method for determining rise time of planar transistors with constant collector space-charge capacitance
01 p0049 A69-11362

Semiconductor center traps effect on characteristics of metal oxide semiconductor transistors
02 p0299 A69-12183

Current-voltage characteristics of avalanche transistors, noting impact ionization
02 p0218 A69-12266

Microwave transistor noise figure, power gain and noise measure as function of source admittance and source reflection coefficient in L and S bands
02 p0219 A69-12427

Planar transistor reliability test results noting failure rate, stability and effect of temperature
03 p0402 A69-13006

DC beta falloff in transistors at large collector currents measured, discussing relation to emitter crowding
04 p0574 A69-14347

Voltage variable resistor MOST, noting channel resistance controllability
04 p0574 A69-14351

Gamma radiation effects on transistors and diodes, discussing dosage and thermal changes within operational temperature range of germanium devices
05 p0728 A69-15695

Gain degradation under applied voltage and injection current during low dose gamma irradiation by Co-60 source for bipolar transistors
06 p0977 A69-16880

Temperature effects on primary photocurrent of base collector and collector substrate junctions of isolated transistors from microcircuits
06 p0977 A69-16881

Inverted transistor parameters required for accurate prediction of electrical and radiation storage time, discussing computer predictions of radiation responses
06 p0977 A69-16884

Neutron and X ray radiation effects upon gallium arsenide devices including Gunn oscillators, transistors, Schottky barrier diodes and optoelectronic pulse amplifiers
06 p0978 A69-16890

Transistor HF noise factor measurement by semiautomatic device with saturated diode comparison noise source heater current automatically controlled
07 p1090 A69-18292

VHF transistor power output capability, discussing limitation by RF saturation resistance and current crowding by large current densities and high frequencies
07 p1101 A69-18653

Computer aided design methods for electronics and logic systems, noting linear circuits and one dimensional transistors
08 p1278 A69-19970

Computer aided design program for testing equivalent circuits of bipolar transistors in static regime under various polarization conditions
08 p1280 A69-19972

Controlled charge models for computer calculation of electronic circuits, discussing tunnel diode static characteristics and equivalent transistor circuits
08 p1280 A69-19975

Distributed type bipolar transistor model construction, considering methods of development and computer tests for transient conditions
08 p1280 A69-19976

MOS transistor equivalent circuit for computer aided calculations with IMAG I program, noting versatility of model
08 p1280 A69-19978

Thermal feedback generation of 1/f-flicker noise in bipolar transistors, deriving formula for flicker noise voltage of emitter junction
08 p1283 A69-20129

Synthesis method for UHF transistor oscillators tunable in wideband using Y-matrices
08 p1285 A69-20380

Automatic transistor reliability testing system based on measured data and reliability research
08 p1294 A69-21119

Second breakdown mechanisms in transistors, describing electrical and physical characteristics and effects of design and structural defects on resistance to initiation
08 p1294 A69-21120

Microwave power and low noise transistors, noting continuous wave output and circuit design
09 p1462 A69-21407

Transistor large signal saturation time constant dependence on injection ratio, noting nonlinear response and saturation transistor switch storage time
09 p1464 A69-22117

Static characteristics of transistors dependence on current carriers surface recombination in inactive base region, noting strong electric field influence
09 p1464 A69-22287

Transistor thermal resistance determined from temperature dependent transistor parameter, noting measuring method insensitive to collector voltage variations
09 p1468 A69-22592

Silicon single crystal substrate, preoxidation, oxidation and low temperature heat treatment effects on MOS transistor compared with Silicon-Silicon dioxide interface characteristics
10 p1665 A69-24051

Minority carrier density in base region of uniform base transistor at arbitrary injection level, using two dimensional model
11 p1845 A69-24569

Avalanche transistor pulse circuits temperature increase due to power dissipation, noting effects of external resistance grounding base and pinch in
11 p1845 A69-24570

Planar transistor gain degradation under weak ionizing radiation, considering operating voltage and temperature conditions
11 p1848 A69-24874

Error analysis in conversion of two port scattering parameters used in microwave transistor characterization
11 p1852 A69-25200

Emitter current density dependence on distance from center of drift transistor circular emitter, obtaining distributed base resistance in presence of arbitrary base current
11 p1853 A69-25565

Planar transistor micromode operation during collector junction avalanche breakdown
12 p2041 A69-26648

Steady state small signal input impedance of low power planar transistor as function of temperature and operation mode
12 p2042 A69-26878

Collector supply voltage and base width effects on transistor amplification and frequency characteristics at microampere currents
12 p2042 A69-26879

Qualitative analysis of thermoelectric effects in transistors, describing heat absorption and release
12 p2042 A69-26880

Thermal stability of power transistor plates calculation using equivalent body with equivalent heat source at upper surface
12 p2042 A69-26881

Transient response of transistor in common emitter circuit using charge method taking into account base current switching pulse parameters
12 p2043 A69-26884

UHF transistor small signal internal behavior, using computer simulation for deriving current gain alpha locus, current gain and f sub T
13 p2227 A69-27241

Small signal quasi-stationary characteristics of pulse transistors including gain and input impedance calculations
13 p2227 A69-27423

Transistors scatter matrix parameters determined, describing measuring bench calibration system
14 p2420 A69-29393

Transistors transfer admittances measured indirectly, evaluating mean square error for transfer parameters
14 p2420 A69-29396

Transistor scatter and admittance differential parameters measurements graphically correlated
14 p2420 A69-29397

Planar bipolar transistors degradation under thermal and ionizing radiation stresses, analyzing surface recombination currents of silica films and silica-silicon interfaces
15 p2625 A69-30826

Unitary sorting influence on reliability of planar transistors subjected to irradiation recovery cycles and scaled stresses
15 p2626 A69-30834

High voltage thin film transistor, discussing design criteria, fabrication, I-V characteristics and switching speed
16 p2757 A69-31614

Second breakdown and other thermal instabilities analyzed by heat flow equation, obtaining stability criteria predicting reduced power dissipation for transistor at low currents
16 p2758 A69-31618

Transistor temperature and power limitations and thermal resistance calculation, discussing heat sink surface optimum design for power losses
16 p2760 A69-32047

Epoxy encapsulated transistors reliability, data from long term maximum rated life and accelerated tests
18 p3145 A69-34498

TRANSIT 4A SATELLITE

Statistical comparison of scintillation depths of Transit 4A satellite to radio star Cassiopeia A
07 p1215 A69-18821

TRANSIT SATELLITES

TRANSIT satellite navigation system for all-weather diurnal position fixing, noting Doppler frequency measurement and ionospheric signal refraction
01 p0112 A69-10457

Navy Navigation Satellite System TRANSIT providing all-weather continuous worldwide service for military and civil users
02 p0277 A69-11753

TRANSIT/Navy Navigation Satellite System/ military and commercial applications
02 p0278 A69-12359

Doppler measurements in semidynamical geodesy, processing data from Transit satellites collected at various Mediterranean ground stations
15 p2602 A69-31382

TRANSIT TIME

Base transit time of minority carriers in double diffused Si transistors with small emitter area, discussing cut-off frequency
02 p0297 A69-11995

Transit time and anomalous modes of oscillation in high pulsed power punch-through Si avalanche diode microwave oscillators
02 p0216 A69-12145

Miniaturized X band IMPATT microstrip power sources based on Si avalanche transit time diodes integrated with microstrip oscillator circuits
02 p0216 A69-12146

Nonisothermal space charge wave analysis of transit time mode oscillations in bulk GaAs, studying device reactance at given negative resistance
02 p0299 A69-12240

Transit time effects in Si n-nu-n space charge limited current solid state devices
03 p0483 A69-12852

Microwave generation and amplification, noting microwave transit time tubes, semiconductor devices and methods utilizing quantum electronic effects to generate and amplify EHF oscillations
03 p0395 A69-13611

Electromagnetic phase measurement for determining integrated air density near earth surface
04 p0598 A69-14910

Lunar laser ranging for testing Einstein and Brans-Dicke gravitational theories, discussing pulse transit time and dominant nonNewtonian correction
05 p0825 A69-16362

Large signal model for analysis of RF output and efficiency of IMPATT diode oscillator, noting frequency tuning
05 p0733 A69-16555

Si IMPATT diode oscillator and amplifier for CW operation at 50 GHz noting fabrication, performance and phase locking properties
05 p0733 A69-16560

Current and voltage waveforms of transit time, resonant domain and LSA modes of operation of transferred-electron oscillators
07 p1097 A69-18443

Oversized GaAs Gunn effect diodes operated in L and S bands at harmonics of fundamental transit time frequency with high power and efficiency
07 p1196 A69-18444

High peak power Gunn effect oscillators for low gigahertz frequencies in transit and nontransit time limited modes
07 p1097 A69-18447

Avalanche diode oscillators efficiency of continuous wave operation in transit time mode and high current multiresonant modes
07 p1098 A69-18456

High efficiency punch-through avalanche transit time diode for generating microwaves over three octaves
07 p1098 A69-18457

Frequency variation during oscillation pulse in avalanche transit time diodes, discussing related thermally dependent diode voltage rise
07 p1098 A69-18459

Epitaxial GaAs IMPATT diodes for generating CW X band power, noting high efficiencies and low noise characteristics
07 p1102 A69-18660

Frequency modulation of CW mm-wave IMPATT diode oscillator with wide band tunability and related harmonic generation effects
07 p1106 A69-19146

Microwave oscillator design employing avalanche transit time diodes
07 p1107 A69-19155

Noise generator design employing diffused Ge avalanche transit time diode
07 p1107 A69-19156

Frequency retuning characteristics of oscillator employing avalanche transit-time diode with complementary varactor subject to current or voltage variation
11 p1844 A69-24449

Instabilities related to particles transit time in system of two counterstreaming electron beams of finite length, noting wave dispersion
12 p2141 A69-27179

Large signal transit time effects in MOS transistor, noting drain current response
14 p2418 A69-28891

Transit time effects in silicon space charge limited diodes, studying frequency characteristics of small signal equivalent circuit
15 p2575 A69-30181

Computer model for avalanche transit time diode oscillator with single and double resonant circuit
15 p2577 A69-30615

Soviet book on avalanche transit time diodes and applications in microwave technology, describing p-n junction model, negative resistance, dynamic characteristics, synchronized oscillators, etc
16 p2761 A69-32109

Transit forecast of terrestrial satellite moving through fixed coordinate line in assigned reference
16 p2859 A69-32221

Si planar IMPATT diodes anomalous mode continuous wave UHF oscillations, noting DC density and DC/RF power conversion efficiency
17 p2934 A69-32846

Radio distance meter design for accurate distance measurement, discussing transit time and advantages over optical meters
18 p3139 A69-35493

Theorem extending results of techniques for analytical solutions of nonlinear ordinary differential equations applied to terrestrial brachistochrone problem
20 p3575 A69-37205

Delay in photoelectric recording of transit of stars, considering stellar image brightness distribution and temperature
20 p3608 A69-38053

STOL program in Northeast Corridor demonstrating significant city-to-city block time reduction by STOL transportation system [SAE PAPER 690420]
23 p4185 A69-61464

Air density determination using transit time method involving microwave phase measurements
24 p4313 A69-42898

TRANSITION

Metal-insulator transition, observability and transition in ionic lattices and polar liquids
03 p0489 A69-13922

TRANSITION FLOW

Natural convection boundary layer stability on heated isothermal vertical plane wall, discussing Grashof number as laminar to turbulent flow transition criterion
02 p0188 A69-12038

Monte Carlo direct simulation for treating rarefied supersonic flows about bodies in transitional regime between continuum and free molecular flow
02 p0189 A69-12523

Relaminarization of turbulent flow, studying velocity profiles at various axial cross sections in porous wall tube with fluid injection
04 p0586 A69-14409

Model kinetic integral equation for describing flow in transition region at leading edge of tapered body in rarefied gas
05 p0697 A69-16040

Electrodynamic gas flow in one dimensional approximation for transition through speed of sound, discussing flow parameters profile and dynamic efficiency
06 p0964 A69-17326

Laminar and turbulent regimes of flame propagation studied by blowing explosive gas mixture through porous wall, determining Reynolds number by hot-wire anemometer
06 p1034 A69-17626

Shock wave-boundary layer interaction configurations for hypersonic propulsion device inlets under transitional and turbulent conditions, noting heat transfer rate [AIAA PAPER 69-8]
06 p0915 A69-18172

Nonstationary flow past spheres and cylinders in electromagnetic shock tube, determining time required for flow to become stationary
07 p1119 A69-18744

Periodic pulling mechanism for explaining transition to turbulence in bounded plasma with weakly unstable drift modes
07 p1194 A69-19400

Region of transition from laminar to turbulent flow in meteor trains, suggesting electron attachment processes to molecular oxygen in presence of third body
08 p1393 A69-20608

Transition of hypersonic boundary layers on conical body using shock tunnel, obtaining surface heat transfer distributions [AIAA PAPER 68-39]
09 p1482 A69-21943

MHD boundary layer nonlinear instability, treating laminar to turbulent flow transition as reversible process
10 p1734 A69-23452

Shock induced boundary layer flow establishment on semiinfinite flat plate, measuring heat transfer rates and transition to turbulence
11 p1869 A69-24890

Kinetic theory for examining transition regime of rarefied gas dynamics, discussing Boltzmann equations and models with related boundary value problems
11 p1870 A69-25005

Reverse transition in two dimensional accelerated incompressible turbulent boundary layer flow, noting skin friction coefficient and turbulent intensity profiles
11 p1872 A69-25129

Criteria for reversion of turbulent to laminar flow (reverse transition)/ as special cases of Reynolds number criterion, noting boundary layer properties role
11 p1873 A69-25134

Aerodynamic effects of lift jet and lift fan inlets in transition flight, analyzing inlet momentum lift, inlet lip lift and drag [AIAA PAPER 68-637]
12 p2014 A69-26767

Laminar-turbulent transition in MHD channel in transverse and longitudinal magnetic fields, discussing Reynolds equation for large Hartmann numbers
13 p2307 A69-27500

Laminar to turbulence transition in submerged and bounded jets, using schlieren visualization for compressible flow and birefringent visualization for incompressible flow
14 p2428 A69-28876

Trailing shock wave position in air breathing jet engine channels, determining supersonic-subsonic boundary, noting Mach number effects on pressure ratio
16 p2768 A69-31743

Boundary layer over impulsively started flat plate, describing flow transition from unsteady / Rayleigh/ to steady / Blasius/ state by iterative methods
16 p2769 A69-31812

Distributed boundary layer suction effectiveness for controlling supersonic transitional flow separation
16 p2772 A69-32149

Linear amplification, nonlinear limiting and secondary instability induced by unsteady effects illustrated for various transitional flows, including roughness and streamwise vorticity
17 p2950 A69-33248

Static and impact pressure distributions for Mach number and velocity profiles of supersonic to subsonic flow transition in tube at low Reynolds numbers [ASME PAPER 69-APM-23]
18 p3120 A69-34397

Secondary vortex generation in near wake of circular cylinders under forced oscillation, analyzing motion dependent transition regimes using hydrogen bubbles flow visualization [AIAA PAPER 69-755]
18 p3084 A69-34411

Transient uniform flow over sphere at intermediate Reynolds numbers with recirculatory wakes, utilizing difference approximation to time dependent Navier-Stokes equations
18 p3120 A69-34434

Similarity solutions of viscous transonic equation describing spiral and radial flows, containing shock-like transitions of corresponding inviscid solutions
18 p3121 A69-34787

Gas dynamics in transition regime between continuum motion at high gas density and free particle motion at low density limit
19 p3300 A69-36658

Transition in near wake, from study of base pressure on circular cylinders in incompressible flow
19 p3242 A69-36809

External natural convection flows, studying laminar instability, transition and turbulence in boundary layer flow
20 p3633 A69-37718

Turbulence theory in laminar-turbulent flow transition, nonlinear stability for flows with Reynolds number higher than critical and fully developed turbulence
23 p4152 A69-42313

Transition from axisymmetric to nonaxisymmetric flow in rotating annulus, using two layer quasi-geostrophic model
24 p4345 A69-43150

Solution stability and secondary solutions growth beyond critical points investigation for Burgers equations for laminar-turbulent transition
24 p4302 A69-43360

Natural convection local heat transfer on constant heat flux inclined surfaces for water and air in laminar, transition and turbulent regimes
[ASME PAPER 69-HT-C] 24 p4410 A69-43526

Natural convection flow, discussing initial instability of laminar flow, disturbance amplification and transition to turbulent flow
[ASME PAPER 69-HT-29] 24 p4411 A69-43531

Heat transfer and fluid friction of hydrogen and helium gas flows undergoing turbulent to laminar flow transition in heated pipe
[ASME PAPER 69-HT-54] 24 p4303 A69-43539

Transition from turbulent to laminar regime as consequence of high heating rates for internal convective flow, noting roles of Nusselt numbers and friction factors
[ASME PAPER 69-HT-9] 24 p4304 A69-43559

Electron density fluctuations in transition region of turbulent plasma jet, noting spiky waveform
[AIAA PAPER 68-685] 24 p4360 A69-43697

TRANSITION LAYERS

French solar research program, emphasizing protosphere-chromosphere transition zone
02 p0316 A69-11905

Plasmapause and relation to ion composition in topside ionosphere, using Bohm coefficient for turbulent diffusion
02 p0246 A69-12741

Vacuum distillation technique for isolation and recovery of alkali metal reaction products with Ta, Ni, V and oxygen
01 p0083 A69-10927

Monocarbide phases high temperature vaporization from open metal surfaces into vacuum, obtaining temperature dependence
02 p0260 A69-11583

Point defects in body centered cubic transition metals, discussing thermal equilibrium, irradiation cold work, high and low temperature recovery, etc
03 p0447 A69-13817

Absorption and IR emission of nickel and cobalt doped alkali halides
03 p0490 A69-13941

Vacuum carburization of surface layers of transition metals
04 p0614 A69-14572

Components relationships in binary phase diagrams of III a and VI a transition metals on basis of electronic structure
08 p1331 A69-20191

Earth crust transition elements distribution and abundance compared to rare earths
08 p1310 A69-20943

V phase structure and V and E phase lattice constants for ternary systems /Ti, Zr, Nb or Ta-/Ni, Co or Fe-/Si or Ge/
10 p1708 A69-22992

Order-disorder transformations in nickel alloys under loading operations
11 p1904 A69-24706

Covalence degree of activator-ligand chemical bonds effect on spectroscopic properties of transition metals
11 p1907 A69-25031

Transition metal interstitial compounds thin film preparation and superconducting properties, emphasizing high critical temperature, rock salt structure and NbN base
13 p2321 A69-28009

Vacuum carburization of surface layers of transition metals
15 p2638 A69-30273

Atomic size and outer electron effect on Fe, Co and Mn polymorphism, noting change in crystal lattices
15 p2638 A69-30321

Monograph on vanadium selenides and tellurides with NiAs structure covering existence regions, superstructures and equiatomic compounds from viewpoint of thermodynamics
15 p2667 A69-30602

Ti transition metals alloys omega phase precipitation, discussing composition, morphology, coherency, formation, etc
19 p3344 A69-35928

Titanium strengthened high strength hot-rolled steels, discussing cooling rates leading to complete ferrite phase transformation
21 p3743 A69-38652

K-alpha band characteristics of N spectra stimulated in nitrides of transition metals by X rays
22 p3974 A69-41118

TRANSITION POINTS

Nitriding effect on heat resistance and transition temperature of molybdenum alloys
01 p0093 A69-10212

Irradiation influence on chromium transition temperature explained by defect clusters and embrittling impurity redistribution
01 p0095 A69-10604

Low stress fracture criteria for large elastic structures and small brittle laboratory specimens below transition temperature
01 p0169 A69-10768

Vanadium dioxide reflection spectra dependence on incident quantum energies during semiconductor/metal phase transition
02 p0298 A69-12100

Ferroelectric transition of barium titanates doped in OH or oxygen vacancies, using pyroelectric method
03 p0491 A69-14059

Transition temperature from brittle to plastic state of W-Mo alloys in recrystallized state, noting increased Mo content effect
05 p0783 A69-16809

Model for phase transition mechanism quantum-Coulomb plasmas, finding transition temperature for white dwarfs
06 p0968 A69-17785

Magnetic field distribution and resistance of homogeneous type 2 superconductor cylinder at transition under effect of axial current
08 p1371 A69-20202

Ductile to brittle transition shown in tensile stress-strain curves of polycrystalline body centered cubic and hexagonal close packed materials
10 p1795 A69-23063

Dissolved gases and carbon effect on transition temperature from plastic to brittle state of high melting metals including niobium and vanadium
10 p1715 A69-24011

Tungsten vacuum-arc melted samples in deformed and recrystallized conditions, studying mechanical properties at temperatures near ductile to brittle transition
15 p2637 A69-30267

Nitriding effect on heat resistance and transition temperature of molybdenum alloys
15 p2637 A69-30268

Atomic beam for H maser operation prepared by using nonadiabatically changing magnetic field in transition region
15 p2635 A69-31103

Cylindrical viscous jet transition points from stable to unstable modes of oscillation found same as for inviscid jet
16 p2773 A69-32570

Ta type I and II wire resistance in transverse magnetic field during superconducting to normal transition, discussing strain and impurity effects
17 p3016 A69-33791

Kinetics of titanium oxidation in transitional range at high temperatures, showing agreement with oxidation model
18 p3157 A69-35252

Space transitions identified with asymptotic solutions at system field equations transition points
19 p3445 A69-36811

Transition temperature depression in rotating liquid He based on increased inertial density of excitations
23 p4192 A69-42335

Inverse transition from turbulent to laminar flow in radial diffusers, noting nonagreement of transition point prediction methods
[ASME PAPER 69-HT-33] 24 p4247 A69-43530

Helix to coil transition for triple stranded macromolecule in solution, calculating ring weighting and partition functions and intact bonds
24 p4353 A69-43812

TRANSITION PROBABILITIES

Transition probabilities for collinear collision of particle with harmonic oscillator, noting reasons for discrepancy in Jackson and Mott form
01 p0124 A69-10688

Ar atom transition probabilities in 5000-6000 angstrom range, noting effect of nonuniform source temperature
01 p0125 A69-10963

Solar copper abundance determined from measuring Cu 1 and 2 and resonance lines transition probabilities in electric arc emission under LTE conditions
02 p0204 A69-11456

Atomic transition probabilities, discussing improvement attributed to wider interest in space science, astrophysics, plasma physics and research technique developments
03 p0471 A69-13169

Electron transition probability of oxygen molecule determined using weak bands telluric lines photoelectric recordings
03 p0420 A69-13276

Transition probability measurement of 5577 A auroral green line of oxygen used to investigate quadrupole nature of transition
03 p0424 A69-13936

Thermodynamic approach to calculation of molecular lasers, determining various population levels of carbon dioxide molecule by measuring amplification factors for rotational vibrational transitions
06 p0934 A69-17465

Population inversion of vibrational levels due to molecular collisions in carbon dioxide lasers, calculating transition probabilities, laser parameters and gain profile
[IEEE PAPER G-15] 07 p1151 A69-19061

Rotational inelastic transitions in atom-diatom collisions, discussing restricted distorted-wave approximation, transition probabilities, impact parameters, inelastic and glory quenching, etc
07 p1185 A69-19302

Molecule reorientation and transition probability in molecular beam maser using formaldehyde
07 p1158 A69-19760

Hartree-Fock calculations of coronal forbidden transition lines in Ar I isoelectronic sequence, obtaining wavelengths, magnetic dipole and electric quadrupole transition probabilities
08 p1385 A69-20071

Oscillator strengths of transitions in shock tube between nitric oxide Rydberg states in near IR
08 p1354 A69-20150

Transition probabilities in repetitively Q modulated HCN maser radiation dependent on gas discharge current
09 p1516 A69-21626

Iterative algorithm to determine transition probability final distribution in Markov extremal systems
11 p1861 A69-25712

Forbidden solar corona lines transition probability in vacuum UV region
12 p2157 A69-26334

Beam-foil technique for measuring radiative lifetimes of excited electronic states in ionic species of O, including transition probabilities
13 p2301 A69-27452

Relative transition probabilities for visible Si atom lines, noting disagreement with LS coupling predictions and solar Si abundance determination
13 p2340 A69-27580

Homogeneous finite automaton asymptotic analysis, calculating series terms for matrix transition probability function
13 p2239 A69-28535

Electron transition probability of oxygen molecule determined using weak bands telluric lines photoelectric recordings
14 p2487 A69-28784

Forbidden transition probabilities of solar corona lines in vacuum UV range
14 p2519 A69-29355

Radiative decay of polyatomic molecules, applying Green function form for transition probability to decay of manifold of closely spaced coupled levels
14 p2488 A69-29924

Transition probabilities for radiative lifetime of Swan and Mulliken diatomic C bands calculated from lifetime data using Franck-Condon factors
15 p2694 A69-30789

Transition probabilities of spectral lines in helium-like ions estimated from hydrogen magnetic dipole transitions, discussing single photon decay
15 p2695 A69-30892

Electron excitation and phase shift method for radiative lifetimes of Ar II UV transitions
15 p2656 A69-31034

Oscillator strengths calculated for transitions in Si III using dipole length and velocity matrix elements, comparing many electron correlation problem approximations
15 p2656 A69-31158

Transition probability for 5577 Å auroral green line determined from measuring number density of O atoms in oxygen-helium discharge and emitted line intensity
16 p2781 A69-32319

Field ionization at metal surfaces as rearrangement collision, considering anisotropic electron tunneling probabilities produced by Fermi surface
17 p3015 A69-32821

Beam foil technique to measure energy transition levels radiative lifetime for nitrogen ions
17 p3009 A69-34154

Shock tube application to transition probability measurements with emphasis on thermodynamic state of radiating gas, noting temperature dependence of level population
18 p3176 A69-34446

Transition probabilities of N I far UV multiplets, comparing experimental and theoretical results
18 p3178 A69-35413

Spectral lines due to magnetic dipole transitions in fine structure levels in collisionally excited neutral H clouds, discussing theoretical difficulties in interpretation
19 p3379 A69-36225

Forbidden emission transition probabilities in high excitation symbiotic stars, novae, Cygni stars and peculiar binaries
19 p3423 A69-36227

Perceptron probability algorithm for random events prediction based on previous histories, applying Bayes formulas, static solutions formulas and transition probability tables and graphs
19 p3287 A69-36664

Thermodynamic approach to calculation of molecular lasers, determining various population levels of carbon dioxide molecule by measuring amplification factors for rotational vibrational transitions
20 p3555 A69-37948

Helium sequence ions spin forbidden transitions electric dipole oscillator strengths and transition probabilities evaluated by variational procedure
20 p3577 A69-38171

Upper atmosphere emission processes, comparing emission quenching lifetime with transition probability rates, plotting atomic and molecular states
21 p3711 A69-38513

Thermally insensitive technique for atomic transition probability measurement
22 p3983 A69-40100

Hydrogen high level transition probabilities formula, giving two tables of oscillator strengths [AFCRL-69-0301]
22 p3983 A69-40149

Stueckelberg formulation for transition probabilities to interpret perturbation effects in elastic scattering differential cross section measurements
22 p3987 A69-41005

Stellar neutrino energy loss due to electron-electron neutrino bremsstrahlung in nondegenerate gas determined from transition probability for charged baryons or leptons interaction
24 p4351 A69-42794

TRANSITS

NT CINETHEODOLITES
NT THEODOLITES

Large signal avalanche diode oscillators parameter effect on operating characteristics at any transit angle
07 p1098 A69-18458

Bright fundamental stars right ascensions observed in Chile, discussing instruments, declination range, systematic errors, etc
10 p1777 A69-23388

Transit instruments operational principles and practical experience
15 p2608 A69-30440

Satellites meridian and extrameridian observations by transit instrument, examining errors in ephemerides of bulletins

Optimum controller design for dynamic stability of ideal incompressible fluid in cavity of body constrained to horizontal rectilinear translational motions
11 p1966 A69-25330

Steady rectilinear translational motion of circular disk-shaped slightly bent wings near solid wall in incompressible fluid medium in absence of vortices and external forces
15 p2547 A69-30583

Pressure in sealing groove and increase time due to pumping action of moving wall applied to force cylinder of translational motion, considering liquid in groove laminar
16 p2736 A69-32135

Screw-nut feeder and adjustor systems with compensation for clearance and wear of cutting tools, determining efficiency for conversion of rotary to translational motion
23 p4168 A69-41414

Nonlinear longitudinal dynamics of lifting orbital vehicle in near circular orbit, considering translational motion components effecting orbital decay or dilatation [AAS PAPER 69-244]
24 p4392 A69-42857

Ellipsoidal satellite translational rotational motion under spherical planet and point source sun gravitational fields influence, obtaining approximate solution for three body problem
24 p4390 A69-43789

Boundary conditions for reflection and transmission properties of absorbing shell of arbitrary shape
08 p1273 A69-20025

Monograph on transmission characteristics of mechanical vibration transducers covering frequency response operators and analog computer simulation
16 p2789 A69-31842

TRANSMISSION CIRCUITS

Pulsed subharmonic oscillation in nonlinear regenerative selective circuits with reference to graph-analytical method for explaining behavior
03 p0385 A69-12918

Data transmission on common communication circuits, noting circuit characteristics, limitations on performance and future digital service
04 p0559 A69-15207

Passive four terminal elements series connection transmission characteristics, considering line losses
05 p0729 A69-16081

Spectral distribution of intermodulation noise of AM and FM transmission systems calculated by probability theory
08 p1271 A69-19916

Microelectronic data and remote control function transmission system for wind tunnel testing of aircraft dynamic response to gusts and turbulence
10 p1672 A69-23283

TRANSMISSION EFFICIENCY

Pulse shape influence on electromagnetic compatibility and transmitter efficiency, discussing trapezoidal, raised-sine, sliced and complete error rate function shapes
01 p0030 A69-10631

Sequential signal design for feedback channels, emphasizing single set subject to peak and average power constraints in time continuous transmission
03 p0408 A69-12868

Molecular O 0.7620 micron absorption band in pure O and air, noting rotational lines mean half width and lower atmosphere transmission function
03 p0458 A69-13272

Satellite TV transmitter power requirements for adequate direct broadcasting field strength in existing UHF TV bands
03 p0394 A69-13578

Propagation tests of skywave field strength reduction by orthogonal transmission
03 p0395 A69-13597

Mutual coupling and element efficiency for infinite linear arrays of dipoles
04 p0571 A69-14317

Passive four terminal elements series connection transmission characteristics, considering line losses
05 p0729 A69-16081

Adaptive control of reflective satellite communication system
06 p0887 A69-17356

High transmittance long fiber optics, presenting data on special transmission as function of temperature
06 p0958 A69-17677

Block coding for transmitting across noisy binary symmetric channel accompanied by noiseless delayless feedback channel
06 p0891 A69-17864

- Beam modulation resynchronization at large signal levels by TWT circuit wave to enhance efficiency
07 p1094 A69-18423
- C band waveguide window for average power transmission featuring relatively small biconcave dielectric disk
07 p1096 A69-18435
- Communication satellite power utilization optimized by matching final amplifiers to solar cell array
[AIAA PAPER 68-437] 09 p1442 A69-21990
- Optimum time interval for constant data transmission rate during single pass of satellite over ground station
09 p1457 A69-22462
- Optimum selection of modulation indices for multitone phase modulation by graphical method, noting tolerance insensitivity
09 p1457 A69-22463
- Power transmission efficiency between arbitrarily focused circular antennas with Gaussian amplitude illumination in Fresnel region for various phase illuminations and Fresnel numbers
11 p1851 A69-24991
- TEM-DUAL surface wave propagation in coaxial cable with stratified dielectric structure to reduce attenuation calculated by addition theorem to Bessel functions
11 p1856 A69-25659
- Molecular O 0.7620 micron absorption band in pure O and air, noting rotational lines mean half width and lower atmosphere transmission function
14 p2487 A69-28780
- Optimum time for telemetry data transmission by system using feedback combined with error correcting codes
14 p2412 A69-29428
- Spherical plate electrostatic analyzer transmission characteristics, emphasizing angular response to external particle sources as functions of angular coordinates and particle energy
14 p2449 A69-29560
- Numerical method based on thin film optics to determine ionospheric electromagnetic transmission and reflection coefficients for vertical incidence
16 p2752 A69-32392
- Prestressed ceramic driver chamber energy efficiency for arc driven shock tube by pressure measurements with piezoelectric probe
18 p3116 A69-34456
- Smooth multiwave waveguide junctions design ensuring minimum losses of fundamental wave
23 p4125 A69-42046
- Deep space communication capability projection, considering data volume and rate, channel frequency, large apertures, data enhancement and system losses
23 p4129 A69-42507
- TRANSMISSION LINES**
- NT BEAM WAVEGUIDES
- NT COAXIAL CABLES
- NT COMMUNICATION CABLES
- NT FLUID TRANSMISSION LINES
- NT PLASMA GUIDES
- NT POWER LINES
- NT WAVEGUIDES
- Electromagnetic wave propagation in superconductors, noting transmission line structure variation with magnetic fields and current and suitability for parametric amplifiers
01 p0135 A69-10176
- Microstrip transmission line integrated circuits on semiinsulating GaAs substrates, showing feasibility at millimeter wave frequencies
01 p0040 A69-10197
- Multistub filter for microstripline using shorted and open stubs
01 p0041 A69-10200
- Dielectric surface coatings effect on transmission and loss properties of silicon-microstrip microwave transmission lines
01 p0041 A69-10201
- Regenerative digital transmission system error, representing memory of binary regenerative channel with Markov model
01 p0027 A69-10249
- Transversal filters for equalization of data channels with pulse amplitude modulation, discussing pulse equalizability and convergence criteria for iterative search routine
01 p0027 A69-10251
- Uniform transmission line response to independent distributed sources using extraction integrals, analyzing traveling wave transistor
01 p0043 A69-10562
- Divergent-convergent and convergent-divergent cascaded exponential lines, determining equivalent length of uniform transmission line
01 p0044 A69-10623
- Microstrip-like transmission lines analyzed by method based on line capacitance variational calculation and charge density distribution
01 p0044 A69-10625
- Pulsed nitrogen laser design involving gas discharge tube fed by low impedance parallel plate transmission line
01 p0091 A69-10842
- Green function for linear antennas in warm plasma fed by coaxial air filled transmission line, computing current distribution and input admittance
02 p0215 A69-11942
- Geomagnetic micropulsations mechanism, discussing hydromagnetic waves transmission generated by interface instability between solar wind and magnetosphere, noting transmission path role
02 p0244 A69-12395
- Geomagnetic micropulsation theory, discussing mechanisms responsible for amplitude spectrum at earth surface and power spectral density
02 p0244 A69-12396
- Electromagnetic wave propagation and amplification in periodic structures, including travel wave and parametric amplifiers, reactance diodes, lasers and quantum amplification
03 p0396 A69-13701
- Lossy transmission line filters and wideband impedance matching
03 p0406 A69-13906
- Dispersion relations for propagation of quasi-TEM mode and higher order symmetric modes in longitudinally magnetized ferrite filled coaxial waveguide
04 p0575 A69-14751
- Lossless multiple beam forming device operational principles, noting parallel plate radial transmission line network construction
04 p0576 A69-14768
- Quasi-optical transmission line composed of nonideal correctors /lenses or mirrors/
05 p0717 A69-15637
- Holograms applied to analysis of wave packets propagating in quasi-optical transmission lines
05 p0718 A69-15650
- Gunn effect theory, discussing dynamic characteristics and domain propagation for inhomogeneous transmission line profile
05 p0807 A69-15821
- Fluidic systems with long lines simulated by transmission lines of OR/NOR oscillator
[ASME PAPER 68-WA/AUT-12] 05 p0706 A69-16178
- Surface waveguide composed of inhomogeneous dielectric thin film used as low loss transmission line
05 p0731 A69-16294
- Quasi-optical transmission lines having composite correction devices with/without phasing devices
05 p0723 A69-16784
- Broadband hybrid junction of parallel transmission lines application to four diode star mixer/modulator
06 p0896 A69-17485
- Nonlinear lumped parameter model for long gas filled pressure sensing lines covering steady state, laminar or turbulent gas flow
[AIAA PAPER 69-117] 06 p0913 A69-18106
- Frequency-stable tunnel diode oscillator loaded with transmission line
07 p1104 A69-18890
- Surface effects at interface between linear and nonlinear media representing transmission lines of low pass filter type
07 p1088 A69-19755
- Shunted resonators on transmission line with asymmetrical response offering selectivity from resonance frequency standpoint
08 p1271 A69-19917
- Long transmitting dipole antenna, studying current and charge distributions by Wiener-Hopf technique
08 p1281 A69-20019
- Ultrahigh speed systems and logic circuits specifications implementation into electrical design, discussing circuit selection, line propagation delays, noise margins and temperature effects
[AGARDOGRAPH-114] 08 p1298 A69-20985
- RF voltage breakdown in air for 50 ohm coaxial transmission line configuration
[JPL-TR-32-1379] 09 p1470 A69-22790
- Second order system equations to approximate transfer function of homogeneous pneumatic instrumentation line terminated with pressure transducer
10 p1692 A69-23267
- Lumped element line generators for high power pulsed sinusoidal oscillations utilizing recurrent triggering system, noting use in plasma physics experiments
10 p1662 A69-23344
- Transmission line analogs and kinetic power theorems for space charge waves amplification in semiconductors, considering internal effect and wave excitation
10 p1748 A69-24052
- Load admittance effect on low pass voltage transfer characteristics of RC lines, analyzing shaped lines at open circuit under terminated conditions
11 p1859 A69-24939
- Log periodic dipole array antennas simulated with simple RLC circuit loading uniform transmission line
11 p1850 A69-24977
- Phototelegraphic transmission of holograms of objects in many shades through channel with limited number of signal levels
11 p1889 A69-25549
- Subtraction procedure for feedpoint singularity in current on axially symmetric antenna with slice generator
12 p2041 A69-26864
- Microwave propagation in coupled pairs of microstrip transmission lines for integrated circuit design, discussing dielectric Green function
13 p2229 A69-27672
- Finite difference solution to TEM mode transmission line cross section for defining continuous potential function leading to capacitance upper bound
13 p2221 A69-28064
- Transmission line all pass equalizers theory and design for operation in TEM, TE or TM modes
13 p2233 A69-28065
- Characteristic impedance determination for transmission lines cascades terminated by resistor using recurrent relations, discussing reflection coefficient
13 p2221 A69-28074
- Impedance eigenvalues for eigenmodes of multiconductor transmission lines, discussing transverse field distributions along conical line
14 p2423 A69-29756
- Capacitors pi network representation of series gap in center conductor of matched coaxial transmission line
14 p2424 A69-29766
- Microwave strip transmission line, discussing evolutionary improvements, computerized design, materials, semiconductors, packaging, reliability, etc
15 p2721 A69-31074
- Approximate solution for coupled microstrip transmission lines in integrated circuits, discussing impedance, capacitance and testing
15 p2580 A69-31078
- Coupled TEM lines arrays analysis in terms of odd and even modes, computing equivalent circuit elements, impedances and admittances
15 p2581 A69-31525
- Dispersion characteristics of open interdigital line structure by treating structure as radiator, applying linear antenna theory
16 p2748 A69-31580
- Linearly tapered transmission line equation and transfer matrix parameters, considering input impedances and microwave application
16 p2749 A69-31582
- Equal ripple nonuniform tapered line coupler design and computed performance by evaluating cascade matrix as function of frequency
16 p2760 A69-31944
- Disk and transmission line microstrip resonators radiation, measuring fractional amount of radiated power
16 p2760 A69-31946
- Quasi-optical transmission line composed of nonideal correctors /lenses or mirrors/
16 p2754 A69-32495
- Holograms applied to analysis of wave packets propagating in quasi-optical transmission lines
16 p2754 A69-32507
- Slow electromagnetic wave propagation in superconducting thin film transmission lines, noting phase velocity dependence on film thickness and spacing
17 p2938 A69-33785
- Pulses and sine waves coupling between parallel transmission lines obtained using Oliver elementary coupling theory
19 p3266 A69-35768
- Plane screen electrical shielding effectiveness calculation, using incident wave impedances associated with current loop and magnetic dipoles in transmission line equations
19 p3267 A69-35932

Analysis and synthesis of distributed transmission line networks with open or short circuited shunts or series stubs, describing composite transfer matrices
21 p3687 A69-39660

Quadrupole network transfer matrix calculation from known octupole matrix, describing frequency response determination of coupled transmission lines
22 p3912 A69-40257

Nonlinear lumped parameter model for long gas filled pressure sensing lines covering steady state, laminar or turbulent gas flow
[AIAA PAPER 69-117] 24 p4301 A69-43259

Small signal amplitude/frequency response or transfer gain of volume-terminated pneumatic lines with circular and rectangular cross sections
24 p4301 A69-43288

TRANSMISSION LOSS

Lossy and lossless fluidic transmission line theory to estimate downstream conditions having known upstream system
01 p0012 A69-10153

GaAs injection laser transmission losses and threshold current density under influence of external optical coupling with spherical mirror
02 p0260 A69-12687

Lossy transmission line filters and wideband impedance matching
03 p0406 A69-13906

Feed support blockage loss in parabolic antennas evaluated by shadowgraph photography
04 p0576 A69-14771

Passive four terminal elements series connection transmission characteristics, considering line losses
05 p0729 A69-16081

Microwave absorption and series resistance of silicon mesa parametric amplifier diodes, discussing p-n junction and dielectric loss mechanism
05 p0732 A69-16347

Transmission and reflection coefficients of cylindrical tubes moving in free molecular gas flow determined by Monte Carlo method
06 p0911 A69-17877

Closed loop and electronically calibrated radome measurement systems for beam deflection, boresight shift and transmission loss measurements
07 p1109 A69-19517

Phase shift and losses in wave propagation in dielectric environment, defining power transmission coefficient and insertion phase shift
07 p1087 A69-19518

Algorithm for mean energy transmission coefficient of fundamental mode in beam guide with given inhomogeneities, discussing mode conversions
09 p1469 A69-22629

Microwave frequency room temperature acoustic surface wave propagation losses in lithium niobate measured by laser light deflection, discussing propagation and insertion losses
10 p1703 A69-23511

Millimeter and submillimeter radio waves attenuation in rain, showing effective loss cross section as function of raindrop diameter and wavelength
10 p1657 A69-23943

Mean losses in quasi-optical communication lines due to random irregularities in performance of waveguide phase correctors connected in series, noting random phase aberrations effect
10 p1658 A69-23954

Calculation method for electromagnetic wave supplementary attenuation due to auroral absorption for distances up to 4000 km
11 p1841 A69-25760

Microwave directional filter using ring resonator and couplers to obtain low transmission loss and center frequency tuning
13 p2226 A69-27187

Transmission line all pass equalizers theory and design for operation in TEM, TE or TM modes
13 p2233 A69-28065

Iris beam waveguide transmission loss as function of irises alignment, iris frame width and guide axis curvature
13 p2233 A69-28070

Wave propagation and bandwidth characteristics of rectangular waveguide loaded with H plane lossless dielectric slab
13 p2222 A69-28075

Waveguide feeder for Goonhilly Downs satellite communication antenna reducing feeder loss for use with low elevation Intelsat 3 satellite
17 p2935 A69-32849

Secondary losses in flat large scale turbine lattice attributed to LF pulsating flow separation on back of blade
21 p3645 A69-39717

Performance prediction of terrestrial communication system based on experimental radio and meteorological program at 11 GHz, discussing transmission loss
22 p3900 A69-40680

Radar detection performance evaluation procedures based on integration, collapsing and fluctuation losses estimates for swirling target models and partially correlated targets
23 p4132 A69-42547

TRANSMISSIVITY

Low field helicon wave transmission through n-type Ge at liquid He temperature, noting cyclotron resonance damping
02 p0295 A69-11787

Transmission coefficient of double frequency regenerative parametric amplifier described by scattering matrices
06 p0895 A69-17456

Transmission coefficient of plane electromagnetic wave obliquely incident on perforated metal screen in frequency range near primary resonance of structure
07 p1076 A69-18527

High altitude radiant emittance of cirrus clouds and cloudless sky for IR transmissivity based on aircraft measurements
09 p1536 A69-21641

Rapidly convergent series expansions for plane wave transmission coefficients for elliptical and rectangular apertures
11 p1837 A69-25001

Waveguide cross connection of right-angled waveguides to determine reflection and transmission factors for incidence of H waves
11 p1855 A69-25623

TRANSMITTANCE

E field transmission and reflection coefficients in linearly tapered waveguide for fundamental and higher order modes, using point matching method
01 p0044 A69-10629

Statistical band model and line by line calculations of transmittance for IR bands in absorption spectra of ozone and water vapor
[AFCRL-68-0505] 01 p0124 A69-10919

Hologram film nonlinearity effect in recording diffusely illuminated objects analyzed by means of amplitude transmittance
03 p0431 A69-13958

Transmittance and absorption cross sections of carbon particles suspended in flowing stream of nitrogen gas
06 p1034 A69-17804

Transmission coefficient of plane electromagnetic wave obliquely incident on perforated metal screen in frequency range near primary resonance of structure
07 p1076 A69-18527

Argon plasma characteristics calculated from 8 mm interferometer data, interpreting transmission coefficients of dielectric film with permittivity gradient
07 p1194 A69-19324

Complex transmission and reflection coefficients of dielectric film with permittivity gradient computed by modified Runge-Kutta method, noting plasma diagnostics application
07 p1194 A69-19334

Complex microwave transmission coefficient of nominal cut-off plasma for several different types of electron distribution, noting discharge characteristics for cut-off
08 p1366 A69-20759

Optical characteristics of Martian atmosphere from photometric data for continent-mare contrasts, discussing transmittance and optical thickness
11 p1959 A69-24727

Power spectrum of object flux transmittance using Fourier transform type holographic system compared to systems similar to correlator
12 p2090 A69-26254

Nonlinear holograms distortions analyzed by five point method utilizing relation between irradiance and amplitude transmittance of photographic emulsion
12 p2090 A69-26255

Atmosphere effects on solar IR spectra, discussing role of absorbing molecule distribution in transmittance calculations
13 p2341 A69-27589

IR spectral transmittance and physicochemical properties of tellurite glasses with vanadium and cerium oxides, showing polymer chains in structure
14 p2468 A69-29329

Cotton leaves reflectivity and transmittance measurements, discussing substrate salinity effects on internal structure of hydroponically grown plants
15 p2558 A69-30456

Spatial and energy characteristics of laser with nonuniform transmittance across resonator mirrors, analyzing transverse modes interaction
15 p2634 A69-30962

Antimony trisulfide natural light reflection and transmission in and near IR region, noting spectral temperature and time dependence peculiarities
19 p3384 A69-36481

Spectral transmittance of mixture of carbon monoxide and nitrous oxide for overlapping absorption bands
[AIAA PAPER 67-600] 21 p3819 A69-39013

TRANSMITTER RECEIVERS

Transmit-receive device noise contribution effect on receiving system noise factor for device insertion immediately before low noise microwave amplifier
09 p1469 A69-22605

Reliability behavior of information transmission between transmitter-receiver pair in network of erasure channels without decoding and recoding at nodes
10 p1657 A69-23865

Explorer 20 satellite for obtaining fixed frequency pulse soundings of ionospheric topside, discussing transceiver-dipole antenna instrumentation and payload
20 p3618 A69-37857

Thermal design of power amplifier for airborne HF transceiver, discussing component layout, air cooling and materials
22 p3909 A69-39942

TRANSMITTERS

NT IONOSONDES

NT RADAR TRANSMITTERS

NT RADIO BEACONS

NT RADIO TRANSMITTERS

NT RADIOMETEOROLOGICALS

NT RADIOSONDES

NT RAWINSONDES

NT REPEATERS

NT TRANSMITTER RECEIVERS

Earth station system for ground based communications with Intelsat 2 and 3 noting antennas, receivers, transmitters and power supplies
05 p0741 A69-15667

High power transmitting tubes for INTELSAT satellite communication earth stations, including multicavity klystrons and wideband TWT
05 p0728 A69-15668

Miniature power amplifier stage for telemetry transmitters, discussing equipment size and weight reduction methods and hermetic envelope
07 p1106 A69-19115

Transponder design with planar triode for aircraft identification and air traffic control
09 p1462 A69-21411

Horizontal VLF cylindrical transmission antenna current distribution calculated with allowance for ground reaction, showing exponential decrease with distance
09 p1467 A69-22581

Temperature profiles and frequency driftings of VHF telemetry transmitters for Saturn S-IC stage, using IR radiation data
10 p1653 A69-23049

Book on elements of detection and signal design covering transmitter optimization for coherent and noncoherent digital communication systems, statistical decision theory, radar detection, etc
12 p2033 A69-26867

Emitter self bias in power stages of transistor transmitters, considering transistor parameters dispersion
13 p2226 A69-27217

Carrier disappearance method for FM telemetry transmitter characteristics measurements including frequency deviation sensitivity, linearity and frequency response
14 p2411 A69-28881

Quasi-uniform pseudorandom numbers program transmitter statistical characteristics suited for solving problems by Monte Carlo method
15 p2572 A69-30336

Linear feedback additive noise communication systems formulated in terms of arbitrary operations at transmitting and receiving points
17 p2944 A69-33626

Reciprocal theorem for obtaining relations between transmitting antenna effective area, radiation pattern and aperture distribution
19 p3281 A69-35765

Demultiplexing of high speed multichannel optical pulse code transmission systems, based on coincidence detection using locally generated reference pulses
19 p3279 A69-36764

L and S band transmitters for space applications, discussing power and frequency stability, low intermodulation, inputs isolation, efficiency, size and weight 23 p4137 A69-41740

Wideband FM telemetry transmitters for S band, using symmetrical discriminator 23 p4119 A69-41741

Static and dynamic characteristics of fluid pressure signal transmitter between members with relative rotary motion 24 p4256 A69-43300

TRANSOCEANIC COMMUNICATION

Aeronautical satellite system to relay communications at VHF or L band frequencies from aircraft flying over oceanic routes 03 p0464 A69-13235

Project Symphonie, discussing stationary communication satellite, coverage, frequencies and characteristics 06 p0886 A69-17072

Global communication techniques and trends, discussing radio telephone and telegraph, submarine systems, satellite communications, line of sight links, tropospheric scatter, waveguide transmission, etc 16 p2750 A69-31755

Air traffic control transoceanic satellite system for minimizing navigation errors forcing wide separations, providing VHF voice communication and position surveillance 22 p3901 A69-41147

Worldwide communication system via synchronous satellites for aeronautical, maritime and land mobile services 23 p4114 A69-41355

TRANSOCEANIC SYSTEMS

Long range subsonic transport navigation systems accounting for reductions in horizontal separation on high density oceanic routes 08 p1348 A69-21062

Flight surgeon observations of stress and fatigue effects on aircrew of first nonstop transatlantic helicopter flight, discussing fatigue ratings, sleep patterns, etc 19 p3262 A69-36450

Electrocardiographic and heart rate data recording of crew members during transatlantic helicopter flight and normal daily routine 19 p3263 A69-36451

Urinalysis of crew members of first transatlantic helicopter flight indicating interindividual endocrine-metabolic variability and circadian trends modification 19 p3263 A69-36452

TRANSONIC AIRCRAFT
U SUPERSONIC AIRCRAFT

TRANSONIC COMPRESSORS

Aerodynamic design of subsonic and transonic axial flow compressors, discussing blade configurations and computerized design of turbomachinery 12 p2147 A69-25792

Supersonic cascade wind tunnel /ONERA/ for super and transonic compressors profiles studies 17 p2895 A69-33591

TRANSONIC FLIGHT

Local external flow variations effect on blow-in-door nozzle performance in transonic flight regime [AIAA PAPER 69-428] 16 p2733 A69-32731

TRANSONIC FLOW

Three dimensional flow at large distance and in front of shock wave for three dimensional body traveling at sonic velocity 01 p0005 A69-10159

Sonic flow at large distance and behind shock wave for axisymmetric body of revolution of finite dimensions in inviscid fluid 01 p0058 A69-10160

Compressible relativistic flow in subsonic, transonic and supersonic regimes, noting pressure coefficient variations 01 p0007 A69-11203

Lifting wing profiles in uniform transonic compressible fluid flow calculated by analog method, noting hodograph method simplification 02 p0187 A69-11536

Aerodynamic problems related to turbopumps of subsonic transport aircraft [ONERA-TP-629] 02 p0187 A69-11622

Subsonic or transonic bidimensional flows around airfoils by hodograph method [ONERA-TP-645] 03 p0361 A69-12873

Transonic flow around profile in blocked plane channel and in free jet, noting channel wall and jet edge effects on flow along profile 03 p0361 A69-13018

Three dimensional sonic flow downstream from shock wave in nondissipative perfect fluid, introducing pseudorotating flow to obtain velocity field 03 p0362 A69-13363

Axial flow turbine blade cascade in transonic flow 03 p0365 A69-14103

Book on transonic aerodynamics, emphasizing two dimensional and three dimensional problems involving transonic flow about airfoils with and without shocks 04 p0541 A69-14580

Asymptotic expansion for transonic flow of viscous fluid at great distance from plane obstacle 04 p0544 A69-15057

Stream function approximation for plane axisymmetric vortex free transonic inviscid gas flow 06 p0910 A69-17336

Shock wave in two dimensional mixed transonic airfoil flows, discussing initial value problem for flow downstream of shock [AIAA PAPER 69-43] 06 p0915 A69-18180

Exact partial solutions to transonic gas flow equations used to describe flow around shape streamlined by supersonic flow with additional shock wave 07 p1118 A69-18698

Approximate equations for transonic viscous heat conducting gas flow past finite body of revolution 08 p1251 A69-20322

Plane steady transonic flow of perfect fluid around airfoils with constant curvature using hodographic method, discussing various boundary conditions 09 p1429 A69-21605

Transonic flow around airfoils with constant curvature in uniform asymptotic stream, studying leading edges in exact form 09 p1429 A69-21606

Time dependent procedure for axisymmetric transonic nozzle flows, programming governing equations for high speed computer 09 p1431 A69-21974

Controllable sonic flow orifice, discussing mass flow rate, area and upstream stagnation pressure 10 p1693 A69-23343

Bodies of revolution in sonic flow of ideal gas, showing same perturbational effect of source and dipole on flow before shock front 10 p1632 A69-23364

Motion equations for ideal transonic gas flow, applying solutions to flow with incident shock waves of various profiles 11 p1820 A69-25468

Free transonic gas flow incident on symmetrical profile at angle of attack with given velocity at infinity calculated using difference scheme 11 p1820 A69-25469

HF interferometry for statistical-numerical oscillation analysis of unsteady plane transonic flow, constructing phase planes for study of wave surfaces propagation 12 p2089 A69-26188

Shadow, schlieren and interferometric methods for study of transonic, supersonic and hypersonic fields of aerodynamics, using refractivity variations in heterogeneous medium 12 p2060 A69-26934

Transonic ideal gas flow past semiinfinite bodies, determining flow potentials from body perturbations and surface boundary conditions 14 p2390 A69-29476

Boundary value problem for quasi-linear equation of unsteady transonic gas flows, including linear model and operators for group of transformations 15 p2590 A69-30049

Compressible shear flow linear theory applied to transonic flow past thin airfoil, determining pressure distribution, discussing compressibility effects of nonuniform Mach number 16 p2731 A69-31593

Approximate equations for transonic viscous heat conducting gas flow past finite body of revolution 17 p2891 A69-33312

Similarity solutions of viscous transonic equation describing spiral and radial flows, containing shock-like transitions of corresponding inviscid solutions 18 p3121 A69-34787

Similarity rule in hydrodynamically transcritical regime in ionized multilfluid gas 20 p3515 A69-37594

Dissociational nonequilibrium transonic flow near nozzle throat analyzed for diatomic gas with equilibrium vibrational energy, using perturbation method 22 p3861 A69-41177

Transonic flows behind separated shock waves of ideal gases past bodies of various geometries 23 p4151 A69-41526

Sonic vapor flow heat transfer limitations in heat pipes for Na, K and Cs, showing strong influence of temperature and working fluid 23 p4239 A69-41719

Swirl influence on choking constraint in transonic flow through nozzle throat [AIAA PAPER 68-693] 23 p4151 A69-41887

Inviscid transonic flow past circular arc bodies of revolution, applying Hosokawa technique to pressure distribution solution 23 p4059 A69-41899

Transonic flow around profiles with heat input, showing drag reduction in supersonic part of flow field 23 p4061 A69-42144

TRANSONIC INLETS
U SUPERSONIC INLETS

TRANSONIC NOZZLES

Two dimensional analysis of isentropic perfect gas flow fields in axisymmetric nozzles for transonic two phase flow initial values, calculating particle trajectories [AIAA PAPER 69-572] 16 p2731 A69-31847

Internal flow measurements in transonic region of supersonic nozzle with small throat radius of curvature compared with prediction data 23 p4060 A69-41900

Transonic expansion analysis applied to flow through convergent-divergent nozzles with small throat radius of curvature, noting coordinate system selection 23 p4060 A69-41906

TRANSONIC SPEED

Transonic dynamic stability of free flight half angle cones in wind tunnel for high drag planetary entry vehicles, discussing Mars entry trajectories [AIAA PAPER 69-105] 06 p1019 A69-18209

Atmospheric gust effect on aircraft flying at Mach one calculated for subsonic and supersonic regions, finding difficulties for transonic calculations 10 p1632 A69-22918

Fluid mechanics shock wave interaction with turbulent boundary layers at transonic to high supersonic speed ranges, noting examples in aviation 11 p1871 A69-25018

Location effect of power plants on aft-mounted supersonic cruise exhaust nozzles at transonic speeds in flight and wind tunnel [AIAA PAPER 69-427] 16 p2734 A69-32769

TRANSONIC TURBINES
U SUPERSONIC TURBINES

TRANSONIC WIND TUNNELS

Microelectronic data and remote control function transmission system for wind tunnel testing of aircraft dynamic response to gusts and turbulence 10 p1672 A69-23283

Full scale and transonic wind tunnel store separation characteristics, outlining uses of heavy and light scaling methods 17 p2896 A69-34035

TRANSONICS
U TRANSONIC FLOW

TRANSPARENCY

Multibeam recording technique producing speckle-free images in redundant holograms of transparencies 01 p0082 A69-10850

Q switched ruby laser nonlinear absorption in optically transparent organic liquids attributed to two quantum process with large cross section 03 p0439 A69-13055

Transparency decrease in plexiglass during interaction with dense plasma, noting absorption independence of plasma pressure and dependence on wavelength 03 p0482 A69-14222

Q switches transparency as function of incident light intensity 04 p0610 A69-14385

Atmospheric IR spectral transparency measurement, describing optical system, recording devices and data processing 05 p0759 A69-16639

IR radiation attenuation in transparency windows of atmosphere, using searchlights as radiation sources 05 p0760 A69-16695

Pressure stratification and transparency/geometrical depth expansion/ in Fricke-Elsasser and Zwaan sunspot models 06 p0999 A69-16976

Boundary value problem of temperature field and heat conduction in transparent media heated by laser radiation producing thermoelastic stresses leading to breakdown 07 p1149 A69-18925

- HF scattering of scalar plane wave by transparent sphere based on Watson transformation
07 p1181 A69-19033
- Transparent dielectrics destruction by laser radiation noting stress development in medium
08 p1324 A69-19947
- Near IR transparent aluminumcalcium glasses with improved spectral properties
08 p1336 A69-20386
- Polymers and organic optical cements transparent in 1 to 13 micron IR region, noting organosilicon resin
08 p1336 A69-20387
- Acoustical transparencies illuminated by sound waves for optical imaging and ultrasonic diffraction, noting application to visualization of inhomogeneities in samples
10 p1695 A69-23546
- Laser radiation induced stress waves in transparent media using dynamic photoelastic technique
10 p1707 A69-24213
- Light scattering materials for transparent objects holography, analyzing Christiansen filter and milk white and ground glass plates
11 p1889 A69-25550
- Atmospheric boundary layer transparency to gas laser emissions in IR spectrum, determining attenuation factor dependence on humidity and visibility range
12 p2028 A69-25957
- Mach-Zehnder interferometer to study discontinuities of transparent objects by holographic methods
12 p2091 A69-26369
- Q switches transparency as function of incident light intensity
14 p2456 A69-28758
- Atmospheric IR spectral transparency measurement, describing optical system, recording devices and data processing
14 p2433 A69-28795
- Phenolic resin and silica cloth laminates transparency to IR radiation, noting experimental results
18 p1316 A69-34640
- Noctilucent cloud layer spectral brightness and transparency in E region determined from transhorizon rocket observations
18 p1310 A69-35148
- Sunspot umbra observed on 21 September 1966, computing transparency in model equaling photosphere transparency at same optical depth
20 p3605 A69-37825
- Holography application to three dimensional structure determination of weakly scattering semitransparent objects
20 p3546 A69-38198
- Transparency and luminescence yield of plastic scintillators prepared from polymethyl methacrylate, comparing naphthalene and benzene compound additions with polystyrene
21 p3724 A69-39073
- Dispersion and correlation function for atmospheric transparency due to water vapor from statistical model of absorption bands and effective mass
21 p3759 A69-39113
- Nonograms for spectral transparency of atmosphere at 2.8-5.6 microns
21 p3759 A69-39117
- Microholographic system for nonpseudoscopic stereoscopic image reconstruction of transparent and nontransparent microobjects
21 p3726 A69-39702
- TRANSPARENT MATERIALS**
U TRANSPARENCE
- TRANSPARATION**
- Transpiration and dissipation effects on heat eddy diffusivity over two dimensional plate in turbulent flow for various Prandtl numbers
01 p0178 A69-11410
- Thermal transpiration for performance prediction and development of gas pump
[ASME PAPER 68-WA/ENER-4]
05 p0706 A69-16162
- TRANSPARENT COOLING**
U SWEAT COOLING
- TRANSPONDERS**
- Ground based control system via cockpit PPI display on transponder equipped aircraft broadcast with digital coding
03 p0464 A69-13244
- FAA coded broadcasting to transponder equipped aircraft for air traffic control, navigation, collision avoidance and airfield approach
04 p0629 A69-15478

Transponders for communication satellites, discussing design constraints, reliability and transmission capacity increase
08 p1279 A69-19905

Airborne ILS marker beacon receivers and secondary surveillance radar transponder using microelectronic equipment, noting thermal dissipation problems
[AGARDOGRAPH-114]
08 p1292 A69-20991

Transponder design with planar triode for aircraft identification and air traffic control
09 p1462 A69-21411

Structure of quasi-linear and wideband satellite transponders, discussing possible improvements
09 p1609 A69-21619

Transponders for atmospheric measurements, considering ground tracking, radiosondes, rocket-sondes and flight results
10 p1692 A69-23257

Phase locked UHF telemetry transponder for missile scoring applications, discussing design and performance
23 p1437 A69-41779

Fatigue-damage evaluation system for transport aircraft, noting use of cumulative strain gauge that stores strain history
01 p0165 A69-10118

VTOL or V/STOL Light Intratheater Transport /LIT/ for future tactical airlift situations, comparing tilting, liftjet, stowed rotor and fan-in-wing concepts
01 p0008 A69-10146

Reliability and maintenance economics for jet transport operations of 1980s, discussing Aircraft Integrated Data System /AIDS/ sensors design
[AIAA PAPER 68-207]
01 p0011 A69-11022

Optimal transport aircraft, considering VTOL/STOL aircraft, construction requirements and flying distances
01 p0012 A69-11293

Aerodynamic problems related to turboprops of subsonic transport aircraft
[ONERA-TP-629]
02 p0187 A69-11622

Containerized freight, discussing means of transport, methods of distribution, suitable aircraft for carriage, economic and social effects and combined air-water-land transport
02 p0228 A69-11887

Light aircraft hazards due to trailing vortex generated by heavy transport aircraft, suggesting specific procedures for takeoff, landing and flight phase
[SAE PAPER 680220]
04 p0549 A69-14930

Design of high lift devices in relation to fixed wing subsonic transport aircraft, considering lift, drag, stability and control
05 p0695 A69-15544

LR-1 prototype design criteria and flight testing, discussing Model 99 airliners for commuter airlines
06 p0867 A69-17668

Helicopters and fixed wing STOL and VTOL aircraft for intertheater military logistics transportation, discussing C-5A role in 1970s
07 p1053 A69-19177

Fair-safe goals, design criteria, analytical methods and test procedures to achieve reliable damage tolerant dynamic rotating parts for V/STOL and helicopter transports
[AIAA PAPER 69-215]
07 p1237 A69-19569

Fabrication and processing techniques, tooling concepts and quality control for composite materials used in large aircraft, discussing honeycomb and sandwich structures
[ASM PAPER D8-25.4]
07 p1172 A69-19677

Transport aircraft fleet management and handling mechanical and avionic machine defects using operations research
08 p1422 A69-20627

Three shaft turboprop engines for 1970s noting thermodynamic and propulsive efficiencies, fuel consumption, weight, noise reduction, etc
08 p1376 A69-20627

Monograph on length requirements for takeoff and landing of jet transports covering airport classification, roll distance formulas and long range transport performance nomograms
08 p1301 A69-20717

Optimum cruise altitude, block time and fuel relations for Convair 600/640 aircraft for various temperatures, segment distances and weight
08 p1255 A69-21007

Long range subsonic transport navigation system accounting for reductions in horizontal separation on high density oceanic routes
08 p1348 A69-21062

Aircraft technology for hypersonic speed range including swept wing, engine design, composite materials, lift-drag ratio, considering weight, efficiency, STOL requirements
10 p1634 A69-23598

Flight testing and preflight simulated testing on Lockheed C-5 Galaxy transport aircraft
10 p1634 A69-23599

Supersonic transport airline operations including safety, noise, traffic control, routing, etc
11 p2004 A69-24373

European A-300B airbus design, considering aerodynamics, fuselage, power plant, structure systems, maintenance cost and autoland
11 p1822 A69-24464

Safety measures for aircraft ditching at sea discussing low wing configuration advantages and life rafts
14 p2392 A69-29697

Civilian transport aircraft operation realities vs theoretical performance certification
14 p2392 A69-29698

Dassault Mercure short haul jumbo jet, discussing production costs and market potential
15 p2550 A69-30317

Subsonic transport high bypass ratio engine evaluation in terms of fuel consumption, size, thrust-weight ratio, noise and price
16 p2835 A69-31807

Aircraft role in future transport systems for passengers and goods, emphasizing shorter distances, intercity and interurban communication, etc
16 p2881 A69-31932

Aerodynamic problems in future civil aircraft design emphasizing Concorde development possibilities discussing VTOL intercity transport, subsonic swept wing and hypersonic aircraft, all-wing airbus, etc
16 p2732 A69-32027

Medium range Tu-154 three jet transport aircraft detailing fuselage, airfoil, tail unit, landing gear propulsion unit and circuitry
16 p2735 A69-32027

Book on soviet An-24 aircraft-construction and exploitation covering fuselage, powerplant, controls, fire prevention, air conditioning, maintenance, etc
16 p2735 A69-32112

Short range transport - Royal Aeronautical Society Conference, London, May 1969
17 p2897 A69-33208

VTOL transport aircraft, discussing systems integration problems, feasibility and time scale of introduction into service, noise and safety, etc
17 p2897 A69-33207

Self contained lift fan concept and circulation controlled rotor aircraft power plants for high speed VTOL transports
17 p2897 A69-33208

Civil transport aircraft power plant and auxiliary systems as sources of delays, presenting critical path analysis
17 p2898 A69-33211

Power plant installation on swept winged transport aircraft, discussing interference drag sources, high lift problems, unorthodox installations, nacelle effects, etc
17 p2898 A69-33211

Large subsonic transport aircraft effect of economics of air operations with emphasis on airport facilities for Boeing 747
17 p3077 A69-34207

Statistical weight estimation equations developed by constrained regression analysis, noting application to vertical tail of cargo/transport aircraft
[SAWE PAPER 762] 18 p3220 A69-34879

Parametric approach for weight estimation of surface control systems of transonic and supersonic combat and subsonic transport aircraft
[SAWE PAPER 812] 18 p3221 A69-34898

Tupolev Tu-154 three jet transport featuring automatic flight control system with inertial and Doppler navigation inputs, low speed wing devices
18 p3092 A69-34933

Air conditioning system for transport airplane using combined simple/bootstrap cycle refrigeration unit, discussing thermodynamic performance and hardware implementation
[AIAA PAPER 69-787] 19 p3243 A69-35641

Jumbo jet audio entertainment and service systems, describing digital pulse multiplexing technique
19 p3285 A69-35806

Transport aircraft automatic altitude transmission requirements, discussing altimeter-transponder radar system to aid air traffic control
19 p3371 A69-36700

Technical problems in converting long service civil aircraft to obtain more volume, easier loading access or greater flexibility
20 p3461 A69-36919

Drag influence on mission performance of hypersonic aircraft during climb and cruise, noting payload capacity
20 p3461 A69-37154

VSTOL and conventional transport aircraft compared for short haul air transport services
20 p3461 A69-37281

Flight control and stability of STOL transport aircraft with powered-lift boundary layer control system augmented lift
20 p3462 A69-37513

Turbofan engine influence on civil transport aircraft design as function of thrust, discussing engine ratings, number of engines, APU and thrust engine
22 p3862 A69-39961

Cockpit displays for transport aircraft noting digital techniques and flight control-navigation integration
22 p3946 A69-40486

A 300B twin engine short haul giant transport aircraft, discussing engines, aircraft performance and systems reliability
[RAES PAPER 11] 22 p3863 A69-40491

Jet transport operation and accidents statistics, analyzing world data, accident causes and safety gap
22 p4054 A69-41130

Compound helicopter transport for short haul transportation system for Northeast Corridor, discussing terminals near origin and destination, takeoff and landing patterns, etc
[SAE PAPER 690419] 23 p4062 A69-41643

Jumbo jet role in air transportation, discussing future traffic growth, pilot problems and aircraft size limitations
23 p4063 A69-41819

VTOL transport aircraft to solve short haul travel problems, examining lateral and horizontal maneuvering and vertical to horizontal flight transition
24 p4250 A69-42564

Short haul transport aircraft development, discussing twin jet Mercure aircraft with low operation cost and Category III weather conditions landing
24 p4250 A69-42565

Beriev Be-12 cranked wing seaplane design including technical and operational data
24 p4251 A69-42796

Czechoslovak L-400 high wing short range STOL transport aircraft powered turboprop engines, discussing passenger and cargo version
24 p4251 A69-42799

Flight simulator with large lateral motion for large and supersonic transport aircraft, emphasizing reproduction of cockpit accelerations due to supersonic engine thrust loss
24 p4297 A69-43044

Transport properties of steam, analyzing selection, correlation and prediction using statistical mechanical theories
01 p0174 A69-10110

Dimensional effects on thermodynamic and kinetic properties of thin semiconductor and semimetal films, noting quantization influence
01 p0136 A69-10186

Heat transfer situations in plasma flow indicates very high heat fluxes per unit area on surfaces with electric current
[ASME PAPER 68-HT-38] 01 p0175 A69-10314

Chapman-Enskog method applied to Boltzmann equations for transport coefficients for low density polyatomic gases
01 p0123 A69-10388

Turbulent fluid transport properties predicted by simple model for fluid behavior, obtaining mass, momentum and energy diffusivities
01 p0177 A69-11402

Viscosity and thermal conductivity of helium on basis of Lennard-Jones 6/6 to 9/ potential
[ASME PAPER 67-WA/HT-1] 02 p0351 A69-12205

Discharge coefficients for Herschel type smooth venturimeters, analyzing influence of transport coefficients, convergence angles and contraction ratios
02 p0250 A69-12414

Born approximation for calculating low temperature plasma transport properties from quantum mechanical scattering cross sections on Debye potential
02 p0291 A69-12486

Noninstantaneous, nonlocal nonlinear responses of momentum and energy flows to thermodynamic forces in single component simple fluid with memory
03 p0413 A69-12921

Transport phenomena analysis in n-InSb semiconductors during elastic/inelastic current carrier scattering
03 p0492 A69-14171

Book on nonlinear ordinary differential equations in transport processes, noting iterative and numerical methods for diffusion, conduction, fluid mechanics and chemical kinetics
04 p0622 A69-14599

Partially ionized hydrogen transport coefficients, using expressions containing collision integrals for charged particles
04 p0637 A69-15051

Turbulent flow transfers from applications point of view, noting example of cooling of heated wall
05 p0743 A69-15558

Hydrogen plasma transport properties for semiclassical quantum potential calculated by Chapman-Enskog-Hilbert theory
05 p0799 A69-15735

Transport properties of partially ionized low temperature plasmas, considering viscosity, electrical and heat conductivity of argon and nitrogen at high temperatures
06 p0969 A69-17907

Collection of Soviet papers on microwave radiation transport in atmosphere covering radiation field, water vapor content determination, absorption and scattering by precipitation, etc
06 p0953 A69-17994

Transfer coefficients for inhomogeneous systems characterized by constant density, mean free path and activation energy of carriers at each point
07 p1193 A69-19024

Electron transport parameters in noble gases at low electric field intensities, elastic and inelastic scattering and Boltzmann transport equation
08 p1362 A69-20285

Plasma diagnostics methods for evaluating collision and transport cross sections, discussing resonance fluorescence, steady state discharge and afterglow measurements
08 p1364 A69-20476

Energy density and transport velocity of RF wave in plasma in damped oscillations region, discussing resonance
08 p1365 A69-20553

Warm plasma magnetic interactions, discussing density waves, pair correlation function and transport coefficients
08 p1366 A69-20749

Gas transport coefficients dependence on density and temperature, noting experimental results for Ne and molecular N and H
08 p1353 A69-21009

Fission fragment generated plasma applicability to thermionic energy converters from electron density, temperature and transport studies
09 p1440 A69-21829

Hydrodynamic equations and Grad transport coefficients for nonequilibrium rarefied monatomic gases developed for molecular collisions
09 p1481 A69-21888

Partially ionized Kr and Xe transport coefficients for various pressures and at high temperatures computed on basis of charged particle cross sections
09 p1548 A69-21935

Plasma transport properties derived from Boltzmann equation using Debye shielded Lande potential to represent collisions, noting viscosity and thermal conductivity
09 p1553 A69-22539

Algorithm for mean energy transmission coefficient of fundamental mode in beam guide with given inhomogeneities, discussing mode conversions
09 p1469 A69-22629

Momentum transfer cross sections, recombination coefficients and ionization coefficients of working gases for MHD energy converter
10 p1733 A69-23446

Transport and balance coefficients in ionized neon and helium plasmas in homogeneous electric field, calculating electron mobility, diffusion coefficient, energy and collision parameters
10 p1740 A69-23722

Thomson scatter bistatic sounder data on ionization transports in F region, describing diurnal variations by hourly values of velocities
10 p1685 A69-23830

Transport of matter in nonisothermal weakly ionized plasma due to traveling ion-acoustic wave propagation, noting plasma oscillations and instability
10 p1741 A69-23945

Transport coefficients for almost Lorentzian mixture, computed as perturbation to coefficients for true Lorentzian mixture, compared to Chapman-Enskog method results
11 p1997 A69-24286

Cut-off Coulomb potential transport cross sections compared with exponentially screened potential for various cut-off radii
11 p1924 A69-24309

Statistical turbulence theory applied to turbulent flow transport properties in lower atmosphere
12 p2125 A69-25894

Soviet book on plasma thermionic energy conversion covering operation modes, transport processes, current-voltage characteristics, density, temperature, electric field distribution
12 p2017 A69-26850

Ionization fraction as independent variable in plasma transport correlation, noting role in pressure effect increase
13 p2313 A69-28241

Transport coefficient density expansions obtained from time correlation functions in moderately dense gas with short range repulsive intermolecular forces
14 p2540 A69-29469

Transport properties interrelationship in turbulent pipe flow and free turbulence
15 p2591 A69-30792

Plasma experiments with TM-3 apparatus under stable discharge conditions in H₂, discussing energy loss mechanisms, transport coefficients, reciprocal lifetime, etc
16 p2820 A69-31795

Laser ignited combustion of 365 micron Zr droplets falling in ultrapure oxygen using spectroscopic and photographic techniques, discussing vapor phase transport phenomena
[WSCI PAPER 69-4] 16 p2830 A69-32345

Neutron and photon transport properties in liquid hydrogen obtained from measuring radiation environment in propellant tank mockup suspended above NERVA reactor
[AIAA PAPER 69-475] 16 p2810 A69-32716

Pure monopropellant steady droplet burning rate theory for determining heat-up and convection transport rates in droplet combustion products of flat flame burner
[AIAA PAPER 69-563] 16 p2834 A69-32722

Transport properties of free turbulent mixing of subsonic coaxial streams by introducing environmental distributions in integrals of momentum, energy and species continuity equations
[AIAA PAPER 69-681] 17 p2956 A69-33495

Radiative and conductive heat transport mechanisms at cryogenic temperature applicable to thermal energy transport minimizing technique in containment system
17 p3074 A69-33680

Superposition method for predicting tube wall temperatures with gas property and heating rate axial variation, noting application to gas flow problems
18 p3227 A69-34315

Inelastic collisions and radiation effects on transport properties and shock structure in high temperature gases, obtaining density and temperature profiles
19 p3448 A69-36149

Narrow band gap alloys and ferromagnetic semiconductors, using transport properties for characterization
19 p3388 A69-36541

Electronic properties changes in amorphous CdGeAs caused by long range order loss studied by measuring optical and transport properties
19 p3390 A69-36557

Transport properties of liquid semiconductors, using model for liquid mercury with minimum state density
19 p3391 A69-36560

Relaxing polyatomic gases transport properties from Boltzmann equations obtained without knowing excitation probabilities of internal molecular degrees of freedom
19 p3300 A69-36787

Interface electron transport phenomena in stress corrosion, expressing defect movements in terms of electron energy dynamics
19 p3349 A69-36889

Radiative energy transport quantities for hydrogen plasma including Plank and Rosseland mean absorption coefficients, discussing line and continuum radiation and optical limits
20 p3581 A69-37306

Intensity changes of OI nightglow emission at 100 km by transport associated with tides, gravity waves and turbulent mixing
21 p3713 A69-38526

O conductance nonlinear equation solution applied to O uptake at sea level and at altitude, noting blood transport problems
21 p3654 A69-38906

Molecular transport equations of dilute gases, considering relaxation time spectrum, obtaining kinetic equations and correlation function expressions for transport coefficients
23 p4193 A69-41512

Hydrodynamic equations derived from Boltzmann equation, obtaining molecular expressions for transport coefficients
23 p4151 A69-41513

Electron transport coefficients determined for weakly and fully ionized gases under various conditions
23 p4195 A69-41517

Binary gas mixtures transport coefficients approximated by self consistent matrix procedure based on Chapman-Cowling expressions
24 p4352 A69-43135

Heat pipe wick materials liquid transport properties analysis, using water and Freon 113 as working fluids [ASME PAPER 69-HT-17]
24 p4413 A69-43551

TRANSPORT THEORY

NT CHAPMAN-ENSKOG THEORY

NT EYRING THEORY

NT MIXING LENGTH FLOW THEORY

Transport phenomena in crossed electric and strong magnetic fields, developing semiclassical and quantum treatments
03 p0473 A69-12926

Transport phenomena in semiconductors in strong DC field, emphasizing electrical conductivity as function of crystallographic orientation
03 p0491 A69-14097

Book on nonlinear ordinary differential equations in transport processes, noting iterative and numerical methods for diffusion, conduction, fluid mechanics and chemical kinetics
04 p0622 A69-14599

Prigogine-Nicols-Misguich transport theory tested with inert gas liquids and compared with Rice-Allnatt theory, based on modified Lennard-Jones potential model
04 p0589 A69-14863

Gamma heating rate measured by aqueous dosimeter converted to rate in thin tungsten detector in water shield through transport theory calculations, obtaining correction factors
07 p1178 A69-18825

Mathematical methodology for nonlinear equations of transport processes, discussing group concept and similarity, boundary value conversion to initial value, etc [AICHE PAPER 31A]
08 p1302 A69-19849

Iterative methods for composite layer slabs transport models, using invariant imbedding approach to transport theory
08 p1343 A69-20353

Inelastic transport cross sections for Lyman alpha transitions in hydrogen
08 p1357 A69-20814

Turbulent transport processes mathematical model, determining upper and lower bounds
10 p1677 A69-22895

Transport equation describing drift, diffusion and reaction of iron swarm influenced by electric field in gas
13 p2306 A69-27457

Parameter identification in linear dynamical systems with transport lags, discussing linear differential-difference equations and finite difference theory
13 p2289 A69-27945

Transport processes under adiabatic conditions between external magnetic field and thermal and electrical gradients in solid, defining galvanomagnetic and thermomagnetic effects
13 p2299 A69-28129

Electron transport phenomenon in high pressure cesium diodes, noting quasi-static assumption of particle distribution functions
14 p2401 A69-29229

Differential equations for ignited mode theory, considering ion and electron transport and energy flux
14 p2490 A69-29233

High energy neutron transport calculated using one dimensional discrete ordinates code with anisotropic scattering, comparing results with nucleon transport code calculations
14 p2481 A69-29592

Variational principle for solving boundary value problems and reciprocal formula for error estimation, discussing applicability to general transport phenomena problems
15 p2716 A69-30022

Noise fluctuations transport in convergent flow crossed field electron guns using Monte Carlo method for two dimensional computerized gun simulation
15 p2572 A69-30031

Wave energy flux and correlation wave energy flux relationship to energy transport, noting applicability to fluids
15 p2595 A69-30218

Electron transport initiated by radiant energy absorption or by reducing suitable electron acceptor as source of energy for extraterrestrial life
17 p2908 A69-32973

Linear isotropic elastic continuum dislocations distribution, deriving transport equations by statistical methods, noting analogy between energy/momentum and MHD equations
18 p3212 A69-34352

Energy spectrum and transport mechanism for current carriers in amorphous-crystalline semiconductors, measuring thermostimulated conductivity, induced photoconductivity, optical quenching, etc
19 p3391 A69-36558

Transport mechanism in amorphous Ge films deposited on glass substrates studied by measuring piezoresistance as function of temperature during pure nitrogen immersion
19 p3391 A69-36559

Similarity method applied to linear integrodifferential equations of neutron transport in homogeneous space
19 p3361 A69-36774

Radiative transport equation solution in two flow approximation for plane layer, considering absorption and dispersion characteristics dependence on radiation density
20 p3553 A69-37608

Radiation absorption and emission problem for material of unit density at rest solved by finite difference scheme
21 p3773 A69-39666

Shock tube boundary layers dependence on shock strength determined using vorticity transport to define boundary layer coordinate
22 p3930 A69-40531

Boundary effects on time dependent transport theory based on star product, noting application to transmission line theory and radiative and neutron transfer
23 p4190 A69-41571

Numerical methods for radiation transport for inviscid stagnation flows, detailing spectral nature of radiation emission and absorption [AIAA PAPER 68-664]
23 p4059 A69-41890

Intrinsic transport theorem for electrodynamics of continuous media, using Cartan method of exterior differential forms
24 p4350 A69-43368

TRANSPORT VEHICLES

NASA LOX and liquid hydrogen barges, discussing storage tank design, acceptance testing and operating conditions
01 p0056 A69-11150

Monograph on air cushion vehicles /ACV/ in Scandinavian water transport, covering state of the art, technical and economic competitiveness, etc
09 p1434 A69-22075

Propulsion optimization for various vehicles, considering power plant weight, specific fuel consumption, power and thrust ratios, etc
11 p1941 A69-24462

TRANSPORTATION

NT AIR TRANSPORTATION

NT HIGHWAYS

NT RAIL TRANSPORTATION

Maximum capacity estimation for one way transportation systems to moon and Mars, analyzing technical and economic aspects
09 p1586 A69-21297

Ground access routes between business districts and airports compared for passenger transport modes [AIAA PAPER 68-1072]
12 p2059 A69-26773

Urban noise control over transportation systems including aircraft and highway traffic operating beyond local noise ordinance purview
14 p2541 A69-29157

Air cushion vehicles tests for public transportation facilities noting operation costs
15 p2550 A69-30409

Design philosophy for cost reductions on future space transportation systems, exemplifying application to booster system for earth orbital logistics [AIAA PAPER 69-439]
16 p2882 A69-32654

Telemetric control of urban transportation systems and law enforcement, considering automobiles as prime vehicle
19 p3272 A69-36256

Reducing cost of space transportation - AAS Conference, Washington, D.C., March 1969
21 p3856 A69-39686

Cargo handling systems for worldwide door to door service from marketing systems viewpoint [RAES PAPER 1]
22 p4053 A69-40482

Air space saturation, urban surface transport network enlargement necessity and expeditious passenger processing and baggage handling
24 p4296 A69-42567

Intercity travel demands simulation by linear graph model applied to Windsor-Montreal corridor [AAS PAPER 69-382]
24 p4417 A69-42805

Public policy for urban transportation system, using calculus of variations to determine optimal introduction curve [AAS PAPER 69-292]
24 p4417 A69-42809

TRANSURANIUM ELEMENTS

U PLUTONIUM ISOTOPES

U PLUTONIUM 238

TRANSVERSE OSCILLATION

NT H WAVES

NT MILLIMETER WAVES

NT POLARIZED ELECTROMAGNETIC RADIATION

NT POLARIZED LIGHT

NT SYNCHROTRON RADIATION

Resisting forces produced by transverse vibration of rotating disks in viscous fluid
02 p0232 A69-12257

Transverse mode selection effects on wave front of long pulsed ruby laser beam
02 p0257 A69-12409

Selection of transverse oscillations of unstable Nd laser resonator modes with system of two mirrors and two variable focal length convex lenses
03 p0440 A69-13426

Transverse perturbation influence on helical instability in oscillator
03 p0488 A69-13886

Transverse motion of embedded or free semiinfinite beam with given initial displacement and velocity, using potentials leading to integral equations [ONERA-TP-653]
07 p1230 A69-18264

Unstable transverse potential oscillations in plasma with beam anisotropy and initial density modulation and analogy with known electrostatic oscillations
10 p1727 A69-23092

Asymptotic solutions for transverse oscillations of wedge and cone by virtual displacements principle,

considering nonlinear law of elasticity and energy dissipation

11 p1975 A69-24762

Transverse perturbation influence on helical instability in oscillistor

11 p1939 A69-25687

Microwave oscillations in low pressure arc noting long gas discharge in small transverse dimensions

14 p2489 A69-28739

Transverse free vibration of slender cantilever subjected to compressive follower force

16 p2871 A69-31899

Self mode locking of carbon dioxide laser with high order transverse mode oscillations in vibrational-rotational transitions of P branch

19 p3330 A69-35602

Transverse oscillations of shallow multilayer shells, using tangential-stress distribution law in determining natural oscillation frequencies in single and sandwich layer panels

19 p3435 A69-35842

TRANSVERSE WAVES

NT H WAVES

NT MILLIMETER WAVES

NT POLARIZED ELECTROMAGNETIC RADIATION

NT POLARIZED LIGHT

NT SYNCHROTRON RADIATION

Transverse plasma mode excitation by nonlinear interaction analyzed by Hamiltonian function

01 p0127 A69-10280

Stabilization of plane parallel MHD flow at inlet and outlet of flat rectangular tube with transverse magnetic field

01 p0130 A69-10770

Upper and lower bounds for eigenvalues of differential problem connected with transverse vibrations of wedge shaped simply supported beam

02 p0272 A69-12193

Nonlinear interaction between waves in relativistic plasma, determining probability between transverse and longitudinal waves with different phase velocities

03 p0397 A69-13710

Longitudinal and transverse elastic waves propagation in medium with random inhomogeneities, deriving scattering coefficients in Born approximation for Fraunhofer region

04 p0667 A69-14262

Transverse normal waves excitation in flat plate by applying piezoelectric plate or comb shaped emitter to surface or end face

04 p0678 A69-14901

Transverse ionizing MHD shock waves, discussing jump conditions with magnetic field in shock plane

04 p0637 A69-15052

Transverse sensitivity ratio of vibration transducer, discussing measurement by shaker method

04 p0603 A69-15432

Equation governing transverse vibration of beams with exponentially varying properties, expressing solution in terms of Bessel functions

05 p0835 A69-15873

Retrograde motion of electric arcs in transverse magnetic fields, using multifluid equation to predict inclination and properties

06 p0971 A69-18091

Transverse waves instability in relativistic plasma, noting condition of isotropy and existence of electromagnetic waves

07 p1193 A69-19032

Thin electron flux interaction with electromagnetic wave in open waveguide, discussing nonlinear theory and performance of gyroresonance transverse wave tube

07 p1107 A69-19159

Longitudinal and transverse vibrations of viscoelastic rods excited by inertia with aid of linear oscillator subjected to harmonic stress, using Kelvin-Voigt model

07 p1233 A69-19326

Disturbing TM mode generation effect on attenuation measurement accuracy in TE mode attenuators

08 p1283 A69-20126

Transverse vibration of beam rigidly fastened at one end, using series expansion in terms of set of eigenfunctions

08 p1414 A69-20445

Capacitance and lowest eigenvalue bounds for two dimensional anisotropic media as exemplified by transverse vibrations of stretched membrane

08 p1418 A69-20848

Free transverse vibrations of rectangular flat plate simply supported along periphery and rigidly connected to interior columns

09 p1616 A69-21928

Transverse wave spacing in self sustaining detonations in H-O mixtures, noting evidence against acoustic theory and for characteristic chemical dimension

09 p1622 A69-21953

Radio ray scattering resulting from traversing anisotropically turbulent solar corona, noting refraction effect on signal pulse arrival time

10 p1773 A69-22960

Transverse waves induced by disk oscillations about state of steady rotation in MHD, revealing circularly polarized waves with different phase velocities

10 p1728 A69-23239

Air gap tolerances effect on admittance of TEM mode dielectric and plasma coated slot antennas determined by variational method

11 p1851 A69-24986

Small scale oscillations stability in quasi one dimensional conducting gas flow with longitudinal superimposed magnetic field, noting radiation role in transverse oscillations development

11 p1928 A69-25222

TEM-WAVE propagation between parallel conducting planes, stressing changes in curved waveguide sections

11 p1841 A69-25619

Directional coupler for TEM waves composed of two waveguides and having locally dependent coupling function

11 p1855 A69-25629

Two transverse modes locking with multiple longitudinal modes in He-Ne laser, noting separate locking and alternate quenching

12 p2104 A69-25923

Transverse symmetrical vibrations of thin elastic plates under Jacobi pressure distribution, giving displacement and velocity plots

12 p2180 A69-26271

Transverse normal waves excitation in flat plate by applying piezoelectric plate or comb shaped emitter to surface or end face

12 p2182 A69-26654

Finite difference solution to TEM mode transmission line cross section for defining continuous potential function leading to capacitance upper bound

13 p2221 A69-28064

TEM mode networks design for producing phase coherent pulse modulated microwave signals through spectrum S band

13 p2234 A69-28073

Transverse wave spacings for self sustaining detonations in oxygen and diluents mixtures with hydrogen, methane, acetylene or ethylene fuel, noting dilution

13 p2378 A69-28217

Electromagnetic field TM and TE modes uncoupling during oblique incidence scattering from radially inhomogeneous cylinders

15 p2565 A69-30170

Cut-off wavelength of transverse magnetic mode related to cross section eccentricity of hollow conducting elliptical waveguide

15 p2575 A69-30178

Te waves propagation along plasma sheet between conducting plates, determining vertical plasma density distribution

15 p2569 A69-30939

Weakly damped transverse and thermal waves development and propagation in viscous heat conducting incompressible fluid under temperature and gravitational fields

15 p2718 A69-31168

Coupled TEM lines arrays analysis in terms of odd and even modes, computing equivalent circuit elements, impedances and admittances

15 p2581 A69-31525

Wave propagation in warm uniaxial plasma filled waveguide, analyzing TE modes, TM mode splitting and power transfer

16 p2756 A69-31576

Electromagnetic wave propagation in transversely magnetized warm plasma filled rectangular waveguide, analyzing TE and TM modes

16 p2756 A69-31581

Temporal damping rate for small amplitude linearly polarized TEM mode in plasma, using Landau equation

16 p2818 A69-31675

Second order correction to first order Faraday rotation equation for quasi-transverse propagation of ionospheric radio waves obtained from Appleton-Hartree equation

16 p2777 A69-32101

Plasma wave echoes concept extended to transverse electromagnetic wave excitation propagating parallel to external magnetic field

16 p2823 A69-32467

Free-free transverse vibration damping phenomena, calculating strain amplitude dependence of internal friction at various frequencies

17 p3051 A69-32961

Finite amplitude standing transverse resonant acoustic field effects upon flow behavior of viscous fluid in cylindrical enclosure to acoustically model combustion instability

17 p2954 A69-33457

Complete spherical shells transverse frequency analysis, comparing results of elastic theory and classical, improved and membrane shell theories

17 p3061 A69-33705

Air resistance effect on transverse vibration damping of flat specimens of heat resistant alloy, duraluminum, Ti, Mo and Nb

17 p2991 A69-33947

Normal and transverse ionizing shock, discussing Alfvénic regime for normal shocks and shunting effect in transverse shocks

18 p3180 A69-34454

Anisotropic ionospheric model for VLF TM and TE modes excitation, noting nighttime phase velocity variations

18 p3101 A69-34797

Reflection coefficient of symmetric parallel plate waveguide operating in TEM mode illuminating lossless dielectric layer, using wedge diffraction and geometrical optics methods

18 p3108 A69-34802

Transverse vibrations of thin linear viscoelastic rectangular plate of constant thickness resting on elastic medium

18 p3223 A69-35171

Fluctuating heat transfer and flow measurements for circular cylinder in crossflow with simultaneously imposed transverse standing sound field

18 p3124 A69-35384

Transverse electromagnetic wave propagation in cylindrically stratified axially magnetized plasma, obtaining plasma properties profiles from method for isotropic media

19 p3266 A69-35619

Transverse and longitudinal velocity components of detonation waves in stoichiometric hydrogen-oxygen propagating in fundamental mode in square section tube

19 p3451 A69-36367

Longitudinal and transverse wave propagation in homogeneously deformed isotropic elastic solids, considering Hadamard and Green materials

19 p3440 A69-36588

Transverse vibration and wave solutions for nonlinear equations governing transverse motions of spinning circular membrane disks

19 p3440 A69-36637

TEM mode reflection coefficient for symmetric parallel plate waveguide composed of adjacent conducting wedges composition and radiating into perfectly reflecting sheet

20 p3507 A69-37839

Transverse wave propagation and instabilities within magnetosphere, noting loss cone limited velocity-space distribution function

20 p3533 A69-38081

Transverse wave-beam interaction propagation in fast wave structure in finite homogeneous magnetostatic field, deriving wave-beam equation for non-relativistic beams

21 p3672 A69-38435

Transverse vibrations of isotropic solid rectangular beam with secondary effects of rotary inertia and shear deformation retained

21 p3832 A69-38447

Transverse mode selection in rotating mirror neodymium doped calcium tungstate laser by inserting slit and edge into resonator

22 p3961 A69-40316

Edge diffraction effects in TEM axially slotted finite ground plane on radiation pattern in waveguides of different geometries

23 p4116 A69-41588

Transverse plasma waves propagating along parallel static electric and magnetic fields may lead to instabilities regardless of carriers sign

24 p4355 A69-42923

TRAPEZOIDAL WINGS

Surface of minimum drag symmetrical trapezoidal wing in supersonic flow solved by variational method

15 p2548 A69-31022

Design and fabrication of plane and trapezoidal fiberglass wings with laminar plastic profiles for aerodynamic tests, including wing rigging and slotted wing

19 p3324 A69-35831

TRAPPED MAGNETIC FIELDS

Magnetic energy relationships in magnetosphere, discussing confinement energy of magnetic dipole field, energy of transient compression and zero order energy of trapped particles
07 p1128 A69-19359

TRAPPED PARTICLES

NT ARTIFICIAL RADIATION BELTS
NT INNER RADIATION BELT
NT MAGNETICALLY TRAPPED PARTICLES
NT OUTER RADIATION BELT
NT PROTON BELTS
NT RADIATION BELTS

Magnetic storm principal phase explained by interaction between quasi-trapped particles stream and magnetosphere
01 p0144 A69-10573

Electron intensity diagram of diurnal trapped electron variation from Cosmos 5 satellite data, including harmonic analysis of data
01 p0147 A69-11321

Cone instability role in auroral electron and proton dynamics, discussing plasma instability control of maximum captured particle densities in various magnetosphere regions
03 p0501 A69-13526

Unique solution for radial diffusion coefficient applicable to equatorially trapped electrons in artificial radiation belt
05 p0816 A69-16279

Particle and field environment of earth, discussing solar wind, bow shock, magnetosheath, magnetopause, magnetosphere and particle population
06 p1001 A69-17158

Synchrotron radiation from trapped high energy electrons in Van Allen belt
06 p0992 A69-17324

Charged particle motion in electromagnetic field from basic equation of motion for magnetosphere, discussing dipolar magnetic field, Stormer trapped particle theory, etc
07 p1208 A69-19355

Magnetic energy relationships in magnetosphere, discussing confinement energy of magnetic dipole field, energy of transient compression and zero order energy of trapped particles
07 p1128 A69-19359

Equation describing statistically trapped particle motion under influence of fields varying in time and space
07 p1209 A69-19375

Plasma flux measurements by charged particle traps in Venus vicinity by space vehicle Venus 4, discussing low concentration of charged particles
07 p1222 A69-19613

Bimodal diffusion mechanism for acceleration of trapped particles in earth magnetosphere, noting particle intensity profiles and energy spectra
08 p1307 A69-20183

Trapped electron belts formation and storm time behavior assuming presence of bimodal diffusion from low energy source at magnetosphere outer edge
08 p1307 A69-20184

Nonadiabatic and stochastic mechanisms for cyclotron resonance trapping and heating in magnetic mirror geometries
08 p1364 A69-20518

Time dependent recoverable isothermal decrease of photocurrent in CdS crystals in vacuum, noting trap mechanism involving electron redistribution
08 p1374 A69-21187

Trapping state effect on tunneling probability in Schottky barriers, discussing current-voltage characteristics
09 p1557 A69-21748

Biological radiation doses and protection from galactic, solar particle and trapped radiation in space, noting secondary radiation and bremsstrahlung in absorber
11 p1831 A69-24866

Relativistic electron confinement within geomagnetic tail neutral sheet measured by Pioneer 7 deep space probe, confirming kinetic energy observations of IMP 1 satellite
14 p2433 A69-28934

Magnetic storm principal phase explained by interaction between quasi-trapped particles stream and magnetosphere
15 p2675 A69-30743

Spatial and temporal dependence of trapped particle energy spectra on basis of bimodal diffusion
16 p2852 A69-32619

Trapped particle acceleration by random bimodal diffusion in inhomogeneous magnetic field accounting for high energy particles trapped in earth radiation belts
18 p3186 A69-34808

Low altitude trapped protons in inner radiation belt during solar minimum period, using emulsion detectors on polar-orbiting satellite
18 p3187 A69-34944

Time dependent recoverable isothermal decrease of photocurrent in CdS crystals in vacuum, noting trap mechanism involving electron redistribution
18 p3183 A69-35156

Pressure dependence of trapped spontaneous decay of resonant radiation carbon dioxide
18 p3179 A69-35478

Electromagnetic wave effect on electron in homogeneous magnetic field, noting relativistic momenta of dragged electrons
18 p3181 A69-35497

Particle trapping and plasma oscillations in satellite disturbed ionosphere observed from Ariel and Alouette measurements, discussing frequency and wavelength relation
21 p3787 A69-38357

Cosmic ray albedo neutron decay /CRAND/ source for trapped protons, showing disagreement with intensities in inner zone measured on OV1 2 spacecraft
22 p4005 A69-40512

Cosmic ray albedo-neutron decay source role in intensity measurements of high energy protons trapped on low L shells during satellite flights
24 p4367 A69-43176

Geomagnetically trapped protons and alpha particles, analyzing OGO 4 data
24 p4368 A69-43184

TRAPPED RADIATION

U RADIATION BELTS

TRAPPING

Trapping parameters of Fe doped GaAs-GaP, measuring thermally stimulated conductivity and space charge limited currents
02 p0296 A69-11789

Majority and minority carrier trapping in neutron irradiated Si diodes, measuring transient junction capacitance recovery
06 p0975 A69-16869

Gas-surface interaction for trapping and energy exchange, comparing continuum and discrete lattice models for solids
14 p2409 A69-29092

Strong doping criterion for Si with deep level impurity centers based on electron spectra of fast surface traps
22 p3992 A69-40604

TRAPS

NT COLD TRAPS
NT ION TRAPS [INSTRUMENTATION]

Semiconductor center traps effect on characteristics of metal oxide semiconductor transistors
02 p0299 A69-12183

TRAVELING CHARGE

Resonant interaction between traveling charge with superimposed magnetic field and Alfvén wave in plasma cylinder, showing cyclotron orbit variations
09 p1551 A69-22035

TRAVELING WAVE AMPLIFIERS

Transmission of coherent ruby laser radiation through traveling wave amplifier noting spatial field structure changes
02 p0255 A69-11608

Regenerative amplification stability in nonretarded wave helitron and traveling wave mitron type devices
02 p0214 A69-11610

Electromagnetic wave propagation and amplification in periodic structures, including travel wave and parametric amplifiers, reactance diodes, lasers and quantum amplification
03 p0396 A69-13701

Experimental equipment and procedure to investigate defocusing of electron beam directly in cavity beam hole of TWT amplifier
03 p0407 A69-13975

Traveling wave amplifiers beam defocusing by RF circuits and space charge fields under large signal operating conditions, discussing magnetic field strength
07 p1094 A69-18424

Nonlinear interaction between cyclotron harmonic waves, demonstrating synchronism conditions for traveling wave parametric amplification and passive mode conversion
07 p1189 A69-18439

Q switched single mode ruby laser pulse passage through traveling wave amplifier decreases beam divergence
08 p1326 A69-20542

Amplification factor of He-Ne traveling wave light amplifier, discussing frequency stability and telescopic

wave front broadening for uniform radiation distribution
11 p1894 A69-24623

Transmission of coherent ruby laser radiation through traveling wave amplifier noting spatial field structure changes
11 p1895 A69-24715

Regenerative amplification stability in nonretarded wave helitron and traveling wave mitron type devices
11 p1847 A69-24717

Traveling wave tube for European communication satellite power amplifiers, showing nonlinear distortions dependence on RF input/output power and helix voltage [AIAA PAPER 68-430]
12 p2041 A69-26786

Wave propagation at different group velocities along parametric line in traveling wave parametric amplifier
16 p2805 A69-32254

Amplification stability region in overexcited regenerative traveling wave amplifier with respect to parasitic emission buildup
20 p3506 A69-37724

Solid state traveling wave optical quantum amplifier for conversion of modulated signal carrier frequency, applying to frequency conversion in laser communication links
21 p3739 A69-39540

Second harmonic influence on traveling wave amplifier operation employing distributed nonlinear active medium
22 p3916 A69-40963

TRAVELING WAVE MASERS

Maser for satellite communication consisting of traveling wave ruby maser and closed cycle liquid helium refrigerator, discussing design, operation and performance characteristics
02 p0256 A69-11992

Noise performance of broadband traveling wave masers with longitudinal or transverse stagger tuned magnetic field
02 p0257 A69-12428

Compact high-gain chromium doped rutile traveling wave masers for Onsala radio telescope for galactic and extragalactic microwave emission studies
02 p0257 A69-12463

Traveling wave maser and cooled parametric amplifier for ultralow noise preamplification in satellite communication earth terminal installations
05 p0728 A69-15670

Frequency transformation coefficients in titanium oxide-chromide traveling wave maser
07 p1146 A69-18481

Ruby and neodymium glass traveling wave laser free generation spectra kinetics, noting mode transitions as function of pumping levels
13 p2271 A69-27655

Possibility of combining individual yttrium ferrite single crystals to obtain noninteracting element for quantum paramagnetic traveling-wave amplifier operating at liquid nitrogen temperature
19 p3334 A69-35883

TRAVELING WAVE MODULATION

Wideband microwave KDP light modulator for amplitude and phase modulation, using ring-plane traveling wave circuit
05 p0732 A69-16553

Nonlinear computer analysis of TWT small amplitude compression and small AM to PM conversion, noting coupling and circuit breaker effects
07 p1094 A69-18422

Beam modulation resynchronization at large signal levels by TWT circuit wave to enhance efficiency
07 p1094 A69-18423

Pulse generation in Q switched traveling wave laser, noting effect of field amplification [IEEE PAPER Q-5]
07 p1154 A69-19077

Gain, output power and radiation directivity of He-Ne traveling wave laser with nonresonant feedback
09 p1517 A69-21796

Variational principle for analyzing dispersion properties of closed regular waveguide with traveling wave-modulated dielectric constant
23 p4123 A69-41943

High power ruby laser pulse generation by diffraction modulator, employing modulated ultrasonic traveling waves at minimum resonator transmission losses
24 p4328 A69-43163

TRAVELING WAVE TUBES

NT BACKWARD WAVE TUBES
NT CARCINOTRONS
NT HELITRONS

Microwave selective filter using resonant cavity with single coupling component in feedback circuit of amplifier traveling wave tube or klystron
01 p0042 A69-10384

Permanent magnets used in conjunction with magnetrons, crossed-field amplifiers, klystrons, traveling wave tubes and microwave ferrite devices
[IEEE PAPER 2.3] 01 p0045 A69-10713

Signal to cross modulation noise ratio in TWT tube during amplification of sinusoidal signals
01 p0031 A69-10780

Power saturation in isochronal traveling wave tube explained by motion of electron bunches relative to waves
01 p0047 A69-10882

Sensitivity calculation for microwave receiver consisting of traveling wave tube preamplifier followed by square law detector and video amplifier
01 p0048 A69-11038

Satellite traveling wave tube for X band duplicating C and S band performance
03 p0405 A69-13678

Trajectory equations for outermost electron on beam in TWT operating in dynamic mode for Brillouin flux
03 p0406 A69-13974

Experimental equipment and procedure to investigate defocusing of electron beam directly in cavity beam hole of TWT amplifier
03 p0407 A69-13975

Conventional TWT theory modified to include interaction between beam and two spatial harmonics, investigating TWT stability near edges of pass band
03 p0407 A69-13976

Reflections from input and output ducts influence on gain of TWT strophotron amplifier with/without allowance for back radiation
03 p0407 A69-13980

Nonlinear cross sectional space charge density distribution in electron beam of traveling wave tube
03 p0407 A69-13984

Traveling wave tube segmentation, analyzing effects of drift, grouping and selecting sections on efficiency and amplification
03 p0407 A69-13985

Phase input power characteristics of TWT, TDA and parametric amplifiers, noting crosstalk calculations and AM-PM conversion coefficients
04 p0573 A69-14336

Variational method applied to maximization of electronic efficiency of O-type TWT
04 p0577 A69-14791

Lamination influence on traveling wave tube performance, showing negative effect of radial variations in electric field
05 p0727 A69-15642

High power transmitting tubes for INTELSAT satellite communication earth stations, including multicavity klystrons and wideband TWT
05 p0728 A69-15668

Nonlinear computer analysis of TWT small amplitude compression and small AM to PM conversion, noting coupling and circuit breaker effects
07 p1094 A69-18422

Beam modulation resynchronization at large signal levels by TWT circuit wave to enhance efficiency
07 p1094 A69-18423

X band CW traveling wave tube developed for communications, ECM and plasma research, discussing design, performance and gain ripple diminution
07 p1094 A69-18425

Power traveling wave tubes in ground stations for INTELSAT 3 direction finding system
07 p1094 A69-18426

High power coupled cavity traveling wave tube for satellite communication, noting design techniques and performance characteristics
07 p1094 A69-18427

Coupled cavity short slit delay lines in high power traveling wave tubes
07 p1095 A69-18428

Traveling wave tubes for Symphonic Communication Satellite, discussing design, performance and efficiency
07 p1095 A69-18429

Space harmonics effect on helical TWT design, discussing operating voltage, beam radius, perveance and maximum allowable gain
07 p1105 A69-18950

Parametric light interactions application to optics stressing nonlinear spectrograph and cavity and traveling wave oscillator
[IEEE PAPER K-5] 07 p1152 A69-19066

Thin electron flux interaction with electromagnetic wave in open waveguide, discussing nonlinear theory and performance of gyroresonance transverse wave tube
07 p1107 A69-19159

Annular traveling wave resonator for feedback in resonance particle accelerator of smooth waveguide
07 p1107 A69-19160

Signal to cross modulation noise ratio in TWT tube during amplification of sinusoidal signals
10 p1653 A69-23109

Laser beam welding effectiveness for TWT with coaxial input and output lines
11 p1896 A69-24741

TWT heat pipe cooled depressed collector designed as compact heat transfer device and electrical insulator
11 p1847 A69-24746

High power TWT tube cooling in space vehicle, discussing thermal control system based on heat pipe radiator
11 p1847 A69-24747

Power saturation in isochronal traveling wave tube explained by motion of electron bunches relative to waves
12 p2041 A69-26646

Power gain in TWT attenuators with linear tapered ends, considering conversion loss due to tapering
12 p2044 A69-27102

Traveling wave tubes for high efficiency and extreme environments, discussing power output and RF drive
13 p2232 A69-28055

Traveling wave tubes with broadband CW power, discussing energy dissipation
13 p2232 A69-28057

Nonlinear distortions in TWT for communication satellites applications, discussing relationship with efficiency
13 p2232 A69-28060

Electric field distribution in TWT electron beam deflection system determined, accounting for current-voltage characteristics dependence on electromagnetic field distribution
13 p2237 A69-28582

Traveling wave tube amplifier for wideband radio in SHF range containing periodically integrated magnetized system, discussing output power variation range
16 p2759 A69-31863

Lamination influence on traveling wave tube performance, showing negative effect of radial variations in electric field
16 p2762 A69-32499

Dispersion and coupling impedance calculation for symmetrical or helical slow wave structures employed in traveling and backward wave tubes
22 p3916 A69-40958

Ridge-slot-ridge slow-wave structures used in multibeam TWT (traveling wave tube), analyzing E type electromagnetic dispersion as function of system parameters
23 p4140 A69-42049

Traveling wave tubes in satellite earth stations, discussing single carrier tubes and multiple carrier technique
23 p4143 A69-42420

TRAVELING WAVES

Wave scattering in nonuniform cross section waveguides with large flare angles using coupled differential equations
01 p0044 A69-10622

Parametric vibrations of self excited elastic and aeroelastic systems with traveling waves, determining stable vibration boundaries
02 p0337 A69-11561

Frequency difference of traveling waves in accelerated rotating ring laser
02 p0257 A69-12417

Collision broadened homogeneous linewidth measurements for 6328 angstrom Ne line in Ne and He-Ne discharges, using nonlinear interaction between two traveling waves
02 p0257 A69-12613

Oppositely moving waves interaction during nonlinear transient process of oscillations buildup in annular solid state laser found dependent on coupling via scattering
02 p0259 A69-12648

Mode theory of backscattered radar cross section of elongated dielectric bodies capable of sustaining traveling wave
03 p0384 A69-12907

Traveling waves interaction effects on emission modes of gas laser with circular resonator
04 p0611 A69-14545

High power waveguide tuner for use in traveling wave resonator to tune out reflections in resonant ring
04 p0576 A69-14759

Statistical theory of traveling wave antennas for random phase-amplitude distribution of current, discussing phase errors
06 p0898 A69-17797

Traveling wave microwave and optical resonators synthesis, determining design conditions for resonant frequencies
07 p1145 A69-18477

Traveling waves on elastic spherical shells derived from dynamic equations of motion, including transverse shear and rotatory inertia effects
07 p1236 A69-19460

Interaction between atom and plane monochromatic traveling wave taking into account pressure effect occurring in strong collision model
08 p1354 A69-19954

Algebraic expression for field pattern of asymmetrically driven long antenna with multiple excitations, using Wiener-Hopf integral equation
08 p1281 A69-20016

Plasma acceleration by pulsed electromagnetic traveling wave, discussing stable column formation and acceleration loss processes
09 p1544 A69-21301

Charge and traveling wave interaction in circular waveguide in resonance regime solved by Krylov-Bogoliubov asymptotic method
09 p1551 A69-22037

Busbar effect on interaction between conducting fluid flow and traveling wave magnetic field created by long line with concentrated inductance and capacitance, deriving line gain
10 p1727 A69-23101

Amplitude fluctuations and line width of traveling wave and standing wave He-Ne laser, considering saturation effects
10 p1701 A69-23135

Level degeneracy effect on nonlinear interactions between traveling waves of different planes of polarization
10 p1705 A69-23815

Transport of matter in nonisothermal weakly ionized plasma due to traveling ion-acoustic wave propagation, noting plasma oscillations and instability
10 p1741 A69-23945

Traveling wave passive Q switched laser with bleachable absorber filter, analyzing unsteady processes without expanding field along natural resonator modes
10 p1705 A69-23949

Helical and log conical helical antenna width reduction by loading of traveling wave antenna elements with isotropic material
11 p1852 A69-25315

Potential triple traveling space waves in barotropic gas with arbitrary equation of state, analyzing adjacent and three dimensional self similar flows
12 p2061 A69-25889

Laser output power amplitude fluctuations effect on beat frequency stability for traveling waves in annular laser with broadened Doppler emission line
12 p2107 A69-26541

He-Ne laser traveling wave output power, obtaining end mirror reflection coefficient optimal value
14 p2458 A69-29165

Fringing effects on electric efficiency variation with slip for cylindrical induction MHD device operable as accelerator, generator or Joule heater
[AIAA PAPER 67-714] 16 p2736 A69-32152

Zonal flow intensity, velocity and kinetic energy of standing and traveling waves compared for Northern and Southern Hemispheres
17 p2997 A69-33392

Air motion and precipitation patterns in travelling wave depression, considering Doppler radar data, rainfall rates, orographic influences, etc
18 p3166 A69-34419

Spectral, angular and temporal characteristics of traveling wave mode ruby laser emission, noting high transverse divergence effect on mode operation
21 p3741 A69-39554

Boltzmann equation for electron distribution function of Lorentzian plasma traversed by transverse traveling wave, showing existence and uniqueness of solution
24 p4354 A69-42675

TREADMILLS

Cardiac arrhythmias during positive G sub x acceleration, treadmill exercise and tilt table testing
06 p0874 A69-17834

TREES [MATHEMATICS]

Trunk and tree searching properties of Fano sequential decoding algorithms 06 p0902 A69-17400

Linear network analysis by topological formulas for derivation of k-tree terms without generation of k-trees of graph 06 p0903 A69-17409

Infinite tree code ensemble upper bound on moments derived for sequential decoding governed by Fano algorithm 09 p1471 A69-21318

Adaptive logic trees with two input gates for mechanization of any desired function of variable set, deriving multilevel representations of functions 09 p1475 A69-22583

Topological circuit analysis by digital computer, using conductivity matrix determinant in form of sum of trees 15 p2582 A69-30112

Fault tree for hardware multiple failure safety analysis and reliability analysis for single failure analysis, illustrating comparative advantages 18 p3142 A69-34479

Computerized system-safety fault trees, discussing drawing, configuration control and simulation program 19 p3280 A69-36029

N-dimensional vector functions branching process stability belonging to locally compact set in certain space 20 p3509 A69-37075

Tree codes for memoryless time discrete sources with bounded fidelity criterion 24 p4284 A69-42720

TREES [PLANTS]

NT WOOD

Previsual detection of vigor loss and mortality signs in ponderosa pine trees subject to bark beetle attack 12 p2098 A69-26993

TREMORS

Tremographic studies of central nervous system during supersonic flight as engineering psychology application to man-machine relations in aircraft-spacecraft industries 19 p3259 A69-35834

TRENDS

Technological forecasting by intuitive forecasts, consensus methods, analogy, trend extrapolation and structural models 13 p2382 A69-28040

TRESCA FLOW

Thin circular cylindrical shells steady creep behavior under combined lateral and axial pressures, using Tresca criterion and associated flow rule 06 p1023 A69-17506

Enlargement of circular hole in disk with kinematic hardening and Tresca yield function compared with isotropic hardening 21 p3840 A69-39297

Nadai and Zyczkowski stress analysis for Tresca yield condition reexamined for determination of critical angular velocity of solid elastic perfectly plastic disk 23 p4235 A69-42480

Collapse load of shallow conical shells clamped at base and loaded through finite rigid boss, using Tresca yield condition for sandwich shell 23 p4236 A69-42496

TRIANGLES

Mechanical calculators for solving spherical triangle problem of navigation 07 p1135 A69-19207

Curved tetrahedral and triangular elements in matrix displacement method covering linear and nonlinear cases 08 p1415 A69-20631

Square matrices decomposition into orthogonal and triangular matrices products for computer storage applications 13 p2290 A69-28485

Theory, function generator routine and testing for six node 18 degree of freedom triangular element for plate bending 15 p2706 A69-30430

Stiffness matrix for refined triangular plate bending finite element, considering Kirchhoff theory 15 p2706 A69-30434

Flexure functions of triangular sections under terminal loads, using electric analogy to study function effect on section shape and material Poisson ratio 17 p3066 A69-34050

Triangular plate bending element using Herrmann variational method, deriving matrices for finite elements 24 p4404 A69-43591

TRIANGULAR WINGS

U DELTA WINGS

TRIANGULATION

Satellite triangulation simultaneous and trailing methods, discussing timing devices design [UN PAPER 68-95285] 01 p0064 A69-10475

Great circle route determination based on celestial spherical triangulation 02 p0278 A69-12360

French program of space geodesy, discussing spatial triangulation, telemetry, dynamic geodesy, Diapason and Diademe experiments [UN PAPER 68-95834] 06 p0917 A69-17071

Horizontal aerotriangulation by independent models using photogrammetric extension of horizontal control for small scale superwide angle photography, horizon photography and B 8 plotter 06 p0925 A69-17468

Tucson selenodetic triangulation for coordinated points, considering measures on Yerkes star trailed plates 07 p1225 A69-19774

Photogrammetry for three dimensional geodesy, discussing satellite triangular methods, refraction anomalies, error corrections, etc 10 p1682 A69-23390

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation 11 p1956 A69-24400

Spatial direction determination from simultaneous photographs of Echo 2 at Nikolaev and Helwan stations, using circle of simultaneity 12 p2068 A69-26427

Earth stations coordinates determination from non-simultaneous photographic satellite observations by orbital method compared with simultaneous photographic observations of Echo 1 12 p2068 A69-26430

Cosmic triangulation by geometrical synchronization of astrometric satellite observation, with precise times unavailable 12 p2158 A69-26432

Satellite triangulation by least squares method based on conditions relating to observing stations coordinates, concerning synchronous observations of directions and distances 15 p2594 A69-30030

Geometric conditions selection in directions determination in satellite and rocket aided triangulation, deriving formulas for chords directions of earth ellipsoid 15 p2689 A69-30572

Relative control data incorporation into sequential or simultaneous analytical triangulation systems, considering extraterrestrial photographs reduction 18 p1313 A69-34335

Atmospheric sources automatic location by direction finding network based on triangulation network principle 18 p3102 A69-34961

Australia spatial triangulation and trilateration using geometric satellite geodesy, including station position accuracy tests 18 p3132 A69-35499

Instruments for obtaining auxiliary data in aerial triangulation, describing stratoscope, profile recorder, radar altimeter, horizon camera, etc 22 p3944 A69-40042

Ancient and present earth radii ratios determined by triangulation using paleomagnetic sites situated on different paleomeridians 22 p3937 A69-40183

Satellite photographic astrometry and chronometry, determining spatial positions of satellites and observation stations by space triangulation 24 p4391 A69-43790

TRIATOMIC MOLECULES

Molecular jets obtained by charge exchange of triatomic ion beams consisting of hydrogen, deuterium and nitrogen, noting formation, energy level, etc 05 p0797 A69-16339

Shock ionization by ion impact against triatomic H molecules gas target, showing positive ion production dependence on extraction voltage, collision chamber pressure, etc 19 p3378 A69-36188

TRIAXIAL STRESSES

Stress-strain state in infinite medium with cavity under triaxial tensile force obtained from integrodifferential equation deduced from equilibrium equation 23 p4226 A69-41703

Stress concentrations in circular plate with square hole subject to triaxial tension 23 p4227 A69-41712

TRIAXIALITY

U TRIAXIAL STRESSES

TRICHLORIDES

U CHLORIDES

TRIDENT AIRCRAFT

U DH 121 AIRCRAFT

TRIGGER CIRCUITS

Input transistor performance analysis in Schmitt trigger circuit, considering role of hysteresis 01 p0039 A69-10170

Schmitt trigger current-voltage characteristic for determining switching behavior and switching point temperature, examining formulas and equivalent circuits 01 p0039 A69-10171

Multimode digital radar control paths and operating communication, discussing radar data, triggers, real time data and error localization 05 p0718 A69-15750

Low power RF signal triggering of self sustaining Gunn oscillations in GaAs samples 05 p0734 A69-16575

Tunnel diode subnanosecond coincidence circuit stability and time resolution, noting influence of polarization and input-pulse currents 05 p0735 A69-16743

Transformer inrush transients control by selection of core material, primary turn number and trigger circuitry 06 p0894 A69-17221

Mathematical model for voltage step-down DC to DC converter with hysteretic bistable trigger circuit regulating output voltage 06 p0904 A69-17941

Tunnel diode pair unidirectional pulse regenerating circuits 07 p1104 A69-18892

Lumped element line generators for high power pulsed sinusoidal oscillations utilizing recurrent triggering system, noting use in plasma physics experiments 10 p1662 A69-23344

Jittering delay of triggering circuit driven by ramp signals of different finite slopes, noting tunnel diode discriminators and regenerative feedback loop circuits 11 p1858 A69-24568

Transistorized assembly for amplification of signals emitted by platinum film probes in shock tubes, discussing application to chronometric device triggering 11 p1887 A69-25095

Electronic switching circuits controlled by binary counter triggers for variable passband filters 12 p2040 A69-26489

Trigger demodulator theory, design and circuits 14 p2419 A69-28907

Space charge effects on trigger current and reflector voltages of reflex klystron 15 p2574 A69-30131

TRIGGERS

U ACTUATORS

TRIGONOMETRIC FUNCTIONS

NT SINE SERIES

NT TANGENTS

Onboard digital computer evaluation of trigonometric functions for antenna pointing 07 p1089 A69-19745

Trigonometric and arithmetic functions for reducing size of MOS read-only memories to reduce required bit count, discussing cost, structure and applications 07 p1089 A69-19778

Error analysis involved in calculating tangent functions defined by nonlinear differential equation solution, using digital differential analyzer 13 p2225 A69-27968

Localization and convergence of Fourier series for fundamental systems of functions of Laplace operator, including eigenfunctions and trigonometric systems 15 p2644 A69-30287

Relative dielectric constant and permeability of inhomogeneously filled rectangular waveguide filling medium expanded into trigonometric series to calculate cut-off frequencies and field patterns 15 p2577 A69-30627

Trigonometric polynomials representing perturbation function and derivatives in three body problem
20 p3596 A69-37315

TRIGONOMETRY

Mechanical calculators for solving spherical triangle problem of navigation
07 p1135 A69-19207

TRIM [BALANCE]

U AERODYNAMIC BALANCE

TRIMETHYL COMPOUNDS

Lewis acidity of alanes, discussing interactions of trimethylalane with amines, ethers and phosphines
07 p1074 A69-18630

Enthalpies determination of adduct formation of sulfoxides, sulfanilamides and thionylamides with trimethylalane, noting replacement effect on electron donating ability of oxygen
07 p1074 A69-18631

Physicochemical and operational properties of trimethylol propane esters as lubricating oils under static and dynamic conditions
12 p2103 A69-27090

Quantitative gas-liquid chromatography of sulfur amino acids trimethylsilyl derivatives
13 p2217 A69-28259

Quantitative analysis for N-acetylneuraminic acid by gas-liquid chromatography using trimethylsilyl derivative
13 p2217 A69-28315

TRINITRO COMPOUNDS

Compatibility of inorganic azides with organic explosives from elevated temperature interactions using trinitrobenzene as model
02 p0304 A69-12499

Nuclear radiation damage vs thermal decomposition of diaminotritrobenzene and hexanitrostilbene, analyzing unchanged residual compound
02 p0304 A69-12500

TRINITROTIAZOCYCLOHEXANE

U RDX

TRIODES

P-n channel MOS triode fabricated by doped-stepped-oxide method, obtaining p-channel enhancement
07 p1100 A69-18622

Barkhausen oscillator for LF domain by substituting Cs and K positive ions for electrons, giving oscillation curves and spectral analysis
08 p1280 A69-19981

Triodes reliability for space application, emphasizing RH 7 Cc used during Mariner 4 expedition
08 p1295 A69-21122

Germanium solid state triode controlling electron currents of space charge limited regime by means of gate conductors in solid state diode
09 p1462 A69-21353

Optimum performance from planar metal ceramic triode oscillators by pulse modulation method selection, considering plate, cathode and grid modulation
09 p1470 A69-22793

Wideband RF amplifier manufacturing problems, comparing operation of vacuum triodes and pentodes in passband circuits
11 p1849 A69-24958

Current harmonics in triode klystron for frequency multipliers, noting modulation voltage
13 p2234 A69-28510

Nondrifting n-p-n semiconductor current gain dependence on surface recombination rate
13 p2236 A69-28547

Triode with emitter controlled negative resistance of GaAs as oscillator for microwave applications
22 p3911 A69-40010

TRIPLET EXCITATION

U ATOMIC ENERGY LEVELS

TRIPLET STATE

U ATOMIC ENERGY LEVELS

TRIPROPELLANTS

U LIQUID ROCKET PROPELLANTS

TITANIUM

Energy deposits from decay of tritium incorporated into bacteria, using computer simulation for radiation dose distribution
07 p1068 A69-19490

Inactivation of T4 bacteriophage by tritium decay incorporated into DNA and phage protein
07 p1068 A69-19491

Tritium and argon 39 measurements of stone and iron meteorites, discussing decay and production rates and cosmic ray intensity
09 p1604 A69-22398

Negative pion from 600 MeV synchrocyclotron stopped in thin Li 6 target in search for excited states of triton
12 p2132 A69-26297

Tritium contamination reduction in small ion accelerators for neutron production, discussing pumping problems and vacuum systems
12 p2059 A69-26499

Na 22 and H 3 production rates determined in stone meteorites exposed to 3 Gev isotropic protons, using radionuclide distribution data of exposed thick stone target
19 p3425 A69-36423

TRIVALENT IONS

Ground state population modulation in trivalent rare earth doped single crystals by means of optical double resonance, noting applications
01 p0134 A69-10013

Nonradiative transfer of excitation energy between mixed trinuclear complexes of Tb and Eu ions with lactose in aqueous solution
01 p0023 A69-10288

Trivalent rare earth ions Stark structure based on spectroscopic observations of stimulated transitions in lasers
10 p1701 A69-23129

Angular dependence of EPR line widths of trivalent Cr ions in zinc tungstate in rotating magnetic field, noting spin-phonon mechanism
10 p1743 A69-23131

Glass lasers with trivalent rare earth ions noting properties, characteristics and recent developments
11 p1898 A69-25043

TROCHOIDS

U PIVOTS

TROILITE

Barringerite as Fe-Ni phosphide occurring in meteorite Ollague pallasite, indicating troilite and schreibersite crystallization at high temperatures
18 p3205 A69-35433

Isoprenoids and isomeric alkanes identification in carbonaceous chondrites by gas-chromatographic mass-spectrometric analyses, including results from troilite nodules
19 p3414 A69-36113

Morphological, chemical and X ray analysis of urelite meteorite, identifying diamonds with kamacite and troilite admixtures from carbonaceous material
21 p3816 A69-39626

TROJAN ORBITS

Stability characteristics of small and moderately sized short period Trojan librations in sun-Jupiter restricted three body problem
01 p0158 A69-11329

Periodic Trojan orbits for resonance 1/12 in restricted three body problem, noting bridge of stable and unstable orbit lanes
13 p2350 A69-27824

TROPICAL METEOROLOGY

Mean meridional circulation models in tropics based on vorticity equation
03 p0460 A69-13334

Large scale tropical eddies using two layer dry atmospheric model containing nongeostrophic effects and parametrized dissipation
07 p1176 A69-19035

Annual temperature variation in lower tropical stratosphere, noting effect of equatorial upward motion
07 p1126 A69-19043

Coupling and other factors affecting large scale motions in tropics
07 p1176 A69-19045

Tropospheric zonal wind semiannual oscillations in Southern Hemisphere tropics with westerly maxima and easterly minima in May and November
12 p2064 A69-26011

Equatorial stratospheric wind fluctuations from pressure fluctuation data, relating southern fluctuations, stratospheric fluctuations and seasonal hemispheric air exchange
14 p2442 A69-29726

Cloud pattern characteristics in intertropical convergence zone above Indian and Pacific oceans from meteorological satellite photographs and cloud formation maps
14 p2473 A69-29728

Normalized correlation functions of dispersion values for pressure fields and geopotential obtained by low latitude stations, noting wind field features
14 p2478 A69-29833

Survey of six year period of satellite observed tropical Pacific cloud mapping
17 p2996 A69-33001

Tropical circulation long term mean values of wind and temperature fields, momentum and heat fluxes from weather stations data, noting consistent pattern and energy source
18 p3165 A69-34418

Causal and semiphenomenological theories concerning equatorial F 2 region, discussing electrodynamic drift theory and transequatorial winds
20 p3531 A69-37888

Numerical prediction experiment for dynamical structure of tropical atmosphere in equatorial latitudes, constructing pressure, temperature and vertical motion distributions from wind field
20 p3573 A69-37910

Equatorial aeronomy - Conference, Ahmedabad, India, February 1969
23 p4159 A69-42422

Equatorial anticyclones over eastern Pacific caused by large scale cross-equatorial flows determined by ATS-1 photographs, noting frictional convergence factor
24 p4342 A69-42895

TROPICAL REGIONS

Low latitude m arcs in 6300 angstrom emission during intense geomagnetic storm related to auroral red oxygen emission peak
01 p0062 A69-10136

Tropical 6300 angstrom red oxygen nightglow enhancements related to variations in height of nighttime F 2 layer, noting implications for layer structure and physics
01 p0068 A69-11113

Equatorial enhancement of storm sudden commencements and sudden impulses in horizontal component in American Zone during IGY/IGC
01 p0068 A69-11116

Ionospheric electron content, slab thickness and scintillation occurrence measurements at low latitude stations
02 p0235 A69-11427

Solar eclipse effect on geomagnetic field at and near dip equator observed at Huancayo Observatory, Peru
02 p0241 A69-11727

Tropical night F layer maintenance mechanism, noting airglow enhancement and ionization source association with plasma drifts
02 p0242 A69-11825

Long period variations in zonally symmetric circulations of tropical stratosphere, using zonally averaged momentum, continuity and heat and heat energy equations for numerical model
03 p0461 A69-13681

F region equatorial irregularity belt observed from satellite transmission scintillation, noting north-south elongated patches
05 p0758 A69-16418

Equatorial hourly storm time part of disturbances field for 1958, discussing magnetic storm effects
07 p1124 A69-18822

Midday enhancement of sudden commencements and sudden impulses in H and Z at equatorial stations in Indian zone during IGY
08 p1307 A69-20187

Zonal momentum vertical transport due to large scale moving disturbances in westerlies of equatorial lower stratosphere
09 p1537 A69-22299

Rocket sounding data on ionospheric currents at mid and low latitudes, showing absence in D and above E region
10 p1686 A69-23909

Pacific atmospheric circulation and Pacific equatorial sea temperature winter anomalies, noting Hadley circulations, northeast westerlies, trade winds and Walker circulation
11 p1911 A69-24322

European pilots accustomed to equatorial climate tested during regular flying missions, discussing heat effects on urinary steroids
12 p2024 A69-26560

Atmospheric pressure and wind data at equatorial latitudes, determining relation between rms meridional and zonal wind and pressure gradient
13 p2293 A69-27845

Latitudinal and vertical variations in six-month zonal wind cycles in equatorial and tropical stratosphere and lower mesosphere, utilizing rocket observations
13 p2294 A69-27854

Equatorial jet stream excitation of longitudinal waves, analyzing plasma beam instability and spectrum of short wave inhomogeneities by quasi-hydrodynamic equations
14 p2437 A69-29073

TROPICAL STORMS

Daytime ionospheric screening effect on low latitude geomagnetic micropulsations estimated using ionosphere model

14 p2441 A69-29380

Three dimensional model of atmospheric drift currents in equatorial region of world ocean system based on nonlinear differential equations

14 p2472 A69-29405

Ozone concentration changes in polar regions and tropical zone due to meridional atmospheric circulation

14 p2442 A69-29830

Two year cyclic monsoon type variations in zonal wind distribution in tropical stratosphere and mesosphere obtained by rocket measurements

14 p2478 A69-29834

Self maintenance of absolute angular momentum in atmosphere as explanation of subtropical jet stream origin

15 p2647 A69-30192

GHOST Balloon Project, emphasizing launch and ascent control and location and life expectancy of superpressure balloons in tropical stratosphere

15 p2551 A69-31361

Regional distribution of relative angular momentum transport over equator, noting advective and turbulent transfer

16 p2773 A69-31793

Lunar tidal variations of electron concentration in F2 region near magnetic equator showing large latitudinal dependence

16 p2776 A69-32090

Low latitude asymmetric disturbance field analyzed using equivalent current vectors during magnetic storms, allowing for solar quiet day variation and declination

16 p2778 A69-32184

Nighttime decreases in F2 layer heights at near conjugate stations in low latitudes, using electron density profiles

16 p2778 A69-32186

Correlation between F region electrons vertical motion velocity variations and E region electrons horizontal motions in equatorial ionosphere

16 p2779 A69-32193

Low latitude sporadic E layer associated with geomagnetic activity studied in Hong Kong using proton precession magnetometer and standard ionosonde

16 p2779 A69-32195

Annual variations of postsunset altitude peak of equatorial F region noting correlation with solar activity

17 p2966 A69-33983

Postsunset apparent reflection height and electron density variability in equatorial F2, discussing singularities of diurnal variation in November-January

17 p2967 A69-33984

Composition and temperature of daytime and nighttime neutral tropic lower thermosphere, obtaining atomic and molecular oxygen ratios

18 p3128 A69-34936

Whistlers occurrence and dispersion rate variations from data obtained at lower latitudes during magnetic storms

18 p3102 A69-34967

Jupiter observations /1966-1967/, discussing variations in size and position of polar caps and tropical belts

18 p3203 A69-35337

Topside equatorial ionosphere structure and behavior, describing anomaly development and decay

20 p3530 A69-37869

Earth albedo in lower latitudes measured by satellites and surface stations, comparing solar energy absorption by oceans and atmosphere

20 p3591 A69-38058

Equatorial plasma sheet role in magnetotail assessed from Vela satellite data, noting diurnal density variations

21 p3711 A69-38512

Performance prediction of terrestrial communication system based on experimental radio and meteorological program at 11 GHz, discussing transmission loss

22 p3900 A69-40680

Peak field strengths of atmospheric radio noise bursts from lightning flashes at VHF and flash distance estimates at tropical latitudes

23 p4126 A69-42355

Equatorial stratosphere and mesosphere wind, temperature and density data from rocket and balloon sounding, noting seasonal variations and possible stratosphere-ionosphere coupling

23 p4159 A69-42423

Equatorial E sub sq and daytime blanketing sporadic E occurrence frequencies compared in magnetic equatorial zone, considering diurnal, seasonal, latitudinal and vertical variations

23 p4160 A69-42426

Daytime drift velocities and signal fading characteristics of equatorial and blanketing sporadic E layer irregularities, noting independence of electrojet intensity

23 p4160 A69-42429

Ionospheric electron content measurements at low latitudes close spaced frequency and differential Doppler shift technique, using BE-B and BE-C satellite transmission

23 p4161 A69-42435

Concurrent geomagnetic micropulsations at equatorial and high latitude stations, discussing magnetospheric sources of Pi and Pc types

23 p4161 A69-42439

Geomagnetic activity hourly and daily variations during solar cycle at Huancayo

23 p4162 A69-42442

Hadley and equatorial cell models for mean meridional circulation in terms of vorticity equation

24 p4345 A69-43152

Bidirectional reflectance of earth atmosphere and cloud formation above equatorial Pacific observed by synchronous satellite as function of angular dependence

24 p4346 A69-43154

TROPICAL STORMS NT HURRICANES NT TYPHOONS

Tropical storms wind speeds related statistically to characteristics as pictured from satellites

17 p2997 A69-33690

TROPICS U TROPICAL REGIONS

TROPISM U AEOLOTROPISM U GEOTROPISM U GYROTROPISM

TROPOPAUSE

Air mass displacements and diurnal variations in potential temperature at tropopause level

13 p2252 A69-27608

Energy dissipation near tropopause determined from measured clear air turbulence spectra and probabilities

19 p3303 A69-36407

Wavelike structure observed near tropopause with sensitive radar system, suggesting clear air turbulence as cause of breakdown of gravitational wave

24 p4342 A69-42893

TROPOSPHERE NT TROPOPAUSE

Tropospheric structure studied with high resolution antennas having small common volume

01 p0043 A69-10560

Tropospheric inhomogeneities properties and wind conditions in relation to lunar limb image deformations

01 p0156 A69-11182

Solitary mesoscale waves from air mass motion in troposphere, neglecting Coriolis force and turbulence

02 p0274 A69-11445

Light polarization of night sky components scattered by troposphere

04 p0595 A69-15247

Cloud features produced by European tropospheric low pressure areas observed by meteorological satellite photographs, noting cyclonic systems development

06 p0950 A69-17619

Multilevel objective weather analysis system for stratosphere and upper troposphere over Australia, using stream function analysis

06 p0950 A69-17787

Tropospheric energy cycle interannual variability and quasi-biennial oscillation from geostrophic computations of eddy kinetic energy, energy transfer and internal redistribution

07 p1129 A69-19628

Ionospheric and tropospheric effects on microwave propagation including Faraday rotation, atmospheric refraction, attenuation and noise

08 p1272 A69-19958

Geostrophic trajectories of horizontal diffusivity estimated in midlatitude troposphere and lower stratosphere

08 p1308 A69-20310

Mean and eddy terms contribution to momentum and heat balance of troposphere and lower stratosphere at solstices, describing zonal wind equations

08 p1308 A69-20318

Mean tropospheric wind vectors periods compared to annual variations of earth rotation and pole latitude

08 p1309 A69-20854

Ozone and carbon dioxide stratospheric and tropospheric horizontal distribution from weather data collected on polar flight

09 p1484 A69-21403

Time and altitude distribution of wind zonal components over Fernando Noronha Island off Brazilian coast, discussing tropospheric pattern

11 p1913 A69-25204

Carbon dioxide concentration in upper troposphere and lower stratosphere recorded during commercial aircraft flights over polar route

11 p1879 A69-25254

Tropospheric zonal wind semiannual oscillations in Southern Hemisphere tropics with westerly maxima and easterly minima in May and November

12 p2064 A69-26011

Density stratified model of troposphere and constant gravity field for ground level pressure perturbations in mesoscale region

12 p2126 A69-26016

Stratosphere and troposphere processes analyzed, indicating feasibility of forecasting geopotential and wind fields between 12 and 24 km

12 p2126 A69-26581

Formulas derived for tropospheric equivalent noise temperature as function of frequency, noting applicability to thermal radiation from rain

12 p2032 A69-26704

Internal guiding of microwaves by elevated tropospheric layer noting refractive index, radius of curvature and attenuation

12 p2032 A69-26856

Two temperature lapse rate and single moisture lapse rate troposphere model for calculating temperature and moisture from satellite radiometry

13 p2252 A69-27638

Trapped aerosols below temperature inversions causing lidar echoes in troposphere layers, discussing simultaneous balloon refractometer, thermometer and ground based lidar soundings

13 p2254 A69-28475

Incoming IR flux measurements at high altitude, noting flux increase due to water vapor condensation in troposphere

13 p2256 A69-28647

Richardson number in vertical tropospheric region of maximum wind computed from data on jet streams observed in winter over radiosonde stations in Italy

13 p2295 A69-28656

Radio signal amplitude changes from Explorer 22 beacon satellite attributed to wave diffraction by tropospheric structures

14 p2411 A69-29107

Mean-minute thermal noise intensity distribution in telephony channels of tropospheric radio relay systems

14 p2412 A69-29425

Microwave brightness temperatures for downward viewing over open seas from above atmosphere, using tropospheric model containing homogeneous layer clouds

14 p2415 A69-29515

Tropospheric and stratospheric temperature distribution in 1965 summer and winter from radiosonde and rocket data

14 p2442 A69-29725

Synoptic criteria combined with qualitative criteria for CAT diagnostics from analysis of turbulent zones responsible for bumpiness in upper troposphere

14 p2474 A69-29736

Zonal and meridional components of air circulation in troposphere and lower stratosphere for Northern Hemisphere

14 p2477 A69-29829

Troposphere behavior and stratosphere structure over Southern Hemisphere based on rocket measurements, comparing hemispheric atmospheric circulation intensities

14 p2477 A69-29832

Wind velocity fluctuations calculation in CAT based on closed equations numerical solution for turbulent layers in upper troposphere

15 p2649 A69-30649

UHF propagation in spherically stratified superrefractive troposphere with trapping surface layer, discussing distant field strength dependence on refractivity profile

16 p2752 A69-32388

Noise levels due to long range tropospheric transmission calculated for microwave radio systems

17 p2919 A69-33146

Vertical tropospheric humidity distribution estimation from IR spectra obtained by TIROS satellites

18 p3126 A69-34284

Mean patterns of meridional interhemispheric flow for 40 degree equatorial sector, calculating mean air

mass transport in lower troposphere over western Indian Ocean

18 p3166 A69-34420

Correlation between disturbances in troposphere and in geomagnetic field observed after widespread high winds and magnetic storms, using superposed epoch method

18 p3127 A69-34648

Relation between atmospheric processes in troposphere and upper stratosphere in cold half year

18 p3166 A69-34817

Secor data reduction to correct tropospheric refractive effects of radio ranging on earth satellites using tropospheric model

18 p3104 A69-35200

Vertical distribution of concentration, microstructure and chemical composition of solid aerosol in troposphere and stratosphere from high altitude balloon measurements

18 p3132 A69-35340

Vertical profiles of pressure, temperature and density variations due to upper troposphere pressure changes with and without zero layer effect

19 p3365 A69-36580

Tropospheric influence on pulse signal propagation, measuring pulse function of propagation path, hypothesizing signal reflection from tropospheric boundary layers

19 p3279 A69-36879

Meridional circulations in kinetic energy budget of Northern Hemisphere troposphere based on winter and summer climatic mean data, noting Hadley circulation

20 p3523 A69-37505

Vertical wind shears, structure functions, turbulence and power spectra for transverse velocity fluctuations in troposphere and stratosphere, noting clear air turbulence

20 p3570 A69-37506

Thermal stability and radioelectric turbulence parameter derivative relationship for dry adiabatic stratification of lower troposphere and for inversions

20 p3571 A69-37509

Atmospheric phenomena effects on terrain imaging radar systems performance, discussing tropospheric turbulence and ionospheric irregularities

20 p3490 A69-37647

Water vapor profiles in stratosphere from IR radiometric observations under cloudless conditions, indicating relation to tropospheric meteorological features

20 p3535 A69-38261

EOLE constant level balloon flights in troposphere, discussing short lifetime due to overloading with ice in dense cirrus cloud

21 p3646 A69-38373

Vertical factor equation numerical solution for radio wave propagation in vertically inhomogeneous troposphere

21 p3674 A69-39121

Aerosol attenuation coefficients vs altitude in troposphere and stratosphere, noting seasonally dependent surface convective dust layer and temperature dependent aerosol maximum altitude

21 p3718 A69-39773

Circulation and temperature fields indices used for studying tropospheric-stratospheric interactions during stratospheric warming at constant pressure levels

22 p3977 A69-39929

Troposphere fine scale properties, comparing simultaneous results of five experimental methods

22 p3941 A69-40914

Three dimensional structure of large scale disturbances in lower stratosphere and upper troposphere in equatorial Pacific, using power spectral and synoptic analysis

23 p4159 A69-42345

Clear air turbulence detection in troposphere by multifrequency radiometric sensor, noting multibeam system for supersonic aircraft

23 p4144 A69-42536

TROPOSPHERIC SCATTERING

Tropospheric structure studied with high resolution antennas having small common volume

01 p0043 A69-10560

VHF transhorizon propagation by double reflection from elevated layer in troposphere

01 p0034 A69-11139

Transhorizon UHF energy transmission via tropospheric scatter, using propagation path model

02 p0209 A69-12350

Soviet book on multichannel and TV signals transmission over radio relay links using microwave tropospheric scatter propagation

04 p0558 A69-14919

Soviet book on meteor trail scatter communications covering civil and military advantages over troposcatter systems, meteor trail scatter properties, etc

04 p0562 A69-15488

Radio signals and concentrated noise amplitudes probability distributions reflected from ionosphere and scattered in troposphere calculated for Rayleigh and log-normal fading

11 p1833 A69-24440

Troposphere effects on millimeter wave radio astronomy measurements, discussing solar noise fluctuations due to clouds and precipitation

13 p2223 A69-28607

Multipath resolution of tropospheric scatter medium by incorporating Rake instrumentation into tropospheric transhorizon microwave experiments

14 p2448 A69-29524

Remote sensing of lower atmosphere refractive structure, using Rake tropospheric scatter channel-sounding technique

14 p2448 A69-29525

Global communication techniques and trends, discussing radio telephone and telegraph, submarine systems, satellite communications, line of sight links, tropospheric scatter, waveguide transmission, etc

16 p2750 A69-31755

Variable scatter mechanism in turbulent tropospheric propagation medium, employing dynamic meteorology concepts for frontal disturbances effect on scatter volume

17 p2927 A69-33856

Tropospheric influence on pulse signal propagation, measuring pulse function of propagation path, hypothesizing signal reflection from tropospheric boundary layers

19 p3279 A69-36879

Tropospheric refractivity height profile model, computing corrections to satellite Doppler or range data

21 p3678 A69-39748

TROPOSPHERIC WAVES

Long wave radiative water vapor cooling in troposphere determined by numerical prediction model, including vertical distribution of cloud and moisture effects

07 p1175 A69-18896

Statistical distributions of refractive index parameters in tropospheric radio propagation from psychrometer soundings, discussing lapse rate

13 p2254 A69-28428

TROUBLESHOOTING

U MAINTENANCE

TROUGHS

F 2 layer equatorial anomaly at local noon, discussing position of trough center in latitudinal distribution of ionization

03 p0422 A69-13515

TRUCKS

NT TANK TRUCKS

Bayesian estimate of individual truck maintenance costs based on optimum replacement maintenance age

23 p4241 A69-41577

TRUNCATION [MATHEMATICS]

U APPROXIMATION

TRUNCATION ERRORS

N dimensional extensions of finite difference scheme for solution of differential heat conduction equation, noting practical limit by truncation error considerations

01 p0107 A69-11365

Algorithms for polynomial resultants computation, considering extraneous factors, truncation errors, memory and computing speed

06 p0892 A69-17884

Truncation error reducing scheme for balanced forecast models

07 p1176 A69-19629

Modified truncation for BBGKY hierarchy for plasma, obtaining kinetic equation identical with Balescu-Lenard equation

08 p1360 A69-19990

Runge-Kutta type method truncation error estimation, discussing validity conditions, evaluation processes and numerical tests

15 p2644 A69-30672

TRUNKS [LINES]

U TRANSMISSION LINES

TRUNIONS

U SHAFTS [MACHINE ELEMENTS]

TRUSSES

Mathematical programming in optimized truss design noting reduction of components under buckling

02 p0347 A69-12536

Forced flexural vibrations of elastic truss systems with allowance for hysteresis friction

03 p0432 A69-12953

Minimum weight analysis of Michell trusses transmitting given load to bars within allowable range of axial stress

08 p1410 A69-19893

Forced oscillations of resonance machine elements represented by truss of concentrated masses and external forces, taking into account aerodynamic energy dissipation

17 p3064 A69-33916

Lightly loaded truss structures fabricated from Be, Be-Al alloy and uniaxial B filament reinforced epoxy tubing for unmanned spacecraft applications

19 p3340 A69-35504

Plastic deformation effect on dynamic buckling of elastic-plastic simple shallow truss subjected to step and impulsive loading

19 p3446 A69-36836

Plane-truss joints displacements determined by graph-analytic method, discussing representation of fictitious forces and moments

23 p4225 A69-41420

Three dimensional pin-jointed trusses calculation method by state vector incorporating force and displacement matrices

23 p4236 A69-42485

Zero g deployment dynamics of erectable truss parabolic antennas, obtaining latchup loads as function of reflector mechanical energy [AAS PAPER 69-336]

24 p4398 A69-42827

TRYPSIN

Inactivation by heavy ions of esterase activity of dried trypsin as function of temperature during irradiation

03 p0372 A69-13483

Trapped radical relationship to inactivation of trypsin exposed to UV by measuring radical concentration and inactivation degree

03 p0372 A69-13486

Tryptic digestion of C terminal tritiated peptides analyzed with Scenedesmus ferredoxin, noting use for protein structural study

10 p1648 A69-24190

TRYPTAMINES

Regional uptake of melatonin from blood or cerebrospinal fluid by rat brain

09 p1444 A69-21466

TRYPTOPHAN

Fluorescence and phosphorescence from tryptophan powders stimulated at low temperatures with UV, vacuum UV, fast electrons and X rays

03 p0372 A69-13487

C 14-tryptophan incorporation into C 14-protein in cultured rat pineals, noting norepinephrine stimulation

22 p3871 A69-40054

TU-104 AIRCRAFT

Wing flaps and blow-off and suction effect on longitudinal balance of landing TU-104 aircraft, noting air suction at wing leading edge

19 p3247 A69-35818

TU-134 AIRCRAFT

TU-134 jet passenger aircraft performance characteristics noting similarity to BAC 111

13 p2202 A69-27931

TU-144 AIRCRAFT

Soviet supersonic transport Tu 144, describing wing unit, fuselage, passenger accommodation, tail unit, landing gear, power unit engine nacelle and navigation

10 p1634 A69-23838

TUBE CATHODES

NT COLD CATHODE TUBES

NT HOT CATHODES

NT PHOTOCATHODES

NT PHOTOMULTIPLIER TUBES

NT PHOTOTUBES

NT THERMIONIC CATHODES

SERT 2 mercury vapor fed hollow cathode operated in bell jar, determining volt-ampere characteristics and flow rates for plasma diagnostics [AIAA PAPER 69-258]

09 p1561 A69-21221

Optimal conditions for gas discharge in tubes with hollow cathodes in He-Ne mixture for obtaining lasing at Ne line wavelength

09 p1516 A69-21507

Cathode material effects on temperature coefficients for glow discharge tubes, noting running voltage pressure characteristics

09 p1468 A69-22602

Vacuum tube with cathode heated directly by external radioisotope source, noting heat pipe providing isothermal heat transfer

11 p1848 A69-24748

TUBE GRIDS

Current increase and voltage decrease in high voltage low pressure Penning discharge ascribed to hollow cathode effect

11 p1933 A69-25544

Argon ion laser with water cooled mercury pool cathode shielded by U-bent section trap, considering advantages as compared to oxide cathodes

12 p2107 A69-26326

Gas discharge tube graphite hollow cathode geometry leading to abnormal discharge operation under certain pressure conditions

16 p2814 A69-31838

TUBE GRIDS

Push-pull pentode frequency multipliers with sinusoidal undistorted outputs, studying grid bias effects on operating characteristics

22 p3912 A69-40260

TUBE HEAT EXCHANGERS

Heat exchange and hydraulic resistance in turbulent heat exchangers in longitudinal air flow calculated by criteria equations

01 p0173 A69-10092

Experimental apparatus for measuring heat transfer coefficients into boiling K in tubes, investigating vapor-liquid mixtures hydrodynamic and electrical properties

03 p0534 A69-14150

Small aircraft gas turbine regenerators employing heat pipes, noting excessive cost and weight [ASME PAPER 68-WA/GT-7]

05 p0812 A69-16142

Emissivity of screened tube in presence of heat conducting connecting pieces between tube and screen

11 p1997 A69-24229

Finned tube radiators with constant longitudinal specific heat flow, determining thermal efficiency and optimal thermal and structural parameters

20 p3631 A69-36978

Absorptivity of nonuniformly heated thin walled cylindrical radiator with central radiating hole, calculated by forward-reverse and integral methods

23 p4238 A69-41332

Perforated heat exchanger tube plates stiffness determination from hole diameter-to-spacing ratios

24 p4400 A69-43087

TUBES

Foldable tubular connection application to expandable lattice structure, analyzing cross sectional distortions

06 p1024 A69-17608

Gas film protection of quartz tube wall transparency loss due to hot plasma contact used to study UV emission during high power pulse discharges

11 p1926 A69-24616

Tube techniques - IEEE Conference, New York, September 1968

11 p1847 A69-24740

Stationary liquid under pressure effect on energy dissipation of rectilinear pipelines under pure bending

17 p2904 A69-33930

Elastoplastic boundaries of wave propagation of combined longitudinal and torsional stresses at tube end [ASME PAPER 69-APM-13]

18 p3213 A69-34389

Electron beam welding for repair and production, discussing application to Ti VHF antennas, Concorde switchgears and nuclear reactor loading tubes [SBAC PAPER 14]

20 p3550 A69-37451

TUBING

U PIPES (TUBES)

TUMBLING MOTION

Equivalent cross section theory relating air resistance of randomly tumbling bluff objects to resistance of equivalent spheres

09 p1431 A69-22000

Tumbling motion for testing gyroscopic devices quality

10 p1689 A69-22927

Cylindrical satellite drag rotating about transverse axis in earth magnetic field, including aerodynamic and magnetic moments

12 p2174 A69-26443

Planar tumbling in atmospheric entry, describing arrest by approximating Painleve equation

21 p3819 A69-39033

Gravity gradient perturbing torque cast in terms of perturbing Hamiltonian, deriving long term changes in rotational motion of tumbling triaxial satellite in elliptical orbit [AIAA PAPER 69-922]

21 p3821 A69-39353

TUMORS

NT CANCER

Radiological properties of high energy proton beams from synchrocyclotron in tumor treatment and neurosurgery

03 p0373 A69-13495

Adrenal epinephrine and phenylethanolamine n-methyl transferase /PNMT/ activity in rat bearing transplantable pituitary tumor

08 p1263 A69-20374

Single flash and rhythmic light stimuli effect on nystagmus of patients with tumoral posterior cranial fossa, recorded electroencephalographically

20 p3470 A69-37250

Tissue pressurized oxygenation during radiation therapy emphasized for overcoming tumor radioreistance attributed to oxygen deficiency

23 p4091 A69-41967

TUNERS

U WAVEGUIDE TUNERS

TUNGSTATES

U CALCIUM TUNGSTATES

U ZINC TUNGSTATES

TUNGSTEN

Substructural void formation in tungsten powder metallurgy as function of annealing temperature for doped, undoped and electron beam melted material

01 p0093 A69-10061

Grain boundary gas bubbles growth in chemically vapor deposited tungsten as function of annealing time, temperature and fluorine content

01 p0097 A69-10646

Creep behavior of chemical vapor deposited tungsten at high temperatures by creep-rupture tests compared with powder metallurgy tungsten

01 p0097 A69-10647

Adsorbed gas influence on X ray emission from exploding tungsten wires noting ungassed and degassed specimens in vacuum

01 p0118 A69-10668

Superconductivity of electron beam evaporated tungsten films by X ray and electron diffraction techniques, discussing temperature dependence of energy gap

04 p0640 A69-14447

Tungsten replacement by chromium or molybdenum in heavy metals shown possible for binding material of group 6A metals

05 p0780 A69-15991

Electro-optic properties of tungsten-bronze niobate ferroelectric crystals [IEEE PAPER F-7]

05 p0808 A69-16313

Lanthanum and hafnium effect on transition and recrystallization temperatures of tungsten and tungsten base alloys

05 p0782 A69-16797

Polycrystalline W steady state creep rate at high temperatures noting effects of stress, grain size and subgrain size

07 p1158 A69-18241

Tungsten delay powders combustion mechanism and intermediate stages of burning process, noting burning rate [WSCIPAPER 68-19]

07 p1202 A69-18370

Tungsten coatings applied on stainless steel and titanium alloy surfaces by plasma jet

07 p1165 A69-18931

Cobalt-tungsten solid solutions thermodynamic properties calculated by Borelius method using phase diagram

07 p1165 A69-18941

Pressure-temperature dependence of nitrogen solubility in tungsten at 2400-3000 C

07 p1168 A69-19602

Grain boundaries structure in tungsten wire using auto ion microscope, showing misorientation corresponds to high density coincidence site lattices

08 p1329 A69-19943

Thermal faceting of tungsten single crystal surfaces in oxygen, using vibrating-capacitor work function probe with low energy electron diffraction

08 p1330 A69-20137

Relative free energies of crystal zones of tungsten using field electron microscope, determining surface energy anisotropy from Wulff construction

08 p1330 A69-20139

Time and temperature dependence of Mo and W deformation structure variation and primary recrystallization from metallographic investigations using electron microscopy

08 p1334 A69-21058

Work function change of tungsten single crystal /100/ surface measured as time function during surface molecular gas adsorption

09 p1521 A69-21338

Work function and desorption energy measurements of alkali metals from metallic substrates with modulated molecular beam, noting surface contamination

09 p1558 A69-21808

Temperature effect on work function minimum of cesiated tungsten single and polycrystal surfaces, using vibrating capacitor technique

09 p1558 A69-21809

Surface characterization on chemical vapor deposited tungsten, evaluating grain size effect

09 p1558 A69-21810

Partial pole figures in vapor deposited and wrought cylindrical tungsten specimens, noting random surface produced by orientation

09 p1558 A69-21811

Thermionic converters with chloride and fluoride vapor deposited tungsten emitters, comparing performance characteristics and stability

09 p1438 A69-21819

Emission characteristics of duplex vapor deposited tungsten emitter with molybdenum collector in variable spacing guard ring converter

09 p1438 A69-21820

Comparative performance data of cylindrical diodes with various types of tungsten emitters, including emitter work function measuring device

09 p1439 A69-21821

Porous structures, using spherical tungsten powders, discussing metallurgy, sintering, temperature effects and performance characteristics in ion engines

10 p1710 A69-23166

Temperature and stress dependence of microstrain and microyielding in polycrystalline W for range of impurities and dislocations, considering transition to macrostrain

11 p1905 A69-25183

Sr and La ionization on crystal surfaces of W and polycrystalline W, discussing temperature effect on oxidation and work function

12 p2142 A69-26113

High speed photography of W strip fracture, considering electric current effects and electric circuit interruption by fracture

12 p2113 A69-26195

Flash radiography technique using tungsten wire explosion in vacuum to obtain ultrafast reproducible X ray pulse

12 p2092 A69-26480

Temperature effect on tensile brittle fracture stress of polycrystalline tungsten

12 p2116 A69-27135

Strain rate and pressurization effect on ductile-brittle transition temperature of polycrystalline sintered W, discussing yield stress

12 p2117 A69-27138

Internal friction, Young modulus and resistivity measurements for stage I interstitials in electron irradiated tungsten

13 p2284 A69-28682

CO adsorption on tungsten, determining work function changes and Fowler-Nordheim preexponentials on field emitter single crystal faces

14 p2409 A69-29093

Tungsten surfaces with high work functions generated by electrochemical etching, discussing effects of heat treatment in vacuum

14 p2506 A69-29267

Tungsten emitting surfaces work functions, discussing dense crystalline planes electrolytic or pyrolytic deposit growth and surface chemical or electrolytic attack

14 p2506 A69-29268

Langmuir S curves for tungsten single crystals in presence of adsorbed cesium, discussing orientation, theoretical and experimental correlation and instrumentation

14 p2506 A69-29271

Work function changes of tungsten single crystals as function of oxygen and CO gas pressure at high temperatures, using emission microscope

14 p2506 A69-29272

Tungsten work function increase by oxygen in diode thermionic emission, investigating crystals and vapor deposited layers

14 p2507 A69-29273

Plasma anode technique for work functions measurements of polycrystalline W and Re wires in cesium vapor with cesium oxide additive

14 p2507 A69-29274

Electron work function profile determined for polycrystalline Mo and W single crystals with and without Cs vapors by emission microscope and photomultiplier

14 p2507 A69-29276

W shear moduli at high temperatures measured by forced torsional vibration in wide frequency ranges, discussing grain boundary effects
14 p2465 A69-29651

W single crystals cleavage cracks by spark discharge, showing effective surface energy dependence on crack initiation and propagation temperatures
15 p2637 A69-30226

Tungsten vacuum-arc melted samples in deformed and recrystallized conditions, studying mechanical properties at temperatures near ductile to brittle transition
15 p2637 A69-30267

Solid W enthalpy from 2800 K to melting point measured with drop calorimeter, tabulating heat capacity, entropy and free energy function
17 p2987 A69-33075

Yttrium desorption from W wire by strong electric field, noting electron work function or temperature increase effects on desorption field
17 p3015 A69-33631

Temperature and pressurization effects on tensile and compressive properties of polycrystalline arc-cast W
18 p3154 A69-34273

Resonances and doublets observation by neutron radiative capture and transmission of W and Zr isotopes in kev region, noting partial wave strength functions
18 p3175 A69-34314

Thermal emission and spectral degree of blackness of W derived from electron motion equation
18 p3154 A69-34715

Low energy electron diffraction oxygen adsorption kinetics on planes of tungsten at coverages below monolayer and work function measurements
18 p3183 A69-35106

Low pressure ethylene decomposition on high temperature W ribbon surface
19 p3265 A69-36729

Surface structures, work function changes, Auger electron and surface plasma losses for Cs on clean W surface
19 p3392 A69-36733

Tungsten influence on morphology and lattice parameter of fcc gamma prime phase in Ni-Cr-Ti-Al alloys
20 p3558 A69-36962

Hugoniot equation of state of shock loaded W determined at room temperature and 950 C
20 p3564 A69-38127

Structural changes during annealing of W and Mo single crystals deformed by rolling, using X ray diffraction topography methods with two crystal spectrometer
21 p3742 A69-38583

Grain boundary grooving kinetics for Cr, W and Mb in Ar and vacuum, determining interface free energies and surface self diffusion coefficients
21 p3744 A69-38740

Oxygen pressure effect on oxide layer composition on W surface by secondary ion-ion emission
21 p3746 A69-39071

Tungsten coatings applied on stainless steel and titanium alloy surfaces by plasma jet
21 p3746 A69-39152

Structural defects of neutron irradiated W wire noting microstress relaxation using atomionic microscope
21 p3749 A69-39623

Stress-strain curves of W wires and of aligned composites of same wires in Cu matrix
21 p3845 A69-39709

Thermal neutron capture cross section at high temperature irradiations determined for W 184, describing radiochemical separation and flux counting techniques
24 p4315 A69-43192

TUNGSTEN ALLOYS

Nb-W alloy solution hardening and deformation, noting flow stress dependence on strain rate and temperature plus activation energy of deformation
01 p0095 A69-10488

Chemical vapor deposited W and W-Re alloys for structural applications, discussing fabrication methods and effects on mechanical properties
01 p0096 A69-10641

Chemical vapor deposited W and W-Re alloys investigated for deposition variables and heat treatment effects on mechanical properties
01 p0097 A69-10648

A15 type phase in vapor deposited W-Re alloys identified by X ray diffraction, metallography and hardness measurements
01 p0098 A69-10649

Sintered W-Ni-Fe alloys strength and precipitation hardening characteristics for various compositions and cooling conditions
05 p0782 A69-16798

Transition temperature from brittle to plastic state of W-Mo alloys in recrystallized state, noting increased Mo content effect
05 p0783 A69-16809

Dynamic measurements of modulus of elasticity for polycrystalline nickel-tungsten alloys at elevated temperatures
06 p0943 A69-17232

Powder metallurgy, fusion and chemical vapor deposition techniques in manufacturing tungsten base alloys
07 p1165 A69-18792

Vacuum arc melted W and W-Re alloys mechanical properties, noting Re additions effects
08 p1331 A69-20190

Superplasticity in W-Re alloys, noting tensile properties, grain size and strain rate sensitivity for various Re contents at high temperatures
10 p1707 A69-22990

Composition and sintering temperature cooling effects on fracture properties of W-Ni-Fe alloys, using electron microscope fractography
10 p1711 A69-23333

Slip casting powder mixture of zirconium carbide and tungsten, discussing optimum composition
10 p1716 A69-24056

Zr-W high temperature phase relationships, noting Zr-zirconium tungstide eutectic temperature, zirconium tungstide peritectic temperature and Zr solubility in W
11 p1903 A69-24578

Back scattered electron inelastic LEED spectra of cesium plasma in W/100/-Cs system, noting strong loss peak
12 p2132 A69-26116

W, Mo and heat treatment effects on phase composition and heat resistance of ferrite and austenitic steels
13 p2283 A69-28487

Tungsten alloy fiber reinforced nickel base alloy composites stress-rupture strength, oxidation and impact resistance for high temperature turbojet engine buckets
14 p2462 A69-29010

Optical constants of Ta-W and Nb-Mo measured in IR and visible ranges as function of incandescent temperatures
17 p2990 A69-33574

Ce, Zr, Nb and B effect on heat resistance and structure of low alloy CrMoWV steels /type CSN 41 5335/
22 p3972 A69-41079

Refractory metals in rocket propulsion devices, applying tungsten in uncooled rocket nozzles and tungsten and rhenium to electrothermal propulsion
23 p4177 A69-42161

TUNGSTEN CARBIDES

Surface precipitation of carbides in solution treated and cooled molybdenum and tungsten
03 p0451 A69-14000

Preparation and properties of NbC-WC and TaC-WC carbides, analyzing hardness, resistivity, thermal expansion and dihedral angle
05 p0782 A69-16796

Book on hard alloy properties, discussing bending and compression properties, tensile, torsional and impact strength, wear resistance and thermal shock resistance
12 p2111 A69-23902

Phase composition and Co content effect in WC-Co and WC-TiC-Co alloys on magnetic properties behavior
13 p2275 A69-27343

Room temperature WC-Co compacts oxidation resistance in air noting increase with preliminary sintering temperature
13 p2275 A69-27345

Co content influence on temperature stress in WC-Co cermets using one exposure and two exposure X ray diffraction
16 p2802 A69-32340

WC-Co alloys structural changes under loads near yield limit, noting formation of slip bands
18 p3158 A69-35261

Carburizing spherical powders of Nb, Mo and W to obtain carbides, noting agreement between theoretical and experimental data
19 p3345 A69-36162

Tungsten carbide erosion resistant coatings, discussing optimum plasma deposition process and coating characteristics
20 p3561 A69-37373

WC-Co alloys microstructure and microproperties, considering individual phase behavior and grain-solid solution interactions
20 p3564 A69-38246

Plastic deformation and dislocation damping of cemented WC-Co alloys studied by compressive testing at room temperature
21 p3744 A69-38736

**TUNGSTEN COMPOUNDS
NT CALCIUM TUNGSTATES
NT ZINC TUNGSTATES**

Aluminum alloying additives effects on tungsten disilicide corrosion resistance, studying plasticity properties and oxidation rate
20 p3561 A69-37376

**TUNGSTEN INERT GAS WELDING
U GAS TUNGSTEN ARC WELDING**

TUNGSTEN OXIDES

Two donor levels and conduction properties of n-type semiconductors demonstrated by capacitance measurements of single crystal tungsten oxide in presence of electrolyte
16 p2825 A69-31609

TUNGUSK METEORITE

Tungusk meteorite preceding and succeeding atmospheric events, explosion and origin
01 p0159 A69-11378

Schematic chart prepared for shock wave geometry of Tungusk meteorite, discussing tree felling
01 p0159 A69-11379

Meteorite dust spherules at Tungusk and Sikhotealin falls investigated for mineral composition using X ray analysis
01 p0160 A69-11383

Meteorite dust composition of Tungusk meteorite noting angular and spherical particles
01 p0160 A69-11386

Oxide composition of silicate spherules from forest area devastated by Tunguka meteorite explosion using electron microprobe analysis
14 p2516 A69-28869

TUNING

NT SCHULER TUNING

YIG single crystal resonator tuning of Gunn diode in coaxial line circuit
01 p0042 A69-10320

Phase and amplitude variation at output of tuned amplifier, noting graphs and formulas
01 p0047 A69-10786

Tunable ferrimagnetic bandpass filter using magic T configuration to permit low magnetic field strength and retain nonstacked configuration advantages
04 p0573 A69-14343

High power waveguide tuner for use in traveling wave resonator to tune out reflections in resonant ring
04 p0576 A69-14759

Tunable Raman upconverter as coherent light generator, using Q switched Nd-YAG laser beam [IEEE PAPER B-2]
05 p0774 A69-16309

High Q magnetically tunable microwave filters using magnetodynamic modes in ferrite spheres
06 p0892 A69-16831

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasings
06 p0895 A69-17462

Mechanically and electronically tunable resonator for driving IMPATT and Gunn diodes
07 p1097 A69-18455

Proton spin maser oscillator with emission coils coupled by prepolarized liquid, discussing tuning and detuning
08 p1324 A69-20231

Phase and amplitude variation at output of tuned amplifier, noting graphs and formulas
10 p1662 A69-23115

Pulsed tunable lasers, emphasizing dye lasers for visible and near visible light in specialized spectroscopy
11 p1893 A69-24343

Self tuning in active filter for detection of weak LF signals in noisy background
11 p1845 A69-24548

Varactor diodes for microwave frequency tuning of resonators used for oscillators of avalanche transit time and Gunn diodes, discussing Q factors
11 p1854 A69-25610

Two stage amplifier with two differential feedbacks, investigating tuning sensitivity
14 p2426 A69-29147

Transistorized L band oscillator tuned by Ga-doped YIG, discussing ferrimagnetic material properties and device equivalent circuit
16 p2761 A69-32450

Wide tuning range S band low noise maser amplifier system, discussing bandwidth, gain and packaging for antenna mounting

17 p2979 A69-32914

Rb 87 vapor laser output power dependence on magnetic field strength and resonator detuning, discussing laser and atomic transition frequency tuning

17 p2983 A69-33694

Automatic tuning of superconducting cavity resonant frequency using optical feedback, discussing phase error processing and frequency deviation

17 p2937 A69-33781

Parametric tunable amplifier as prestage for radar receiver, discussing pump frequency and midband gain stabilization

18 p3104 A69-35457

Solid state laser emission frequency control and retuning using dispersive resonators, analyzing interference methods for wavelength measurement

19 p3331 A69-35865

Central tuning dip on rotation-vibration transitions of nitrous oxide and carbon dioxide laser with nitrogen, noting frequency discriminator generation

19 p3339 A69-36698

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasing

20 p3508 A69-37945

Electro-optical tuning effect on frequency of parametric laser with KDP crystal, noting Curie point

20 p3555 A69-38003

Reflex klystron with closed electron flux in crossed electric and magnetic fields permitting inertialess frequency returning

21 p3682 A69-39128

Laser design for smooth emission frequency retuning, discussing equations for laser field oscillations, two photon resonance, tensor analysis, quantum emission, etc

21 p3739 A69-39539

Accuracy and frequency stability of H masers in terms of wall collision effect and cavity resonator tuning

21 p3741 A69-39685

VHF cavity backed cylindrical gap antenna input tuning impedance and equatorial radiation patterns controlled by cavity adjustments

22 p3914 A69-40698

Sweep tuning gas laser and output power vs frequency characteristics, demonstrating tuning ability within entire Doppler bandwidth

23 p4174 A69-41635

TUNNEL DIODES

Quasi-sinusoidal tunnel diode oscillator studied for frequency and amplitude of harmonic voltage components

01 p0038 A69-10070

Storm-Shattuck and push-pull tunnel diode DC-to-DC converters suitable for spacecraft power supplies

01 p0013 A69-10750

Self excitation conditions and output characteristics of tunnel diode DC to AC converters for spacecraft, discussing relaxation-oscillator and push-pull circuit converter types

01 p0046 A69-10755

Tunnel diode oscillations in switching mode due to sinusoidal voltage excitation, discussing critical applied signal frequency separating switching and oscillation modes

02 p0213 A69-11535

Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage

02 p0214 A69-11613

Germanium tunnel diode capacitance as function of bias voltage and HF signal magnitude, considering circuit design

02 p0214 A69-11614

Tunnel diodes current voltage characteristics in crossed electric and magnetic fields, observing tunnel current decrease in GaSb

02 p0300 A69-12634

Impurity concentration measurement for alloyed region of tunnel diode by determining Fermi level position

02 p0301 A69-12685

Power epitaxial GaAs tunnel diodes grown from solution in tin with tellurium

03 p0489 A69-13895

Electron phonon coupling in barriers of GaAs Schottky diodes, noting first and second derivatives of I-V characteristic in n-type GaAs-Pd Schottky diode

03 p0493 A69-14242

Phase input power characteristics of TWT, TDA and parametric amplifiers, noting crosstalk calculations and AM-PM conversion coefficients

04 p0573 A69-14336

Onsager reciprocity relations applied to thermodynamics of nonlinearity and noise in diodes

04 p0574 A69-14435

Tunnel diode univibrator, noting polarization influence on recovery time and pulse length stabilization dependence on resistive load

04 p0578 A69-15069

Reading amplifier for thin magnetic film memory stores permitting tunnel diode register positioning

04 p0579 A69-15319

Circuit with tunnel diodes and transistors for non-linear amplification, noting current-voltage characteristics dependence on circuit parameters

05 p0730 A69-16221

Microwave diodes on GaAs base, determining basic parameters and effects on crystal formation and device construction

05 p0730 A69-16222

Design theory of esaki diodes relation to internal parameters of degenerate semiconductors, discussing Fermi level position and maximum state density in purity band

05 p0732 A69-16298

Thermal and excess currents in GaSb tunnel diodes

05 p0734 A69-16570

Approximate functions for tunnel diode dynamic conductance in three voltage ranges and Fourier conductance terms for tunnel diode frequency converters

05 p0735 A69-16647

Counter/discounter assembly with slow resolution time for random fine pulses, using grouped tunnel diodes

05 p0735 A69-16702

Tunnel diode subnanosecond coincidence circuit stability and time resolution, noting influence of polarization and input-pulse currents

05 p0735 A69-16743

Tunnel junctions of narrow gap GeTe and wide gap GaAs, noting current voltage characteristics similar to those in Schottky barrier

06 p0980 A69-17770

Harmonic oscillations in tunnel diode circuits for three intersection points of loadline with characteristic curve, discussing larger total positive circuit resistance case

06 p0898 A69-17801

Current-voltage characteristic of tunnel diodes, with curve approximation by even degree polynomials of voltage, discussing quasi-linear analysis

06 p0898 A69-17802

Potential barrier curvature influence in aluminum trioxide tunnel junctions, noting ionic space-charge effect on shape

07 p1196 A69-18243

Tunnel diode amplifiers for amplifying weak microwave signals, discussing low noise wideband preamplifier for communication satellites

07 p1099 A69-18464

Frequency-stable tunnel diode oscillator loaded with transmission line

07 p1104 A69-18890

Tunnel diode pair unidirectional pulse regenerating circuits

07 p1104 A69-18892

Validity of formula for oscillation frequency of nearly sinusoidal tunnel diode oscillator extended to operation in nonsinusoidal regime

08 p1279 A69-19924

Tunnel diode amplifier operation in presence of noise

09 p1469 A69-22630

Autodyne frequency converters minimum noise and conversion factor calculation and optimal mode determination

09 p1469 A69-22631

Self biasing influence on tunnel diode amplifiers dynamic range, determining limiting conditions for amplitude characteristics

09 p1469 A69-22633

Wideband 4 GHz Esaki diode injection locked oscillator, noting locking figure of merit and locking bandwidth

09 p1470 A69-22785

Positive and negative sloped current-voltage characteristics of silicon tunnel diodes with p-n junctions

10 p1746 A69-23574

Tunnel diode test circuit, measuring differential resistances and bias voltages on loss resistance and of socket capacitance

10 p1665 A69-24215

Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage

11 p1847 A69-24721

Germanium tunnel diode capacitance as function of bias voltage and HF signal magnitude, considering circuit design

11 p1847 A69-24722

Tunnel diode self excited SHF oscillators: synchronization, deriving single frequency generation conditions

11 p1849 A69-24955

Integrated tunnel diode amplifiers, discussing low noise, bandwidth, reliability, miniaturization and applications

11 p1854 A69-25611

Power epitaxial GaAs tunnel diodes grown from solution in tin with tellurium

11 p1939 A69-25696

Tunnel diode nonlinear p-n junction capacitance influence on characteristics of diode microwave self excited oscillator

12 p2043 A69-26889

Transmission type E saki diode amplifier with stabilizing dielectric loaded rectangular waveguide

13 p2233 A69-28067

Tunnel diode slideback sampling gate circuits, discussing response characteristics and operational specifications

13 p2236 A69-28538

Two stage tunnel diode amplifier synthesis with gain stabilization circuit widening passband, discussing operating frequency and maximally flat amplitude frequency response

13 p2236 A69-28575

Transient processes in counting circuits with tunnel diode chains, discussing operating point position for various conditions

14 p2419 A69-28921

Tunnel diode harmonic mode mixer having IF

14 p2424 A69-29763

Transistorized circuit operation with nonlinear feedback through tunnel diode analyzed by piecewise-linear approximation of I-V characteristics

15 p2573 A69-30114

Microwave tunnel diode switch design noting applications to information storage

15 p2574 A69-30132

Equivalent circuits of dielectric loaded and unloaded rectangular waveguide Esaki diode reflection amplifier

15 p2578 A69-30801

Wideband tunnel diode amplifier design, discussing implementation to out-of-band circulator characteristics and VSWR suppression

15 p2578 A69-30804

Autooscillatory process in n-circuit tunnel diode LC oscillators acted upon by external sinusoidal voltages

16 p2764 A69-32256

Tunnel junctions with low background currents made by reacting active gas layer adsorbed on Nb film surface with Pb upper film to form barrier

17 p3016 A69-33788

Tunnel diode coupling with spheroidal resonant cavity, describing method of measuring elements for interpretation

19 p3283 A69-35998

Tunnel diode oscillators theory applications, investigating self resonance phenomena relating to static characteristic variations under self oscillating conditions

19 p3285 A69-36738

Tunnel p-n junctions preparation by diffusing Zn into degenerate Te doped n-type GaSb between 580-600 C, measuring volt-ampere and capacitance characteristics

21 p3780 A69-39043

Radiometer for 4 cm wavelength range with receiver circuit incorporating tunnel and parametric HF amplifiers, describing design and operation including subunits

21 p3724 A69-39076

Germanium microwave backward diodes optimum design and performance prediction through computer calculation for important parameters

22 p3916 A69-41224

TUNNEL RESISTORS

U ELECTRON TUNNELING
U RESISTORS

TUNNELING

Complex trajectory method for describing tunnel effect during atom ionization in strong light wave field, using quasi-classical approximation

09 p1543 A69-22658

TUPOLEV AIRCRAFT

NT TU-104 AIRCRAFT
NT TU-134 AIRCRAFT

- Medium range Tu-154 three jet transport aircraft, detailing fuselage, airfoil, tail unit, landing gear, propulsion unit and circuitry 16 p2735 A69-32073
- Pressure sensors, strakes, removal of full length guide vanes indicate possible difficulties with thrust of NK-8-2 turbofans in Tu-154 19 p3395 A69-36757
- TUPOLEV TU-104 AIRCRAFT**
U TU-104 AIRCRAFT
- TUPOLEV TU-134 AIRCRAFT**
U TU-134 AIRCRAFT
- TURBIDITY**
- Light field inside deep layers of turbid medium illuminated by narrow beam, discussing beam deviations inside medium, deviation dispersions and correlation coefficient 02 p0274 A69-11449
- Vertical atmospheric turbidity distributions of haze and water vapor, noting effect of variations on scattering and absorption determination 02 p0277 A69-12777
- Atmospheric turbidity coefficient distribution in Northern Hemisphere from direct solar radiation measurements, noting application to IGY data 05 p0789 A69-16585
- Nonscattered, singly and multiply scattered light of beam from point source analyzed at boundary layer of turbid medium 05 p0789 A69-16640
- Atmospheric turbidity and visibility measuring instrument /videograph/ using light backscattering, noting shipboard, coast guard service, large cities and weather stations applications 08 p1314 A69-20376
- Sinusoidally modulated light beam propagation in turbid media, studying phase velocity and attenuation coefficient as function of modulation frequency 10 p1658 A69-23951
- Multiple scattering of solar radiation in turbid atmosphere, considering equations of sky radiation and radiative transfer 11 p1911 A69-24587
- Brightness coefficients for isotropic scattering of homogeneous plane layer in turbid medium, using Legendre polynomials 11 p1960 A69-24733
- Sky polarization neutral points around sunset /spring-summer 1968/ at Bedford, Mass., inferring continuation and variations of enhanced stratospheric turbidity 12 p2067 A69-26343
- Nonscattered, singly and multiply scattered light of beam from point source analyzed at boundary layer of turbid medium 14 p2482 A69-28796
- Spatial coherence of He-Ne laser radiation diffused by turbid medium calculated by using diffraction and interference measurements 22 p3964 A69-40798
- TURBINE BLADES**
- Electrochemical shaping of turbine blades under symmetric cycle conditions, showing role of experimental functions for optimum regime 04 p0605 A69-14560
- Unsteady flow in blade passage of partial admission turbine for high energy fluids, predicting shock wave formation at entrance using one dimensional theory [ASME PAPER 68-FE-25] 05 p0698 A69-16075
- Turbine blade loading in terms of surface diffusion and loading factors, discussing tandem and flap blades and vortex generators [ASME PAPER 68-WA/GT-11] 05 p0812 A69-16136
- Smith correlation of turbine stage efficiency for relating achievable efficiency to stage loading and flow factors used for total pressure loss coefficient data [ASME PAPER 68-WA/GT-5] 05 p0812 A69-16140
- Heat transfer performance of porous nozzle blade cascade represented by two dimensional mathematical model 05 p0812 A69-16400
- Low pressure fuel system and turbine rotor blade temperature measurement method for Concorde Olympus 593 engine [ASME PAPER 68-GT-63] 06 p0984 A69-17187
- Blade to rotor heat transfer in turbines determined from temperature distribution of rod in medium with nonuniform temperature 06 p1034 A69-17870
- Transpiration air cooled blading to test and design small gas turbine at 2500 F inlet, discussing cascade and full stage component 07 p1203 A69-18310
- Holographic interferometry, determining mechanical vibration amplitudes of compressor and turbine blades and airframe panel [SAE PAPER 690265] 07 p1130 A69-18313
- Hollow turbine disks for provision of coolant to high performance aircraft gas turbine engines, fabricating disk in two axial halves 09 p1509 A69-22345
- Turbine blade cooling research programs, discussing effects of increased trailing edge thickness and cooling air on turbine efficiency [ASME PAPER 69-GT-15] 09 p1432 A69-22501
- Gas turbine blade materials after long term service, analyzing tensile, impact and stress rupture properties and microstructure [ASME PAPER 69-GT-12] 09 p1527 A69-22503
- Turbine stator blade performance determination from total pressure surveys downstream of blade row, noting problems in pressure measurement [ASME PAPER 69-GT-103] 09 p1432 A69-22521
- Forced torsional vibrations of turbine blades calculated by computer using mathematical models for resonance frequencies and tangential stresses 10 p1803 A69-24076
- Gas turbine blade vibrations, discussing excitation causes and damping techniques [ASME PAPER 69-VIBR-59] 10 p1805 A69-24155
- Holographic mode shapes used in conjunction with mechanical impedance approach for vibration analysis of turbine blades [ASME PAPER 69-VIBR-32] 10 p1806 A69-24174
- Gas turbine blade cooling by longitudinal air flow, discussing cooling efficiency of guide and impeller blades and blade ring 11 p1942 A69-25337
- Aerodynamic and thermal considerations in axial flow turbine blade design, discussing internal air cooling [IME PAPER 2] 12 p2146 A69-25788
- Blade material temperature variation observed in turbojet engine during air bleed of varying intensity and duration 13 p2325 A69-27444
- Reynolds number, incident flow turbulence and interblade channels roughness effects on friction losses in axial flow turbines 15 p2547 A69-30074
- Automatic multichannel system for turbine blades static tests, discussing operation principles, component sections, programmed tape and vibration modes 15 p2672 A69-31209
- JT8D turbofan engine composite fan blades design and fabrication methods using aluminum-Borsic fiber, noting direct and indirect weight reduction [AIAA PAPER 69-465] 16 p2842 A69-32698
- Turbine blades materials with emphasis on oriented solidification of eutectic alloys, discussing blades cooling by thermosiphons or ducts 17 p2978 A69-33334
- Turbine blade cooling emphasizing economics, service life and computerized calculations 17 p3064 A69-33918
- Near resonant oscillations of warped turbine or compressor blades, discussing stress-strain relations 17 p3064 A69-33918
- Energy dissipation in vibrating warped turbine blades subject to complex stress-strain rate produced by simultaneous bending, torsional and tensile stresses 17 p3065 A69-33924
- Damping properties of turbine blade materials subjected to transverse bending vibrations in vacuum and at high temperatures, including Ti alloys 17 p2990 A69-33932
- Internal heat transfer coefficients for impingement cooling of gas turbine airfoil leading edge [AIAA PAPER 68-564] 17 p3022 A69-34021
- Gas turbine areas calculation of through flow cross sections for temperature deformations and blades elongation 18 p3184 A69-34987
- Steady state thermal problem of gas turbine hyperbolic profile disk equipped with bandaged blades, solving thermal balance equations 18 p3184 A69-34992
- Technology trends in airbreathing propulsion, discussing noise control for subsonic jet transports, turbine blade cooling, etc [AIAA PAPER 69-774] 19 p3244 A69-35648
- Aluminizing and operational effects on surface layer and core of first and second stage turbine blades 20 p3561 A69-37370
- Automated device for load carrying ability of structural elements like gas turbine blades under thermal and mechanical cyclic loads 20 p3544 A69-37816
- Computation method of hydrodynamic blade cascade for compressible fluid and variable channel width by stream function 20 p3460 A69-37972
- Repair welding methods for trailing edge cracks in nickel base superalloy used in turbine vanes, emphasizing plasma arc fusion welding [ASM PAPER D8-16.3] 20 p3551 A69-38137
- Gas heat transfer on turbine interblade channel surfaces and working blade end surfaces at operating Reynolds and Mach numbers 21 p3849 A69-38858
- Temperature distribution determined for leading edge, convex and concave parts of turbine blade porous wall with effusion cooling 21 p3850 A69-38860
- Heat transfer coefficients evaluated from gas to rotating turbine blades in unsteady operation, using unsteady thermal conductivity and gradient methods 21 p3850 A69-38864
- Cooling air from blades discharged into flow-through part of gas turbine, examining gas mixing with air from blade and effect on turbine efficiency 21 p3785 A69-39090
- Secondary losses in flat large scale turbine lattice attributed to LF pulsating flow separation on back of blade 21 p3645 A69-39717
- Temperature field in deflector cooled turbine blades for nonstationary regimes, considering heating of cooling air, thermal conductivity and thermophysical coefficient changes 21 p3786 A69-39718
- Monograph on aerodynamic studies of effusion cooled turbine blades covering turbulent boundary layers, gas turbine performance, experimental design, etc [AIAA PAPER 69-871] 21 p3786 A69-39867
- Holography applied to stress and vibration analysis of gas turbine blades, disks and small components 22 p4040 A69-39960
- Internally air cooled turbine blades and vanes emphasizing coolant aerodynamics, heat transfer and blade life, high temperature in jet engines, etc [RAES PAPER 22] 22 p4000 A69-40500
- Airfoils and cascades design for incompressible flow by numerical methods 23 p4058 A69-41610
- Large fan blade design, discussing aerodynamic design and rig test program supporting fan definition [SAE PAPER 690387] 23 p4200 A69-41656
- Blade and vane wall thickness measurements test methods for gas turbine engine using ultrasonic gage and thermoelectric comparator 24 p4312 A69-42753
- Turbine blade edge cooling efficiency, investigating Reynolds number and gas temperature to cooling air ratio influence 24 p4364 A69-43082
- Edge effects in efficiency of air cooled turbine blade cascades with cooling air ejection from blade trailing edges into gas flow 24 p4364 A69-43090
- Incompressible fluid flow inhomogeneities effect on oscillations of airfoils cascade, noting occurrence of parametric resonance in turbine engine blades 24 p4245 A69-43479
- Protective coatings on Ni base superalloys for gas turbine engine blade and vane components for hot corrosion and oxidation resistance [SAE PAPER 690480] 24 p4335 A69-43515
- TURBINE ENGINES**

- Steady three dimensional flow through impeller of turbines with small number of blades and with edge cut hub, noting inefficiency of flow without impact 01 p0142 A69-10309
- Similarity conditions in turbine engine tests, analyzing flight speed, Reynolds number, combustion efficiency, heat changes, inlet turbulence and outlet nozzle 05 p0742 A69-16028

Aircraft turbine engines operation and control, discussing technology, simulation and system developments

05 p0812 A69-16528

Liquid and vapor phase microscale panel cokers applied to screening synthetic lubricants for aircraft turbine engines

[ASLE PAPER 68-LC-22] 07 p1140 A69-19309

Forging techniques for forming Be into cylinders, rings, shafts and disks, investigating controlled texture forging for turbine engine components

09 p1504 A69-22073

Cooled turbine performance evaluation methods, noting promise of analytical methods

[ASME PAPER 69-GT-63] 09 p1572 A69-22517

Monitors to detect incipient failure during turbine engine development, describing servocontrol

10 p1692 A69-23253

Explosive fabrication of aircraft components including turbine engine exhaust components, door seals, etc

[SAE PAPER 690316] 11 p1890 A69-24510

Turbine engine in-flight operating conditions simulated on test stand

11 p1942 A69-24528

Marchetti SV-20A and SV-20C twin turbine helicopters with two bladed rotors and fixed wings, discussing propeller on starboard engine rear of compound version

12 p2013 A69-26466

Temperature measurement for aircraft gas-turbine engine development

14 p2509 A69-28886

Fluidic temperature sensors for measuring turbine inlet temperature on large turbine engine

[AIAA PAPER 69-544] 16 p2792 A69-32692

Nondestructive ultrasonic, spectroscopic and TV test methods reducing time for inspection and increasing reliability of turbines

17 p2978 A69-33330

Small turbine development for long life applications in helicopters and unpressurized aircraft, describing Artouste, Turmo, Astazou and Bastan series

17 p3020 A69-33346

Aircraft turbines mechanical parts reliability tests, discussing examples of blade fatigue rupture and rotor disk fatigue

17 p3020 A69-33347

Low smoke emission combustors for aircraft turbine engines, discussing effects on ignition and exit temperature distribution

[AIAA PAPER 69-493] 19 p3394 A69-36299

Wankel aircraft engines compared to piston and turbine aircraft engines for performance, maintenance and reliability

19 p3395 A69-36872

Turbine engine monitoring during operation, discussing automatic monitoring systems and engine design

19 p3329 A69-36873

Digital computers used in error calculation in calibration curves of turboengines and other pneumatic devices

21 p3724 A69-39100

Aircraft engine technology, discussing turbine entry temperatures, reheat temperatures, high pressure spools, high temperature materials and small blades fabrication

[RAES PAPER 20] 22 p4000 A69-40499

TURBINE INSTRUMENTS

Solid state power supplies for turbine control and instrumentation, discussing control system manufacturer requirements and reliability specifications

03 p0368 A69-13432

TURBINE PUMPS

Ball bearings lubrication and wear in cryogenic hydrogen turbopumps by transfer films provided from self lubricating cage

01 p0084 A69-10109

Black Arrow space vehicle uprating, considering engines burning kerosene with HTP and turbopumping systems

01 p0143 A69-10835

Wear ring seals evaluation program for application to high pressure high speed liquid rocket turbopumps impeller wear rings

[ASME PAPER 68-WA/LUB-1] 05 p0768 A69-16129

Vane type fuel pump designed for small gas turbine engines, describing design analysis and laboratory evaluation

[ASME PAPER 69-GT-45] 09 p1513 A69-22485

Wideband acceleration instrumentation for Rover ground test facility liquid hydrogen turbopumps to study structural and flow induced vibrations

10 p1692 A69-23250

Turbopump weight minimization and low suction pressure requirements realized using high rotating speeds, hydraulic turbine driven upstream inducer and computer testing

[AIAA PAPER 69-552] 16 p2741 A69-32747

Rocket engine with turbopump supplied liquid propellant, describing ejector, pump assembly, gas generator and control devices

17 p3019 A69-33341

Twin spool hydrogen turbopump performance at zero net positive suction pressure /NPSP/ saturated fluid in propellant tank, including steady state and simulated transient engine tests

[AIAA PAPER 69-550] 18 p3140 A69-34414

Transient performance of full flow hydraulic turbine driven two speed pump inducer system, formulating computer model

[AIAA PAPER 69-551] 18 p3140 A69-34415

Liquid hydrogen pumping for Phoebus reactor, discussing feed systems, nozzles, configurations, design, testing, etc

[AIAA PAPER 67-478] 21 p3769 A69-39751

Hydrostatic bearings analysis for high pressure cryogenic rocket engine turbopumps to predict steady state and time dependent performance, noting turbulence, inertia and compressibility

22 p3955 A69-40408

TURBINE WHEELS

Air film cooling of rotating turbine disk, suggesting applicability to gas flows

06 p1034 A69-17814

Mechanical stability of pressed and forged Ti alloy gas turbine disks at high temperatures and rates of rotation

06 p1026 A69-18018

Stress-strain distribution in rotor wheel with radial side blades, giving differential equations system for circular disk strains

09 p1612 A69-21494

Gas turbine disk calculation and plastic flow theory, considering loading conditions and elastoplastic strains due to centrifugal forces and nonuniform heating

11 p1982 A69-24945

Unbalance effects on rigid naval turborotor on oil film bearings in flexibly mounted housings investigated at varying critical speeds and housing stiffness

[ASME PAPER 69-DE-9] 14 p2453 A69-28839

Device for fatigue testing turbine disk models in unsteady temperature fields with radial and axial nonuniformity produced by HF heating

15 p2583 A69-30208

Bladed disk assemblies vibrational properties, discussing dynamic characteristics of system with pairs of close natural frequency modes under forced vibration

15 p2704 A69-30304

Gas flow deflection at centrifugal pump wheel outlet for wheels having different inlet and outlet vane angles

15 p2547 A69-30571

Photothermoelastic analysis of thermal stresses in turbine wheels with welded blades, noting stress concentration reduction

15 p2715 A69-31488

Steady state thermal problem of gas turbine hyperbolic profile disk equipped with banded blades, solving thermal balance equations

18 p3184 A69-34992

Turbine disks stress-strain state, using wire strain gauge to determine residual strains, radial and tangential stresses as function of disks rpm

19 p3436 A69-35850

Lumped parameter simulation model, based on vector mechanics for flexible spinning bodies, to study spin stabilized spacecraft or turbine rotors

19 p3280 A69-35990

Turbine rotors load dependent unstable motions, considering exciting forces origins, external and internal damping, etc

20 p3628 A69-37918

Gas flow characteristics in shrouded and unshrouded turbine wheel assemblies, emphasizing radial flow role in efficiency

21 p3785 A69-38865

Wobble tolerance influence on axis deflection affecting accuracy during assembling of turbine rotors and stators

21 p3733 A69-39719

Holography applied to stress and vibration analysis of gas turbine blades, disks and small components

22 p4040 A69-39960

Turbine rotors temperature reducible by increasing air cooling system flow rate

24 p4364 A69-43081

TURBINES

NT AXIAL FLOW TURBINES
NT GAS TURBINES
NT SHROUDED TURBINES
NT STEAM TURBINES
NT SUPERSONIC TURBINES
NT TWO STAGE TURBINES

Monograph on optimal design of free-running drag turbines for boundary layer suction in aircraft, emphasizing gliders performance

12 p2011 A69-26111

Rotating mirror turbine with air cushion floating shaft for use in streak and framing cameras, noting framing rate

12 p2085 A69-26156

Aerodynamic losses and stage efficiency in partial admission turbines, using flat bladed rotor experiments and rotors of different blade pitch

15 p2547 A69-30290

Multiple function combination probe design for compressor and turbine air flow research

16 p2766 A69-31917

Stator setting effect on single stage turbine performance, considering blade loss and surface velocity distribution

[AIAA PAPER 69-525] 16 p2841 A69-32686

TURBO-SKYVAN AIRCRAFT

U SC-7 AIRCRAFT

TURBOALTERNATORS

U AC GENERATORS

U TURBOGENERATORS

TURBOCHARGERS

U SUPERCHARGERS

U TURBOCOMPRESSORS

TURBOCOMPRESSORS

Acoustic resonance excitation in axial flow compressor annulus by wake shedding from blades

01 p0142 A69-10058

Circumferential inhomogeneity of flow through impeller blades of axial flow compressor

03 p0361 A69-12954

Supersonic axial compressor boost stages for small gas turbine engines, using passage flow approach and passage criteria to design airfoils

[ASME PAPER 69-GT-44] 09 p1570 A69-22478

Lift engine model compressor response to inlet pressure distortion to determine nature and extent of critical area of spoiling for axial flow compressors

[ASME PAPER 69-GT-29] 09 p1571 A69-22493

Compressor inlet temperature /CIT/ sensors, describing bimetal strip and liquid expansion aspirated types

[ASME PAPER 69-GT-18] 09 p1571 A69-22499

Compressor inlet Mach number choice to control high performance variable stator compressors geometry

[ASME PAPER 69-GT-14] 09 p1571 A69-22502

Fan compressor noise reduction indicating effects of design, number of blades, vane/blade ratio, aerodynamic parameters and blade spacing

[ASME PAPER 69-GT-9] 09 p1571 A69-22505

Aerodynamic design of axial flow compressors and turbines, using aerothermodynamic equations for compressible flow analysis

11 p1821 A69-25585

Gas turbine centrifugal compressor design considerations for impellers and diffusers, including blade loading and pressure gradients determination and aerodynamics

[IME PAPER 1] 12 p2146 A69-25790

Aerodynamic design of subsonic and transonic axial flow compressors, discussing blade configurations and computerized design of turbomachinery

12 p2147 A69-25792

Gas turbine compressor end seals, discussing air leakage paths, primary and secondary seals, design and efficiency

[ASLE PREPRINT 68AM 4B-4] 13 p2267 A69-27366

Erosion wear of graphitic and mica-ceramic materials used for sealing turbine compressors at high temperatures, including test installation

15 p2643 A69-31186

Radial blade tip clearance effect on isentropic efficiency and air delivery in axial flow compressor with allowance for casing deformations and rotor displacements

16 p2837 A69-32004

Velocity and static pressure redistribution in distorted flow field upstream of axial flow compressors

[AIAA PAPER 69-485] 16 p2842 A69-32694

Gas turbine engine compressor system dynamic representation by one dimensional mathematical model
[AIAA PAPER 69-486] 16 p2842 A69-32697

Turbine disks stress-strain state, using wire strain gauge to determine residual strains, radial and tangential stresses as function of disks rpm
19 p3436 A69-35850

Computer program using system simulation and Monte Carlo techniques to assess turbojet engine compressor disk reliability, discussing maintenance policy and engine design effects
19 p3394 A69-36042

Turbocompressors, reviewing axial and radial compressors
19 p3395 A69-36749

Soviet book on theory and design of turbocompressors covering gas dynamic cascade theory, thermodynamics and aerodynamics, viscous gas flow, etc
20 p3459 A69-37238

Air deflection and modulation /ADAM/ turbofan propulsive wing V/STOL design
[AIAA PAPER 69-201] 07 p1056 A69-19573

Turbofan V/STOL with separate lift units for takeoff and landing, discussing commercial and military applications, cost effectiveness and operational characteristics
13 p2203 A69-28354

Turbofan engines impact on aircraft engineering development emphasizing large performances, high fan flow rates and low fuel consumption
15 p2550 A69-30322

URBOFAN ENGINES
Optimal layout of turbofan jet engines, discussing experimental rig for high thrust measurement
[AIAA PAPER 67-416] 01 p0143 A69-11015

Aerodynamic problems related to turbofans of subsonic transport aircraft
[ONERA-TP-629] 02 p0187 A69-11622

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
[SAE PAPER 680691] 03 p0496 A69-13446

High bypass turbofan design, discussing JT9D engine combustion, materials and cooling
05 p0811 A69-15552

Titanium alloys role in turbofan and turbojet engine design, noting use in components and introduction in manufacturing techniques
[ASM PAPER D8-26.4] 07 p1143 A69-19673

Three shaft turbofan engines for 1970s noting thermodynamic and propulsive efficiencies, fuel consumption, weight, noise reduction, etc
08 p1376 A69-20627

Dual-rotor high-bypass-ratio CF6 turbofan engine design and development programme and growth
08 p1377 A69-21163

Fan compressor noise reduction indicating effects of design, number of blades, vane/blade ratio, aerodynamic parameters and blade spacing
[ASME PAPER 69-GT-9] 09 p1571 A69-22505

High bypass ratio compound fan shaft engine design and performance for convertible rotary wing aircraft
[ASME PAPER 69-GT-51] 09 p1572 A69-22511

JT15D business aircraft turbofan engine, discussing low costs and fuel consumption, maintenance, reliability, installation, etc
[ASME PAPER 69-GT-119] 09 p1572 A69-22524

Turbofan engines augmentation, evaluating duct heater, bluff body stabilizers, piloted can combustors, flameholding techniques and afterburner tests
09 p1573 A69-22617

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
13 p2324 A69-27331

Thrust balance for scale model of powered nacelle fan jet engine from drag analysis in wind tunnel, deriving fan nozzle velocity coefficient
13 p2199 A69-27446

Spey 512 turbofan and RB.162 booster turbojet engines for Trident 2E and 3B power plant
13 p2325 A69-27975

Turbofan engines impact on aircraft engineering development emphasizing large performances, high fan flow rates and low fuel consumption
15 p2550 A69-30322

CF6 turbofan engine technology program for improvement in performance, weight, durability, noise, etc
[SAE PAPER 680691] 16 p2837 A69-32367

Systems approach in turbofan engine design acoustic evaluation, discussing noise sources and radiation patterns
[AIAA PAPER 69-491] 16 p2839 A69-32667

JT8D turbofan engine composite fan blades design and fabrication methods using aluminum-Borsic fiber, noting direct and indirect weight reduction
[AIAA PAPER 69-465] 16 p2842 A69-32698

Propulsion power plant arrangements for rotary aircraft with thrust producer for forward flight, considering convertible fan/shaft engine configurations
[AHS PAPER 333] 17 p3021 A69-33529

Steady state and dynamic distortion influence on performance and stall of turbofan engine, discussing compressor instrumentation, tests and simulation data
18 p3185 A69-35175

Pressure sensors, strakes, removal of full length guide vanes indicate possible difficulties with thrust of NK-8-2 turbofans in Tu-154
19 p3395 A69-36757

Rolls-Royce RB.211 turbofan engine development, discussing three shaft design, engine performance, testing program, etc
20 p3640 A69-37927

Blast angle effect on fanjet gas dynamics in crosswind, using equations for free lateral flow trajectories and reverse flow regions
21 p3850 A69-38863

Turbofan engine influence on civil transport aircraft design as function of thrust, discussing engine ratings, number of engines, APU and thrust engine
22 p3862 A69-39961

Building block approach to turbofan engine design, discussing fuel consumption, noise and component research
[RAES PAPER 14] 22 p3999 A69-40493

Ignition of aircraft fluids leaked onto hot turbofan engine surfaces, considering cooling air direction, surface temperature, nacelle engine compartment ventilation, engine power, etc
[SAE PAPER 690436] 23 p4200 A69-41653

Engine fuel and geometry control design for large high bypass aircraft turbofan engines used for airbus powering
[SAE PAPER 690403] 23 p4201 A69-41659

Turbofan jet engine research, discussing future compression and bypass ratios, weight and noise reduction, maintenance and reliability, temperature effects, etc
24 p4363 A69-42569

Engine design program for TF34-GE2 high bypass ratio turbofan military aircraft engine, outlining estimating procedures for thrust, fuel consumption and weight requirements
24 p4364 A69-43042

Monitoring devices and modular construction features of Rolls-Royce RB.211 three shaft turbofan engine, discussing maintainability
24 p4321 A69-43112

TURBOFANS
Test rig vehicle design for noise research on single stage high bypass ratio fans for quieter turbofan powerplants
[AIAA PAPER 69-492] 16 p2767 A69-32727

Axial flow fan blade row noise generation, discussing equation linearization, acoustic energy prediction and effects of flowing medium
[ASME PAPER 69-FE-12] 20 p3460 A69-37989

Large fan blade design, discussing aerodynamic design and rig test program supporting fan definition
[SAE PAPER 690387] 23 p4200 A69-41656

TURBOGENERATORS
Power generation in combat environment by tested self contained organic Rankine silent engine, discussing working fluid properties
[SAE PAPER 690062] 07 p1058 A69-18309

Secondary power sources for space applications in solar arrays, static and dynamic thermal systems, high power batteries and fuel cells, discussing NASA machinery procurement
19 p3255 A69-36323

Organic Rankine cycle system using heat absorption from turbine exhaust to provide increased electrical output and to power air conditioning
23 p4070 A69-42267

Argon turboalternator design and testing for Brayton cycle space power system, discussing inlet operating temperature and shaft bearings and rotation
23 p4071 A69-42279

TURBOJET AIRCRAFT
U JET AIRCRAFT
TURBOJET ENGINE CONTROL
Turbojet engine open and closed loop boundary control systems performance during maximum penetration of prohibited operating area induced by HF external disturbances
[AIAA PAPER 69-543] 16 p2841 A69-32681

Fluidic sensors for jet engine control, analyzing convergent divergent nozzles, vortex and acoustic oscillators for pressure and gas temperature measurements
[AIAA PAPER 69-542] 16 p2843 A69-32699

Fluidic thrust reversal control system for turbojet achieving cost and weight reduction, illustrating fluidic circuit and noting circuit reliability
17 p3018 A69-33329

Concorde Olympus 593 engines electronic control and adjustment devices
19 p3395 A69-36706

Fluid amplifiers for gas turbojet engines control, discussing hydraulic control and relationship between turbine rpm, fuel consumption and operating temperature
20 p3585 A69-36944

TURBOJET ENGINES

Vitiated inlet air effects on J60-P-6 turbojet engine performance at sea level for various simulated flight Mach numbers
01 p0143 A69-11063

Aircraft and engine parameters for maximum theoretical range of turbojet for given cruising speed
03 p0366 A69-12950

Soviet book on turbojet engine reverse thrust systems and systems for deflection of jet stream covering aircraft braking efficiency
04 p0647 A69-14934

Titanium alloys role in turbofan and turbojet engine design, noting use in components and introduction in manufacturing techniques
[ASM PAPER D8-26.4] 07 p1143 A69-19673

Statistical techniques to develop nickel base superalloy with high temperature capabilities for jet engine turbine bucket applications
08 p1329 A69-20001

Firebee 2/BQM-34E/ turbojet-propelled recoverable supersonic aerial target construction, performance prediction and missions
09 p1434 A69-21901

Fluorine light-off detector /FLOD/ for sensing and indicating minimum light-off or blow out conditions in turbojet engine afterburner
[ASME PAPER 69-GT-36] 09 p1501 A69-22488

Fuel concentration effect on turbojet engine reheat jet pipe vibrations via tests
09 p1573 A69-22616

Concorde SST turbojet engine integrated assembly consisting of air inlet, gas generator, reheater and convergent-divergent nozzle
12 p2147 A69-26357

Blade material temperature variation observed in turbojet engine during air bleed of varying intensity and duration
13 p2325 A69-27444

Spey 512 turbofan and RB.162 booster turbojet engines for Trident 2E and 3B power plant
13 p2325 A69-27975

Equipment and test installations for turbojet noise studies, discussing noise from rotating parts, pure jet noise and air propagation of noise
13 p2325 A69-28589

Tungsten alloy fiber reinforced nickel base alloy composites stress-rupture strength, oxidation and impact resistance for high temperature turbojet engine buckets
14 p2462 A69-29010

Flight velocity changes from sonic to supersonic through turbojet/ramjet combination possibility
17 p3020 A69-33348

Propulsion performance of XB-70A aircraft calculated by gas generator method
[AIAA PAPER 68-594] 20 p3461 A69-37152

Monograph on jet turbine with small hub ratio for cases of complete and partial admission, considering masking effects, flow measurements, etc
20 p3586 A69-37924

Simultaneous passage of two unmixed gas flows through joint two circuit turbojet nozzle into ambient medium
21 p3785 A69-39094

Thrust increase methods for air breathing turbojet engines analyzed with respect to effectiveness, taking into account environmental supporting mass and fuel expenditures
23 p4199 A69-41578

Rolls-Royce-Bristol/SNECMA M45H medium power turbojet for VFW 614 aircraft
24 p4363 A69-42566

NT COMPRESSOR BLADES
NT ROTOR BLADES [TURBOMACHINERY]
NT STATOR BLADES
NT TURBINE BLADES

Axial flow turbine blade cascade in transonic flow
03 p0365 A69-14103

Blade oscillations in cascade flow of axial turbomachinery calculated as function of pitch ratio, stagger angle, angle of attack and camber
[ASME PAPER 68-FE-7] 05 p0837 A69-16069

Bending-torsion mode of rotating tapered twisted turbomachine blade, analyzing coupled flexural and torsional vibrations effect on natural frequency
[ASME PAPER 68-WA/GT-6] 05 p0838 A69-16141

Resonant frequencies, vibration modes and stress distributions for naturally vibrating plane wide blades of turbomachines
08 p1376 A69-20764

Initial turbulence influence on wakes formed behind trailing edges of cascade blades
09 p1431 A69-22235

Diakoptics applied in combination with perturbation method to determine natural frequencies of turbine buckets coupled by tie wires and/or cover
[ASME PAPER 69-VIBR-57] 10 p1804 A69-24151

Tungsten alloy fiber reinforced nickel base alloy composites stress-rupture strength, oxidation and impact resistance for high temperature turbojet engine buckets
14 p2462 A69-29010

Flow through turbine stage with inclined guide vanes at moderate Mach numbers, discussing exit blade angle formula for swept cascades
15 p2547 A69-30570

Turbomachinery two mode blade vibrations with emphasis on aerodynamic damping, noting shifts in natural frequencies
[ONERA-TP-678] 16 p2733 A69-32333

Turbomachinery aerodynamics, discussing secondary flow in blading and digital computer applications to annulus flow field
18 p3086 A69-34925

Turbomachine blade thickness effect on meridional flow disturbances analyzed through blade geometry using differential equations
20 p3457 A69-37084

TURBOMACHINERY

NT AXIAL FLOW TURBINES
NT CENTRIFUGAL COMPRESSORS
NT CENTRIFUGAL PUMPS
NT GAS TURBINES
NT SHROUDED TURBINES
NT STEAM TURBINES
NT SUPERSONIC TURBINES
NT TURBINE PUMPS
NT TURBINES
NT TURBOCOMPRESSORS
NT TURBOFANS
NT TURBOGENERATORS
NT TWO STAGE TURBINES

Turbomachinery research, discussing two and three dimensional incompressible flow in cascades near end wall and in rotating machines
05 p0751 A69-16534

Flow in impellers of mixed and radial flow compressors for jet engines, turbochargers and automotive gas turbines, discussing velocity, load distribution, etc
[SAE PAPER 690333] 07 p1049 A69-18312

Three dimensional flow field of incompressible fluid with purely axial development in conical ducts and turbomachines
09 p1480 A69-21597

Axisymmetric flow theory for turbomachine of non-free vortex design in distributed equilibrium state, considering boundary conditions and blade leading edges
[ASME PAPER 69-GT-10] 09 p1432 A69-22504

Turbomachinery multiple pure tone noise associated with acoustic resonance of inlet cavities examined by narrow band filter tracking integer multiples of rotative speed
[ASME PAPER 69-GT-2] 09 p1572 A69-22509

Incompressible axisymmetric flow in turbomachines, analyzing flow field and velocity distribution
10 p1631 A69-22910

Turbomachinery buffer seals, buffer gas regulation and cleanup systems for operation of closed Brayton cycle power conversion system with gas cooled nuclear reactor
13 p2268 A69-27367

Turbomachinery aerodynamics, discussing secondary flow in blading and digital computer applications to annulus flow field
18 p3086 A69-34925

Compressible fluid flow characteristics in turbomachine stage, discussing simplified radial equilibrium method as basis for design
21 p3643 A69-38457

Turbomachinery periodic structures design to improve tolerance to inflow distortion and resonant oscillatory flows, considering large amplitude pressure waves propagation
[SAE PAPER 690388] 23 p4201 A69-41666

TURBOPROP AIRCRAFT

NT AN-24 AIRCRAFT
NT C-130 AIRCRAFT
NT CL-84 AIRCRAFT
NT E-2 AIRCRAFT
NT OV-10 AIRCRAFT
NT XC-142 AIRCRAFT

Technological evolution of turboprop propeller powered tilt wing V/STOL aircraft, discussing XC-142A, CL-84 and VZ-2 aircraft
05 p0701 A69-15564

Czechoslovak L-400 high wing short range STOL transport aircraft powered turboprop engines, discussing passenger and cargo version
24 p4251 A69-42799

TURBOPROP ENGINES

NT T-53 ENGINE

Spectrometric oil analysis procedure /SOAP/ for predicting failure of oil wetted parts in small turboprop aircraft engines
[SAE PAPER 690325] 11 p1941 A69-24508

Molded composites application to engine components, discussing turboprop reduction gear case design using polymer matrix boron composite
[AIAA PAPER 69-466] 16 p2795 A69-32763

TURBOPUMPS

U TURBINE PUMPS

TURBOROTORS

U TURBINE WHEELS

TURBOSHAPTS

Three shaft turbofan engines for 1970s noting thermodynamic and propulsive efficiencies, fuel consumption, weight, noise reduction, etc
08 p1376 A69-20627

Face seals for jet engine mainshaft bearing compartments, emphasizing oil film and gas film seals
[ASLE FICFS PREPRINT 28] 15 p2620 A69-30487

Gas turbine engine shaft face seal with self acting lift augmentation preventing rubbing contact, noting disadvantages of labyrinth and conventional seals
[ASLE FICFS PREPRINT 27] 15 p2621 A69-30492

Turboshaft engines for military aircraft, discussing size, technology and environmental factors with respect to anticipated market
[AHS PAPER 331] 17 p3022 A69-33530

Rigidity of rotors with pin joints, calculating moments of inertia at connected sections of turbine shaft disks utilizing similarity concept
19 p3324 A69-35832

Rolls-Royce RB.211 turbofan engine development, discussing three shaft design, engine performance, testing program, etc
20 p3640 A69-37927

TURBOSUPERCHARGERS

U SUPERCHARGERS
U TURBOCOMPRESSORS

TURBULENCE

NT ATMOSPHERIC TURBULENCE
NT CLEAR AIR TURBULENCE
NT GUSTS
NT HOMOGENEOUS TURBULENCE
NT ISOTROPIC TURBULENCE
NT LOW LEVEL TURBULENCE

NT MAGNETOHYDRODYNAMIC

LENCE
NT PLASMA TURBULENCE

Time averaged products and squares of fluid turbulence signals at LF, using Hall effect multiplier device and integrating voltmeter
04 p0601 A69-15111

Spectral line profiles of 3 Centauri A during microdisturbance, showing turbulent velocity and metal element abundances
07 p1211 A69-18400

Electron temperatures and internal turbulence in II regions of Sagittarius arm measured by high resolution interference method
08 p1392 A69-20508

Holographic image formation through turbulent medium simulated by shower glass, noting thickness variations and prismatic light deflection effects
09 p1494 A69-21550

Active prominence during solar flare with loop-like shape of spectral line profiles, discussing turbulent velocities and limb flares
10 p1764 A69-23730

Statistical theories of turbulence applied to thermal convection between infinite slippery plates at large Prandtl number
11 p1997 A69-24283

Nonlinear integrodifferential kinetic equation for weak turbulence of resonant four wave processes, considering spectral energy density
11 p1921 A69-24290

Turbulence formation in conducting liquid at increasing Reynolds numbers, discussing cause of spontaneous magnetic field appearance
11 p1955 A69-24392

Spectral emission of active prominences, showing looplike lines during quiet phases and differences in turbulent velocities magnitude
15 p2674 A69-30510

Monograph on static pressure and turbulence in free jets and jet flames covering radial velocity oscillations with and without chemical reactions, confined jets turbulence, etc
15 p2719 A69-31190

Kovaszny spectral theory of turbulence, discussing energy spectrum decrease in viscous subrange
16 p2768 A69-31680

Airstream parameters /temperature and velocity/ of turbulence intensity in jet core at tube exit and behind grids measured by He diffusion method
16 p2771 A69-31950

Microturbulent velocities of A and F stars observed for reciprocal effective temperature range
17 p3039 A69-33720

Closure conditions for Vlasov turbulence, discussing infinite systems of equations for dynamics of statistical quantities
17 p2958 A69-34220

Vlasov turbulence exact solutions, considering closure conditions, correlation length, Lundgren hierarchy, homogeneous turbulence, etc
17 p2958 A69-34220

Plane wave scattering by semiinfinite turbulent dielectric slab, using Born approximation to develop asymptotic series for stochastic components of forward scattered field
[OSA PAPER WH-16] 18 p3174 A69-35240

Anisotropy of derivatives of transverse velocity fluctuations in grid turbulence subjected to plane deformation, determining dimensionless coefficient
19 p3299 A69-36640

Approximate expression derived for loose coupling in turbulence theory, suggesting possible explanation for inadmissibility of Kraichnan conclusion
21 p3696 A69-39080

Hydrodynamic turbulence in statistical prediction for Burger equation, considering statistical inference problem for initial conditions and prediction criterion with estimable error
21 p3697 A69-39670

Polarization fluctuations of starlight indicating turbulent structure of interstellar medium, noting pulsar signal dispersion and Faraday rotation
22 p4030 A69-40770

Turbulence formation in conducting liquid at increasing Reynolds numbers, discussing cause of spontaneous magnetic field appearance
24 p4390 A69-43780

TURBULENCE EFFECTS

Axisymmetric MHD flow in turbulence chamber at large Hartmann numbers studied for flow boundary layer effects
01 p0130 A69-10770

- Electron viscosity coefficient in weakly turbulent plasma in strong magnetic field, noting electrical and thermal conductivity
03 p0480 A69-14136
- Vortex devices and turbulence amplifiers, describing circuits, operating principles and performance
05 p0705 A69-16005
- Flow characteristics about curved lateral jet, discussing effect of pitot tube nozzle shape and turbulence
05 p0746 A69-16017
- Reciprocal interaction of combustion wave and field of turbulence, discussing aerodynamic principles, turbulence effect on flame propagation speed and measuring methods
06 p1032 A69-17420
- Time dependent model of photochemical, advective and turbulent effects on meridional ozone distribution
07 p1122 A69-18253
- Solution velocity and turbulence effects on solvent cleaning of corrosion resistant steel tubing, discussing fluidity forces and cleaning formulation
08 p1318 A69-19807
- Region of transition from laminar to turbulent flow in meteor trains, suggesting electron attachment processes to molecular oxygen in presence of third body
08 p1393 A69-20608
- Mass transfer during interfacial turbulence induced by Marangoni effect in physical model
09 p1621 A69-21903
- Stagnation point heat transfer sensitivity to free stream turbulence attributed to external vorticity, noting correlation with Prandtl number
09 p1622 A69-21905
- Initial turbulence influence on wakes formed behind trailing edges of cascade blades
09 p1431 A69-22235
- Weak magnetic field dynamics in bounded conducting medium having turbulent motion induced under zero boundary conditions
11 p1922 A69-24240
- Atmospheric turbulence effect on linear antenna gain in direction of radiation pattern maximum determined together with antenna dimensions
11 p1844 A69-24435
- Coherent optical target recognition through randomly turbulent medium for imaging system offsetting image degradation due to turbulence
11 p1894 A69-24470
- Turbulent flame propagation described by turbulence intensity and integral scale and fuel properties including laminar flame velocity and equivalence ratio
11 p1999 A69-24482
- Atmospheric turbulence effects on aircraft flight noting causes of turbulence
11 p1911 A69-24527
- Kharlamov method for influence of turbulent motion of liquid in cavity on inertial motion of body containing cavity
11 p1868 A69-24788
- Hydrodynamic instability of normal flame and turbulent combustion of gas mixtures, considering surface and volume combustion modes
11 p2000 A69-25186
- Atmospheric turbulence degradation of holographs resolution improved by geometrical optics and series-expansion methods, noting role of Gaussian and exponential refractive index structure
12 p2090 A69-26250
- Satellite position errors due to atmospheric instability, discussing altitude-temperature relation and stellar scintillation synchronism for stars at small angular distances
12 p2158 A69-26445
- Solar chromosphere and corona heat intensity above 1000 km attributed to tongues of turbulence, considering convective zone exciting MHD waves mechanism
13 p2337 A69-27549
- Monograph on sound generation by turbulence and surfaces in arbitrary motion, discussing sound and multipole fields and governing equations
13 p2247 A69-27974
- Input signal random amplitude fluctuations suppression by parametric power limiter, discussing limiting frequency determination and dependence on signal amplitude
13 p2236 A69-28573
- Initial flow turbulence effects on drag coefficient for prismatic bodies in low velocity gas flow determined by wind tunnels
14 p2391 A69-29625
- Synoptic meteorological conditions effect on stellar images vibration and on relationship between vibration and zenith distance
15 p2647 A69-30164
- Meteorological effects on anomalous radio echo determined from simultaneous aerological and radar observations, noting maximum signal amplitude during high humidity and low wind speeds
16 p2808 A69-32277
- Variable scatter mechanism in turbulent tropospheric propagation medium, employing dynamic meteorology concepts for frontal disturbances effect on scatter volume
17 p2927 A69-33856
- Laser beam propagation through turbulent medium, investigating statistical distribution of phase shift fluctuations
17 p2976 A69-33857
- Statistical analysis in inlet air flow dynamics, discussing inlet duct design and pressure variations [AIAA PAPER 68-649]
17 p2896 A69-34020
- Pressure distribution in self acting hydrodynamic journal bearings without end leakage, presenting closed form solution for nonhomogeneous Reynolds equation with turbulence considerations
18 p3139 A69-34270
- Cosmic ray intensity short term stochastic variations in solar system related to turbulent solar wind day-to-day variations
18 p3186 A69-34300
- Combustion turbulence effect on flame propagation velocity taking into account flame-generated pulsation velocity as function of temperature and flame velocity
21 p3850 A69-38861
- SST stratospheric environment problems, discussing temperature effects on fuel consumption and convective turbulence effect on flight safety and efficiency
22 p3867 A69-41141
- Galactic magnetic field origin from galactic turbulence, calculating individual Fourier components in random turbulent velocity
24 p4375 A69-42658
- Mean and variance of Faraday rotation and pulsar signal dispersion in galactic turbulent structure, applying to statistically homogeneous disk model of Galaxy
24 p4375 A69-42659
- Wavelike structure observed near tropopause with sensitive radar system, suggesting clear air turbulence as cause of breakdown of gravitational wave
24 p4342 A69-42893
- Turbulence characteristics of flow influence on critical flameout conditions of disk shaped flame stabilizer, circulation zone length and combustion efficiency by bluff body
24 p4408 A69-43078
- Index of refraction turbulent fluctuations effect on beam traversing optically active medium, discussing far field diffraction pattern and incoherent scattering [AIAA PAPER 68-683]
24 p4304 A69-43578
- Thunderstorm turbulence relationship to weather radar echoes from storm penetrations in Oklahoma by instrumented aircraft
24 p4347 A69-43720
- Thermal turbulence effects on phase fluctuations of laser beams, studying temporal decay of mean square refractive index fluctuation with fringe pattern displacements
24 p4329 A69-43754
- TURBULENCE METERS**
 - Gottingen type wind tunnel, discussing stream characteristics and turbulence measurement by hot-wire anemometer
03 p0420 A69-14238
 - Airborne IR spectrometer for remote clear air turbulence detection, noting necessity for mirror stabilization in pitch axis
12 p2098 A69-27000
 - Turbulence measurement, considering handling and storage of data
13 p2263 A69-28148
 - Turbulence measurement errors with inclined hot wires described by equations, assuming normal component cooling includes greater tangential cooling
18 p3134 A69-34442
 - Monograph on hot wire anemometer measurements of velocity and temperature turbulence, discussing flow characteristics, calibration, etc
22 p3951 A69-41256
- TURBULENT AIR CURRENTS**
 - U AIR CURRENTS**
- TURBULENT BOUNDARY LAYER**
 - Superlayer structure determination near turbulent boundary layer with zero pressure gradient, using constant temperature linearized hot-wire anemometers
01 p0061 A69-10759
 - Electromagnetic fields effect on turbulent boundary layer characteristics of compressible fluid on insulating wall of MGD channel
01 p0131 A69-10777
 - Turbulent boundary layer theory, discussing effective viscosity, numerical integration, mixing length flow theory and wall jets
02 p0231 A69-11987
 - Heat transfer coefficient for spherical protuberance on plate with turbulent boundary layer [ASME PAPER 68-HT-2]
02 p0351 A69-12204
 - Turbulent boundary layer growth, pressure distributions and surface shear stresses on yawed semicircle cone [AIAA PAPER 68-98]
02 p0190 A69-12526
 - Boundary layers and heat transfers at shock tube walls, establishing approximate solution of boundary layer equation for laminar and turbulent cases [ONERA-TP-647]
03 p0412 A69-12875
 - Turbulent boundary layer reversion to laminar state associated with departures from inner law velocity distribution in presence of favorable pressure gradients
03 p0414 A69-13016
 - Asymptotic similarity in neutral barotropic planetary boundary layers, solving Ekman flow by singular perturbation methods
03 p0460 A69-13336
 - Incompressible turbulent boundary layer with near zero wall friction at circular cylinder situated longitudinally in flow
03 p0416 A69-13664
 - Equilibrium turbulent boundary layer prediction for proposed Prandtl mixing length distribution
03 p0419 A69-13992
 - Heat transfer through turbulent boundary layer on porous plate with blowing and suction, determining Stanton numbers
04 p0586 A69-14356
 - Hypersonic turbulent boundary layer in adverse pressure gradients studied for transition, measuring static/pitot pressure, stagnation temperature and heat transfer rates [AIAA PAPER 68-44]
04 p0588 A69-14716
 - Mean temperature distribution through inner and outer regions of turbulent boundary layer with injection through heated porous wall
04 p0685 A69-14729
 - Turbulent transport of energy in atmospheric boundary layer near earth surface resulting from forced convection
04 p0627 A69-15087
 - Incompressible turbulent boundary layers in channel flow using constant temperature hot-wire anemometer, emphasizing measurement in viscous sublayer [ASME PAPER 68-FE-26]
05 p0747 A69-16066
 - Incompressible turbulent boundary layer properties with arbitrary pressure gradient calculated by integral method resulting in single equation for skin friction coefficient [ASME PAPER 68-WA/FE-22]
05 p0749 A69-16098
 - Inlet velocity profiles distortion effects on flow regimes and performance in two dimensional diffusers with turbulent boundary layers [ASME PAPER 68-WA/FE-25]
05 p0698 A69-16100
 - Heat transfer in accelerated turbulent boundary layer between converging planes with varying wall temperature and decreasing Stanton number [ASME PAPER 68-WA/HT-13]
05 p0847 A69-16120
 - Uniform hot fluid injection effect on heat transfer in constant property turbulent boundary layer [ASME PAPER 68-WA/HT-24]
05 p0847 A69-16126
 - Incompressible two dimensional turbulent boundary layers calculated on phenomenological basis
06 p0908 A69-17133
 - Compressibility transformation theory extended for turbulent boundary layer, involving mass transfer with/without chemical reactions [AIAA PAPER 69-161]
06 p0912 A69-18045
 - Transformation theory for compressible turbulent boundary layer with arbitrary pressure gradient [AIAA PAPER 69-160]
06 p0912 A69-18073
 - Separation of subcritical and supercritical compressible turbulent boundary layers under strong pressure gradients using method based on integral equations [AIAA PAPER 69-34]
06 p0912 A69-18077

Nose cone reentry simulation under low temperature subliming ablaters, discussing dry ice, camphor and steel calibrations models fabrication, instrumentation and boundary layer measurements
[AIAA PAPER 69-152] 06 p0929 A69-18098

Turbulent boundary layer loading function for use with finite element structural analysis system applied to elastic aircraft structures random vibration
[AIAA PAPER 69-20] 06 p0914 A69-18132

Finite plate length effect on two dimensional supersonic turbulent boundary layer with large distributed surface injection
[AIAA PAPER 69-162] 06 p0864 A69-18138

Analytical model developed from turbulent shear flow study, discussing Reynolds number effect
[AIAA PAPER 69-163] 06 p0914 A69-18139

Superlayer structure in turbulent boundary layer without pressure gradient, using constant temperature linearized hot wire anemometers
07 p1118 A69-18299

Base pressure calculation in initial turbulent boundary layer of supersonic flow about two dimensional backward facing step, using mass conservation conditions
07 p1119 A69-18747

Turbulent boundary layer in presence of longitudinal pressure gradient
07 p1122 A69-19735

Analytical model for compressible MHD boundary layers formulated by transport equations for turbulent fluctuations of species mass density, velocity and temperature
08 p1366 A69-20786

Electric arc interaction with turbulent boundary layer in vortex stabilized plasmatron, noting variation in arc intensity
09 p1545 A69-21432

Highly turbulent boundary layers on walls in channels using laser light sources
09 p1515 A69-21434

Acceleration effects on forced convection in turbulent boundary layer, noting heat transfer history and rates prediction
09 p1480 A69-21480

Computer study of analytical model of boundary layer transition from laminar to turbulent flow
[AIAA PAPER 68-38] 09 p1482 A69-21945

Constant property turbulent boundary layer flow, developing finite difference solution for prediction of velocity profiles and skin friction coefficient
09 p1482 A69-21950

Mean shear in wall region and outer region of constant pressure turbulent boundary layer
09 p1482 A69-21967

Local heat transfer coefficients in oscillating turbulent boundary layer over flat plate
[ASME PAPER 69-GT-34] 09 p1623 A69-22490

Wall temperature and Prandtl number effects on turbulent boundary layer thicknesses and shape factors for subsonic compressible gas flow over flat plate
[ASME PAPER 69-GT-55] 09 p1432 A69-22513

Velocity profiles of turbulent boundary layers with constant and variable pressures using Cole formulation
09 p1484 A69-22780

Heat transfer at plate in hydrodynamically stabilized turbulent boundary layer region, obtaining formulas for calculating transfer coefficients
10 p1809 A69-23427

Turbulent boundary layers on flat wall of supersonic wind tunnel, determining velocity profiles, thicknesses and skin friction coefficients
10 p1680 A69-23643

Unsteady baroclinic planetary atmosphere boundary layer turbulent states with various pressure and temperature gradient distributions, using boundary layer model
10 p1722 A69-23973

Flat decelerating cascades boundary layer in compressible flow during change in axial flow-density ratio and upstream turbulence
11 p1818 A69-24639

Turbulent boundary layer velocity distributions in uniform/accelerated compressible flow over flat plate, using change of variables based on mixing length formula
[ONERA-TP-693] 11 p1867 A69-24752

Turbulent flow problems, discussing hot-wire techniques, viscosity effect, compressibility surface curvature, turbulent boundary layers, heat transfer, etc
11 p1871 A69-25017

Fluid mechanics shock wave interaction with turbulent boundary layers at transonic to high supersonic speed ranges, noting examples in aviation
11 p1871 A69-25018

Velocity distributions and skin friction coefficients in turbulent boundary layers over flat plate with injection or suction through porous wall
11 p1871 A69-25027

Reverse transition in two dimensional accelerated incompressible turbulent boundary layer flow, noting skin friction coefficient and turbulent intensity profiles
11 p1872 A69-25129

Streamwise pressure gradient effect on velocity profile in viscous sublayer of two dimensional turbulent flow along smooth wall
11 p1872 A69-25131

Turbulent boundary layer in lower atmosphere downwind of abrupt change of surface roughness, determining surface shear stress and roughness height
12 p2125 A69-26014

Wall pressure fluctuations due to turbulent boundary layer flow, calculating statistical properties
[AIAA PAPER 68-642] 13 p2244 A69-27246

Suction effects on shockwave-turbulent boundary layer interactions at compression corner leading to reductions in upstream influence
13 p2244 A69-27326

Displaced layer thickness dependence on air injection parameters measured in wind tunnel
13 p2245 A69-27385

Turbulent boundary layer sound emission effect on elastic plate, discussing pressure pulsation spectrum reflection
13 p2246 A69-27538

Velocity and temperature profiles in gaseous turbulent boundary layer above liquid surface used to study liquid film cooling heat transfer
13 p2375 A69-27792

Vortices interaction effect on vertical turbulent heat flow in atmosphere boundary layer, determining dependence of vortex mean vertical temperature gradient
13 p2293 A69-27841

Axisymmetric hypersonic wind tunnel nozzle design by determining inviscid contour and correcting for turbulent boundary layer growth
[AIAA PAPER 69-337] 13 p2200 A69-28273

Convective heat and mass transfer in binary turbulent vertical boundary layer
13 p2378 A69-28311

Monograph on velocity distribution function in turbulent boundary layer, discussing hot wire anemometer for mean velocity, turbulence intensity and higher order moments determination
13 p2250 A69-28336

Ammonia gas diffusion from line source in turbulent boundary layer, discussing concentration profile discrepancy due to eddy diffusivity and plume shear
13 p2250 A69-28343

Flat plate turbulent boundary layer, noting Navier-Stokes equations solutions and formation of rotations to determine velocity field
13 p2251 A69-28632

Flow structure in conical shock wave-sharp flat plate interaction zone in supersonic flow, noting turbulent boundary layer before separation
14 p2428 A69-28897

Thermal shielding effectiveness of flat wall behind tangential blowing slit, considering case of quasi-isothermal homogeneous turbulent boundary layer
14 p2537 A69-28971

Temperature disturbance amplification in laminar natural convection boundary layer formed on vertical flat surface measured with hot-wire anemometers
14 p2430 A69-29575

Turbulent boundary layer in corner, measuring velocities, wall shear and turbulent normal stresses by employing momentum integral and similarity analyses
14 p2431 A69-29576

Turbulence constant for flows near walls, analyzing viscosity dependence on wall distance by utilizing maximum stability principle
15 p2590 A69-30048

Incompressible two dimensional turbulent boundary layer equations with arbitrary pressure distribution solved by weighted residual method
[AIAA PAPER 69-397] 15 p2591 A69-30478

Turbulent boundary layers behavior near flow separation, obtaining equations for equilibrium layers
15 p2591 A69-30638

Maximum turbulent stress in turbulent two dimensional boundary layers leading to general stress law, designing experiment to confirm validity
16 p2769 A69-31832

Nonequilibrium plasma boundary layer along channel insulator wall, noting different electron and heavy particle temperatures
[AIAA PAPER 68-134] 16 p2821 A69-31873

Turbulent boundary layer laminarization in conical nozzle flow, measuring velocity profiles and friction coefficient
[JPL-TR-32-1407] 16 p2732 A69-31894

Density and density fluctuations in hypersonic turbulent boundary layer on shock tunnel nozzle wall measured using electron beam probe
16 p2770 A69-31909

Density and velocity fluctuations in hypersonic turbulent boundary layer based on Wallace data
16 p2770 A69-31909

Three dimensional effects on Stanton tube data for skin friction determination for small protruberances drag immersed in turbulent boundary layer
16 p2771 A69-31929

Analytical expressions validity for skin friction in compressible turbulent boundary layer over wide range of Reynolds numbers and heat transfer conditions
16 p2771 A69-31929

Laminar-turbulent transition in boundary layer over thermally decomposing surface, discussing gasification rate, Reynolds number effects, heat transfer and turbulence onset mechanism
16 p2878 A69-31950

Hybrid rockets combustion mechanism, discussing turbulent boundary layer with heat and mass transfer, chemical reactions, etc
16 p2879 A69-32002

Convective heat transfer in centrifugal force field on cavity between two rotating disks in turbulent gas flow
16 p2837 A69-32139

Mean near wake flow of adiabatic two dimensional wedge at Mach 4 with tripped turbulent boundary layers and base mass addition
16 p2733 A69-32147

Two dimensional model for analyzing turbulent separation and reattachment at blade trailing edge at supersonic speed
[ONERA-TP-678] 16 p2733 A69-32258

Conical shock wave-turbulent boundary layer interaction data obtained for adiabatic wall conditions at supersonic free stream Mach numbers, including suction effects
[AIAA PAPER 69-450] 16 p2773 A69-32754

Boundary layer trip geometry, size and location effects on position of transition at hypersonic speeds
17 p2950 A69-33249

Skin friction drag reducing high polymer solution injected into turbulent boundary layer to test effectiveness on marine vehicles
17 p2951 A69-33254

Incompressible turbulent boundary layer analysis by two region characterization for eddy viscosity, using Spalding generalized function and Prandtl free shear flow model
17 p2951 A69-33255

Noise transmission from turbulent boundary layer through flexible plate into closed cavity, emphasizing nonlinear plate stiffness and mutual interaction between plate and airflow
17 p3006 A69-33409

Gas and small particle diffusion in turbulent boundary layer of blast wave propagating over land or water, assuming logarithmic vertical velocity profile
[AIAA PAPER 69-672] 17 p2953 A69-33439

Adiabatic compressible turbulent boundary layer equations for two dimensional and axisymmetric flows discussing methods of solution based on eddy viscosity formulation
[AIAA PAPER 69-687] 17 p2955 A69-33470

Compressible hypersonic turbulent boundary layers solution by finite difference method, relating mixing length to velocity profile shape factor
[AIAA PAPER 69-684] 17 p2955 A69-33474

Chemical species flux decay in turbulent boundary layer with catalytic wall, obtaining solution of conservation equation by using shear stress distribution
[AIAA PAPER 69-709] 17 p2955 A69-33480

Adiabatic compressible turbulent equilibrium boundary layer integral method analysis extended to study nonequilibrium laminar flows, deriving dissipation integrals, presenting numerical solutions
[AIAA PAPER 69-689] 17 p2955 A69-33481

Favorable pressure gradient effect on compressible two dimensional supersonic turbulent boundary using temperature and pressure probes and shear balance
[AIAA PAPER 69-685] 17 p2956 A69-33485

Turbulent boundary layer subject to sudden pressure variation due to rapid expansion or shock wave, noting application to hypersonic ramjet air intake
[ICAS PAPER 68-42] 17 p2895 A69-33587

Turbulent boundary layer on disk rotating in free air using circumferential and radial momentum integral equations and entrainment equation
17 p2957 A69-33601

Swept wing attachment line boundary layer, measuring skin friction in full turbulence and velocity profiles with and without trip wire

17 p2958 A69-34047

Constant pressure adiabatic turbulent boundary layer characteristics measurements correlated in incompressible reference frame, using modified Mager compressibility transformation

17 p2958 A69-34051

Three dimensional incompressible wake behind blunt obstacle at leading edge of flat plate compared with mathematical model by Oseen linearization

18 p3083 A69-34403

Rough wall turbulent boundary layer development in pipe flow determined for different roughness geometries in zero and adverse pressure gradients

18 p3125 A69-35387

Microwave-plasma interaction instrumentation for supersonic channel constructed to investigate turbulent boundary layers formed over ablating heat shield materials

19 p3294 A69-35754

Heat flux densities and Reynolds potentials in turbulent boundary layer on heated flat plate with wall suction

19 p3452 A69-36722

Heuristic process for constructing similarity parameters approximation solution of laminar and turbulent boundary layers equations

19 p3301 A69-36799

Wall temperature distributions predicted in turbulent boundary layer with arbitrary pressure gradients, basing calculations on Spalding function solutions

19 p3302 A69-36853

Turbulent boundary layer problem of gas mixture motion solved by approximate methods

20 p3513 A69-37090

Turbulent boundary layer of injection gas flow calculated past surfaces with pressure gradient

20 p3513 A69-37091

Turbulent boundary layer of conducting fluids on dielectric plate in transverse magnetic field in presence and absence of pressure gradient

20 p3513 A69-37092

Turbulent boundary layer gas mixture flow incident to porous plate surface

20 p3513 A69-37093

Heat protection efficiency of plane surface in turbulent boundary layer behind tangential slots, comparing cooling effects of insulating gas films

20 p3631 A69-37095

Reynolds analogy factor approximate calculation for turbulent boundary layer with pressure gradient

20 p3514 A69-37183

External natural convection flows, studying laminar instability, transition and turbulence in boundary layer flow

20 p3633 A69-37718

Turbulent boundary layer growth predicted for adverse pressure gradients, using entrainment theory for two dimensional and axisymmetric flows [ASME PAPER 69-FE-16]

20 p3517 A69-37991

Simultaneous lateral skewing regions existence in low speed three dimensional turbulent incompressible boundary layer flow

[ASME PAPER 69-FE-24] 20 p3517 A69-37998

Turbulent boundary layer sound emission effect on elastic plate, discussing pressure pulsation spectrum reflection

20 p3518 A69-38204

Blowing effect on surface friction coefficient and heat transfer in turbulent boundary layer in compressible fluid with pressure gradient

21 p3643 A69-38636

Law of wall parameters for compressible turbulent boundary layer with air injection through wall determined by analyzing data for hypersonic speeds

21 p3692 A69-38685

Three dimensional turbulent boundary layer over flat surface in incompressible flow calculated by finite difference method based on time averaged motion equations integration

21 p3693 A69-38767

Cross correlation coefficient for submillimeter monochromatic wave amplitude and phase fluctuations in turbulent atmospheric boundary layer

21 p3674 A69-39129

Velocity and temperature distribution curves in turbulent boundary layer formed by natural convection on isothermal vertical plate, using Prandtl and Nusselt numbers

21 p3852 A69-39430

Skin friction results from free stream velocity boundary layers with varying injection and suction wall conditions, describing flow characteristics

21 p3696 A69-39431

Unsteady baroclinic planetary atmosphere boundary layer turbulent states with various pressure and temperature gradient distributions, using boundary layer model

21 p3760 A69-39659

Linear normal mode instability of three dimensional laminar and turbulent shear layers, analyzing relations between velocity profile, eddy viscosity and oscillations

22 p3932 A69-40893

Space-time behavior of random pressure field of turbulent boundary layer on plane plate surface

22 p3933 A69-41027

Distributed suction effect on boundary layer structure of water flow from turbulence measurements, determining velocity and pulsation intensity distributions

22 p3933 A69-41029

Velocity defect profile and skin friction law for incompressible equilibrium turbulent boundary layer, using mixing length relation

22 p3934 A69-41180

Atmospheric model for calculating wind velocity profile and turbulence of stable atmospheric boundary layer with given temperature stratification and pressure gradient distribution

23 p4184 A69-42489

Turbulent boundary layer at inlet section of gas blown tube based on solutions of energy and momentum equations, deriving relations for inlet section length

24 p4300 A69-43079

Boundary layer separation zones in laminar, transition and turbulent fluid flows past conical bodies with widening skirts

24 p4245 A69-43481

Heat transfer to highly accelerated turbulent boundary layer with and without mass addition, presenting data in terms of Stanton number vs Reynolds number [ASME PAPER 69-HT-53]

24 p4409 A69-43518

Heat transfer data for laminar, transition and turbulent natural convection boundary layers from water experiment on constant heat flux vertical plate [ASME PAPER 69-HT-D]

24 p4410 A69-43525

Boundary layer and heat transfer measurements for turbulent boundary layer laminarizing in conical nozzle flow with wall cooling

[ASME PAPER 69-HT-56] 24 p4303 A69-43538

Laminar-turbulent boundary layer prediction using mixing length model modified for viscous sublayer structural changes near wall compared with heat transfer data

[ASME PAPER 69-HT-13] 24 p4303 A69-43556

Air flow laminarizing turbulent boundary layer, determining velocity, turbulence intensity, temperature profiles and local heat transfer coefficients [ASME PAPER 69-HT-10]

24 p4413 A69-43558

Laminar, transition and turbulent boundary layer heat transfer measurements along wall in thermal entrance region of high temperature turbulent airflow through cooled tube

[ASME PAPER 69-HT-8] 24 p4414 A69-43560

Boundary layer equations with heat transfer for laminar and turbulent incompressible flows about two dimensional and axisymmetric flows, using finite difference method

[ASME PAPER 69-HT-7] 24 p4304 A69-43561

Rough surface skin-friction relations expanded to provide turbulent boundary layer growth prediction in pressure gradient

24 p4304 A69-43580

Mean velocity and pressure fields in turbulent boundary layer on flat plate at Mach 2 investigated for ratios of mass flow

[AIAA PAPER 68-129] 24 p4304 A69-43581

Diamond shaped striations development mechanism on ablative heat shield materials exposed to supersonic flow and turbulent boundary layers

24 p4248 A69-43598

Wake development from turbulent boundary layers on both sides of thin flat plate

24 p4249 A69-43694

Laminar sublayer thickness in compressible turbulent boundary layers with and without heat transfer

24 p4306 A69-43724

TURBULENT DIFFUSION

Euler-Lagrange relationship from equations of motion of tagged particle in turbulent velocity field consisting of random dispersive waves

01 p0121 A69-11202

Transpiration and dissipation effects on heat eddy diffusivity over two dimensional plate in turbulent flow for various Prandtl numbers

01 p0178 A69-11410

Similarity theory results for turbulent diffusion in atmospheric surface layer compared with concentration measurements from Project Prairie Grass

02 p0276 A69-12695

Plasmapause and relation to ion composition in topside ionosphere, using Bohm coefficient for turbulent diffusion

02 p0246 A69-12741

Turbulent parameter and turbulent diffusion vertical profile diurnal variations determination based on measurements of Rn 220 and thorium-B concentrations near ground

03 p0459 A69-13273

Eddy diffusivity in planetary boundary layer determined by vertical velocity spectrum

03 p0460 A69-13338

Dispersion in gel permeation chromatography, noting eddy diffusion in chromatographic columns

04 p0555 A69-14885

Stationary vertical distribution of weightless radioactive substance in surface air layer, accepting two layer exponent law for vertical turbulent diffusion coefficient

04 p0593 A69-15091

Velocity profiles and eddy diffusivities for fully developed turbulent low Reynolds number pipe flow [ASME PAPER 68-WA/FE-34]

05 p0749 A69-16107

Compressible combustor turbulent shear flow analysis, discussing eddy diffusivity, density fluctuations, vorticity intensification and turbulent transport [WSCI PAPER 68-27]

06 p0134 A69-17793

Turbulent diffusion from point source in boundary layer, discussing horizontal and vertical effects

09 p1535 A69-21513

Dynamics of turbulent motion of incompressible viscous fluid particles, using Lagrangian functions

11 p1867 A69-24536

Turbulent diffusion and Rayleigh-Taylor instability in inhomogeneous flow of combustion gases circulating through magnetic field

13 p2310 A69-28032

Ammonia gas diffusion from line source in turbulent boundary layer, discussing concentration profile discrepancy due to eddy diffusivity and plume shear

13 p2250 A69-28343

Diffusion characteristics of turbulent flow produced by square mesh grid in low speed wind tunnel

13 p2250 A69-28496

Eddy diffusivities ratio for heat and momentum by mixing length theory, using Mach-Zehnder interferometer for temperature profiles

13 p2380 A69-28497

Turbulent parameter and turbulent diffusion vertical profile diurnal variations determination based on measurements of Rn 220 and thorium-B concentrations near ground

14 p2472 A69-28781

Self diffusing substance /salt/ distribution in turbulent water flow at different Reynolds numbers by NMR, obtaining diffusion function consistent with experiments

14 p2430 A69-29424

Turbulent diffusion and ion heating in plasmas in presence of current instability

15 p2662 A69-30959

Turbulent heat and mass diffusion in catalytic reactors for hydrazine decomposition, developing computer program to calculate temperature and reactant concentration distributions

[AIAA PAPER 69-421] 16 p2846 A69-32768

Turbulent diffusion inside sun as explanation of solar spindown, Li depletion at surface and neutrino discrepancy, discussing diffusion coefficient and stellar evolution

16 p2866 A69-32814

Deflection effect on flow and mixing process in flames covering enclosed turbulent diffusion flames in combustion chamber

17 p3068 A69-32966

Gas and small particle diffusion in turbulent boundary layer of blast wave propagating over land or water, assuming logarithmic vertical velocity profile [AIAA PAPER 69-672]

17 p2953 A69-33439

Vortex diffusion in viscous compressible fluid approximated by linear differential equations

17 p2957 A69-33714

Atmospheric turbulence and impurities diffusion considered as stochastic processes, deriving equations and covariance functions for flow characteristics

20 p3570 A69-37426

Vertical turbulent diffusion and altitude distribution of radioactivity from short lived radon decay products in atmosphere

20 p3533 A69-38076

Eddy diffusion coefficients due to instabilities in internal gravity waves near mesopause
20 p3534 A69-38090

One dimensional model and equation of energy spectrum function solved in studying turbulent diffusion in fluid at rest
21 p3693 A69-38749

Turbulent Schmidt number as function of ratio between turbulent and molecular kinematic viscosities for He, carbon dioxide and normal octane eddy diffusivities
21 p3852 A69-39432

Eddy diffusivity hypothesis modified to fit observed heat transfer from smooth pipe wall to turbulent gas stream at low Reynolds numbers
[ASME PAPER 69-HT-H] 24 p4303 A69-43523

TURBULENT FLOW

NT CAVITATION FLOW

NT SUPERCAVITATING FLOW

Equation of characteristic functional for Burgers one dimensional model fluid turbulence using logarithmic expansion method, discussing change in time of energy spectrum
01 p0059 A69-10338

Turbulent heat and mass transfer in rotating incompressible fluid flow analyzed by kinetic energy and shear stress equations
01 p0060 A69-10402

Semiempirical theory of turbulent MHD tube flow at small Reynolds numbers taking into account magnetic field presence
01 p0130 A69-10769

Viscoseal sealing coefficient and friction factor under turbulent flow conditions
[ASLE PREPRINT 68AM 5B-1] 01 p0087 A69-10911

Turbulent flow between parallel plates, discussing turbulence generation by energy addition
01 p0061 A69-10993

Turbulent fluid transport properties predicted by simple model for fluid behavior, obtaining mass, momentum and energy diffusivities
01 p0177 A69-11402

Transpiration and dissipation effects on heat eddy diffusivity over two dimensional plate in turbulent flow for various Prandtl numbers
01 p0178 A69-11410

Arc discharge in axially turbulent airflow producing equilibrium air plasma
02 p0285 A69-11571

Swirl flow through single and multistage Carnot shock diffuser, analyzing relation of pressure rise and diffuser aspect ratio
02 p0230 A69-11616

Turbulent velocity in faculae and photosphere obtained from IR triplet of oxygen analysis
02 p0314 A69-11646

Linear integrodifferential motion equations for turbulent flow within Heisenberg statistical turbulence theory
02 p0230 A69-11869

Turbulent boundary layer theory, discussing effective viscosity, numerical integration, mixing length flow theory and wall jets
02 p0231 A69-11987

Turbulent gas flow characteristics obtained by extremal hypothesis, using maximum perturbation stability in formulating variational problem and computer algorithm
02 p0232 A69-12354

Algorithm for Orr-Sommerfeld equation applied to stability of laminar flow, noting profile resembling mean velocity profile of turbulent flow in flat tube
02 p0233 A69-12573

Longitudinal correlation lengths in grid turbulence air flow transport subjected to planar deformation measured from energy spectra of velocity fluctuations
02 p0192 A69-12626

Statistical model of turbulent flow confirms Kolmogoroff hypothesis of equilibrium zone at large Reynolds numbers
03 p0413 A69-12949

Fourier transform method to measure two point correlations in grid generated turbulence
03 p0419 A69-13950

Downstream secondary circulation resulting from sharp bend in fully developed turbulent pipe flow, noting departure from twin circulatory flow
03 p0419 A69-13952

Relaminarization of turbulent flow, studying velocity profiles at various axial cross sections in porous wall tube with fluid injection
04 p0586 A69-14409

Turbulent fluctuations of viscous sublayer of two dimensional flow, assessing wall shear stress spectrum
04 p0587 A69-14544

Reattachment pressure correlated for any type of two dimensional turbulent supersonic separated flow
04 p0588 A69-14727

Ideal plane incompressible fluid flow past airfoil noting hydrodynamic effects, assuming presence of constant eddy
04 p0589 A69-14996

Taylor scales in grid turbulence subject to deformation, noting second order moments of velocity fluctuation power spectra and velocity fluctuation derivatives
04 p0590 A69-15054

Nondirectional probe for mean velocity measurement in turbulent flow, determining reduced velocity profiles in interior of free flow
04 p0600 A69-15056

Turbulent flow transfers from applications point of view, noting example of cooling of heated wall
05 p0743 A69-15558

Sting diameter and cylindrical protuberance length effects on base pressure of axisymmetric body in turbulent supersonic flow
05 p0697 A69-15712

Micro and macroturbulent motions velocity in solar photosphere based on Fraunhofer lines analysis
05 p0823 A69-16014

Real liquid turbulent flow of two parallel eddy streams between two parallel walls with given periodic roughness
05 p0747 A69-16034

Turbulent free shear layers in isoenergetic flow, correlating theory and experiment
[ASME PAPER 68-FE-9] 05 p0748 A69-16077

Thermal entry problem solution for low Reynolds number turbulent gas flow based on Reynolds number dependent velocity profile
[ASME PAPER 68-WA/FE-11] 05 p0748 A69-16090

Velocity profiles and eddy diffusivities for fully developed turbulent low Reynolds number pipe flow
[ASME PAPER 68-WA/FE-34] 05 p0749 A69-16107

Static pressures, profiles of local longitudinal velocity, fluctuating wall pressures and power spectra of wall pressures measured for subsonic turbulent flow
[ASME PAPER 68-WA/FE-36] 05 p0750 A69-16109

Heat transfer in turbulent pipe flow of radiating optically thin gas in circular tube
[ASME PAPER 68-WA/HT-17] 05 p0847 A69-16121

Simultaneous natural and forced convection flow around wall, analyzing perturbations of hydrodynamic elements due to obstacle
06 p1030 A69-17095

Particle velocity measuring technique for two phase turbulent flows, using laser and Fabry-Perot interferometer
06 p0933 A69-17252

Hot gas flows turbulence linear component intensity and frequency spectrum using optical measurement of pulse velocities
06 p0926 A69-17540

Gaseous film cooling at various hot gas acceleration rates and free stream turbulence levels
06 p1033 A69-17557

Compressible combustor turbulent shear flow analysis, discussing eddy diffusivity, density fluctuations, vorticity intensification and turbulent transport
[WSCI PAPER 68-27] 06 p1034 A69-17793

Mixing and combustion of gaseous and particle laden jets in air stream, analyzing turbulent, coaxial and jet mixing flows
[AIAA PAPER 69-33] 06 p1038 A69-18146

Turbulent skin friction on compliant skins stretched over damping fluid in shallow bath in flat plate
[AIAA PAPER 69-164] 06 p0914 A69-18163

Free stream turbulence influence on stagnation zone heating in arc heated hypersonic facilities, obtaining stagnation point heating rates
[AIAA PAPER 69-167] 06 p1039 A69-18198

Similarity functions defined for laminar or turbulent separation in nonuniform supersonic flow
[ONERA-TP-659F] 07 p1050 A69-18417

Radiative-convective heat transfer in gray gas plane layer blown into turbulent flow past permeable plate
07 p1242 A69-18991

Spherical particle motion in vortex gas flow between planes of turbulence chamber perpendicular to axis of flow rotation, noting collisions effect
07 p1181 A69-19000

Hydraulic drag coefficient in MHD fluid flows in traveling magnetic field from motion equations for turbulent flows, considering velocity profiles
07 p1192 A69-19017

Transition boundary layer on flat plate in subsonic wind tunnel measured by hot-wire method, obtaining velocity fluctuation distribution and turbulence intensity
07 p1121 A69-19329

Laminar and turbulent stresses in plane asymmetric incompressible flows analyzed based on Boussinesq formula for turbulent shear stresses
07 p1121 A69-19330

Microwave scattering by turbulent plasma column noting effects of plasma density
07 p1194 A69-19411

Spectrum of light scattered by particles suspended in turbulent fluid
07 p1157 A69-19417

Analytical solution for plate velocity statistics of turbulent-flow-excited rectangular flat plate, discussing vibration excitation
07 p1236 A69-19461

Plasma heating dynamics by straight turbulent discharge current influenced by initial plasma parameters
07 p1195 A69-19592

Turbulent incompressible MHD flow between two parallel smooth plates in transverse magnetic field, determining magnetic Reynolds number
07 p1195 A69-19736

Film boiling of subcooled liquid nitrogen in turbulent flow tubes, using one dimensional mathematical model of rod-flow regime
07 p1243 A69-19737

Turbulent flow effect on heat transfer in supersonic jet with plane infinite obstacle perpendicular to jet axis
07 p1243 A69-19738

Semilogarithmic law of velocity and temperature for turbulent flow in circular channel, examining analogy between momentum and energy transfer
08 p1420 A69-19877

Homogeneous turbulent gas flame front location as function of calorific value of mixture and flow velocity
08 p1420 A69-19998

Kerosene droplets combustion stability studied by motion pictures, discussing pressure, temperature and O concentrations effects in turbulent carbon dioxide flow
08 p1421 A69-20345

Jet flow and wakes in external stream and tailored pressure gradients, deriving similarity solutions for boundary layer equations
08 p1252 A69-20782

Bounds on mass and momentum transport by turbulent flow between parallel plates derived for Couette and Poiseuille flows
08 p1305 A69-20840

Spatial distribution of velocity, spatial correlation and ergodicity of turbulent flow, using spectrum of intensity fluctuations of scattered laser light
09 p1493 A69-21491

Momentum and energy transfers analogy in turbulent convection fluid flow emphasizing difficulties in case of liquid metals
09 p1480 A69-21687

Mass transfer during interfacial turbulence induced by Marangoni effect in physical model
09 p1621 A69-21903

Flow visualization tracer for quantitative measurements for laminar and turbulent flow, discussing mean velocity and shear stress
09 p1495 A69-21911

Turbulent flow of viscous nonNewtonian fluids in smooth pipes, noting effects of viscous stresses
09 p1481 A69-21929

Boundary layer suction sound emission, analyzing turbulent flow past elastic plate with reinforced slots performing flexural and torsional vibrations
09 p1483 A69-22638

Turbulent transport processes mathematical model, determining upper and lower bounds
10 p1677 A69-22895

MHD boundary layer nonlinear instability, treating laminar to turbulent flow transition as reversible process
10 p1734 A69-23452

Base drag effects on maximum lift drag ratio airfoils determined for moderate supersonic laminar and turbulent flows
10 p1633 A69-24060

Velocity profiles of turbulent plasma flow in circular tube during application of longitudinal homogeneous magnetic field
11 p1922 A69-24234

- Convection heat transfer and flow in rotating bodies, discussing laminar, turbulent and mixed flow in cones and disks, spheres and cylinders
11 p1998 A69-24459
- Turbulent flame propagation velocity in homogeneous premixed combustible gas, using one dimensional inviscid flame model
11 p1998 A69-24473
- Turbulent flow velocity field evolution in presence of random forces using equation of motion
11 p1867 A69-24628
- Kharlamov method for influence of turbulent motion of liquid in cavity on inertial motion of body containing cavity
11 p1868 A69-24788
- Buoyancy in turbulent shear flow, rotation or streamline curvature effects and meteorological parameters, drawing formal exact algebraic analogy
11 p1870 A69-24894
- Turbulent flow problems, discussing hot-wire techniques, viscosity effect, compressibility surface curvature, turbulent boundary layers, heat transfer, etc
11 p1871 A69-25017
- Hot wire and hot film anemometers for measuring turbulence in MHD flow noting applications in flowing mercury
11 p1886 A69-25087
- Forced heat convection in steady turbulent air flow in circular cross sectioned tubes, noting laminar sublayer in wall regions
11 p2000 A69-25096
- Streamwise pressure gradient effect on velocity profile in viscous sublayer of two dimensional turbulent flow along smooth wall
11 p1872 A69-25131
- Criteria for reversion of turbulent to laminar flow /reverse transition/ as special cases of Reynolds number criterion, noting boundary layer properties role
11 p1873 A69-25134
- Turbulent viscosity and thermal conductivity coefficients for entire cross section of fluid flow including wall boundary layers
11 p1873 A69-25228
- Direction of maximum turbulent vorticity in turbulent shear flow, determining alignment
11 p1874 A69-25282
- Model evolution of flow in fluid layer suddenly heated from below at Rayleigh number convection sufficient for turbulence
11 p1874 A69-25351
- Aircraft vortex wake development prediction for turbulent flow noting vortex size, strength and peak tangential velocity
11 p1819 A69-25377
- Skin friction coefficient relation to pressure distribution in turbulent flow and development of momentum thickness along flow
11 p1819 A69-25385
- Friction coefficients for turbulent flow through smooth pipes, considering average and friction velocities relations, fluid velocity measurements and flow Reynolds number
11 p1874 A69-25429
- Transverse pulsating motion of spherical particle in turbulent flow, considering differential equation of motion transformation
11 p1876 A69-25489
- Iterative solutions of nonlinear integrodifferential dynamical equation for two point velocity correlation tensor in incompressible fluid turbulence studies
12 p2062 A69-26602
- Book on negative turbulent viscosity theory covering laboratory analysis and applications to earth and solar atmospheres, oceanic circulations, spiral galaxies and solar nebula
12 p2131 A69-26868
- Turbulent fluid flow analysis described by Navier-Stokes equations, introducing asymmetric tensors for anisotropic cases
13 p2297 A69-27289
- Incompressible conducting fluid turbulent flow velocity distribution in transverse magnetic field at small magnetic Reynolds numbers and constant MHD interaction frequency
13 p2246 A69-27498
- Laminar-turbulent transition in MHD channel in transverse and longitudinal magnetic fields, discussing Reynolds equation for large Hartmann numbers
13 p2307 A69-27500
- Perturbations stabilization in electrically conducting fluid by distributed automatic control system, determining feedback operators via boundary value problem
13 p2311 A69-28105
- Turbulent flow in circular tube and parallel plate channel, considering molecular viscosity and duct shear stress variation
13 p2248 A69-28131
- Heat and mass transfer in two dimensional turbulent free shear flows including separated and reattached flows
13 p2377 A69-28145
- Supersonic boundary layer acoustic characteristics measured in wind tunnel on cylindrical model with several forebody configurations
[AIAA PAPER 69-344] 13 p2249 A69-28279
- Supersonic Preston tube correlations for Mach number and Reynolds number effects on hypersonic turbulent skin friction on adiabatic surfaces, simplifying correlation
[AIAA PAPER 69-345] 13 p2249 A69-28280
- Kolmogorov-Prandtl turbulence energy hypothesis extended from turbulent region of one dimensional flow to laminar sublayer, obtaining numerical solutions for Couette flow
13 p2250 A69-28339
- Turbulent burning velocity definition for one dimensional turbulent flow and average flame orientation perpendicular to flow direction, discussing transient flames in turbulent environment
13 p2379 A69-28452
- Diffusion characteristics of turbulent flow produced by square mesh grid in low speed wind tunnel
13 p2250 A69-28496
- Temperature factor effect on transition from laminar to turbulent flow in boundary layer of plate
13 p2251 A69-28558
- Ideal compressible fluid motion and heat transfer, noting convective heat transfer intensification with increased twisting velocity of flow
13 p2251 A69-28559
- Model equation for Reynolds stress in turbulent two dimensional shear flow
14 p2428 A69-29000
- SNR improvement during low level turbulence measurements, examining correlation between hot-wire anemometers, including error analysis
14 p2446 A69-29018
- Thermal entry problem solution for low Reynolds number turbulent gas flow based on Reynolds number dependent velocity profile
[ASME PAPER 68-WA/FE-11] 14 p2430 A69-29446
- Energy transport between vortices in turbulent flow calculated from vortex stability study
14 p2430 A69-29508
- Acoustic sounding of atmospheric structure, utilizing energy backscattered from temperature fluctuations in turbulent regions
14 p2448 A69-29527
- Unsteady jet viscous fluid flow under pulse variations based on Prandtl equations, showing turbulent motion analogy
14 p2432 A69-29608
- Water-air interface models unreliability in calculating atmospheric heat and humidity turbulent flow over ocean
14 p2443 A69-29839
- Turbulent Hartmann flow between planes in perpendicular magnetic field including flow velocity profile measurements
14 p2500 A69-29908
- Electrical conductivity ratio of weakly ionized turbulent gas to quiescent gas as function of electron temperature
14 p2502 A69-29991
- Axial and radial turbulence intensities for flow through smooth round tubes, measuring velocity profiles and drag coefficients
15 p2590 A69-30003
- Reynolds number, incident flow turbulence and interblade channels roughness effects on friction losses in axial flow turbines
15 p2547 A69-30074
- Wiener-Hermite expansion extended to include time dependent ideal random functions, discussing application to shear flow turbulence
15 p2644 A69-30201
- Turbulent gas flow characteristics obtained by extremal hypothesis, using maximum perturbation stability in formulating variational problem and computer algorithm
15 p2590 A69-30263
- Spiral grooved turbulent screw seal /viscoseal/ analysis, combining results of spiral grooved journal bearing study with turbulent fluid film theory
[ASLE FICFS PREPRINT 32] 15 p2619 A69-30482
- Turbulent heat and momentum fluxes spectra measured in atmospheric ground layer, describing changes as function of height and stratification conditions
15 p2649 A69-30648
- Transport properties interrelationship in turbulent pipe flow and free turbulence
15 p2591 A69-30792
- Rate equation for effective turbulent viscosity variations, considering effects of generation, convection, diffusion and decay in quasi-parallel shear flows
15 p2591 A69-30905
- Pressure fluctuation relaxation model to close turbulent distribution function equations at one point level, solving equation for rectilinear flows and periodic wake decay
15 p2591 A69-30906
- Temperature distributions in layer with internal heat source and turbulent fluid flow cooling, deriving differential heat transfer equations
15 p2718 A69-31169
- Wind tunnel investigation of turbulent gas flow heat transfer and hydrodynamic drag in variable pressure gradient field of divergent-convergent channel
15 p2548 A69-31173
- Mean velocity distribution prediction in turbulent shear flows of variable density by coordinate stretching method
[AIAA PAPER 68-41] 16 p2770 A69-31888
- Velocity field in turbulent flow based on momentum transfer, determining velocity distribution for flow near solid surface
16 p2772 A69-32128
- Initial temperature effects on flame propagation velocity in turbulent flow of homogeneous gasoline-air mixture under realistic conditions
16 p2837 A69-32138
- Swirl decay of turbulent flow in tubes, showing decrease with increasing axial Reynolds number and independence of initial swirl angle
16 p2772 A69-32170
- Subsonic diffuser design, discussing flow distortion and turbulence levels and pressure loss characteristics
[AIAA PAPER 69-449] 16 p2843 A69-32700
- Turbulent base flowfields in multinozzle configurations, considering adiabatic flow and determining base pressure distribution from reverse jet impingement
[AIAA PAPER 69-570] 16 p2733 A69-32751
- German monograph on turbulence in isothermal free jets and free jet flames covering local flow variations, Reynolds number effects, exchange processes, etc
17 p3068 A69-32991
- Transverse turbulent pipe flow, obtaining limiting behavior of time averaged velocity gradient at wall
17 p2949 A69-33013
- Temperature and pressure effects on flame propagation rates, burning time and combustion zone length in turbulent flows of homogeneous gas mixtures
17 p3069 A69-33140
- Linear amplification, nonlinear limiting and secondary instability induced by unsteady effects illustrated for various transitional flows, including roughness and streamwise vorticity
17 p2950 A69-33248
- Turbulence measurements and roughness effects on viscous drag reduction with polymer solution in pipe flow, discussing friction factor, wall velocity profile, etc
17 p2951 A69-33252
- Concentration, flow rate and tube diameter effects on viscous drag reduction in nonpolar soap solutions, using pressure drop measurements to observe turbulent flow behavior
17 p2951 A69-33253
- Eddy viscosity models adapting laminar boundary layer solution techniques to turbulent flows compared with measurements in hypersonic flows
[AIAA PAPER 69-688] 17 p2954 A69-33454
- Turbulent kinetic energy equation for determining turbulent flow fields applied to free mixing problem of constant density streams
[AIAA PAPER 69-683] 17 p2956 A69-33492
- Transverse magnetic field effect on shear turbulence structure of magneto-fluid-mechanic pipe flow with and without heat transfer
[AIAA PAPER 69-723] 17 p3012 A69-33497
- Turbulent velocity distribution and wall friction calculated from eddy viscosity distribution for concentric annulus
17 p2956 A69-33575
- Visual observation of pipe wall regions in turbulent flow by suspending colloidal size particles and photographing with high speed motion picture camera
17 p2956 A69-33598

Minimum Reynolds number and Malkus theory of turbulent channel flow, discussing stability, equilibrium flow, and stationary turbulence via variational theorem
17 p2957 A69-33764

Displacement of rectangularly mouthed pitot tubes in turbulent tube flow, determining roles of wall and shear effects
17 p2976 A69-34049

Microturbulence velocity estimation method for solar type stars using low dispersion spectra of narrow band photometry
17 p3044 A69-34178

Taylor vorticity transport theory and von Karman similarity hypothesis extended to consider three dimensional fluctuating velocity field in analyzing turbulent swirling ducted flow
[ASME PAPER 69-APM-19]
18 p3120 A69-34394

Ejector driven wind tunnel for turbulent flow generation with arbitrary velocity profile, using jet arrays
[AIAA PAPER 69-743]
18 p3114 A69-34408

Computer quadratic method of evaluating ray propagation data for estimating inhomogeneous media properties
18 p3172 A69-34667

Boundary layer transition from laminar to turbulent flow on flat plate, considering supersonic and hypersonic flow, pressure gradients, surface curvature and roughness, etc
18 p3123 A69-34920

Hydrodynamic noise as pseudosound field resulting from pressure variations in turbulent fluid flow, using Lighthill acoustic analogy
18 p3123 A69-34921

Statistical dynamics and structure of turbulent shear flows in incompressible fluids of constant density, discussing Reynolds stress at critical layers
18 p3123 A69-34922

Electrostatic probes in nonequilibrium collision dominated ionized gas flow ballistic ranges
19 p3291 A69-35716

Turbulent velocity of flame propagation in supersonic stream of hydrogen-air mixture determined by velocity distribution, exchange coefficient and burning time
19 p3448 A69-35854

Mean parameters calculation between widening of turbulent flow and point of reattachment, including similarity hypothesis concerning velocity profile
19 p3299 A69-36648

Statistical equations for compressible gas, discussing turbulent quantities separated into fluctuating and macroscopic parts
19 p3300 A69-36784

Continuous particle media on basis of microstructure, discussing granular media deformation, elastic media dilatation, turbulent flow and dilute suspensions
19 p3446 A69-36833

Reynolds number dependence of turbulent velocity profile in circular tube and parallel plate channel analyzed by von Karman similarity hypothesis
20 p3513 A69-37081

Turbomachine blade thickness effect on meridional flow disturbances analyzed through blade geometry using differential equations
20 p3457 A69-37084

Rotta analysis for linear flow transformation into turbulent flow, discussing Reynolds numbers
20 p3513 A69-37086

Stability theory formulation for evaluation of boundary layer transition from laminar to turbulent states
[AIAA PAPER 68-669]
20 p3514 A69-37184

Hydrodynamics of turbulent gas flow through powder layer for vapor phase coating of particles, noting fluidized bed
20 p3548 A69-37363

Thesis on turbulent velocity distribution and wall friction in flow channels of various cross sections
20 p3515 A69-37925

Acoustic frequency response of unsteady turbulent flow in transmission lines, considering effects of small amplitude disturbances and heat transfer
[ASME PAPER 69-FE-11]
20 p3516 A69-37988

Statistical description of turbulence of viscous incompressible fluid at large Reynolds numbers, using velocity distribution probability
20 p3517 A69-38007

Heat transfer in radial flow between two parallel plates, calculating Nusselt number for laminar and turbulent flows
20 p3633 A69-38176

Computational method for nonlinear two and three dimensional disturbances in plane parallel flows applied to transverse disturbances in plane Poiseuille flow
21 p3691 A69-38464

Heat transfer and hydrodynamic resistance for turbulent gas flow in longitudinal positive and negative pressure gradients analyzed using Reynolds number data
21 p3848 A69-38635

Energy spectra measurements of turbulent velocities behind grids of different geometries noting relation to deviation from isotropy
21 p3693 A69-38704

Liquid mercury flow turbulent intensity measured by quartz insulated Pt hot-film sensors, discussing calibration equation and measurement techniques
21 p3722 A69-38769

Analytical relations in phenomenological model theories for turbulent flow near wall
21 p3695 A69-39010

Turbulent skin friction coefficients of compliant surfaces on flat plates determined as function of speed for different materials
21 p3695 A69-39039

Diffusion parameters for fluid stream flowing from round hole with given radius and velocity into wake flow
21 p3696 A69-39091

Final period of decay for viscoelastic fluid in homogeneous isotropic turbulence, deriving expressions for double correlation function and energy decay
22 p3928 A69-39891

Turbulent Hartmann flow between rough walls in transverse magnetic field, determining field influence on resistance coefficient
22 p3989 A69-40255

Model for statistically isotropic homogeneous turbulence in incompressible fluid, representing turbulence as superposition of individual vortex sheets
22 p3930 A69-40525

Forced convection heat transfer coefficient for fully developed turbulent flow in circular tube with time-varying circumferential heat flux
22 p4051 A69-40921

Boundary layer calculation in incompressible turbulent flow with closed streamlines, avoiding von Mises equation
22 p3932 A69-40931

Heat transfer coefficient of turbulent air flow found independent of temperature head during cooling
22 p4051 A69-41026

Pulsed energy balance expressions for turbulent characteristics of incompressible circular flow in channel with inserted rotating cylinder
22 p3933 A69-41028

Charge exchange of solar wind protons passing shock front, noting turbulent subsonic motion of randomized hot solar wind protons in shadow cone
22 p4008 A69-41208

Hypersonic turbulent flow heat transfer and pressure data for flat plate containing steps and cavities obtained in hypersonic wind tunnel
[AIAA PAPER 68-673]
23 p4060 A69-41902

Boundary layer effects in turbulent spiral vortex flow of compressible fluid in supersonic centrifugal compressor, discussing flow geometry, using momentum integral method
23 p4152 A69-42109

Turbulence theory in laminar-turbulent flow transition, nonlinear stability for flows with Reynolds number higher than critical and fully developed turbulence
23 p4152 A69-42313

Turbulent flow, discussing light scattering techniques, correlation functions, statistical theory, modified Navier-Stokes equation, etc
23 p4153 A69-42314

Constant temperature thermoanemometer design and subsystem operation applied to measurements of turbulent flow velocity and pulse characteristics
24 p4311 A69-42558

Real space-time Green functions applied to turbulence induced infinite thin elastic plate vibration, analyzing mechanical dissipation effects
24 p4395 A69-42597

Axial and angular momentum flux, flow force and circulation to determine strength and structure of narrow rotating axisymmetric vortex and swirling core flows
24 p4298 A69-42598

Weak magnetic field amplification in turbulent flow with velocity field as random function of space and time
24 p4375 A69-42657

Detachment in incompressible turbulent flows around thick body analyzed to predict base pressure, vortex volume, etc
24 p4299 A69-42674

Mixing length theory including eddies axial motion, discussing turbulent field of temperature or concentration
24 p4407 A69-42917

Turbulence characteristics of flow influence on critical flameout conditions of disk shaped flame stabilizer, circulation zone length and combustion efficiency by bluff body
24 p4408 A69-43078

Symmetry properties of Cameron-Martin-Wiener kernels in isotropic velocity field, applied to one dimensional model of incompressible turbulent flow
24 p4301 A69-43358

Wiener-Hermite truncated stochastic expansion used for velocity and concentration fields in turbulent flow convecting passive scalar, determining diffusivity and spectrum function
24 p4302 A69-43359

Solution stability and secondary solutions growth beyond critical points investigation for Burgers equations for laminar-turbulent transition
24 p4302 A69-43360

Chaplygin equation applied to eddy flow past semicylindrical surface, discussing stagnation points and boundary value problems
24 p4245 A69-43477

Flow discharge characteristics of nozzle during swirling gas flow ejection, considering isentropic and isothermal limiting cases
24 p4247 A69-43499

Secondary flow occurrence and geometry in viscous turbulent flow in square channel, using iterative solution
24 p4303 A69-43501

Numerical program solving partial differential equations parabolic system for internal turbulent gas flow extended to flows undergoing circular tube laminarization by heating
[ASME PAPER 69-HT-52]
24 p4409 A69-43520

Inverse transition from turbulent to laminar flow in radial diffusers, noting nonagreement of transition point prediction methods
[ASME PAPER 69-HT-33]
24 p4247 A69-43530

Natural convection flow, discussing initial instability of laminar flow, disturbance amplification and transition to turbulent flow
[ASME PAPER 69-HT-29]
24 p4411 A69-43531

Turbulent flow in circular porous tube laminarized by uniform mass injection through tube wall, measuring velocity and turbulence intensity by impact probe
[ASME PAPER 69-HT-57]
24 p4303 A69-43537

Heat transfer and fluid friction of hydrogen and helium gas flows undergoing turbulent to laminar flow transition in heated pipe
[ASME PAPER 69-HT-54]
24 p4303 A69-43539

Turbulent pipe flow with wall suction, calculating friction factor, pressure gradient, heat and mass transfer coefficients, velocity and temperature profiles
[ASME PAPER 69-HT-4]
24 p4414 A69-43562

Superimposed free vortex swirl effect on flow and heat transfer in three dimensional axisymmetric laminar boundary layer
24 p4304 A69-43584

Turbulent skin friction on compliant skins stretched over damping fluid in shallow bath in flat plate
[AIAA PAPER 69-164]
24 p4306 A69-43685

TURBULENT HEAT TRANSFER

Turbulent heat and mass transfer in rotating incompressible fluid flow analyzed by kinetic energy and shear stress equations
01 p0060 A69-10402

Sensible and latent heat meridional transport associated with standing eddies computed from climatic mean data
04 p0627 A69-15085

Heat transfer in turbulent pipe flow of radiating optically thin gas in circular tube
[ASME PAPER 68-WA/HT-17]
05 p0847 A69-16121

Shock wave-boundary layer interaction configurations for hypersonic propulsion device inlets under transitional and turbulent conditions, noting heat transfer rate
[AIAA PAPER 69-8]
06 p0915 A69-18172

Shear stress at wall, averaged velocity field and turbulent heat transfer coefficients in straight smooth non-circular channels used to compute temperature fields
07 p1243 A69-19734

Acceleration effects on forced convection in turbulent boundary layer, noting heat transfer history and rates prediction
09 p1480 A69-21480

Turbulent heat transfer in conducting fluid flow through circular tube in longitudinal magnetic field and constant wall heat flux, using Lyon relation
09 p1621 A69-21590

Turbulent heating of toroidal plasma system with current contained in ceramic vacuum chamber with copper housing
11 p1935 A69-25752

Energy loss during turbulent plasma heating by current in open magnetic trap, attributing heating to ion-acoustic instability in plasma
11 p1935 A69-25753

Atmospheric boundary layer mean turbulence and vertical velocity calculations, tabulating layer characteristics for various turbulent heat flux and geostrophic wind velocity values
12 p2126 A69-26578

Thermal stratification effect on wind structure in Ekman layer, assuming turbulent transfer and height dependence
13 p2290 A69-27390

Heat transfer coefficients for carbon dioxide near thermodynamic critical point for flow through electrically heated duct, noting turbulent forced convection as mechanism
[ASME PAPER 68-HT-32] 13 p2373 A69-27769

Local film heat transfer coefficients variations effect on longitudinal constant area fin surface under turbulent flow
[ASME PAPER 68-HT-20] 13 p2373 A69-27770

Vortices interaction effect on vertical turbulent heat flow in atmosphere boundary layer, determining dependence of vortex mean vertical temperature gradient
13 p2293 A69-27841

Eddy diffusivities ratio for heat and momentum by mixing length theory, using Mach-Zehnder interferometer for temperature profiles
13 p2380 A69-28497

Turbulent heat exchange coefficient radiation absorption and diurnal vertical variations effects on temperature field in surface layer of sea and atmospheric boundary layer
14 p2472 A69-29462

Laminar-turbulent transition in boundary layer on thermally decomposing surface, discussing gasification rate, Reynolds number effects, heat transfer and turbulence onset mechanism
16 p2878 A69-31951

Shape and surface roughness effects on turbulent adhesion of reentry body nose tip, noting recession rate
[AIAA PAPER 69-717] 17 p2952 A69-33435

Turbulent heating of ions and electrons by interaction between magnetically collimated electron beam and electron beam self generated plasma
17 p3014 A69-33827

Convective heat flux from nonisothermal surface by temperature superimposition method with Spalding function as turbulent heat transfer coefficient, noting wall temperature
18 p3229 A69-34836

Partial differential equation representing influence of radiative and turbulent transfers of atmospheric heat, based on absorption coefficients for terrestrial radiation
19 p3363 A69-36498

Blowing effect on surface friction coefficient and heat transfer in turbulent boundary layer in compressible fluid with pressure gradient
21 p3643 A69-38636

Momentum, heat and mass transfer in turbulent channel flow emphasizing phenomena close to wall, using boundary layer growth-breakdown model
24 p4407 A69-42914

Eddy diffusivity hypothesis modified to fit observed heat transfer from smooth pipe wall to turbulent gas stream at low Reynolds numbers
[ASME PAPER 69-HT-H] 24 p4303 A69-43523

Natural convection local heat transfer on constant heat flux inclined surfaces for water and air in laminar, transition and turbulent regimes
[ASME PAPER 69-HT-C] 24 p4410 A69-43526

TURBULENT JETS.

Mach-Zehnder interferometer for studying temperature distribution and heat transfer in turbulent jets, noting temperature dependence on jet thickness at different angles of attack
01 p0005 A69-10101

Turbulent jet model of unsymmetrical velocity profile for design of wall attachment device
02 p0231 A69-12072

Heat transfer near stagnation point in axisymmetric turbulent jet impinging on circular disk
02 p0354 A69-12491

Open circuit wind tunnel experiment to measure properties of two dimensional plane turbulent wall jet in moving stream
[ASME PAPER 68-WA/APM-13] 04 p0586 A69-14390

Two dimensional turbulent jet in uniform parallel stream, developing coordinate type perturbation expansion and applying series truncation method to predict downstream development
04 p0588 A69-14713

Incompressible jet flows, discussing two dimensional jet, axisymmetric laminar jet and turbulent free jet
05 p0746 A69-16008

Turbulent free jet at miniature nozzle exit, analyzing wall attachment fluid amplifier and flow characteristics
05 p0746 A69-16012

Fluctuation velocity, apparent kinematic viscosity and turbulent shear stress in isothermal homogeneous free jets
06 p0909 A69-17169

Soviet collection of papers on turbulent jets of air, plasma and real gas
07 p1049 A69-18392

Approximate solution for turbulent jet expansion in opposing stream, discussing hydraulic drag coefficient formula derivation
07 p1118 A69-18396

Underexpanded nozzle ejected supersonic turbulent jet off-design behavior, discussing static pressure distribution, boundary layer and Mach number effect
07 p1049 A69-18397

Axisymmetric liquid nitrogen turbulent jet propagating under supercritical pressure in gaseous nitrogen medium
07 p1049 A69-18398

Axisymmetric turbulent conducting fluid jet propagation in longitudinal magnetic field without induction
07 p1192 A69-19019

Pulsation energy balance of turbulent jet of conducting fluid expanding in longitudinal magnetic field
07 p1192 A69-19021

Circular turbulent air jet from flat plate into deflecting stream analyzed with potential flow model, noting applicability to V-STOL aircraft technology
[AIAA PAPER 69-223] 07 p1051 A69-19557

Three dimensional laser Doppler velocity instrument for mean velocity and turbulence measurements in subsonic jet shear layer
[SAE PAPER 690266] 09 p1494 A69-21555

Turbulent circular wall air jet trajectory and spreading in perpendicular crossflow of constant and varying velocities
[ASME PAPER 69-GT-33] 09 p1483 A69-22491

Turbulent wall jet growth in streaming two dimensional incompressible flow over plane smooth wall with pressure gradient
11 p1873 A69-25139

Axisymmetric turbulent supersonic incompressible fluid jet, calculating momentum flow distribution and excess heat flow densities in basic segment
11 p1818 A69-25346

Two phase two dimensional turbulent jet analysis for predicting uncertainty in measured value of mixing coefficient
13 p2247 A69-27787

Boundary layer equations describing momentum, energy and mass concentration conservation in axisymmetrical turbulent jet flame solved for Lewis number unity in von Mises plane
13 p2379 A69-28455

Turbulent jets of gases in general stream of air spreading in cylindrical chamber, discussing distributions of gas dynamic parameters
13 p2200 A69-28501

Numerical analysis for spreading of free turbulent gas jets with arbitrary uneven initial distribution of momentum and heat and mass fluxes
15 p2590 A69-30157

Turbulent jet theory, thermal ignition theory and flameout characteristics of bluff body flame stabilizers
16 p2879 A69-32141

Combustion effects on mixing of axisymmetric supersonic and turbulent free jets to obtain species concentrations, pilot pressures and temperatures
[AIAA PAPER 69-538] 16 p2843 A69-32705

Monograph on turbulent isothermal swirl-free jets and turbulent swirling flames, studying mixture and propagation in free space
17 p3068 A69-32996

Sound effects on turbulent flame in gasoline-air mixture jet in Toepler device with pulsed light source, measuring ionization in combustion zone
17 p3069 A69-33141

Subsonic and supersonic turbulent air jets expansion over perpendicularly positioned plane disk obstacle, deriving equations for pressure distribution and stagnation temperature
18 p3123 A69-34990

Soviet book on integral methods of calculations in theory of turbulent jets and wakes, covering turbulent boundary layers, laminar mixing, etc
20 p3518 A69-38211

Coaxial turbulent compressible gas jets propagation, discussing mass buildup data in coaxial jets
21 p3645 A69-39847

Aerodynamic characteristics of turbulent twisted jet in slipstream in open jet wind tunnel, determining static pressure, temperature and velocity component profiles
21 p3645 A69-39848

Mean flow properties of incompressible turbulent three dimensional jets and wakes, treating flow within boundary layer theory context
23 p4060 A69-41908

Aerodynamics of twisted jet propagating in same fluid by asymptotic expansion, analyzing twist influence on heat transfer
24 p4244 A69-43057

TURBULENT MIXING

Turbulent mixing of scalar fields such as temperature or concentration noting fine structure, number and distribution of zero gradient points and minimal gradient surfaces
03 p0414 A69-13134

Axial deviation of gas flow resulting from mixing turbulent gas jets
04 p0591 A69-15411

Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities
[ASME PAPER 68-WA/FE-21] 05 p0749 A69-16097

Turbulence hypothesis for velocity of laminar fluid flow at dividing line, considering base pressure and adiabatic mixing zones
06 p0910 A69-17330

Combustion in compressible turbulent mixing flows, discussing mixing facility, experimental results and numerical analysis
[WSCIPAPER 68-28] 06 p0969 A69-17794

Turbulent premixed flames stabilization, determining gas flow velocity, turbulence intensity, flame thickness and burning velocity relation to intensity
06 p1035 A69-17931

Ducted turbulent mixing and burning of coaxial streams, presenting experimental results for rocket-air mixing system
[AIAA PAPER 69-85] 06 p0984 A69-18082

Free turbulent mixing, emphasizing flowing gas mixtures with and without chemical reaction
[AIAA PAPER 69-31] 06 p0915 A69-18223

Nongray radiation effects on compressible turbulent free jet mixing of nonsimilar gases, using stepwise spectral absorption coefficient and Beer law
08 p1253 A69-20844

Two phase two dimensional turbulent jet analysis for predicting uncertainty in measured value of mixing coefficient
13 p2247 A69-27787

Turbulent jets of gases in general stream of air spreading in cylindrical chamber, discussing distributions of gas dynamic parameters
13 p2200 A69-28501

Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities
[ASME PAPER 68-WA/FE-21] 14 p2430 A69-29443

Fluctuating turbulent stress measurements in mixing layer of two dimensional jets including intensity, spatial correlation and wave-number fluctuating stress frequency spectra
14 p2431 A69-29577

Two phase flow mixing shocks, obtaining expressions for pressure and entropy changes, discussing shock stability and gas entrapment mechanism
16 p2768 A69-31589

Finite difference method for turbulent mixing and combustion of hydrogen injected parallel to supersonic air stream, considering vitiated and unvitiated air
[AIAA PAPER 69-539] 16 p2877 A69-31844

Two dimensional turbulent mixing with surface mass injection at supersonic and hypersonic speeds, noting velocity and temperature distributions
[AIAA PAPER 68-130] 16 p2770 A69-31883

TURBULENT WAKES

- Chemical reactions in compressible turbulent mixing flows, analyzing flow characteristics, rate equation and Reichardt theory [AIAA PAPER 69-537] 16 p2747 A69-32701
- Monograph on turbulent isothermal swirl-free jets and turbulent swirling flames, studying mixture and propagation in free space 17 p3068 A69-32996
- Turbulent process employing product constituents dilute suspensions in inert carrier (Quickmix) to obtain solid propellant mixtures, discussing plant design and analysis, economics, etc [AIAA PAPER 69-517] 17 p2978 A69-33033
- Turbulent gas coaxial mixing theory, deriving eddy viscosity model and semiempirical expressions for velocity, temperature and density fluctuations [AIAA PAPER 69-682] 17 p2952 A69-33434
- Base flow component of total drag for axisymmetric supersonic afterbody with single exhaust jet, considering turbulent mixing [AIAA PAPER 69-650] 17 p2956 A69-33485
- Turbulent kinetic energy equation for determining turbulent flow fields applied to free mixing problem of constant density streams [AIAA PAPER 69-683] 17 p2956 A69-33492
- Transport properties of free turbulent mixing of subsonic coaxial streams by introducing environmental distributions in integrals of momentum, energy and species continuity equations [AIAA PAPER 69-681] 17 p2956 A69-33495
- Lateral mixing of air masses in jet stream by water fluid model experiments, discussing steady and non-steady state turbulent momentum exchange 17 p3000 A69-33759
- Atmospheric horizontal mixing caused by quasi two dimensional macroturbulent motions, describing micro and mesoscale processes using numerical model 19 p3363 A69-36500
- Turbulent gas jet mixing in chamber with four inlet nozzles 21 p3785 A69-39102
- Solar oblateness observed by Dicke and Goldenberg as interaction between slow uniform rotation and turbulent convection 22 p4017 A69-40175
- Boundary layer separation and free mixing phenomena between streams behind thin flat plate by finite difference methods and Prandtl exchange coefficient 23 p4060 A69-41912
- Plasma-dynamic forces used to suppress fuel-propellant interface turbulence in coaxial jet gas core reactors 24 p4349 A69-43679
- Reverse flow profiles in turbulent free jet mixing with streamwise pressure gradient 24 p4306 A69-43684

TURBULENT WAKES

NT PROPELLER SLIPSTREAMS

- Wake temperature turbulent fluctuation decay rates deduced from atomic oxygen recombination chemiluminescence 02 p0190 A69-12525
- Chemical reaction fluctuations and oxygen electron attachment omission effects on density fluctuations in turbulent wakes, noting electron density fluctuation, bimodal model, etc 02 p0233 A69-12538
- Turbulent front structure of axisymmetric compressible wake at supersonic speeds, measuring intermittency factor distribution 03 p0419 A69-13949
- Light aircraft hazards due to trailing vortex generated by heavy transport aircraft, suggesting specific procedures for takeoff, landing and flight phase [SAE PAPER 680220] 04 p0549 A69-14930
- Unsteady potential flow and wake near oscillating circular cylinder noting velocity, pressure and correlation measurements [ASME PAPER 68-WA/FE-23] 05 p0749 A69-16099
- Radar backscattering from turbulent rocket exhaust plumes [AIAA PAPER 69-71] 06 p0891 A69-18071
- Turbulent density fluctuations in near wake of hypersonic axisymmetric slender body measured photometrically with near UV absorption of sulfur dioxide in flow [AIAA PAPER 69-70] 06 p0864 A69-18158
- Boundary layer separation and vortex street buildup conditions of gas flow in circular cylinder wake 08 p1252 A69-20713
- Electron density fluctuations in turbulent wakes of hypersonic projectiles in ballistic ranges, discussing use of cylindrical Langmuir probe for direct measurement 09 p1496 A69-21934

Initial turbulence influence on wakes formed behind trailing edges of cascade blades 09 p1431 A69-22235

Mean flow measurements in supersonic wake of slender two dimensional body at zero incidence and heat transfer rate, noting predictability from similarity analysis 11 p1817 A69-24281

Small body drag in wake of large satellite using two dimensional model noting methods for calculating distribution function moments in wake regions 12 p2012 A69-26798

Nonreacting turbulent far wake problems, discussing centerline decay of viscosity models, similarity profiles and radial distributions at various Mach numbers 13 p2200 A69-28500

Electric field determination from charged particle concentration in wake of body moving in rarefied plasma, noting hydrodynamics similarity 14 p2517 A69-29068

Laminar and turbulent hypersonic wakes trailing blunt bodies studied by finite difference method, taking into account pressure gradients and nonequilibrium chemical reactions effects 14 p2391 A69-29618

Ballistic wake structure and jump conditions for plane plasma shock waves with electrostatic turbulence 15 p2660 A69-30914

Spectral density function derivation for energy scattered from underdense turbulent wake 16 p2732 A69-31893

Three dimensional incompressible wake behind blunt obstacle at leading edge of flat plate compared with mathematical model by Oseen linearization 18 p3083 A69-34403

Flow structure in wake of blunt bodies placed perpendicular in parallel airstream determined from hot-wire anemometry [AIAA PAPER 69-746] 18 p3084 A69-34409

Dynamic pressure pulsations, temperature distribution and gas concentrations in discrete vortices zone in wake of plate in unbounded flow 18 p3124 A69-35120

Standing twin vortices in wake behind thin flat plate normal to flow visualized by Al dust, noting Karman vortex street 18 p3086 A69-35167

Vortex wakes behind circular cylinder subject to transverse sinusoidal oscillations in uniform water flow at specific Reynolds numbers, photographing varied frequency flow patterns 18 p3086 A69-35169

Flow field throughout wind tunnel containing rotor with sharply deflected blades, noting reversed flow effect in front of wake 18 p3119 A69-35228

Electrostatic probes calibration and use for hypersonic wakes behind projectiles in ballistic range 19 p3291 A69-35717

Nanosecond pulse coherent Doppler radar for monostatic measurements of turbulent wakes in shock tunnels and ballistic ranges 19 p3293 A69-35743

Similarity solutions describing buoyancy effect on laminar and turbulent wakes of heated body in incompressible fluid vertically ascending flow 19 p3296 A69-35761

Axisymmetric laminar and turbulent wakes of body in flow with streamwise pressure gradient, discussing velocity defects and profiles 19 p3296 A69-35762

Turbulent wake and ambient flow interaction analysis based on integral methods in boundary layer theory 19 p3299 A69-36390

Soviet book on integral methods of calculations in theory of turbulent jets and wakes, covering turbulent boundary layers, laminar mixing, etc 20 p3518 A69-38211

One dimensional spectra of turbulent wakes behind circular cylinders, discussing isotropy, anisotropy and Reynolds number 21 p3693 A69-38705

Flow structure in wake behind cylinder in plane channel, discussing circulation zone variation and velocity and turbulence distribution at various channel cross sections 21 p3698 A69-39850

Mean flow properties of incompressible turbulent three dimensional jets and wakes, treating flow within boundary layer theory context 23 p4060 A69-41908

Spanwise velocity correlations of turbulent vortices shed by two dimensional bluff body of D section with different aspect ratios, noting end plates effect 23 p4234 A69-42397

Shape, position and velocity of vortex wakes shed in unsteady multienergy flows near trailing edge, applying Kutta condition [ASME PAPER 69-APMW-19] 24 p4245 A69-43099

Wake development from turbulent boundary layers on both sides of thin flat plate 24 p4249 A69-43694

TURING MACHINES

Reliability functions and cycles number before breakdown of finite automaton with account of randomness of malfunctions, structure and input signal distribution 13 p2224 A69-27250

Asynchronous finite state sequential nonlinear controller synthesis with few flip-flops for dynamic space vehicle systems [AIAA PAPER 67-988] 13 p2225 A69-28201

Finite state probabilistic automata reduction problems 13 p2239 A69-28534

Homogeneous finite automaton asymptotic analysis, calculating series terms for matrix transition probability function 13 p2239 A69-28535

Finite automaton malfunctions, discussing input sequences construction and output sequences analysis for malfunction subsets recognition 13 p2239 A69-28536

Finite automaton used to construct minimum automaton with periodic structure, discussing representability of regular events 13 p2239 A69-28553

TURNING FLIGHT

Incidence for three dimensional reentry trajectories preprogrammed as function of velocity, finding bank angle as function of inclination 03 p0504 A69-12858

Three dimensional atmospheric entry trajectories equations for satellite with aerodynamic lift, examining aerodynamic factors and bank angle effects 07 p1230 A69-19608

Earth rotation and aircraft speed effects on vertical gyroscopes during banking, obtaining formulas for gyro errors 09 p1498 A69-22107

Angle of attack and bank angle for orbiting reentry glider, determining optimal trajectory for ground landing at given point [ICAS PAPER 68-41] 11 p1966 A69-24750

Thrust, bank angle and angle of attack of aircraft minimum fuel lateral turns at constant altitude and specified velocities 13 p2203 A69-28245

Directional gyroscope with interframe correlation, discussing errors during object pitching and banking 14 p2446 A69-28923

Analog computer simulation of helicopter dynamics after main and tail rotor blades partial loss, showing banking and controllability 14 p2393 A69-29744

In-flight test to determine variation effects in bank angle control parameters on cruise flight handling qualities, considering spiral stability [AIAA PAPER 69-893] 21 p3648 A69-39425

TURTLES

Telemetry with unrestrained animals, discussing radio tracking of game animals and instrumentation requirements for studying green sea turtle goal finding ability 07 p1071 A69-19136

TVC [CONTROL]

U THRUST VECTOR CONTROL

TWENTY-FOUR HOUR ORBITS

Low degree earth gravity harmonics effect on 12 and 24 hour orbits of high altitude communications satellites 04 p0592 A69-14661

Charged particle environment in synchronous orbit region, discussing electrons and protons under influence of geomagnetic field 07 p1204 A69-18340

Magnetic field at synchronous equatorial orbit by analyzing magnetometer data recorded by ATS 1 satellite during magnetic storms, geomagnetic substorms and quiet times 07 p1123 A69-18343

Ideal resonance problem with single critical term for case of libration solved by modified Poincare method, considering 24-hr satellite 12 p2152 A69-25800

Europa 1 booster supplementing with perigee-apogee system for development of Europa 2, noting payload launching capability into 24-hr circular orbit
15 p2671 A69-31051

Particles integral and differential fluxes spectral distribution calculation for determining radiation load for synchronous satellite
22 p4035 A69-39909

Liquid fuel propulsion systems for geostationary satellites, discussing transfer orbits, payload increase and required thrust for various satellite trajectories [DGLR-69-014]
23 p4202 A69-41299

TWENTY-SEVEN DAY VARIATION

Solar and geophysical activity during February 1965 and March 1966 indicating geomagnetic activity on 27-day recurrence diagram
01 p0068 A69-11118

27-day cosmic ray intensity variations related to solar wind velocity nonuniformity due to longitudinal distribution of coronal active regions
06 p0990 A69-17292

Power spectrum analysis and linear filtering for 27 day variation amplitude of geomagnetic disturbance subject to semiannual amplitude modulation
14 p2434 A69-28955

Geocoronal Lyman alpha short term and 27-day variations observed byOGO 4 spacecraft attributed to flux variability at solar emission line center
15 p2699 A69-31404

Solar microwave emission heliographic distribution during pronounced geomagnetic recurrence, noting brightness temperature nonuniformity due to coronal depression through polytropic models for solar wind
18 p3188 A69-35396

Solar cycle and slowly varying components correlation with soft X ray radiation based on spacecraft measurements
22 p4004 A69-40504

Sudden and gradually developing geomagnetic storms with 27 day recurrence period and relation to 11 year solar activity cycle
23 p4156 A69-41849

Interplanetary and geophysical conditions forecasted based on repetitions of low latitude photospheric background magnetic field patterns during solar activity cycles
24 p4387 A69-43626

TWILIGHT GLOW

Seasonal variation of evening-morning difference in maximum density heights of twilight sodium layer
01 p0063 A69-10275

Twilight sky brightness measurements at 5200 angstroms for estimating upper atmospheric dust component, discussing error rates
01 p0075 A69-11191

Stratospheric dust effect on twilight sky color, evaluating scattered radiation chromaticity for atmospheric models containing ozone
02 p0243 A69-12014

Optical method of sounding cosmic matter penetrating into upper atmosphere by analyzing twilight phenomena
04 p0594 A69-15246

Latitude dependence of 6300 A /O I/ twilight airglow enhancement attributable to conjugate photoelectrons
05 p0756 A69-16280

Twilight resonance emissions due to atmospheric sodium, lithium and potassium, noting similarity of annual sodium and lithium twilight abundance variations [AFCL-69-0097]
06 p0918 A69-17494

Evening twilight nitric oxide density profile in gamma bands deduced from rocket measurements
07 p1125 A69-18842

Upper atmosphere temperature distribution estimation on basis of twilight zenith sky intensity measurements, discussing influence of various parameters on accuracy
09 p1487 A69-21653

Hydroxyl luminescence spectrographic observations at twilight in vibrational-rotational band from 10600 to 11200 A
10 p1681 A69-22847

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem
10 p1689 A69-23970

Twilight helium emission observed by Fabry-Perot spectrometer, noting consistency with triplet He atom excitation by photoelectron collision with ground state atoms [AFCL-69-0294]
14 p2440 A69-29124

Zenith sky Umkehr observed with Dobson spectrophotometer at twilight, discussing light scattering by aerosols in lower stratosphere
16 p2786 A69-32634

He I 1.083 micron resonance line in evening twilight airglow spectrum, discussing maxima, minima, decay patterns, etc
19 p3303 A69-36484

Rocket observation of ionospheric electron and positive ion densities and dayglow emission intensities in twilight conditions
21 p3702 A69-38355

Twilight airglow excitations governed by solar radiation, indicating presence of alkali metals, positive calcium ions and H lines, positive sodium ion bands, etc
21 p3711 A69-38515

Altitude variation of mesospheric daytime sky brightness from earth based measurements of twilight sky brightness, noting inconsistency in calculations based on standard atmospheres
21 p3716 A69-39116

Scattered light mean intensity determination in twilight aerosol atmosphere from satellite observations, formulating boundary value problem
21 p3717 A69-39656

TWINNING

NT MECHANICAL TWINNING

Shear accommodation kinking at second order twin bands in critically deformed magnesium investigated for dislocation mechanism
01 p0093 A69-10063

Tension-compression fatigued alpha Ti twin formation contribution to fatigue damage during cyclic loading
12 p2116 A69-26913

Oxygen content effect on tension-compression fatigue of alpha Ti alloys, discussing internal damage associated with twin formation
12 p2116 A69-27134

TWISTED WINGS

Torsionally flexible blade controllable twist rotor with pitch horn and servoflap control, discussing optimum inputs, airloads and angles of attack contours
18 p3089 A69-35234

TWISTING

Plastically twisted prismatic bars with transverse discontinuous inhomogeneity, using sand hill analogy to determine stress field and limiting torque
03 p0524 A69-13021

Small twist of elastic circular cylindrical tube with nonorthogonal cylindrical aeolotropy, noting zero and nonzero warping conditions effects
05 p0831 A69-15580

Twisting of spherical shell of nonhomogeneous isotropic material with variable shear modulus and inner surface assumed to be stress free
20 p3619 A69-36911

TWO BODY PROBLEM

Matrizants construction for Keplerian motions, discussing Hamiltonian character of variational equations for planar two body problem
03 p0513 A69-13779

Rendezvous maneuvers for vehicle and elliptically orbiting targets, formulating relative motion of two bodies
04 p0658 A69-14828

Orbital parameters changes computation in table form for binary systems with more massive component mass decrease
11 p1962 A69-25120

Third phase dynamics of planetary approach of earth-Mars journey, computing approach trajectory on two body spacecraft-Mars assumption
11 p1968 A69-25725

Moon-earth system origin emphasizing mass distribution
13 p2352 A69-27902

Orbital elements evolution of binary or planetary system with decreasing mass by nonlinear nonautonomous differential equations
14 p2519 A69-29138

Far field energy radiated by two body system using approximation method in general relativity and Minkowski gravitation theory
16 p2812 A69-31836

Motion of two rigid spheroids with mutual gravitational attraction based on Hamilton-Jacobi theory applicable to binary stars
16 p2863 A69-32402

Star motion perturbations by invisible body, stressing bright bodies invisible by position near perturbed star
17 p3034 A69-33407

Orbit computation by means of predictor-corrector algorithms based on nonpolynomial functions, including numerical results for two body elliptic motion
19 p3397 A69-35611

Perturbation matrix derivation in rectangular coordinates using Sitarsky two body variational equation for all motions
20 p3568 A69-37200

Impact pressures during two body collisions, correlating pressure with particle speed
21 p3836 A69-38943

Symmetric periodic orbits families of restricted three body problem, using two body problem
22 p4031 A69-40908

TWO DIMENSIONAL BODIES

Integration method for equations of plastic two dimensional stressed state with Mises yield condition, noting stress concentration at hole with pressure on contour
04 p0679 A69-14924

Center of gravity of two dimensional gravitating bodies by gravitational anomaly technique, based on conformal mapping of bilinear function
05 p0792 A69-15696

Weak shock wave diffraction at two dimensional obstacles, discussing time behavior of pressure distribution
05 p0746 A69-16018

Laminar near wake flow field of two dimensional adiabatic circular cylinder with surface mass transfer [AIAA PAPER 69-67]
06 p0862 A69-18044

Supersonic wake recirculation flow over rearward facing two dimensional steps and blunt bases
14 p2389 A69-29031

Laminar boundary layer control on two dimensional body by combined blowing and suction in presence of roughness, noting skin friction reduction [AIAA PAPER 68-641]
17 p2957 A69-34015

Spanwise velocity correlations of turbulent vortices shed by two dimensional bluff body of D section with different aspect ratios, noting end plates effect
23 p4234 A69-42397

Contact stress distribution between two two-dimensional finite nearly rectangular elastic bodies with general surface configurations for surface load expressed in trigonometric series [ASME PAPER 69-APMW-9]
24 p4402 A69-43104

TWO DIMENSIONAL FLOW

NT COUETTE FLOW

Asymptotic solution of Orr-Sommerfeld equation by multiple scales method for linear and general velocity profile
01 p0059 A69-10332

Linear stability of steady and time dependent plane Poiseuille flow
01 p0175 A69-10333

Two dimensional ionized plasma flow in coaxial channels calculated using differential equations
01 p0130 A69-10723

Stabilization of plane parallel MHD flow at inlet and outlet of flat rectangular tube with transverse magnetic field
01 p0130 A69-10770

Two dimensional compressible inviscid laminar gas flows unsteady processes studied by extending method of characteristics
01 p0008 A69-11360

Transpiration and dissipation effects on heat eddy diffusivity over two dimensional plate in turbulent flow for various Prandtl numbers
01 p0178 A69-11410

Simple wave solution existence for system of equations describing rapid plane flows of ideally plastic material
02 p0337 A69-11560

Downstream pressure asymmetry effect on efflux angle and contraction coefficient of incompressible jet from two dimensional orifice
02 p0231 A69-12075

Two dimensional Navier-Stokes equations of axisymmetric motion of viscous incompressible fluid, giving integral and solutions for stream function
02 p0231 A69-12135

Impervious wall effectiveness of two dimensional wall jet, discussing effectiveness dependence on slot height and turbulence intensity [ASME PAPER 68-HT-4]
02 p0352 A69-12209

Two dimensional diffuse shock waves in carbon dioxide, noting effect of shock curvature equivalence to thickness
02 p0233 A69-12534

Discrete vortices in two dimensional subsonic and supersonic wake, determining Strouhal numbers, frequencies and flow velocities with aid of HF cinematography
02 p0191 A69-12587

Subsonic or transonic bidimensional flows around airfoils by hodograph method
[ONERA-TP-645] 03 p0361 A69-12873

Solute vertical stabilizing gradient inhibition of thermal convection of fluid layer under temperature gradient, discussing effects on two dimensional flows motion 03 p0532 A69-13012

Two dimensional flow of incompressible fluid near sharp leading edge of plate at zero incidence, discussing approximation error and friction stress 03 p0415 A69-13651

Analysis of solution of Navier-Stokes equations describing two dimensional flow of viscous incompressible fluid by finite difference techniques and introduction of curl 03 p0416 A69-13652

Survey of papers on computer calculation of two and three dimensional gas flows, emphasizing method of characteristics and finite difference techniques 03 p0363 A69-13657

Nonlinear aerodynamic problems of plane and asymmetric flows solved by digital computer, using modified Monte Carlo method 03 p0364 A69-13921

Unsteady two dimensional flow in square cavity with fluid initially at rest and constant velocity upper surface of cavity, noting vortex center [AICHE PAPER 25C] 04 p0587 A69-14510

Turbulent fluctuations of viscous sublayer of two dimensional flow, assessing wall shear stress spectrum 04 p0583 A69-14544

Heat transfer, suction and injection in plane Couette flow analyzed for Rivlin-Ericksen fluid, using perturbation method 04 p0589 A69-14970

Two dimensional unsteady flow of inviscid polytropic gas using analysis of similarity solutions in homentropic flow 04 p0590 A69-15191

Difference equation for two dimensional elastic flow 04 p0681 A69-15286

Evolutionarity of equations of MHD with Hall effect allowance for nondissipative plasma two dimensional flow 05 p0801 A69-15788

Incompressible turbulent boundary layers in channel flow using constant temperature hot-wire anemometer, emphasizing measurement in viscous sublayer [ASME PAPER 68-FE-26] 05 p0747 A69-16066

Simulation of two and three dimensional fluid transients by use of one dimensional equations in lattice-work of piping elements 05 p0747 A69-16071

Time dependent two dimensional incompressible laminar boundary layers analysis, discussing application to transient flow over semiinfinite flat plate [ASME PAPER 68-FE-10] 05 p0748 A69-16076

Two dimensional incompressible laminar boundary layer on curved wall for potential velocity inversely proportional to distance along origin [ASME PAPER 68-WA/FE-20] 05 p0749 A69-16096

Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities [ASME PAPER 68-WA/FE-21] 05 p0749 A69-16097

Two dimensional aligned field MGD flows analyzed using corresponding basic equations 05 p0806 A69-16735

Integral method for backward boundary layers, developing third order polynomials for two dimensional potential flow toward opening 05 p0752 A69-16737

Incompressible two dimensional turbulent boundary layers calculated on phenomenological basis 06 p0908 A69-17133

Steady two dimensional MHD flow of perfectly conducting fluid past nonconducting wedge with magnetic field orthogonal to flow velocity 06 p0964 A69-17244

MHD flows in channels of MHD devices, emphasizing two and three dimensional problems 06 p0969 A69-17913

Stability theory application to laminar boundary layer transition prediction on two dimensional and axisymmetric flows having pressure distributions in incompressible flow [AIAA PAPER 69-10] 06 p0914 A69-18127

Computer solution of incompressible two dimensional time dependent Navier-Stokes equations for oscillating body with rectangular boundaries [AIAA PAPER 69-185] 06 p0914 A69-18135

Isoenergetic two dimensional supersonic turbulent base flow, noting boundary layer separation properties upstream and downstream [AIAA PAPER 69-68] 06 p0864 A69-18137

Shock wave in two dimensional mixed transonic airfoil flows, discussing initial value problem for flow downstream of shock [AIAA PAPER 69-43] 06 p0915 A69-18180

Transpiration cooling of reentry vehicle nosetips, noting two dimensional aspects of porous wall coolant flow and matrix-coolant energy exchange [AIAA PAPER 69-96] 06 p1039 A69-18212

Steady two dimensional MHD flow in finite region of aligned fields 07 p1188 A69-18274

Strouhal and Reynolds numbers relation from data on vortex streets of circular cylinder in two dimensional flow 07 p1119 A69-18749

Approximation of Chaplygin plane motion equations of gas flow at high supersonic velocities 07 p1120 A69-18754

Numerical analysis of stabilization of one component conducting plasma in two dimensional coaxial duct 07 p1190 A69-18757

Two dimensional flow of conducting fluid in channels with longitudinal transverse magnetic field and Hall effect, discussing gas motion equations linearization 07 p1192 A69-19015

Laminar and turbulent stresses in plane asymmetric incompressible flows analyzed based on Boussinesq formula for turbulent shear stresses 07 p1121 A69-19330

Finite difference computations for calculating two dimensional natural convection, deriving requirements for numerical stability 07 p1242 A69-19397

Circular turbulent air jet from flat plate into deflecting stream analyzed with potential flow model, noting applicability to V-STOL aircraft technology [AIAA PAPER 69-223] 07 p1051 A69-19557

Arbitrary stationary foil in perfect incompressible fluid moving at constant velocity at infinity assuming plane, steady and irrotational flow 08 p1303 A69-20272

Two dimensional unsteady wave motion in shallow water using MHD theory 08 p1362 A69-20354

Two dimensional steady flow of finitely conducting compressible fluid subjected to magnetic field with two zero components 08 p1369 A69-20843

Plane steady transonic flow of perfect fluid around airfoils with constant curvature using hodographic method, discussing various boundary conditions 09 p1429 A69-21605

Irrotational plane subsonic flow of compressible fluid about obstacle, reducing problem to integration of linear partial differential equation with boundary conditions 09 p1480 A69-21735

Two dimensional supersonic flow along adiabatic curved ramp noting separation, attached flow and laminar boundary layer interaction with external stream [AIAA PAPER 68-109] 09 p1430 A69-21949

Tangential air jet for separation control of two dimensional incompressible flow along circular cylindrical wall 09 p1431 A69-22277

Finite difference method computer programs for calculation of velocities and streamlines on blade to blade surface of revolution of turbomachine [ASME PAPER 69-GT-48] 09 p1432 A69-22495

General solutions of MHD equations for linear nonsteady and plane steady motions of ideally conducting gas 10 p1727 A69-23096

Two dimensional flow of unipolar medium in electrodynamic power generation channel, discussing stationary model, electric field and ion density distributions 10 p1638 A69-23486

Finite difference technique for numerical computation of steady supersonic two dimensional gas flows, with or without diffusion normal to mean flow streamlines 10 p1679 A69-23595

Laminar elasticoviscous flow of liquid with short memory in two dimensional channel with porous walls 10 p1680 A69-23668

Two dimensional stratified flow over obstacle in finite height channel, noting lee waves and drag increase with decreasing speed 11 p1869 A69-24892

Second order effects on two dimensional laminar boundary layer flow of incompressible fluid 11 p1872 A69-25127

Reverse transition in two dimensional accelerated incompressible turbulent boundary layer flow, noting skin friction coefficient and turbulent intensity profiles 11 p1872 A69-25129

Streamwise pressure gradient effect on velocity profile in viscous sublayer of two dimensional turbulent flow along smooth wall 11 p1872 A69-25131

Turbulent wall jet growth in streaming two dimensional incompressible flow over plane smooth wall with pressure gradient 11 p1873 A69-25139

Mass flow rates for nearly free molecular flow through two dimensional slit for several tank pressure ratios 11 p1874 A69-25357

Flat plate in two dimensional low density hypersonic flow wind tunnel tested for aerodynamic effects on spacecraft reentry 11 p1819 A69-25424

Two dimensional convective flow stability for arbitrary Rayleigh numbers in horizontal layer, assuming large Prandtl number and free boundary conditions 11 p2003 A69-25657

Invariant transformation of Euler equations of motion for plane steady flows of perfect compressible fluid 11 p1877 A69-25739

Topological properties of plane flow in subsonic region behind smooth shock wave in uniform supersonic flow, discussing shock wave convexity 12 p2061 A69-25888

Heat flux in two dimensional laminar separation zone in supersonic flow, measuring convection coefficient and wall pressure 12 p2011 A69-26289

Two dimensional flow of conducting gas dynamic and electrical parameters in MGD generator channel, considering magnetic field and plasma conductivity 13 p2305 A69-27386

Heat and mass transfer in two dimensional turbulent free shear flows including separated and reattached flows 13 p2377 A69-28145

Chemically reacting flow field and solid surfaces, formulating nonequilibrium laminar boundary layer equations for two dimensional and axisymmetric flows 13 p2377 A69-28147

Two dimensional flow through nonuniform gauze by computerized analysis based on linearized theory 13 p2248 A69-28174

Numerical solutions of equations for high Prandtl number boundary layers in two dimensional flat plate incompressible flow with mass injection 13 p2249 A69-28238

Small disturbances distribution in flow parameters along two dimensional combustion zone of finite width using thermal diffusion theory 14 p2537 A69-28986

Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities [ASME PAPER 68-WA/FE-21] 14 p2430 A69-29443

Two dimensional inhomogeneous conductors resistance determined by interchanging equipotential and flow lines 14 p2422 A69-29554

Extension of Helmholtz classical problem of flows with discontinuous surfaces, considering two sources and transverse plane 14 p2433 A69-29683

Incompressible two dimensional turbulent boundary layer equations with arbitrary pressure distribution solved by weighted residual method [AIAA PAPER 69-397] 15 p2591 A69-30478

Monograph on stress fields in plane plastic flow as solutions to boundary value problems 15 p2711 A69-30932

Spoiler effect on aerodynamic characteristics of airfoil with hinged flap in inviscid fluid plane flow 15 p2549 A69-31223

Two dimensional laminar convection cells asymptotic behavior for high Rayleigh number, discussing Robinson and Pillow models for fluid between horizontal plates heated from below 16 p2767 A69-31588

Maximum turbulent stress in turbulent two dimensional boundary layers leading to general stress law, designing experiment to confirm validity 16 p2769 A69-31832

- Two dimensional turbulent mixing with surface mass injection at supersonic and hypersonic speeds, noting velocity and temperature distributions [AIAA PAPER 68-130] 16 p2770 A69-31883
- Numerical estimates of momentum integral error in applying locally similar solutions to nonsimilar problems, assuming two dimensional or axisymmetric flow 16 p2772 A69-32174
- Two dimensional incompressible flow past circular cylinder at moderate Reynolds number, reducing partial differential equations of motion by series truncation for flow field 17 p2896 A69-33600
- Wave propagation in two dimensional anisotropic media with several perturbation speeds, using Lundquist linear equations ensuring lacunas presence 17 p2925 A69-33841
- Exact analytic solution for thermal conductance of two dimensional eccentric constriction in dimensionless numbers 18 p3228 A69-34375
- Shock tunnel steady flow starting process in two dimensional reflection nozzle, using multiple shadowgraphs and interferograms, noting nozzle geometry influences 18 p3085 A69-34471
- Two dimensional elastoplastic problems in static condition, discussing analytical, variational and finite difference methods 18 p3217 A69-34594
- Evolutionarity of equations of MHD with Hall effect allowance for nondissipative plasma two dimensional flow 18 p3181 A69-35039
- Predictability of deterministic fluid systems with many scales of motion using vorticity equation for two dimensional incompressible flow, noting application to earth atmosphere 19 p3303 A69-36404
- Inverse transformation method for plane subsonic flow extended to flow past cambered profiles at angle of attack, obtaining velocity distribution 19 p3240 A69-36473
- Atmospheric horizontal mixing caused by quasi two dimensional macroturbulent motions, describing micro and mesoscale processes using numerical model 19 p3363 A69-36500
- Pressure gradient produced steady plane flow of Maxwellian gas between infinite parallel planes, describing linearized Boltzmann equation solution 19 p3379 A69-36604
- Two dimensional unsteady motion of medium with pressure as linear function of density, analyzing gas expansion into vacuum 20 p3512 A69-36916
- Second circle theorem for two dimensional irrotational flow of incompressible inviscid fluid in z plane 20 p3518 A69-38316
- Jet efflux from two dimensional symmetric nozzles of arbitrary shape determined using conformal mapping and Riemann-Hilbert solution to mixed boundary value problem 21 p3692 A69-38686
- Quasi-linear ordinary differential equations solutions for steady two dimensional stagnation point flows of nonNewtonian power law fluids 21 p3697 A69-39674
- Axisymmetric and two dimensional flows over blunt bodies at high Mach numbers by integral relations method 21 p3645 A69-39790
- Navier-Stokes equations exact solutions for two dimensional steady flow of compressible viscous heat conducting perfect gas 22 p3929 A69-40117
- Free viscous layers structure at large Reynolds numbers, using matched asymptotic expansions for two dimensional compressible flow 22 p3932 A69-40927
- Friction, heat transfer and mass transfer theory of flow represented by two dimensional parabolic boundary layer equations 22 p3933 A69-40940
- Adiabatic plane ideal gas flow past airfoil, studying shock waves propagation effect on dynamic behavior 22 p3861 A69-41024
- Two dimensional gas dynamics differential equations for simple waves, discussing invariant solutions and conditions for group solutions 22 p3933 A69-41030
- Subsonic compressible flow at two dimensional inlets, analyzing field representation, boundaries, surface configuration and optimal wedge 23 p4060 A69-41915
- Numerical method for calculating unsteady two dimensional boundary layers in laminar incompressible flow 23 p4152 A69-42108
- Steady constant density two dimensional flow in laminar boundary layer over permeable curved surfaces, showing effects of suction or blowing 23 p4153 A69-42399
- Graphical method for two dimensional supersonic expansion flow with subsonic reaction front around corner compared to existing iteration method 23 p4061 A69-42411
- Two dimensional diverging flow of ideal compressible fluid past slender profile, using Prandtl-Glauert rule and linearized equation 24 p4243 A69-42584
- Limit-cycle oscillations of unstable plane Poiseuille flow analyzed by nonlinear Navier-Stokes equations 24 p4298 A69-42600
- Two dimensional incompressible inviscid fluid flow problems solution by conducting-paper analog with electrical equipotentials tracing, based on Laplace equation applicability 24 p4299 A69-43024
- Continuous potential fields modeling based on electrohydrodynamic analogy extended to flows involving stream separation 24 p4300 A69-43089
- Nonlinear finite-amplitude instability of two dimensional compressible laminar wake flows, using Fourier expansion and Landau equation 24 p4245 A69-43357
- Dynamic behavior of gas bubble in ideal fluid plane flow, considering bubble shape, velocity field, gas pressure and stagnation point pressure determination 24 p4302 A69-43478
- TWO DIMENSIONAL JETS**
- Potential flow of stream interaction with two dimensional thin jet, discussing jet penetration depth 01 p0007 A69-11019
- Thermal radiation effects on two dimensional steady MHD jet of conducting ionized gas confined by magnetic field 02 p0287 A69-11831
- Open circuit wind tunnel experiment to measure properties of two dimensional plane turbulent wall jet in moving stream [ASME PAPER 68-WA/APM-13] 04 p0586 A69-14390
- Laminar two dimensional free jet outflow of incompressible nonNewtonian pseudoplastic fluid from orifice into mass of same fluid 04 p0586 A69-14406
- Two dimensional turbulent jet in uniform parallel stream, developing coordinate type perturbation expansion and applying series truncation method to predict downstream development 04 p0588 A69-14713
- Stabilizing influence of axial magnetic field on confined vortex flow of aqueous electrolytic conductor generated by two dimensional wall jets 05 p0798 A69-15611
- Incompressible jet flows, discussing two dimensional jet, axisymmetric laminar jet and turbulent free jet 05 p0746 A69-16008
- Sound amplification role in increasing spread of bounded two dimensional smoke jet studied for application to fluid amplifiers [ASME PAPER 69-VIBR-3] 10 p1640 A69-24161
- Mixing zone of plane jet in rectangular nozzle mounted at end of controlled velocity wind tunnel 12 p2062 A69-26287
- Velocity fluctuation amplitude in potential cone of plane jet compared to properties of irrotational fluctuations induced by flow boundaries 13 p2247 A69-27736
- Two phase two dimensional turbulent jet analysis for predicting uncertainty in measured value of mixing coefficient 13 p2247 A69-27787
- Discontinuity coefficient on boundaries of mixing zone of plane jet, observing homogeneity of thermal and kinematic structures 13 p2247 A69-27978
- Fluctuating turbulent stress measurements in mixing layer of two dimensional jets including intensity, spatial correlation and wave-number fluctuating stress frequency spectra 14 p2431 A69-29577
- Free and dividing streamlines shapes for two dimensional jet from parallel walls penetrating into counterstream, discussing finite cavities 22 p3859 A69-40143
- Aligned uniform magnetic field effect on hydromagnetic stability of two dimensional incompressible electrically conducting jet flow with large Reynolds number 22 p3931 A69-40687
- Flowfield properties of two dimensional supersonic jet near sonic nozzle exit by numerical method of characteristics 22 p3860 A69-40920
- Underexpanded plane hypersonic gas jet injection into resting medium from straight nozzle, discussing shock wave formation 24 p4246 A69-43484
- TWO FLUID MODELS**
- Garden hose instability quasi-linear stabilization employing macroscopic viewpoint, discussing fluid model 01 p0133 A69-11217
- Ion and atom temperature distribution for two fluid model of Ar plasma in cylindrically symmetrical wall stabilized electric arc column 03 p0481 A69-14155
- Two fluid kinetic model for analyzing shock wave structure in binary mixtures of monatomic inert gases, noting no overshoot in velocity profiles 08 p1304 A69-20813
- Rayleigh-Taylor instabilities in two fluid hydraulic model, noting perturbation direction and, Lorentz forces effects on instabilities growth time 13 p2310 A69-28033
- Two fluid continuum theory of incoherent scattering extended to include unequal electron and ion temperatures, considering backscatter power dependency on collision frequencies 14 p2510 A69-28946
- Electrostatic heating of solar wind ions from instability in two fluid solar wind model leading to preferential heating of protons over electrons 16 p2848 A69-31971
- TWO PHASE FLOW**
- Vaporization waves in metals, discussing thermodynamic function of carrying liquid metal through successive states on liquidus line in two phase region 01 p0117 A69-10655
- Liquid metals as coolants in breeder and space vehicle reactors for stable two phase flows 05 p0803 A69-15998
- Two phase flow in comas of dust comets, noting acceleration of gaseous and particle phases of continuous streams and particle vaporization 06 p1000 A69-16984
- Particle velocity measuring technique for two phase turbulent flows, using laser and Fabry-Perot interferometer 06 p0933 A69-17252
- Differential equations for two phase flow in axisymmetric supersonic nozzle, discussing existing solutions 06 p0861 A69-17815
- Temperature profiles and heat transfer coefficients in two phase liquid-liquid stratified laminar flow of variable immiscible film thickness with surface evaporation 09 p1622 A69-21904
- Size and velocity measurements of particles suspended in gas expanding from nozzle into vacuum simulating cometary two phase flow with evaporation 10 p1674 A69-23686
- Speed of sound and shock waves in two phase flows of liquid metal MHD generators, considering droplets uniformly dispersed in gaseous phase 13 p2245 A69-27475
- Laser Doppler method for measuring local particle velocities in two phase flows of liquid-metal MHD generators 13 p2260 A69-27476
- Two phase MHD generator with gas in liquid metal emulsions, discussing loops efficiency 13 p2306 A69-27479
- Effective electrical conductivity of two phase vapor-potassium flow in flat duct at flow temperature 800 C, showing dependence on volumetric vapor content 13 p2306 A69-27480
- Air-water and steam-water flows in two phase Laval nozzles, measuring flow rates and temperature and pressure variation 13 p2245 A69-27481
- Energy conversion with liquid metal working fluids in MHD generators, discussing single stage fully Carnotized process 13 p2372 A69-27482
- Liquid metal multistage injection efficiency with sodium and potassium working fluids, noting preheating 13 p2372 A69-27483

TWO PHASE SYSTEMS

Liquid metal two phase flow MHD generators efficiency prediction, discussing end losses and flow velocity 13 p2205 A69-27485

Two phase two dimensional turbulent jet analysis for predicting uncertainty in measured value of mixing coefficient 13 p2247 A69-27787

Gas-liquid critical flows, considering compressibility, rate of momentum, mass and heat transfer, etc 13 p2376 A69-28144

Time of flight measurement for velocity of micron sized particles in two phase flow by light transmission method 13 p2263 A69-28243

Coupled heat and mass transfer with zero order reactions in two phase systems consisting of drops, bubbles or solid particles 14 p2537 A69-29012

Gas and polydispersed condensate parameters of nonequilibrium two phase flow in Laval nozzle, considering particle collisions and coagulation, energy exchange and momentum exchange 14 p2391 A69-29621

Simulation of two phase hydrogen venting to space environment, discussing thrust effect measurements, flow instabilities and instrumentation 15 p2701 A69-30396

Two phase flow mixing shocks, obtaining expressions for pressure and entropy changes, discussing shock stability and gas entrapment mechanism 16 p2768 A69-31589

Two dimensional analysis of isentropic perfect gas flow fields in axisymmetric nozzles for transonic two phase flow initial values, calculating particle trajectories [AIAA PAPER 69-572] 16 p2731 A69-31847

Hydrogen oxygen rocket engine two phase liquid hydrogen pump capability and hydrodynamic design, analyzing constant-quality flow, acoustic effects, compressible flow and cavitation [AIAA PAPER 69-549] 16 p2845 A69-32759

Book on gas dynamics of two phase media for thermal power engineering equipment, discussing phase transformations, condensation in high velocity flows, etc 17 p2948 A69-32951

Wave propagation in gas particle flow, obtaining fourth order particle differential equation from perturbation theory 18 p3121 A69-34772

Similarity applied to dynamics of disperse media, discussing role of dimensionless numbers in mechanics of suspensions and two phase flows in porous media 19 p3300 A69-36775

Slip ratios in annular two phase flow for case of laminar flow in film and no entrainment of liquid in vapor [ASME PAPER 69-FE-43] 20 p3517 A69-37995

Soviet monograph on turbines and jet nozzles for two phase flows covering gas-particle velocity and temperature differences, turbine design, etc 20 p3586 A69-38209

Continuously operating multipurpose wind tunnel for laser light scattering experiments in supersonic two phase flow 21 p3689 A69-38596

Interphase momentum transfer during propagation of infinitesimal pressure pulse through bubbly flow two phase mixture 24 p4409 A69-43511

Bubble flow evolution at various pressures up to critical value [ASME PAPER 69-HT-30] 24 p4411 A69-43529

Choking and shock in flashing single component two phase flow in tube, including vibrational effects, predicting minimum stagnation pressure loss [ASME PAPER 69-HT-61] 24 p4303 A69-43535

Pulsating mechanisms in alternative gas and liquid blocks two phase flow, using stochastic process specified by dynamic pressure time dependent fluctuations 24 p4305 A69-43633

TWO PHASE SYSTEMS

U BINARY SYSTEMS [MATERIALS]

TWO REFLECTOR ANTENNAS

Cassegrain two reflector antenna modification by discrete phase array, allowing for subunit redesign 04 p0572 A69-14326

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasing 06 p0895 A69-17462

Antenna gain increase, using matched pair of Cassegrain reflectors with one primary source 10 p1664 A69-23799

Tuning of two mirror antennas in near zone with various mirror combinations, discussing field cophasing 20 p3508 A69-37945

Structure, operation and performance of two reflector Nancy radio telescope consisting of plane and spherical portion reflectors 23 p4149 A69-42124

Rosman I reflector antenna for collecting data from earth orbiting satellites, discussing dynamic analysis of structural response to natural frequencies 23 p4231 A69-42133

TWO STAGE TURBINES

Scale models of M-1 rocket engine oxygen and hydrogen pump driven two stage turbines used to determine performance and compact inlet manifolds problems [AIAA PAPER 69-553] 16 p2840 A69-32678

TYCHO CRATER

Lunar near side crater overlap, considering formation of Tycho Association 21 p3800 A69-38676

TYPE 2 BURSTS

Type 2 radio bursts and corona magnetic field over active center 06 p0985 A69-16979

Solar flare event on 17 June 1968 consisting of two type 2 bursts followed by enhanced emission [possibly type 4] 09 p1582 A69-22750

Dynamic spectrum of July 7, 1966 proton flare, considering short wave fadeout at 0027 UT and intense burst of spectral Type 2 10 p1765 A69-23750

Type 2 radio burst dynamic spectra determination for finding shock wave and magnetic field parameters above active corona region 11 p1945 A69-24243

Homology within solar flare associated type 2 radio events from dynamic spectra 17 p3024 A69-33803

Solar flare flux density and dynamic spectrum on 30 October 1968 at 80 MHz, showing noise storm positions and type II-III burst sources 17 p3025 A69-33807

Type II and type III solar radio burst relation to plasma instability associated with coherent synchrotron deceleration of electrons, discussing resonant power exchange 22 p4007 A69-40898

Solar corona instabilities and shock waves indicated by type 3 and 2 bursts, considering electrons ejection 24 p4378 A69-42689

TYPE 3 BURSTS

Polarization degree of type solar radio bursts dependent on heliographic longitude 04 p0649 A69-15242

Type 3 bursts spectra graphical representation, giving probable solar origin and curves of corona temperature 05 p0824 A69-16060

Type 3 solar radio noise bursts at hectometer wavelengths, deducing coronal electron temperatures from decay rates 09 p1594 A69-21665

Type 3 solar flare circular and linear polarization at 23.5 MHz frequency 11 p1945 A69-24244

Type 3 radio bursts time profile for estimating magnetic field strength in solar corona 15 p2675 A69-30554

Solar flare flux density and dynamic spectrum on 30 October 1968 at 80 MHz, showing noise storm positions and type II-III burst sources 17 p3025 A69-33807

Type 3 bursts spectra graphical representation, giving probable solar origin and curves of corona temperature 20 p3591 A69-37970

Type 3 solar radio bursts observed during April-October 1967 for two alternative models of active region streamers in outer corona 22 p4003 A69-40300

Type II and type III solar radio burst relation to plasma instability associated with coherent synchrotron deceleration of electrons, discussing resonant power exchange 22 p4007 A69-40898

Solar corona instabilities and shock waves indicated by type 3 and 2 bursts, considering electrons ejection 24 p4378 A69-42689

TYPE 4 BURSTS

Structure of sources of noise storm enhancement and stationary type 4 bursts, discussing head and tail components 02 p0328 A69-12735

Type 4 bursts mobile spectrum of september 1966 interpreted by considering plasma effects on synchrotron emission mechanism 02 p0309 A69-12735

Solar microwave type 4 bursts spectra and decay rate time variations 04 p0648 A69-14366

Gyro synchrotron emission spectrum and intensities through solar electrons radiating in coronal magnetic fields applied to type IV solar radio bursts 04 p0650 A69-15524

Solar type 4 bursts characteristics accounted for by cyclotron mechanism, assuming models of spot magnetic field configuration and electron density distribution 07 p1205 A69-18953

Spectrum variations of type 4 radio burst as sources rises through solar corona, determining electron density and magnetic field distributions in corona 08 p1380 A69-20772

Solar moving type 4 burst emitting synchrotron radiation, noting electron acceleration in collisionless shock wave in corona 09 p1578 A69-22058

Two solar flare initiated type 4 radio bursts on 4 and 6 May 1968, noting prominence activity leading to meter wave generation 09 p1582 A69-22749

Decametric radio spectra from 0053 to 0200 UT during July 7, 1966 solar proton flare, discussing Type 4 phase 10 p1765 A69-23751

Dynamic spectrum of Type 4 solar radio burst during July 7, 1966 proton flare, noting limb effect 10 p1765 A69-23752

Circular polarization in moving type 4 burst compared to stationary type 4 burst and related to preceding type 2 sources 17 p3024 A69-33808

4 October 1965 type IV solar burst, studying acceleration mechanisms for fast electrons by comparing fine structure at various frequencies 22 p4001 A69-39983

Synchrotron radiation HF cut-off resulting from electrons with anisotropic pitch angle distribution for type IV solar radio bursts 22 p4006 A69-40577

Type 4 bursts maximum intensities at different frequencies compared for centimeter and decimeter waves 24 p4366 A69-42964

TYPE 5 BURSTS

Type V continuum emissions from solar flares suggested as due to synchrotron radiation from protons spiraling in magnetic field, noting Type III emission 22 p4003 A69-40301

TYPHOONS

Onset and development of typhoons observed by Cosmos satellites using TV type IR apparatus [UN PAPER 68-95774] 06 p0949 A69-17035

Satellite radiation maps for synoptic analysis regarding world weather maps, discussing front, intertropical convergence zones and typhoon location 14 p2473 A69-29729

Wind and cloud velocities from ESSA 3 and 5 and ATS 1 pictures for typhoon and tropical vortices in intertropical convergence zone 21 p3758 A69-38371

U

U TUBES

U MANOMETERS

U.S.S.R.

Soviet pipe production technology from Ti and Ti alloys, considering properties and methods improvement 07 p1164 A69-18787

Soviet literature on coding theory and applications stressing contributions to nonSoviet specialists 09 p1460 A69-21399

Soviet supersonic transport Tu 144, describing wing unit, fuselage, passenger accommodation, tail unit, landing gear, power unit engine nacelle and navigation 10 p1634 A69-23833

- British and Soviet D region electron density distributions from same VLF and LF propagation data
14 p2439 A69-29112
- U.S.S.R. manned bomber role in air strategy, discussing mutual effects of U.S.-U.S.S.R. military posture developments and ICBM
14 p2392 A69-29431
- Reflector radio telescope of Pulkovo astronomical observatory noting high resolution
15 p2679 A69-30102
- Soviet efforts to market civil aviation equipment in West
18 p3232 A69-34538
- Tupolev Tu-154 three jet transport featuring automatic flight control system with inertial and Doppler navigation inputs, low speed wing devices
18 p3092 A69-34933
- Geomagnetic field micropulsation observations by U.S.S.R. and possible applications to diagnostics of magnetosphere
19 p3304 A69-36642
- Ionospheric radio wave absorption seasonal and diurnal variations over Tiflis from pulsed ionospheric sounding at 2.2 MHz
20 p3491 A69-37677
- Soviet high temperature plasma physics research, discussing magnetic plasma containment by Tokamak traps
23 p4196 A69-42167
- MIG-21 fighter aircraft development, characteristics and technical and operational data
24 p4251 A69-42795
- Beriev Be-12 cranked wing seaplane design including technical and operational data
24 p4251 A69-42796
- U.S.S.R. SPACE PROGRAM**
- Handbook on Soviet space science research covering rockets, satellites, space probes, biomedical investigations, atmospheric composition
01 p0154 A69-10935
- Soviet postwar rocket program, discussing rocket sounding, biomedical experiments, etc
01 p0162 A69-10936
- Soviet artificial earth satellites, discussing Sputnik, Polet, Elektron, Cosmos, Molniya and Vostok series
01 p0162 A69-10937
- Soviet lunar and planetary probes, reviewing payload characteristics, principal mission features and photographs associated with Luna, Mars, Venera and Zond series
01 p0162 A69-10938
- Micrometeorite and meteoric dust data obtained in Soviet space flights
01 p0155 A69-10939
- Chemical composition of upper atmosphere and interplanetary space measured by Soviet sounding balloons and rockets, discussing flask sampling techniques
01 p0025 A69-10940
- Soviet rocket and satellite night, twilight, airglow and auroral studies, discussing day sky brightness, night airglow and atmospheric stratification
01 p0066 A69-10941
- Upper atmosphere physical properties, discussing density and temperature
01 p0066 A69-10942
- Soviet space astronomy including rocket, satellite and space probe measurements for solar, stellar, planetary and lunar studies
01 p0155 A69-10946
- Physiological measurements onboard Soviet bioprobes and biosatellites including electrocardiography, phonocardiography, sphygmography, seismocardiography and pneumography
01 p0015 A69-10947
- Soviet literature on extraterrestrial life and civilization emphasizing establishment of contact by radio and laser sources
01 p0016 A69-10953
- Soviet rocketry origin, technology, launch vehicles, boosters and orbital assembly concept
01 p0162 A69-11066
- Weightlessness effects research during Soviet and U.S. manned space flights
02 p0199 A69-12120
- Soviet satellite exploration of space magnetic fields and charged particles, noting Proton satellites and protons and carbon nuclei inelastic interactions [UN PAPER 68-95768]
06 p0986 A69-17031
- Satellite actinometric data computerized reduction in U.S.S.R., examining computer program features [UN PAPER 68-95763]
06 p0916 A69-17038
- Atmospheric heat sources and heat sinks distribution based on Cosmos satellite data
06 p0949 A69-17048
- U.S.S.R. system Meteor consisting of four Cosmos satellites in polar orbits to observe cloud distribution, snow and ice field boundaries, etc
06 p1013 A69-17053
- Soviet explorations of moon, Venus, Mars and interplanetary space, noting objectives of future lunar explorations [UN PAPER 68-95719]
06 p1000 A69-17055
- Soviet space program /1969/ objectives, Soyuz vehicle and future missions
06 p1002 A69-17265
- Soviet achievements in space research, comparing satellites with U.S. counterparts
06 p1005 A69-17561
- Rules for selecting Soviet cosmonauts and physiological studies concerning heart and respiratory reactions to accelerations and weightlessness during preparation
07 p1060 A69-18569
- Soviet cosmonauts physiological reactions during weightlessness, analyzing EKG, arterial pressure, heart and respiratory rates and motion coordination
07 p1060 A69-18570
- Physiological and medical tests on Soviet cosmonauts onboard Voskhod spacecraft, assessing CNS, cardiovascular and respiratory systems and work-rest schedule
07 p1060 A69-18571
- Vela 4 satellite energetic particle experiment, describing instruments design and operation [IEEE PAPER 3C-2]
07 p1134 A69-19196
- Soviet lunar effort in Luna probe series, outlining characteristics, performance and missions
09 p1609 A69-21583
- Soviet satellites rotation periods from processing of photometric observations
12 p2069 A69-26440
- Space research in U.S.S.R. including Venera 4 soft landing mission for measuring temperature, pressure, density and atmospheric composition of Venus
12 p2160 A69-26921
- Soviet space program, discussing launch sites, series of launch vehicles and mission identification
13 p2381 A69-27303
- Soviet lunar probe Zond 6 achievements in controlled Earth landing and lunar surface photography
13 p2355 A69-27342
- Collection of Soviet papers on U.S.S.R. outer space studies /1957-1967/ covering rocket and satellite sounding, meteorology, radiation belts, etc
13 p2335 A69-27346
- Soviet rocket and satellite studies of upper atmosphere and ionosphere
13 p2251 A69-27347
- Soviet meteorological and geophysical rockets, satellites and techniques in cloud studies and weather forecasting, noting Cosmos results
13 p2290 A69-27348
- Soviet satellite-borne radio waves studies of ionosphere, considering wave amplitudes, Doppler frequency shifts and outer ionosphere properties
13 p2252 A69-27349
- Van Allen radiation belts proton and electron components recorded by Soviet lunar probes and Cosmos and Elektron satellites
13 p2326 A69-27350
- Cosmic rays during 11-year solar cycle, short term variations and radial gradient based on Luna, Zond and Venera probes and Cosmos observations
13 p2326 A69-27351
- Soviet satellite and probe studies of earth, moon, Venus and Mars magnetic fields, noting automatic magnetometer
13 p2336 A69-27352
- Soviet astronomical radio-astronomical probe and orbiter lunar studies including surface photography, gravitational and magnetic measurements and soft landed probes
13 p2336 A69-27353
- Interplanetary plasma measurements by Luna, Mars 1, Zond 2 and Venera 3 probes, including solar plasma flux energy spectra diagram
13 p2336 A69-27354
- Solar radiation in short wave, UV and X ray range recorded by rockets, probes and satellites, notably Elektron 2 probe
13 p2326 A69-27355
- Soviet space biology and medicine, discussing ecological physiology, closed system ecology, exobiology and medical tests on cosmonauts
13 p2209 A69-27356
- Soviet space efforts /1957-1967/, discussing rocket, probe, spacecraft and satellite launchings and scientific results
13 p2336 A69-27358
- Tabular listing of Soviet satellites, spacecraft, probes and rockets launched between October 1957 and October 1967
13 p2355 A69-27359
- Thermionic reactors U.S.S.R. space and other programs, considering power output, heat exchange and losses, neutron physics and design parameters
14 p2404 A69-29277
- Soviet space exploration including Cosmos and Proton satellites, Luna project and Zond and Venera probes
18 p3201 A69-35163
- Soviet space stations design based on orbital docking techniques for unrestricted mass size and number of modules, describing wheel shaped station
19 p3431 A69-36465
- Soviet space flights preliminary to formation of scientific space station
24 p4391 A69-42798
- UBV SPECTRA**
- UBV photoelectric observations of Nova Delphini 1967 at Bologna Observatory
20 p3599 A69-37475
- Giant stars UBV reddening line slopes determined from photometric data
20 p3608 A69-38047
- Cepheid variable stars distance estimated from UBV three color photoelectric photometry data
22 p4031 A69-40943
- Photoelectric observations of eclipsing binary 32 Cygni during 1968 eclipse using standard UBV color filters, tabulating results of UBV photometry
22 p4032 A69-40946
- UBV magnitudes for open cluster NGC 559 stars determined from combined photoelectric and photographic measurements
23 p4211 A69-41490
- Narrow and intermediate band photometry of globular star clusters in uvby and beta photometric systems, relating reddening to metal abundances of member stars
24 p4387 A69-43352
- UH-1 HELICOPTER**
- Production history of Model UH-1 /Huey/ helicopter power transmission, discussing producibility [SAE PAPER 680675]
03 p0433 A69-13450
- Compound rotary wing aircraft research, discussing XH-51A maneuverability program and UH-1 high Mach and high advance ratio program [AIAA PAPER 69-218]
07 p1056 A69-19568
- ULLAGE ROCKET ENGINES**
- Propellant orientation and expulsion methods in space vehicle tankage, discussing ullage rockets system, bladders and diaphragms, dieletrophoretic expulsion, etc
16 p2736 A69-31734
- ULM (LIGHT MODULATION)**
- U ULTRASONIC LIGHT MODULATION**
- ULTRA SHORT WAVE RADIO EQUIPMENT**
- U VERY HIGH FREQUENCY RADIO EQUIPMENT**
- ULTRAHIGH FREQUENCIES**
- Microwave instabilities in bulk GaAs under strong electric fields, considering characteristics connected with structural properties and contact formation conditions
01 p0136 A69-10256
- S band solid state amplifier capable of 10 watts output power based on combination of transistor amplifiers
02 p0217 A69-12147
- Low noise room temperature satellite broadcast receiver for UHF, using room temperature parametric amplifiers
05 p0728 A69-15672
- VHF to UHF conversion, noting modular UHF telemetry transmitter, miniature UHF special purpose transmitter, RF power amplifiers and telemetry receiver
05 p0732 A69-16305
- Gunn effect pulse generator for antenna arrays operating at decimeter wavelengths with external power source
06 p0895 A69-17459
- Harmonic generation of S band signal inside plasma column at resonance
06 p0965 A69-17488
- UHF high power klystron for DESY synchrotron, discussing design, short circuited load operation, phase variations and optimum RF outputs
07 p1096 A69-18434

Conversion from VHF to UHF at White Sands Missile Range, discussing telemetry acquisition, tracking and receiving systems

07 p1077 A69-18828

Kwajalein Missile Range UHF telemetry conversion program using S band antennas with three channel monopulse autotrack systems

07 p1077 A69-18829

Sun as calibration signal source for L and S band telemetry, discussing receiving system noise temperature determination and antenna gains

07 p1082 A69-19113

Adaptive airborne VHF/UHF transmitter system, discussing design, ground isolation, current limiting, internal telemetry, wideband frequency response, real time video signals, etc

07 p1106 A69-19114

Lincoln experimental satellites, discussing transition to UHF bands and orbital launching

07 p1087 A69-19630

Synthesis method for UHF transistor oscillators tunable in wideband using Y-matrices

08 p1285 A69-20380

Multichannel microwave amplifier at L band frequencies, using several amplifiers in parallel

09 p1466 A69-22446

Microwave instabilities in bulk GaAs under strong electric fields, considering characteristics connected with structural properties and contact formation conditions

09 p1559 A69-22649

Parametric amplifying systems with lumped reactive nonlinear elements, emphasizing UHF systems

11 p1844 A69-24448

Fading velocity short period characteristics and duration and depth of field strength variations over transhorizon path compared with corresponding atmospheric parameters

12 p2028 A69-25897

Love-wave propagation at UHF observed by thin film surface wave transducers

13 p2218 A69-27203

UHF transistor small signal internal behavior, using computer simulation for deriving current gain alpha locus, current gain and f sub T

13 p2227 A69-27241

Integrated S-band parametric amplifier design, combining low noise performance at room temperature with broadband flat gain and linear phase response

13 p2230 A69-27678

S-band telemetry capability of Easter Test Range, discussing relationship to Telemetry Rehabilitation Project, major system decisions and performance characteristics

14 p2410 A69-28878

VHF to UHF telemetry bands transition implemented by Naval Weapons Center

14 p2411 A69-28880

Output impedance measurements for accurate calibration in UHF region, using mobile discontinuity and bolometer for linear or nonlinear systems

14 p2422 A69-29583

UHF propagation in spherically stratified superrefractive troposphere with trapping surface layer, discussing distant field strength dependence on refractivity profile

16 p2752 A69-32388

Transistorized L band oscillator tuned by Ga-doped YIG, discussing ferrimagnetic material properties and device equivalent circuit

16 p2761 A69-32450

Microelectronic S band upconverter designed and fabricated in microstrip on alumina substrate

16 p2762 A69-32562

Wide tuning range S band low noise maser amplifier system, discussing bandwidth, gain and packaging for antenna mounting

17 p2979 A69-32914

Experimental SST terminal for satellite L band communications/surveillance ATC system, establishing terminal requirements for NASA and FAA studies

17 p2932 A69-34118

Gunn effect pulse generator for antenna arrays operating at decimeter wavelengths with external power source

20 p3508 A69-37942

L and S band transmitters for space applications, discussing power and frequency stability, low intermodulation, inputs isolation, efficiency, size and weight

23 p4137 A69-41740

Power combining network for high power UHF solid state satellite transmitters with low loss, compact size and input port selection capability

23 p4137 A69-41743

S band antenna systems for missiles, designed in various types to obtain RF telemetry links reliability by sharing effort between airborne and ground station equipment

23 p4137 A69-41753

Frequency diversity technique simplifying airborne antennas for UHF telemetry, useful on spin stabilized vehicles requiring omnidirectional antenna coverage

23 p4122 A69-41777

UHF down-converter design used in various Navy missiles UHF telemetry/miss-distance information system

23 p4137 A69-41778

Portable UHF telemetry receiving station for medium range surface-to-air missiles testing, analyzing antenna coverage over water and system prediction allowing variable parameters

23 p4122 A69-41780

Cosmic ray flux intensity increases, discussing effects of solar wind, corpuscular flux velocity and interplanetary magnetic field

23 p4205 A69-41838

Meter and decimeter wavelength range short period fading under conditions excluding optical sights, correlating specular and diffuse reflection

24 p4281 A69-42612

UHF satellites for mobile, broadcast and low cost services, discussing bandwidth expansion, interference effects, ground linking, UHF partition, satellite antenna sizes, etc

24 p4282 A69-42872

ULTRAHIGH VACUUM

Vacuum system for obtaining highly purified plasmas for thermocuclear investigations noting decontamination cycles and chamber characteristics

03 p0412 A69-13839

Ultrahigh vacuum electron microscope using differential sputter ion pumps to obtain low contamination environment

04 p0599 A69-15016

Dry sliding friction and wear in ultrahigh vacuum, emphasizing slip rings and brushes for space applications

07 p1138 A69-18561

European research on ultrahigh vacuum lubrication in space environments, emphasizing friction of materials under various loadings and temperatures

07 p1138 A69-18564

Electrostatic charge distribution on ultrahigh vacuum cleaved silicates including instrumentation, UV irradiation, half life, Paschen relation, etc

13 p2322 A69-28018

Solar simulator built into multiwall ultrahigh vacuum chamber, describing simulator and chamber modifications

22 p3921 A69-40377

High temperature vacuum treatment of thick stainless steel sheets reducing hydrogen content and outgassing

22 p3958 A69-41217

Desorption of hydrogen and methane from Al, Mg and Mb under room temperature tensile deformation in ultrahigh vacuum

23 p4176 A69-41541

ULTRALOW FREQUENCIES

U EXTREMELY LOW RADIO FREQUENCIES

ULTRAPURE METALS

Brittleness and physical causes of cold shortness in Cr, discussing high purity metal formation and fine and superfine grain structures synthesis

09 p1526 A69-22147

Thermal diffusivity and conductivity of rolled plane parallel spectrally pure palladium preheated in vacuum and high temperatures

15 p2636 A69-30045

Ultrasonic and mechanical vibration effects on superpure Al and Al-Zn-Mg alloy, showing dependence of breaking stress on cycles

16 p2801 A69-31789

Book on high purity beryllium metallurgy for nuclear reactor applications covering physical properties, crystallography, thermodynamics, production methods, etc

17 p2986 A69-32952

Manufacturing ultrahigh purity aluminum strip for cryogenic magnets, discussing ingot preparation, rolling, chemical milling and cleaning, arc welding, annealing and sampling

19 p3318 A69-35541

ULTRASONIC AGITATION

Ultrasonic vibrations effect on emission of ruby laser with externally mounted mirrors

13 p2271 A69-27534

Dry dynamic friction of brass disk against steel surface reduced using ultrasonic oscillations creating air gap

18 p3135 A69-34587

Automatic ultrasonic method for determining dissolved gases content in liquid sample, using increasing acoustic oscillations amplitude for bubble development

19 p3308 A69-35829

Ultrasonic vibrations effect on emission of ruby laser with externally mounted mirrors

20 p3556 A69-38201

Ultrasonic oscillations effects on magnetic permeability of ferrite circuit components

23 p4138 A69-41871

ULTRASONIC LIGHT MODULATION

Modulated wave holography for detecting and reconstructing ultrasonic beam path, noting applicability to vibrating objects analysis

10 p1694 A69-23364

Laser pulse deflection by acoustooptical system consisting of ultrasonic cell and oscillator

11 p1840 A69-25423

High power ruby laser pulse generation by diffraction modulator, employing modulated ultrasonic traveling waves at minimum resonator transmission losses

24 p4328 A69-43163

ULTRASONIC RADIATION

Ultrasonic diffraction delay line operation interpretation as radar chirp signal correlator

01 p0026 A69-10072

Multiple velocity dispersion in normal hydrogen and normal hydrogen-helium mixtures at room temperature using ultrasonic interferometer

01 p0121 A69-11284

Electronic attenuation of 10 to 130 MHz longitudinal ultrasonic waves in superconducting high purity TI, noting energy gap anisotropy

03 p0485 A69-13293

Electronic attenuation of 10 to 130 MHz longitudinal ultrasonic waves in nonsuperconducting high purity TI, noting anisotropy and measurements below 4.2 K

03 p0485 A69-13294

Pulse compression by optical correlation techniques, discussing laser beam control by diffraction grating in ultrasonic delay line

03 p0397 A69-13732

Direct amplification of ultra and hypersonic surface waves in semiconducting crystals of wurtzite group, taking into account drift effects and boundary conditions

03 p0490 A69-13925

Vacuum deposition of thin film microwave acoustic transducers of piezoelectric aluminum nitride

05 p0761 A69-15820

Ultrasound propagation amplification coefficient in high permittivity semiconductors with electric field based electron-phonon interaction

05 p0809 A69-16372

Laser beam scattering by acoustic waves of ionized crystal, reconsidering stimulated Brillouin emission theory for ultrasonic yield

05 p0777 A69-16610

Velocity of 1 MHz sound waves in He 4 along isotherms just above critical temperature, noting specific heat ratio for 4.5 and 5 K isotherms

06 p0957 A69-17142

Acoustical and microwave holography obviating need for real or simulated reference wave, using recording time for reference

06 p0928 A69-17902

Holographic displays using ultrasonic vibrations or laser outputs as optical sources, discussing recording materials, responses and computer applications

09 p1492 A69-21394

Typographical spatial correlation filtering methods for reconstructing holographic images with ultrasonic waves, noting application to flaw recognition

10 p1696 A69-23551

Electrical equivalent circuit for piezoelectric generation and detection of transient and sinusoidal ultrasonic waves by interdigital electrodes

12 p2039 A69-26376

Characteristic temperature, Young modulus and rms atomic displacement in metal borides of various porosities, using dynamic method based on ultrasonic oscillations measurement

12 p2115 A69-26615

Two temperature gasdynamics for binary gas mixtures of differing molecular weight components, analyzing ultrasound and shock wave propagation

13 p2250 A69-28447

Ultrasonic pulse-echo-overlap method modified for simultaneous measurement of time delay and relative voltages in determining sound velocities and attenuation of solids

14 p2450 A69-29567

Schlieren and photoelastic methods for continuous and pulsed ultrasonic waves propagating in transparent media, discussing nondestructive testing applications

15 p2617 A69-31510

Ultrasonics for wrought and cast aluminum alloys nondestructive testing, discussing ultrasonic energy damping measurements

16 p2800 A69-31778

Magnetic field effects on ultrasonic propagation in high field superconductors

16 p2826 A69-31825

Ultrasonic velocity dispersion in para hydrogen and mixtures with He, Ne and Ar at 300 K, obtaining rotational relaxation times

16 p2815 A69-32791

Ultrasonic spectrometry application to thickness measurement of thin and thick walled articles

18 p3137 A69-35110

Book on ultrasonics theory and application covering generation, propagation and dissipation of ultrasonic waves of high and low intensities

20 p3545 A69-37903

Al and Mg alloys as ultrasonic wave acoustic lines, considering sound velocity, damping factor, grain size, chemical composition, etc

20 p3564 A69-38290

Flaw determinations accuracy from measuring ultrasonic shear wave reflection peak intensities

24 p4397 A69-42756

ULTRASONIC SPEEDS

U SUPERSONIC SPEEDS

ULTRASONIC TESTS

Ultrasonic detection and measurement of fatigue cracks in notched cylinders subjected to reversed axial cyclic loading

01 p0078 A69-10113

Ultrasonic holography applications in nondestructive testing, describing conversion of ultrasonic field into optical field

01 p0078 A69-10132

Ultrasonic quality control test methods for melt through welds in hydraulic line assemblies, noting equipment and surface roughness requirements

02 p0252 A69-11810

Beryllium nondestructive tests, discussing eddy current inspection, ultrasonics, film radiography and scintillation [SAE PAPER 680652]

03 p0444 A69-13546

Fatigue mechanism in fcc metals at ultrasonic frequencies, comparing microstructural changes in copper and alpha-brass

04 p0613 A69-14448

Ultrasonic sounding for controlling dispersed gas phase in liquid pipelines under laboratory and practical conditions

04 p0596 A69-14489

Ultrasonic search units in nondestructive tests, discussing piezoelectric materials and contact and immersion services

07 p1139 A69-18795

Ultrasonic thermometry for nuclear reactors based on temperature dependence of sound velocity in solids, discussing simulation experiments [IEEE PAPER 1C-4]

07 p1134 A69-19186

Ultrasonic inspection of soundness and penetration or corner welds for Zircaloy 2 casings, discussing method reliability and sensitivity limits

07 p1141 A69-19346

Magnetic tape recording of ultrasonic test information with oscilloscope used for playback

07 p1117 A69-19697

Copper diffusion coefficient in undoped n-type gallium arsenide measured by ultrasonic method

09 p1555 A69-21471

Pulse echo ultrasonic nondestructive testing of C-5 adhesive bonded aluminum composites with multiple bond lines

10 p1698 A69-23047

Ultrasonic technique for metal surface and near surface residual stress measurement, emphasizing aluminum alloys

10 p1794 A69-23052

Ultrasonics for automatic measurements of temperature and elastic moduli above 5000 F

10 p1694 A69-23373

Mechanical damping and electrical matching effects on bandwidth of piezotransducer in ultrasonic flaw detection equipment

10 p1697 A69-24073

Piezoelectric transducer theory, discussing acoustically matched sandwich type damper and calculating frequency characteristics

10 p1697 A69-24074

Flow detection inaccuracies in shadow method due to interference effects when using Babinet principle

10 p1675 A69-24075

Book on ultrasonic methods in solid state physics covering stress wave propagation in solids, pulse methods of velocity change and attenuation measurements and causes of losses

12 p2145 A69-26870

Ultrasonic images detection for nondestructive testing including surface-relief technique, Pohlman cell and scanning with piezoelectric transducers

13 p2269 A69-28661

Ultrasonic detection and measurement of fatigue cracks in notched cylinders subjected to reversed axial cyclic loading

14 p2445 A69-28882

Copper diffusion coefficient in undoped n-type gallium arsenide measured by ultrasonic method

15 p2669 A69-30716

Delta technique for ultrasonic weld inspection, noting ability to detect randomly oriented weld defects

15 p2631 A69-31508

X ray and ultrasonic methods for surface residual stresses induced in machined or ground specimen

15 p2631 A69-31511

High temperature ultrasonic testing to measure and control solid materials early in processing

15 p2632 A69-31514

Ultrasonic inspection systems to determine and record bond quality on all adhesive bonded assemblies of Saturn S-2 booster and Apollo Command and Service Modules

15 p2632 A69-31515

Eddy current and ultrasonic applications to aircraft engine inspection, discussing electric and magnetic methods for quality control during fabrication

15 p2632 A69-31516

Ultrasonic probe selection and standardization for nondestructive testing, discussing instrument sensitivity and probe losses

15 p2617 A69-31517

Ultrasonics for wrought and cast aluminum alloys nondestructive testing, discussing ultrasonic energy damping measurements

16 p2800 A69-31778

Ultrasonic and mechanical vibration effects on superpure Al and Al-Zn-Mg alloy, showing dependence of breaking stress on cycles

16 p2801 A69-31789

Stress corrosion cracks investigation by shear wave technique

16 p2876 A69-32334

Nondestructive ultrasonic, spectroscopic and TV test methods reducing time for inspection and increasing reliability of turbines

17 p2978 A69-33330

Automatic ultrasonic instrument monitoring on-line welding conditions of RF longitudinally seamwelded tubes

18 p3136 A69-34778

Ultrasonic detection of gas bubbles in blood, discussing device with bubble chamber attached to circulating liquid and receiver crystal harmonics

18 p3098 A69-34821

Integral scalar equation describing signal attenuation by acoustically soft disk for mirror-shadow method of ultrasonic flaw detection

18 p3137 A69-35109

Automatic ultrasonic inspection device search head, servomechanism and electronic system used for detecting weld defects and cracks

18 p3137 A69-35111

Pulsed ultrasonic flaw detectors resolving power enhancement by shunting semiconductor diodes across piezoelectric elements of scanning heads to shorten scan pulse duration

18 p3137 A69-35112

Ultrasonic nondestructive testing technique for fatigue induced damage location and criticality in filament wound fiberglass cylinders, correlating damage to residual life

19 p3322 A69-35577

Echo amplitude measurements in ultrasonic testing to estimate flaw sizes and difficulties from artificial reflecting targets

19 p3323 A69-35578

Acoustic visualization for nondestructive testing, describing image formation by lenses, reflectors, holography, Bragg diffraction and phase contrast

20 p3512 A69-38269

Ultrasonic Doppler flowmeter for detection of circulating gas emboli of animal blood vessels during decompression

21 p3663 A69-38915

Ultrasonic method for detecting strength defects in filament wound materials

21 p3733 A69-39798

Nondestructive testing techniques for flaw and defect detection, discussing radiography, ultrasonics, penetrants, thermal and magnetic methods, etc

23 p4169 A69-41529

Optimal focusing of acoustic system for tube defectoscopy with circular normal waves

24 p4296 A69-42655

Thickness direction tensile properties, ultrasonic attenuation and mild steel plate lamellar tearing in multipass fillet joints measured by weld cracking test

24 p4320 A69-42942

ULTRASONIC WAVE TRANSDUCERS

Ultrasonic quality control test methods for melt through welds in hydraulic line assemblies, noting equipment and surface roughness requirements

02 p0252 A69-11810

Acoustic holographic measurement of surface deformation generated by sound waves impinging on gas-liquid interface, discussing acoustic amplitude components

10 p1695 A69-23542

Crack growth measured and recorded by ultrasonic monitor, describing transducer position and movement

20 p3547 A69-38312

ULTRASONIC WELDING

Resistance welding monitoring systems including thermal expansion slow scan ultrasonic and electric energy monitor/limiter systems

02 p0253 A69-11864

Vacuum evaporated thin film components welding, using torsional ultrasonic vibrations for joint activation

04 p0605 A69-14561

Ultrasonically assisted installation of fasteners for weight savings in aircraft/spacecraft structures

09 p1478 A69-22373

ULTRASONICS

Electroacoustic amplifier based phonon devices, using surface waves on piezoelectric materials to speed radar data real time processing

03 p0394 A69-13353

Ultrasonic holograms and optical reconstructions derived by scanning receiver or source

06 p0930 A69-18228

Phonon interactions with recoilless gamma rays, considering usability of Mossbauer effect as probe for VHF acoustic experiments

10 p1724 A69-23088

Imaging ultrasound by holography with reconstruction in light, comparing methods using scanned hologram and liquid surface

10 p1695 A69-23543

Acoustical transparencies illuminated by sound waves for optical imaging and ultrasonic diffraction, noting application to visualization of inhomogeneities in samples

10 p1695 A69-23546

Hologram obtained by recording interference pattern displayed by ultrasonic camera, discussing real time viewing

10 p1696 A69-23550

Ultrasound holography for imaging opaque structures, noting distortion due to long wavelength of sound field and distortion reduction techniques

13 p2265 A69-28663

Ultrasonic pulse velocity and attenuation measurement in presence of noise, using coherent detection and signal averaging

14 p2449 A69-29564

Electronic-ultrasonic amplifiers with external electron stream and longitudinal or surface wave studied for damping influence, deriving dispersion equation

16 p2761 A69-32061

Book on ultrasonic testing of materials covering ultrasonics application to nondestructive testing, flaw detection and quality control

16 p2790 A69-32125

Book on ultrasonics theory and application covering generation, propagation and dissipation of ultrasonic waves of high and low intensities

20 p3545 A69-37903

Ultrasound-echo-encephalography in diagnosis of posttraumatic intercranial hemorrhage of skull and brain trauma, noting neuroradiological techniques

21 p3652 A69-38790

Flow profile effect on signal of Doppler ultrasonic flowmeter, noting limited application to quantitative blood circulation measurements 23 p4166 A69-42085

Optical imaging problems in ultrasonic holography including distortion, resolution and depth of field 23 p4366 A69-42181

Temporal reference acoustical holography with Sokolov ultrasound camera system using double pulsed ruby or scanning CW laser 23 p4166 A69-42182

Abnormally slow ultrasound diastolic slope detected by mitral valve motion study in patients with clinically pure mitral insufficiency 24 p4261 A69-42727

Ultrasonic paramagnetic resonance investigations of Pr ions ground state energy levels in calcium fluoride 24 p4360 A69-42790

Ultrasonic diffraction delay lines technique to extend radar systems range without affecting target pinpointing capability 24 p4286 A69-42901

Sonic riveting of aircraft Al alloys, noting no evidence of forging bursts, cracking, splitting, tearing and springback 24 p4320 A69-43060

ULTRAVIOLET FILTERS

Red leak corrections for UV filter on color UV indices for stars of various spectral types using winter-redened response curve 19 p3426 A69-36566

ULTRAVIOLET PHOTOMETRY

Venus UV photographs and drawings shown in short interval sequences, noting left to right shift in color features 02 p0320 A69-12111

Photoelectric light diagrams for eclipsing binary star 08 p1392 A69-20565

Rocket-borne photoelectric photometers for UV observations of Saturn, using interference filters 09 p1602 A69-22216

Metallicity index Q value difference between cluster and noncluster galaxies determined from UV, blue and violet observation data 10 p1774 A69-22964

Wavelength dependence of polarization and UVRI photometry of highly polarized stars, correlating IR interstellar extinction with maximum polarization wavelength 12 p2153 A69-25809

Seyfert galaxy NGC 4151 electrophotometric investigation in UVB, confirming nucleus optical variability observed in visible and IR 15 p2686 A69-30536

Response color curves of U, B, V photometric system compatible for stellar observation, including U revision 15 p2689 A69-30562

Photometer for simultaneous stellar photometry in UVB bands, purposes and performance characteristics and circuit diagrams 16 p2790 A69-32209

UVB photometry of southern quasars, radio galaxies and normal galaxies including two color diagrams, radio luminosity, brightness and color distribution 16 p2859 A69-32228

Epsilon CrA light and color curves analyzed from UVB photoelectric photometry observations 16 p2863 A69-32398

UVB photoelectric investigation on southern globular clusters NGC 2808 and 1851, presenting star magnitudes and colors in tabular form and estimating reddening 18 p3190 A69-34290

Solar far UV images systematic photometry for thin solar models in terms of quiet sun intensity 20 p3603 A69-37546

Sunspot size and shape in continuous spectrum regions from photometric observations in UV and red ranges 20 p3616 A69-38301

ULTRAVIOLET RADIATION

NT FAR ULTRAVIOLET RADIATION

NT LYMAN ALPHA RADIATION

NT LYMAN BETA RADIATION

NT NEAR ULTRAVIOLET RADIATION

Photodegradation of organic polymers by UV radiation exposure, emphasizing polyvinyl chloride photochemistry and radiation stabilization 01 p0102 A69-10861

UV and visible light interaction effect on biological activity of Paramecia unicellular infusoria, noting cell division rates and cell deaths 01 p0017 A69-11085

Lethal effect of solar UV radiations on dried Coliphage T-1 exposed to space at sounding rocket altitudes 01 p0017 A69-11086

Ionospheric and stratospheric UV radiation effects on survival of microorganisms 01 p0018 A69-11088

UV and X ray radiations of stars and interstellar gas of Milky Way and remote galaxies 02 p0316 A69-11906

Radiative lifetimes for four N II excited states emitting UV during transition to lower level 02 p0280 A69-11928

Ruby laser to study stimulated Mandelstam-Brillouin scattering in liquids and in various crystals in UV 03 p0438 A69-13053

Q switched laser based on light waves parametric interaction in nonlinear medium operating at wavelengths from UV to IR 03 p0439 A69-13054

Intensity of visible and UV light from beam of positive deuterium molecular ions excited by passage through thin C foil 03 p0471 A69-13166

Trapped radical relationship to inactivation of trypsin exposed to UV by measuring radical concentration and inactivation degree 03 p0372 A69-13486

UV induced excited-state properties of DNA using optical emission and electron spin resonance methods 03 p0372 A69-13488

UV astronomy, discussing vehicle stabilization, un-stabilized sounding rockets, scanning satellites, balloons, stabilized rockets, pointing satellites, optics and detectors 05 p0821 A69-15839

UV solar spectra observation, discussing coordination of ground based and satellite programs 05 p0822 A69-15861

High power continuous and quasi-continuous wave UV generation by ADP and KDP crystals in argon-ion laser cavity [IEEE PAPER B-1] 05 p0773 A69-16308

Continuous UV noble gas ion lasers, noting small signal gain and power output limit at various current densities for strong lines [IEEE PAPER L-1] 05 p0775 A69-16321

Limb darkening and central intensity of solar disk measured in UV 05 p0827 A69-16466

UK space research in 1970s emphasizing solar observations in UN, cosmic X ray astronomy, solar space astronomy and ionospheric investigation 06 p0997 A69-16853

High power noble gas CW UV ion laser with W disk structure, showing continuous UV output limitation by optical degradation effects 06 p0936 A69-17900

Sustained combustion initiation in subatmospheric gaseous fuel-oxidant mixtures by UV radiation at room temperature, measuring parameters as function of mixture pressure [AIAA PAPER 69-88] 06 p0983 A69-18118

Surface UV irradiated MgO powder catalytic activity for hydrogen-deuterium exchange reaction 07 p1073 A69-18374

Radiative opacity in stellar atmospheres, discussing effect of UV continuum on photospheric radiation field 07 p1221 A69-19393

Cultured Chinese hamster cells responses to UV light of different wavelengths indicating photon absorbing molecules inhibition of colony development 07 p1068 A69-19492

Soviet monograph on UV radiation of sun and sky emphasizing biological effects 07 p1221 A69-19506

Dissociation-ionization fronts in interstellar molecular hydrogen clouds, analyzing effects of UV radiation from early stars 07 p1221 A69-19584

Highly ionized low density plasmas production by strong UV radiation 08 p1360 A69-20080

Sky areas search for stars with UV excesses listed in Luyten Two-Tenths Catalog of Proper Motions 08 p1392 A69-20560

Electron bombardment effects on performance characteristics of UV gratings 08 p1318 A69-21097

Daytime clear sky light polarization in UV and visual spectral regions calculated with considerations for aerosol components polarization effect 09 p1491 A69-22708

X ray and extreme UV radiation deduced from sudden ionospheric disturbances during proton flare, discussing time dependence of emission 10 p1766 A69-23751

Polyesters reaction with dimethyl p-phenylenediamine compared under UV exposure from carbon arc and natural sunlight 10 p1716 A69-23970

Polarization observation of star BL Lac continuum by multichannel scanner, noting photoelectric UV observations and identification with radio source 10 p1785 A69-24094

Pulsed molecular nitrogen laser positive UV and systems interaction under varying gas pressure, applied voltage and tube diameters 11 p1893 A69-24344

Solar UV radiation measurements by balloon-borne monochromatic illuminator, using Cd-cathode photomultiplier detector 11 p1945 A69-24414

Intergalactic gas temperature and density reevaluated, considering neutral hydrogen distribution in galaxies peripheries and metagalactic background ionizing UV radiation 11 p1946 A69-24588

Effective cross sections of UV radiation absorptions by molecular oxygen in Schumann-Runge bands at high temperatures 11 p1921 A69-24617

Rocket-borne spectroheliograph for monochromatic solar photography in Mg II 2802.7 Å line noting filter bandwidth, film polarizers and temperature control 11 p1884 A69-24838

Second tacite sounding rocket test for measuring UV radiation in transition zone between upper ionosphere and space 11 p1887 A69-25212

Microorganism survival in space for exposure to solar UV radiation on balloons, rockets and satellites 11 p1828 A69-25457

Gas ionization by UV radiation emitted by pellet, target or portion of gas in laser beam focus, using polished metallic mirrors 11 p1901 A69-25758

Calculated UV spectra of solar radiation reflected from atmosphere compared with satellites photometric measurements, attributing radiation intensity distribution asymmetries to seasonal dependence of ozone content 12 p2064 A69-25952

Empirical determination of heating efficiency of extreme solar UV radiation interacting with carbon dioxide atmosphere of Mars and Venus 12 p2155 A69-26015

Rocket observations of visible and UV dayglow using electron density and temperature measurements for emission rates of various excitation mechanisms 12 p2076 A69-27108

Optical radiation detection from pulsar PSR 0833-45 associated with supernova remnant in Vela, noting UV excess from plates using U and B filters 13 p2337 A69-27516

Neodymium laser emission of organic molecules in UV region noting molecular absorptivity and fluorescence 13 p2271 A69-27657

Ionization processes in Seyfert galaxies, considering thermal electrons, superthermal protons and electrons and nonthermal UV radiation 13 p2346 A69-27710

Markarian galaxies with strong UV continuum, observing emission lines differing from each other 13 p2351 A69-27866

Outgassed condensation effects in vacuum on magnesium difluoride overcoated UV irradiated Al mirrors, including temperature effects, Lyman alpha reflectance and IR analysis of deposits 13 p2299 A69-28015

UV radiation decreased transmittance through quartz exposed to plasma at high temperature and pressure, showing dependence on heated surface layer absorption 14 p2490 A69-29159

Solar UV radiation reflected from Echo satellites measured and compared with UV fluxes from Lyrae 14 p2447 A69-29408

Solar UV radiation effects on processes in comet head, interpreting surface brightness distribution of comet 1959k in terms of photodissociation 14 p2525 A69-29717

Astronomical UV radiation observation by OAO 2 satellite, discussing solar images, corona, chromosphere and UV spectrum, stellar evolution, etc 15 p2689 A69-30597

- Molecular dissociation by line radiation absorption, applying results to hydrogen molecules in H I region dissociated by photons of mean interstellar UV radiation field
15 p2693 A69-30783
- Balloon-borne UV polarimetry of stars and planets, studying linear polarization between 2000 and 3000 Å
15 p2616 A69-31380
- Photoionizing effect of hydrogen and helium UV glow in nighttime ionosphere compared with ground based IF ionosonde and sounding rocket observations
15 p2605 A69-31436
- Calorimetric measurement of source and broadband spectral absorptances of spacecraft thermal control coatings during exposure to UV in vacuum environment
16 p2789 A69-31815
- Instrument for simultaneous observation of astronomical plate pairs for detection of stars with UV color excess
16 p2791 A69-32226
- Solar corpuscular and UV radiation variation relationship to midlatitude airglow intensity in O I line
16 p2850 A69-32322
- UV irradiation effects on ZnO spacecraft thermal control coating pigments, discussing photo-Hall, luminescence and electron paramagnetic resonance measurements
[AIAA PAPER 69-639] 17 p2992 A69-33288
- Gas products evolved from selected thermal control coating materials during UV radiation in vacuum, noting permanent reflectance loss
[AIAA PAPER 69-640] 17 p2992 A69-33289
- UV absorption coefficients of high temperature air measured in shock tube reflected region
18 p3230 A69-35073
- UV excitation intensity increased for improving luminescent nondestructive testing, describing UV dosimeter and irradiation standards
18 p3138 A69-35115
- Solar cell integral covers optical losses in vacuum as function of degradation by UV exposure, noting accelerated testing for time-cost reduction
19 p3253 A69-35703
- Postirradiation growth of cultured Chinese hamster cells exposed to UV light, including comparison with X irradiation
19 p3257 A69-35975
- Markarian galaxies with strong UV continua, discussing emission spectra, red shift, absolute magnitudes, etc
19 p3426 A69-36577
- Previous radiation exposure effect on photographic film noting increased sensitivity at UV frequencies
19 p3314 A69-36626
- Microorganisms death by exposure to high intensity visible and UV light, discussing effect of endogenous photosensitized oxidation on caratoid-containing Rhodotorula glutinus
20 p3475 A69-37613
- Atmospheric ozone detection by three-color photometer measurements of solar UV radiation attenuation in Hartley continuum
20 p3543 A69-37802
- Photoelectric measurements of UV absorption coefficients of high temperature air at specific temperature and wavelength ranges in pressure-driven shock tube
22 p4049 A69-40098
- Gases effects on UV irradiated thermal control materials spectral reflectance, discussing tests and photolysis mechanisms
[AIAA PAPER 69-1025] 22 p3923 A69-40395
- Auroral UV and 3914 Å radiation during charged particle precipitation measured by satellite
22 p3939 A69-40507
- Light sources in 0.15-20 micron spectral range from published literature, unpublished reports, light source manufacturers and individuals
23 p4191 A69-42190
- ULTRAVIOLET REFLECTION**
- Earth albedo instrument on OSO 3 spacecraft to measure solar reflectance of earth at various wavelengths
15 p2614 A69-31279
- Diffuse reflection of UV radiation from rough metallic surfaces, noting irregularities
21 p3770 A69-38796
- ULTRAVIOLET SPECTRA**
- Stellar UV objective prism spectra from Gemini 11 and 12 manned flights
01 p0153 A69-10870
- OSO-4 solar UV spectrum measurements, correlating chromospheric line intensity and photospheric magnetic field strengths
[AAS PAPER 68-219] 02 p0313 A69-11485
- Effective temperature values of ozone used to determine onset time and disturbance height in ionosphere
02 p0238 A69-11670
- Absorption oscillator strengths of Ba 2 lines in UV and visible spectral regions, using cascade arc in argon with barium vapor
02 p0242 A69-11872
- IR and violet sulfur lines for Seyfert galaxies, noting substantial reddening in nuclei
02 p0325 A69-12593
- Far UV spectra of O and B stars in Orion photographed from Aerobee rocket, describing wavelength measurements and line identifications
02 p0327 A69-12712
- Continuum position location and total line absorption in solar spectrum, using Houtgast high dispersion intensity measurements of UV region
05 p0828 A69-16611
- Metal atom production by bombarding metal with positive ions from microwave discharge, obtaining isolation in inert gas matrix and UV spectra
06 p0957 A69-17113
- UV emission spectrum of double star Boss 1985, excitation potential effect on Fe II lines and table identifying emission lines
08 p1385 A69-20060
- Population densities of UV bound resonance lines of neutral helium for 41-level model atom, discussing optical thickness and electron temperature and density
08 p1390 A69-20392
- Present state of abundance determination in solar corona, discussing forbidden and UV lines analysis
08 p1402 A69-20907
- Polar auroral far UV spectra using Ebert-Fastie monochromator flanked by photometers with same visual field
08 p1311 A69-21026
- Collision broadening cross sections of OH UV transition at room temperature, using flash photolysis
09 p1543 A69-22252
- Far UV stellar astronomy, concerning very hot stars and interstellar gas composition studies
10 p1772 A69-22870
- Far UV spectra of zeta Puppis and gamma star two Velorum with 1.6 Å resolution photographed with all reflective objective spectrograph on Aerobee rocket
10 p1788 A69-24120
- Venus and Jupiter low resolution UV spectra obtained with servocontrolled star tracking telescope in Aerobee rocket, noting Lyman alpha radiation characteristics
[JHU-TR-15] 10 p1788 A69-24121
- Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 Å from reflector observations
11 p1957 A69-24406
- Lunar far side surface spectral inhomogeneities in UV from Zond 3 measurements
12 p2154 A69-25817
- Calculated UV spectra of solar radiation reflected from atmosphere compared with satellites photometric measurements, attributing radiation intensity distribution asymmetries to seasonal dependence of ozone content
12 p2064 A69-25952
- High speed streak camera for recording fast processes, noting changeability from optical to UV spectral range
12 p2085 A69-26155
- Spheroidal galaxies with early type spectra distinguished by UV continuum, discussing telescopic spectral and color observations
12 p2159 A69-26663
- Blue, UV and yellow spectral observations of M 82 (NGC 3034), obtaining polarization dependence on reciprocal of wavelength, polarization and color characteristics
12 p2169 A69-27057
- Photoelectric scanning of CH Cygni spectrum calibrated and compared with 45 Arctis, discussing high dispersion, excess blue and UV continua, H beta emission, etc
13 p2338 A69-27557
- Hydrogen to He ratio effect on stellar atmospheric structure, considering flux relations, UVB color indices, H line profiles, electron and gas pressures
13 p2339 A69-27562
- Spectrophotometry of variable star SS Cyg, analyzing energy distribution in continuum, UV gradient and Balmer jump
13 p2351 A69-27868
- Goddard Experiment Package /automated spaceborne telescope design/ for stars and nebulae UV spectral emittance measurements
13 p2261 A69-27948
- Scientific aims, optical design, instrument data, control and orbit operation of European Large Astronomical Satellite used in UV observations
13 p2264 A69-28477
- Effective temperature values of ozone used to determine onset time and disturbance height in ionosphere
13 p2257 A69-28701
- Forbidden transition probabilities of solar corona lines in vacuum UV range
14 p2519 A69-29355
- High speed photographs of plasma emission spectra in UV and soft X radiation spectrum regions, discussing theory, design and operation of facilities
14 p2496 A69-29784
- Ca XV spectrum in vacuum UV under laboratory conditions, discussing fine structure of ground level of Ca XV and coronal lines
15 p2688 A69-30553
- Absolute spectrophotometric gradients determined from energy distribution in UV beta Lyr spectrum, confirming gradual variations in light curve shape and spectral characteristics
15 p2688 A69-30557
- Ozonosphere inhomogeneities from UV spectra of reflected solar radiation, studying latitude dependence of seasonal behavior at different heights
15 p2597 A69-30654
- Photometric calibration correction for (B-V) and (U-B) colors taking into account hydrogen line blocking
15 p2694 A69-30786
- UV OGO observations of atomic hydrogen and oxygen in airglow, comparing results to exospheric models of hydrogen geocorona
15 p2603 A69-31400
- Lyrid and Perseid meteor spectra for spectral line identifications in 3100-4000 Å UV range, listing lines from six neutral atoms and five ions
15 p2700 A69-31500
- Coronal Fe ionization lines X, XIII and XIV photographed by UV coronagraph
16 p2847 A69-31661
- UVB photometry of faint stars, discussing photographic plate effect on accuracy, emulsion standardization and use of electronography
17 p3031 A69-33099
- Photoelectric spectra of pulsating auroras in visible and near UV range, considering atmospheric opacity
17 p2961 A69-33416
- Lignin presence in New Zealand moss gametophytes observed for characteristic color reaction and UV spectra, noting contrast with north temperate species
17 p2912 A69-34176
- Transition probabilities of N I far UV multiplets, comparing experimental and theoretical results
18 p3178 A69-35413
- Ozone vertical distribution predicted statistically, using total ozone amounts and backscattered UV spectral measurements
18 p3132 A69-35426
- Solar UV emission lines from high resolution rocket observations
20 p3612 A69-38167
- Tabulation of solar UV spectrum features between 3650 and 3000 Å from intercomparison of photoelectric records and Second Revised Rowland, indicating wavelength relocations
22 p4014 A69-40146
- Power per unit volume of UV and forbidden lines emitted by ionized C, N, O and Ne as function of electron temperature and density
22 p3984 A69-40157
- Mars upper atmosphere ionized carbon dioxide and CO emission spectra in 1900-4300 Å region measured by Mariner 6, observing atomic hydrogen and oxygen lines
22 p4023 A69-40568
- Rocket UV spectra indicating Venus atmosphere weak absorption and low ozone abundance and possible Jupiter surface depressions
22 p4028 A69-40661
- Molecular N UV spectrum at various pressures, showing absorption band dependence on pressure induced dipole transitions
22 p3986 A69-40723
- Rocket measurement of far UV spectral intensity of theta Orionis for far UV interstellar extinction law in Orion nebula region
22 p4030 A69-40770
- Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 Å from reflector observations
24 p4391 A69-43796

ULTRAVIOLET SPECTROMETERS

Rapid scan spectroscopy, reviewing dispersion optical and interferometric systems and electronic image converters

01 p0082 A69-10836

Ebert spectrometric experiment during Mars flyby aimed at detecting upper atmosphere atoms, ions and molecules in 1100-4300 angstrom spectral range [AAS PAPER 68-184]

02 p0311 A69-11469

OGO 4 UV airglow spectrometer consisting of Ebert-Fastie monochromator and photomultipliers with cesium telluride and cesium iodide channels

19 p3315 A69-36682

ULTRAVIOLET SPECTROPHOTOMETERS

Spinning rockets UV spectrophotometry of early type stars, discussing instrumentation, calibration, data recording and stellar spectra

12 p2153 A69-25812

UBV observations of stars P and 36 Cygni including short period variations and secular changes in brightness

12 p2172 A69-27159

Solar photography at extreme UV wavelengths using pinhole camera instrumentation on stabilized Skylark rocket

20 p3539 A69-37545

Interstellar extinction in UV from zeta and epsilon Persei spectra obtained with scanner attached to telescope mounted in pointed Aerobee rocket

22 p4030 A69-40772

ULTRAVIOLET SPECTROSCOPY

Vacuum UV perturbation spectroscopy compatibility with resonance transitions in Ar ion laser

08 p1324 A69-20161

Transmission and reflection properties of materials for vacuum UV spectroscopy, using LTE plasmas for calibrating UV intensities

08 p1315 A69-20468

Thermodynamic dissociation constants of alkyl phenols in aqueous and methanol media based on UV spectroscopic analysis, noting anticarcinogenic properties

11 p1831 A69-24539

Schmidt all-reflecting telescope for UV imaging in Apollo Earth Orbital Scientific Experiment

11 p1887 A69-25101

Astronomical UV radiation observation by OAO 2 satellite, discussing solar images, corona, chromosphere and UV spectrum, stellar evolution, etc

15 p2689 A69-30597

Magnetically focused electronographic image converters in far UV photography and spectroscopy in space astronomy applications

17 p2972 A69-33084

Magnetically focused electronographic image converters for far UV photography and spectroscopy from sounding rockets, discussing stellar observations

20 p3543 A69-37801

Spaceborne planetary UV spectroscopic search for atoms and molecules basic to life, specifically molecular N and water vapor photodissociation products

23 p4113 A69-41616

UMBILICAL CONNECTORS

EVA/IVA fluid umbilical improved stowability and flexibility, discussing cross section development and tests

[AAS PAPER 69-470]

24 p4272 A69-42847

UMBRA (SHADOWS)

U SHADOWS

UMKEHR EFFECT

Atmospheric haze effect on Umkehr measurements, considering computation from direct sounding of vertical ozone distribution and from model atmospheres

08 p1308 A69-20316

Vertical ozone profiles computed from known total ozone data based on profiles taken by Umkehr method

15 p2597 A69-30896

Vertical ozone distribution determination discrepancies between Brewer-Mast electrochemical sonde and Umkehr methods, discussing influence of seasonal and diurnal variations

16 p2786 A69-32630

Simultaneous Umkehr observations of vertical ozone distribution in upper stratosphere using two Dobson photometers, discussing deviations due to calibration sensitivity

16 p2786 A69-32631

Zenith sky Umkehr observed with Dobson spectrophotometer at twilight, discussing light scattering by aerosols in lower stratosphere

16 p2786 A69-32634

UNCAMBERED WINGS

U RING WINGS

UNCERTAINTY

U PROBABILITY THEORY

UNCONSCIOUSNESS

NT NARCOSIS

Physical and physiological factors involved in determining aircraft passengers time of safe unconsciousness permissible after cabin decompression

24 p4278 A69-43398

UNCOUPLED MODES

Electromagnetic field TM and TE modes uncoupling during oblique incidence scattering from radially inhomogeneous cylinders

15 p2565 A69-30170

UNDAMPED OSCILLATIONS

Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect

04 p0679 A69-14905

Plate theories of linearly elastic materials under free undamped vibration, giving 500 references [AIAA PAPER 69-24]

06 p1027 A69-18061

Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect

12 p2182 A69-26658

UNDERCARRIAGES

V/STOL undercarriage design, considering influence of aircraft operation, engine installation, rough/soft ground capability, etc

09 p1435 A69-22781

UNDERGROUND EXPLOSIONS

Lunar craters compared with underground explosion craters on earth, determining criteria for identifying explosion craters on moon

04 p0656 A69-14670

UNDERGROUND NUCLEAR EXPLOSIONS

U NUCLEAR EXPLOSIONS

UNDERGROUND STORAGE

Materials evaluation for devices with long term underground exposure, including field tests at tropical locations

19 p3321 A69-35568

UNDERWATER PROPULSION

Aerodynamic considerations of high speed hydrodynamics for underwater craft, noting rocket propulsion

13 p2245 A69-27418

UNDERWATER TESTS

Book on groups under stress covering psychological research in SEALAB 2, emphasizing planning of data collection and experimental results

04 p0552 A69-14533

Aluminum corrosion characteristics immersed in ion-exchanged water with trace impurities, determining corrosion rates

04 p0617 A69-14932

Radiative flux density, spectrum and temporal behavior of Q switched laser induced underwater sparks

05 p0771 A69-15818

Underwater experiment to determine man capability to perform scientific mission during 60 days isolation, noting task performance, social interaction and personal adjustment

08 p1300 A69-20113

Heart rate and respiratory response correlations in men during surface and underwater work, showing reasonable approximations of workload in surface-equivalent terms

14 p2406 A69-29293

Neutral buoyancy simulation of astronaut performing module replacement and repair task in zero-g environment [AIAA PAPER 69-1005]

22 p3921 A69-40379

UNDERWATER VEHICLES

U SUBMARINES

UNIAXIAL STRAIN

U AXIAL STRAIN

UNIDENTIFIED FLYING OBJECTS

UFOs from sociological viewpoint, stressing need for international cooperation in exobiological research

17 p3076 A69-32974

UNIFORM FLOW

NT BLASIUS FLOW

Boundary layer equations for uniform motion of semiinfinite flat plate through incompressible conducting fluid at rest and in magnetic field, using numerical method

03 p0477 A69-13794

Expansion tube modification incorporating nozzles plate at secondary diaphragm for reducing flow nonuniformity and contamination

[AIAA PAPER 68-371]

09 p1477 A69-21960

Turbulent boundary layer velocity distributions in uniform/accelerated compressible flow over flat plates using change of variables based on mixing length formula

[ONERA-TP-693]

11 p1867 A69-24752

Incompressible uniform shear flows merging behind trailing edge of semiinfinite flat plate, using inner-outlet expansion method based on Navier-Stokes equation

13 p2248 A69-28212

Transient uniform flow over sphere at intermediate Reynolds numbers with recirculatory wakes, utilizing difference approximation to time dependent Navier-Stokes equations

18 p3120 A69-34435

Uniform flow and wall boundary layer growth measurement in conical nozzle of reflected shock tunnel operating at high enthalpy conditions

24 p4247 A69-43572

UNIPOLAR TRANSISTORS

U FIELD EFFECT TRANSISTORS

UNIQUENESS

Uniqueness formulation of concentrated loads problem in linear theory of couple-stress elasticity

02 p0338 A69-117202

Existence and uniqueness of weak solutions in linear theory of stable equilibrium position for inhomogeneous elastic thin walled shells

02 p0340 A69-12036

Existence and uniqueness for nonlinear boundary value problems satisfying Lipschitz condition

10 p1721 A69-23640

Uniqueness and nonuniqueness of solutions of initial value problems for second order semilinear parabolic equations

10 p1722 A69-24069

UNIQUENESS THEOREM

Uniqueness and existence theorem concerning stability of solutions of mixed nonlinear boundary value problem, discussing generalized heat transfer phenomena

02 p0352 A69-12255

Boundary value problem of hyperbolic equation with discontinuous boundary conditions

04 p0622 A69-14617

Asymptotic oscillation results for solutions to first order nonlinear differential-difference equations, obtaining existence-uniqueness theorems

04 p0624 A69-14950

Uniqueness theorem validity for boundary value problem in linear elastostatics for homogeneous media

05 p0844 A69-16739

Existence and uniqueness theorem for functional equation of optimal control problems, noting stability of solution

06 p0949 A69-17889

Methods to obtain uniqueness for partial differential/elliptic equations boundary problem extended to parabolic conditions, analyzing necessary conditions for existence

07 p1173 A69-18728

Complex variable theory usefulness in investigating existence and uniqueness of solutions for boundary values in partial differential equation

07 p1173 A69-18731

Uniqueness conditions of expansions in series of functions stressing Jacobi series applied to singular partial differential equations

07 p1174 A69-18805

Uniqueness theorem for laminar MHD duct flows

07 p1190 A69-18813

Reciprocity, variational and uniqueness theorems developed within linear theory of coupled thermoviscoelasticity

07 p1233 A69-19327

Periodic asymptotically stable MHD motions, proving uniqueness and existence theorems

07 p1194 A69-19437

Uniqueness theorem for equations of dynamics of viscoelastic bodies, using energy and hereditary elasticity considerations

08 p1415 A69-20658

Existence and uniqueness of Dirichlet problem solutions for elliptic type equations with measurable and bounded coefficients

08 p1343 A69-20659

Problems using Fredholm integral equations providing unique solution

08 p1418 A69-21004

Almost periodic systems stability criteria derived from differential inequalities and Liapunov function, considering existence and uniqueness

09 p1532 A69-21612

Existence and uniqueness to boundary layer continuation problem based on flow equation for steady gas flow

10 p1679 A69-23569

Criteria governing solution uniqueness to Volterra equations system

10 p1722 A69-24067

Solution existence of nonlinear two point boundary value problems from uniqueness

11 p1909 A69-24883

Pseudodifferential operators theory application to uniqueness of solutions of Cauchy problem

12 p2124 A69-26930

Dirichlet problem for second order linear hyperbolic partial differential equations in cylindrical domain, deriving necessary and sufficient condition for solution uniqueness

12 p2124 A69-26932

Nonuniqueness in Hopf weak solutions for Navier-Stokes equations using solutions with rotational symmetry

14 p2428 A69-28900

Riemann problem with arbitrary jump data for extended hyperbolic systems of equations, showing conditions for unique solution

14 p2433 A69-29678

Magnetothermoelasticity equations, uniqueness and reciprocity theorems and solutions emphasizing moving media

15 p2715 A69-31215

Existence and uniqueness theorems for operator equation in differential equations theory for application to boundary value problem

19 p3360 A69-36373

Uniqueness theorems for energy methods solution of equations of dynamic thermoelasticity and viscoelasticity

19 p3439 A69-36470

Heat transfer problem involving temperature determination of body and ambient medium, deriving existence and uniqueness theorems for boundary value problems in curvilinear regions

20 p3631 A69-36991

Method of straight lines applied to two phase Stefan type problem for quasi-linear parabolic equation, obtaining existence and uniqueness of solutions

20 p3567 A69-36992

Uniqueness theorems for wave propagation in homogeneous or inhomogeneous anisotropic media

20 p3578 A69-38196

First order linear differential equations subject to linear constraints, discussing solution uniqueness dependence on matrix nonsingularity

21 p3754 A69-38744

Prandtl boundary layer theory problems, considering solution uniqueness and stability, unsteady flow, boundary layer separation, existence conditions, etc

21 p3697 A69-39698

Rigid/plastic solids subjected partly to uniform fluid pressure and partly to general boundary conditions, analyzing uniqueness and stability criteria

23 p4235 A69-42460

Uniqueness theorem and successive approximations for delay functional differential equations, noting scalar problems

24 p4341 A69-43236

UNITED NATIONS

Book on international law and uses of outer space covering effects of UN General Assembly Resolutions and Outer Space Treaty

02 p0356 A69-12676

Legal and technical aspects of international cooperation in spacecraft crew rescue operations signed by UN General Assembly

06 p1042 A69-17033

Outer space law principle sources including divine law, UN and NASA contractors regulations

15 p2720 A69-31052

INTELSAT 1964 agreements consistency with multilateral international agreements, including UN General Assembly and International Telecommunication Union

20 p3638 A69-37122

Space law history, discussing Space Treaty and UN Declaration of Legal Principles

20 p3638 A69-37128

Space law and space research, detailing UN law proposals

20 p3638 A69-37129

UNITED STATES OF AMERICA

NT CALIFORNIA

NT HAWAII
NT NEW JERSEY
NT NEW MEXICO
NT NEW YORK
NT TEXAS
NT WASHINGTON

Space program effects in education, science and engineering, noting impact of first satellite on U.S. research and technology

01 p0179 A69-10500

Atmospheric optical data recorded by instrumented aircraft near Crater Lake, discussing surface spectral irradiance data

01 p0111 A69-10846

Weathering tests on wrought aluminum alloys exposed at U.S. sites compared to British industrial atmospheric exposure results

01 p0101 A69-11354

U.S. space program projections, discussing earth orbit operations, lunar and planetary explorations, costs and timetable

02 p0355 A69-11744

Aerospace management technology transferability to problems of society and government

02 p0355 A69-11754

U.S.-European cooperation in space activities, discussing implementation by COSPAR and jointly owned industrial corporations

03 p0535 A69-13586

Cooperation in developing space programs between Western Europe and U.S.

03 p0535 A69-13588

Cooperation between U.S. and Europe in communication satellite programs

03 p0535 A69-13591

Topics and objectives of Third Europe U.S.-European Conference, Munich, June 1968

03 p0535 A69-13594

U.S.-European cooperation, stressing unsatisfactory role of European industry and governments in space projects

03 p0536 A69-13595

VFX fighter aircraft, discussing U.S. Navy requirements influence in VFX-1 and VFX-2 design

03 p0367 A69-13675

Federal government contracting, discussing legality of NASA service contracts

05 p0850 A69-15987

Federal government legal liability for commercial air safety in aircraft accident suits

06 p1042 A69-16848

Tort system of U.S. law effect on air safety promotion, discussing liability influence on government, manufacturers and airlines

06 p1042 A69-16850

U.S. aerospace programs, reviewing manned space missions, space applications, space science, transportation, strategic and tactical warfare and influence on aerospace industry

07 p1243 A69-18376

U.S. policy for commercial surface effects ships regulation, discussing operational, construction and design requirements

08 p1254 A69-20199

National plan for air navigation covering R and D and operational aspects

08 p1348 A69-21192

Federal Government budgeting, discussing systems analysis, planning-programming, etc

10 p1811 A69-23351

Federal Government systems politics and budgeting, noting dichotomies, time dependence, taxonomy, etc

10 p1811 A69-23352

Federal Government policies analysis, discussing disadvantages of planning-programming-budgeting system /PPBS/

10 p1811 A69-23353

Potential hazards of government sponsored technology, examining SST and fluoridation projects and weather problems

10 p1811 A69-23392

Possible sources of meteoritic material from Hopewell Indian burial mounds

11 p1963 A69-25401

U.S.-Europe air traffic, attributing European lag to dense air route duplication, load factors, etc

13 p2381 A69-27338

U.S.S.R. manned bomber role in air strategy, discussing mutual effects of U.S.-U.S.S.R. military posture developments and ICBM

14 p2392 A69-29431

National plan for air navigation covering R and D and operational aspects

14 p2480 A69-29858

Report on U.S. space science program to COSPAR on stellar and solar astronomy, lunar and planetary research, upper atmospheric physics, etc

15 p2723 A69-31430

Relative technological standing of U.S. and Europe, discussing meaning and existence of technology gap

17 p3076 A69-34040

Expenditures for R and D effect upon U.S. economy

17 p3076 A69-34041

Educational TV satellite system design for U.S. in 1970s

18 p3235 A69-35076

Technical and economic factors of program to provide communications services via satellite facilities in continental U.S.

21 p3678 A69-39762

U.S. aerospace technological forecasting involving space flight, air transport and V/STOL aircraft

22 p4052 A69-39930

Accident prevention program of Bureau of Aviation Safety, discussing probable cause analysis and function in feedback loop, hazard analysis and accident data center

22 p3867 A69-41140

UNITS OF MEASUREMENT

Astronomical unit determined by measuring Doppler shift of spectral features of galactic hydrogen

07 p1222 A69-19590

Astronomical unit determined by measuring radial velocity of radio wavelength spectral line source

13 p2350 A69-27822

Thermal physiology standardized symbols compilation for units of measurement

23 p4078 A69-41317

UNIVAC COMPUTERS

Pivotal computer operations in Apollo NASA Communication Network, describing UNIVAC computers in use and design considerations

18 p3100 A69-34267

UNIVERSAL TIME

Ephemeris Time and Atomic Clock Time roles in astronomy, discussing errors in daylength determination for mechanical, Short and atomic clocks, UT and Ephemeris Time

01 p0156 A69-10989

Electronic charge variations with cosmic time determined from geochronological data

06 p1003 A69-17323

Analytical description of planetary distribution of space-time variations of f0F2, deriving Fourier series as function of UT

09 p1486 A69-21545

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison

11 p1957 A69-24407

Theories for universal time controlled polar F region reevaluated in light of satellite low energy charged particle observations

12 p2065 A69-26103

Analytical description of planetary distribution of space-time variations of f0F2, deriving Fourier series as function of UT

16 p2783 A69-32540

Bright lunar limb zenith distances measured by equal altitudes method, deriving Ephemeris-Atomic Time A3 and Ephemeris-TU2 time relations

23 p4208 A69-41289

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison

24 p4391 A69-43797

UNIVERSE

Neutrino radiation in universe with emphasis on stellar neutrino radiation, analyzing emission during nuclear fusion of C-N, He and Ne-Na cycles

01 p0145 A69-10754

Metagalaxy temperature brightness explained from radio sources combined radiation with inversion spectra

02 p0313 A69-11632

Observable surface of part of Friedmann universe calculated using analytical continuation of Schwarzschild coordinate system, noting angular extent and angle of observation effect

02 p0314 A69-11644

Book on cosmic radiation origin and expansion of universe, covering astrophysical reasons for electric charging of galaxies in range of galactic and metagalactic dimensions

02 p0315 A69-11713

Radioactive decay of neutral pions generated in metagalactic cosmic ray interactions as source of high energy isotropic gamma rays observed by OSO-3
02 p0308 A69-12092

Topochrone and generalized Hubble law considered for singular origin of universe with big bang explosions
02 p0321 A69-12195

Normal galaxies radio emission and brightness of metagalactic radio background
02 p0325 A69-12564

Plasma generation in universe from temperature and pressure effects, ionizing radiation and stellar ejection of ionized particles
02 p0293 A69-12781

Metagalactic cosmic rays, galactic halo and sources of cosmic rays in Galaxy, noting models, electron component of cosmic rays and evolutionary cosmology
03 p0497 A69-12929

Sun motion with respect to extragalactic universe, discussing local supercluster kinematics
03 p0513 A69-13769

Observable horizons in expanding universe, considering absorption of extragalactic radiation
04 p0648 A69-14566

Intergalactic continuum study showing universe behavior like black body with 2.7 K radiation temperature, noting cosmological and cosmogenic importance
05 p0827 A69-16593

X ray astronomy use for probing hot regions of outer space and high energy electrons
06 p0991 A69-17307

Particle radiations and magnetic fields in metagalaxy, discussing galactic injection spectrum problems
06 p0991 A69-17310

Cosmology, discussing big bang and steady state models, arrow of time, red shift/distance relation, background radiation, etc
07 p1210 A69-18390

Cosmic ray astrophysics, discussing chemical composition, energy spectrum and galactic sources
07 p1205 A69-18909

Origin of galaxies, discussing initial conditions of formation including density, kinematic and composition inhomogeneities, time effect, etc
07 p1218 A69-19280

Luminosity distance, distance by apparent size, number counts, background radiation and apparent angular motion of sources in homogeneous anisotropic model universe
07 p1218 A69-19282

Redundant world models, discussing elimination through measurement of larger red shifts of galaxies and quasars
07 p1219 A69-19283

Evolutionary cosmological models, relevant observational cosmology, quasar red shift, cosmic black body radiation, cosmic He abundance and universe temperature history
08 p1388 A69-20223

Metagalaxy stationary model in terms of relativity theory, investigating radiation pressure balancing of gravitation as imaginary situation
08 p1389 A69-20263

Photon whirls and formation of protogalaxies, discussing density inhomogeneities in hot model of universe in terms of pregalactic structure dynamics
09 p1587 A69-21355

Early evolution of universe related to present upper bound of primordial black body gravitational radiation temperature
09 p1601 A69-22210

Local creation of mass in steady state universe as source of static field energy propagating away at speed of light
09 p1601 A69-22212

Characteristic length constant in open cosmological model of large scale properties of real space-time, noting relation to other constants
09 p1608 A69-22528

Quasars and explosive processes in galaxies as cosmic ray sources in expanding universe, studying relation between galactic and metagalactic cosmic rays
10 p1756 A69-22815

Superhigh energy cosmic ray interaction with neutrinos in universe, shape of cosmic ray spectrum and universe development
10 p1757 A69-22826

Universe rotation from observations of microwave background and using closed universe model
10 p1771 A69-22851

X ray universe, considering contribution of X ray astronomy to phenomena of big bang, supernovae, neutron stars, exploding galaxies, etc
10 p1760 A69-22869

Abell 2199 cluster of galaxies, discussing population contours, volume density function, structure and other static properties
10 p1774 A69-22965

Book on relativity and cosmos, space and time in physics, astronomy and cosmology covering theoretical and empirical research
10 p1784 A69-24019

Dynamical model for spherical inhomogeneity in mean mass density of universe to predict velocity dispersion observed for Coma Cluster
10 p1789 A69-24133

Universe origin, discussing big bang theory, effects of expansion time and temperature on elementary particles, RF quanta, etc
11 p1953 A69-24352

Observed frequencies of number of members in multiple systems of galaxies
12 p2156 A69-26222

Hypothesis for intelligent life existence in universe
13 p2353 A69-28435

Space-time interpretation of static Einstein universe model and Friedmann space with variable positive curvature
14 p2484 A69-28865

Galactic formation in Lemaitre universe from statistically probable density fluctuations, using perturbation theory and Newtonian cosmology
14 p2520 A69-29373

Book on New Cosmos covering classical astronomy concepts, stellar astrophysics and galaxies
14 p2522 A69-29684

Extragalactic background radiation intensity in isotropic world models as function of universe thermal history
14 p2514 A69-29769

Closed space cosmological model, discussing complex singularity behavior
15 p2680 A69-30200

Density perturbation mode in Lifshitz relativistic theory for expanding universe gravitational instability, adopting Lagrangian coordinate condition to eliminate physically meaningless solution
15 p2652 A69-30203

Metagalactic electrons and relict radiation interaction calculations allowing for universe expansion, space curvature and X ray absorption
15 p2687 A69-30541

Symmetry between koinomatter and antimatter in universe, discussing koinonucleons production, big bang theory, protogalaxy model, quasi-stellar objects, galaxy evolution, etc
15 p2690 A69-30670

Hydrogen recombination in hot universe model, discussing emission of energetic quanta
15 p2690 A69-30734

Expanding isotropic universe with cosmological constant, noting stability for rotational perturbations and gravitational and sound waves
15 p2690 A69-30735

Relativity theorems applied to collapsing stars and expanding universe noting limitations of general relativity from prediction of singularities
15 p2694 A69-30854

Newtonian invariant mechanics, giving inertial interpretation of gravitation and Hubble expansion of universe
15 p2654 A69-31214

Possible existence in universe of large number of difficult-to-observe particles with zero rest mass left over from superdense phase
16 p2814 A69-31801

Cosmology and geophysics relationships using initial and boundary conditions concept
16 p2864 A69-32451

Particle production by gravitational fields in universe via quantum field theory, considering cosmological models
17 p3008 A69-33003

Antimatter in universe, presenting arguments for microscopic and macroscopic symmetries
17 p3006 A69-33578

Photon whirls and formation of protogalaxies, discussing density inhomogeneities in hot model of universe in terms of pregalactic structure dynamics
18 p3197 A69-34745

Fluctuations evolution in density perturbations analyzed to obtain free fall and free expansion universe models, showing no difference between expanding and static Newtonian universes
18 p3203 A69-35347

Hydrogen atom excess charge creating universal repulsive force in analyzing cosmological gravitational contraction in terms of Newtonian mechanics
18 p3206 A69-35469

Cosmic matter density and velocity in expanding universe with negative curvature within Einstein-Friedman theory
20 p3599 A69-37472

Cosmic protons and high energy heavy nuclei interaction with radiation in expanding universe, including estimates of light radiation influence on cosmic ray spectra
20 p3591 A69-38034

Universal hydrogen distribution, discussing atomic hydrogen needed to close universe
20 p3610 A69-38140

Universe evolution from hot initial state, discussing element synthesis, quanta, radiation particles, etc
21 p3795 A69-38401

Harrison primordial inhomogeneity postulate concerning baryon numbers distribution in universe, precluding possibility of considering cosmic rays bulk as universal
21 p3810 A69-39469

Soviet collection of papers on universe covering history and development of astronomy, solar system, minor planets, comets, shooting stars, extraterrestrial civilizations, etc
21 p3814 A69-39531

Density fluctuations in universe during early stages, using hot big bang cosmological model
21 p3814 A69-39571

Unified theory of elementary particles assuming quantum mechanics as consequence of changes in time within microcosmos and particle-universe interaction
21 p3816 A69-39622

Level shifts and spontaneous transitions in steady state of universe by path integral method of first quantization, considering time symmetric electromagnetic theory
22 p3980 A69-40169

Dimensionless coupling constants predicted from causal relationship among strong, electromagnetic, weak and gravitational interactions in fluid region of universe
22 p3981 A69-40416

Cosmic gamma rays spectrum from neutral pions production and decay in metagalactic cosmic ray p-p collisions, deriving models based on Einstein general relativity theory
22 p4006 A69-40641

Cosmological constant closed relativistic universe, showing constant-observational data inconsistency
22 p4029 A69-40757

Extragalactic universe major constituents and physical properties of normal, radio and compact galaxies, discussing missing matter existence
23 p4217 A69-42317

Universe behavior in time, discussing expansion observed by red shift, closed universe with future contraction phase and unlimited expansion open model
23 p4221 A69-42391

UNIVERSITIES

Unutilized ideas in university laboratories, showing generation and implementation enhancement by marketing experience and product development background
15 p2720 A69-30596

UNIVERSITY PROGRAM

Space system engineering courses background, objectives and results at MIT and Stanford University dealing with applications of space technology
[UN PAPER 68-95870] 01 p0178 A69-10485

NASA university program, discussing participation in space and aeronautics development based on project oriented research grants and Sustaining University grants
[UN PAPER 68-95413] 01 p0179 A69-10506

Universities and public service education noting NASA requirements and programs
20 p3641 A69-38282

Aerospace medical educational programs for MD, post-MD and practicing physicians at medical faculties in U.S. and at Ohio State University
23 p4106 A69-41799

OSO spacecraft thermal design modified to operate University of Minnesota zodiacal light monitor experiment
[AAS PAPER 69-173] 24 p4393 A69-42873

UNKNOWN

U DEPENDENT VARIABLES

U PROBLEM SOLVING

UNLOADING WAVES

Propagation of longitudinal transverse loading and unloading waves /with cylindrical symmetry/ in non-homogeneous elastic/viscoplastic medium, accounting for plastic dilatational strains

Meteorological satellite research program, including unmanned satellite observations and possibilities with meteorologist on board manned spacecraft
[UN PAPER 68-95350] 01 p0109 A69-10483

Stabilization and control techniques for future unmanned commercial space vehicles, emphasizing application of projected technological advances in instrumentation
[AIAA PAPER 67-878] 02 p0334 A69-12367

Longitudinal range dispersion of unmanned Mars landers using VM-8 and VM-9 atmospheric models, discussing Syrtis Major as possible landing site
02 p0324 A69-12390

Aerothermoelasticity problems for Mars entry vehicles, discussing deceleration loads, separated hot gas flow, shield thermal gradients and oscillatory body motion
[AIAA PAPER 68-283] 09 p1610 A69-21991

High reliability space system electronic parts control program to assure success of unmanned space missions
16 p2793 A69-31714

Oxygen difluoride-diborane propellant injector and chamber design criteria applied to unmanned spacecraft rocket engine development
[AIAA PAPER 69-508] 16 p2839 A69-32671

Thermal stability elements in solid propellant liner insulation system for heat sterilized solid rocket motors used in unmanned planetary landers
[AIAA PAPER 69-437] 16 p2869 A69-32750

LASSO/modified S-4B/IV/ vehicle mission to place in orbit two unmanned Lunar Modules for landing of radio and optical telescopes on lunar surface
18 p3136 A69-34813

Ground controlled remote manipulator spacecraft system to perform unmanned satellite orbital maintenance, discussing refurbishment, laboratory simulation, system cost effectiveness and feasibility
19 p3430 A69-36001

Power systems for unmanned spacecraft, noting improved performance for zirconium hydride reactors and thermoelectric converters
23 p4187 A69-42255

Systems safety for unmanned spacecraft, considering power supply, equipment operation, trajectory correction, etc
[AAS PAPER 69-520] 24 p4392 A69-42849

UNSTABLE BURNING
U COMBUSTION STABILITY

UNSTEADY FLOW
NT OSCILLATING FLOW

Unsteady heat flow in finite composite hollow circular cylinder using inverse method of eigenfunction expansion / method of finite integral transformation/
01 p0175 A69-10230

Unsteady laminar boundary layer near thermally insulated rotating disk, establishing solutions describing motion
01 p0059 A69-10361

Unsteady slow rotational motion of viscoelastic liquid contained between two concentric spheres rotating with constant angular velocities
02 p0230 A69-11563

Unsteady laminar boundary layer flow at curved surfaces, analyzing frequency and curvature parameter influence on basis of small disturbances method [DVL-863] 02 p0231 A69-12053

Two dimensional unsteady Rayleigh flow velocity of conducting and nonconducting viscous fluid past porous plate, analyzing suction and magnetic field effects
02 p0232 A69-12156

Pressure pulses propagation in nonsteady fluid flow through expansible tubes, noting computer solution
02 p0232 A69-12477

Exact solutions for Navier-Stokes equations for nonsteady incompressible viscous flow near two dimensional or axisymmetrical stagnation point
02 p0233 A69-12527

Unsteady incompressible boundary layer flow over leading edge boundary layer calculated by three dimensional time dependent equations
02 p0233 A69-12543

Lift from unsteady flow past cascade of slender profiles with stagger angle reduced to solution of Fredholm integral equation
02 p0190 A69-12575

Curved bodies substitution in unsteady hypersonic flow past slender sharp nosed bodies within framework of plane sections
02 p0191 A69-12576

Unsteady transient flow of viscous fluid in suddenly rotating open pot, taking into account effect of bottom in determination of velocity profile
03 p0414 A69-13019

Implicit finite difference scheme to integrate unsteady boundary layer equations for compressible gas
03 p0416 A69-13656

Unsteady two dimensional flow in square cavity with fluid initially at rest and constant velocity upper surface of cavity, noting vortex center
[AICHE PAPER 25C] 04 p0587 A69-14510

Unsteady compressible laminar boundary layer flow over insulated or isothermal flat plate moving with arbitrary time variant velocity in viscous fluid
04 p0588 A69-14715

Unsteady hydromagnetic flow of viscous electrically conducting incompressible liquid over infinite conducting harmonically oscillating plate
04 p0638 A69-15093

Two dimensional unsteady flow of inviscid polytropic gas using analysis of similarity solutions in homentropic flow
04 p0590 A69-15191

Unsteady motion of ideally conducting gas flow in transverse magnetic field with allowance for gravitational forces
05 p0802 A69-15789

Variational methods applied to unsteady heat flow, describing approximate method for unsteady temperature field in heat conducting body
05 p0845 A69-15794

Unsteady flow in blade passage of partial admission turbine for high energy fluids, predicting shock wave formation at entrance using one dimensional theory
[ASME PAPER 68-FE-25] 05 p0698 A69-16075

Unsteady potential flow and wake near oscillating circular cylinder noting velocity, pressure and correlation measurements
[ASME PAPER 68-WA/FE-23] 05 p0749 A69-16099

MHD shock wave decay in one dimensional unsteady flow of ideal inviscid perfectly conducting compressible fluid subjected to transverse magnetic field
05 p0806 A69-16736

Unsteady supersonic flow around thin circular cylinder representing rocket stage, calculating flutter and response to random environment
[ONERA-TP-666] 06 p0857 A69-17098

One dimensional unsteady flows of combustible gas mixture with finite chemical reaction rates, considering

piston motion, igniting shock wave propagation and point explosion

06 p0909 A69-17325

Lifting force and moments acting on slender wing of finite span and arbitrary planform moving at constant mean velocity in unsteady flow

06 p0858 A69-17338

Unsteady flow of viscous incompressible conducting fluid in MHD generator channel, discussing external circuit inductance and flow velocity during start-up
06 p0969 A69-17915

Numerical method for attacking-lifting problems of general three dimensional wing executing arbitrary motion in potential flow
[AIAA PAPER 69-23] 06 p0862 A69-18040

Unstationary characteristics method applied to numerical computation of steady compressible flow around airfoil
[ONERA-TP-630] 07 p1049 A69-18413

Linearized unsteady nonequilibrium flows produced by unsteady motion of thin foil or circular cylindrical shell in compressible gas
07 p1119 A69-18738

Nonstationary flow past spheres and cylinders in electromagnetic shock tube, determining time required for flow to become stationary
07 p1119 A69-18744

Theory of unsteady one dimensional motion of ideal compressible fluid, discussing equation of state
07 p1119 A69-18750

Unsteady conducting incompressible viscous fluid flow past plate in magnetic field, analyzing surface friction reduction
07 p1192 A69-19018

Unsteady MHD convective flow with suction of viscous incompressible electrically conducting fluid above vertical porous wall, noting horizontal magnetic field effect
07 p1195 A69-19477

Unsteady suction motion of viscous incompressible fluid under action of slowly rotating suction disk, noting fluid velocity variation
08 p1302 A69-19875

Frequency response from linearized dynamic equations for viscous incompressible fluid flow in viscoelastic tubes, discussing transfer gain
08 p1304 A69-20704

Unsteady flow parameters for reaction products behind spherical detonation wave in gas mixtures based on Taylor solution
08 p1421 A69-20765

Von Karman flow changes due to unsteady heat transfer from rotating disks impulsively changing temperatures, particularly steady state and response time
08 p1422 A69-20996

Unsteady atmospheric motions on planetary scale using Legendre polynomials
08 p1311 A69-21158

Expansion tube modification incorporating nozzle plate at secondary diaphragm for reducing flow nonuniformity and contamination
[AIAA PAPER 68-371] 09 p1477 A69-21960

Unsteady relative flow in centrifugal impeller passage running at part capacity and zero flow observed by hydrogen bubble flow visualization method
[ASME PAPER 69-GT-35] 09 p1432 A69-22489

Generalized Riemann function obtained as solution of transformed Boltzmann-Vlasov equation, discussing one dimensional and multidimensional cases
10 p1724 A69-22908

Shock induced boundary layer flow establishment on semiinfinite flat plate, measuring heat transfer rates and transition to turbulence
11 p1869 A69-24890

Thin spherical layer flow stability with respect to small disturbances, showing unsteady motion above critical Reynolds numbers and secondary flow features
11 p1875 A69-25486

HF interferometry for statistical-numerical oscillation analysis of unsteady plane transonic flow, constructing phase planes for study of wave surfaces propagation
12 p2089 A69-26188

Nose bluntness effect on hypersonic unsteady aerodynamics of flared and conical bodies of revolution
[AIAA PAPER 68-889] 12 p2012 A69-26794

Boundary value problem for one dimensional unsteady equations for inviscid conducting gas during transition processes in MHD duct
13 p2309 A69-28027

Sound generation by unsteady rotational flow as singular perturbation problem solved by matched asymptotic expansions, discussing flow and radiation fields
13 p2299 A69-28187

Ideal fluid unsteady rectilinear plane-parallel flow stability, calculating shear layers before breakdown by using modified Rayleigh method
14 p2431 A69-29606

Unsteady jet viscous fluid flow under pulse variations based on Prandtl equations, showing turbulent motion analogy
14 p2432 A69-29608

One dimensional unsteady monatomic Maxwellian gas flow at small Knudsen numbers using Hilbert method, noting validity for shear flows
14 p2432 A69-29611

Pressure drop fluctuations amplitude and frequency effect on channel resistance and magnetic field effect on fluctuations intensity in laminar conducting fluid flow
14 p2501 A69-29909

Boundary value problem for quasi-linear equation of unsteady transonic gas flows, including linear model and operators for group of transformations
15 p2590 A69-30049

Unsteady three dimensional heating of finite solid rectangular parallelepiped, deducing expressions for rectangle and slab
15 p2717 A69-30790

Similar solution for free convective flow past vertical porous wall and unsteady flow past porous wall with dissipation term, using group transforms
15 p2592 A69-31010

Boundary layer over impulsively started flat plate, describing flow transition from unsteady /Rayleigh/ to steady /Blasius/ state by iterative methods
16 p2769 A69-31812

Monograph on solutions to equations for unsteady flow of ideal gases, with applications to hypersonic flows, based on three space coordinates and time
16 p2773 A69-32428

Linear amplification, nonlinear limiting and secondary instability induced by unsteady effects illustrated for various transitional flows, including roughness and streamwise vorticity
17 p2950 A69-33248

Modified liquid fueled pulsating combustion chamber operating as Helmholtz cavity resonator, measuring chamber pressure as function of time
17 p3074 A69-33410

Far and near field solutions for one dimensional unsteady flows in general inviscid relaxing gas, obtaining flow field structure by matching techniques
17 p2957 A69-33599

Pulsating flow analysis in finite and infinite conical nozzles under sinusoidal pressure disturbances [ASME PAPER 69-APM-16]
18 p3214 A69-34392

Unsteady motion of ideally conducting gas flow in transverse magnetic field with allowance for gravitational forces
18 p3181 A69-35040

Compressible fluid two dimensional supersonic and one dimensional unsteady flows similarities shown graphically, discussing hodograph-speedgraph relationship
19 p3300 A69-36777

Interaction effects between mixing and pressure distribution of heterogeneous flow in channel, deriving criteria for predicting pressure variation sign
19 p3300 A69-36785

Cerebral circulation arterial system pulsatile flow flexible vessel digital simulation models distribution
19 p3264 A69-36867

Unsteady laminar MHD flow of electrically conducting viscous fluid between porous coaxial circular cylinders under radial magnetic field
20 p3581 A69-36912

Two dimensional unsteady motion of medium with pressure as linear function of density, analyzing gas expansion into vacuum
20 p3512 A69-36916

Unsteady laminar incompressible time dependent boundary layer flows with cylindrical symmetry, transverse boundaries and no swirl [ASME PAPER 69-FE-47]
20 p3517 A69-37997

Upper atmosphere horizontal unsteady wind with pressure gradient time dependence, solving heat conduction type equation by integral representations
21 p3758 A69-38411

Continuous cavitation model for incompressible fluid one dimensional unsteady motion
21 p3693 A69-38752

Velocity and temperature profiles at Prandtl number values obtained for unsteady laminar free convection on infinite vertical plate with stepwise varying temperature
21 p3853 A69-39681

Prandtl boundary layer theory problems, considering solution uniqueness and stability, unsteady flow, boundary layer separation, existence conditions, etc
21 p3697 A69-39698

Unsteady viscous flow past flat plate based on Stokes approximation, calculating shear stress
22 p3931 A69-40684

Polytropic gas unsteady motion in dihedral piston wake by solving mixed boundary value and Goursat problems
22 p3861 A69-41025

Unsteady thermal conductivity calculated by approximate analytical method in simple shape bodies /infinite plate, long cylinder, sphere/ cooled or heated by thermal radiation
23 p4238 A69-41333

Unsteady periodic boundary layer stability on flat plate, presenting model for disturbance wave packet propagation streamwise pressure gradients effects in transition flow
23 p4152 A69-41888

Numerical method for calculating unsteady two dimensional boundary layers in laminar incompressible flow
23 p4152 A69-42108

Time dependent unsteady flow of incompressible and electrically conducting fluid between two infinite disks rotating in uniform axial magnetic field
23 p4153 A69-42410

Compressible fluid unsteady flow past deformable surface, constructing metric for surface and obtaining metric tensor coefficients
24 p4243 A69-42586

Limit-cycle oscillations of unstable plane Poiseuille flow analyzed by nonlinear Navier-Stokes equations
24 p4298 A69-42600

Shape, position and velocity of vortex wakes shed in unsteady multienergy flows near trailing edge, applying Kutta condition [ASME PAPER 69-APMW-19]
24 p4245 A69-43099

Aerodynamic frequency response calibration measurements of wind anemometer by input velocity and output drag values under unsteady flow conditions
24 p4315 A69-43262

Velocity and pressure fields produced by deformable load carrying filament studied for unsteady gas motion past slender body with nonpotential external forces
24 p4246 A69-43483

Unsteady axisymmetric potential flow of ideal incompressible fluid with free surfaces, deriving differential equations for gas bubble dynamics and surface geometry
24 p4302 A69-43500

Pulsating mechanisms in alternative gas and liquid blocks two phase flow, using stochastic process specified by dynamic pressure time dependent fluctuations
24 p4305 A69-43633

Strong shock and Mach waves interaction generated downstream of thick wedge body shock in unsteady hypersonic and supersonic flows
24 p4306 A69-43674

Aerodynamic forces on hypersonic vehicle surfaces, deriving relations for weak interaction pressures induced in unsteady flow
24 p4306 A69-43676

Low Reynolds number unsteady wake flows, using hydrogen bubble flow visualization in high concentration glycerine mixtures
24 p4298 A69-43691

UNSTEADY STATE

Plate bending in presence of unsteady creep and with zero stress-strain state in middle surface solved by variational method
04 p0679 A69-14923

Finned radiation emitter tube unsteady state temperature field as function of working body temperature and emitter geometry
05 p0846 A69-15898

Response of single and multidegree of freedom systems to nonstationary random excitation, analyzing spectral density function of pressure field close to jet engine
05 p0844 A69-16763

Incompressible laminar thermal boundary layer unsteady development from state of rest in vicinity of wall of obstacle subjected to unsteady thermal field [ONERA-TP-680]
08 p1304 A69-20754

Unsteady heat conduction of semiinfinite thin rod with mobile end face, ideally insulated lateral surface and convective heat transfer on uninsulated portion
11 p2002 A69-25229

Diffusion equation unsteady solution for flasks of equal volumes connected by capillary, considering end effect and transient processes
13 p2251 A69-28561

Unsteady aerodynamic processes in centrifugal compressor stage with impeller, vaneless diffuser and annular receiver chamber
15 p2547 A69-30073

Unsteady oscillations after rupture in thin homogeneous isotropic elastic plate, assuming deflection amplitude smaller than thickness
16 p2873 A69-32033

Buckling time of oval ring under unsteady creep based on strain hardening theory
17 p3062 A69-33716

Heat transfer coefficients evaluated from gas to rotating turbine blades in unsteady operation, using unsteady thermal conductivity and gradient methods
21 p3850 A69-38864

Micromodule unsteady thermal behavior reduced to calculating linear heat flux for boundary conditions containing temporal and spatial derivatives
23 p4136 A69-41558

Observation of satellites, orbit calculation and use in upper atmosphere research [UN PAPER 68-95789]
01 p0064 A69-10459

Destructible low cost meteorological sounding rocket Dart for global observation of upper atmosphere [UN PAPER 68-95467]
01 p0161 A69-10510

Meteorological rocket measurement of ionizing radiation flux in upper atmosphere, noting flux decrease with increasing electron energy
01 p0144 A69-10586

Soviet rocket and satellite night, twilight, airglow and auroral studies, discussing day sky brightness, night airglow and atmospheric stratification
01 p0066 A69-10941

Upper atmosphere physical properties, discussing density and temperature
01 p0066 A69-10942

Twilight sky brightness measurements at 5200 angstroms for estimating upper atmospheric dust component, discussing error rates
01 p0075 A69-11191

Upper atmosphere oxygen emission and heating during geomagnetic disturbances
02 p0235 A69-11421

Three term formula for describing vertical wind velocity distribution in upper boundary layer of atmosphere, taking into account friction and orography effects
02 p0240 A69-11708

Upper atmosphere structure, phenomena and composition, discussing interactions between photons, electrons, atoms and molecules
02 p0242 A69-11902

Martian upper atmosphere and ionosphere, considering Mariner 4 occultation results and various atmospheric models
02 p0320 A69-12112

Martian upper atmospheric ionization process analogous to cometary material ionization in solar wind
02 p0320 A69-12117

Accelerometric measurement of atmospheric drag with satellite 1968-59B, obtaining upper atmosphere density profile at 130-160 km
02 p0245 A69-12728

Visible and IR nonequilibrium radiation from dilute gases of upper atmosphere, describing laboratory, ground, aircraft and rocket observations of reactions and interactions
02 p0247 A69-12810

- Satellite drag data to determine upper atmospheric composition according to density distribution with height
03 p0423 A69-13532
- Diurnal upward and downward flows of atmospheric matter following upper atmosphere temperature nighttime minimum and daytime maximum
03 p0423 A69-13533
- Electron, ion and neutral particle temperatures of upper atmosphere
04 p0592 A69-14975
- Delay between solar activity and density changes in upper atmosphere using Harris-Priester model
04 p0594 A69-15121
- Optical method of sounding cosmic matter penetrating into upper atmosphere by analyzing twilight phenomena
04 p0594 A69-15246
- Meteorological rocket measurement of corpuscular radiation intensity in upper atmosphere at various latitudes
05 p0814 A69-16052
- Neutral interstellar matter particle fluxes and densities for earth, noting effects on upper atmosphere gas densities
05 p0828 A69-16653
- Canadian upper atmosphere and space research programs organization, management and results
[UN PAPER 68-95551] 06 p1042 A69-17034
- Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition
[UN PAPER 68-05755] 06 p0917 A69-17042
- Upper atmosphere physics, atmospheric composition and separation of gases, nature of air flow, water vapor content and lower ionosphere structure determinations by rocket
[UN PAPER 68-95693] 06 p0949 A69-17058
- Upper atmosphere semiannual density variations, using satellite drag analysis
06 p0918 A69-17380
- Vertical ozone distribution in upper atmosphere from satellite measurements of UV solar radiation scattering by solving integral Laplace equation
06 p0996 A69-17733
- Rocket transportation for upper atmospheric measurements, discussing sensors and cost effectiveness
[AIAA PAPER 69-159] 06 p1018 A69-18066
- Collisional processes relevant to daytime and nighttime models of upper atmosphere neutral density and temperature
07 p1130 A69-19654
- Subjective and objective upper air forecasts for aviation comparison by isobaric pressure height fields, discussing error analysis
08 p1345 A69-19886
- Atomic N and NO daytime upper atmosphere density profiles, discussing production and loss mechanisms
08 p1307 A69-20185
- Geomagnetic storms, substorms and auroral displays as functions of processes in solar wind and upper atmosphere
08 p1307 A69-20188
- Nocturnal auroral electron showers configuration and displacement determined from sounding balloon measurement of X rays due to showers braking in upper atmosphere
08 p1308 A69-20281
- Upper atmosphere density variations and multiplicative factor necessary for adjustment of density variations of reference models
08 p1397 A69-20761
- Ion exchange fuel cells for emitter-receiver on atmospheric constant ceiling balloon, stressing pressure effect on operation and fuel storage
08 p1260 A69-21042
- Upper atmosphere temperature distribution estimation on basis of twilight zenith sky intensity measurements, discussing influence of various parameters on accuracy
09 p1487 A69-21653
- Upper atmospheric density relation to AE indices sum and solar radio flux during geomagnetic disturbances
09 p1488 A69-21657
- Upper atmosphere rotation perturbation effect on satellite orbit when scale height varies with height, showing inclination reduction
09 p1594 A69-21660
- Deuterium escape in Venus upper atmosphere to explain anomalous Lyman-alpha glow observed by Mariner 5
[SRCC-91] 09 p1594 A69-21696
- Subjective and objective upper air forecasts compared for error analysis of headwinds, noting influence of geographical location
09 p1536 A69-22074
- Renormalizable weak interaction mechanism for generation of high energy muons from Tev cosmic rays in upper atmosphere
09 p1581 A69-22530
- Pyrotechnics applications to Skylark upper atmosphere sounding rocket, discussing payload heads, nose cones, sensor covers, etc
10 p1792 A69-23029
- Data requirements and acquisition for detection and description of tides and gravity waves in upper atmosphere
10 p1685 A69-23833
- Electrical phenomena in upper atmosphere and solar wind may control geomagnetic disturbances and aurorae
10 p1686 A69-23903
- Monograph on method and results of measurements of mobilities spectrum ion density and conductivity in upper troposphere and stratosphere
11 p1877 A69-24636
- Chemical composition of Venusian atmosphere by Mariner and Venera satellites, comparing upper atmospheres of Venus and earth
11 p1960 A69-24971
- Upper atmosphere response to time dependent heating based on approximate analytic solutions of heat conduction equation
11 p1878 A69-25151
- Airborne Q switched ruby laser for studying upper atmosphere meteoric formations optical characteristics and kinetics against background of underlying surface
12 p2125 A69-25955
- Semiannual density variations in thermosphere and exosphere as function of mixtopause height variations
12 p2064 A69-26012
- Satellite 1968-5A orbit analyzed for atmospheric density at 140-180 km, noting semiannual variation
12 p2066 A69-26229
- Upper atmosphere density variations investigation using Eurobs system, correlating density to geomagnetic activity and 10.7 cm solar radio emission
12 p2069 A69-26437
- Variable solar activity effect on earth upper atmosphere rotation at altitudes from 200 to 300 km
12 p2069 A69-26442
- Solar chromospheric flares effect on temperature of upper atmosphere observed by satellite at perigee altitude
12 p2149 A69-26447
- Logarithmic response electrometer for upper atmosphere satellite measurements using subminiature vacuum tube
12 p2092 A69-26476
- Soviet rocket and satellite studies of upper atmosphere and ionosphere
13 p2251 A69-27347
- IR day and night airglow of upper atmosphere utilized for atmospheric energy content and reactions analysis
13 p2252 A69-27585
- Venusian upper atmosphere dissociation and ionization, considering photochemical and dynamic processes and molecular, eddy and ambipolar diffusions
13 p2344 A69-27643
- Integral particle flux of protons and electrons in upper atmosphere, discussing energy and angular distribution
13 p2328 A69-27757
- CENFAM radar receiving system for meteoric and upper atmospheric data on amplitude, range and direction of meteor echoes through interferometer pairs
13 p2354 A69-28649
- Electron concentration enhancement in upper atmosphere at polar latitudes, noting three independent zones and relation to magnetic local time
14 p2510 A69-28938
- Forbidden NI transitions in nighttime upper atmosphere observed with Fabry-Perot spectrometer
14 p2440 A69-29120
- Atmospheric circulation by energy concepts, giving quantitative analysis of interaction between upper and lower atmosphere
14 p2477 A69-29825
- Radio propagation in upper atmosphere and ionosphere noting rocket and satellite experiments including plasma physics research, tropospheric studies and space science services
14 p2526 A69-29854
- Meteorological rocket measurement of ionizing radiation flux in upper atmosphere, noting flux decrease with increasing electron energy
15 p2675 A69-30756
- Upper atmosphere winds and temperature measurements from rocket grenade, discussing TMA experiments
15 p2598 A69-31317
- Hydrogen and He ion distribution measurements, noting seasonal and local magnetic time variability
15 p2599 A69-31326
- Carbon atoms presence in Venus upper atmosphere from Venus spectrum obtained by Aerobee rocket experiment
15 p2698 A69-31341
- Upper atmospheric density effects on satellite orbits, discussing variations due to solar activity, day-night and semiannual changes and atmospheric rotation
15 p2600 A69-31350
- Average angular velocity of upper atmosphere from changes in orbital inclinations of satellites, discussing wind speeds
15 p2600 A69-31352
- Time variation of altitude distribution of cosmic dust layer in upper atmosphere by Pandora II collector using inflight shadowing technique
15 p2698 A69-31353
- Upper atmosphere structure and variations including density and composition in lower thermosphere, diurnal variations, variations with solar activity, etc
15 p2600 A69-31355
- Wintertime short term density variability in upper atmosphere obtained from rocket measurements
15 p2601 A69-31374
- Satellites orbits analysis for semiannual variation of air density in upper atmosphere
15 p2601 A69-31378
- Rocket observations of ozone concentration above 50 km by absorption spectroscopy, noting altitude dependence
15 p2603 A69-31397
- Morning, daytime and nighttime rocket measurements of electron flux in upper atmosphere at 80-165 km altitudes, noting energy flux
15 p2677 A69-31413
- Satellite orbit evolution data applied to refinement of geophysical parameters, including upper atmosphere parameters and zonal harmonic coefficients in gravitational potential expansion
15 p2604 A69-31417
- Soviet meteorological rocket sounding data for upper atmosphere compared to CIRA 1965 model
15 p2650 A69-31421
- Temperature measurements of neutral polar atmosphere at 120-170 km using artificial Na clouds
15 p2606 A69-31448
- Upper atmosphere and outer space investigations by Zond and Soyuz spacecraft
15 p2724 A69-31451
- Intensity and rotational temperature seasonal variations of hydroxyl emission at different latitudes in upper atmosphere
16 p2775 A69-32081
- Kinetic theory and gas-surface interactions for upper atmospheric density measurements by mass spectrometers, pressure gages and satellite drag, detailing adsorption effect
16 p2776 A69-32089
- Upper atmospheric winds to produce solar quiet day magnetic variations based on dynamo theory, illustrating solenoidal, irrotational and mixed winds
16 p2782 A69-32460
- Atomic nitrogen and nitric oxide density in upper atmosphere during nighttime calculated, allowing for atomic and molecular diffusion
16 p2785 A69-32622
- Air density measurement at high altitudes by falling instrumented sphere ejected by missile in upper atmosphere
17 p2971 A69-32898
- Upper atmospheric gas density and temperature distribution diurnal and seasonal variations calculated from satellites orbiting time changes
17 p2959 A69-32924
- Ionization, recombination and charge transfer in upper atmosphere during aurora, considering quasi-equilibrium ion-electron concentrations
17 p2961 A69-33417
- Far IR angular scattering observations as diagnostic tool to examine microstructure of high altitude cirrus clouds
18 p3126 A69-34281
- Rocket-released magnetometer probe for upper atmospheric measurements, discussing construction, flight, sensitivity and ionosphere current detection
19 p3309 A69-35995

Forbidden atomic transitions involving metastable species in upper atmosphere, tabulating permitted and forbidden molecular band systems

19 p3421 A69-36214

Numerical integrations for modified model incorporating ozone production equation and heating from ozone radiation absorption and long wave cooling for upper atmospheric circulation

19 p3363 A69-36502

Transmitting antenna design of multistation radar system for meteors and upper atmosphere investigation, discussing amplitude and phase of electromagnetic field

19 p3278 A69-36661

Gas-surface energy transfer experiment on OGO-F satellite, measuring upper atmosphere kinetic energy flux to determine accommodation and drag coefficients, density, etc

19 p3255 A69-36680

Dynamic properties of upper atmosphere, discussing variations in temperature, density and composition

20 p3519 A69-36983

UV solar radiation variation effects on Mars and Venus upper atmosphere temperatures

20 p3595 A69-37136

Rocket probe devices based on thermometrical body principle for measuring upper atmosphere water vapor and atomic oxygen

20 p3543 A69-37798

Meteorological rocket measurement of corpuscular radiation intensity in upper atmosphere at various latitudes

20 p3591 A69-37962

Optical method for upper atmosphere cosmic dust detection, emphasizing twilight luminance origin from light scattering

21 p3702 A69-38349

Wind motion and turbulence in upper atmosphere from Rehbar 15 and 16 rocket observations

21 p3703 A69-38362

Upper atmosphere horizontal unsteady wind with pressure gradient time dependence, solving heat conduction type equation by integral representations

21 p3758 A69-38411

Upper atmosphere particles, luminosity and electron concentration measurements documented in input, storage and energy radiation classes, determining recombination coefficients

21 p3707 A69-38491

Polar upper atmospheric phenomena interpreted as magnetospheric substorm manifestations, discussing role of asymmetric ring current formation

21 p3710 A69-38504

Upper atmosphere emission processes, comparing emission quenching lifetime with transition probability rates, plotting atomic and molecular states

21 p3711 A69-38513

Upper atmospheric temperature by spectroscopy, considering rotational, OH nightglow, nitrogen cation dayglow and twilight temperatures

21 p3712 A69-38516

Spectra and intensities of rocket releases for upper atmosphere composition, temperature and reaction kinetics, noting chemiluminescence and atomic and molecular emissions

21 p3712 A69-38522

Upper atmospheric H and He observations, showing Lyman alpha, H alpha measurements and H abundance values relative to Kockarts-Nicolet model

21 p3714 A69-38529

Pulsation velocities distribution wind in meteor region of atmosphere during hourly intervals over eleven month period, noting normal distribution

21 p3759 A69-39115

IR molecular radiation spectra of upper atmosphere in 3-8 micron range investigated by rockets and satellites, discussing radiation energy density during magnetic storms

21 p3792 A69-39772

Clear air turbulence computerized analysis and forecast over U.S. using upper air rawinsonde measurements

22 p3976 A69-39927

Reentrant albedo flux and singly charged particles directional asymmetry in upper atmosphere estimated from oriented telescope observations over Hyderabad

22 p4005 A69-40519

Corpuscular radiation intensity measurements in upper atmosphere at midlatitudes by meteorological probe during geomagnetic storm, noting radio wave absorption

22 p4008 A69-41104

Photoionization rates temperature dependence in upper atmosphere for O atoms and molecules and N

molecules from computer calculations, allowing for earth sphericity

23 p4157 A69-41857

Clear air turbulence in upper atmosphere and in mountain waves, discussing density variations

24 p4343 A69-42913

Absorption observation of solar radiation at sunset by nitric acid in three wavelength intervals on different balloon flights

24 p4308 A69-42969

Upper atmosphere OH molecules vibrational temperature and total emission energy, measuring average seasonal variations

24 p4308 A69-43007

Solar energetic particle effects during polar cap absorption observed in earth upper atmosphere and at ground level

24 p4373 A69-43618

UPPER IONOSPHERE

NT F REGION

NT F 1 REGION

NT F 2 REGION

Topside ionosphere average height distributions of electron density and geomagnetic field intensity from Alouette 2 data over Japan, noting ionic composition

01 p0065 A69-10548

Ducted echoes on topside ionograms and whistler diffuseness at midlatitudes, noting common occurrence of phenomena

01 p0029 A69-10551

Polar wind, describing upward plasma expansion of topside polar ionosphere and acceleration of positive H and He ions

01 p0077 A69-11239

Nonvertical propagation effects on high altitude topside ionosphere sounder data reduction, using ray tracing

07 p1124 A69-18838

Ion composition and charged particle temperatures at 300-600 km from sounding rocket and topside sounder Alouette 2 measurements

07 p1124 A69-18839

Radio noise generation in topside ionosphere, noting Cerenkov radiation from intense soft fluxes of auroral electrons

07 p1127 A69-19257

Nighttime Venus ionosphere models compared with Mariner 5 observations, discussing implications with regard to He and H abundance consequences and nightglow

09 p1594 A69-21695

Regular disturbance in topside ionosphere on summer nights from continuous records of ionospheric electron content, discussing magnetic activity and sunspot number effects

09 p1489 A69-21703

Topside ionospheric electron density profiles compared for magnetically quiet and disturbed periods surrounding December 17, 1962 magnetic storm

10 p1685 A69-23835

Satellite measurements of suprathermal electrons at conjugate sunrise, indicating photoelectron escape from production level and movement along geomagnetic lines into conjugate ionosphere

11 p1950 A69-25144

Second tacite sounding rocket test for measuring UV radiation in transition zone between upper ionosphere and space

11 p1887 A69-25213

Rocket and satellites topside sounding of earth ionosphere, determining magnetoplasma structure and resonance

14 p2438 A69-29101

Electron density profiles in outer ionosphere and integral of electron density measured with coherent radio waves emitted from Electron satellite

14 p2438 A69-29106

Ionic diffusion in topside ionosphere analyzed using multiple gas mixture diffusion formula, noting Coulomb ionic collision role

14 p2441 A69-29381

OGO 5 spectrometric studies of topside ionospheric ion concentrations, noting difference between nighttime and sunlit pass

15 p2599 A69-31345

Thermal diffusion coefficient for fully ionized plasma containing mixture of arbitrary charge ions in topside ionosphere

16 p2775 A69-32084

Ionospheric satellites objectives and development resulting from topside sounder and ISIS programs

20 p3529 A69-37855

Explorer 20 satellite for obtaining fixed frequency pulse soundings of ionospheric topside, discussing

transceiver-dipole antenna instrumentation and payload

20 p3618 A69-37857

Sweep frequency ionospheric topside sounder design for Alouette and ISIS satellites, discussing influence of experiment requirements and spacecraft limitation and environments

20 p3507 A69-37859

Alouette 1 and 2 topside sounder ionograms analyzed with emphasis on low electron density, spread F and field aligned propagation

20 p3529 A69-37863

Topside ionogram reduction for ionospheric electron density determination, using geomagnetic strength at all heights, iteration and change of variables

20 p3529 A69-37864

Global electron density distribution morphology in topside ionosphere during sunspot minimum from Alouette 1 and 2 ionograms

20 p3530 A69-37867

Topside equatorial ionosphere structure and behavior, describing anomaly development and decay

20 p3530 A69-37869

Ionospheric electron density irregularities observed by topside sounders showing shape, dimensions across magnetic field and variation percent, discussing resulting radio echoes

20 p3530 A69-37870

Upper ionosphere Thomson scatter, electron number density measurements and topside sounding results during geomagnetic storms using electrodynamic drift theory

20 p3530 A69-37872

Ionospheric topside plasma resonances observed by fixed and swept frequency satellite-borne sounders

20 p3531 A69-37884

Topside ionospheric magnetic field aligned irregularities using satellite observations of nonvertical electromagnetic wave propagation and delayed echo generation

20 p3495 A69-37885

Applicability and limitations of diffusive equilibrium in topside ionosphere, noting plasma density distribution along magnetic field line

20 p3531 A69-37887

Topside ionospheric structure from Alouette 2 data, discussing thermopause temperature, plasma temperature, electron density profiles, satellite plasma frequency, etc

20 p3532 A69-37895

Diurnal and seasonal variations of primary atmospheric ions in topside ionosphere correlated with solar zenith angle, using ion mass spectrometer on Explorer 32

20 p3534 A69-38087

Ariel 3 satellite observations, including topside ionospheric variations with time and solar activity, electron density, temperature measurements, etc

21 p3716 A69-39257

Magnetic activity effect on electron density in topside ionospheres determined from Alouette 1 data statistical analysis

23 p4156 A69-41856

Topside ionosphere response to magnetic storms, using Explorer 22 satellite electron concentration and temperature measurements

23 p4161 A69-42438

URANIUM

Lead isotope composition and concentrations of U, Th, Ra, total Pb and Pb 210 in recent volcanic rocks, noting disequilibrium due to chemical fractionations

04 p0593 A69-15011

Age of Galaxy from decay of uranium, assuming prompt synthesis

09 p1605 A69-22414

Gaseous reactor fluid mechanics for nuclear rocket engines, discussing experiments on geometries used in open cycle engine for acceptable uranium loss rate [AIAA PAPER 69-477]

16 p2811 A69-32728

Uranium abundances in several eucrites measured by fission track method, discussing Pu-Xe decay interval question

17 p3044 A69-34167

Group cross section generating techniques to calculate neutron capture rates and spatial capture distribution in depleted thick U slab, using GAROL program

18 p3177 A69-35179

Pu/U ratio from fossil track studies bearing on extinct Pu 244 in Campo del Cielo and Kodaikanal meteorites

19 p3407 A69-36077

URANIUM COMPOUNDS

Uranyl ions interaction with phospholipid and cholesterol monolayers, using surface pressure and potential measurements

11 p1832 A69-25641

Energy exchange of rare earth ions in uranyl phosphate liquids and glasses, studying sensitized luminescence origin

14 p2485 A69-29034

Two photon excitation of luminescence in complex uranyl compound single crystals using Q switched ruby laser

19 p3334 A69-35982

URANIUM FLUORIDES

Fissioning plasma generated in shock tube with 235 uranium hexafluoride gas, selecting tube diameter, reflector depth and initial gas density for specific neutron multiplication

18 p3180 A69-34455

URANIUM ISOTOPES

Uranium in meteorites, discussing U content and isotope composition, Pb isotope ratios, radiogenic Pb, origin of matter and meteorite ages

01 p0025 A69-11369

Uranium content in fragments from iron meteorites determined by fission fragment track recording

01 p0026 A69-11377

URANIUM OXIDES

Postirradiation investigation of uranium dioxide fuelled thermionic emitters by evaluating released fission gases, noting different neutron fluxes metallographic effects

14 p2481 A69-29200

URANIUM 235

Fast neutron spectrum for subcritical section of homogeneous U 235-polyethylene thermionic critical assembly measured by pulsed source time-of-flight method

18 p3170 A69-34313

URANUS [PLANET]

Two element interferometer observing Saturn, Uranus and Neptune at 3.12 cm, determining equivalent black body disk temperature

01 p0148 A69-10052

Uranus observations in 1964 by Algiers and Quito astrolabes compared with Washington transit results

16 p2853 A69-31620

Radio telescope observations at 11.13 cm for polarized E vector intensities of Saturn and disk temperature of Uranus and Neptune

17 p3039 A69-33731

Tabulation of Uranus observations of Sao Paulo Observatory astrolabe in 1968, giving special attention to East and West passages during night

22 p4031 A69-40912

URBAN DEVELOPMENT

Multiband aerial photography utilization for evaluating urban housing quality compared with present data collection methods

13 p2260 A69-27607

Urban noise control over transportation systems including aircraft and highway traffic operating beyond local noise ordinance purview

14 p2541 A69-29157

Airport planning, discussing air transportation and city planning problems for Hannover air terminal

16 p2882 A69-32329

Community planning and airport requirement interrelation, discussing land usage, satellite airport system for private aviation, etc

16 p2882 A69-32331

Air space saturation, urban surface transport network enlargement necessity and expeditious passenger processing and baggage handling

24 p4296 A69-42567

Multispectral orbital photography used to obtain urban land-use data [AAS PAPER 69-483]

24 p4307 A69-42837

UREAS

Enzymic decomposition of urea in urine, noting production of ammonia and effect of urea components on hydrolysis rate

08 p1265 A69-19834

Urease activity determined by using C 14 urea in stored, preserved /Permafrost/ and irradiated soils

18 p3095 A69-34543

Microbial protein extraction from Chlorella algae and Torulla yeasts using urea soaking method

21 p3662 A69-39712

URETHANES

Rigid PVC, urethanes and thermosets processing for high performance, noting injection molding and machine developments role

18 p3148 A69-34611

Reversion resistant polyether and polyester type urethanes, discussing applications, testing methods and material processing

19 p3357 A69-35566

URIC ACID

Protein contained purine free basal and yeast ribonucleic acid diets effect on plasma and urinary uric acid production in male subjects

05 p0708 A69-15968

URIDYLIC ACID

Poly A-poly U synthesized by Azotobacter Vinelandi RNA polymerase in unprimed reaction containing ATP and UTP, following short lag period

10 p1647 A69-24185

URINALYSIS

Biochemical indicators of pilot reactions to flights complicated by unexpected autopilot failures, using postflight chemical analysis of blood and urine

05 p0710 A69-16525

Sympathoadrenal activity during and after impact stress measured from urinary excretion of catecholamines and 17-hydroxycorticosteroids

06 p0875 A69-17839

Intrarenal capillary hydrostatic pressure effect on hemodynamically induced changes in sodium excretion

07 p1063 A69-18629

Biochemical indicators of pilot reactions to flights complicated by unexpected autopilot failures, using postflight chemical analysis of blood and urine

18 p3096 A69-34744

Male patients urine tests during sinusoidal vibration, noting catecholamine excretion as criterion of emotional stress under various environmental conditions

21 p3654 A69-38909

Urine osmolality of centrifuged rats compared with ad libitum or pair-fed control animals, indicating enhanced free water excretion and antidiuretic hormone involvement

24 p4262 A69-42904

Urine sampling conditions for kidney function circadian rhythm during global flight, considering food and water intake, sampling intervals and body position

24 p4266 A69-43374

Urinary excretion of hormonal metabolites in intercontinentally flown test subjects, using gas chromatographic procedure for steroid identification

24 p4268 A69-43404

URINATION

Visceral afferent pathways influence on vasopressin secretion, ADH levels and urinary excretory patterns of dogs during surgical stress

05 p0708 A69-15970

Desynchronization and resynchronization of human circadian rhythms of activity, body temperature and urine excretion during isolation in underground bunker in various conditions

21 p3660 A69-39173

Diuresis during total immersion in thermally neutral water, interpreting urine flow increase caused by intrathoracic blood volume expansion

23 p4094 A69-42075

URINE

Renal effects of moderate hypoxia exposure in mice as reflected in urine volume and electrolyte excretion patterns during four days at simulated altitude

01 p0015 A69-10921

Lateral acceleration effects on human kidney functions, noting increase in diuresis and erythrocytes in urine

02 p0198 A69-11514

Enzymic decomposition of urea in urine, noting production of ammonia and effect of urea components on hydrolysis rate

08 p1265 A69-19834

Urine excretion following water load in male subjects exposed to normal, hot/dry and comfortable/dry environment applied to airline crews

17 p2914 A69-33182

Open cycle air evaporation technique selected for water recovery from human urine, based on tradeoff studies

19 p3258 A69-36455

Supersonic flying effect on urinary catecholamine excretion rates in pilots, noting emotional state

24 p4265 A69-43370

UROLITHIASIS

Urinary lithiasis frequency among aircrews, reviewing etiology, symptomology, therapeutics and prevention

24 p4267 A69-43388

VTOL or V/STOL Light Intratheater Transport /LIT/ for future tactical airlift situations, comparing tiltwing, liftjet, stowed rotor and fan-in-wing concepts

01 p0008 A69-10146

Man machine relationship in V/STOL control display, discussing inflight simulators, emphasizing NASA X-14 and CH-3C programs

01 p0010 A69-10452

Piloting aspects of jet V/STOL aircraft for poor weather operations without complicated ground aids, discussing deceleration transition, forward speed and final approach angle

01 p0010 A69-10868

Water hover effects tested on tilt wing V/STOL seaplane model, noting effects of wind and waves on water passing through propellers

01 p0011 A69-11061

Optimal transport aircraft, considering VTOL/STOL aircraft, construction requirements and flying distances

01 p0012 A69-11293

X V-4B Hummingbird 2, noting modification from XB-4A two engine ejector augmentation to six engine direct and diverted thrust configuration

03 p0366 A69-13112

Design parameters optimization for V/STOL jet aircraft with lift engines mounted in wing pod, discussing wing loading and aspect ratio, power plant, etc
04 p0547 A69-14812

Servoelements and control methods for V/STOL aircraft, including lift and propulsion throttle configurations
04 p0547 A69-14815

Boeing/Vertol Hybrid Facility for solving engineering problems in V/STOL design and research
04 p0567 A69-15352

Helicopter role, development and configurations, noting V/STOL competition impetus
05 p0700 A69-15547

Engines for V/STOL application, discussing aerodynamics of thrust lift and lift jet engines
05 p0811 A69-15553

V/STOL aircraft characteristics, emphasizing propeller, ducted fan and turbojet types
05 p0701 A69-15563

Technological evolution of turboprop propeller powered tilt wing V/STOL aircraft, discussing XC-142A, CL-84 and VZ-2 aircraft
05 p0701 A69-15564

Hovering fan powered V/STOL aircraft effects on objects on ground, discussing related dust and debris problems
05 p0701 A69-15565

Aerodynamic interference effects arising from jet efflux of V/STOL aircraft, developing vortex sheet theory for jet interference
05 p0696 A69-15566

Design parameters optimization techniques for V/STOL aircraft, noting necessary cooperation between engineering and computing facilities
05 p0701 A69-15570

Large subsonic wind tunnels for correct simulation of V/STOL powered flight by minimizing wall constraint effects on flow field
05 p0741 A69-15573

Wind tunnel wall constraints effects at extreme force coefficients during V/STOL testing shown different from effects in conventional aircraft testing
05 p0741 A69-15574

V/STOL operations in intercity and intracity service, discussing technical feasibility and need for steep approach instrument landing system
05 p0703 A69-16723

Engine air intake for operational Harrier V/STOL strike/reconnaissance fighter, describing intake instrumentation ring, temperature and pressure probe development and pressure recording
05 p0767 A69-16773

Dynamic stability tests of tilt winged V/STOL aircraft model in ultralow speed range, discussing apparatus for stability derivatives
06 p0866 A69-17091

Optimal V/STOL wind tunnel through interference study of slotted tunnel walls, including porosity and height to width ratio effects
06 p0908 A69-18203

Nondemographic model predicting market shares of V/STOL aircraft in competition with automobiles and conventional airliners for short haul intercity business travel markets
07 p1244 A69-18967

Qualitative V/STOL air traffic control requirements, discussing airborne and ground data, procedures and equipment categories
07 p1177 A69-19552

Longitudinal stability of V/STOL aircraft at low speeds, discussing three tilt wings and quad ducted propeller configurations
07 p1055 A69-19566

Fall-safe goals, design criteria, analytical methods and test procedures to achieve reliable damage tolerant dynamic rotating parts for V/STOL and helicopter transports
07 p1237 A69-19569

V/STOL commercial intercity jet aircraft design concept for high density short haul travel featuring low noise, high economy, reliability and tandem wing configuration
07 p1056 A69-19571

Air deflection and modulation /ADAM/ turbofan propulsive wing V/STOL design
07 p1056 A69-19573

System safety analysis for V/STOL aircraft, discussing fault-tree technique role in fail-safe design
07 p1056 A69-19575

STOL and V/STOL role in eliminating air traffic congestion at U.S. and West European airports and in short haul and municipal routes
08 p1254 A69-20093

V/STOL rotary wing and propeller aircraft dynamic and aeroelastic problems emphasizing instabilities
08 p1419 A69-21031

Real time real temperature exhaust gas reingestion and structural heating test facility for jet lift V/STOL configurations
09 p1479 A69-22388

V/STOL undercarriage design, considering influence of aircraft operation, engine installation, rough/soft ground capability, etc
09 p1435 A69-22781

V/STOL aircraft future, discussing Federal Government policies, economics, airport planning, engineering problems, etc
10 p1811 A69-23221

V/STOL aircraft performance characteristics related to civil aviation operations and certification requirements
11 p1822 A69-24463

V/STOL air intakes and jets simulation in wind tunnel tests, noting thrust simulation possibilities
11 p1866 A69-25431

Exhaust gas reingestion and inlet flow distortion in V/STOL lift engines, discussing static and wind tunnel testing using fighter configuration models
12 p2012 A69-26762

Conjugate gradient methods for optimization problems with terminal constraints, noting minimum time paths for V/STOL aircraft climb phase
12 p2013 A69-26763

Aerodynamic effects of lift jet and lift fan inlets in transition flight, analyzing inlet momentum lift, inlet lip lift and drag
12 p2014 A69-26767

V/STOL aircraft in commercial aviation, discussing costs, noise reduction, propulsion systems, projected routes, etc
13 p2203 A69-28039

Turbofan V/STOL with separate lift units for takeoff and landing, discussing commercial and military applications, cost effectiveness and operational characteristics
13 p2203 A69-28354

Variable bypass ratio lift/thrust engine arrangement in relation to safety and economic requirements, using scale model of V/STOL
15 p2672 A69-31542

Jet influence and aerodynamic force changes on V/STOL aircraft in transitional and high speed flight investigated in wind tunnel tests for fighter aircraft
16 p2734 A69-31937

Running test facility for study of aerodynamics and flight dynamics of V/STOL aircraft models
17 p2944 A69-32851

Short range transport - Royal Aeronautical Society Conference, London, May 1969
17 p2897 A69-33206

Terminal area navigation and landing guidance systems for V/STOL intercity transport aircraft, considering radio guidance, aircraft control and system interaction
17 p2897 A69-33210

STOL and V/STOL short haul intercity airliners emphasizing propulsion systems, operational aspects and economics
17 p2898 A69-33356

V/STOL fatigue design parameters, balancing fail-safe and safe-life design procedures
17 p2900 A69-33512

Ground simulations data of jet lift V/STOL compared with visual flight results, studying hover, lateral quick start and stop maneuver
17 p2946 A69-33519

Military V/STOL aircraft flying qualities specification, considering structure, hover and low speed requirements, forward flight, transition maneuverability and control
17 p2900 A69-33520

Vector airspeed measuring system /VAMS/ for helicopters and V/STOL aircraft utilizing gas discharge mass flowmeter to improve takeoff performance
17 p2974 A69-33527

Flight command computer for V/STOL aircraft, discussing design concepts, operating modes, displays, etc
17 p3001 A69-33543

Stability augmentation system for CX-84 tilt wing V/STOL aircraft, using redundancy techniques to achieve fail operational performance with two active channels
17 p2901 A69-33545

Folding prop rotor V/STOL aircraft characteristics, showing configuration effects on performance and optimization of rotor, wing and propulsion systems
17 p2901 A69-33547

Nonrecirculating wind tunnel configuration with minimum atmospheric wind disturbances for V/STOL vehicles aerodynamic testing
17 p2947 A69-34024

Circular jet flow exhausting at right angles from plane wall into uniform cross flow, considering application to V/STOL aircraft
17 p2896 A69-34036

Weights study of V/STOL aircraft types for similar mission and payload requirements with different propulsion systems and flight profiles
18 p3091 A69-34869

Aerodynamics of rotary wing and V/STOL aircraft - Conference, Buffalo, June 1969
18 p3087 A69-35216

Aerodynamics of rotary wing and V/STOL aircraft - Conference, Buffalo, June 1969, Volume 2, Wind tunnel testing, New concepts in rotor control
18 p3088 A69-35226

V/STOL model small scale tests compared with full scale tunnel or flight tests, considering normal differences in parameters and rotor instability
18 p3119 A69-35227

V/STOL wind tunnel data at low forward speeds, discussing test limit dependence on model size, downwash angle and tunnel geometry
18 p3119 A69-35229

Tilt wing V/STOL aircraft spray circulation characteristics in overwater operation, examining forces, moments and generated environmental conditions
19 p3243 A69-35638

V/STOL and conventional transport aircraft compared for short haul air transport services
20 p3461 A69-37281

Composites for weight sensitive aerospace vehicles including reentry vehicles and V/STOL aircraft, considering costs, fracture toughness, corrosion resistance, etc
20 p3565 A69-37291

V/STOL aircraft aerodynamic roll motion control requirements at low speeds
20 p3574 A69-37514

Low visibility V/STOL instrument landing system and associated electronic structures, discussing instrument to visual flight transition
22 p3979 A69-40675

Aerodynamic research for rotary wing and V/STOL aircraft, suggesting analytical techniques with software packages designed around standard input/output formats
23 p4146 A69-41373

V/STOL propeller aerodynamics, considering thrust efficiency, roll and yaw control, flow visualization methods, etc
23 p4062 A69-41375

VTOL, STOL and CTOL transportation systems cost effectiveness comparison for Northeast Corridor operation, considering ground facilities, access time, etc
23 p4147 A69-41642

V/STOL commercial intercity jet aircraft design concept for high density short haul travel featuring low noise, high economy, reliability and tandem wing configuration
24 p4251 A69-42648

V/STOL aircraft radar inertial navigation system, describing approach and landing phase flight test results
24 p4252 A69-42831

Operational and economical aspects of V/STOL air transportation reevaluated for civil aviation promotion
24 p4418 A69-42870

VACANCIES [CRYSTAL DEFECTS]
NT FRENKEL DEFECTS

Vacancy diffusion in Ge, relation to precipitation of Cu impurities from supersaturated solid solution and determination of monovacancy migration energy
02 p0295 A69-11780

Melting points of tetrahedral phases with stoichiometric vacancies found proportional to covalent bonds number in semiconductors
02 p0297 A69-11881

Intentional impurities effects on nitronium perchlorate thermal stability explained by change in cation and anion vacancies
02 p0304 A69-11899

Formation energy of heat vacancies in molybdenum and temperature dependence of concentration determined on basis of enthalpy data
02 p0266 A69-12184

Vacancies and interstitials in metals - Conference, Jülich, West Germany, September 1968
02 p0267 A69-12185

Migration and penetration of vacancies in quenched magnesium analyzed by electrical resistivity measurements and electron microscopy
02 p0267 A69-12187

Mechanical effects of grain boundaries, considering hardening associated with vacancies and vacancy-solute interactions
03 p0449 A69-13875

Spectral study of crystal lattice of gallium phosphides for influence of vacancies and impurities on band formation
04 p0643 A69-15258

Majority carrier concentration changes in P-doped n-type Si during fast electron bombardment, discussing relative effect of A and E centers
07 p1199 A69-18684

Valence electrons mean density stability in Ti and V monoxides, describing mechanism for filling M vacancies with simultaneously forming O vacancies
09 p1523 A69-21738

Near boundary zones in VT15 Ti alloy not involved in beta phase decomposition during aging below 500 C attributed to vacancy concentration decrease
11 p1902 A69-24275

Room temperature thermal conductivity of semiconducting alloys with stoichiometric distributions of vacancies in cation sublattice, discussing heat resistance
12 p2142 A69-25975

Melting points of tetrahedral phases with stoichiometric vacancies found proportional to covalent bonds number in semiconductors
18 p3182 A69-35041

Electron irradiation-temperature dependence of introduction rate and room temperature annealing of carrier-removal defects in Li-doped Si
24 p4360 A69-42647

Linear elastic theory for calculating monovacancies entropy and energy of formation in metals
24 p4360 A69-42649

VACCINES
U INOCULUM

VACUUM
NT ULTRAHIGH VACUUM

General theory of relativity and tensor field equations relating space time characteristics to local properties of matter and vacuum, using Palatini Lagrangian method
09 p1593 A69-21572

Zero point energy, evolutionary cosmology, negative kinematic pressure and space curvature, assuming physical vacuum as ground state of Bose field
10 p1780 A69-23649

Vacuum and thin film - Conference, Pittsburgh, October-November 1968
13 p2298 A69-28003

Vacuum - Conference, Manchester, England, April 1968, Part I
13 p2240 A69-28076

Stationary radial source flow of liquid particles into vacuum, discussing boundary value problem equations, parameters effects on flow structure and flow field characteristics
13 p2248 A69-28210

Noncontacting minimum leakage dynamic seal requiring liquid-vapor interface with leakage tolerance [ASLE FICFS PREPRINT 40]
15 p2620 A69-30485

Spherically symmetric vacuum solution of Treder gravitational theory with emphasis on gravitational collapse
17 p3029 A69-33011

VACUUM APPARATUS
NT BAYARD-ALPERT IONIZATION GAGES
NT ION PUMPS
NT IONIZATION GAGES
NT KNUDSEN GAGES
NT PIRANI GAGES

Vacuum distillation technique for isolation and recovery of alkali metal reaction products with Ta, Ni, V and oxygen
01 p0083 A69-10927

Vacuum equipment for evaporation or sputtering in semiconductor industry
04 p0598 A69-14876

Lanthanum hexaboride single crystal field emitters for vacuum devices, describing construction and performance
09 p1468 A69-22601

Vacuum equipment and systems - Conference, Manchester, England, April 1968, Part 2
13 p2262 A69-28082

Device for equipment insertion into space vacuum simulation chamber to minimize interaction with walls [ONERA-TP-676]
20 p3510 A69-37405

Ruby laser-ultrahigh vacuum device for studying electron and ion emissions and light absorption of materials, noting influence of adsorbed gas layers
20 p3553 A69-37406

Vacuum apparatus for measuring uniaxially loaded metal surfaces interfacial adhesion, showing surface oxide removal effectiveness influence in adhesion strength
21 p3689 A69-38594

Vacuum distillation determination of O in Li, evaluating accuracy through O additions and recoveries, method blank and residue identification
22 p3897 A69-40932

VACUUM CHAMBERS

Current sheath surrounding exploding copper wire in vacuum, plotting current distribution as function of time and radius
01 p0119 A69-10669

Exploding wire phenomenon during early expansion from time correlated X ray and optical streak photographs in vacuum chamber
01 p0119 A69-10670

Molecular flow in space simulation chambers with cryowalls, noting nonuniform flux density distribution
01 p0057 A69-11153

Lithium hydride microplasma expansion in vacuum using charge collectors, time of flight detectors and spectroscopy of light emission
02 p0286 A69-11704

Polymethyl methacrylate irradiated by laser in vacuum to study mechanism responsible for gas formation
02 p0270 A69-11980

Vacuum system for obtaining highly purified plasmas for thermonuclear investigations noting decontamination cycles and chamber characteristics
03 p0412 A69-13839

Four specimen vacuum device for simultaneous tensile creep tests at 1200 C, discussing linear and thermal expansion
07 p1116 A69-19318

High temperature vacuum tensile test device for continuously direct recording various stress-strain diagram rates by interchangeable dynamometer scale
07 p1117 A69-19319

In situ vacuum testing requirement for valid measurement of vacuum induced changes in mechanical and thermal properties of various filled elastomers
09 p1477 A69-22008

Laser radiation in vacuum effects on metals and alloys
11 p1906 A69-25684

Real time pressure simulation chambers for testing space vehicles, discussing slow and rapid evacuation and pumping systems
13 p2240 A69-28077

Plasma microwave measurement error allowance for multiple reflection of waves from vacuum chambers dielectric walls
14 p2498 A69-29806

Selectively pumped thermal vacuum test chamber for orbital heat transfer and environment simulation for flight vehicle performance prediction
15 p2587 A69-30392

COMSAT thermal vacuum chamber specification configurations, discussing chamber orientation, vacuum and roughing systems, pumping mechanism, wiring, installation, testing, etc
15 p2587 A69-30393

Leg volume changes in response to lower body negative pressure due to blood redistribution
17 p2908 A69-33171

Low pressure and background radiation conditions via cryogenically cooled surfaces, citing data on cryopumping under vacuum conditions for space simulation chambers
17 p3006 A69-33683

Wind tunnel model low pressure measuring system, discussing pressure transducers, automatic control and pressure distribution tests [AIAA PAPER 68-402]
17 p2947 A69-34023

Solid solutions atomic ordering effect on friction and wear in vacuum, using CuAu and FeCo systems
18 p3149 A69-35183

Friction tests for Mariner Mars 1969 spacecraft mechanisms in ultrahigh vacuum molecular sink chamber, noting increased friction attributed to vacuum environment [AIAA PAPER 69-996]
22 p3920 A69-40374

Solar simulator built into multiwall ultrahigh vacuum chamber, describing simulator and chamber modifications [AIAA PAPER 69-1001]
22 p3921 A69-40377

Pressure measurements and gas flow analysis during thermal vacuum tests of manned spacecraft indicating adequate space vacuum simulation [AIAA PAPER 69-1033]
22 p3924 A69-40401

Solid rocket motor static firing tests in low pressure environment, presenting data concerning vacuum chamber pressure, diffusers pressure distribution, chamber wall temperature distribution, etc
22 p4000 A69-40593

VACUUM DEPOSITION

Electrical properties of vacuum deposited Bi, noting association of negative temperature coefficient of resistance in Bi thin films with grain-boundary effects
02 p0296 A69-11878

Thin CuAs selenide films by vacuum deposition, electronographic study proves cubic sphalerite phase existence
02 p0298 A69-12045

Cathode sputtering and thermal evaporation in vacuum used for preparing thin dielectric coatings on mirrors of optical resonators containing nonlinear crystals
03 p0438 A69-13049

Mechanical properties of thermodiffused layers obtained by vacuum chromizing of steel, establishing need to decarburize substrate material
03 p0450 A69-13913

Optical absorption of vacuum deposited thin rubidium films, noting similarity to sodium and potassium
03 p0491 A69-14114

Vacuum carburization of surface layers of transition metals
04 p0614 A69-14572

Vacuum deposition of thin film microwave acoustic transducers of piezoelectric aluminum nitride
05 p0761 A69-15820

Differential ion pumping for vacuum deposition of thin films
06 p0907 A69-17709

Technique for obtaining flawless silicon single crystal films on sapphire bases by vacuum deposition, noting base temperature effect on film quality
07 p1198 A69-18509

CdSe single crystal films vacuum deposition for use of photocells base with p-n heterojunctions
07 p1198 A69-18512

Physical sputtering deposition of molybdenum disulfide films as solid lubricant on rotating and sliding components, discussing lubrication properties in vacuum [ASLE PAPER 68-LC-15]
07 p1140 A69-19308

Apparatus for depositing protective coatings on graphite by vacuum method in refractory metal carbonyl and halides mixtures and in molten metals
09 p1528 A69-21850

Lead sulfide single crystals and polycrystalline films growth studied by electron microscopy during vacuum deposition on NaCl and other substrates
10 p1743 A69-23002

Vacuum deposition of Cr-Al film on Ni-Mo alloys, describing operating pressure, temperature and film thickness
10 p1715 A69-24013

Vacuum evaporation effects on internal macrostresses in deposited metal films based on X ray analysis, showing substrate temperature contribution
12 p2143 A69-26457

Thin film cermet resistors for integrated circuits produced by thermal vapor deposition in vacuum, cathodic sputtering and explosive vapor deposition
13 p2268 A69-27466

Electrical properties of electron beam evaporated Ti, Zr and Hf films as function of substrate temperature, material and film thickness
13 p2321 A69-28010

Energetics in solid film lubricants vacuum deposition methods, showing dependence on interfacial and film characteristics
14 p2454 A69-29001

Vacuum carburization of surface layers of transition metals
15 p2638 A69-30273

Steels chromized by vacuum diffusion, studying depth, microstructure and properties of chromized layer
19 p3329 A69-36572

Vacuum restoration by laser evaporation of active media /getters/ and vapor condensation on cold substrate applicable to nonmetallic active media /titanium-magnesium oxide/
21 p3735 A69-38590

Thin film formation, deposition methods and relation to film structure and properties
24 p4361 A69-43344

Dielectric and semiconductor films vacuum deposition by CW carbon dioxide laser, discussing optical properties
24 p4329 A69-43755

VACUUM EFFECTS

Refractory metals interactions with gases in vacuum and inert gas environment, noting temperature and pressure effects on reactions, extent and kinetics
01 p0099 A69-11042

Space lubrication system for Orbiting Solar Observatory program, discussing theoretical high vacuum principles and flight performance and environmental test data
02 p0252 A69-11766

Vacuum heating and thermal cycling influence on mechanical and structural properties of aluminum sheets fabricated from sintered powder
02 p0266 A69-12126

Vacuum effect on steel friction, noting changes in residual gases and heat transfer conditions
03 p0434 A69-13915

Cathode emission site analysis by measuring prebreakdown current under ultrahigh vacuum conditions
05 p0800 A69-15740

Polymer films tensile properties after exposure to gamma radiation in vacuum, noting chain scission and cross linking
[ASME PAPER 68-WA/RP-6]
05 p0783 A69-16160

Solid insulator performance in vacuum, analyzing breakdown factors
05 p0731 A69-16243

Controlled factorial experiments on high voltage vacuum breakdown, using Yates algorithm analysis on computer
05 p0731 A69-16244

Cardiovascular responses of baboons and dogs subjected to anoxic near vacuum environment by rapid decompression
06 p0875 A69-17846

Axisymmetric poloidal vacuum magnetic fields in low pressure plasmas in MHD equilibrium
06 p0972 A69-18230

Oil lubricant vapors under frictional working conditions in vacuum analyzed by mass spectrometer and gas-liquid chromatography concerning molecular weight and composition
[IME PAPER 11]
07 p1137 A69-18558

Vacuum, radiation and freeze drying effects on survival rate of microorganisms, noting influence of protective materials on extent of damage
07 p1064 A69-18943

Direct bead sampling by aspiration of molten metal in open hearth furnaces and converters
07 p1141 A69-19341

Motor design for operation in ultrahigh vacuum, discussing absence of convection cooling, outgassing avoidance, lubrication impossibility and oxygen absence as design parameters
08 p1377 A69-21028

In situ vacuum testing requirement for valid measurement of vacuum induced changes in mechanical and thermal properties of various filled elastomers
09 p1477 A69-22008

Vacuum melting effect on O concentration in heat resistant alloys, outlining conditions for nitrides formation in equilibrium with melt
09 p1524 A69-22136

Vacuum engineering problems during booster rocket engine ground tests, simulating flight environment
[TR-781-O]
09 p1570 A69-22300

Refractory metals testing at high temperatures in vacuum, discussing equipment modifications, temperature measurement and residual gas problems
10 p1714 A69-23848

Simplified model of ignition tests with liquid propellant rocket engines under high vacuum conditions, giving possible parameter for evaluation of simulation of real conditions
[DVL-831]
10 p1754 A69-24022

Surveyor electronic engineering design for lunar environment, discussing vacuum and temperature effects
11 p1958 A69-24633

Plasma flow from Penning discharge with incandescent cathode in vacuum controllable by varying voltage, pressure and magnetic field strength
11 p1933 A69-25543

Surface waves effect on electromagnetic waves in coherent reflection from plasma-vacuum boundary, describing polarization and angular and spectral distributions
12 p2031 A69-26530

Vacuum effects on resistance spot welds in aluminum, stainless steel and titanium alloys, noting X ray and tensile shear test results
12 p2103 A69-26622

Thermal resistance of bolted or screwed sheet metal joints in vacuum, using method applicable to different materials and surface finishes
12 p2191 A69-26803

Resistance type bonded strain gages for seven adverse environments, discussing installations and transducers
12 p2099 A69-27165

Aluminum alloys ductile fatigue striations, considering dependence on grains crystallographic orientation and vacuum effect
13 p2278 A69-27415

Electronic structure of clean metallic interfaces, considering electron, ion and surface interactions for metal-vacuum interface
13 p2321 A69-28008

Friction resistance between steel and ground basalt in ultrahigh vacuum, showing increase by adhesion
13 p2298 A69-28014

Antifriction characteristics of hard lubricating coatings based on molybdenum disulfide and graphite in inert gas atmosphere and vacuum, determining thermal stability temperature ranges
13 p2269 A69-28053

Copper and aluminum fatigue in vacuum and ultrahigh vacuum, discussing effects of hydrogen, nitrogen and oxygen pressures
13 p2280 A69-28088

Outgassing behavior of polymers in spacecraft by thermal-vacuum weight-loss and contamination tests
13 p2286 A69-28089

Heat flow resistance between solid bodies in contact in vacuum
13 p2378 A69-28338

Vacuum chamber model for sinusoidal rilles on lunar surface produced by aqueous erosion under ice blanket
14 p2485 A69-28873

Vacuum thermal decomposition of molybdenum sesquisulfide into metallic Mo, discussing reaction kinetics, mass transfer, diffusivity of sulfur gas, etc
14 p2467 A69-29287

Sliding friction tests of Cu and Cu-Be alloy plates in contact with various alloy sliders in air and vacuum
[ASLE PAPER 68-LC-5]
15 p2622 A69-30610

High vacuum effects on oxidative processes in bacteria and physiological activities of enzymes
15 p2557 A69-31354

Escherichia coli B/r survival in high vacuum at different temperatures irradiated with UV or X rays tested as colony forming ability
15 p2557 A69-31388

Solid lubricants on molybdenum disulfide base at various temperatures and low pressures, noting film mass losses and possible use with organic materials under high vacuum
16 p2793 A69-31561

Calorimetric measurement of source and broadband spectral absorptances of spacecraft thermal control coatings during exposure to UV in vacuum environment
16 p2789 A69-31815

Fixed mass of monatomic gas unsteady spherically symmetric expansion into vacuum by asymptotic Boltzmann equation expansion
16 p2772 A69-32168

Vacuum and thermal environment long term influence on thermal resistance for Mg to aluminum and Mg to Mg bolted joints
[AIAA PAPER 69-628]
17 p3073 A69-33309

Flow field of two dimensional nozzle exhausting to vacuum, describing computer program based on BGK equation and plotting exhaust region density, temperature and velocity
[AIAA PAPER 69-658]
17 p2893 A69-33490

Specification requirements for space vacuum simulation, considering vacuum requirements for simulating various effects
17 p2946 A69-33659

Deformation studies of high melting point metals and alloys at high temperatures in vacuum, noting crack formation resistance and annealing time variations
18 p3155 A69-34651

Manufacturing in space based on nongravity and hard vacuum environment, considering crystal growth and refinement, perfectly shaped bodies, refractory metals ultrapurification, etc
18 p3234 A69-35066

Spacecraft and components testing methods critical reassessment, discussing cost reduction, vacuum and thermal cycle tests
18 p3118 A69-35082

Resistance spot welds in Al, Ti and stainless steel in air and hard vacuum, showing feasibility for space assembly
19 p3319 A69-35554

Density profiles in far field of reaction control system plumes in vacuum obtained by method eliminating difficulties encountered by continuum method
19 p3238 A69-35954

Volume prediction of human body exposed to vacuum based on animal skin elasticity and anatomical features
19 p3258 A69-36456

Hydrogen jet structure ejected into vacuum from Laval nozzle at supersonic velocity, considering separation point from diffuser wall
19 p3240 A69-36604

Soviet book on diffusion welding in vacuum covering ferrous metals, homogeneous nonferrous metals, equipment, cermets, etc
19 p3329 A69-36748

Physical state changes, chemical reactions, gaseous diffusion in solids and solid-gas interactions in vacuum, considering saturated vapor pressure, condensation, evaporation, etc
20 p3576 A69-37408

Space contamination by spacecraft-borne terrestrial microorganisms, testing vacuum effect on water desorption rate using mass spectrometry on various cells
20 p3475 A69-37615

Vacuum heat treating and joining process for various ferrous and nonferrous metals and alloys, discussing advantages, applications and economics
[ASM PAPER D8-22.3]
20 p3551 A69-38132

Experimental facility for studying heat conductivity of multicontact metallic and nonmetallic materials /plates/ in vacuum at low temperatures under various loads
21 p3721 A69-38639

External friction of refractory materials at high temperature in vacuum, discussing testing machine and methods including metallographic, X ray, spectral and electron diffraction analyses
21 p3690 A69-39154

Thin PbTe semiconductor films electrical properties measured in air and vacuum, showing dependence on thickness and conditions of preparation
21 p3782 A69-39242

Cooldown of vacuum insulated transfer lines using liquid N and H, discussing flow characteristics reproduction by digital computer program
[NAS-NRC PAPER I-1]
22 p4050 A69-40625

Reaction impulse during steel spheres impacts at lead surface in vacuum dependent on kinetic energy, velocity and spheres material
22 p4047 A69-41101

High temperature vacuum treatment of thick stainless steel sheets reducing hydrogen content and outgassing
22 p3958 A69-41217

Mean adsorption lifetimes and activation energies of Ag and Au on polycrystalline tungsten substrate in ultrahigh vacuum system free of hydrocarbon contamination
23 p4198 A69-41542

Solid film lubricants deposited by DC triode sputtering on Ni, Ni-Cr and Nb surfaces friction tested under ultrahigh vacuum conditions
24 p4321 A69-43126

Volatile wall vaporization gas flow expansion into vacuum from tube approximating unsteady mass and energy transfer and pressure at blocked end
24 p4408 A69-43485

VACUUM FURNACES

Titanium production, discussing two stage electrode vacuum arc melting furnace, control and cooling equipment
02 p0229 A69-12068

Vacuum brazing technique for joining dissimilar metals without oxide and nitride film contamination
09 p1509 A69-22343

Oil quench vacuum furnace with graphite cloth heating elements
14 p2456 A69-29894

VACUUM GAGES

NT BAYARD-ALPERT IONIZATION GAGES

NT IONIZATION GAGES

NT KNUDSEN GAGES

NT PIRANI GAGES

Noiseproof ionization manometer with ion current dual modulation for ultrahigh vacuum measurement in magnetic field with extraneous charged particles interference
03 p0429 A69-1326

Ionization manometer flange transducer with axial cathode and collector for high vacuum measurements, describing air resistant yttrium oxide coated cathode with Ir core

21 p3724 A69-39077

Vacuum gage calibration standards and methods

23 p4162 A69-41530

VACUUM MELTING

Vacuum arc melted W and W-Re alloys mechanical properties, noting Re additions effects

08 p1331 A69-20190

Vacuum melting effect on O concentration in heat resistant alloys, outlining conditions for nitrides formation in equilibrium with melt

09 p1524 A69-22136

Heat resistant materials based on high melting point metals, summarizing achievements of chemical technology and vacuum metallurgy

09 p1524 A69-22137

Tungsten vacuum-arc melted samples in deformed and recrystallized conditions, studying mechanical properties at temperatures near ductile to brittle transition

15 p2637 A69-30267

VACUUM PUMPS

NT ION PUMPS

Vacuum pumping methods for large space simulation chambers, discussing cryopumping, economic and operational considerations

13 p2241 A69-28078

Space simulator vacuum facility for optical satellite tests, construction, operation and maintenance, emphasizing noncontaminating environment and pumping systems

22 p3924 A69-40396

VACUUM SPECTROSCOPY

Absorption coefficients of molecular oxygen at Lyman alpha line and vicinity measured by vacuum spectroscopy

01 p0076 A69-11230

Aerospace Corp. solar observatory /California/ compound telescope, vacuum spectroheliograph, instrumentation and applications

11 p1862 A69-24792

VACUUM SYSTEMS

Magnetron ionization gauge in helium for low pressure measurement, discussing striking characteristics and time lags

01 p0012 A69-10606

Monocarbide phases high temperature vaporization from open metal surfaces into vacuum, obtaining temperature dependence

02 p0260 A69-11583

Gas flow rate predictions for long and short tubes and annuli and at densities between laminar-continuum and free molecular regimes

05 p0750 A69-16166

Rectangular shock tube for use with pressure and vacuum, discussing sealing of circular end flanges to buildup tube

06 p0906 A69-16928

Design and performance of large vacuum system with central control desk to study plasma dynamics, discussing visual monitoring at desk

07 p1116 A69-18261

Book on vacuum system design covering getter ion pumping, cryogenic pumping, liquid nitrogen handling, residual gas analyzers, etc

07 p1180 A69-18549

Glass vacuum systems grease free assembly method using heat shrinkable polyolefin sleeve tubing connector for compression of O ring joints

08 p1320 A69-20529

High temperature organic sealants for repairing small gas leakages in vacuum devices, tabulating test results for alkyd, epoxy, silicone and polyimide resins

11 p1907 A69-24742

Vacuum spark light source for extreme UV noting mechanical trigger, compatibility with clean vacuum system and magnetic confinement of ions

11 p1885 A69-24839

Outgassing rates of multifoil insulation materials for sealed vacuum systems measured over temperature range as function of pumping time

13 p2299 A69-28016

Flux, density and pressure variations with position in vacuum system /nonuniform gas distribution/, discussing causes and consequences

13 p2299 A69-28019

Vacuum equipment and systems - Conference, Manchester, England, April 1968, Part 2 vacuum - Conference, Manchester, England, April 1968, Part 2

13 p2262 A69-28082

Molecular flow network theory extended to pulsed operation with gases mixtures having various molecular weights

13 p2247 A69-28085

SNAP 8 developmental reactor vacuum system providing space environment simulation for nuclear reactor ground testing

13 p2241 A69-28086

Dynamic gas flowmeter for ultrahigh vacuum based on transmission characteristics of diffuser screens and associated pressure drops

13 p2263 A69-28087

Vacuum restoration by laser evaporation of active media /getters/ and vapor condensation on cold substrate applicable to nonmetallic active media /titanium-magnesium oxide/

21 p3735 A69-38590

VACUUM TUBE OSCILLATORS

NT BACKWARD WAVE TUBES

NT CARCINOTRONS

NT CATHODE RAY TUBES

NT COLD CATHODE TUBES

NT GAS DISCHARGE TUBES

NT HELITRONS

NT IMAGE ORTHICONS

NT IMAGE TUBES

NT KLYSTRONS

NT MAGNETRONS

NT MICROWAVE TUBES

NT PHOTOMULTIPLIER TUBES

NT PHOTOTUBES

NT PICTURE TUBES

NT PLANOTRONS

NT THERMIONIC DIODES

NT THYRATRONS

NT TRAVELING WAVE TUBES

NT VIDICONS

Single-sideband signal nonlinear distortion and graphical methods for calculation of oscillator tube plate current pulse components

14 p2418 A69-28828

VACUUM TUBES

NT BACKWARD WAVE TUBES

NT CARCINOTRONS

NT CATHODE RAY TUBES

NT COLD CATHODE TUBES

NT GAS DISCHARGE TUBES

NT HELITRONS

NT IMAGE ORTHICONS

NT IMAGE TUBES

NT PHOTOMULTIPLIER TUBES

NT PHOTOTUBES

NT PICTURE TUBES

NT PLANOTRONS

NT THERMIONIC DIODES

NT THYRATRONS

NT TRAVELING WAVE TUBES

NT VIDICONS

Electrostatic storage display tube characteristics, construction, applications and reliability

07 p1101 A69-18655

Vacuum tube with cathode heated directly by external radioisotope source, noting heat pipe providing isothermal heat transfer

11 p1848 A69-24748

Wideband RF amplifier manufacturing problems, comparing operation of vacuum triodes and pentodes in passband circuits

11 p1849 A69-24958

Integrated circuits, discussing development from transistors and vacuum tubes, operation, fabrication and applications

12 p2038 A69-26331

VACUUM ULTRAVIOLET RADIATION

U FAR ULTRAVIOLET RADIATION

VALANCE

Second order susceptibilities of III-V and II-VI compounds using Phillips model, discussing second optical harmonic in III-V compounds with tetrahedral bonds

01 p0138 A69-10365

Valence electrons mean density stability in Ti and V monoxides, describing mechanism for filling M vacancies with simultaneously forming O vacancies

09 p1523 A69-21738

Lowest valence and Rydberg states assigned to ungerade singlet states in dipole allowed absorption spectrum of molecular nitrogen

09 p1542 A69-21916

Valence force constants for nitric acid evaluated from fundamental mode vibration spectra by matrix method

15 p2561 A69-30467

VALKYRIE AIRCRAFT

U B- 70 AIRCRAFT

VALLEYS

Sinuuous rill and water distribution on lunar surface from Orbiter 4 high resolution photographs

05 p0818 A69-15606

Intervalley scattering model for Gunn domain dynamics, noting effects comparable to diffusion

06 p0893 A69-16937

VALSALVA EXERCISE

Valsalva maneuver produced abrupt onset of ptosis and proptosis caused by ethmoidal air cell rupture, discussing etiologies

17 p2909 A69-33186

Arterial pressure and heart rate responses to increased intrapulmonary pressure in anesthetized dogs via simulated Valsalva tests

23 p4078 A69-41365

VALUE

NT Q VALUES

Group relative values for system criteria, showing application to illustrative maintenance criteria

10 p1668 A69-22973

Society of American Value Engineers Conference, San Diego, April 1969

13 p2382 A69-28092

Value engineering application to engineer recruiting phase of industrial relations

13 p2382 A69-28093

Systems design value analysis including alternate solutions to cost effectiveness for design development and production phases

13 p2383 A69-28097

U.S. Navy Numerical Value Rating System computing method of selecting lowest cost design approach to accomplish specific function

13 p2383 A69-28098

Value engineering proposal costs sustained by maintenance and overhaul industry in government contract negotiations, discussing reimbursement and proposed central agency

13 p2383 A69-28099

Value engineering and component/products improvement incentive contract clauses role in defense product quality improvement

13 p2383 A69-28100

Value engineering ultimate objectives in industry, discussing engineering and procurement role in prorating goal to applicable departments

13 p2383 A69-28101

VALVES

NT AUTOMATIC CONTROL VALVES

NT FUEL VALVES

NT GAS VALVES

NT PRESSURE REGULATORS

NT RELIEF VALVES

Self sustained oscillations of piston type valving system with conduit line at upstream and capacity at downstream

01 p0012 A69-10310

Displacement function selection in calculating rubber-metal valve design, considering boundary conditions of material deformation

01 p0087 A69-10829

Bellows sealed valve for measurement of fluorine thermodynamic properties at moderately high pressures

09 p1493 A69-21428

Vortex valve pure fluid modulators steady state characteristics, analyzing geometry of exit, control and supply areas and chamber

09 p1443 A69-22738

Vortex amplifiers design and performance, noting nonvented and vented amplifiers and fluid valving applications

09 p1443 A69-22741

Spool valve flow patterns within hysteresis region, discussing effects of valve geometry, Reynolds and cavitation numbers

11 p1827 A69-25645

Free surface in supercritical regime downstream of valve submerged in MHD flow, noting effects of horizontal and vertical magnetic induction fields

15 p2659 A69-30299

Servovalve orifice characteristics described by discharge, flow or loss coefficients for laminar and turbulent flow, noting use of Mises model

19 p3256 A69-36712

Pressure activated superfluid valve design and operation for liquid He transfer from reservoir to cold finger

22 p3870 A69-41237

High reliability of solenoid and pressure regulating valves under long duration space missions, considering design, tests and controls

24 p4319 A69-42854

VAN ALLEN RADIATION BELTS

U RADIATION BELTS

VAN DER WAAL FORCES

Mean square radii for assigned terms of Fe I energy diagram for Van der Waals line broadening
08 p1392 A69-20559

London-van der Waals interaction energy of symmetric molecular pair calculated in perturbation theory second order as infinite series in negative powers of separation
12 p2131 A69-26606

Vapor-liquid transition in inert gases based on Monte Carlo method, including comparison with van der Waal equation and plasma ionization equilibrium
15 p2655 A69-30981

Widths measurements of van der Waals broadened Si I spectral lines by shock tube and scanning Fabry-Perot interferometer, using argon as perturbing gas
18 p3116 A69-34449

VANADIUM

Electron microprobe analysis of vanadium in presence of titanium by compositional measurement of chromite in chondritic meteorites
07 p1073 A69-18419

Diffusion coefficients of carbon in tantalum, niobium and vanadium by sectioning method, using carbon 14 as tracer
11 p1906 A69-25575

V contents influence on high temperature strength and fine structure interrelation in low alloy CrMoWV steels
22 p3972 A69-41083

VANADIUM ALLOYS

Omega phase and beta solid solution in Zr-V-Ta alloys quenched from 900 C
02 p0263 A69-11850

Vanadium-gallide alloys critical temperature of transition into superconducting state determined by measuring cast alloy samples magnetic permeability
03 p0483 A69-13023

Electrolytic deposits of titanium, vanadium and alloys from molten salts, discussing formation conditions, velocity and properties
03 p0446 A69-13574

Quasi-ternary titanium dichromide-V-Mo system composition at high temperatures, physical properties and phase diagrams
04 p0618 A69-15080

Titanium vanadium martensite decomposition kinetics during heating, showing shearing process and dependence on temperature during quenching
07 p1163 A69-18778

Binary vanadium alloys property change regularities using alloying elements
08 p1333 A69-20439

Vanadium side of V-Ni phase diagram, using X ray analysis, differential dilatometry, thermal analysis and metallographic methods
11 p1903 A69-24579

Optimum conditions for producing Ti-V alloy sheet plated on one side with Nb by hot rolling
18 p3155 A69-34652

Ti-V martensite decay during heating, noting temperature dependence of elastic moduli and electrical conductivity
21 p3746 A69-39160

V systems applications and phase diagrams, discussing binary metallic systems, Kurnakov law, alloy properties dependence on composition, superconductivity, melting point, etc
22 p3968 A69-39887

Mechanical and thermal properties of vanadium alloys and austenitic stainless steels compared to determine applicability in high temperature reactor fuel jackets
22 p3971 A69-40973

Ce, Zr, Nb and B effect on heat resistance and structure of low alloy CrMoWV steels /type CSN 41 5335/
22 p3972 A69-41079

Al-Mn-V ternary system equilibrium diagram at various aluminum concentrations determined by magnetic and microhardness measurements, microstructural observations and X ray analysis
24 p4330 A69-42601

VANADIUM CARBIDES

Lattice deformation relationship to dislocation density in vanadium carbide powders
02 p0265 A69-12001

Vanadium-carbon and niobium-carbon binary systems revised phase diagrams, noting effect of sublattice order transformations
05 p0779 A69-15988

Vanadium monoxides and oxycarbides heat capacity using adiabatic calorimeter, calculating entropy, enthalpy and characteristic temperatures
09 p1523 A69-21739

VANADIUM COMPOUNDS

Monograph on vanadium selenides and tellurides with NiAs structure covering existence regions, superstructures and equiatomic compounds from viewpoint of thermodynamics
15 p2667 A69-30602

Conditions for obtaining concentrated Ti-containing melts free of Al and V chlorides by cementing with metallic Ti and Ti-containing materials
22 p3957 A69-40918

VANADIUM ISOTOPES

V 50/V 51 abundance ratios in chondrite, terrestrial diabase standard W-1 and reagent V
20 p3601 A69-37501

VANADIUM OXIDES

Vanadium dioxide reflection spectra dependence on incident quantum energies during semiconductor/metal phase transition
02 p0298 A69-12100

Vanadium pentoxide addition effect on combustion rates of mixtures of ammonium perchlorate and metallic fuels in nitrogen atmosphere
08 p1375 A69-20342

Valence electrons mean density stability in Ti and V monoxides, describing mechanism for filling M vacancies with simultaneously forming O vacancies
09 p1523 A69-21738

Vanadium monoxides and oxycarbides heat capacity using adiabatic calorimeter, calculating entropy, enthalpy and characteristic temperatures
09 p1523 A69-21739

Band structure and reflection spectra of vanadium dioxide and pentoxide single crystals, noting changes in metal-semiconductor phase transition
12 p2145 A69-26724

IR spectral transmittance and physicochemical properties of tellurite glasses with vanadium and cerium oxides, showing polymer chains in structure
14 p2468 A69-29329

Vanadium thermistor fabrication influence on resistance jump at phase change temperature of vanadium dioxide, reproducing parameters by heat treating doped vanadium pentoxide
19 p3256 A69-36718

Ti and V sesquioxides and TiO-VO solid solutions crystallography and defect chemistry over entire range of compositions
20 p3484 A69-37526

Band structure and reflection spectra of vanadium dioxide and pentoxide single crystals, noting changes in metal-semiconductor phase transition
21 p3781 A69-39137

Critical transition temperature of vanadium oxide semiconductors as function of doping element content and lattice constant, using X ray diffraction
23 p4198 A69-41564

VANELESS DIFFUSERS

Unsteady aerodynamic processes in centrifugal compressor stage with impeller, vaneless diffuser and annular receiver chamber
15 p2547 A69-30073

VANES

NT GUIDE VANES

NT JET VANES

NT WIND VANES

Nonconducting vanes end effects on electrical characteristics of MHD channels, analyzing current density, Joule losses and finite length vanes
13 p2306 A69-27497

Internally air cooled turbine blades and vanes emphasizing coolant aerodynamics, heat transfer and blade life, high temperature in jet engines, etc [RAES PAPER 22]
22 p4000 A69-40500

Blade and vane wall thickness measurements test methods for gas turbine engine using ultrasonic gage and thermoelectric comparator
24 p4312 A69-42753

VANS

U TRUCKS

VAPOR DEPOSITION

NT VACUUM DEPOSITION

Electric field control of growth rates of insulating organic crystals from vapor phase
01 p0135 A69-10140

Chemical vapor deposition of refractory metals, alloys and compounds - Conference, Gatlinburg, Tennessee, September 1967
01 p0096 A69-10640

Chemical vapor deposited W and W-Re alloys for structural applications, discussing fabrication methods and effects on mechanical properties
01 p0096 A69-10641

Chemical vapor deposition of W-Mo-Re ternary alloys from hydrogen reduction of fluorides on Cu or Mo substrates
01 p0096 A69-10642

Chemical vapor deposition of iridium coatings on graphite for high temperature oxidation protection, discussing parameters for iridium compounds and optimum depositing conditions
01 p0097 A69-10643

Chemical vapor deposition of beryllium metal coatings noting thickness, purity and processing effects on surface properties
01 p0097 A69-10644

Silicon carbide filament fabrication by chemical vapor deposition, noting physical and mechanical properties and application to other refractories
01 p0097 A69-10645

Grain boundary gas bubbles growth in chemically vapor deposited tungsten as function of annealing time, temperature and fluorine content
01 p0097 A69-10646

Creep behavior of chemical vapor deposited tungsten at high temperatures by creep-rupture tests compared with powder metallurgy tungsten
01 p0097 A69-10647

Chemical vapor deposited W and W-Re alloys investigated for deposition variables and heat treatment effects on mechanical properties
01 p0097 A69-10648

A15 type phase in vapor deposited W-Re alloys identified by X ray diffraction, metallography and hardness measurements
01 p0098 A69-10649

Heat transfer rates from high temperature spheres into subcooled liquid sodium during forced convection, noting surface vapor formation [ASME PAPER 67-WA/HT-32]
02 p0351 A69-12202

Mechanical properties of titanium physically vapor deposited by electron beam high rate evaporation, noting results of tension testing
03 p0443 A69-13117

Vapor grown GaP electrical and optical properties, considering undoped and Se or S doped samples on GaAs and GaP substrates
04 p0640 A69-14438

Cr gas deposition on steel by means of chromium chloride salt, noting chromizing conditions effect on carbide growth and friction resistance
04 p0605 A69-14577

Impurity transfer in doped and undoped epitaxially grown GaAs films, studying substrate dopants effect on carrier concentration profiles
05 p0807 A69-15957

Chemical vapor deposition of chromium metal on substrates, discussing influence of temperature, gas flow rate and chromium chloride concentration [ECS PAPER 223]
05 p0769 A69-16232

Powder metallurgy, fusion and chemical vapor deposition techniques in manufacturing tungsten base alloys
07 p1165 A69-18792

Vapor deposited tellurium thin films orientation, noting effect of characteristic spiral chain structure along c-axis
08 p1373 A69-20891

Vapor deposition of high purity epitaxial layers of type gallium arsenide, noting resistivity and Hall coefficient measurements [ECS PAPER 62]
08 p1373 A69-21067

Cubic /beta/ silicon carbide films deposition by volatilization in presence of acetylene
09 p1554 A69-21350

Chemical processes in silicon carbide due to reactive deposition and chemical conversion, noting silicon growth mechanism involving outward diffusion
09 p1554 A69-21351

Surface characterization on chemical vapor deposited tungsten, evaluating grain size effect
09 p1558 A69-21810

Partial pole figures in vapor deposited and wrought cylindrical tungsten specimens, noting random surface produced by orientation
09 p1558 A69-21811

SiC part fabrication by chemical vapor deposition through pyrolysis of chlorosilanes from vapor state onto machined substrates of graphite and metals
09 p1509 A69-22344

Vapor phase epitaxial production of indium arsenic phosphide crystalline layers, discussing electron mobilities, electrical resistivities and doping
12 p2142 A69-25934

- Thermodynamic method for determination of conditions for CdS single crystal synthesis from gas phase, analyzing equilibrium between solid and gas phases
12 p2144 A69-26585
- Substructural patterns of epitaxial PbTe films obtained by condensation of vaporized PbTe on NaCl crystal surfaces, discussing formation kinetics and morphology
12 p2144 A69-26675
- Adsorption of N, H, O and CO on thick vapor deposited Be films at room temperature
13 p2322 A69-28017
- Metal layers deposition, structure and properties obtained by H reduction of metal halides in vapor phase
14 p2462 A69-29209
- Deposition and interdiffusion of W layers on Mo emitter of in-core thermionic reactor, investigating microstructure of transition zone
14 p2462 A69-29210
- Niobium deposition on graphite from vapor-gas phase assuming heterogeneous process
15 p2629 A69-30992
- High energy electrons emission during alloy evaporation on hot metal filaments used for thin film deposition
16 p2827 A69-32016
- Macrostructural differences between filaments of B and SiC vapor deposited onto small diameter W wire, discussing radial cracks due to dilatation
18 p3160 A69-34266
- High porosity W-Ta matrix to thin solid Ta support structure joining technique involving vapor-deposited coating process
20 p3548 A69-37216
- Hydrodynamics of turbulent gas flow through powder layer for vapor phase coating of particles, noting fluidized bed
20 p3548 A69-37363
- Diffusion processes during formation of coatings by condensation
20 p3549 A69-37365
- Diffusion processes, composition and structure of vapor deposited Ni coatings on Nb substrate, plotting intermetallic compounds growth against temperature
20 p3560 A69-37366
- Niobium carbide formation on graphite from gaseous niobium pentachloride and Ar mixtures, discussing parameters affecting layer growth rate
20 p3566 A69-37367
- Silicon carbide compact coatings deposition on graphite by silicon tetrachloride, H and benzene gaseous mixture, relating layer thickness to temperature and process duration
20 p3566 A69-37368
- Niobium carbide deposition from gaseous halogen compounds on graphite particles in pseudoliquidified state, noting stoichiometric coatings
20 p3566 A69-37369
- Protective coatings of oxygen-free high melting point Si compounds and silicate binder, noting chemical stability in corrosive media
20 p3566 A69-37371
- Tungsten carbide erosion resistant coatings, discussing optimum plasma deposition process and coating characteristics
20 p3561 A69-37373
- Deposited beta active thallium isotope materials angular distribution after vaporization by Q switched laser beam determined by target fragment recoil
21 p3737 A69-38992
- Optimal CdS single crystals growth from gaseous phase achieved with 2 to 1 ratio between Cd and S concentration
23 p4199 A69-42468
- Ge films formation by evaporation technique, discussing background O pressure effect
24 p4361 A69-43345
- VAPOR GENERATORS**
U VAPORIZERS
- VAPOR JETS**
Cs jet device eliminating wall influence in nonlinear radiation-atom interaction phenomena
19 p3376 A69-36174
- VAPOR LIQUID EQUILIBRIUM**
U LIQUID-VAPOR EQUILIBRIUM
- VAPOR PHASES**
Ultrasonic sounding for controlling dispersed gas phase in liquid pipelines under laboratory and practical conditions
04 p0596 A69-14489
- Latticed gas model liquid-vapor phase properties calculated with allowance for thermal expansion
06 p1029 A69-16896
- Slow oxidation and self ignition in gaseous phase, discussing cold flames and interpretation of experimental data
06 p1031 A69-17416
- Aspiration psychrometric probe for measurements of relative humidity of gas-vapor phase of gas flow containing liquid droplets
06 p0927 A69-17689
- Liquid and vapor phase microscale panel cokers applied to screening synthetic lubricants for aircraft turbine engines
[ASLE PAPER 68-LC-22] 07 p1140 A69-19309
- Boundary layer at tube wall behind shock wave propagating in gas-vapor mixture, analyzing condensation rate
09 p1480 A69-21591
- Oxygen depletion effect in chemical reactions between pyrolysis gases and air stream on surface recession of charring ablators
[AIAA PAPER 68-302] 09 p1622 A69-21982
- Threshold criteria of gas phase thermal ignition for cellulose materials, considering heating by radiant energy
11 p1940 A69-24474
- Potassium vapor radiative perturbation by ruby laser radiation in glass cell with end windows, studying emission line structure
13 p2271 A69-27656
- Gas chromatography based on sampling gas-vapor phase at liquid surface for determining volatile oxygen containing compounds in biological media
13 p2216 A69-28627
- Vapor phase reaction sequence to explain water cluster ions in D region
14 p2434 A69-28940
- Metal layers deposition, structure and properties obtained by H reduction of metal halides in vapor phase
14 p2462 A69-29209
- Niobium deposition on graphite from vapor-gas phase assuming heterogeneous process
15 p2629 A69-30992
- Laser ignited combustion of 365 micron Zr droplets falling in ultrapure oxygen using spectroscopic and photographic techniques, discussing vapor phase transport phenomena
[WSCI PAPER 69-4] 16 p2830 A69-32345
- Gas phase ignition theory with feedback of homogeneous propellant exposed to stagnant gas after shock reflection
[AIAA PAPER 69-559] 16 p2880 A69-32740
- Boron nitride synthesis by gas phase reaction of boron chloride or diborane with ammonia, determining purity from equilibrium gas mixture components
17 p2992 A69-33432
- Gas phase ignition shock tube analysis of solid propellant taking into account changing surface temperature and fuel vapor consumption
18 p3183 A69-34463
- Low molecular weight fluorocarbons pyrolysis and oxidation in single pulse shock tubes, using vapor phase chromatography and mass spectral analyses
18 p3099 A69-34467
- Gaseous and solid phase properties of atomic and molecular systems, treating statistical energy distribution, kinetics, excited states and relaxation
18 p3178 A69-35406
- Cumulative shock waves in vaporized products of electrical explosion of conical copper wire configuration, discussing atmospheric ionized vortical configuration formation
19 p3372 A69-35823
- Relative gas phase acidities of simple aliphatic alcohols, considering effects of alkyl groups
19 p3265 A69-36289
- Relative gas phase acidities of carbon acids determined using ion cyclotron resonance spectroscopy
19 p3265 A69-36291
- Relative gas phase acidities of simple aliphatic amines and ammonia noting increase in large alkyl groups substitution
19 p3265 A69-36293
- Be diffusion during vapor phase saturation of W, Mo, Nb and Ta, noting time and temperature dependence of layer thickness
20 p3549 A69-37364
- Gas phase ion-molecule chemistry of HCN by ion-cyclotron resonance spectroscopy identifying individual reactions by double resonance
20 p3485 A69-38262
- Chromatographic analysis of products formed during induction period of 2-methylbutane gaseous oxidation in flow system at low temperatures and long residence times
21 p3669 A69-38798
- Gas phase arrest peak analogy with liquid phase oxygen cut-off during final stages of hydrocarbons gaseous oxidation reactions, noting active centers
21 p3669 A69-38805
- Laser radiation increased absorption in opaque solid body attributed to vaporization, analyzing factors determining thermodynamic equilibrium between condensed and gaseous phases
21 p3736 A69-38962
- Absorption spectroscopy using resonance broadened atomic lines for two phase mixtures study
21 p3774 A69-39239
- Output power of CW lasers employing HCN and water vapor active medium
22 p3959 A69-39958
- Phase equilibrium apparatus for measurement of thermodynamic properties of cryogenic fluid mixtures, including argon-methane data
[NAS-NRC PAPER H-3] 22 p3947 A69-40630
- Optimal CdS single crystals growth from gaseous phase achieved with 2 to 1 ratio between Cd and S concentration
23 p4199 A69-42468
- Altered gaseous environments effect /parabrosis/ on interferon production in mice injected with Newcastle disease virus, noting hypoxia role
24 p4262 A69-42888
- VAPOR PRESSURE**
Nitrogen compressibility and thermodynamic functions up to 10,000 atm pressure and 400 C
01 p0175 A69-10366
- Acceptor defect levels in cadmium telluride crystals prepared under various cadmium vapor pressures, demonstrating ionization energy variation by electrical measurements
02 p0294 A69-11546
- Gas dynamic choking limitation on heat transfer capacity of heat pipe operating at low vapor pressures from comparison of theory and experiment
03 p0531 A69-12989
- InAs-InP phase diagram taking into account equilibrium pressure of vapor over melts in preparing single crystals by controlled crystallization
03 p0483 A69-13024
- Shock tube equilibrium method for determining vapor pressure of platinum submicron particles by suspension in xenon-argon carrier gas at high temperatures
03 p0532 A69-13319
- Temperature dependence of partial pressure of saturated As vapor over solid solutions of InAs-GaAs of different composition
04 p0642 A69-14938
- Thermionic converters stability and safety maintainable at high Ce pressures
09 p1441 A69-21837
- Mean drop size generated in vapor pressure regime of liquid water jet, noting effect of water temperature and orifice diameter
09 p1483 A69-21995
- Specific isochoric heat capacity of pure fluids, considering thermal equation of state, vapor pressure and boundary conditions at critical point
11 p2001 A69-25201
- Work function measurements of polycrystalline W, Re and Ni disks in high pressure cesium plasma for low probe temperature range
14 p2506 A69-29266
- Test methods for lubricants vapor pressure and flash point determination
[ASLE PAPER 68-LC-23] 15 p2642 A69-30607
- Saturated Li vapor pressure measured by static equilibrium technique based on use of null membrane, tabulating pressures for various temperatures
15 p2656 A69-30997
- Vapor pressure measurements on liquid fluorine from triple to critical point at one degree K intervals
[NAS-NRC PAPER H-2] 22 p3998 A69-40624
- Vapor pressure equation for oxygen and nitrogen derived by adding nonanalytic term, correlating equation with observed data
[NAS-NRC PAPER H-1] 22 p4051 A69-40628
- Insensible water loss from human skin as function of ambient vapor concentration using IR gas analysis, applying results to water loss model revision
23 p4077 A69-41293

NT SUBLIMATION
NT TRANSPIRATION

Kinetics of vaporization of metals with surface subjected to incident radiation flux noting pulse duration 02 p0350 A69-11577

Monocarbide phases high temperature vaporization from open metal surfaces into vacuum, obtaining temperature dependence 02 p0260 A69-11583

Volatile liquid pressurization, discussing pressurants, heat sources and system design [AIAA PAPER 68-630] 02 p0232 A69-12382

Condensation-enhanced vaporization rates in nonisothermal systems, noting fume nucleation augmentation of rates into cooler environments 03 p0532 A69-13122

Organic plasticizers molecular vaporization process kinetics, using isothermal and nonisothermal kinetic methods 04 p0620 A69-14956

Transient development of reacting boundary layer near stagnation point of vaporizing drop in gas stream [AIAA PAPER 69-174] 06 p0912 A69-18056

Metallic particle ignition in oxygen containing media, obtaining temperature curves and vaporization rates 08 p1375 A69-20343

Helium-neon gas laser as coherent light source for holograms of vaporizing fuel films and for Michelson interferometer 08 p1327 A69-20874

Coronal IR observations during solar eclipse revealing thermal emission zone at predicted interplanetary dust vaporization region 10 p1789 A69-24131

Silicon nitride vaporization and thermodynamic properties analyzed using Langmuir and Knudsen methods 12 p2118 A69-26261

Creeping flow model of Leidenfrost boiling with moving surface, discussing vaporization time for equivalent drop film boiling on stationary surface [AICHE PAPER 20] 15 p2718 A69-31116

Vaporization interaction liquid rocket performance model, discussing performance loss evaluation and test data [AIAA PAPER 69-470] 16 p2838 A69-32663

Gas dynamic processes during vaporization of solid material under Nd laser emission, using high speed photography 21 p3740 A69-39551

Mass spectrometric analysis of lunar material from soil vaporization products ion component by electron beam 22 p4034 A69-41107

Volatile wall vaporization gas flow expansion into vacuum from tube approximating unsteady mass and energy transfer and pressure at blocked end 24 p4408 A69-43489

VAPORS

NT CESIUM VAPOR
NT MERCURY VAPOR
NT METAL VAPORS
NT SODIUM VAPOR
NT WATER VAPOR

Motion of vapor derived from solid material vaporization and subsequent heating by nonequilibrium continuum radiation, noting continuity equations and energy transfer 04 p0686 A69-14985

VARACTOR DIODE CIRCUITS

Frequency retuning characteristics of oscillator employing avalanche transit-time diode with complementary varactor subject to current or voltage variation 11 p1844 A69-24449

Varactor diodes for microwave frequency tuning of resonators used for oscillators of avalanche transit time and Gunn diodes, discussing Q factors 11 p1854 A69-25610

Power losses of varactor frequency multipliers with series connected circuits including open circuit tuned to second harmonic 12 p2043 A69-26888

Varactors for frequency conversion circuits, discussing efficiency and output power 15 p2578 A69-30797

360 degree varactor linear phase modulator, analyzing impedance matching, insertion loss, tuning design and serrodyne application 16 p2756 A69-31577

VARACTOR DIODES

Capacitance variation in junction varactors with linear graded, abrupt and hyperabrupt junctions, storage switching diodes and storage varactors 01 p0038 A69-10168

Wideband electronically scanned receiver, using varactor diode upper sideband parametric frequency upconverter for frequency mixing 01 p0048 A69-11036

Forward current shot noise in parametric amplifiers using GaAs varactors, noting additional noise due to stored minority carriers current 01 p0048 A69-11137

Electrically controlled broadband microwave phase shifter consisting of coaxial line with varactors or ferroelectrics 03 p0408 A69-13987

Equivalent circuit of varactor with open p-n junction used as frequency multiplier 04 p0575 A69-14465

Varactor Q calculation from impedance vs bias measurements, circumventing circuit loss problem by procedure based on Weissfloch equivalent circuit of lossy two port network 04 p0575 A69-14753

Freeze-out characteristics of MOS varactor, noting impurity effects and compensation 05 p0806 A69-15809

Gain stabilization of parametric amplifier, using pumped conduction current of varactor diode 09 p1467 A69-22585

Storage varactors and frequency dependent diode input power for multiplier cascades control, discussing series connections and limitations by thermal noise 11 p1841 A69-25607

Parametric frequency converter consisting of mixer head in bridge circuit with varactors for 12 GHz TV transmitters 11 p1854 A69-25614

Differential capacitance, diffusion voltage and exponent alpha of hyperabrupt junction varactor 12 p2039 A69-26375

Ultrahigh speed microwave diode switch used as transmitter-modulator in PCM systems, utilizing varactor diode avalanche breakdown 13 p2229 A69-27671

Varactor diode parameters measurements by microwave power reflection method 13 p2237 A69-28645

Oscillation breakdown of varactor diodes in parametric amplifiers from studying I-V characteristics, noting resonant circuit retuning effect 15 p2574 A69-30127

Noise sources in S band parametric amplifier with GaAs varactor diode measured at liquid nitrogen temperature, considering noise reduction 15 p2578 A69-30636

Mesa-structure varactors /p-n junction generating harmonics by nonlinear capacity variation/ reliability, determining selection criterion and optimal test duration period 15 p2627 A69-30839

Computerized design parameters for realizable over-driven bimode varactor frequency doubler based on charge-voltage relationship at break point 20 p3505 A69-37299

Equal bandwidth multichannel FM/FM EEG tele-meter system using subcarrier frequencies and HF modulation via varactor diodes 23 p4106 A69-41802

VARIABLE GEOMETRY STRUCTURES

Variable geometry features applied to lifting spacecraft to overcome inherent incompatibility and provide low speed and tangential landing capabilities [AIAA PAPER 68-1164] 03 p0520 A69-13563

Mirage G supersonic swing wing two seater aircraft performance, discussing hinging of mobile wing on pivot, fluids for airfoil-fuselage transfer, landing gear etc 07 p1053 A69-19230

Incident flow in variable cross section tubes using analytic asymptotic calculation 10 p1677 A69-22857

Folding prop rotor VTOL aircraft configuration analytical and experimental investigations to study design requirements for cruise speeds to Mach 0.75 [AIAA PAPER 69-220] 10 p1635 A69-24087

Critical flutter behavior of variable geometry aircraft with wing of 70 degree leading edge sweep, noting wing-tail interference 11 p1991 A69-25517

Rocket motors with combustion chambers of variable geometry for hybrid propellants, stressing toroidal chamber 15 p2671 A69-30600

Aerodynamic and flight characteristics of variable geometry entry spacecraft during subsonic wing deployment and landing [AIAA PAPER 69-742] 18 p3084 A69-34407

Maximum admissible weight of structural elements required for conventional wing conversion into variable geometry wing without performance impairment 24 p4253 A69-43092

VARIABLE LIFT

U LIFT

VARIABLE MASS SYSTEMS

Quasi-one dimensional analysis of MPD arcs with nonequilibrium ionization taking into account finite rate processes and variable area [AIAA PAPER 68-87] 02 p0291 A69-12505

Differential equations of motion for holonomic system of points with variable mass 03 p0465 A69-12965

Energy integral for holonomic system of points of variable mass, transforming Lagrangian form via Hamiltonian function 05 p0794 A69-16685

Euler rotational equations for bodies with variable inertia tensor subjected to extreme variations of mass distribution and mass loss 09 p1616 A69-21956

Orbital parameters changes computation in table form for binary systems with more massive component mass decrease 11 p1962 A69-25120

Covariant equations of motion of body of variable mass in general relativity, considering Schwarzschild field, rotating mass field and Einstein static universe 11 p1965 A69-25744

Orbital elements evolution of binary or planetary system with decreasing mass by nonlinear nonautonomous differential equations 14 p2519 A69-29138

Necessary and sufficient conditions of kinetic processes involving two systems of point masses 21 p3771 A69-39087

Differential equations for variable mass solid body motion about fixed point having cavities filled with ideal fluid 21 p3771 A69-39106

Optimal flight regime determination for variable mass body pursuing target by straddling method, presenting motion equations and approximate solutions 21 p3818 A69-39819

Optimal thrust control for plane curvilinear motion of variable mass point in gravitational field 23 p4192 A69-42340

Weight limitations effect on optimum motion parameters of variable mass body in gravitational field applied to spacecraft optimum propulsion system controls and trajectory determination 24 p4383 A69-42956

VARIABLE STARS

NT CEPHEID VARIABLES
NT HERCULES NOVA
NT NOVAE
NT SUPERNOVAE
NT T TAURI STARS

Nonlinear adiabatic pulsations of sequence of massive stars of uniform composition, allowing for radiation pressure variations 01 p0149 A69-10266

- Optical identification of X ray source Cen XR-2 as variable star WX Cen, discussing colors and similarity to Sco X-1
01 p0145 A69-10857
- Late type variable stars time dependent photometry and polarimetry in blue and violet, noting correlation of stellar brightness and degree of polarization
01 p0158 A69-11326
- Pulsating stars, cepheids, RR Lyrae and W Virginis, excitation mechanisms, period-luminosity relation, oscillation modes, location on Hertzsprung-Russell diagram, etc
04 p0653 A69-14625
- Variable He star HZ29, noting unusually wide and shallow He I lines and possible mass and composition
06 p0998 A69-16931
- Orion nebula flare type variable stars amplitudes, light curve sections and stability
06 p1002 A69-17264
- Light variations of irregular eruptive variables known as RW Aurigae or T Tauri stars, discussing suitability of stochastic model
06 p0996 A69-17448
- Flare star AD Leo observations by continuous photoelectric monitoring, noting light curves properties
06 p1008 A69-17697
- Pulsational properties of massive star in He burning evolutionary phase, determining inner structure from stellar model
07 p1218 A69-19279
- Variable eruptive star in Hercules, discussing magnitude
08 p1382 A69-19871
- Brightness in blue light and radial velocity variability of metallic line star 28 Andromedae
08 p1395 A69-20637
- Photoelectric observations of SRA variable CH Cygni reveal strong variability, discussing existence of hot companion
08 p1396 A69-20650
- Quasar 3C454.3 optical variations, noting photographic and photometric evidence for period of 340 days
08 p1397 A69-20701
- Dimensions of 19 variable eclipsing binaries from published photometric and spectral orbital elements
09 p1590 A69-21378
- Narrow band photometry of variable stars and X ray source Cyg X-2, considering continuum variations with time
09 p1591 A69-21451
- Pulsar NP 0532 identified with Baade south preceding star in Crab Nebula, noting pulsed optical radiation
09 p1592 A69-21458
- Three color observations of 16 magnetic stars and photometric properties of 23 stars, discussing periodicities in variations
09 p1599 A69-22196
- IR excess from carbon-rich peculiar variable R Coronae Borealis and M7 variable associated with emission nebula R Aquarii attributed to circumstellar matter
09 p1603 A69-22263
- Polarization changes of R Coronae Borealis Star RY Sagittarii, tabulating percentage polarization and position angles
09 p1603 A69-22265
- Anharmonic pulsations of 15.6 solar mass star in helium burning phase, discussing radiation pressure, third order terms, higher modes and magnitude variation effects
10 p1771 A69-22853
- Graphite particle formation in atmosphere of C type Mira variables, calculating particle size distribution by nucleation and coagulation theory
10 p1782 A69-23681
- Flare stars observational and known aggregate characteristics in Coal Sack region
10 p1790 A69-24141
- Spectroscopic, photometric and polarimetric observations of magnetic stars, discussing magnetic curves of periodic variables
11 p1954 A69-24362
- Period variations, colors and light curve peculiarities of models of U Geminorum type stars
11 p1954 A69-24363
- Nonadiabatic linear oscillations of stellar atmosphere, discussing wave coupling with stellar pulsation
11 p1961 A69-25104
- Micrometric and photometric measurements of coude spectra of magnetic variable HD 125248, showing spectroscopic binary nature and computing orbital elements
11 p1963 A69-25264
- Period changes by variable stars in M13, showing Variable 2 period lengthening
12 p2154 A69-25814
- Physical parameters and chemical composition of DD Lac atmosphere from spectral analysis
12 p2156 A69-26219
- UBV observations of long period variable stars using reflecting telescope and refrigerated photocell with standard filters
12 p2172 A69-27156
- Star twinkling absence for lunar observation laboratory, noting star distance measurement and laser action in stellar atmospheres
12 p2173 A69-27172
- Vela pulsar investigated for optical pulsations, noting negative result for expected brightness
12 p2173 A69-27173
- Variable star BL Lacertae absolute spectral energy distribution in visible and IR regions, noting synchrotron features and possible quasar nature
13 p2335 A69-27315
- Book on astrophysics and stellar astronomy covering stellar radiation, binary and variable stars, positions, magnitudes, galaxies, cosmologies, etc
13 p2337 A69-27463
- Photoelectric observations of blue light minima of U Geminorum variable Ex Hydrae indicating no change in orbital period
13 p2338 A69-27558
- Photoelectric search for delta Scuti variables in Coma and NGC 752 clusters, discussing short period variability of B, A and F stars
13 p2343 A69-27620
- Short period variability of B, A and F stars observed in photometry of New Delta Scuti stars
13 p2348 A69-27803
- Photoelectric yellow and blue observations of variable TZ bootis light variation and orbital elements, noting maxima and secondary minimum causes
13 p2348 A69-27808
- Photoelectric yellow and blue observations of variable V502 Ophiuchi, noting influence of partial eclipses on orbital determination reliability
13 p2348 A69-27809
- Spectrophotometry of variable star SS Cyg, analyzing energy distribution in continuum, UV gradient and Balmer jump
13 p2351 A69-27868
- Photometric discovery of new variable stars resulting from quasars observation, noting optical variability noncorrelation with observed properties
13 p2354 A69-28468
- Variable comparison star identified from photoelectric observations of RR Lyrae star BR Aqr, showing light and color curves
14 p2519 A69-29139
- Variable stars in Large Magellanic Cloud from photoelectric measurements obtained in blue and violet, including periods of Cepheids and some period amplitude differences
14 p2526 A69-29853
- Variable stars research and facilities in Tautenburg, East Germany
15 p2682 A69-30438
- Variability of period of RR Lyrae type stars in globular cluster M3, deriving seasonal moments of stellar maxima and light curve elements
15 p2683 A69-30511
- Radial pulsation mode of convective envelopes in adiabatic equilibrium for variable M red supergiant stars
15 p2692 A69-30766
- Canum Venaticorum variable A star spectrum, listing all lines observed between 5000 and 6650 Å
15 p2692 A69-30773
- ET Pegasi photoelectric observations in UVB colors, giving period different from Kaho and new time of maximum light
15 p2694 A69-30787
- Revised proper motions for semiregular and RV Tauri variable stars tabulated from meridian observations and photographic positions, discussing computation methods
15 p2696 A69-31221
- Monograph on proper motions of RR Lyrae variables, discussing data acquisition analysis
15 p2700 A69-31493
- Five color photometry of X ray source SCO X-1 in 1966-1968, discussing luminosity pulsations and flare activity
16 p2847 A69-31648
- Carbon stars in south galactic pole region detected in objective prism survey, including variable R Scl and early R stars
16 p2860 A69-32232
- Spectral variations of red variable stars analyzed by objective-prism spectra in near IR
16 p2860 A69-32235
- Epsilon CrA light and color curves analyzed from UVB photoelectric photometry observations
16 p2863 A69-32398
- Photoelectric observations of W Ursae systems, including observed and computed times of minimum light and period change
16 p2863 A69-32399
- Eclipsing binary CQ Cephei envelope variability determined from photoelectric light curve, using astronomical telescope
16 p2864 A69-32593
- Polarization of light from atmospheres of Mira variables, suggesting temperature variations over stellar surface
16 p2866 A69-32820
- Variable CoD minus 35 degrees 4257 noting primary period of 502 days superimposed on secondary beat period of 3000 days
18 p3195 A69-34431
- Dimensions of 19 variable eclipsing binaries from published photometric and spectral orbital elements
18 p3198 A69-34766
- Variable star in Large Magellanic Cloud having unusual light curve with complex maximum lasting 300 days
19 p3403 A69-35965
- Forbidden emissions in CH Cygni and VV Cephei noting symbiotic star
19 p3423 A69-36228
- Forbidden transitions in emission line spectra of variables near minimum light, finding origin in hot chromosphere
19 p3424 A69-36232
- IC 4499 cluster variable stars coordinates in tabular form, showing high percentage of short period
20 p3598 A69-37462
- Spectroscopic and photoelectric observations of peculiar variable FG Sge, discussing expansion velocity and equivalent widths for Balmer and K lines
20 p3599 A69-37474
- Periods and magnitudes of RR Lyrae variable stars in M 2 cluster, tabulating photometric characteristics
20 p3599 A69-37477
- TiO bands identified in Mira variables IR region, discussing rotational structure and band strength-temperature relation
20 p3611 A69-38158
- Variable BL Lac SHF flux density measurements, discussing periodicity and maxima spacing
21 p3798 A69-38545
- Photometric and spectroscopic data for southern RR Lyrae variables, deriving period, light curves in three colors, mean radial velocity and spectral types
21 p3801 A69-38764
- Spectrophotometric observations of delta Scuti short period variable stars compared with model atmospheres
22 p4015 A69-40150
- Pulsational stability of pulsation modes of star in He burning evolution phase
22 p4022 A69-40467
- Variable stars blue sequence, proposing mu mechanism and beta mechanism as explanation for radial pulsations
22 p4026 A69-40650
- Variable HDE 310376 spectroscopic and photometric data, discussing brightness fluctuations, color changes, emission and absorption spectra, etc
22 p4026 A69-40651
- Omicron Andromedae radial velocity measurements /1961-1966/ during normal B star periods
22 p4028 A69-40755
- Photometric data for variable stars in Lyra and Cygnus including eclipsing variables
23 p4215 A69-42009
- Photometric data for long period variable stars in Cygnus obtained from plates of various observatories
23 p4215 A69-42010
- IR excess of R CrB type variable star RY Sgr, noting visual brightness and radiation in 2.0-3.4 micron range
23 p4220 A69-42377

VARIABLE SWEEP WINGS

- VFX fighter aircraft, discussing U.S. Navy requirements influence in VFX-1 and VFX-2 design
03 p0367 A69-13675

VARIABLE THRUST

Swing wings on combat aircraft and SST, discussing suitability for aircraft carriers and problems in aerodynamic balance 03 p0367 A69-13677

Early design stage flutter analysis for variable sweep aircraft, using subsonic flutter model 04 p0677 A69-14834

Tandem airfoils wing-tail interaction flutter analysis, using three dimensional vortex lattice aerodynamic theory [AIAA PAPER 69-57] 06 p1028 A69-18105

Critical flutter behavior of variable geometry aircraft with wing of 70 degree leading edge sweep, noting wing-tail interference 11 p1991 A69-25517

Supersonic aerodynamic characteristics of wings with complex planar geometry and subsonic leading and trailing edges, discussing varying geometry 14 p2391 A69-29624

VARIABLE THRUST

TRAC variable diameter rotor design based on jackscrew mechanism applied to compound helicopter [AIAA PAPER 69-221] 07 p1056 A69-19572

Oxidizer injector face configuration for high power variable thrust rocket engine using hydrogen/oxygen propellant 16 p2835 A69-31749

Small penetration aid rocket motors fabrication, discussing axial- and tangential-thrust integral assembly, impulse levels, delay line connection for igniters, production evolution, etc [AIAA PAPER 69-520] 16 p2795 A69-32779

VARIANCE [STATISTICS]

Variance fluctuations of 1/f noise and relation to sample number and lower cut-off frequency, noting nonstationarity hypothesis 10 p1656 A69-23661

Log amplitude variance calculation methods compared in statistics of optical scintillation by application to measurements with laser 14 p2486 A69-29642

Accuracy and variance of nonergodicity estimates for random processes associated with radiophysical applications 15 p2582 A69-30946

Vibration-proof devices obtained by relating variance determination errors in selective filter response, modulating process bandwidth and spectral analyzer passband 18 p3109 A69-34584

VARIATION METHOD

U CALCULUS OF VARIATIONS

VARIATIONAL PRINCIPLES

Variational principles of dynamic shell theory using Legendre transform for relations and boundary conditions of Timoshenko theory 01 p0166 A69-10262

Heat and mass transfer coefficients derived for reacting gas mixtures by applying variational principle 01 p0006 A69-10400

Collective stability of collisionless gravitating systems based on variational principles resembling energy principle 02 p0323 A69-12275

Variational technique for determination of temperature fields due to nonuniform heat transfer over surface of heat producing body 03 p0531 A69-12864

Incorrect variational and linear programming problems in optimal control theory, emphasizing regularization technique by Tikhonov 03 p0409 A69-13067

Ground state energy for single magnetic impurity dissolved in nonmagnetic metal, applying cluster variation method to s-d interaction Hamiltonian 03 p0485 A69-13298

Optimal body shape determination by mathematical-mechanical relations derivation, discussing variational problems and variational principles applicability 03 p0526 A69-13739

Reciprocal variational formulation for optimal control, estimating difference between suboptimal system response and optimum 03 p0457 A69-13766

Upper bound for free energy of nonlocal superconductor in magnetic field, using variational method and perturbation theory 03 p0491 A69-13971

Variational principle for solving nonlinear equations in elasticity theory, theoretical mechanics and mathematical physics 04 p0668 A69-14273

Steady state plasma flows stability equations, using variational principle for analyzing toroidal plasmas 04 p0635 A69-14556

Biot variational principle applied to combined conduction and radiation heat transfer 04 p0685 A69-14734

Interaction between point charges in Wheeler-Feynman electrodynamics, noting impossibility of deducing momentum and energy conservation from variational principle 04 p0631 A69-15059

Variational formulation of Einstein general relativity related to geometric foundations, deriving Bianchi identities from general invariance property 05 p0791 A69-15632

Models of continuous media with internal degrees of freedom based on Lagrangian variational principle 05 p0793 A69-15775

Variational methods applied to unsteady heat flow, describing approximate method for unsteady temperature field in heat conducting body 05 p0845 A69-15794

Reissner variational principle extended to cover elastodynamics, discussing relation with Hamiltonian function 05 p0835 A69-15870

Variational principles for differential equations and initial and boundary value problems in dynamic geometrically nonlinear elasticity theory 05 p0840 A69-16202

Supersonic gas dynamics variational problems concerning determination of axisymmetric minimum drag 05 p0699 A69-16675

Composite equivalent circuits method for complex waveguide-resonator couplings based on variational principle for admittance matrices of electromagnetic volume couplings 05 p0736 A69-16785

Soviet achievements in space research, comparing satellites with U.S. counterparts 06 p1005 A69-17561

Initially imperfect axially compressed cylindrical shells strength using variational principle, shell theory and deformation theory of plasticity [AIAA PAPER 69-91] 06 p1028 A69-18181

Complementary variational principles for boundary value problems in continuum mechanics of solids, obtaining generalized Hamilton canonical formalism 07 p1232 A69-19173

Variational solution of linearized molecular chemical-kinetic Boltzmann equation, discussing perturbation of Maxwell distribution, nonequilibrium correction to reaction rate and activation energy 07 p1185 A69-19301

Reciprocity, variational and uniqueness theorems developed within linear theory of coupled thermoviscoelasticity 07 p1233 A69-19327

Error bounds and variational methods for nonlinear boundary value problems for ordinary differential equations 08 p1343 A69-20536

Variational method for safety limits of perfectly plastic simply supported conical sandwich shells subjected to uniform internal pressure and obeying Mises yield criterion 08 p1416 A69-20702

Variational principle to obtain variational estimate of arbitrary functional of solution to radiative transfer equation 09 p1541 A69-22253

Generalized gravitational field equations derived on basis of principle of least action, noting vector potential of electromagnetic field 10 p1725 A69-23714

Nonradial oscillation modes of massive stars determined by Ritz method application to variational principle, allowing for gravitational perturbation 10 p1785 A69-24036

Hamilton principle for inviscid compressible fluid in Euler coordinates, analyzing shortcomings found in variational principles and model in Lagrangian coordinates 11 p1875 A69-25483

Linearized atmosphere model above flat earth, applying variational principle to energy between geostrophic equilibrium and reestablished states 12 p1215 A69-25954

Heat and mass transfer coefficients derived for reacting gas mixtures by applying variational principle 12 p2062 A69-26668

Equations of state for continuous media, using variational principles within framework of relativity theory 12 p2131 A69-26972

Variational principle for admissible functions particular solution in elasticity theory involving solid bodies with cracks 13 p2359 A69-272903

Inverse deformation in elastic materials, using variational principle to obtain equilibrium equations proper ties 13 p2360 A69-2732

Variational method used to determine accuracy of approximation technique for dielectric slab on sidewall of rectangular waveguide 13 p2233 A69-28073

Variational principle for finite element method restricting deflection shapes to small region of model surrounding single element 13 p2364 A69-28229

Variational principle based on assumed stress hybrid method suitable for finite element analysis of incompressible solids 13 p2368 A69-28348

Variational principle and convergence of finite element method based on stress distribution 13 p2368 A69-28349

Incorrect variational and linear programming problems in optimal control theory, emphasizing regularization technique by Tikhonov 14 p2424 A69-28749

Variational problems associated with supersonic gas flows with foreign particles, considering nozzle designs 14 p2389 A69-28801

Optimal control of variational problem for Markov chain, discussing convexity and concavity of loss function 14 p2470 A69-28903

General formulas, reciprocity theorem and modified Green formula derived from variational principles for mixed problem of wave equation 14 p2485 A69-29354

Semifree elastic membranes standing waves fundamental frequency, developing variational principle for first eigenvalue 14 p2535 A69-29365

Singularity-free global solutions to nonlinear differential equations associated with variational principles, deriving necessary condition for existence from dilatation invariance considerations 14 p2470 A69-29367

Sum rule properties of finite set of wave functions obtained from application of variational principles to basis functions linear combinations 14 p2471 A69-29921

Variational principle for solving boundary value problems and reciprocal formula for error estimation, discussing applicability to general transport phenomena problems 15 p2716 A69-30022

Variational principles of solid mechanics for finite element analysis of solid continua 15 p2705 A69-30429

Hamiltonian variational principle for stationary bounded MHD flows, choosing suitable functions and rigid conducting boundary location 15 p2660 A69-30910

Rapid convergence algorithms as second variation methods for dynamic optimization problems 15 p2645 A69-31235

Hamilton modified principle applied to nonlinear control problems including time delay, servosystem with ideal relay and liquid level control 15 p2583 A69-31304

D-stationary principle to determine optimum hypersurfaces in configuration space containing optimal motion trajectories 16 p2811 A69-31625

Periodic solutions of variational equations near equilateral equilibria, obtaining one parameter expansion of family of long period orbits 16 p2854 A69-31654

Langrangian equations resulting from restricted variational principles corresponding to heat conduction problem derived for boundary condition inclusion 16 p2877 A69-31872

Mixed plate element application to vibration and buckling eigenvalue problems based on Reissner variational principle, considering quadrilateral elements 16 p2874 A69-32176

Variational problem formulated for boundary value problem of steady heat conduction with general boundary conditions 16 p2880 A69-32378

Modified Bubnov-Galerkin-Ritz method for determining approximation coefficients in stress and displacement analysis, using mixed variational principle of elasticity theory 18 p3215 A69-34566

Equations of motion for plate vibration derived by complementary variational principle, including boundary conditions and thin plate transverse vibrations 18 p3218 A69-34626

Models of continuous media with internal degrees of freedom based on Lagrangian variational principle 18 p3173 A69-35028

Variational equations uniform closed solution for optimal trajectories during coast without use of numerical integration 19 p3399 A69-35671

Variational method for computer calculation of supercritical bending of thermoelastic uniformly loaded circular plates, determining Ritz parameter influence on accuracy 19 p3434 A69-35829

Structural damping effects on semiinfinite panel boundary aeroelastic limit by Galerkin variational method 19 p3437 A69-36148

Variational principle for Fredholm integral equations applied to inclusion and indentation problems in elasticity 19 p3440 A69-36589

Homogeneous compressible fluid sphere with axisymmetric magnetic field, analyzing oscillations and stability using variational principle 20 p3605 A69-37822

Variational problem for nonlinear functionals connected with finite plasticity, extending existence and uniqueness theorems to limit analysis 21 p3837 A69-39157

Variational principle applicable to nonlinear theory of shallow shells, deriving potential for equations describing uniform boundary conditions, discussing shell stability 21 p3838 A69-39191

Reissner variational principle applied to incompressible and nearly incompressible anisotropic thermoelasticity 22 p4040 A69-39980

Variational principles equivalent to mixed problems for parabolic equations with initial boundary conditions, noting heat conduction theory 22 p3974 A69-40231

Variational principle for stability of galaxies models, developing perturbation potential in terms of operator similar to Hartree-Fock exchange operator 22 p4022 A69-40468

Upper and lower bounds for certain classes of partial differential equations associated with variational problems in theory of deterministic control processes 22 p3976 A69-41034

MHD of ideal charged gravitating fluid by variational principle, considering Einstein general relativity theory 22 p3992 A69-41056

Plate and shell structures static and dynamic analysis by generalized variational principles in finite element method, discussing element displacement functions [AIAA PAPER 68-290] 23 p4227 A69-41882

Variational principle for analyzing dispersion properties of closed regular waveguide with traveling wave-modulated dielectric constant 23 p4123 A69-41943

Composite media elastic moduli upper and lower bounds determination using variational principles to characterize displacement and stress in time harmonic deformation 24 p4406 A69-43701

VARIATIONS

NT ANNUAL VARIATIONS

NT DIURNAL VARIATIONS

NT GEOMAGNETIC MICROPULSATIONS

NT GEOMAGNETIC PULSATIONS

NT MAGNETIC VARIATIONS

NT PERIODIC VARIATIONS

NT TWENTY-SEVEN DAY VARIATION

NT WIND VARIATIONS

Irregular pulsations in morning sky brightness using all-sky photographic airborne auroral observations along auroral oval 09 p1594 A69-21666

Visibility changes in fog at London airport determined by transmissometer records 18 p3167 A69-35266

VARIOMETERS

Piezoelectric variometer with reduced indicator time lag for measuring pressure gradients in fluid media 11 p1889 A69-25427

Gokhberg magnetovariational sounding method for single location analysis of magnetic storms early phases, comparing ground station network observations 20 p3521 A69-37040

Electric dose variometer principles, emphasizing differential pressure meter, differential capacitor and capacitor meter 24 p4315 A69-43143

VASCULAR SYSTEM

NT AORTA

NT ARTERIES

NT BLOOD VESSELS

NT CAPILLARIES [ANATOMY]

NT VEINS

Clinicomorphological changes in rabbit eyes vascular system by exposing transverse accelerations 08 p1262 A69-19832

Flow mechanics applications to medicine, discussing vascular and technical systems and measuring equipment adaptation to human organisms 17 p2915 A69-33771

Intravascular pressure and sound measured in anesthetized dogs and humans using fiberoptic pressure catheter 17 p2917 A69-34172

Rheography of blood circulation of forearm after tightening with pneumatic cuff, analyzing amplitude increase and information about vascular system 21 p3653 A69-38838

Intravascular gas emboli literature critique covering early nonclinical decompression experiments, clinical use of intravenous gas emboli, etc 21 p3655 A69-38916

Pulsatile blood flow physical characteristics in short vascular segments 22 p3878 A69-40785

Brown adipose tissue providing internal heating jacket and metabolic heater overlying systemic vasculature, noting cold survival role 23 p4091 A69-42013

Spontaneous rhythmical activity and mean vascular tone dependence in isolated helical rat aorta strips on extracellular concentration of noradrenalin 23 p4093 A69-42069

Gravitational stress effect on heart and venous system, discussing digital computer model simulating pressure changes under head-up and down tilt 24 p4271 A69-42783

VASOCONSTRICTION

Clinical spectrum of postural hypotension, treating vasodepressor syncope, orthostatic arterial anemia and idiopathic orthostatic hypotension 06 p0873 A69-17017

Renal vascular circulation in carotid occlusion pressor reflex by vasoconstriction in absence of renal autoregulation 22 p3887 A69-41190

VASODILATION

Whole body LF mechanical vibration effects on anesthetized dogs peripheral circulation and vascular smooth muscle 22 p3875 A69-40228

VASOMOTOR NERVOUS SYSTEM

U NERVOUS SYSTEM

VC-10 AIRCRAFT

Component reliability effect on airline operation of VC 10 aircraft, investigating failure modes and maintenance 24 p4318 A69-42776

VECTOR ANALYSIS

NT COLLINEARITY

NT COPLANARITY

NT CURL [VECTORS]

NT VORTICITY

Optimal control system sensitivity definitions, analysis methods and design techniques, discussing equations of motion of dynamical system satisfying vector differential equation 01 p0051 A69-10553

Controllability of dynamic systems obtained by studying vector function increments along system trajectories 01 p0051 A69-10698

Magnetic disturbance vector distribution during polar magnetic substorm 05 p0755 A69-16271

Two point boundary value problems of optimal trajectories solved by offset vector method 06 p0903 A69-17577

Three dimensional vector fields and flows geometry, discussing vector lines as geodesics on surfaces of normal congruence and flat vector fields 08 p1302 A69-19823

Wind vector in respect to orientation of large scale cirrus bands based on stereophotogrammetry and radar observations 08 p1346 A69-20442

Helicopter instability on ground with propulsion system operating and inoperative, discussing overturning, restoring moments and pilot training 09 p1433 A69-21385

Elliptic complexes over compact manifolds without boundary, discussing general theory of elliptic operators in vector bundles 09 p1532 A69-21733

Kerr type metric empty space times starting from fixed reference system and associated Killing vectors 09 p1540 A69-22050

Perturbations of Volterra integral equation with vectors in n-dimensional real or complex Euclidean space, comparing solution with linear system solution 11 p1909 A69-24886

Electric vector transformation for three dimensional photoelastic medium irradiated by light in reverse direction, noting optical systems of birefringent plates and rotators 12 p2180 A69-26339

Cyclic vector amplitude error from noisy data corrected for calculating geophysical lunar tidal effects 12 p2033 A69-26956

Time correlation functions for wind vectors and components at various altitudes over Moscow in winter and summer 13 p2294 A69-27856

Elastic and elastoplastic bodies, showing vector field for surface condition as sufficient condition for stability 15 p2707 A69-30621

Friction and wind relationships expressing actual and geostrophic wind as complex numbers or by corresponding vectors in Gauss-Argand diagram 16 p2808 A69-32455

Electromagnetic fields theory simultaneously determining vector electric and magnetic field aspects in terms of operator Green functions 17 p2924 A69-33833

Quadratic Liapunov function existence for exponentially stable linear system with varying coefficients described by vector differential equations 19 p3359 A69-35617

Plane elastic deformation in isotropic homogeneous medium using displacement vector, discussing finite difference equations and application to rectangular boundary 19 p3441 A69-36719

Computer iteration accelerator based on modified Aitken process, noting application to vectors 20 p3498 A69-36950

Orbital rendezvous calculation in terms of adjoint variables vector associated with vehicle velocity vector 20 p3595 A69-37202

Vector integral extension to optimal trajectory coordinate multiplier systems with constant of motion demonstrated for coast-arc problem [AIAA PAPER 69-907] 21 p3807 A69-39339

Analytic approximation for initial adjoint vector for optimal/minimum propellant/ space trajectories [AIAA PAPER 69-916] 21 p3808 A69-39345

Constraint torque elimination from vector equations canonical system for attitude dynamics of satellite consisting of arbitrarily interconnected rigid bodies [AIAA PAPER 69-923] 21 p3821 A69-39354

Three channel inertial ship or aircraft navigator for determining gravity vector, using earth gravity field model 23 p4162 A69-41320

Matrix method for free and forced oscillations of complex linear damping system with known linear vectors 23 p4236 A69-42484

Three dimensional pin-jointed trusses calculation method by state vector incorporating force and displacement matrices 23 p4236 A69-42485

Iterative and vectoral methods for correcting computed direction cosine matrix errors 23 p4134 A69-42543

Pointing vector and angular rate relationships for various optical elements, discussing analytical models development for precision electro-optical stabilization systems 23 p4131 A69-42544

Tolerance limits for uncertain requirements vector in linear programming with random variation, introducing nonparametric statistics with sensitivity analysis [AAS PAPER 69-079] 24 p4340 A69-42821

Sequential vector estimation of matrix of second partial derivatives, suggesting alternative least squares method 24 p4340 A69-42958

Vector matrix second order sensitivity equation application to Mars entry guidance, performing numeri-

VECTOR CONTROL

cal simulation of second order sensitivity guidance and tabulating results
24 p4388 A69-43690

VECTOR CONTROL U DIRECTIONAL CONTROL

VECTOR CURRENTS

Low latitude asymmetric disturbance field analyzed using equivalent current vectors during magnetic storms, allowing for solar quiet day variation and declination
16 p2778 A69-32184

Partially conserved axial vector currents and current algebra to obtain vertex functions at point having zero mass by extrapolations
17 p3008 A69-33004

VECTOR MESONS

Energy momentum tensor in Einstein field equations derived from covariant field equations for vector meson
14 p2486 A69-29452

Renormalization of second order self energy part of photon and lowest order corrections to single photon vertex using Lagrange vector meson density
21 p3775 A69-39468

VECTOR SPACES

NT ADJOINTS
NT BANACH SPACE
NT CANONICAL FORMS
NT EIGENVALUES
NT EIGENVECTORS
NT HILBERT SPACE
NT JORDAN FORM
NT MATRICES [MATHEMATICS]
NT STATE VECTORS
NT STOKES THEOREM [VECTOR CALCULUS]
NT VECTORS [MATHEMATICS]
NT VORTICITY

Book on optimization by vector space methods covering linear space vectors, time function problems, Hilbert spaces, etc
07 p1172 A69-18409

Iterative processes for solution of linear algebraic equations for n dimensional vectors in given space
10 p1718 A69-23208

Nondifferential function minimization on entire vector space or bounded subset for application to minimax problems in function spaces, time optimal control, etc
10 p1721 A69-23863

Einstein field equations solutions for homogeneous cosmological models, assuming perfect fluid gravitation source and existence of simply transitive surface motions
11 p1919 A69-25245

Topologies introduced on state space for differential equations to obtain dynamical systems
11 p1909 A69-25409

Closed linear operators in topological vector space generalized for Banach space case
13 p2288 A69-27734

Statistical description of geomagnetic field as random vector field, presenting correlation functions from empirical estimates from geomagnetic charts
14 p2437 A69-29062

N-dimensional vector functions branching process stability belonging to locally compact set in certain space
20 p3509 A69-37075

Iterative processes for solution of linear algebraic equations for n dimensional vectors in given space
21 p3756 A69-39149

Kinematic and dynamic relations analyzed by vector method for motion time and orbital flight control of point
21 p3818 A69-39820

Vector properties of isotropic strain hardenable materials in stress vector space applied to tubular brass subject to biaxial tension and complex loading
23 p4227 A69-41714

Conjugate points along lightlike geodesics in general theory of relativity, deriving existence from vector field matrix properties and Ricci curvature
23 p4213 A69-41724

VECTOCARDIOGRAPHY

Vectorometric EKG analysis of cardiac activity during hypokinesia with and without exercise and medication
05 p0710 A69-16519

Vectorometric EKG analysis of cardiac activity during hypokinesia with and without exercise and medication
18 p3096 A69-34738

Computer assisted electrocardiography, discussing multidipole analog simulation of heart electrical activity and vectorcardiogram recording
23 p4105 A69-41784

Norms for quantitative vectorecardiography derived from statistical analysis of results from healthy young subjects, emphasizing medical evaluation of flying personnel
24 p4277 A69-43390

VECTORS [MATHEMATICS]

NT EIGENVECTORS
NT STATE VECTORS
NT VORTICITY

Vector potential used to express equations of incompressible fluid motion in form suitable for digital solution, discussing boundary conditions
01 p0058 A69-10228

Vector potentials for Dirac equation derived assuming time independent external magnetic field without scalar potential
04 p0638 A69-15273

Characteristic equation obtained by considering world line vector, basic thermodynamic variables and metric tensor as functions of Lichnerowicz class
09 p1480 A69-21614

Comparison theorem for nonlinear real vector ordinary differential equation
10 p1720 A69-23638

Upper bounds for Bernstein-Kolmogoroff multidimensional inequalities, analyzing independent random vectors
11 p1910 A69-25698

Approximation of vector linear differential equations with slowly varying matrix coefficients on time sharing computers, noting modeling possibilities
17 p2996 A69-33879

Radiation field several wavelengths from dipole above plane earth, simplifying rigorous integral expression for Hertz vector by method of operators
21 p3770 A69-38748

Variational formulation of nonlinear differential equations, treating vector fields in Hilbert spaces, finding relations useful in quantum mechanics
23 p4181 A69-41723

VEGETABLES

NT POTATOES
NT SPINACH

Vegetable diet including 210 g of dry Chlorella biomass decreases effect on calcium and magnesium assimilation to produce insignificant negative balance of K and Mn
10 p1647 A69-23590

Space biological tests performed on lower animals and vegetables relating to higher organisms reactions during prolonged manned space flights, reviewing NASA experiments
12 p2019 A69-26494

Photosynthesis and respiration rate in vegetables in controlled temperature, humidity, illumination levels, carbon dioxide and oxygen contents
17 p2912 A69-32933

VEGETATION

Carrot plants growing during 374 days in conveyor type aeroponic assembly, noting yield and morphological features
17 p2912 A69-32943

Spectral reflectances of objects and vegetative backgrounds to generate color photographic technique increasing detection sensitivity and rate
18 p3133 A69-34247

VEHICLE WHEELS

NT NOSE WHEELS

Dynamic stability of dual wheel gears for aircraft applications, discussing shimmy, tire characteristics, velocity effects, etc
[AIAA PAPER 69-769] 19 p3245 A69-35654

VEHICLES

Flexible vehicle control, using cybernetic model for system design and response
[AIAA PAPER 69-115] 06 p1018 A69-18088

VEINS

Pulmonary capillary gas exchange and venous admixture model and inclusion into respiratory system model, discussing pressure and concentration gradients, pathological effects, etc
07 p1068 A69-19482

Rebreathing method for determining mixed venous oxygen pressure and cardiac output during rest and exercise in trained athletes
23 p4078 A69-41316

VELA SATELLITES

Particle measurements by Vela nuclear test detection satellites /2A and 2B/ noting plasma sheet in center of magnetotail
07 p1208 A69-19362

VELOCITY

U ACOUSTIC VELOCITY
U AIRSPEED
U ANGULAR VELOCITY

U CRITICAL VELOCITY

U ESCAPE VELOCITY
U EXHAUST VELOCITY
U FLOW VELOCITY
U GROUP VELOCITY
U HIGH SPEED
U HYPERSONIC SPEED
U LANDING SPEED
U LIGHT SPEED
U LOW SPEED
U ORBITAL VELOCITY
U PHASE VELOCITY
U PROPAGATION VELOCITY
U RELATIVISTIC VELOCITY
U ROTOR SPEED
U SOLAR VELOCITY
U SUBSONIC SPEED
U SUPERSONIC SPEEDS
U TERMINAL VELOCITY
U TIP SPEED
U TRANSONIC SPEED
U WIND VELOCITY

VELOCITY DISTRIBUTION

Spatial and kinetic distributions of molecules reflected by surface in rarefied atmosphere, discussing mathematical model
01 p0122 A69-10041

Tangential velocity profile growth in laminar axial flow through concentric annulus with rotating inner cylinder, using Navier-Stokes equations for prediction
01 p0058 A69-10143

Sonic flow at large distance and behind shock wave for axisymmetric body of revolution of finite dimensions in inviscid fluid
01 p0058 A69-10160

Molecular velocity distribution function in nonequilibrium flows, detailing asymptotic expansions in different velocity domains for weak shock
01 p0059 A69-10330

Free convection from partially uniformly heated and partially insulated vertical flat plate, discussing dimensionless velocity, temperature, heat flux and axial length parameters
01 p0175 A69-10331

Asymptotic solution of Orr-Sommerfeld equation by multiple scales method for linear and general velocity profile
01 p0059 A69-10332

Confined vortex in air tangential and axial velocity distribution based on smoke profile pictures
01 p0060 A69-10413

Quasi-static Kerr magneto-optic observation and procedure to predict results of dynamic flux reversal in thin Ni-Fe films
[IEEE PAPER 11.7] 01 p0138 A69-10716

Steady state circular motion of fluid with variable rheological characteristics between coaxial cylindrical surfaces, obtaining velocity distribution
01 p0061 A69-10733

Multiple velocity dispersion in normal hydrogen and normal hydrogen-helium mixtures at room temperature using ultrasonic interferometer
01 p0121 A69-11284

Liouville and Poisson equations solutions for locally ellipsoidal stellar velocity distributions with constant coefficients
02 p0310 A69-11455

Lunar seismic velocity distribution data indicates broad low velocity zone together with possible extensive melting at depth
[AAS PAPER 68-205] 02 p0312 A69-11480

Wing upper surface velocity distributions having peak near leading edge, considering incompressible flow at zero angle of attack
[ONERA-TP-632] 02 p0187 A69-11618

Turbulent velocity in faculae and photosphere obtained from IR triplet of oxygen analysis
02 p0314 A69-11646

Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces
02 p0188 A69-11976

Turbulent jet model of unsymmetrical velocity profile for design of wall attachment device
02 p0231 A69-12072

Asymptotic laminar boundary layer in compressible gas in presence of normal and tangential velocity components at body surface
02 p0231 A69-12138

Transient laminar boundary layer development on flat plate following impulsive start of surrounding fluid motion, obtaining temperature and velocity distribution relationship
[ASME PAPER 68-HT-10] 02 p0232 A69-12208

Stability of laminar flow along flexible boundary using broken linear velocity profile
02 p0232 A69-12353

- Three dimensional wakes and jets, discussing center-line velocity, half width growth and velocity irregularities
02 p0190 A69-12549
- Anisotropic plasma cyclotron instability in magnetic trap with cold ion background and isotropic Maxwellian velocity distribution
02 p0292 A69-12554
- Velocity field generated by vibrations propagating at finite velocity over elastic wing surface
02 p0190 A69-12571
- Algorithm for Orr-Sommerfeld equation applied to stability of laminar flow, noting profile resembling mean velocity profile of turbulent flow in flat tube
02 p0233 A69-12573
- Interactions of moving solar plasmas and solar magnetic fields, discussing solar velocity fields and fine structure observations
02 p0329 A69-12784
- Turbulent boundary layer reversion to laminar state associated with departures from inner law velocity distribution in presence of favorable pressure gradients
03 p0414 A69-13016
- Three dimensional sonic flow downstream from shock wave in nondissipative perfect fluid, introducing pseudorotating flow to obtain velocity field
03 p0362 A69-13363
- Velocity field generated by shock wave incident on slender symmetrical body resting in infinite compressible medium
03 p0362 A69-13418
- Velocity dispersion and temperature anisotropy with respect to magnetic field direction, discussing inertial solar wind cooling effects
03 p0500 A69-13525
- Equilibrium turbulent boundary layer prediction for proposed Prandtl mixing length distribution
03 p0419 A69-13992
- Horizontal and vertical downward velocity components in developed solar active regions
04 p0651 A69-14370
- Approximate method for calculating vertical velocity distribution in atmospheric braking of bodies along ballistic trajectories
04 p0541 A69-14485
- Unsteady two dimensional flow in square cavity with fluid initially at rest and constant velocity upper surface of cavity, noting vortex center
04 p0587 A69-14510
- Smearred out electron beam generation for experiments on weak plasma turbulence by passing beam through aluminum foils
04 p0636 A69-15020
- Perfect magnetofluid model to study laminar flow stability along magnetic field, considering time dependences and rigid and free boundaries
04 p0637 A69-15045
- Space-time function for joint probability distribution of velocity and magnetic fields from hydromagnetic turbulence equations
04 p0638 A69-15277
- Viscous incompressible fluid motion in two or more dimensions and with zero fluid velocity on domain boundary, determining lower bounds and uniqueness for solutions
04 p0626 A69-15311
- Laminar heat transfer in circular pipes in low Peclet number flow case with laminar velocity profile, discussing Hagen-Poiseuille flows
04 p0687 A69-15397
- Random motion of particle with nonlinear damping, obtaining velocity spectrum by solving associated nonstationary Fokker-Planck equation and using equivalent linearization technique
04 p0561 A69-15454
- Round air jet projected parallel to wall, analyzing velocity profiles, decay and growth rate
04 p0591 A69-15487
- Velocity profiles for laminar flow of homogeneous liquid in pipe inlet at small and moderate Reynolds numbers
05 p0743 A69-15578
- Stationary velocity profile near jet driven vortex tube outer wall calculated by laminar boundary layer flow theory, neglecting wall curvature effects
05 p0798 A69-15610
- Laminar flow of stably stratified fluid with uniform upstream velocity and density gradient past thin flat plate, discussing upstream wake and boundary layer
05 p0745 A69-15724
- Equations for frequency portions of electron-velocity distribution function in Lorentz plasma under influence of time periodic electromagnetic fields with two fundamental frequencies
05 p0800 A69-15743
- Gas velocity variations in ionizing shock wave propagating along magnetic field applied to conducting piston motion
05 p0801 A69-15787
- Heat transfer, temperature and velocity profiles in circular free jet can be described by heat conduction type equations
05 p0747 A69-16032
- Thermal entry problem solution for low Reynolds number turbulent gas flow based on Reynolds number dependent velocity profile
[ASME PAPER 68-WA/FE-11]
05 p0748 A69-16090
- Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities
[ASME PAPER 68-WA/FE-21]
05 p0749 A69-16097
- Inlet velocity profiles distortion effects on flow regimes and performance in two dimensional diffusers with turbulent boundary layers
[ASME PAPER 68-WA/FE-25]
05 p0698 A69-16100
- Velocity profiles and eddy diffusivities for fully developed turbulent low Reynolds number pipe flow
[ASME PAPER 68-WA/FE-34]
05 p0749 A69-16107
- Velocity fields and wall shear stress distributions in eccentric annuli
[ASME PAPER 68-WA/FE-35]
05 p0750 A69-16108
- Static pressures, profiles of local longitudinal velocity, fluctuating wall pressures and power spectra of wall pressures measured for subsonic turbulent flow
[ASME PAPER 68-WA/FE-36]
05 p0750 A69-16109
- Heat transfer through vertical plane layer for various Prandtl numbers, discussing velocity and temperature profiles and effects of aspect ratio, Grashof and Rayleigh numbers
[ASME PAPER 68-WA/HT-4]
05 p0846 A69-16115
- Particles nonlinear motion in plasma in magnetic field with arbitrary electron velocity distribution, discussing wave discontinuity patterns
05 p0804 A69-16370
- Rotating hot wire and five hole pressure probes for determining complete velocity vector in subsonic flow
05 p0764 A69-16398
- Transformation of differential mean and current densities and anisotropy of cosmic ray particles and photons observed in frames of reference relative to each other with isotropic flux
05 p0817 A69-16651
- Velocity distribution of plasma electrons in electron beam generated He plasma using Boltzmann equation, neglecting electron-electron collisions
05 p0805 A69-16705
- Ion velocity distribution for high vacuum ion source, noting factors influencing dispersion
06 p0959 A69-16916
- Laminar flow stability along flexible boundary, using broken linear velocity profile instead of boundary layer profile
06 p0909 A69-17207
- 27-day cosmic ray intensity variations related to solar wind velocity nonuniformity due to longitudinal distribution of coronal active regions
06 p0990 A69-17292
- Stability of tangential velocity discontinuity between two media with different densities situated in acoustic field
06 p0910 A69-17344
- Stability theory application to laminar boundary layer transition prediction on two dimensional and axisymmetric flows having pressure distributions in incompressible flow
[AIAA PAPER 69-10]
06 p0914 A69-18127
- Time variation of velocity spheroid dispersion, axis ratio and vertex deviation in Galaxy due to star-cloud encounters
07 p1215 A69-18668
- Viscous gravitating sphere oscillations and velocity field, noting oscillations of Maxwell sphere
07 p1123 A69-18806
- Chromospheric velocity field temporal characteristics in quiet region of sun, determining power spectra of Doppler shifts of H alpha spectra
07 p1217 A69-19240
- Transition boundary layer on flat plate in subsonic wind tunnel measured by hot-wire method, obtaining velocity fluctuation distribution and turbulence intensity
07 p1121 A69-19329
- Analytical solution for plate velocity statistics of turbulent-flow-excited rectangular flat plate, discussing vibration excitation
07 p1236 A69-19461
- Velocity distribution in lower mantle, showing second major discontinuity in P wave travel time curve at 24 degrees
07 p1129 A69-19502
- Shear stress at wall, averaged velocity field and turbulent heat transfer coefficients in straight smooth non-circular channels used to compute temperature fields
07 p1243 A69-19734
- Plasma instability with isotropic ion or electron velocity distribution function /nonMaxwellian/, discussing magnetic field and particle energy distribution functions
08 p1359 A69-19949
- Isotropic Newtonian cosmological models symmetry shown to have velocity distribution obtainable from solution of Vlasov equation
08 p1386 A69-20073
- Diffusion coefficient, velocity distribution function and velocity averages for gaseous ions moving in strong electric fields, considering ion-gas molecule charge transfer collisions
08 p1355 A69-20209
- Time dependent velocity distribution functions for carriers calculated in weakly ionized plasma in external electric field
08 p1362 A69-20265
- Vibrational relaxation effects on laminar boundary layer velocity profiles and temperature and on layer thicknesses and wall heat flow downstream of shock wave
08 p1303 A69-20269
- Meteor angular velocities distribution over sky in showers, considering effect of altitude, night hour, season and azimuth
08 p1393 A69-20607
- Time harmonic, spherical harmonic and power series expansion of Boltzmann equation
08 p1353 A69-20793
- Stability of unsymmetrical plane flow noting velocity profile effect
08 p1304 A69-20812
- Loss cones effect of anisotropic Maxwellian velocity distribution on EM waves propagating perpendicular to magnetic field in infinite plasma
08 p1369 A69-20820
- Boundary value problem for linearized system of Navier-Stokes equations in three dimensional space, determining velocity vector and pressure
08 p1344 A69-21156
- Inertia limited flow transition to mobility limited flow in gas diodes by taking velocity moments of Boltzmann equation for electron velocity distribution function
09 p1462 A69-21325
- Planckian stellar velocity distribution function, moduli and projections on coordinate planes determined by ellipsoidal approximation
09 p1589 A69-21370
- Spatial size and velocity distributions for liquid or solid aerosols suspended in air flow using Q spoiled ruby laser and holography
09 p1492 A69-21418
- Vertical transport rate of charged particles in F region, allowing for vertical velocity gradients
09 p1485 A69-21529
- Poincare recurrence theorem applicable to collapsing gravitational system with particles velocity dispersion other than zero
09 p1593 A69-21567
- Velocity and temperature fields in Newtonian fluid in motion past stationary obstacle in gravitational field, noting similarity parameters reduction
09 p1429 A69-21686
- Constant property turbulent boundary layer flow, developing finite difference solution for prediction of velocity profiles and skin friction coefficient
09 p1482 A69-21950
- Radial velocity, light and magnetic variations of HD 10783 from concurrent UVB photometric and Zeeman spectroscopic observations
09 p1600 A69-22197
- Stability of thin rotating disks of stars with respect to axisymmetric disturbances, noting overstabilities dependence on epicycles sizes
09 p1605 A69-22413
- Quasi-linear relaxation of electron beam in magnetized plasma, noting instability of plateau in velocity distribution function
09 p1553 A69-22659
- Velocity profiles of turbulent boundary layers with constant and variable pressures using Cole formulation
09 p1484 A69-22780

Incident flow in variable cross section tubes using analytic asymptotic calculation

10 p1677 A69-22897

Incompressible Newtonian flow between two parallel planes, noting marginal stability condition, mean velocity profile and turbulence

10 p1678 A69-22909

Numerical solution of MHD equations for boundary layer electrically conducting gas flow near flat plate when velocity distribution of external flow obeys power law

10 p1727 A69-23093

Speed distribution and density of molecular beam from time domain measurements of propagated beam perturbations, discussing gate functions

10 p1652 A69-23340

Invariant finite amplitude spherical shock wave propagation in medium with inversely radial density

10 p1778 A69-23405

Singular integral equation for velocity in linearized Rayleigh problem in rarefied gas flow field solved by applying Luke weight coefficients

10 p1679 A69-23596

Mass and velocity distribution of interstellar clouds from Oort model simulated by Monte Carlo method on computer, predicting rogue cloud existence

10 p1779 A69-23608

Turbulent boundary layers on flat wall of supersonic wind tunnel, determining velocity profiles, thicknesses and skin friction coefficients

10 p1680 A69-23643

Boltzmann H function for moderately dense gas of identical particles with discrete velocity distribution in cases of nonisotropic binary and ternary collisions

10 p1725 A69-23790

Dynamical model for spherical inhomogeneity in mean mass density of universe to predict velocity dispersion observed for Coma Cluster

10 p1789 A69-24133

Longitudinal electric field distribution and charged particle density in magnetic mirror under potential difference between magnetic equator and plane

10 p1689 A69-24204

Velocity profiles of turbulent plasma flow in circular tube during application of longitudinal homogeneous magnetic field

11 p1922 A69-24234

Stellar model with magnetic field accelerating central core rotation to instability for determining rotating star energy and angular velocity distribution dependence

11 p1952 A69-24249

Atmospheric circulation contribution to velocity variations in earth rotation calculated by force moment method

11 p1952 A69-24258

Integral representation for velocity and pressure fields produced by horizontal motion of two dimensional bodies below or on free surface of viscous liquid

11 p1866 A69-24278

Similarity solution for flow of fluid-particle suspension over disk rotating at constant velocity, solving differential equations for flow velocity distributions

11 p1867 A69-24280

Chapman-Enskog procedure extension for binary gas mixtures, obtaining diffusion equation from revised relaxation time of component velocities

11 p1921 A69-24308

Differential solar rotation noting strong quasi-kineticity effect on solar convective zone and rotation influence on viscosity tensor and rotation law

11 p1955 A69-24390

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison

11 p1957 A69-24407

Constant velocity moving object influence on indications of vertical gyroscopes having electromagnetic compensation with residual imbalance of sensor element

11 p1881 A69-24561

Stability of barotropic perturbations superimposed on wind velocity profile of basic currents in geostrophic multilayer models

11 p1911 A69-24586

Turbulent flow velocity field evolution in presence of random forces using equation of motion

11 p1867 A69-24628

Holographic recording of three dimensional flow field velocities, applying theory of particle size assessment via Fraunhofer holography

11 p1884 A69-24691

Turbulent boundary layer velocity distributions in uniform/accelerated compressible flow over flat plate,

using change of variables based on mixing length formula

[ONERA-TP-693]

11 p1867 A69-24752

Velocity profiles in unsteady laminar incompressible boundary layer over flat plate in shock tube by two parameter integral method

11 p1871 A69-25026

Velocity distributions and skin friction coefficients in turbulent boundary layers over flat plate with injection or suction through porous wall

11 p1871 A69-25027

Streamwise pressure gradient effect on velocity profile in viscous sublayer of two dimensional turbulent flow along smooth wall

11 p1872 A69-25131

Sandwich electrode for direction and magnitude measurement of velocity gradients at wall for flow around cylinder at high Reynolds numbers

11 p1872 A69-25132

East-west asymmetry in solar wind velocity due to solar rotation effects on interaction between fast and slow streams

11 p1950 A69-25148

Power law profiles of mean wind velocity and temperature in thermally stratified shear flow, considering dependence on thermal stability and Richardson number

11 p1874 A69-25381

Gas velocity variation in ionizing shock waves arbitrarily oriented with respect to magnetic field, considering magnetic viscosity and conductive piston

11 p1935 A69-25740

Spacecraft orbit control laws determined by studying influence of controlling acceleration in plane perpendicular to absolute velocity vector

11 p1965 A69-25743

Planetary nebulae radial velocities in large and small Magellanic Clouds compared with young objects rotational pattern and interstellar gas densities and velocities

12 p2155 A69-25891

Disaligning and velocity changing collisions influence on laser light induced saturation peaks or holes in velocity distribution of Ne atoms

12 p2105 A69-26317

Stony meteoric particles size and velocity during passage through atmosphere

12 p2157 A69-26341

Subsatellite point velocity determination by interpolation method using observation data without knowledge of orbital elements

12 p2158 A69-26435

Horizontal wind velocity energy spectra, attributing free atmosphere meso and microscale turbulence to meso and micrometeorological processes

12 p2070 A69-26575

Diurnal and seasonal variations in drift velocity vector of small scale inhomogeneities in F2 region

12 p2070 A69-26688

Interplanetary plasma flow directional velocity distribution from solar atmosphere active regions found inhomogeneous

12 p2149 A69-26698

Velocity distribution and density of neutral hydrogen in southern portions of M 31 and Sc-type galaxy M 33 by 75 m radio telescope

12 p2166 A69-27038

NGC 4038-9 velocity field from spectrum obtained at McDonald Observatory, suggesting existence of two centers of matter ejection

12 p2169 A69-27060

Flow stability of axisymmetric jet with parabolic velocity profile in fluid at rest, calculating critical Reynolds numbers

13 p2244 A69-27300

Incompressible conducting fluid turbulent flow velocity distribution in transverse magnetic field at small magnetic Reynolds numbers and constant MHD interaction frequency

13 p2246 A69-27498

Velocity profiles of MHD flow through electrically insulated circular channel in transverse magnetic field

13 p2307 A69-27501

Three phase high temperature liquid metal induction MHD generator performance, noting velocity profile nonuniformity influence

13 p2208 A69-27513

Arc plasma jets radial velocity profiles measured by two probes in cyclic movement between jet edge and middle, including error estimation

13 p2307 A69-27611

Velocity fluctuation amplitude in potential cone of plane jet compared to properties of irrotational fluctuations induced by flow boundaries

13 p2247 A69-27736

Velocity, enthalpy and mass flux radial distributions in laminar boundary layer from calorimetry of argon subsonic flow

[ASME PAPER 68-HT-16]

13 p2374 A69-27776

Velocity and temperature profiles in gaseous turbulent boundary layer above liquid surface used to study liquid film cooling heat transfer

13 p2375 A69-27792

Galactic force law from observed stellar velocity and space density distribution

13 p2348 A69-27802

Meteoroid flux measured by Explorer 16 and Lunar Orbiter, analyzing penetration rate, average velocity and consistency with photographic meteors

13 p2349 A69-27820

Vertical wind velocity profiles approximation accuracy determined by linear, exponential and logarithmic functions of altitude during ice and frost

13 p2293 A69-27846

Cloud drift radar measurements for determining wind velocity profiles in mesosphere, using rocket released dipole reflectors

13 p2253 A69-27848

Shear stress and velocity profile in MHD duct, examining turbulence damping by electromagnetic coupling

13 p2309 A69-28024

Laminar temperature and velocity profiles near plane rectangular surface for free supersonic flow, solving partial differential equations for mass, momentum and energy conservation

13 p2309 A69-28025

Maxwellian velocity distributions simulated in one, two and three dimensions by superposition of N monoenergetic isotropic distributions, noting application to kinetic theory computation

13 p2313 A69-28222

Electron velocity distribution function in gaseous plasma with known collective oscillations and frequency/wave number relationship

13 p2313 A69-28327

Monograph on velocity distribution function in turbulent boundary layer, discussing hot wire anemometer for mean velocity, turbulence intensity and higher order moments determination

13 p2250 A69-28336

Flat plate turbulent boundary layer, noting Navier-Stokes equations solutions and formation of rotations to determine velocity field

13 p2251 A69-28632

Model to study viscous flow characteristics in channel with porous walls and constant section, noting non-monotonic velocity profile

14 p2429 A69-29015

Semiempirical parameters in streamline division and momentum integral analyses for separated flows, using error function velocity profile and spreading parameter sigma

14 p2389 A69-29028

Interstellar gas radio and optical spectral lines of neutral H compared with Ca and neutral Na, discussing critically low velocity gas distribution

14 p2519 A69-29135

21 cm line emission surveyed for spatial distribution of random velocities of neutral hydrogen in solar neighborhood

14 p2520 A69-29371

Radial velocities of planetary nebulae in Magellanic Clouds and Galaxy, discussing Population I and II kinematics

14 p2520 A69-29377

Elastic collision effect on gas laser atoms velocity distribution and gain factor determined for strong collision model

14 p2459 A69-29388

Mixing zone between two dimensional free stream and fluid at rest, measuring turbulent shear layer velocity profile behind rearward facing steps and over cavities

[ASME PAPER 68-WA/FE-21]

14 p2430 A69-29443

Thermal entry problem solution for low Reynolds number turbulent gas flow based on Reynolds number dependent velocity profile

[ASME PAPER 68-WA/FE-11]

14 p2430 A69-29446

Density distribution in axisymmetrical gravitating systems with ellipsoidal velocity distribution function, using integral equation of state for effective radii of cylindrical configurations

14 p2486 A69-29465

Langmuir probe measurements leading to electron groups composition of electron velocity distribution function in negative glow light

14 p2493 A69-29694

- Three dimensional laminar boundary layer on semiinfinite permeable flat plate in viscous incompressible fluid flow, calculating velocity profiles and skin friction components
14 p2433 A69-29898
- Turbulent Hartmann flow between planes in perpendicular magnetic field including flow velocity profile measurements
14 p2500 A69-29908
- One dimensional approximation for free jet nozzle flow in perpendicular magnetic field, calculating velocity distributions
14 p2501 A69-29910
- Velocity distribution effect on electric field at walls for axisymmetric flow of electrolyte in circular channel in magnetic field of E shaped inductor
14 p2501 A69-29915
- Solar wind Helmholtz-type velocity discontinuities, noting plasma density and temperature stabilities from Explorer 34 observations
14 p2515 A69-29971
- Inlet shape and Reynolds number effects on entrance flow development, using laser flowmeter based on Doppler effect to obtain laminar velocity profiles
15 p2589 A69-30001
- Axial and radial turbulence intensities for flow through smooth round tubes, measuring velocity profiles and drag coefficients
15 p2590 A69-30003
- Anisotropic plasma cyclotron instability in magnetic trap with cold ion background and isotropic Maxwellian velocity distribution
15 p2658 A69-30251
- Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces
15 p2547 A69-30259
- Airborne Doppler radar, estimating velocity distribution and density of pulse signals reflected from air and ground targets
15 p2567 A69-30349
- Chapman-Enskog theory applied to observed stellar velocity distribution function, attributing deviation from Maxwellian function to negative K effect
15 p2687 A69-30549
- Wind velocity fluctuations calculation in CAT based on closed equations numerical solution for turbulent layers in upper troposphere
15 p2649 A69-30649
- Particle drift velocity distribution of fully ionized plasma in magnetic field calculated by integration of Boltzmann equation
15 p2659 A69-30707
- Radio galaxy Messier 87 mass determined using virial theorem for nucleus velocity dispersion
15 p2695 A69-30883
- Plasma instabilities due to anisotropic velocity distributions computer analyzed to study nonlinear phenomena and validity limits of linear theory
15 p2661 A69-30920
- Critical study of Tidman model for turbulent electrostatic shock wave structure in plasmas, noting velocity distribution function role
15 p2661 A69-30927
- Single and two phase subsonic plasma jets temperature and velocity distribution, noting reduction by condensed phase and use of Schlichting curves
15 p2663 A69-30989
- Boundary value problem for linearized system of Navier-Stokes equations in three dimensional space, determining velocity vector and pressure
15 p2645 A69-31249
- Laminar boundary layer equation solution representing velocity profile by fourth degree polynomial
15 p2593 A69-31263
- Scattering of time harmonic linearly polarized plane electromagnetic wave by uniformly axially moving cylinder, analyzing first order velocity effects
16 p2748 A69-31579
- Transverse instabilities in collisionless electron plasma in absence of permanent magnetic field with spheroidal velocity distribution, noting application to shock theory
16 p2817 A69-31645
- Analytic expressions for motion of collisionless plasma created with isotropic velocities within uniform magnetic field, assuming equal electron and ion masses
16 p2818 A69-31673
- Two dimensional turbulent mixing with surface mass injection at supersonic and hypersonic speeds, noting velocity and temperature distributions
16 p2770 A69-31883
- Mean velocity distribution prediction in turbulent shear flows of variable density by coordinate stretching method
[AIAA PAPER 68-41] 16 p2770 A69-31888
- Turbulent boundary layer laminarization in conical nozzle flow, measuring velocity profiles and friction coefficient
[JPL-TR-32-1407] 16 p2732 A69-31894
- Ablation injectants effect on supersonic stream pressure distribution inside cavity and upstream boundary layer velocity profiles
16 p2770 A69-31902
- Density and velocity fluctuations in hypersonic turbulent boundary layer based on Wallace data
16 p2770 A69-31908
- Solar wind velocity distribution anisotropy at earth explained by low density
16 p2849 A69-32097
- Velocity field in turbulent flow based on momentum transfer, determining velocity distribution for flow near solid surface
16 p2772 A69-32128
- Correlation between F region electrons vertical motion velocity variations and E region electrons horizontal motions in equatorial ionosphere
16 p2779 A69-32193
- Spatial distribution of stellar densities and velocity distributions in phase space, using Greenwich catalog of positions and proper motions of omega Centauri cluster stars
16 p2859 A69-32220
- Vertical transport rate of charged particles in F region, allowing for vertical velocity gradients
16 p2783 A69-32524
- NonMaxwellian electron velocity distribution influence on ionospheric measurements by Thompson scattering, explaining disagreement between scattering and probe measurements of electron temperature
16 p2788 A69-32647
- Velocity and static pressure redistribution in distorted flow field upstream of axial flow compressors
[AIAA PAPER 69-485] 16 p2842 A69-32694
- Ultrasonic velocity dispersion in para hydrogen and mixtures with He, Ne and Ar at 300 K, obtaining rotational relaxation times
16 p2815 A69-32791
- Transverse turbulent pipe flow, obtaining limiting behavior of time averaged velocity gradient at wall
17 p2949 A69-33013
- Stationary galaxy dynamical theory, assuming constant velocity body of physically homogeneous star subsystems in space
17 p3031 A69-33102
- Spontaneous gas laser emission from level coupled by spontaneous transition with emitting level, obtaining atoms interaction with laser field velocity distribution and spectral line width
17 p2981 A69-33116
- Mixing length model to relate turbulent shear stress to mean velocity field within planetary boundary layer above surface roughness change
17 p2997 A69-33154
- Chemical species flux decay in turbulent boundary layer with catalytic wall, obtaining solution of conservation equation by using shear stress distribution
[AIAA PAPER 69-709] 17 p2955 A69-33480
- Magnetic field effects on rotating cone compressible boundary layer at zero angle of attack, describing changes in drag coefficient, torque and velocity profiles
[AIAA PAPER 69-721] 17 p2892 A69-33484
- Turbulent velocity distribution and wall friction calculated from eddy viscosity distribution for concentric annulus
17 p2956 A69-33575
- Monte Carlo inversion of seismic body waves for transposing uncertainties of observations to velocity models
17 p2962 A69-33654
- Swept wing attachment line boundary layer, measuring skin friction in full turbulence and velocity profiles with and without trip wire
17 p2958 A69-34047
- Radial velocities differences as indicator of stellar atmospheric turbulence, applying method to sun
17 p3044 A69-34177
- Taylor vorticity transport theory and von Karman similarity hypothesis extended to consider three dimensional fluctuating velocity field in analyzing turbulent swirling ducted flow
[ASME PAPER 69-APM-19] 18 p3120 A69-34394
- Ejector driven wind tunnel for turbulent flow generation with arbitrary velocity profile, using jet arrays
[AIAA PAPER 69-743] 18 p3114 A69-34408
- Conservation theorems for energy and mean circulation in inviscid rotating fluid, noting inertial wave spectrum continuity
18 p3121 A69-34550
- Planckian velocity distribution function, moduli and projections on coordinate planes determined by ellipsoidal approximation
18 p3198 A69-34759
- Gas velocity variations in ionizing shock wave propagating along magnetic field applied to conducting piston motion
18 p3181 A69-35038
- Velocity and angular distributions of KBr formed in reactive collisions between crossed molecular beams of K and thermal HBr/DBr/
18 p3178 A69-35476
- Maximum trajectory for glider entering earth atmosphere at supercircular velocity, subject to maximum altitude constraint
19 p3399 A69-35667
- Axisymmetric laminar and turbulent wakes of body in flow with streamline pressure gradient, discussing velocity defects and profiles
19 p3296 A69-35762
- Hydrodynamic equations of laminar plane flow of incompressible viscous fluid in rectangular region, calculating velocity field by equivalent network and integration
19 p3297 A69-35853
- Turbulent velocity of flame propagation in supersonic stream of hydrogen-air mixture determined by velocity distribution, exchange coefficient and burning time
19 p3448 A69-35854
- Single junction vacuum thermocouple measuring thermal beam effect with reference to velocity distribution perturbation in molecular beam scattering
19 p3376 A69-36173
- Energy dependence of elastic total collision cross section of identical He molecules, using velocity selected primary beams at low target temperature
19 p3378 A69-36186
- Flame acceleration data applied to unburnt gas boundary layer analysis, discussing velocity and temperature profiles, layer thickness variation and expansion phase backflow
19 p3450 A69-36359
- Inverse transformation method for plane subsonic flow extended to flow past cambered profiles at angle of attack, obtaining velocity distribution
19 p3240 A69-36473
- Tangential and radial velocities in vortex boundary layer flow, relating diminishing amplitudes to increasing height using iterative method
19 p3363 A69-36499
- Mean parameters calculation between widening of turbulent flow and point of reattachment, including similarity hypothesis concerning velocity profile
19 p3299 A69-36648
- Dimensionless radial and transverse velocity profiles for unsteady incompressible boundary layer on rotating disk in rotating fluid
19 p3300 A69-36720
- Sedov formula for complex velocity of arbitrary circulation in two dimensional theory of small curvature thin wings
19 p3242 A69-36795
- Three dimensional velocity field disturbed by shock wave traveling across slender wing at supersonic speed
19 p3242 A69-36797
- Solar wind velocity cycles from fluid MHD viewpoint, applying Kelvin theorem on circulation stability in closed fluid system
20 p3587 A69-37041
- Low density free jet properties, discussing velocity distribution perpendicular to axis and correlation of all terminal parallel Mach numbers for monatomic gases
20 p3514 A69-37206
- Thesis on turbulent velocity distribution and wall friction in flow channels of various cross sections
20 p3515 A69-37925
- Linear dynamic modeling of barotropic fluid in rigid circular tube, presenting axial velocity profile by confluent hypergeometric function with complex arguments
[ASME PAPER 69-FLCS-18] 20 p3516 A69-37982
- Boundary layer velocity distribution in turbulent swirling pipe flow produced by twisted tape inserts
[ASME PAPER 69-FE-14] 20 p3516 A69-37990
- Statistical description of turbulence of viscous incompressible fluid at large Reynolds numbers, using velocity distribution probability
20 p3517 A69-38007

VELOCITY ERRORS

Equilibrium velocity distributions of F region photoelectrons produced by solar ionizing radiation, discussing dayglow as impact result
20 p3591 A69-38061

Irregular galaxy NGC 3077 with interstellar dust, measuring velocity field by spectroscopy
20 p3610 A69-38144

Gas in H II regions and associated stars radial velocities correlation and systematic difference suggesting relationship between nebulae and stars
20 p3611 A69-38150

H II regions radial velocities ellipsoidal distribution in M 33 explained as distribution with minor axis in direction of rotation
21 p3797 A69-38538

Electron plasma velocity distribution function determined from dispersion equation by harmonic function analog
21 p3776 A69-38565

Heat transfer coefficients, boundary layer thicknesses and temperature and velocity distributions in free convection boundary layer in closed axisymmetric volumes
21 p3848 A69-38634

Energy spectra measurements of turbulent velocities behind grids of different geometries noting relation to deviation from isotropy
21 p3693 A69-38704

Equations governing steady diabatic gas flows in Crocco velocity vector field, discussing changes in total pressure
21 p3695 A69-39007

Periodic motions of mechanical oscillators with velocity discontinuities analyzed by differential equations
21 p3771 A69-39009

Pulsation velocities distribution wind in meteor region of atmosphere during hourly intervals over eleven month period, noting normal distribution
21 p3759 A69-39115

Velocity and temperature distribution curves in turbulent boundary layer formed by natural convection on isothermal vertical plate, using Prandtl and Nusselt numbers
21 p3852 A69-39430

Velocity and temperature profiles at Prandtl number values obtained for unsteady laminar free convection on infinite vertical plate with stepwise varying temperature
21 p3853 A69-39681

Small particle holography technique extended for dynamic properties of particle fields, determining velocity and density field, size distribution, flow structure and diffusion rate
21 p3726 A69-39776

Flow structure in wake behind cylinder in plane channel, discussing circulation zone variation and velocity and turbulence distribution at various channel cross sections
21 p3698 A69-39850

Velocity profile and skin friction in boundary layer on flat plate with periodic vorticity near leading edge
22 p3929 A69-40015

Magnetoplasma with Maxwellian velocity distribution, investigating quantitatively longitudinal dielectric function
22 p3988 A69-40066

Blood sheet flow velocity distribution and pressure gradients in pulmonary alveolar septa determined, allowing for system elasticity
22 p3874 A69-40216

Dynamics of viscous electrically charged gas using Navier-Stokes equation
22 p3931 A69-40686

Fluid velocity in starting flow in circular tube using Laplace transform
22 p3931 A69-40688

Detonation velocity variation in nitromethane with initial pressure, discussing relationships
22 p4051 A69-40713

Skin friction and mean velocity profiles measured for fully developed 1000-10,000 Reynolds number flows in pipes and channels
22 p3932 A69-40897

Distributed suction effect on boundary layer structure of water flow from turbulence measurements, determining velocity and pulsation intensity distributions
22 p3933 A69-41029

Velocity defect profile and skin friction law for incompressible equilibrium turbulent boundary layer, using mixing length relation
22 p3934 A69-41180

Radial velocities for O and B stars in Milky Way field in Scorpius determined from prism spectrograms with specific dispersion at H gamma line
23 p4211 A69-41489

Rocket engine plasma jet radial velocity measurement by induction-velometric method using moving probe [DGLR-69-024C]
23 p4202 A69-41926

Spanwise velocity profiles through cascades and axial flow turbomachines, analyzing loading, secondary losses and inlet conditions interacting on downstream profile
23 p4061 A69-42110

Boundary layer separating collisionless plasma from one dimensional magnetic field for anisotropic particle velocity distribution functions, preserving charge neutrality in boundary layer
23 p4197 A69-42415

Weak magnetic field amplification in turbulent flow with velocity field as random function of space and time
24 p4375 A69-42657

Plasma microinstabilities due to ion and electron anisotropic velocity distributions, considering frequencies near harmonics of ion cyclotron frequency
24 p4355 A69-42686

Air bubbles rise velocity and path in water based on time measurement of bubble traversing two light beams, describing electronic recording system
24 p4299 A69-42918

Equal velocity contour diagrams for interstellar matter emission and absorption study in Cassiopeia-Perseus region
24 p4384 A69-43050

Stars with motions greater than 100 km/sec perpendicular to galactic plane, tabulating data for CH, subdwarfs, cepheids and horizontal branch stars
24 p4386 A69-43348

Symmetry properties of Cameron-Martin-Wiener kernels in isotropic velocity field, applied to one dimensional model of incompressible turbulent flow
24 p4301 A69-43358

Velocity and pressure fields produced by deformable load carrying filament studied for unsteady gas motion past slender body with nonpotential external forces
24 p4246 A69-43483

Gas phase self induced pressure field and laminar velocity distribution of working fluid within closed heat pipe channels analyzed by momentum integral method [ASME PAPER 69-HT-22]
24 p4412 A69-43546

Supersonic viscous flow around sharp corner at various expansion angles, giving pressure distributions and velocity profiles role
24 p4247 A69-43555

Mean velocity and pressure fields in turbulent boundary layer on flat plate at Mach 2 investigated for ratios of mass flow [AIAA PAPER 68-129]
24 p4304 A69-43581

LF approximation in predicting unsteady aerodynamic forces affecting large aircraft stability, analyzing velocity potential of oscillating wings
24 p4250 A69-43729

Differential solar rotation noting strong quasi-kineticity effect on solar convective zone and rotation influence on viscosity tensor and rotation law
24 p4390 A69-43780

Earth rotation velocities nonuniformity according to astronomical observation data obtained from Universal Time and atomic time scales comparison
24 p4391 A69-43797

VELOCITY ERRORS

Interplanetary midcourse velocity correction schedules optimization, discussing timing equations modifications, mission simulation and role of earth based radar
21 p3766 A69-39646

HF vibrations effect on motion of gyroscopic linear acceleration integrator, showing additional error in flight vehicle acceleration measurements
22 p3946 A69-40253

Black Arrow third stage velocity increment vector accuracy, considering attitude errors due to spin-up and spring separation systems, separated stages interactions, light-up impulses, etc
23 p4209 A69-41301

Radial velocity errors in high dispersion astronomical spectrographs in terms of variable spectral shifts along plate produced by mirror surface irregularities
23 p4167 A69-42189

Stellar radial velocity measurement accuracy dependence on dispersion, spectrum and line width
24 p4386 A69-43347

VELOCITY MEASUREMENT

NT WIND VELOCITY MEASUREMENT

Laser Doppler velocity profile measurement at localized points in flow stream without disturbing flow
01 p0090 A69-10298

Crack growth in ceramics from velocity measurements on glass and sapphire as function of applied force, temperature and moisture environment
01 p0101 A69-10767

Gyro vibrator /angular rate measuring device/, discussing output signal and natural frequency dependence on moments of inertia
01 p0083 A69-11004

Fluidic acceleration sensor based on vibrating string principle, discussing design, suspension system, driving-oscillator circuit, beat frequency circuit and detection circuits
02 p0249 A69-12091

Velocity measurement and flow pattern determination of plane shock waves during passage through channel diaphragm
02 p0234 A69-12589

Mass velocity of detonation products of hydrogen-oxygen mixtures measured by simultaneously recording internal resistance and induced voltage in ionized medium
02 p0354 A69-12628

Fluid flow velocity measurements by optical device having trigonal rectangular glass prisms and microscope objective
03 p0427 A69-12969

High speed compression waves, rarefaction waves and gas interface regions position and velocity measurement in shock tube by sensing electrical impedance
03 p0428 A69-13104

Earth velocity through 3 K cosmic background radiation, measuring velocity by determining anisotropy of radiation
03 p0511 A69-13475

Optical signal frequency method for measuring velocity of fluid flow
04 p0598 A69-14995

Nondirectional probe for mean velocity measurement in turbulent flow, determining reduced velocity profiles in interior of free flow
04 p0600 A69-15056

Differential thermistor gauge using Wheatstone bridge for use in free molecule pressure probe measurement of macroscopic velocity in rarefied gases
04 p0601 A69-15117

Thin film heated Pt resistance thermometer for skin friction or velocity measurements in air, water or blood
04 p0601 A69-15118

Threshold signals and optimum signal parameters in radar range and velocity measurements
04 p0560 A69-15403

Trailing edge velocity and stagnation points for isolated and latticed airfoils using Zhukovskii and Weing transformations
05 p0697 A69-15880

Unsteady potential flow and wake near oscillating circular cylinder noting velocity, pressure and correlation measurements [ASME PAPER 68-WA/FE-23]
05 p0749 A69-16099

Vehicle motion parameters in Newtonian central force field determined, using geometrical structures devised from properties of velocity hodograph
05 p0765 A69-16686

Low range airspeed system /LORAS/ on X-22A and P 1127 VTOL aircraft for accurate airspeed information
05 p0767 A69-16774

Laser Doppler meter model interpreting output frequency in terms of particle crossing set of fringes
06 p0932 A69-16927

Particle velocity measuring technique for two phase turbulent flows, using laser and Fabry-Perot interferometer
06 p0933 A69-17252

Forward velocity of Bostick plasmoids demonstrated proportional to mean surge current through button source
06 p0964 A69-17480

Doppler shift measurements of axial and rotational velocities in MPD arc, using reference lines from iron arc [AIAA PAPER 69-110]
06 p0972 A69-18171

Angular velocity of rotation measurement using angular gas laser undergoing axial torsional vibrations
07 p1147 A69-18523

Rise velocity of large gas bubbles in liquid calculated, assuming velocity is determined by propagation of bubble produced wave disturbance
07 p1120 A69-18999

- Velocity measurement by combination of Doppler principle and schlieren method involving reflection, refraction or diffraction of laser beam
07 p1135 A69-19259
- Photographic measurement of parachute exit velocity during ejection from chute, describing electronic recording and unit operation with block diagram
08 p1317 A69-20875
- Velocity meter for precision adjustment of orbits of vehicles in space for long periods using digital integrating accelerometer
08 p1348 A69-21063
- Three dimensional laser Doppler velocity instrument for mean velocity and turbulence measurements in subsonic jet shear layer
[SAE PAPER 690266] 09 p1494 A69-21555
- Self oscillations in angular velocity sensor using electric spring and potentiometric pickup, examining friction moment and inductance coil effects
09 p1497 A69-22106
- Noninterfering instrumentation techniques to measure hypersonic flowfield parameters in wind tunnels, measuring flight time of pulsed laser generated spark for velocity
10 p1672 A69-23266
- Moving conducting media velocity measurement using Reynolds number and electrical conductivity values, based on magnetic field distortion
10 p1731 A69-23435
- Radar and photographic studies of meteors from Leonid and Perseid showers, presenting velocities, luminescence and ionization
10 p1783 A69-23895
- Spectral measurement of luminous trails produced by injecting high velocity submicron diameter iron particles into gaseous targets compared with meteor spectra
10 p1790 A69-24142
- Conventional and dual beam laser Doppler methods for velocity measurement of solids, liquids and gases
11 p1893 A69-24333
- Expansion velocity of discharge plasma in exploding wires measured by X ray flash and streak photography, noting discrepancy
11 p1926 A69-24472
- Distance vs time and velocity vs time measurements for high speed model missiles by means of laser interferometry and optical Doppler shift method
11 p1886 A69-25042
- Sandwich electrode for direction and magnitude measurement of velocity gradients at wall for flow around cylinder at high Reynolds numbers
11 p1872 A69-25132
- Shock wave structure in gas mixtures, discussing velocity and temperature undershoot and overshoot
11 p1874 A69-25356
- Transistorized tachometer for rotational speed measurement and overspeed protection of automotive internal combustion engines
12 p2090 A69-26240
- Laser Doppler particle sensor to measure velocities in rocket exhausts, using He-Ne laser light source and Fabry-Perot interferometer frequency filter
[AIAA PAPER 68-723] 12 p2094 A69-26783
- Laser Doppler method for measuring local particle velocities in two phase flows of liquid-metal MHD generators
13 p2260 A69-27476
- High velocity liquid lithium effect on structural materials for MHD power generators, discussing material loss
13 p2278 A69-27478
- Time of flight measurement for velocity of micron sized particles in two phase flow by light transmission method
13 p2263 A69-28243
- Coaxial three coil probe measuring local electrical conductivity and velocity in plasma streams, discussing operations in electrolytes and axisymmetric plasma stream
[AIAA PAPER 69-327] 13 p2313 A69-28264
- Radial velocities of southern OB stars and supergiants noting tabulation of information
14 p2519 A69-29368
- Ultrasonic pulse velocity and attenuation measurement in presence of noise, using coherent detection and signal averaging
14 p2449 A69-29564
- Turbulent boundary layer in corner, measuring velocities, wall shear and turbulent normal stresses by employing momentum integral and similarity analyses
14 p2431 A69-29576
- MHD properties of velocity measurement method using cylindrical glass filament probe and Pitot and Prandtl tubes
14 p2453 A69-29920
- Group delay time for dispersive wave propagation velocity determined using correlation method
15 p2562 A69-30094
- Correlated noise effect on accuracy of suboptimal servosystem velocity measurements from recording Doppler frequencies
15 p2567 A69-30341
- Radial velocities measuring tracking rate meter performance for Doppler frequencies, allowing for multiplicative noise
15 p2576 A69-30350
- Fluid flow velocity measurements by Doppler shift of laser light scattered from moving fluid, determining beat frequencies
15 p2616 A69-31291
- Acoustic velocities in polymethylmethacrylate measured as functions of frequency, temperature and pressure, comparing data obtained with equation of state high pressure determinations
16 p2825 A69-31695
- Shock attenuation and equation of state of polyurethane based on aquarium technique and free surface velocity measurement
16 p2828 A69-31810
- Axial velocities in ammonia MPD thrutor exhaust by measuring Doppler shifts of spectral lines emitted by plasma constituents
16 p2835 A69-31890
- Airstream parameters /temperature and velocity/ of turbulence intensity in jet core at tube exit and behind grids measured by He diffusion method
16 p2771 A69-31959
- Angel sources rate of motion observed at automatic tracking coherent pulse station, obtaining coincidence with wind and insect velocities
16 p2779 A69-32276
- Hot-wire anemometers calibration technique providing accurate and direct velocity measurements in slow moving liquids
17 p2971 A69-32901
- Fluid amplifier with sudden widening applied to various computer tasks, utilizing for detection and measurement of viscosity, temperature and sonic or rotational velocity
17 p2903 A69-33010
- Tachoheliograph /modified spectroheliograph/ for obtaining two dimensional solar velocity maps, discussing construction and theory of operation
17 p3030 A69-33061
- Mean rotational velocity of finite width gaseous ring in close binary system from rotational velocity measured on spectrograms
17 p3044 A69-34180
- Shock wave propagation in two types of electromagnetically driven shock tubes, describing probe for shock front velocity measurement
18 p3119 A69-34260
- Fluidic sensor for measuring gas and liquid velocities, describing design and principles of operation
18 p3133 A69-34308
- Radial velocity measurements with objective prisms and results in SA8
18 p3201 A69-35143
- Explosives parameters effect on metal sheet velocity during explosive welding, considering load density and explosive force
18 p3149 A69-35279
- Vibrarotor gyroscope operated as rate gyro for simultaneously indicating two components of angular velocity by amplitude and phase of periodic output signal
18 p3139 A69-35299
- Fraunhofer holography for measurement of three dimensional flowfield velocity components, investigating rectangular channel flow
19 p3305 A69-35729
- Holographic velocimetry data reduction applicable to flow field holograms, using singlet interference pattern for spherical and plane wave illumination
19 p3305 A69-35730
- Particle size, velocity and position in moving streams measured by tilted film plane optical system with pulsed light source
19 p3306 A69-35733
- Laser Doppler velocimeter /LDV/ for fluid velocity measurements, noting advantages
20 p3552 A69-37004
- Zeta Tauri shell spectrum radial velocity measurement results compared with extrapolated seven year curve by Delplace
20 p3599 A69-37471
- Irregular galaxy NGC 3077 with interstellar dust, measuring velocity field by spectroscopy
20 p3610 A69-38144
- Radial velocities recording inaccuracies by solar magnetographs caused by dissimilarity between photomultipliers characteristics, describing photometer designs to eliminate errors
20 p3547 A69-38308
- Cloud velocity computations from ATS 1 and 3 satellites spin-scan photographs for prediction of neph systems motion and thunderstorms
21 p3757 A69-38370
- Interferogram observations of central velocity of M 31 under constant rotational velocity assumption, noting galaxy inclination
21 p3797 A69-38481
- Velocity decay and heat transfer rates measurement in cylindrical wall jet formed by jet emerging through convergent nozzle
21 p3695 A69-38972
- Impulsive velocity correction determination method for precise stationkeeping of stationary satellite, discussing perturbations
[AIAA PAPER 68-456] 21 p3817 A69-39757
- Gas laser-Doppler radar system for moving materials velocity and length measurements in industrial processes
22 p3955 A69-40237
- Book on radial velocities and distances in southern Milky Way stellar fields, covering statistical study of star motions in Galaxy, instrumentation, procedures, etc
22 p4020 A69-40317
- Free stream velocity in high enthalpy arc heated wind tunnel by measuring imposed temperature modulation apparent phase shift, describing circuit diagrams
22 p3926 A69-40444
- Omicron Andromedae radial velocity measurements /1961-1966/ during normal B star periods
22 p4028 A69-40755
- High radial velocity matter of bright region near Trapezium in Orion Nebula, determining electron density lower limit and mean velocity
22 p4029 A69-40769
- Piston driven shock tube at Kyoto University with performance tests results, investigating compression processes, shock speed and flow duration time
22 p3928 A69-41046
- Radial velocity data monitored during Venera 4 descent used for determining vertical and horizontal atmospheric flows velocities
22 p4034 A69-41099
- Monograph on hot wire anemometer measurements of velocity and temperature turbulence, discussing flow characteristics, calibration, etc
22 p3951 A69-41256
- Stroboscope method for measuring pulsating flow transient velocity based on hot-wire chronometric recording of small ion clouds emitted during pulsation
22 p3951 A69-41257
- Spectroscopic azimuthal and axial measurement of jet velocity in MPD X9 rocket engine by spectrograph and Fabry-Perot interferometer
[DGLR-69-024B] 23 p4202 A69-41925
- Rocket engine plasma jet radial velocity measurement by induction-velometric method using moving probe
[DGLR-69-024C] 23 p4202 A69-41926
- Stellar radial velocity measurement accuracy dependence on dispersion, spectrum and line width
24 p4386 A69-43347
- Hot-wire anemometer calibration technique for measuring velocity of very slowly moving liquids
[ASME PAPER 69-HT-A] 24 p4316 A69-43527

VELOCITY MODULATION

- Electron bunching improvement by combined effect of space charge and inhomogeneous electrostatic field on velocity modulated electron flux in microwave devices
05 p0799 A69-15646
- Electron bunching improvement by combined effect of space charge and inhomogeneous electrostatic field on velocity modulated electron flux in microwave devices
16 p2823 A69-32503

VELOCITY POTENTIALS

- U FLOW DISTRIBUTION

VELOCITY PROBES

- U PITOT TUBES
U SPEED INDICATORS

VENERA SATELLITES

- Flight control system for automatic interplanetary stations /AIS/, comparing Venera series orientation and correction system to Mariner systems
10 p1792 A69-24198

Venus atmosphere optical properties on basis of Venera 4 data, proposing models for measured rotational temperature and subcloud atmosphere radiative equilibrium
13 p2345 A69-27691

Venus atmosphere physical properties and chemical composition, considering Venera 4 and Mariner 5 data
18 p3201 A69-35164

VENERA 4 SATELLITE

Magnetometric equipment on board Luna 10 and Venera 4 space stations for studying magnetic field in interplanetary space, describing circuit and metrological characteristics
01 p0080 A69-10582

Venus research, discussing Mariner 5 and Venera 4 data, radar tracking, orbit, diameter, gravity, density distribution, etc
08 p1391 A69-20456

Interplanetary magnetic field near Venus, analyzing data by magnetometer onboard Venera 4
10 p1791 A69-24199

Space research in U.S.S.R. including Venera 4 soft landing mission for measuring temperature, pressure, density and atmospheric composition of Venus
12 p2160 A69-26921

Magnetometric equipment on board Luna 10 and Venera 4 space stations for studying magnetic field in interplanetary space, describing circuit and metrological characteristics
15 p2610 A69-30752

Light refraction in Venusian atmosphere from Venera 4 probe measured data, noting horizontal rays traversing planet along circumference at 8.3 km height
19 p3427 A69-36625

Radial velocity data monitored during Venera 4 descent used for determining vertical and horizontal atmospheric flows velocities
22 p4034 A69-41099

VENTING

Personal cooling in inadequately air conditioned cockpits, considering dry air, air ventilated suits and liquid circulated tubes near skin
[AGARDOGRAPH-111] 08 p1267 A69-20684

Global characteristics and similarity of ventilated cavity flows by injecting air behind immersed profiles of symmetrical wedge at zero incidence
10 p1680 A69-23788

Hydrogen check valve with low cracking pressure and flow pressure drop for hydrogen vent system at Saturn launch pad
[AIAA PAPER 69-578] 16 p2845 A69-32738

Ventilation-perfusion inequality increase effects on lung overall gas exchange, using digital model
21 p3662 A69-38388

Ventilatory responses to hypercapnia and hypoxia in anesthetized and unanesthetized rabbits before and after bilateral cervical vagotomy
21 p3651 A69-38390

Lower body negative pressure /LBNP/ effects on ventilation and lung volumes, presenting lung model for pulmonary gas exchange changes
22 p3891 A69-40222

Oxygen consumption, ventilation and cardiac frequency relationship to body weight during submaximal exercise in normal human beings
23 p4099 A69-42169

VENTING

Simulation of two phase hydrogen venting to space environment, discussing thrust effect measurements, flow instabilities and instrumentation
15 p2701 A69-30396

Impingement pressure analysis associated with two phase cryogenic propellant venting to space environment
[AIAA PAPER 69-571] 16 p2869 A69-32753

Crater formation by gas erosion in vent of 4.3 kiloton nuclear explosion detonated at 280 ft depth in layered trachytic volcanic rocks
22 p3937 A69-40409

VENTRAL SECTIONS

Ventral posterolateral potentials in anesthetized immobilized cats in response to electric stimulation of mesenteric nerves and mechanoreceptors, studying thalamus nucleus role
12 p2020 A69-26562

Ventromedial hypothalamic /VMH/ lesions, body weight and food consumption changes in male and female rats, observing differential effects
17 p2910 A69-33756

Spinal cord temperature influence on stretch response of tonic and phasic alpha-motoneurons by filament recordings from ventral roots in anesthetized cats
23 p4098 A69-42099

Electrical stimulation effects of carotid sinus on sinus rate and atrioventricular conduction for vagi and sympathetic nerves interruption to heart in dogs
24 p4257 A69-42629

VENTS

Liquid helium vented and nonvented storage container design and handling techniques
10 p1810 A69-24016

VENTURI TUBES

Discharge coefficients for Herschel type smooth venturimeters, analyzing influence of transport coefficients, convergence angles and contraction ratios
02 p0250 A69-12414

Venturi meter with separable diffuser and radial outward step at transition from throat to diffuser, noting effect of step on efficiency
[ASME PAPER 68-WA/FM-2] 05 p0763 A69-16135

Venturi meter design, discussing effects of turbulent velocity fluctuations, hole size and internal geometry on differential pressure measurement
11 p1880 A69-24468

Venturi meter with separable diffuser and radial outward step at transition from throat to diffuser, noting effect of step on efficiency
[ASME PAPER 68-WA/FM-2] 14 p2447 A69-29447

Pressure losses in pipeline with venturi tube, calculating hydraulic resistance coefficient as function of structural parameters and pipeline length
15 p2612 A69-31180

Cavitation flow of water and ethyl alcohol in venturi tube, noting effect of varying vapor concentration and thermodynamic properties
21 p3696 A69-39101

Venturi low resistance flowmeter for ventilatory measurements during rest and exercise on humans, noting suitability for analog integrator computation of tidal volumes
22 p3894 A69-40979

VENUS [PLANET]

Venus atmosphere and radius measurements by Mariner 5, Venera 4 and radar, comparing values
01 p0157 A69-11197

Critique of paper on water crystal existence on Venus, presenting arguments against existence of clouds of micron sized ice crystals
01 p0157 A69-11292

Manned Mars and Venus missions role in overall planetary exploration program
02 p0324 A69-12304

Jupiter, Venus and Mars 8.6 mm radio emission, obtaining average disk brightness temperatures
02 p0327 A69-12716

Venus radius determined by planetary radar and Mariner 5 radio tracking data
03 p0508 A69-13348

Kepler third law application to radar determinations of astronomical unit of length in general relativity
04 p0657 A69-14698

Venus diameter determination from optical measurements, noting cloud layer height and height of suspended particles in upper atmosphere
05 p0818 A69-15621

Observations of Venus at 15.4 GHz establishing upper limit for brightness variation with phase angle
08 p1382 A69-19818

Venus research, discussing Mariner 5 and Venera 4 data, radar tracking, orbit, diameter, gravity, density distribution, etc
08 p1391 A69-20456

Venus and Jupiter observations by earth paraboloid antenna, discussing average brightness temperatures and upper limit for Venus water vapor abundance
09 p1600 A69-22206

Radiometric observations of Venus brightness temperature variation used to determine phase effect at 8.6 mm wavelength
10 p1773 A69-22959

Prolateness of Venus radius on basis of satellite microwave temperature measurements, chemical compositions and ice cap model
10 p1784 A69-23958

Venus and Jupiter low resolution UV spectra obtained with servocontrolled star tracking telescope on Aerobee rocket, noting Lyman alpha radiation characteristics
[JHU-TR-15] 10 p1788 A69-24121

Interplanetary magnetic field near Venus, analyzing data by magnetometer onboard Venera 4
10 p1791 A69-24199

Venus and Jupiter brightness temperature and radio emission at 2.25 and 8 mm wavelengths observed with radio telescope
11 p1956 A69-24396

Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 A from reflector observations
11 p1957 A69-24406

Space research in U.S.S.R. including Venera 4 soft landing mission for measuring temperature, pressure, density and atmospheric composition of Venus
12 p2160 A69-26921

Chemical composition of earth, Venus, Mars, Mercury and moon calculated from mathematical models, constructing approximate equations of state at high pressure
14 p2526 A69-29878

Planet Venus data from Venera 4, Mariner 5, radio astronomical and radar measurements
15 p2698 A69-31360

Venus microwave spectrum analyzed by comparing various thermal and nonthermal emission models, discussing surface temperature and atmospheric composition
16 p2853 A69-31597

Wavelength dependence of linear polarization of sunlight scattered by Venus, noting temporal variations in UV
16 p2860 A69-32236

Venus brightness and polarization distributions measurement at centimeter wavelengths using two element interferometer, suggesting Venus atmosphere as main source of radiation
18 p3191 A69-34302

Venusian cloud layer radius, discussing error in determination of occultation level height of Regulus by Venus
18 p3203 A69-35331

Dichotomy of Venus in eastern and western elongations, determining time of occurrence by graphical method
18 p3203 A69-35336

Mercury and Venus thermal histories based on analogy to earth models
20 p3597 A69-37333

Carbon dioxide band in Venus spectrum by dispersion analysis, deriving rotational temperature
20 p3614 A69-38254

Surface reflectivity mapping of Venus by radar interferometry at 3.8 cm, noting low reflectivity circular regions
21 p3806 A69-39331

Venus and Mercury diurnal period commensurability associated with Venus spin-orbit resonance with earth orbit
22 p4018 A69-40270

Venus and Jupiter brightness temperature and radio emission at 2.25 and 8 mm wavelengths observed with radio telescope
24 p4390 A69-43786

Venus albedo dependence on wavelength in UV spectrum between 4500 and 3200 A from reflector observations
24 p4391 A69-43796

VENUS ATMOSPHERE

Venus cloud layer thickness and lower boundary estimation from data on chemical composition, temperature and pressure profiles of atmosphere
01 p0152 A69-10580

Venus atmosphere and radius measurements by Mariner 5, Venera 4 and radar, comparing values
01 p0157 A69-11197

S-band radio occultation for probing atmospheres of Mars and Venus
[AAS PAPER 68-185] 02 p0311 A69-11470

Direct planetary atmosphere measurement by vehicles entering atmosphere, using Mars and Venus model atmospheres for accuracy expectation
[AAS PAPER 68-187] 02 p0311 A69-11472

Mariner 5 Venus Lyman alpha emission observations, noting atomic hydrogen and oxygen resonance radiation measurements and apparent presence of molecular hydrogen or deuterium
[AAS PAPER 68-220] 02 p0313 A69-11486

Buoyant station with science package designed for long duration missions with horizontal mobility in Venus atmosphere
02 p0333 A69-11745

Ablative heat shield materials for Mars and Venus atmospheric entries
02 p0333 A69-11750

Radiation heating characteristics of shock layer gases surrounding Venus entry vehicle, noting domination of carbon monoxide band and UV spectrum
02 p0351 A69-11751

- Collection of papers on atmospheres of Venus and Mars covering atmospheric models, light scattering, radio occultation experiments, etc
02 p0318 A69-12101
- Mars and Venus atmospheres, Martian atmosphere dynamics, Mars ionosphere and use of space probes
02 p0318 A69-12102
- Venus lower atmosphere noting graphically wide variation of surface pressure estimates
02 p0319 A69-12103
- Model spectra applied to carbon dioxide bands in Venus spectrophotometric measurements
02 p0319 A69-12107
- Venus microwave phase effect analyzed assuming dry massive Venus atmospheric model, discussing heat transfer processes
02 p0319 A69-12108
- Venus exospheric temperature for various composition models, discussing carbon dioxide concentration effects
02 p0319 A69-12109
- Atmospheric circulation on rotating and nonrotating planets with shallow atmospheres applied to Mars and Venus atmospheres
02 p0320 A69-12110
- Venus UV photographs and drawings shown in short interval sequences, noting left to right shift in cloud features
02 p0320 A69-12111
- Radio occultation measurements of Venus and Mars atmospheres using Mariner spacecraft
02 p0320 A69-12115
- Photoelectron energy loss mechanisms in planetary atmospheres, considering possible constituents in Mars and Venus upper atmospheres
02 p0321 A69-12118
- Venus atmospheric structure from surface to 20,000 km radial distance from Mariner 5 radio experiments, noting large mass-2 hydrogen component in upper atmosphere
02 p0330 A69-12802
- Venus atmosphere from Mariner 5 and Venera 4 data, discussing surface temperatures and pressures, cloud top region, McElroy model and maximum wind velocities
02 p0330 A69-12803
- Mission requirements influence on aerothermodynamic environment for vehicle entering Venus atmosphere, considering different entry modes
02 p0332 A69-12823
- Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry
[AIAA PAPER 68-1148] 03 p0412 A69-13672
- Venus brightness temperature between 0.75 and 1.65 cm from radio emission measurements, taking into account water vapor in Venus atmosphere
04 p0658 A69-14960
- Heated liquid mercury rotation rate and direction counter to rotating bunsen flame related to Venus cloud formations high velocities
04 p0664 A69-15466
- Venus observation at 4.52 cm showing 654 K mean brightness temperature, negligible phase variation and polarization indicates thick atmosphere
05 p0818 A69-15601
- Venus and Mars atmosphere structure, comparing Venus atmosphere model with Mariner 5 observations
05 p0824 A69-16248
- Lyman-alpha observations of Venus by Mariner 5 analyzed, assuming resonance scattering of flux by hydrogen or deuterium atoms in Venus atmosphere
05 p0815 A69-16255
- Terminal velocities of dust particles for two Venus atmospheric models from Mariner 5 and Venera 4 data, obtaining vertical wind velocity requirements
06 p1001 A69-17172
- Venusian atmosphere model developed from satellite and earth based radar data for environmental criteria in spacecraft design and mission planning
[AIAA PAPER 69-51] 06 p1011 A69-18096
- Terrestrial and Cytherean atmospheres evolution based on gray atmosphere model, surface energy budget and partition of water and carbon dioxide
07 p1213 A69-18608
- Visible radiation scattering around Venus spherical atmosphere computed on basis of Venus 4 and Mariner 5 data
07 p1213 A69-18609
- Recombination mechanism between CO and O produced by photodissociation of carbon dioxide in upper atmosphere of Venus and Mars
07 p1214 A69-18615
- Ozone distribution in Venus atmosphere measured by Soviet space probe Venera 4
08 p1382 A69-19887
- Monte Carlo method for calculating atomic hydrogen escape rate from carbon dioxide atmosphere, considering Mars and Venus atmospheres
08 p1386 A69-20076
- Mars and Venus atmospheric properties, noting influence of biosphere and human activity on earth atmosphere
08 p1408 A69-21160
- Nighttime Venus ionosphere models compared with Mariner 5 observations, discussing implications with regard to He and H abundance consequences and nightglow
09 p1594 A69-21695
- Deuterium escape in Venus upper atmosphere to explain anomalous Lyman-alpha glow observed by Mariner 5
[SRCC-91] 09 p1594 A69-21696
- Test of Velikovsky theory for dense hydrocarbon clouds and dusts surrounding Venus, using IR reflection spectra
09 p1608 A69-22566
- Venus atmosphere origin, discussing high temperature effects and chemical composition via space probe and terrestrial observations
10 p1775 A69-23183
- Venus atmosphere radial mass velocities measured spectrographically with Fabry-Perot interferometer, noting retrograde rotation
10 p1778 A69-23409
- Venus atmosphere observations compared with Venera 4 measurements of temperature, pressure and carbon dioxide content
10 p1791 A69-24200
- Radio astronomical observations of Venus atmosphere interpreted noting agreement with model based on Venera 4 data
10 p1791 A69-24202
- Chemical composition of Venusian atmosphere by Mariner and Venera satellites, comparing upper atmospheres of Venus and earth
11 p1960 A69-24971
- D/H ratio in Venus exosphere, discussing isotopic fractionation mechanisms and Lyman alpha data from Mariner 5
11 p1962 A69-25145
- Venus and Mars atmospheric braking entry and associated equipment, discussing potential cost savings
11 p1968 A69-25722
- Surface dielectric constant and microwave opacity of Venus atmosphere as function of wavelength determined by radar observations
12 p2153 A69-25805
- Venus brightness temperatures vs phase angle to define spectra of day and night face at short wavelengths, using model atmosphere
12 p2153 A69-25806
- Atmospheric models for exospheric temperatures of Mars and Venus based on photoionization heating efficiency
12 p2155 A69-26020
- Venus atmosphere chemical composition, surface temperature and pressure obtained by Venera 4 and Mariner 5
12 p2155 A69-26129
- Venusian upper atmosphere dissociation and ionization, considering photochemical and dynamic processes and molecular, eddy and ambipolar diffusions
13 p2344 A69-27643
- Venus carbon dioxide spectral band analysis methods, discussing spectral lines and rotational temperatures obtained
13 p2344 A69-27649
- Venusian water vapor spectroscopic data indicating longitudinal and time dependent variations in abundance
13 p2345 A69-27650
- Venusian atmospheric model based on Venera 4 measurements, calculating probe distance travel, temperature, density and pressure profiles
13 p2345 A69-27688
- Venusian atmospheric pressure and temperature measurements by Venera 4 probe, noting agreement with Mariner 5 observations
13 p2345 A69-27689
- Greenhouse effect in Venusian atmosphere, discussing cause of vertical temperature distribution established by Venera 4 probe
13 p2345 A69-27690
- Venus atmosphere optical properties on basis of Venera 4 data, proposing models for measured rotational temperature and subcloud atmosphere radiative equilibrium
13 p2345 A69-27691
- Microwave propagation in Venusian atmosphere, analyzing refraction angles, attenuation and field strength fluctuations
13 p2223 A69-28567
- Venus cloud layer thickness and lower boundary estimation from data on chemical composition, temperature and pressure profiles of atmosphere
15 p2691 A69-30750
- Radio wave absorption by water vapor in Venusian and Martian atmospheres, constructing model from Venera 4 data
15 p2569 A69-30952
- Carbon atoms presence in Venus upper atmosphere from Venus spectrum obtained by Aerobee rocket experiment
15 p2698 A69-31341
- Earth based microwave data revealed isothermal layer in extrapolating Venus atmospheric profile below region probed by Mariner 5 and Venera 4
16 p2852 A69-31553
- Spectroscopic observations of Venus atmosphere rotational temperature based on carbon dioxide band at 7883 A
16 p2852 A69-31563
- Venus atmosphere carbon dioxide content origin from interior degassing during molten phase, using atmospheric model
16 p2857 A69-32098
- Wavelength dependence of polarization of sunlight scattered by Venus atmosphere, including Rayleigh and Mie scattering mechanisms
16 p2860 A69-32237
- Visual ashen light observation on Venus possibly attributable to solar particle bombardment from dark side emission detection by spectroscopic and photometric studies
16 p2861 A69-32300
- Cloud scattering corrections added to synthetic spectrum analysis of carbon dioxide bands and water vapor line in Venus spectrum
17 p3032 A69-33161
- IR reflection spectra agreement for frost particles and Venus clouds, noting ice as clouds constituent
18 p3190 A69-34282
- Venus brightness and polarization distributions measurement at centimeter wavelengths using two element interferometer, suggesting Venus atmosphere as main source of radiation
18 p3191 A69-34302
- Earth ecosystem chemical composition compared with Mars and Venus ecosystems to determine presence of life
18 p3193 A69-34361
- Venus brightness temperature between 0.75 and 1.65 cm from radio emission measurements, taking into account water vapor in Venus atmosphere
18 p3197 A69-34723
- Venus atmosphere physical properties and chemical composition, considering Venera 4 and Mariner 5 data
18 p3201 A69-35164
- Venusian atmospheric features obtained from Venus 5 and 6 and Mariner 5 observations, indicating extremely high temperatures and pressures
19 p3401 A69-35840
- Light refraction in Venusian atmosphere from Venera 4 probe measured data, noting horizontal rays traversing planet along circumference at 8.3 km height
19 p3427 A69-36625
- UV solar radiation variation effects on Mars and Venus upper atmosphere temperatures
20 p3595 A69-37136
- Photodissociation of diatomic hydrogen by solar radiation for Venus atmosphere investigation, considering H atoms production rate by Stecher-Williams process
20 p3609 A69-38102
- Structure, composition and temperature of Venus atmosphere from spacecraft measurements and ground based observations
20 p3614 A69-38256
- Nongray greenhouse model of Venus atmosphere possessing IR opacity due to carbon dioxide, water and diatomic N compatible with Mariner 5 and Venera 4 results
20 p3615 A69-38259
- Venus atmosphere structure determined from Mariner 5 flyby S band radio occultation measurements of ionosphere and atmosphere at illuminated and dark sides
21 p3794 A69-38380
- Venus magnetosphere induced by piling up magnetic field from solar wind due to ionospheric conductivity and collisions with planetary atmospheric particles
21 p3794 A69-38381

Venus, Mars and Jupiter lower atmospheric motions, considering atmospheres thermal and chemical composition

21 p3811 A69-39511

Buoyant Venus Station balloon for deployment and inflation during parachute descent into Venus at atmosphere tested with scale model balloons in wind tunnels [AIAA PAPER 69-1017]

22 p3922 A69-40389

Rocket UV spectra indicating Venus atmosphere weak absorption and low ozone abundance and possible Jupiter surface depressions

22 p4028 A69-40661

Radial velocity data monitored during Venera 4 descent used for determining vertical and horizontal atmospheric flows velocities

22 p4034 A69-41099

Venus atmosphere and clouds exploration by entry probes, discussing ground temperature, greenhouse model, cloud layer, etc

23 p4216 A69-42201

Atmospheric gas composition effects on shock layer radiative heat transfer and heat shield response in Venus entry simulated by earth reentry [AIAA PAPER 68-1148]

24 p4394 A69-43248

VENUS PROBES

NT MARINER 1 SPACE PROBE

NT MARINER 2 SPACE PROBE

NT MARINER 5 SPACE PROBE

NT VENERA SATELLITES

NT VENERA 4 SATELLITE

Soviet lunar and planetary probes, reviewing payload characteristics, principal mission features and photographs associated with Luna, Mars, Venera and Zond series

01 p0162 A69-10938

Buoyant station with science package designed for long duration missions with horizontal mobility in Venus atmosphere

02 p0333 A69-11745

Radiation heating characteristics of shock layer gases surrounding Venus entry vehicle, noting domination of carbon monoxide band and UV spectrum

02 p0351 A69-11751

Mars and Venus probes antenna problems in environments of near earth space, deep space and nonearth planetary atmospheres

02 p0223 A69-12811

Two dimensional representation of Venus entry probe target data for determining probe capability to provide real time data transmission to earth

02 p0331 A69-12820

Plasma flux measurements by charged particle traps in Venus vicinity by space vehicle Venera 4, discussing low concentration of charged particles

07 p1222 A69-19613

Venus atmosphere origin, discussing high temperature effects and chemical composition via space probe and terrestrial observations

10 p1775 A69-23183

Planet Venus data from Venera 4, Mariner 5, radio astronomical and radar measurements

15 p2698 A69-31360

Scientific space research program /1968-1978/ outlining advanced lunar orbiter and Mars, Venus and Mercury probes

18 p3193 A69-34360

Venusian atmospheric features obtained from Venus 5 and 6 and Mariner 5 observations, indicating extremely high temperatures and pressures

19 p3401 A69-35840

Mission analysis for 1972 Venus launch opportunity, discussing launch period selection and trajectory constraints for Atlas/Centaur vehicle [AAS PAPER 68-135]

21 p3805 A69-39208

Manned flyby and stopover missions to Mars and Venus with chemical propulsion and Saturn 5 launch vehicles, noting short duration low energy missions [AAS PAPER 69-492]

24 p4380 A69-42839

Mariner-Mercury 1973 flyby mission using Atlas-Centaur rocket and gravity-assisted maneuvers, discussing encounter geometries, spacecraft configuration and Venus probe considerations [AAS PAPER 69-288]

24 p4381 A69-42862

VENUS RADAR ECHOES

Backscattering diagram of Venus at 40 cm determined from Doppler spectrum and reflected signals range energy distribution

02 p0314 A69-11639

Roughness effect on microwave emissivity according to geometric optics with application to moon and Venus

02 p0207 A69-12017

Radar round trip time of flight measurements to Venus for three month interval about inferior conjunction of August 1968

04 p0663 A69-15384

Venusian atmosphere model developed from satellite and earth based radar data for environmental criteria in spacecraft design and mission planning [AIAA PAPER 69-51]

06 p1011 A69-18096

Scattering characteristics of planet Venus at 3.8 cm wavelength, discussing frequency power spectra and radar cross section

13 p2349 A69-27818

VERBAL COMMUNICATION

Oxygen-helium cabin atmosphere effect on speech communication analyzed during simulated space mission

07 p1066 A69-19420

Noise level criteria for acceptable voice communications in office environment, noting acclimatization

11 p1830 A69-24797

Isolation of scientific and technical personnel and effect on lateral communication and intellectual cross fertilization in research and development program

11 p2004 A69-25303

Dynamic Automated Reporting Technique /DART/ system for on-line conversational information storage and retrieval for use in large programs management

18 p3107 A69-35095

VERNIER ENGINES

Vernier motor for Europa 1 rocket third stage, discussing component design, system performance and fuel composition

17 p3018 A69-33328

Pneumatic Vernier engines in aircraft and spacecraft, discussing weight, gas expansion and gas temperature

21 p3785 A69-39093

VERTEBRAL COLUMN

Vertebral column fracture resulting from aircraft ejection, studying ejection seat geometry and personal equipment design influence on spinal curvature relation to catapult thrust

23 p4102 A69-41681

VERTEBRATES

NT BABOONS

NT BIRDS

NT CATS

NT CHICKENS

NT CHIMPANZEES

NT DOGS

NT FISHES

NT FROGS

NT GROUND SQUIRRELS

NT GUINEA PIGS

NT HAMSTERS

NT HOMEOTHERMS

NT HUMAN BEINGS

NT LIZARDS

NT MAMMALS

NT MICE

NT MONKEYS

NT PIGEONS

NT POCKET MICE

NT RABBITS

NT RATS

NT RODENTS

NT TURTLES

S-RETIC vertebrate command model, discussing computer simulation of reticular formation Golgi anatomy capable of habituation, conditioning, extinction, generalization and error discrimination

24 p4273 A69-42910

VERTICAL AIR CURRENTS

Thermodynamics of nonadiabatic vertical ascent of overheated individual air volumes in stably stratified atmosphere

02 p0274 A69-11441

Wind perturbations characteristics near large convective cloud banks as function of ascending current, wind shear and turbulence

02 p0274 A69-11446

Radiative heat loss effect on atmospheric cellular convection, analyzing critical Rayleigh number and width to height ratio of cells

02 p0276 A69-12776

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence

03 p0458 A69-13270

Planetary Rossby waves vertical propagation through weak westerly wind wave guides, using adiabatic linear model

03 p0460 A69-13335

Eddy diffusivity in planetary boundary layer determined by vertical velocity spectrum

03 p0460 A69-13338

Environmental temperature and water vapor increases associated with ascending thermals estimated by penetrative convection

03 p0460 A69-13340

Maximum downwind and crosswind vertical wind shear in boundary layer, noting effect on swept wing jet aircraft landing

06 p0951 A69-17790

Vertical ionospheric motions near magnetic equator measured by Doppler shifts of incoherent scatter frequency spectra

09 p1489 A69-21704

Vertical air flow asymmetrical distribution ascribed to cyclone motion and thermal inhomogeneity by studying spiral cloud configurations in cyclone area

11 p1912 A69-24825

Nightglow intensity variations at sunspot minimum from measurements in South West Africa, considering relationship to ionospheric vertical movements and density variations

12 p2066 A69-26133

Atmospheric boundary layer mean turbulence and vertical velocity calculations, tabulating layer characteristics for various turbulent heat flux and geostrophic wind velocity values

12 p2126 A69-26578

Vertical air motions and cloud behavior relationship based on statistical analysis of TV cloud pictures from Cosmos 122 satellite

13 p2291 A69-27724

Cellular convection in horizontal gas layer analyzed for causes of vertical air circulation and effect of vertical temperature profile

13 p2291 A69-27725

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence

14 p2471 A69-28778

Vertical wind effects in atmosphere on 5577 A radiance, showing dependence on atomic oxygen density

16 p2778 A69-32185

Low level jet stream near meso-low on stationary front in Japanese rainy season analyzed from radar echoes, noting appearance of vertical current

16 p2809 A69-32601

Atmospheric ozone distribution as function of photochemical reactions, advection and vertical motions

16 p2787 A69-32643

Kinesonde radio sounding system for three dimensional ground observations of E region microstructure and vertical motion of neutral air and ions

18 p3125 A69-34250

Magnetic declination effect on F 2 layer critical frequency diurnal variations attributed to vertical ionospheric drift due to neutral air winds

18 p3126 A69-34256

Vertical air velocity in rain measured for size distribution of drops, using relation between drop fall rate and diameter

18 p3104 A69-35342

Vertical atmospheric motions, considering wind velocity measurements associated with synoptic processes

19 p3366 A69-36673

Midlatitude thermosphere vertical air motions to balance divergence and convergence caused by large scale horizontal wind systems

21 p3714 A69-38553

Friction and orography effects on vertical currents in planetary boundary layer and numerical forecasting of baric field

21 p3758 A69-38837

Lower ionosphere vertical wind velocity profiles determined from rocket-released grenade glow cloud photographs, developing cloud buoyancy effect empirical model

23 p4154 A69-41305

VERTICAL DISTRIBUTION

NT STAR DISTRIBUTION

Lunar tidal effects on F 2 critical frequency and height maximum, evaluating variations with altitude

01 p0063 A69-10424

Ionospheric inhomogeneities vertical and latitudinal distributions and diurnal variations, measuring Explorer 22 signals Faraday fading with space diversity reception

01 p0064 A69-10446

Topside ionosphere average height distributions of electron density and geomagnetic field intensity from Alouette 2 data over Japan, noting ionic composition

01 p0065 A69-10548

Vertical wind profiles and electron density profiles in E region, determining time dependence and ionization drift velocity

01 p0072 A69-11172

- Midlatitude sporadic E layer vertical and horizontal structure and statistical properties, discussing theory of ion concentration by wind shear
01 p0073 A69-11177
- Lower thermosphere neutral composition diurnal variations, noting molecular N and O, Ar, He and atomic O
01 p0076 A69-11231
- Algorithm for N/h/ ionospheric profiles calculations using both x and o magnetoionic components, taking into account interlayer and underlying ionization influence
02 p0239 A69-11687
- Three term formula for describing vertical wind velocity distribution in upper boundary layer of atmosphere, taking into account friction and orography effects
02 p0240 A69-11708
- Seasonal mean vertical ozone distributions obtained with electrochemical ozone sondes over southeastern Australia
02 p0276 A69-12696
- Optical ozone radiosonde for vertical distribution analysis, using weak absorption of Chappuis bands
02 p0251 A69-12761
- Vertical atmospheric turbidity distributions of haze and water vapor, noting effect of variations on scattering and absorption determination
02 p0277 A69-12777
- Solute vertical stabilizing gradient inhibition of thermal convection of fluid layer under temperature gradient, discussing effects on two dimensional flows motion
03 p0532 A69-13012
- Aircraft high level cloud data to estimate vertical distribution of cirriform clouds and tropical tropopause levels on airline routes
03 p0458 A69-13032
- Ekman-Okkerblom problem for electrically conducting atmosphere located in external magnetic field, obtaining altitude distribution for wind velocity components
03 p0461 A69-13510
- Fast neutron fluxes at various atmospheric levels and geomagnetic northern midlatitudes measured by proportional counters using boron trifluoride
03 p0501 A69-13528
- Satellite drag data to determine upper atmospheric composition according to density distribution with height
03 p0423 A69-13532
- Mathematical dipole model for geomagnetic field to provide main magnetic field source distribution within earth
03 p0424 A69-13543
- Approximate method for calculating vertical velocity distribution in atmospheric braking of bodies along ballistic trajectories
04 p0541 A69-14485
- Stationary vertical distribution of weightless radioactive substance in surface air layer, accepting two layer exponent law for vertical turbulent diffusion coefficient
04 p0593 A69-15091
- Lunar tide effect on height distribution and velocity of ionospheric electron density daily variations near magnetic equator
05 p0756 A69-16401
- Vertically moving ionized formations relation to solar and magnetic activity
06 p0920 A69-17730
- Vertical ozone distribution in upper atmosphere from satellite measurements of UV solar radiation scattering by solving integral Laplace equation
06 p0996 A69-17733
- Long wave radio stations field intensity spectral analysis data evaluated to determine vertical ionospheric displacements at sunset and sunrise
06 p0922 A69-17752
- Vertical distribution of ascending long wave radiation, employing actinometric radio sondes
06 p0953 A69-17990
- Radiative transfer equation for pure molecular scattering inverted for estimating vertical ozone distribution
07 p1126 A69-19042
- Lunar depth-profiles of conductivity, dielectric constant and magnetic permeability from radar, radiothermic and magnetic measurements, discussing lunar models
07 p1216 A69-19221
- Measurement bases in general, discussing theoretical data justifying ground level base and measurements results
07 p1136 A69-19516
- Linearized model for vertical propagation of Rossby waves through atmosphere with Newtonian cooling, discussing atmospheric wind effects
08 p1344 A69-19812
- Double diurnal oscillation of atmospheric pressure and vertical gradient of electromagnetic field, noting agreement between diagrams and role of atmospheric tides
08 p1306 A69-19866
- Ozone distribution in Venus atmosphere measured by Soviet space probe Venera 4
08 p1382 A69-19887
- Seasonal maximum ozone concentration variations, discussing vertical ozone distribution
08 p1307 A69-20260
- Linear perturbation theory to predict instability threshold conditions caused by electric field in poorly conducting liquid subject to vertical temperature gradient
08 p1352 A69-20790
- Vertical transport rate of charged particles in F region, allowing for vertical velocity gradients
09 p1485 A69-21529
- Temperature profiles variability for data obtained by rocketsonde thermistors launched with small time and spatial separation
09 p1494 A69-21644
- Influence function for vertical wind profile from pressure gradient field
09 p1536 A69-21867
- Stratospheric dust, discussing terrestrial and meteoritic origins, volatility of particles smaller than few microns, and light scattering and direct sampling measurements
09 p1608 A69-22689
- Graphs of ionospheric measurements by vertical incidence sounding during Antarctic expedition, describing instrumentation and sounding techniques
10 p1681 A69-23315
- Stratified atmosphere mean vertical flux due to ground disturbances, obtaining results for various wind and temperature profiles
10 p1685 A69-23856
- High altitude balloon measurements of secondary gamma quanta intensity vertical distribution, using scintillation counter with CsI/Tl crystal
10 p1770 A69-23924
- Hourly N/h/ profiles of F region calculated from nomograms by normal integral method during magnetic disturbance, measuring region temperature
10 p1687 A69-23928
- Molecular reaction rates and ion/electron vertical profile and concentrations in equatorial ionosphere, applying computer simulation to numerical solution of continuity equations
10 p1688 A69-23929
- Ionospheric molecular ion concentration vertical profile analysis for verifying neutral gas temperature maxima in connection with two ion production maxima
10 p1688 A69-23930
- Atmospheric density analyzed on basis of photographic observations of meteors, comparing vertical profile with CIRA profile
10 p1688 A69-23936
- Finite difference method for calculating lee waves incident on obstacle with arbitrary vertical distribution of main flow horizontal velocity and temperature
10 p1722 A69-23967
- Ionospheric irregularities drift and anisotropy parameters variation with true reflection height during magnetically disturbed conditions
10 p1659 A69-24062
- Computerized autocorrelation function analysis of radioactivity distributions in atmosphere at different altitudes, showing no correlation between values
11 p1945 A69-24320
- Wind velocities statistical properties at various altitudes, noting linear regression of orthogonal components and prediction of wind velocities at all altitudes
11 p1911 A69-24694
- Vertical air flow asymmetrical distribution ascribed to cyclone motion and thermal inhomogeneity by studying spiral cloud configurations in cyclone area
11 p1912 A69-24829
- Radar backscatter and rocket profiles of ionospheric electron temperature, noting agreement in daytime flight measurements
11 p1951 A69-25162
- Time and altitude distribution of wind zonal components over Fernando Noronha Island off Brazilian coast, discussing tropospheric pattern
11 p1913 A69-25204
- Carbon dioxide concentration in upper troposphere and lower stratosphere recorded during commercial aircraft flights over polar route
11 p1879 A69-25254
- Stratospheric aerosol attenuation factor vertical distribution statistical structure, tabulating normalized correlation matrices, eigenvectors and eigenvalues
12 p2125 A69-25956
- Semiannual density variations in thermosphere and exosphere as function of mixtopause height variations
12 p2064 A69-26012
- Focusing factor in stratified medium with refractive index depending exponentially on height
12 p2029 A69-26100
- Molecular O and total number densities between 70 and 120 km determined with rocket measurements of atmospheric absorption of solar UV and X rays
12 p2065 A69-26106
- Photographic emulsion layers depth dependence of darkening curve, modulation transfer function and granularity, determining properties by enzymatic and electrolytic treatments
12 p2089 A69-26196
- Satellite 1968-5A orbit analyzed for atmospheric density at 140-180 km, noting semiannual variation
12 p2066 A69-26229
- Spherical wave propagation in homogeneous turbulent medium, discussing nonstationary statistics as applied to vertical propagation in atmosphere
12 p2029 A69-26251
- Mean vertical moisture profile for summer and winter midlatitude stratosphere from Soviet radiosonde data
12 p2070 A69-26582
- Height and temperature vertical variability in mid and upper stratosphere determined from constant pressure charts /1964-1966/
13 p2290 A69-27637
- Greenhouse effect in Venusian atmosphere, discussing cause of vertical temperature distribution established by Venera 4 probe
13 p2345 A69-27690
- Cellular convection suppression by parallel vertical thermally conducting walls inserted into bottom-heated fluid, analyzing effect on critical Rayleigh number
13 p2374 A69-27782
- Vertical wind velocity profiles approximation accuracy determined by linear, exponential and logarithmic functions of altitude during ice and frost
13 p2293 A69-27846
- Temperature vertical profiles rms deviations calculated from temperature measurements during unstable atmospheric stratification
13 p2293 A69-27847
- Electric field profile and turbulence ratio relation-ship in free atmosphere as function of vertical current density, conductivity, potential gradient and charge density
13 p2295 A69-28523
- Lower ionospheric homonuclear O combinations nonequilibrium processes by simplified balance equations, determining height distributions and ozone concentration
13 p2255 A69-28542
- Algorithm for N/h/ ionospheric profiles calculations using both x and o magnetoionic components, taking into account interlayer and underlying ionization influence
13 p2258 A69-28718
- Ionograms in vertical depletion duct in horizontally stratified isotropically refractive plasma, considering vertical propagation and ray paths traces dependence on electron concentration
14 p2434 A69-28945
- Ionograms for nonmonotonic vertical distribution of electron concentration in ionosphere from rocket and ground sounding
14 p2437 A69-29071
- Magnetovariational sounding procedure for determining vertical distribution of earth mean electrical conductivity using geomagnetic field spatial derivatives for spherical earth
14 p2438 A69-29081
- Electron and ion temperatures height variations in sporadic E layers, noting effects of neutral gas temperature changes
14 p2440 A69-29127
- Atomic hydrogen vertical profiles with increased high-low altitude ratio for interpreting observations of thermospheric and exospheric hydrogen abundance
14 p2440 A69-29130
- Jet stream vertical wind shear chart construction for aircraft with gas turbine propulsion
14 p2473 A69-29730

Stratospheric turbulence producing bumpiness up to 18 km developing at levels characterized by abrupt changes in vertical temperature gradients
14 p2474 A69-29737

Hydrogen Lyman alpha nightglow models, discussing solar photon scattering in geocorona and hydrogen vertical distribution
15 p2595 A69-30191

Wind velocity fluctuations calculation in CAT based on closed equations numerical solution for turbulent layers in upper troposphere
15 p2649 A69-30649

Ozonosphere inhomogeneities from UV spectra of reflected solar radiation, studying latitude dependence of seasonal behavior at different heights
15 p2597 A69-30894

Vertical ozone profiles computed from known total ozone data based on profiles taken by Umkehr method
15 p2597 A69-30896

Ozone soundings data obtained over Australia and Colorado to obtain vertical picture of synoptic climatology of ozone at midlatitudes
15 p2649 A69-30898

Photometric rocket measurements in hydrogen auroras, finding vertical H beta emission profile estimate of proton energy spectrum for H beta production cross section
15 p2598 A69-31307

Air density at various heights determined from analysis of satellite low perigee orbits, discussing periodic density variations and correlation with daily geomagnetic index
15 p2599 A69-31348

Time variation of altitude distribution of cosmic dust layer in upper atmosphere by Pandora II collector using inflight shadowing technique
15 p2698 A69-31353

Wintertime short term density variability in upper atmosphere obtained from rocket measurements
15 p2601 A69-31374

Sporadic E layer nighttime electron density profiles obtained by Langmuir probe equipped sounding rockets
15 p2603 A69-31398

Spectrometric rocket measurements of ion concentrations between 200 and 630 km
16 p2774 A69-31974

Vertical incidence pulse dispersion with application to Alouette 1, discussing echo width, sounder system bandwidth and frequency gradient of ionospheric virtual height
16 p2750 A69-31977

Ion, electron and neutral temperatures from ion composition distribution, assuming no change in vertical distribution within horizontal distance between upleg and downleg measurements
16 p2849 A69-31990

Nighttime decreases in F 2 layer heights at near conjugate stations in low latitudes, using electron density profiles
16 p2778 A69-32186

Virtual temperature change with respect to height of saturated air rising during water vapor condensation, discussing actual temperature and precipitation factor
16 p2808 A69-32454

Geomagnetic normal field of vertical component for Central Europe, discussing influence of local factors on observational data
16 p2782 A69-32461

Vertical transport rate of charged particles in F region, allowing for vertical velocity gradients
16 p2783 A69-32524

Atmospheric ozone distribution in meridional plane including time effects of photochemistry, advection and turbulence assuming zonal symmetry
16 p2785 A69-32624

Vertical ozone distribution from emission and absorption in 9.6 μ band determined during IGY in Switzerland
16 p2785 A69-32625

Ozone vertical distribution variations over India observed by Brewer electrochemical ozonesonde, noting effects of dry and monsoon seasons
16 p2786 A69-32627

Horizontal and vertical ozone distributions synoptic study, comparing soundings made on both sides of Atlantic
16 p2786 A69-32628

Weather forecasting correlation between atmospheric ozone vertical profiles and postsounding ground meteorological situation, describing computer data processing
16 p2786 A69-32629

Vertical ozone distribution determination discrepancies between Brewer-Mast electrochemical sonde and Umkehr methods, discussing influence of seasonal and diurnal variations
16 p2786 A69-32630

Simultaneous Umkehr observations of vertical ozone distribution in upper stratosphere using two Dobson photometers, discussing deviations due to calibration sensitivity
16 p2786 A69-32631

Statistical analysis of Brewer-Mast electrochemical soundings of vertical ozone distribution for developing computer programs of climatological behavior
16 p2786 A69-32632

Ozone probe network data by Brewer-Mast electrochemical instruments, discussing vertical ozone distribution near Zurich
16 p2787 A69-32635

Optical probe for determining ozone vertical distribution at high altitudes, discussing optical method requirements and ozonesonde construction
16 p2792 A69-32637

Atmospheric optical density vertical distribution curves in near UV from spectrophotometer data of Echo type satellites entry into earth shadow
16 p2787 A69-32638

Ozone soundings in upper stratosphere, discussing vertical temperature profiles relationship to vertical ozone profiles
16 p2787 A69-32640

Ozone vertical distribution in upper stratosphere determined from OGO 4 observations, describing calibration of satellite data and onboard instrumentation
16 p2788 A69-32645

Vertical atmospheric pressure distribution measured directly with Pirani-Israel gauge in Skylark rocket, transforming dynamic pressure data into static pressures on ground
17 p2971 A69-33037

Nonlinear least squares optimization program applied to atmospheric temperature sounding, solving for temperatures at various altitudes from simulated carbon dioxide intensity measurements
17 p2960 A69-33156

Atmospheric stability influence on vertical spectra of refractive index and air velocity deduced from beam swinging experiments and compared with radiosondes data
17 p2960 A69-33157

Aircraft measurements and computer calculations of downward and upward solar radiation fluxes related to albedo, altitude and sun angle
17 p3023 A69-33158

Vertical structure concepts for air density, wind and sound velocity profiles in rocket climatology, discussing vertical relationship of wind shear statistics
17 p3000 A69-33794

Vertical distribution of ionospheric drift velocity in auroral zone, evaluating role and intensity of electric field formed in dynamo region
17 p2964 A69-33964

Ionospheric electron concentration variation during positive perturbation based on N/h profiles
17 p2967 A69-33986

Planetary ionospheric effect of 15 July 1959 sudden commencement magnetic storm based on N/h profiles of earth day and night sides
17 p2967 A69-33987

Vertical ionization displacements in F region as trace distortions on ionograms observed at low, mid and high altitudes during daytime
17 p2969 A69-33998

Ionospheric parameter recording accuracy by vertical sounding, discussing errors in frequency-height curve
17 p2969 A69-34002

Cosmic ray heavy nucleus enders flux by nuclear emulsions for balloon flights at various atmospheric depths
17 p3025 A69-34219

Vertical tropospheric humidity distribution estimation from IR spectra obtained by TIROS satellites
18 p3126 A69-34284

Whistler vertical propagation downwards through inhomogeneous ionosphere in vertical magnetic field, deriving wave equation, calculating transmission and reflection coefficients
18 p3130 A69-34972

Statistical regularization for determining vertical atmospheric temperature profile from measurements of earth radiation in 15 micron carbon dioxide band
18 p3167 A69-35339

Vertical distribution of concentration, microstructure and chemical composition of solid aerosol in troposphere and stratosphere from high altitude balloon measurements
18 p3132 A69-35340

Ozone vertical distribution predicted statistically, using total ozone amounts and backscattered UV spectral measurements
18 p3132 A69-35426

Atmosphere radio brightness temperature dependence on discrepancies between real and standard altitude profiles of thermodynamic temperature
19 p3275 A69-36333

Orthogonal functions for determining atmospheric vertical temperature profile from satellite measurement of earth outgoing radiation in carbon dioxide absorption band
19 p3303 A69-36409

Cloud masses vertical thickness estimated from study of cloud shadows on satellite TV pictures
19 p3366 A69-36670

Simultaneous ionospheric ion and electron measurements by various radiophysical methods, relating results to period of flight of vertical space probe
20 p3486 A69-37028

F region electron and ion concentration vertical distribution, discussing various ionization reactions
20 p3520 A69-37030

Lower ionosphere electric fields and currents vertical profiles above geomagnetic equator under quiet geomagnetic conditions from rocket data
20 p3521 A69-37053

Electron-ion gas ambipolar diffusion effect on F 2 layer electron density vertical distribution variations
20 p3525 A69-37655

Ion production rates vertical distribution and temporal changes at midlatitudes during solar activity minimum and maximum above F 2 layer
20 p3525 A69-37656

Altitude variations at and near maximum electron concentration in quiet F 2 layer during solar activity maximum from sounding at southern geomagnetic pole
20 p3526 A69-37662

Diurnal, seasonal and cyclic altitude and maximum ionization median value variations of undisturbed ionosphere from vertical sounding data obtained at Yakutsk, Siberia
20 p3527 A69-37666

High latitude stations vertical ionograms in absence of ionospheric reflections due to low solar activity periods, discussing interpretation methods
20 p3529 A69-37690

Ground station equipment for studying motions and structure of ionospheric inhomogeneities by combined space-frequency diversity reception, noting altitude dependence of ionospheric parameters
20 p3510 A69-37693

Numerical prediction experiment for dynamical structure of tropical atmosphere in equatorial latitudes, constructing pressure, temperature and vertical motion distributions from wind field
20 p3573 A69-37910

Vertical turbulent diffusion and altitude distribution of radioactivity from short lived radon decay products in atmosphere
20 p3533 A69-38076

F region vertical density profiles for positive ions and neutral molecules of various gases determined from rocket-borne mass spectrometer data
21 p3702 A69-38354

Airglow and vertical eddy transport photochemical models, analyzing O green line and OH emission distribution
21 p3713 A69-38523

Steady state vertical distribution of small ions in ground layer assuming atmospheric dynamic and thermal sublayers, calculating air resistance and electric field potential
21 p3715 A69-38836

Radio FM pulse compression for vertical ionosphere sounding
21 p3674 A69-39082

Altitude variation of mesospheric daytime sky brightness from earth based measurements of twilight sky brightness, noting inconsistency in calculations based on standard atmospheres
21 p3716 A69-39116

Vertical factor equation numerical solution for radio wave propagation in vertically inhomogeneous troposphere
21 p3674 A69-39121

Primary and secondary cosmic ray intensity variation with altitude from ascending balloon data, noting absorption length role
21 p3791 A69-39249

Cosmic radiation altitude profiles, giving tabulation of counting rates obtained by SPARMO flights at different locations
21 p3791 A69-39253

Finite difference method for calculating Lee waves incident on obstacle with arbitrary vertical distribution of main flow horizontal velocity and temperature
21 p3759 A69-39653

Tropospheric refractivity height profile model, computing corrections to satellite Doppler or range data
21 p3678 A69-39748

Aerosol attenuation coefficients vs altitude in troposphere and stratosphere, noting seasonally dependent surface convective dust layer and temperature dependent aerosol maximum altitude
21 p3718 A69-39773

Rocket optical experiment for determining water, methane, nitric oxide and ozone vertical profiles in stratosphere and mesosphere
22 p4035 A69-39910

Convective cells and periodic variations in vertical gradient of electroatmospheric field
22 p3934 A69-39939

Air density height distribution determined from satellite orbit decay analysis, noting semiannual density variations
22 p3935 A69-39971

Vertical heat exchange flux model using heat conduction equation compensating for tropospheric and stratospheric radiation divergence, calculating diffusion coefficient
22 p3936 A69-40137

Ionospheric vertical columnar electron content at midlatitudes near solar cycle minimum based on Faraday rotation data from Explorer 22
22 p3939 A69-40505

Dayglow O I lambda 1304 and 1356 A radiations photoelectron excitation rates theoretical calculation and experimental data on altitude dependence characteristics
22 p3939 A69-40517

Faraday effect measurements by polar orbiting satellites for vertical distribution of ionospheric electron density
22 p3941 A69-40718

Incident proton flux atmospheric altitude profile during PCA period, comparing balloon observations with preliminary satellite data
23 p4204 A69-41485

Nitric acid vapor in atmosphere as function of altitude from spectrograph, predicting downward diffusion
23 p4155 A69-41634

Electron concentration vertical profile in ionosphere in presence of horizontal wind shifts determined using E layer charged particle redistribution approximation
23 p4155 A69-41840

Lower atmospheric temperature continuous radio measurement as function of altitude, calculating temperature gradient
24 p4342 A69-42677

Northern Hemisphere 500-mb height pattern series expansion, using optimal sets of orthonormal functions, obtaining rms error
24 p4346 A69-43157

VERTICAL FINIS U FINIS

VERTICAL FLIGHT

Vertical flight path navigation requirements for supersonic aircraft based on computer simulated flights of Mach 2 Concorde
02 p0277 A69-11590

Slide wire aircraft vertical velocity meter for application during aerogravimetric mapping, discussing calibration and gravitational force measurement accuracy
03 p0429 A69-13261

Differential equation for dynamic behavior of acrobatic flight navigation instruments in steep flight, considering vertical gyroscopes, gimbal platforms and time optimal control
11 p1880 A69-24328

Trajectory calculation of axisymmetrical body during ballistic and vertical flight, assuming air drag proportional to square of velocity
17 p2889 A69-32950

VERTICAL LANDING

Integrated guidance and traffic control system to handle VTOL traffic in Northeast Corridor
05 p0789 A69-15560

Aerodynamic instrumentation to improve helicopter takeoff and landing piloting performance under high gross weight conditions
05 p0767 A69-16776

Research and development programs for several advanced rotary wing VTOL concepts
[AIAA PAPER 69-199] 07 p1055 A69-19555

Ground jet suppression fences for VTOL aircraft prepared pads, investigating erosion reduction and particle entrainment
[AIAA PAPER 68-639] 17 p2902 A69-34028

Shuttle VTOL airport access system analysis for New York area
[AIAA PAPER 69-804] 19 p3288 A69-35592

Mathematical models for describing visual perception of distance to ground during VTOL landing and takeoff
22 p3892 A69-40282

Steep descent landing systems developmental phases for VTOL aircraft, discussing noise abatement, approach angle and descent rates
22 p3978 A69-40674

VTOL transport aircraft to solve short haul travel problems, examining lateral and horizontal maneuvering and vertical to horizontal flight transition
24 p4250 A69-42564

VERTICAL MOTION

Sporadic E microstructure and vertical motion, describing radio sounding system to observe ionospheric 3d structure and motions from ground
01 p0071 A69-11164

Vertical propagation of acoustic waves in atmosphere without gravitational waves and with height varying atmospheric shear viscosity
02 p0274 A69-11440

Lower ionosphere vertical motions found responsible for nighttime variation of radio waves total field strength
02 p0207 A69-11689

Spatial distribution of vertically moving ionized formations in ionosphere suggests acoustic gravity waves excited in polar regions as cause
06 p0922 A69-17749

Active broadband vibration isolation of human subjects from severe vertical dynamic excitations experienced in low level high speed flight
[ASME PAPER 69-VIBR-65] 10 p1650 A69-24157

Vertical ionization drift in F region as function of electron density, ionization coefficient and recombination coefficient
12 p0270 A69-26584

Neutral gas motions causing plasma motions in F region, obtaining vertical plasma velocity component pronounced diurnal variations
12 p0270 A69-26684

Lower ionosphere vertical motions found responsible for nighttime variation of radio waves total field strength
13 p2224 A69-28720

Ballistic deviations limits for aircraft vertical gyroscope taking into account aircraft vertical movements, using compensation in system
14 p2445 A69-28899

Electrolytic vertical indicators response errors, discussing nonlinear properties of transducer steady state characteristics
14 p2446 A69-28925

Vertical motion of ionized formations in ionospheric F region related to sporadic E layer
14 p2437 A69-29074

Parametric resonance motion in viscous fluid column in communicating vessels during vertical oscillations, calculating critical accelerations over viscosity range
14 p2432 A69-29628

Strong vertical wind in low ionosphere due to short period reflected gravity waves, obtaining standing wave system
15 p2606 A69-31449

Adiabatic and diabatic processes contributions to vertical atmospheric motions profile and IR cooling components comparison
17 p2962 A69-33689

Vertical ionospheric perturbations shown responsible for Z component in F region
17 p2969 A69-34000

Kinesonde radio sounding system for three dimensional ground observations of E region microstructure and vertical motion of neutral air and ions
18 p3125 A69-34250

Buoyant plumes and thermals defined as vertical motions produced under gravity by density or temperature contrast between incompressible source fluid and environment
18 p3122 A69-34917

Wing elastic strains effect on vertical velocity in downwash, noting wing tail combination
18 p3086 A69-34999

VERTICAL TAKEOFF AIRCRAFT

Kalman filter based on calculus of variations, evaluating object trajectory during vertical atmospheric descent
19 p3307 A69-35794

Vertical atmospheric motions, considering wind velocity measurements associated with synoptic processes
19 p3366 A69-36673

Nighttime ionospheric F region velocity component and recombination coefficient computer calculation
20 p3521 A69-37049

Vertically moving disturbances relationship to behavior of E and F layers over Tiflis, noting sporadic E layers formation
20 p3528 A69-37685

Ionogram processing procedure, discussing presence of vertically moving ionospheric disturbances
20 p3529 A69-37691

Vertical neutral wind measurements in lower E region with wavelike spatial structure, noting vertical shear role in ionosphere dynamics
21 p3703 A69-38363

Diurnal intensity variations in OI 5577 A line emission connected with vertical movements in 90 km level of atmosphere
21 p3713 A69-38525

Turbulence and laminarity effect on vertical waves development rising in thin layer of heavy viscous fluid in contact with vertical gas flow
24 p4302 A69-43480

VERTICAL PERCEPTION

Universal vestibulometric chair for inducing irritation in tests involving vestibular analyzer interaction with other body functions
02 p0200 A69-11517

Space environment barriers to man due to biological evolution and transition from land to space in single generation, noting orientation problems
03 p0380 A69-14067

Witkin Rod and Frame Testing of pilots and engineers showing greater field independence in pilots, discussing applications to pilot instructor selection
12 p0203 A69-26556

Motion analysis of symmetrical physical pendulum having mobile fulcrum for geocentric vertical indicator possibility
21 p3727 A69-39830

Visual and tactual interaction in judgments of vertical in dark room experiments, discussing effects of various reference systems
24 p4271 A69-42752

VERTICAL STABILIZERS

U STABILIZERS [FLUID DYNAMICS]

VERTICAL TAILS

U STABILIZERS [FLUID DYNAMICS]

U TAIL ASSEMBLIES

VERTICAL TAKEOFF

Aerodynamic instrumentation to improve helicopter takeoff and landing piloting performance under high gross weight conditions
05 p0767 A69-16776

Ground jet suppression fences for VTOL aircraft prepared pads, investigating erosion reduction and particle entrainment
[AIAA PAPER 68-639] 17 p2902 A69-34028

Shuttle VTOL airport access system analysis for New York area
[AIAA PAPER 69-804] 19 p3288 A69-35592

Mathematical models for describing visual perception of distance to ground during VTOL landing and takeoff
22 p3892 A69-40282

VERTICAL TAKEOFF AIRCRAFT

NT FLYING PLATFORMS

NT X- 22A AIRCRAFT

NT XC-142 AIRCRAFT

NT XV- 4 AIRCRAFT

Power spectral density method of random loads analysis applied to V/STOL aircraft structural analysis, discussing statistical distribution
01 p0168 A69-10407

VTOL aircraft design for noise reduction, discussing localities tolerance, noise sources, operating cost, etc
01 p0009 A69-10421

Minimum admissible spacing between supersonic jet expelled from VTOL aircraft nozzle and plane surface near nozzle exit
03 p0361 A69-12955

X V-4B Hummingbird 2, noting modification from XB-4A two engine ejector augmentation to six engine directed and diverted thrust configuration
03 p0366 A69-13112

STOL and VTOL aircraft characteristics in operation, considering impact on terminal navigation and air traffic control
[SAE PAPER 680666] 03 p0465 A69-13452

Advance indication based on extrapolation for aiding manual attitude control of VTOL aircraft in hovering flight, noting results on flight simulator
03 p0366 A69-13645

Ground effects influence on VTOL aircraft secondary forces during hovering and transitional flight, discussing component dynamic coefficients in wind tunnel
[DVL-851] 04 p0547 A69-14813

Two term and three term controllers for hovering rigs and VTOL aircraft, comparing stability, transient response and control force
04 p0547 A69-14814

Temperature stresses analysis for jet lift VTOL aircraft structure during takeoff and landing, discussing fire hazard in lift pod
04 p0548 A69-14841

Helicopter, compounds and composite aircraft design trends
05 p0700 A69-15548

Integrated guidance and traffic control system to handle VTOL traffic in Northeast Corridor
05 p0789 A69-15560

VTOL aircraft materials for improved lightness, durability and cost, noting Be alloys, filamentary composite materials and future problems
05 p0702 A69-15962

Optimal flight stabilization of VTOL aircraft in hovering mode based on linear rotation dampers system
05 p0702 A69-16024

Compound rotorcraft VTOL vehicle current programs
05 p0703 A69-16394

Low range airspeed system (LORAS) on X-22A and P 1127 VTOL aircraft for accurate airspeed information
05 p0767 A69-16774

Longitudinal dynamics of VTOL aircraft during hover-forward flight transition, using multiple time scale analysis
[AIAA PAPER 69-130] 06 p0869 A69-18157

Research and development programs for several advanced rotary wing VTOL concepts
[AIAA PAPER 69-199] 07 p1055 A69-19555

Military applications of VTOL aircraft, discussing role in battle area with restricted surface transportation
[AIAA PAPER 69-326] 07 p1055 A69-19556

Future commercial VTOL transportation, considering technical, political and socio-economic problems
[AIAA PAPER 69-198] 07 p1056 A69-19567

Optimum approach and departure paths for VTOL aircraft simulated by hybrid computer under constraints
[AIAA PAPER 69-209] 07 p1178 A69-19570

Stress analysis split method for determining residual strength and fatigue crack life of damaged or initially cracked VTOL structures
[AIAA PAPER 69-214] 07 p1237 A69-19576

Aircraft separation standards, considering separate space for VTOL in automated high density airways system
[AIAA PAPER 69-210] 07 p1178 A69-19579

Scanning beam landing systems for VTOL aircraft
07 p1178 A69-19631

Testing station design for VTOL aircraft ground effects investigations
08 p1302 A69-20880

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
08 p1348 A69-21064

Lockheed XV-4B Hummingbird 2 VTOL aircraft propulsion, control, escape systems, with tests
10 p1634 A69-23597

Human pilot adaptation in simulated multiloop VTOL hovering task with series loop closure model
10 p1650 A69-23878

Folding propotor VTOL aircraft configuration analytical and experimental investigations to study design requirements for cruise speeds to Mach 0.75
[AIAA PAPER 69-220] 10 p1635 A69-24087

Book on aircraft stability and control covering conventional, canard, variable sweep, slender delta wing, helicopter and other VTOL aircraft
11 p1821 A69-24370

VTOL aircraft flight control systems, considering computerization and automation approach with human pilot serving as monitor and emergency system
11 p1823 A69-25387

Computer aided design of linear multivariable control systems applied to VTOL aircraft stability augmentation
12 p2013 A69-26068

Exhaust gas recirculation for VTOL aircraft
[AIAA PAPER 67-439] 12 p2013 A69-26760

Ingestion and flow field characteristics of interaction of two heated parallel air jets, discussing VTOL exhaust ingestion tests
[AIAA PAPER 68-79] 12 p2012 A69-26761

Potential error source in VTOL aircraft dynamics analysis suggested by dual function of symbol used in perturbation equations of motion
12 p2014 A69-26776

Vertical takeoff aircraft role in British Government air industry program, noting applications to intercity passenger service
13 p2203 A69-28355

Reaction forces for jet lift VTOL attitude control during hover and transition, considering hot gas and pitch ducting applications
[AIAA PAPER 69-545] 16 p2735 A69-32756

VTOL transport aircraft, discussing systems integration problems, feasibility and time scale of introduction into service, noise and safety, etc
17 p2897 A69-33207

Self contained lift fan concept and circulation controlled rotor aircraft power plants for high speed VTOL transports
17 p2897 A69-33208

German VTOL aircraft development excluding helicopters, discussing technical problems, safety and economy in civil application
17 p2899 A69-33381

Mission task performance oriented approach to winged helicopters flying and handling qualities, considering wings and horizontal stabilizers influence
[AHS PAPER 360] 17 p2900 A69-33522

Vertical takeoff aircraft propeller/rotor design and performance prediction, discussing vortex model, wake contraction, blade element aerodynamic properties, etc
[AHS PAPER 325] 17 p2894 A69-33534

Integrated trajectory error display (ITED) for flight path control of helicopters and VTOL, describing principles governing display synthesis
[AHS PAPER 314] 17 p3001 A69-33541

Solid state single unit digital control computer performing stability augmentation, pilot relief functions and generating minimum fuel flight paths for VTOL landing
17 p2934 A69-34075

Aerodynamic characteristics of elliptical airfoils with jet circulation control for VTOL rotors including dual jets and cyclic results
[AIAA PAPER 69-741] 18 p3084 A69-34406

Weight estimation of structures and systems unique to VTOL aircraft, considering remote fan and high bypass engine lift propulsion concepts
[SAWE PAPER 784] 18 p3090 A69-34868

Static dynamic and damage tolerant strengths of advanced materials for VTOL aircraft with emphasis on Ti, cryoformed 301 stainless steels and filamentary composites
[AIAA PAPER 69-764] 19 p3433 A69-35658

VTOL aircraft lift systems, propulsion, airframes, dynamic and aerodynamic characteristics, control systems, missions, safety, configurations and environment
[AIAA PAPER 68-977] 20 p3461 A69-37149

JR 100 F lift jet engines for Japanese national aerospace laboratory produced as part of VTOL developing program
21 p3785 A69-38608

Analytical and graphical methods for characteristics of optima produced by quadratic performance index for VTOL prefilter model reference attitude control system
[AIAA PAPER 69-884] 21 p3764 A69-39411

Electronic terminal guidance requirements for all-weather VTOL operations, suggesting future first generation landing system
22 p3978 A69-39875

Dornier R and D, discussing single and twin engine aircraft, utility aircraft, helicopter, VTOL transport, safety, etc
22 p3862 A69-39931

RB 202 self contained lift fan engine design for high speed interurban civil VTOL operations, considering weight, cost, noise and fuel consumption
22 p3862 A69-39933

Steep descent landing systems developmental phases for VTOL aircraft, discussing noise abatement, approach angle and descent rates
22 p3978 A69-40674

Aerodynamics of rotary wing and V/STOL aircraft - Conference, Buffalo, June 1969, Volume 3
23 p4057 A69-41369

Aerodynamic research in VTOL field including rotor wake, noise reduction, airfoil sections, lift coefficient, drag, wind tunnels, etc
23 p4058 A69-41374

VTOL, STOL and CTOL transportation systems comparison effectiveness comparison for Northeast Corridor operation, considering ground facilities, access time, etc
[SAE PAPER 690417] 23 p4147 A69-41642

Air traffic interfaces of VTOL, STOL and CTOL aircraft serving same metropolitan terminal, emphasizing navigation systems, geographical positions, ground communication, etc
[SAE PAPER 690422] 23 p4185 A69-41646

Metropolitan downtown airports for STOL and VTOL aircraft stressing Los Angeles Metroport
[SAE PAPER 690402] 23 p4147 A69-41660

VTOL transport aircraft to solve short haul travel problems, examining lateral and horizontal maneuvering and vertical to horizontal flight transition
24 p4250 A69-42564

Demand curves for VTOL intercity transportation, discussing conventional helicopters, compound helicopters, tilt rotor, tilt wing, stored rotor and fan or jet lift
24 p4254 A69-43721

VERTICES

U APEXES

VERTIGO

Painted helicopter rotor blades ruled out as cause of flicker induced vertigo, reporting pilots psychophysiological responses to formation flying
17 p2913 A69-33175

VERTOL MILITARY HELICOPTERS

U BOEING AIRCRAFT

U MILITARY HELICOPTERS

VERY HIGH FREQUENCIES

VHF transhorizon propagation by double reflection from elevated layer in troposphere
01 p0034 A69-11139

Lake Kickapoo Space Surveillance Transmitting Station in Texas, discussing surroundings, equipment, operating range, VHF transmission, etc
03 p0411 A69-13209

Sudden VHF phase anomalies produced by solar flare induced ionospheric disturbances during July 1968
05 p0719 A69-15980

VHF to UHF conversion, noting modular UHF telemetry transmitter, miniature UHF special purpose transmitter, RF power amplifiers and telemetry receiver
05 p0732 A69-16305

VHF transistor power output capability, discussing limitation by RF saturation resistance and current crowding by large current densities and high frequencies
07 p1101 A69-18653

Radio aurora rate of occurrence from VHF bistatic radio system observations in eastern Canada
07 p1124 A69-18824

Adaptive airborne VHF/UHF transmitter system, discussing design, ground isolation, current limiting, internal telemetry, wideband frequency response, real time video signals, etc
07 p1106 A69-19114

VHF radio transmission beyond horizon, discussing instrumentation, annual and diurnal signal fluctuations and diffraction role in signal propagation
08 p1274 A69-20112

VHF satellite signal scintillation by ionospheric irregularities with sharp boundary /such as sporadic E/, noting diffraction pattern dependence on phase shift
09 p1489 A69-21713

Meter wave radio spectrum observations during 9 June 1968 solar flare, suggesting sudden intensity and frequency change due to shock wave
09 p1582 A69-22748

Two solar flare initiated type 4 radio bursts on 4 and 6 May 1968, noting prominence activity leading to meter wave generation
09 p1582 A69-22749

Transequatorial propagation mode for waves in VHF band twice scattered by field aligned irregularities in electron density
10 p1653 A69-23192

Optical frequency standards, discussing lasers VHF stability, RF and optical ranges, long and short term effects, etc
10 p1702 A69-23299

RF measurement techniques and interpretation of bonding impedance characteristics through VHF region

12 p2040 A69-26472

VHF to UHF telemetry bands transition implemented by Naval Weapons Center

14 p2411 A69-28880

Electron beam welding for repair and production, discussing application to Ti VHF antennas, Concorde switchgears and nuclear reactor loading tubes [SBA PAPER 14]

20 p3550 A69-37451

VHF radio propagation over transequatorial circuit related to equatorial anomaly in F layer, suggesting F2/F2 propagation mode role

23 p4127 A69-42431

VERY HIGH FREQUENCY RADIO EQUIPMENT

Mechanically despun VHF antenna for spin stabilized synchronous satellites, detailing electrical and mechanical design

01 p0161 A69-10350

Minimum operational characteristics for airborne VHF communication systems, discussing FCC requirements and system performance

07 p1077 A69-18638

Conversion from VHF to UHF at White Sands Missile Range, discussing telemetry acquisition, tracking and receiving systems

07 p1077 A69-18828

Temperature profiles and frequency driftings of VHF telemetry transmitters for Saturn S-C stage, using IR radiation data

10 p1653 A69-23049

Parametric amplifying systems with lumped reactive nonlinear elements, emphasizing UHF systems

11 p1844 A69-24448

Rescue locator beacons and airborne search equipment of VHF and UHF capabilities available to international civil aircraft operations

15 p2552 A69-30852

Seven helix antenna array components and operation mode at Berlin weather station, including biaxial rotor, preamplifier servoamplifier and VHF telemetry receiver

17 p2946 A69-33768

Circularly polarized VHF antenna systems for spin stabilized satellites, discussing design and performance test results

22 p3913 A69-40695

Circular or linear polarization diversity reception for VHF earth-station-satellite communications through turbulent ionosphere, assuming Rayleigh distribution fading

23 p4115 A69-41585

Adaptive signal processing interference rejection technique for suppression of cochannel AM interference in congested VHF tracking receiver

23 p4128 A69-42503

VERY LOW FREQUENCIES

Quasi-periodic VLF emissions associated with geomagnetic micropulsation activity in terms of comparable periodicity

01 p0063 A69-10274

VLF electric field measurements from 1 AU heliocentric orbit, noting field oscillations in solar wind and large amplitude HF noise bursts

01 p0035 A69-11224

Charged particle motion caused by ELF electromagnetic waves in presence of constant magnetic field, noting earth ionosphere application

02 p0240 A69-11712

Ionospheric LF radio noise cut-off near proton gyrofrequency, discussing satellite ELF and VLF observations

03 p0399 A69-14021

Packet of finite amplitude VLF whistler waves, examining cyclotron resonance interaction with high energy electrons and development in magnetosphere

06 p0917 A69-17378

Diurnal field strength and phase variations of VLF transmissions over transequatorial path from Australia to Japan

06 p0889 A69-17654

Phase and amplitude record changes in sunrise and sunset transitions in VLF transmissions over long path

06 p0889 A69-17655

VLF radiation bursts /July-October 1966/ in U.S.S.R., noting detection probability increase with increasing magnetic activity

06 p0920 A69-17731

Numerical methods for VLF electromagnetic wave propagation in earth-ionosphere waveguide, discussing boundary conditions assignment effect at ionosphere on eigenvalues

06 p0920 A69-17732

VLF diurnal phase change observations, showing deviations from theoretical first mode and second mode dominance

07 p1078 A69-18912

Whistlers and VLF emissions from ground based and satellite measurements, applying results to electron density mapping and ion detection

07 p1127 A69-19354

VLF wave electromagnetic properties in magnetosphere, noting whistler mode propagation and refractive index and electron density of medium

08 p1306 A69-20180

VLF emissions intensity and spectra variations compared with energetic electron fluxes variations during magnetosphere storm periods

09 p1488 A69-21698

Large scale heat sources influence on formation and dynamics of ultralong waves in atmosphere, using linear time dependent quasi-geostrophic model

09 p1491 A69-22164

VLF electromagnetic wave propagation in earth-ionosphere waveguide with reflections from ionosphere, noting TE and TM mode coupling and mode conversion

09 p1460 A69-22699

VLF transequatorial propagation variance from magnetic equator to midlatitude confirmed through phase and amplitude records of multisite observations

10 p1655 A69-23416

Weakly attenuated components of VLF mode spectrum associated with propagation below anisotropic ionospheres as function of frequency and azimuth

10 p1655 A69-23417

VLF observations of July 7 1966 solar flare and PCA event

10 p1657 A69-23772

Artificial triggering of VLF magnetospheric noise by NAA Morse code transmission during whistler duct drift across magnetic shells on 17 June 1965

11 p1878 A69-25154

Artificial magnetospheric VLF noise triggering by Morse code dots at 14.7 kHz from NAA verified at Antarctica

11 p1878 A69-25155

Transmitter frequency increase effect on production of artificial stimulated VLF emissions in magnetosphere

11 p1878 A69-25156

Linear active adjustable VLF filters for polynomial transfer functions

11 p1859 A69-25392

VLF wave propagation along mixed path in curved earth-ionosphere waveguide, considering reflection and transmission coefficients of modes

12 p2032 A69-26858

Phase and field strength of transequatorial VLF signals, noting behavior during sunrise, day and nighttime

12 p2032 A69-26860

VLF signal strength minima during transition fading, considering asymptotic statistical distribution

12 p2032 A69-26862

Satellite observation of intensity and distribution of VLF emission at medium latitude during magnetic storm interpreted by transverse resonance plasma instability

12 p2073 A69-26947

VLF morning and evening magnetosphere emission distinction by studying spectrum width as function of variations in K index

13 p2253 A69-27740

Latitudinal cut-off of manmade VLF signals in short path through ionosphere to OGO 2 satellite, noting strong noise following signal cut-off

14 p2434 A69-28958

Solar X ray flux deduced from flare effects on VLF propagation, showing total energy content as measure of ionizing radiation

14 p2411 A69-29105

Solar flare effect on polar chorus variation determined by comparing Antarctica VLF data with low latitude magnetograms

14 p2514 A69-29385

Long distance VLF multirange navigation fix errors as function of angles of cut of position lines and range errors, presenting error isograms

14 p2478 A69-29484

Atomic and astronomical time and frequency measurement via Loran C and VLF/Omega phase tracking receivers

15 p2615 A69-31285

Simultaneous particle flux and VLF noise spectrum measurements by rocket sounding, discussing equipment, telemetry and calibration systems and experimental data

15 p2605 A69-31423

VLF and particle rocket experiment for group delay time between rocket and ground, discussing wave polarization and energy flows meaning

15 p2571 A69-31424

Ionospheric VLF emission and particle measurements, discussing energy, distribution and flux of protons and electrons

15 p2605 A69-31425

VLF radio wave propagation in waveguide channel formed by earth and inhomogeneous anisotropic ionosphere

16 p2751 A69-32032

Ionosphere depression influence on VLF signals phase and amplitude calculated by mode theory and integral equations system representing aperture fields

17 p2920 A69-33418

Auroras and VLF emissions observations at ground stations to correlate emissions with auroral displays, noting low ionospheric absorption role

21 p3708 A69-38494

Synoptic study of worldwide VLF electromagnetic wave fields distribution above ionosphere from Ariel 3 observations

21 p3717 A69-39262

Self rhythms of low audio frequencies in motor nerves under electric pulses influence at VLF related to viscosity changes of nerve substance

23 p4092 A69-42057

VESTIBULAR TESTS

Extraterrestrial vestibular research, discussing human otolithic apparatus regulation subjected to change from geocentric to heliocentric orientation [UN PAPER 68-95389]

01 p0014 A69-10508

Physiological studies of centripetal and Coriolis accelerations effects on vestibular function of humans in rotating chamber

02 p0197 A69-11498

Hypoxia effects on vestibular analyzer function of rats in pressure chambers at simulated altitudes from 11,000 to 12,000 m

02 p0198 A69-11506

Universal vestibulometric chair for inducing irritation in tests involving vestibular analyzer interaction with other body functions

02 p0200 A69-11517

Acoustical vestibular stimulation in guinea pig, showing activation of receptors

03 p0376 A69-14076

Antimotion sickness drugs tested in slow rotation room with controlled Coriolis accelerations, noting summation effect of dextroamphetamine sulfate and scopolamine hydrobromide

03 p0381 A69-14079

Coriolis acceleration dosages applied in vestibulometric tests of male subjects inclined in rotating chair

05 p0710 A69-16521

Human vestibular reactions during weightlessness preceded and followed by acceleration

07 p1061 A69-18581

Human vestibular and sensory reactions to rotation and rocking, Coriolis acceleration and vestibular reaction inhibition on ground test stand for effects of temporary weightlessness

07 p1062 A69-18586

Vestibular-vegetative reactions during angular and Coriolis accelerations alternating with weightlessness, noting increased parasympathetic and sympathetic activity

07 p1062 A69-18587

Vestibular function of cosmonauts during preflight training and flight on Voskhod spacecraft, tabulating heart beat, respiration rates and writing test ratings

07 p1062 A69-18588

Jet fighter pilot spatial disorientation during flight and on ground, emphasizing vestibular neuronitis diagnosis

10 p1649 A69-23382

Weightlessness and higher g values effects on caloric and rotational nystagmus

12 p2020 A69-26551

Human vestibular reactions at various bodily rotation rates and planes, including counterrotation illusion and nystagmic reaction

12 p2020 A69-26564

Prolonged iterative accelerations and decelerations on vestibular apparatus, discussing nystagmus measurement attempt and centrifugation tests on guinea pigs

13 p2211 A69-28592

Soviet book on nervous mechanisms of vestibular reactions emphasizing mathematical description of operation, neurophysiological changes in cerebral cortex and oculomotor activity modeling

16 p2746 A69-32605

Vestibular reactions in rats under hypothermal conditions by measuring postrotatory nystagmus beats

number and duration, respiration rates and rectal temperature 17 p2906 A69-32934

Diphenidol and prochlorperazine effect on human semicircular canal function, noting failure of drug to alter vestibular responses 17 p2913 A69-33168

Head movements controlled for rapid vestibular adaptation in slow rotation room /SRR/, preventing motion sickness 17 p2908 A69-33178

Coriolis acceleration dosages applied in vestibulometric tests of male subjects inclined in rotating chair 18 p3096 A69-34740

Soviet collection of papers on vestibular analyzer physiology 20 p3467 A69-37240

Astronaut vestibular and motor analyzer functions during flight and simulation tests, discussing illusory space orientation and role of cortical dynamics 20 p3469 A69-37241

Electrical response of frog and human visual cortex neurons to thermal vestibular and light flash stimulation 20 p3469 A69-37242

Phase and tonic activity of oculomotor apparatus of rabbits during vestibular reflexes and postrotational nystagmus 20 p3469 A69-37243

Sensorimotor coordination of man performing graphic assignments in upright, reclining and prone position, discussing interaction of vestibular, visual and motor analyzers 20 p3470 A69-37246

Visual and vestibular analyzers interrelation in subjects receiving light pulses before and after rotation, noting role of cortical elements 20 p3470 A69-37249

Vestibular neurons activity in decerebrized cats under ipsilateral and contralateral labyrinth polarization combined with acoustic and caloric stimulation 20 p3471 A69-37254

Cats vestibular neurons reactions to labyrinths mon- and binaural polarization and caloric stimulation 20 p3471 A69-37255

Neuron activity simulation applied to vestibular neurons electrical activity analysis, discussing feedback circuitry and cathodic depression 20 p3471 A69-37256

Coriolis acceleration effect on vestibulo-vegetative and vestibulo-somatic reflexes of humans subjected to forward tilting, noting pulse and respiration rates 20 p3472 A69-37259

Vestibular functions of humans subjected to Coriolis acceleration via prolonged rotation at different angular velocity rates 20 p3472 A69-37260

Vestibular analyzer dynamic characteristics under Coriolis acceleration, measuring heart beat rate, arterial pressure, head bending aftereffects, etc 20 p3472 A69-37262

Vestibular analyzer function relation to arterial pressure during otolith stimulation experiments on subjects susceptible and nonsusceptible to motion sickness 20 p3472 A69-37264

Test pilot vestibular training program to achieve higher tolerance of rotation, rocking and balancing and visual stimuli 20 p3472 A69-37266

Nystagmus reactions in rabbits subjected to rotating vestibular tests, noting decrease following previous adaptation to stimulus 20 p3473 A69-37267

Vestibular stimulation effect on human blood composition during rocking test indicating blood eosinophile content as function of hypophysis and adrenal cortex reactions 20 p3473 A69-37268

Vestibulo-somatic, vegetative and sensory reactions to angular acceleration, deceleration and tilting, evaluating functional state of vestibular analyzer 20 p3481 A69-37270

Vestibular function tested with angular acceleration, applying semicircular canal reflexes for flight crew selection and appraisal 20 p3481 A69-37271

Electronystagmographic method of eye movement recording, noting applications to vestibular and visual analysis and study of oculomotor nuclei- vegetative centers relations 20 p3481 A69-37273

Equipment with minimum semicircular canals stimulation for vestibular analyzer studies 20 p3481 A69-37274

Spacecraft rotation and astronaut head and body motion as stimuli for vestibular analyzer function study during weightlessness 20 p3473 A69-37275

Weightlessness tests during parabolic flight to supplement vestibular tests in astronaut selection 20 p3481 A69-37276

Vestibulometric test program for flight surgeon appraisal of flying personnel, emphasizing singling out persons prone to illusory sensations 20 p3473 A69-37277

Vestibulometric tests for flight surgeon appraisal of applicants in flying profession, comparing Coriolis forces cumulative load tests with conventional tests 20 p3481 A69-37278

Mathematical models of human vestibular system for dynamic space orientation, using control theory 21 p3662 A69-38728

Alcoholic hangover effects on human balance system from flying demands viewpoint, discussing ocular-vestibular system disturbances 23 p4089 A69-41817

VESTIBULES

Rotational velocity estimates by observers during angular acceleration, noting vestibular function interpretation 04 p0554 A69-15332

Mathematical input-output model for vestibular system, relating linear and angular motions to non-visual perception of orientation, motion and nystagmus for physiological characteristics 24 p4276 A69-43274

VHF OMNIRANGE NAVIGATION

VOR path course errors, emphasizing effects of propagation and receiver processing 03 p0392 A69-13245

Phase error and amplitude and phase modulation in aircraft VOR omni receiver in vicinity of reflecting objects, noting asymmetrical filter effect 08 p1271 A69-19863

VOR/DME ground facilities accuracy improvement by complementing navigation computation with signals from inertial navigation system [SAE PAPER 690338] 11 p1914 A69-24499

Transistorized VOR system using electronic goniometer and fixed antennas, describing power supply, transmitter, goniometer, antenna and design 16 p2827 A69-31938

VOR/DME information augmentation by air data /airspeed/ for positional accuracy improvement, describing error sources, optimum data filter and system sensitivity and performance [AIAA PAPER 69-841] 21 p3762 A69-39372

Airline area navigation test programs involving use of VOR/DME signals and inertial navigation system within air traffic control system 23 p4185 A69-41662

VIBRATION

NT BENDING VIBRATION
NT COMBUSTION VIBRATION
NT FLUTTER

NT FORCED VIBRATION
NT FREE VIBRATION
NT LATTICE VIBRATIONS

NT LINEAR VIBRATION
NT MISSILE VIBRATION
NT PANEL FLUTTER

NT RANDOM VIBRATION
NT RESONANT VIBRATION
NT SELF INDUCED VIBRATION

NT STRUCTURAL VIBRATION

NT SUPERSONIC FLUTTER

NT TORSIONAL VIBRATION
NT VIBRATIONAL STRESS
NT VIBRATORY LOADS

Surface vibrations effect on forced convection heat transfer normal to cylinder, discussing convective coefficients dependence on Reynolds number [ASME PAPER 68-WA/HT-5] 05 p0846 A69-16116

Hankel functions and vibration equations solutions, discussing asymptotic behavior and monotonic properties in neighborhood of ellipses 08 p1416 A69-20714

Pointwise bounding of eigenfunctions in vibration and stability problems in elasticity theory 10 p1794 A69-22925

Matrix Computer for solution of algebraic and integrodifferential equations in linear and nonlinear statics and dynamics, considering mechanical vibration problems [ASME PAPER 69-VIBR-12] 10 p1806 A69-24167

Nonstationary vibrations of mechanical systems subjected to harmonic or external limited energy source excitations 11 p1975 A69-24739

Surface vibrations effect on forced convection heat transfer normal to cylinder, discussing convective coefficients dependence on Reynolds number [ASME PAPER 68-WA/HT-5] 13 p2374 A69-2778

Linear piezoelectric plate vibrations, Elements of linear theory of piezoelectricity and vibrations of piezoelectric plates, covering differential equations, boundary conditions, etc 16 p2826 A69-3172

Equation of motion for determining nonlinear vibration of rod pendulum in viscous flow of varying velocity 21 p3773 A69-39679

VIBRATION DAMPING

Self sustained oscillations of piston type valving system with conduit line at upstream and capacity at downstream 01 p0012 A69-10310

Mechanical behavior of synthetic layer coatings for damping instrumental vibration and noise 01 p0168 A69-10399

Spadoryc slide rule for damping determination from vibration decay traces, noting use in flight flutter tests 01 p0087 A69-11029

Summed and differential types of higher order oscillations in vibratory systems with multiple degrees of freedom under parametric excitation 02 p0346 A69-12422

Attitude control system for gravity gradient stabilized satellite in synchronous and near synchronous equatorial orbits, discussing libration damping methods 03 p0504 A69-12857

Damping capacity and resistance to resonance fatigue of titanium and aluminum based steels and alloys 03 p0443 A69-13025

Acoustic absorbers for combustion stabilization, discussing analytical model based on temporal damping coefficient for oscillation modes and allowance for nonuniform distribution 03 p0532 A69-13133

Dipole and quadrupole bremsstrahlung and damping of electron plasma oscillations, finding negative k-square collisional electron-ion contribution 03 p0475 A69-13149

Torsion bar with two inertia masses attached used to determine damping capacity and torsional fatigue strength 03 p0431 A69-13917

Frequency of damped oscillations in plasma in DC field, noting variation with electron density and DC field 03 p0479 A69-14050

Constrained layer damping and conventional techniques combination for vibration and noise control 04 p0606 A69-14691

Nonlinear damping of circularly polarized electromagnetic wave propagating in plasma along magnetic field, noting particle motion in resonance region 04 p0558 A69-14982

Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass [ASME PAPER 68-WA/DE-6] 05 p0839 A69-16171

Rotors linear vibrations due to unbalanced shaft rotating on lubricated bearings taking into account lubricant damping 07 p1235 A69-19441

Axial waves in blood vessels, determining phase velocities and damping, noting anisotropic behavior of artery wall [SESA PAPER 1350] 07 p1069 A69-19726

Dislocation damping measurements made on Fe-18Cr-Ni alloys, noting damping relation to nickel content and stacking fault 08 p1334 A69-20576

Logarithmic decrement and period of disks performing torsional oscillations measured in viscous fluid, noting dependence on oscillation amplitude 08 p1417 A69-20781

Second order system response with variable damping computed by stepwise numerical integration 08 p1418 A69-20849

Time rates for growth and damping of resistive instability in gaseous plasma in crossed electric and magnetic fields 08 p1369 A69-20886

- Lasing characteristics of Nd-glass laser when cavity radiation varies with time, discussing rapid damping of relaxation oscillations of laser intensity
08 p1327 A69-21024
- Structural damping coefficient for free vibrations of one degree freedom general systems motion
09 p1617 A69-22076
- Compact antivibration mounting for carrying instruments, using bicycle tire inner tube around heavy slab to provide elasticity and damping
09 p1502 A69-22692
- Damping criteria for satellite vibration based on energy dissipation by material hysteresis, friction in viscous flow, magnetic hysteresis and eddy currents
10 p1791 A69-22921
- Root fixture and grip load effects on cantilever beam damping, using bandwidth and logarithmic decrement measurement methods
10 p1800 A69-23244
- Interfacial pressure distribution during slip damping in clamped rectangular beams subjected to vibration
10 p1800 A69-23350
- Metals with combined high damping and good mechanical properties for solving fatigue, noise and vibration problems
10 p1715 A69-24044
- Airflow through open foam cellular structure, discussing mathematic model for predicting pressure buildup and foam response in shock and vibration isolation
[ASME PAPER 69-VIBR-46]
10 p1803 A69-24144
- Gas turbine blade vibrations, discussing excitation causes and damping techniques
[ASME PAPER 69-VIBR-59]
10 p1805 A69-24155
- Damped steady state response of elastic foundation beam subjected to cyclic moving loads to determine load movement frequencies for natural frequency excitation
[ASME PAPER 69-VIBR-13]
10 p1806 A69-24166
- Damping of response of integrally stiffened skin structures to random acoustic pressures, reducing rms stress in case of broad band excitation
[ASME PAPER 69-VIBR-26]
10 p1806 A69-24172
- Synchronous vibration absorbers using gyroscopic systems, noting antiresonance with Perissogyro
[ASME PAPER 69-VIBR-39]
10 p1807 A69-24177
- Multiparameter optimum damping for harmonically excited linear stable strictly dissipative n degrees of freedom system, locating multivariable saddle points
[ASME PAPER 69-VIBR-42]
10 p1807 A69-24180
- Parametric damping of oscillations in second order automatic control systems, taking into account control function constraints
11 p1857 A69-24556
- Damping properties of nonlinear viscoelastic solids with applications to vibrating continua, using Gauss principle of least constraints
11 p1970 A69-24605
- Energy dissipation in freely oscillating bodies under static stresses described by differential equation, assuming elliptical hysteresis loop
11 p1919 A69-25092
- Optimum platform stabilizer selection for damping of rotational motion and elastic torsional stresses of aircraft fuselage about longitudinal axis
11 p1966 A69-25327
- Strip method for prediction of subcritical frequency and damping characteristics for subsonic wind tunnel and flight flutter tests
11 p1987 A69-25368
- HF brake excited vibration damping in aircraft landing gear, obtaining closed form solution
[AIAA PAPER 68-312]
11 p1823 A69-25370
- Flutter design charts for isotropic panels stressed to verge of buckling for typical values of structural damping
11 p1992 A69-25524
- Linear vibrational systems natural frequencies and damping characteristics determined from system reaction to pulse effect
12 p2178 A69-26004
- Friction damping properties of deployed structures vibrating in weightless state compared to damping in space for true determination
12 p2183 A69-26792
- Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass
[ASME PAPER 68-WA/DE-6]
13 p2360 A69-27422
- Shear stress and velocity profile in MHD duct, examining turbulence damping by electromagnetic coupling
13 p2309 A69-28024
- Dynamic stability of two degrees of freedom circulatory systems with bilinear hysteresis damping
13 p2363 A69-28127
- Rigid structures high damping without loss of rigidity achieved by epoxy resin dampers, noting moderate cost
13 p2370 A69-28601
- Dual pendulum with tilt sensitivity at wide passband frequencies and damping due to horizontal oscillations
14 p2450 A69-29570
- Vibration damping and elastic bond positioning in nonlinear systems with coincident centers of gravity and rigid damping
14 p2537 A69-29746
- Vibration control by alternate layers of high damping viscoelastic material, discussing damping and loss factors, beams design and attachment
15 p2622 A69-30704
- Vibrations attenuation by viscoelastic sandwich shear damping, discussing examples of aircraft equipment racks, gyro and airborne circuit board mountings
15 p2622 A69-30705
- Steady state motion of multiple unit impact damper attached to sinusoidally excited primary system, determining asymptotically stable regions
15 p2714 A69-31144
- Linearized kinetic equation for perturbed electron distribution function, detailing plasma oscillations along magnetic field by Landau collision term
16 p2818 A69-31674
- Satellite gravitational stabilization system with maximum damping rate, discussing orbital plane oscillations
16 p2867 A69-31738
- Forced oscillations of three layer plate used as vibration dampers for engine components
16 p2873 A69-32143
- Nonlinear mechanical systems vibrations damping emphasizing energy dissipation
16 p2874 A69-32245
- Turbomachinery two mode blade vibrations with emphasis on aerodynamic damping, noting shifts in natural frequencies
[ONERA-TP-678]
16 p2733 A69-32333
- Liquid filled toroidal shaped rotating damping tube containing bubble, discussing parameters variation effect on spacecraft nutation
16 p2868 A69-32561
- Nonlinear response of single Helmholtz resonator subjected to finite amplitude pressure oscillations, detailing entrance, orifice and cavitation flow
[AIAA PAPER 69-481]
16 p2844 A69-32719
- Close coupled accumulators for suppressing missile longitudinal oscillations (POGO) developed for Gemini and Titan 3, including pump interaction
[AIAA PAPER 69-547]
16 p2869 A69-32729
- Free-free transverse vibration damping phenomena, calculating strain amplitude dependence of internal friction at various frequencies
17 p3051 A69-32961
- Damped vibrations of elastic open cylindrical shell under arbitrary loading, obtaining mean square of bending from correlation theory
17 p3054 A69-33094
- Main rotor bifilar absorber for vibration reduction during S-61 helicopter flight, describing shake and flight tests
[AHS PAPER 354]
17 p2900 A69-33523
- Oscillations of nonlinear dissipative mechanical system with two degrees of freedom, possessing structural damping at joints between moving masses and base
17 p3064 A69-33915
- Energy dissipation in elastic systems as function of limiting damping characteristics of oscillations
17 p3065 A69-33923
- Scale factor determination for energy dissipation at clamped ends, analyzing geometric parameter and clamping force effect on oscillation damping constant
17 p3065 A69-33927
- Cylindrical aluminum shell dynamic stability, analyzing steady state parametric oscillations, mode shape, frequency, amplitude and damping
17 p3065 A69-33929
- Automatic device for logarithmic damping decrement measurement from vibrograms, showing structural arrangement and electrical circuitry
17 p2976 A69-33931
- Damping properties of turbine blade materials subjected to transverse bending vibrations in vacuum and at high temperatures, including Ti alloys
17 p2990 A69-33932
- Damping, fatigue and optimal heat treatment of Cr-Ni steel for compressor blades operating at temperatures up to 500 K
17 p2990 A69-33933
- Cantilever blades tangential vibrations effect on damping characteristics measured by free vibration excitation and static hysteresis loop
17 p3065 A69-33935
- Vibration modes and damping of rectangular cantilevered prismatic steel rods, showing effects of transverse vibration, material and stress on logarithmic decrement
17 p3065 A69-33936
- Thin walled cantilevered fiberglass reinforced shafts damping characteristics dependence on natural vibration modes and fibers orientation
17 p3065 A69-33938
- Damping constant of sandwich samples with foam plastic filler subjected to torsional and flexural vibrations determined for aircraft design applications
17 p2993 A69-33942
- Energy dissipation in bonded structures, analyzing vibration damping, hysteresis loop and absorption coefficient dependence on deformation energy
17 p3066 A69-33943
- Rotating shafts impact damping efficiency increaseable by providing proper clearance to reduce shaft stress in critical resonance frequency region
17 p3066 A69-33946
- Air resistance effect on transverse vibration damping of flat specimens of heat resistant alloy, duraluminum, Ti, Mo and Nb
17 p2991 A69-33947
- Vibrations damping coefficient for asymptotic stability of inertial navigation system platform, determining stabilization errors
18 p3134 A69-34555
- Soft damping system required by LF vibrational loads
18 p3171 A69-34563
- Vibration-proof devices obtained by relating variance determination errors in selective filter response, modulating process bandwidth and spectral analyzer passband
18 p3109 A69-34584
- Viscous friction damping effect on impact vibrator stability, analyzing boundary region of multiply periodic single impact motion by point mapping
18 p3172 A69-34588
- Machine parts vibration attenuation, discussing input vibration reduction, resonance avoidance, damping, vibrating parts strengthening and shakers
18 p3148 A69-34619
- Structural vibrations characteristics using expression of complex energy applied to structure, discussing coupling between damping modes
[ONERA-TP-724]
18 p3218 A69-34639
- Viscoelastic shaft stability rotating at harmonically variable angular velocity, considering internal and external damping
18 p3224 A69-35300
- Vibration absorber incorporating polymer spring/damping elements for attachment to complex main system, noting butyl rubber as effective and convenient damper material
20 p3620 A69-36996
- Acoustic and internal dampings in freely supported uniform beams of circular and rectangular section, showing frequency dependence and vacuum effect
20 p3620 A69-37062
- Mechanical loss factors calculated by approximation formula from resonance curves of Voigt-Kelvin and Maxwell models
20 p3623 A69-37435
- Storage and loss moduli measurement for laminated glass fiber reinforced epoxy composite beams, discussing moduli prediction
20 p3627 A69-37763
- Optimal control of vibrations of liquid in cylindrical container with vertical generatrix and flat bottom, using dynamic programming
21 p3694 A69-38849
- Optimal control of liquid vibrations in rectangular container moving in horizontal direction, deriving algebraic equations system for optimal functional
21 p3694 A69-38854
- Damped mass spring system response to sonic booms, considering effects of structural damping, total/positive phase duration ratio and N wave rise time
21 p3647 A69-38987

VIBRATION EFFECTS

Propagation, damping, power coupling and plasma heating characteristics of harmonic ion cyclotron waves, noting temperature effects

21 p3777 A69-39455

Dynamics of relay gas jet preliminary vibration damping system of gravity gradient stabilized satellite, allowing for sensor limitations and stabilizer flexural vibrations

21 p3826 A69-39638

Artificial damping of longitudinal winged reentry vehicle motions in earth atmosphere, discussing vibration damper dynamic characteristics

21 p3829 A69-39828

Spacecraft booms thermally induced vibration and flutter, considering damping and solar exposure effects

22 p4043 A69-40545

Harmonic linearization for analyzing dry friction effect on gyroscope stability with free play in mechanical couplings, showing effective damping of natural oscillations

23 p4163 A69-41554

Combination resonance and instability regions of second type for parametrically excited oscillations with nonlinear (cubic) damping

23 p4230 A69-42107

Matrix method for free and forced oscillations of complex linear damping system with known linear vectors

23 p4236 A69-42484

Damping influence on shallow arch static and dynamic snapping under step pressure load

24 p4405 A69-43654

VIBRATION EFFECTS

Vertical vibration stimulation of growth of onion bulbs and mice body weights

01 p0014 A69-10584

In-flight measurement of shock and vibration effects on aircraft and propulsion systems

01 p0084 A69-11051

Human body dynamic response to vibration combined with linear acceleration, noting changes in body mechanical impedance and resonance

01 p0022 A69-11335

Fluctuating radar echoes from cloud targets with vibrating drops, noting amplitude modulation effect of changing cross section on backscattered signals

02 p0208 A69-12021

Resisting forces produced by transverse vibration of rotating disks in viscous fluid

02 p0232 A69-12257

Combustion oscillations in liquid and solid propellant engines, noting destructive effect of LF vibrations and acoustic instability

02 p0305 A69-12494

Thin film lubricant effect on machine dynamic performance, proposing inclusion with machine structure for reducing vibration effect

03 p0435 A69-13948

Vibrational relaxation effects on laminar boundary layer velocity profiles and temperature and on layer thicknesses and wall heat flow downstream of shock wave

08 p1303 A69-20269

Chemical and biological means of safeguarding body of astronaut against ionizing radiation and vibration

10 p1648 A69-23297

Vibrational energy transfer computed for processes in carbon dioxide-nitrogen laser based on vibrational relaxation data

10 p1706 A69-24083

Hydropendulum bearing linear horizontal vibration effect on vertex vibration, analyzing zero initial phase using precession theory

10 p1697 A69-24086

Axial torque effect on critical speeds of continuous rotor with motion described by partial differential equations [ASME PAPER 69-VIBR-52]

10 p1804 A69-24152

Axial vibration effects on frictional losses in gear systems under dry friction or boundary lubrication conditions [ASME PAPER 69-VIBR-15]

10 p1701 A69-24169

Axisymmetric oscillations of two spherical shells with noncoinciding centers of curvature immersed in compressible or incompressible fluids

11 p1875 A69-25467

Longitudinal and transverse frequencies of cylindrical metallic rod with spherical tip for sliding motion with dry friction

12 p2102 A69-26290

Pressure distribution in viscous flow between parallel disks with sinusoidal oscillation, noting effects of oscillation amplitude and vibrating disk velocity [ASME PAPER 68-LUBS-1]

13 p2244 A69-27278

Asymptotic analysis for stability and vibration response of spherical squeeze-film hybrid bearing, obtaining perturbation solutions [ASME PAPER 68-LUBS-37]

13 p2267 A69-27281

Ultrasonic vibrations effect on emission of ruby laser with externally mounted mirrors

13 p2271 A69-27534

Standardization requirement for laboratory and field research into vibration effects on humans, stressing subjective rating and performance measurements

13 p2213 A69-28091

Satellite motion relative to center of mass and resonances by approximate solutions to motion equations, applying asymptotic methods

13 p2357 A69-28502

Physiopathological reactions of humans exposed to infrasonic vibrations applied via auricular canal, observing cardiac and circulatory hemodynamic troubles

13 p2215 A69-28590

Runway roughness induced vibrations in highly flexible aircraft, noting effect on pilot control of aircraft and airframe structure

14 p2392 A69-29504

Machine vibration effects on human operator performance using locomotor model

14 p2409 A69-29742

Vibrostand effects on statistical characteristics of random vibrations of elastic system, discussing simulation techniques

14 p2536 A69-29743

Dynamic vibration effects on guidance and control systems performance determined from spectral densities, cross spectral densities and vibratory environment amplitude distributions

15 p2608 A69-30367

Vertical vibration stimulation of growth of onion bulbs and mice body weights

15 p2555 A69-30754

Weightlessness and vibration effects on soft red winter wheat seedlings

15 p2557 A69-31368

Ultrasonic and mechanical vibration effects on superpure Al and Al-Zn-Mg alloy, showing dependence of breaking stress on cycles

16 p2801 A69-31789

Soviet collection of papers on energy dissipation during vibrations of mechanical systems, covering elastic oscillations, nonlinear systems, energy frequency characteristics, etc

17 p3062 A69-33912

Cantilever blades tangential vibrations effect on damping characteristics measured by free vibration excitation and static hysteresis loop

17 p3065 A69-33935

Aerodynamic energy dissipation during vibrations of bars in airstreams characterized by energy loss per cycle and logarithmic decrement

17 p3066 A69-33948

Mechanical vibration effects on human operation of various decimal input devices

17 p2916 A69-34010

Vibrational deexcitation shocks in expanding nonequilibrium nozzle flows extended to include embedded adiabatic shock

18 p3089 A69-35386

Mechanical vibration effects on human body in industry and in terrestrial, aerial and nautical vehicles, discussing harmful frequencies and safety measures

19 p3259 A69-35605

Vertical vibrations effect on test subjects in supine position, noting human tolerances and mood changes

19 p3260 A69-35986

Standing waves on moon, discussing annular and radial structures of lunar craters and global tectonic patterns

20 p3604 A69-37565

Ultrasonic vibrations effect on emission of ruby laser with externally mounted mirrors

20 p3556 A69-38201

Creep resistance increase of Ni refractory alloy by thermovibrational treatment under stress relaxation conditions

21 p3744 A69-38869

Membrane vibration problems for combined free and forced laminar convection through vertical ducts, obtaining expressions for velocity, temperature and Nusselt numbers

21 p3851 A69-38974

Damaging effects of vibration on materials and parts to estimate fatigue life, considering periodic and non-periodic stress vs time relationships

22 p4041 A69-40167

Whole body LF mechanical vibration effects on anesthetized dogs peripheral circulation and vascular smooth muscle

22 p3875 A69-40228

HF vibrations effect on motion of gyroscopic linear acceleration integrator, showing additional error in flight vehicle acceleration measurements

22 p3946 A69-40250

Ruby laser resonator mirror mechanical vibration effects on emission temporal behavior, spectral output and far field pattern, describing conditions for spiking

22 p3962 A69-40562

Homogeneous, viscous and electrically conducting fluid bounded at one end by infinite plane surface of rigid body vibrating relative to fluid body

22 p3991 A69-41036

Mechanical vibrations and noise effects on acetylcholine concentration, esterase activity and synthesis ability in rat brain

23 p4079 A69-41381

Regression process in acetylcholine level in rats after mechanical vibrations and noise exposure

23 p4079 A69-41382

Feline lung injury produced by vertical sinusoidal vibrations during upright water immersion attributed to chest wall impact

23 p4082 A69-41447

Power flow relations between randomly vibrating systems with weak linear elastic or dissipative coupling

23 p4227 A69-41877

Choking and shock in flashing single component two phase flow in tube, including vibrational effects, predicting minimum stagnation pressure loss [ASME PAPER 69-HT-61]

24 p4303 A69-43535

VIBRATION ISOLATORS

Flexural waves passage through obstacles in infinite plate, determining vibration arresting properties of rigid ribs, elastic inserts and hinged couplings

04 p0678 A69-14902

Resonant beam tuned vibration damping device, noting weight saving potential [ASME PAPER 68-WA/GT-2]

05 p0837 A69-16138

Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass [ASME PAPER 68-WA/DE-6]

05 p0839 A69-16171

Self damped pneumatic vibration isolators by modifying characteristics throughout frequency range, noting inertia block for improving HF behavior

08 p1301 A69-20398

Compact antivibration mounting for carrying instruments, using bicycle tire inner tube around heavy slab to provide elasticity and damping

09 p1502 A69-22692

Active broadband vibration isolation of human subjects from severe vertical dynamic excitations experienced in low level high speed flight [ASME PAPER 69-VIBR-65]

10 p1650 A69-24157

Vibratory acceleration limiting equipment attachment for resonance conditions, utilizing attachment stiffness reduction above predetermined value [ASME PAPER 69-VIBR-23]

10 p1806 A69-24170

Synchronous vibration absorbers using gyroscopic systems, noting antiresonance with Perissogyro [ASME PAPER 69-VIBR-39]

10 p1807 A69-24177

Electrohydraulic vibration isolation systems with feedback, considering band and notch isolation, system stability and adjustable frequency response [ASME PAPER 69-VIBR-40]

10 p1641 A69-24178

Displacement and acceleration criterion for synthesizing optimum linear vibration isolator systems subject to random input [ASME PAPER 69-VIBR-44]

10 p1807 A69-24182

Optimum and suboptimum shock and vibration isolators, discussing three criteria and tradeoff between relative motion and accelerative force [ASME PAPER 69-VIBR-45]

10 p1808 A69-24183

Flexural waves passage through obstacles in infinite plate, determining vibration arresting properties of rigid ribs, elastic inserts and hinged couplings

12 p2182 A69-26655

- Parallel damped dynamic vibration absorbers, modifying conventional absorber by adding subsidiary undamped absorber mass
[ASME PAPER 68-WA/DE-6] 13 p2360 A69-27422
- Rigid structures high damping without loss of rigidity achieved by epoxy resin dampers, noting moderate cost 13 p2370 A69-28601
- Optimal active shock isolation by nonlinear elements for system subjected to shock type loadings, discussing impulse shapes 15 p2713 A69-31019
- Oscillation amplitude of rotor with hydraulic dampers on elastic supports by expanding forced vibration modes with friction in natural modes 16 p2837 A69-32136
- Main rotor bifilar absorber for vibration reduction during S-61 helicopter flight, describing shake and flight tests [AHS PAPER 354] 17 p2900 A69-33523
- Blade vibration damper consisting of springs attached to blade, analyzing resonance stresses on basis of dynamic rigidities 17 p3066 A69-33944
- Laminated critical rate dampers consisting of ring shaped thin corrugated steel plates inserted between bearing and rotor, showing dependence on static load 17 p3066 A69-33945
- Passive helicopter rotor isolation for alleviating rotor induced vibration, using dynamic antiresonant vibration isolator 20 p3463 A69-37807
- Test pad isolation characteristics mathematical model to predict pad dynamic behavior [AIAA PAPER 69-860] 21 p3690 A69-39388
- VIBRATION MEASUREMENT**
- Holographic measurement of sinusoidally vibrating Al sheet, verifying results with Twyman-Green interferometer 01 p0082 A69-10853
- Spadoryc slide rule for damping determination from vibration decay traces, noting use in flight flutter tests 01 p0087 A69-11029
- Shock and vibration data recording, discussing transducer selection, accelerometer mounting, conditioning electronics and recording devices 01 p0083 A69-11050
- In-flight measurement of shock and vibration effects on aircraft and propulsion systems 01 p0084 A69-11051
- Solar limb image vibrations caused by turbulent pulsations in refractive index of lowest atmospheric layers 01 p0156 A69-11183
- Vibrational characteristics of sonar transducer analyzed by optical holographic interferometry 04 p0598 A69-14871
- Decibel scaling advantages in vibration measurements 04 p0602 A69-15324
- Stiffness matrices for buckling or vibration analysis of long thin flat plate structures connected at longitudinal edges 05 p0836 A69-16029
- Glass fiber optical angular displacement noncontacting nonloading transducer suitable for measuring torsional vibrations 06 p0923 A69-16929
- Vibration measurements on rotating machinery, using diode switching potentiometric strain gage circuit and multiple common rings 09 p1496 A69-22014
- Root fixture and grip load effects on cantilever beam damping, using bandwidth and logarithmic decrement measurement methods 10 p1800 A69-23244
- Multichannel miniature telemetry for vibration, strain and temperature measurements in high speed machinery by solid state encapsulated devices 10 p1654 A69-23251
- Forced torsional vibrations of turbine blades calculated by computer using mathematical models for resonance frequencies and tangential stresses 10 p1803 A69-24076
- Flexible cylinder vibration in nominally axial flow, discussing length, mass, flexural rigidity and diameter variation effects on vibration amplitude 11 p1984 A69-25166
- Automatic multichannel system for turbine blades static tests, discussing operation principles, component sections, programmed tape and vibration modes 15 p2672 A69-31209
- Monograph on transmission characteristics of mechanical vibration transducers covering frequency response operators and analog computer simulation 16 p2789 A69-31842
- Calculation of natural twisting and bending vibrations of beam with characteristics varying along length 16 p2873 A69-32130
- Hall generator for measuring mechanical displacements and vibrations of 10 A, describing operating principles and arrangements 17 p2971 A69-33022
- Planetary free vibrations, discussing models for earth, moon, Venus and Mars, rotation and ellipticity effects and measurement on seismometers, gravimeters and magnetometers 17 p3031 A69-33097
- Holography application in gas turbine components stress and vibration analysis, discussing techniques and apparatus usable by nonspecialist and measurement accuracy 17 p2974 A69-33351
- Automatic device for logarithmic damping decrement measurement from vibrograms, showing structural arrangement and electrical circuitry 17 p2976 A69-33931
- Transverse and torsional vibration characteristics of tapered cantilever beams and shafts analyzed by lumped inertia force method 17 p3066 A69-34052
- Vibration measurement by hologram interferometry, explaining interference fringes as linear combination of vibrating object classical modes 18 p3135 A69-34635
- Linear and torsional vibration parameters measuring methods, discussing transducer characteristics 22 p3943 A69-39926
- Noise and vibration levels measured in An-24 Polish passenger aircraft indicating excess noise in crew compartment 22 p3862 A69-40005
- Digital systems for acoustical or vibrational measurements reception and evaluation 22 p3945 A69-40168
- Field transfer matrices for simultaneous treatment of free and forced vibrations and buckling through axially loaded Timoshenko beam 23 p4234 A69-42400
- Truncated conical sandwich shell suspended in free-free condition measured and analyzed for vibrational characteristics 23 p4235 A69-42462
- Matrix method for free and forced oscillations of complex linear damping system with known linear vectors 23 p4236 A69-42484
- Three layered circular plate under harmonic excitation, analyzing forced vibrational characteristics by variational principle and Ritz method 23 p4236 A69-42495
- VIBRATION METERS**
- NT LUNAR SEISMOGRAPHS
- NT SEISMOGRAPHS
- Gyroviator /angular rate measuring device/, discussing output signal and natural frequency dependence on moments of inertia 01 p0083 A69-11004
- Evaluation tests of fixed frequency variable tension vibroscope for filaments and wires, noting instrument errors and corrections 04 p0599 A69-15018
- Transverse sensitivity ratio of vibration transducer, discussing measurement by shaker method 04 p0603 A69-15432
- Complex mechanical vibrations causes determined by sensor signals analysis 16 p2876 A69-32434
- Piezoelectric shaker consisting of combination of damped resonant cylindrical elements for wide frequency calibration of vibration pickups 17 p2975 A69-33665
- Friction bearing vibration recording device using light beam and photodiode 20 p3539 A69-37436
- VIBRATION MODE**
- NT UNCOUPLED MODES
- Geometrical existence proof of elastically coupled nonlinear systems normal mode vibrations demonstrated by existence of extremal arcs in Riemann space 01 p0166 A69-10232
- MHD waves and toroidal mode existence by mathematical approximation 02 p0236 A69-11430
- Combustion instabilities in solid propellant rocket engines, emphasizing acoustic types for longitudinal and tangential modes 02 p0303 A69-11531
- Tunnel diode oscillations in switching mode due to sinusoidal voltage excitation, discussing critical applied signal frequency separating switching and oscillation modes 02 p0213 A69-11535
- Modal substitution method for free vibration analysis of large discrete undamped dynamic systems 02 p0338 A69-11747
- Transit time and anomalous modes of oscillation in high pulsed power punch-through Si avalanche diode microwave oscillators 02 p0216 A69-12145
- Nonisothermal space charge wave analysis of transit time mode oscillations in bulk GaAs, studying device reactance at given negative resistance 02 p0299 A69-12240
- Localized vibration modes of defects and IR absorption bands in compensated Si doped GaAs 02 p0299 A69-12402
- Transverse mode selection effects on wave front of long pulsed ruby laser beam 02 p0257 A69-12409
- Gyroscopically induced vibrational response of rectangular plates and membranes, determining spin and precession effects on natural frequencies 02 p0347 A69-12519
- Low and high power pi-mode Laddertron oscillator design operation and performance characteristics 03 p0405 A69-13726
- Stability of steady motion of body with cavity containing one or several nonmixing liquids as problem of bounded oscillations about motion 03 p0418 A69-13815
- Matrix-harmonic method for vibration study of mechanisms and machines 03 p0468 A69-13860
- Matrix-harmonic method of vibration study extended to include autonomous vibrations of single degree of freedom machines 03 p0468 A69-13861
- Magnetoelastic vibrations of fluid filled cylindrical cavity in infinite solid medium in presence of uniform axial magnetic field 03 p0528 A69-13927
- Equations for self oscillating mode of operation for O-type backward wave generator with electrostatically focused electron beam and finite values of amplification parameter 03 p0407 A69-13986
- Natural frequencies and mode shapes of coupled bending vibrations of pretwisted rectangular cross section beams determined by Rayleigh-Ritz energy method 03 p0529 A69-13989
- Oscillation mode selection in gas lasers by thin film absorber in resonator, using standing wave electric fields periodicity 04 p0610 A69-14384
- Beam vibration problems with mixed response-excitation input information solved by recasting equations of motion [AIAA PAPER 68-319] 04 p0676 A69-14711
- Normal modes and natural frequencies of combined linear elastic structures resting on immovable base 04 p0678 A69-14870
- Axisymmetric oscillation modes and frequencies of hemispherical shell partially filled with liquid, using moment theory of shells 04 p0679 A69-14922
- Torsional or longitudinal vibrations of nonuniform bar with elastic end constraints, developing frequency and mode form equations suitable for computer 04 p0681 A69-15196
- Frequencies and natural oscillation modes in sporting gliders, demonstrating horizontal oscillation induced aileron suspension brackets destruction 04 p0549 A69-15416
- Testing techniques and graphical presentation of test results to determine resonant frequencies and oscillation modes in sporting gliders 04 p0549 A69-15420
- Nonlinear steady state vibration of single degree of freedom system, obtaining relationships between non-dimensional pi parameters of differential equation of motion [ASME PAPER 68-WA/DE-7] 05 p0839 A69-16172
- Orthogonality of natural oscillation modes of shells of arbitrary geometry, using equations of motion from Vlasov engineering moment theory 05 p0840 A69-16200

Buildup modes of He-Ne laser in presence of other strongly oscillating modes, noting gain interaction effects

05 p0773 A69-16289

Self locking of three laser modes in He-Ne laser on basis of Lamb theory

05 p0773 A69-16290

Dynamic instability of solid bodies, using modal vibration method to establish criteria on basis of equivalent energy conditions

05 p0844 A69-16742

Natural frequencies and modes of skew membranes obtained by Rayleigh-Ritz method

06 p1021 A69-17146

Geometrically exact finite element for thin shells of revolution, using approximation to predict boundary layer stress distribution during vibration [AIAA PAPER 69-56]

06 p1029 A69-18193

Holographic interferometry, determining mechanical vibration amplitudes of compressor and turbine blades and airframe panel [SAE PAPER 690265]

07 p1130 A69-18313

Oscillators and amplifiers based on intervalley electron transfer in bulk GaAs

07 p1096 A69-18442

Current and voltage waveforms of transit time, resonant domain and LSA modes of operation of transferred-electron oscillators

07 p1097 A69-18443

Oversized GaAs Gunn effect diodes operated in L and S bands at harmonics of fundamental transit time frequency with high power and efficiency

07 p1196 A69-18444

Avalanche diode oscillators efficiency of continuous wave operation in transit time mode and high current multiresonant modes

07 p1098 A69-18456

Natural modes and eigenfunctions of low amplitude oscillation determined by Ritz averaging method for ideal fluid with equilibrium surface in weak force field

07 p1119 A69-18746

Dielectric surface loading on GaAs for suppressing traveling high field domain mode oscillations

08 p1371 A69-19911

Quenched multiple domain mode oscillations in GaAs microwave diodes noting relationships between efficiency, power output, negative resistance and bias voltage

08 p1282 A69-20107

Amplitude dependent internal friction of materials under inhomogeneous strain, giving values for torsional, free longitudinal and transverse vibration modes

08 p1331 A69-20175

Resonant frequencies, vibration modes and stress distributions for naturally vibrating plane wide blades of turbomachines

08 p1376 A69-20764

Plasma oscillation modes perpendicular to magnetic field used to study energy conversion by wave coupling across density discontinuity

08 p1367 A69-20795

Axisymmetric vibration modes of cylindrical-hemispherical membrane tank partly filled with liquid [AIAA PAPER 67-75]

09 p1482 A69-21940

Vibration natural frequencies and mode shapes in cylindrical shells clamped at both ends, using fundamental differential equation under dynamic surface loading

09 p1618 A69-22274

Van der Pol nonlinear oscillation theory adapted to microwave reflex klystrons, explaining locked and unlocked monotonic operational modes

09 p1466 A69-22444

Gunn effect cavity controlled generator oscillations, noting phase trajectory closing conditions dependence on resonant mode parameters

09 p1468 A69-22596

Intensity distribution in principal mode of TEM oscillations at various gain amplification levels, plotting intensity distribution generated by argon ion CW laser

09 p1520 A69-22685

Modulated wave holography for detecting and reconstructing ultrasonic beam path, noting applicability to vibrating objects analysis

10 p1694 A69-23368

Nonradial oscillation modes of massive stars determined by Ritz method application to variational principle, allowing for gravitational perturbation

10 p1785 A69-24036

Infinitesimal bending oscillations and/or responses of thin rotating disks applied to thin disk galaxies, discussing Magellanic Cloud passage near galactic center

10 p1786 A69-24110

Natural frequencies and mode shapes for longitudinal oscillations of liquid filled elastic circular cylindrical tank with flexible inverted conical bulkhead [ASME PAPER 69-VIBR-11]

10 p1806 A69-24165

Holographic mode shapes used in conjunction with mechanical impedance approach for vibration analysis of turbine blades [ASME PAPER 69-VIBR-32]

10 p1806 A69-24174

Differential equations for effect of sinusoidal force with slowly varying frequency on dynamic behavior of nonlinear vibrator, using phase surface technique

11 p1916 A69-24760

Free vibration modes of infinite uniform plate in linear coupled theory of thermoelasticity, considering heat transfer conditions

11 p1976 A69-24793

Liquid filled elastic shells natural frequencies and oscillation modes, deriving eigenfunction system from liquid velocity potential boundary conditions to determine dynamic load

11 p1870 A69-24951

Nonlinear free vibration of beams with clamped and supported ends subjected to axial load, considering symmetric and antisymmetric modes

11 p1983 A69-25024

Semiatuator disk method for boundary layers and velocity of stall flutter cascade blades vibrating in transient mode, considering nonstall flutter

11 p1818 A69-25028

Nonlinear resonance formation during spatial nonlinear vibrations of solid bodies, establishing relations between vibration and excitation frequencies

11 p1919 A69-25167

Axisymmetric vibration modal properties/frequencies and mode shapes of thin conical shell frustums, considering dimensional and boundary condition influences

11 p1992 A69-25519

Dynamic analysis of axisymmetric ring stiffened shells with attached asymmetric elastic structures, noting vibration modes

11 p1993 A69-25525

Multidimensional mode shapes and frequencies of 100 ft space erectable parabolic antenna

11 p1994 A69-25532

Resonant vibrational energy transfer between specific mode of carbon dioxide and N molecules at high temperatures, monitoring IR emission

12 p2131 A69-25984

Single mode laser oscillations buildup for 0.633 micron transition of He-Ne laser at levels above threshold using fast intracavity chopper

12 p2105 A69-26318

Natural vibration modes of linearly tapered rectangular plates, approximating plate characteristic shapes with series of products of beam characteristic shapes

13 p2358 A69-27211

Thin cylindrical shell vibration with three supports analyzed by minimizing Lagrangian of vibration, obtaining frequencies and modes

13 p2359 A69-27257

Vibration modes in four lowest natural frequencies of clamped rectangular plates with linear thickness variation, using Ritz method

13 p2361 A69-27442

Linear oscillation modes of premain sequence star model of pure hydrogen composition with variable specific heats ratio, discussing dynamic instability of polytropes

13 p2336 A69-27449

Vlasov equations solved for electrons and ions in electromagnetic field, coupling electric field to density oscillation modes of plasma

13 p2306 A69-27461

Stationary vibration modes of systems subject to nonlinearities using finite sums of Fourier series

13 p2361 A69-27615

Delta modulated control system model for determining oscillation modes at sampling instants

13 p2221 A69-27962

Frequency equation for thickness effects on axisymmetric radial and rotatory vibrations of empty or fluid filled isotropic spherical shell

13 p2363 A69-28185

Oscillation mode selection in gas lasers by thin film absorber in resonator, using standing wave electric fields periodicity

14 p2456 A69-28757

Ruby laser filled with single emission mode of oscillation using uniform pumping

14 p2458 A69-29164

Orthonormal aspect on vibration modes for nonuniform beams, evaluating normalization for end conditions by using Rayleigh technique

14 p2534 A69-29319

Thermally excited diurnal wind oscillations in lower mesosphere using model atmosphere in CIRA 1965, discussing daytime ozone density profiles

14 p2441 A69-29379

Equation system for asynchronous MHD generator operating in self oscillating mode derived and solved

14 p2405 A69-29457

Bladed disk assemblies vibrational properties discussing dynamic characteristics of system with pair of close natural frequency modes under forced vibration

15 p2704 A69-30304

Aerospace structures modal vibration tests data acquisition including multishake excitation methods

15 p2585 A69-30358

Natural frequencies and modes of complex structures composed of beam elements, considering hysteretic damping for response and transmissibility

15 p2706 A69-30431

Valence force constants for nitric acid evaluated from fundamental mode vibration spectra by matrix method

15 p2561 A69-30467

Circular curved foil steady oscillations near screen in semiinfinite space filled with incompressible fluid transformed into equivalent linearized problem

15 p2547 A69-30576

Mode-mode coupling calculation for finite amplitude collisional drift waves demonstrating inherently nonlinear phenomena

15 p2660 A69-30916

Structural influence coefficients from vibration test modes and frequencies, eliminating errors by Gram-Schmidt orthogonalization

16 p2872 A69-31916

Turbomachinery two mode blade vibrations with emphasis on aerodynamic damping, noting shifts in natural frequencies [ONERA-TP-678]

16 p2733 A69-32333

Cylindrical viscous jet transition points from stable to unstable modes of oscillation found same as for inviscid jet

16 p2773 A69-32570

Plane oscillations of liquid in rectangular elastic vessel determined to obtain frequencies and mode shapes of natural oscillations from velocity potential boundary conditions

17 p2950 A69-33200

Frequency and mode shapes of conical shell free oscillations related to shell parameters and boundary conditions

17 p3058 A69-33201

Test stand for free oscillations frequencies and mode shapes of truncated conical shells of revolution with clamped edges and one free edge

17 p3058 A69-33202

Superdense stars torsional oscillations and crystallization among nuclei from comparison with melting temperature and transverse shear wave velocities of dense conventional matter

17 p3037 A69-33643

Complete spherical shells nonsymmetric vibrations frequencies and mode shapes calculated by matrix method

17 p3061 A69-33706

Generalized energy absorption coefficient effect on vibration mode of specimen on vibration test bench

17 p3062 A69-33718

Cantilever blades tangential vibrations effect on damping characteristics measured by free vibration excitation and static hysteresis loop

17 p3065 A69-33935

Vibration modes and damping of rectangular cantilevered prismatic steel rods, showing effects of transverse vibration, material and stress on logarithmic decrement

17 p3065 A69-33936

Thin walled cantilevered fiberglass reinforced shafts damping characteristics dependence on natural vibration modes and fibers orientation

17 p3065 A69-33938

Natural frequencies and vibration modal shapes of asymmetrical airfoil blades analyzed by differential equations of motion, noting flexure coordinates center variations effect

17 p3067 A69-34053

Single freedom vibratory system response to imposed displacement harmonic excitation, analyzing response in terms of constrained system modes

17 p3067 A69-34139

Vibration measurement by hologram interferometry, explaining interference fringes as linear combination of vibrating object classical modes

18 p3135 A69-34635

Structural vibrations characteristics using expression of complex energy applied to structure, discussing coupling between damping modes
[ONERA-TP-724]

18 p3218 A69-34639

Natural frequencies and mode shapes of vibration of cylindrical shells orthogonally stiffened with rings and stringers

[AIAA PAPER 68-349]

19 p3437 A69-35948

Gas laser oscillation mode selection and self synchronization based on separation in two mirror cavity with nonlinear absorption

19 p3336 A69-36350

Steady resonance operation modes of nonlinear oscillatory and rotational systems described by differential equations with deviating argument, using averaging procedure

19 p3374 A69-36469

Coupled dilatational and equivoluminal modes of free vibration for elastic prisms and polygonal plates, using Poisson ratio and wave path construction

19 p3444 A69-36801

Vibration response approximation of three layer sandwich beam with nonlinear viscoelastic material core during flexural vibrations

20 p3619 A69-36910

Rectangular cross section pretwisted beams modal curves for turbine and compressor blading vibrational studies

20 p3621 A69-37080

Vibration analysis, using rigid body and normal modes to solve interconnection problem, applied to free-free natural vibration modes of clustered rockets

20 p3621 A69-37195

Aeroelastic instabilities of aircraft in flight by representing motion in space function base, using natural vibration mode
[ONERA-TP-697]

20 p3626 A69-37755

Acoustoelastic interaction effects of sonic bangs on natural frequencies response of large windows backed by closed cavity

21 p3836 A69-38988

Holography applied to stress and vibration analysis of gas turbine blades, disks and small components

22 p4040 A69-39960

Normal radial vibrations in Newtonian and general relativistic stellar objects and dynamic instability, determining modes and natural frequencies

22 p4014 A69-40142

Small curvature effect on prevention of vibration in shallow shells under random loading numerically analyzed for component modes using linear theory

22 p4044 A69-40600

Bernstein modes initial value-boundary value problem for half space of plasma bounded by wall and parallel unperturbed magnetic field

23 p4196 A69-41875

Axisymmetric vibration of shallow spherical caps, using nonlinear dynamic equations and associated variational equation of motion for elastic spherical shells
[ASME PAPER 69-APMW-6]

24 p4402 A69-43107

VIBRATION PERCEPTION

Visual observation of surface vibration nodal patterns by incoherent light illumination of object, noting holography

12 p2099 A69-27176

VIBRATION PICKUPS

U TRANSDUCERS

VIBRATION SIMULATORS

Discrete model for investigating beam vibration under various end conditions, determining natural frequency dependence on degrees of freedom

02 p0336 A69-11462

Equalization of multiple electromagnetic shakers for environmental vibration testing, using analog computer
[JPL-TR-32-1364]

02 p0229 A69-12374

Transverse sensitivity ratio of vibration transducer, discussing measurement by shaker method

04 p0603 A69-15432

Vibration machine as vibration environment simulation for product reliability testing, analyzing spectrum of acceleration waveforms

12 p2060 A69-26940

Vibrostand effects on statistical characteristics of random vibrations of elastic system, discussing simulation techniques

14 p2536 A69-29743

Multiple shaker ground vibration test system for confidence in helicopter designs before flight testing and evaluation of force balancers

15 p2585 A69-30357

Electromagnetic vibration exciters based on permanent magnet and AC coil interaction

16 p2790 A69-32077

Machine for testing vibration stability of polymer samples subject to tension or compression, noting stability of plastic during vibration lower than during static loading

17 p2972 A69-33043

Temperature and pressure effect on cobalt base alloy cavitation in liquid sodium, using vibratory apparatus and loss rate contour diagram

18 p3157 A69-35184

Random vibratory environment simulation for spectra, noting electrodynamic generator employed to excite electric field force

19 p3294 A69-35904

VIBRATION TESTS

NT DAMPING TESTS

Equalization of multiple electromagnetic shakers for environmental vibration testing, using analog computer
[JPL-TR-32-1364]

02 p0229 A69-12374

Sound radiation from vibrating bodies, noting errors in Lighthill conclusion

02 p0282 A69-12800

Optimal design of vibration tests based on decision theory
[SAE PAPER 680753]

03 p0525 A69-13436

Ground vibration testing of flight and space vehicles, noting structural damping asymmetries and nonlinearities

04 p0585 A69-14833

Modal response analysis of servocontrols as deduced from vibration test, for possible application to aircraft
[ONERA-TP-668]

06 p0869 A69-17100

Design criteria for vibration testing facility in Rome, giving block diagram of equipment at facility

08 p1301 A69-20159

Dynamic tests of mechanical properties of polyamide Taron X-A using free and resonant vibrations methods

09 p1528 A69-21496

Rotating twisted blades vibrations, deriving equations and vibration tests with models

09 p1618 A69-22236

Computerized shake test facility for Saturn 5 moon rocket, describing data acquisition, magnetic tape units, X-Y plotters, display devices, etc

10 p1672 A69-23285

Testing machines for metallic materials, discussing design criteria and application to tensile strength, vibration and durability test machines
[DVL-865]

11 p1889 A69-25682

Unbalance effects on rigid naval turborotor on oil film bearings in flexibly mounted housings investigated at varying critical speeds and housing stiffness
[ASME PAPER 69-DE-9]

14 p2453 A69-28839

Aerospace structures modal vibration tests data acquisition including multitask excitation methods

15 p2585 A69-30358

Vibration/acoustics environmental testing, discussing advantages of digital computer control system and digital noise generation techniques

15 p2586 A69-30387

Vibration/acoustics digitally controlled environmental testing, describing configuration and operation of control system and statistical requirements for noise generation

15 p2587 A69-30388

Vibration/acoustics digitally controlled environmental testing, describing random test signal generation and random vibration tests

15 p2587 A69-30389

Resonant fixtures used for mechanical amplification of vibrator output to desired test levels

15 p2588 A69-30404

Automatic multichannel system for turbine blades static tests, discussing operation principles, component sections, programmed tape and vibration modes

15 p2672 A69-31209

Complex mechanical vibrations causes determined by sensor signals analysis

16 p2876 A69-32434

Supersonic flutter in square panels and cylindrical shells, measuring critical dynamic pressure

17 p3051 A69-32923

Elastic stability of warped rods, using small oscillations method for varying end conditions and torsional moment vector behavior

17 p3057 A69-33196

Generalized energy absorption coefficient effect on vibration mode of specimen on vibration test bench

17 p3062 A69-33718

Forced vibration testing of complex continuous systems, demonstrating suppression of certain resonant frequencies due to laboratory techniques

18 p3114 A69-34422

Multidimensional discrete control systems for spectral characteristics of random processes in vibrational and fatigue strength testing of machines and equipment

19 p3286 A69-35890

Tensional and torsional forced vibration tester for viscoelastic plastic materials under tensile strain

21 p3720 A69-38591

Transfer matrix symmetry about secondary diagonal in vibration analysis useful for computer programming

22 p4040 A69-39938

MIL-STD-781A vibration requirements, using mechanical shakers for AGREE vibration testing

22 p3954 A69-40036

Frequency response transient vibration testing of standing man, discussing data analysis procedure, test stand, and Welch correction for instrument dynamics

23 p4101 A69-41494

VIBRATIONAL RELAXATION

U MOLECULAR RELAXATION

VIBRATIONAL SPECTRA

Fine structure of vibrational spectra of molecular H and O, water and deuterium oxide, using molecular photoelectron spectrometer

01 p0023 A69-10141

Intermolecular collision induced vibration to vibration energy transfer in nitrous oxide in various gas mixtures, measuring fluorescence and relaxation rates

01 p0123 A69-10684

Discrete model for investigating beam vibration under various end conditions, determining natural frequency dependence on degrees of freedom

02 p0336 A69-11462

Inverse population of vibrational levels generation in polyatomic molecules

02 p0259 A69-12647

Raman effect in liquid glycerol obtained with 4880 A ionized argon laser, determining valence vibrational frequencies

03 p0440 A69-13366

Phonon states effective density in neodymium trichloride from vibronic spectra accompanying electronic transitions in trivalent Pr and Nd ions

03 p0473 A69-13907

Statistical energy approach for analyzing steady state vibration distribution in composite structures in terms of energy balances

04 p0675 A69-14687

Thermal and ablative lag induced by periodic heat input to oscillating flat plate in high velocity flow, showing crossover from dynamically stabilizing to destabilizing condition as oscillation frequency increases
[AIAA PAPER 67-336]

04 p0685 A69-14720

Franck-Condon factors in radiative, excitation and ionization molecular transitions of oxygen, carbon monoxide, nitric oxide, etc

05 p0795 A69-15664

Dissociation energy and vibrational terms of ground state hydrogen

05 p0796 A69-15908

Vibrational excitation by electron impact in kinetic energy range 30-60 eV studied for water vapor and carbon dioxide, determining intensities relative to elastic scattering

06 p0960 A69-17108

Carbon dioxide Q switched laser nonlinear amplification characteristics in vibrational-rotational bands

06 p0933 A69-17118

Absorption oscillator strengths for rotational lines in Lyman transition vibrational bands of molecular hydrogen from equivalent widths measured photoelectrically

06 p0962 A69-17818

Laser excited vibrational fluorescence for determining vibrational energy transfer rates in HCl-carbon dioxide, HCL-HI and HI-carbon dioxide

07 p1144 A69-18289

Angular velocity of rotation measurement using angular gas laser undergoing axial torsional vibrations

07 p1147 A69-18523

Competition effects between rotational levels of carbon dioxide rotation-vibration band in traveling and standing wave lasers
[IEEE PAPER G-6]

07 p1151 A69-19055

Nonhomogeneity effect on transverse vibrational frequency of uniform beams

08 p1413 A69-20413

Vibrational excitation in He, H and N ion- molecule collisions on nitrogen first negative system, studying relative band intensities

08 p1356 A69-20739

CW helium-neon laser used to detect and measure vibration frequencies of uniform diffuse surfaces

09 p1515 A69-21430

Coaxial cylindrical shells oscillation frequencies with interspace filled with incompressible liquid determined as functions of liquid level and interspace width

09 p1612 A69-21483

Hydroxyl luminescence spectrographic observations at twilight in vibrational-rotational band from 10600 to 11200 Å

10 p1681 A69-22847

Nonlinear resonance formation during spatial nonlinear vibrations of solid bodies, establishing relations between vibration and excitation frequencies

11 p1919 A69-25167

Vibration eigenfrequencies of helicopter blades, discussing equation integration problems

11 p1995 A69-25673

Molecular vibration absorption spectra from variation of field emitted electron energy distribution due to inelastic electron-molecule interaction at metal-vacuum interface

12 p2132 A69-26097

Plasma-electron beam interaction induced HF oscillations, obtaining nearly noise free oscillations

12 p2137 A69-26529

Vibration and absorption bands in IR spectra of diborene hydrazine stabilized by boiling in benzene

12 p2027 A69-26917

IR spectroscopic observations of moon to interpret molecular vibration spectra in terms of molecular composition, discussing rock surface roughness effects

13 p2341 A69-27582

Free and forced vibrations of elastic layer, using iteration procedure based on asymptotic integration of linear theory of elasticity dynamic equations

13 p2363 A69-28126

Lifetime of vibrational levels of carbon dioxide molecules as function of discharge current and power dissipation, noting gas heating

13 p2273 A69-28579

Nonlinear homogeneous uniaxial ferromagnetic resonance, analyzing stationary regime lifetime and vibrational spectrum

14 p2503 A69-28989

Electron energy distribution functions and energy transfer rates to inelastic levels of carbon dioxide and nitrogen in laser

14 p2460 A69-29603

FM oscillations spectral width during modulation by finite sequences of multiple and nonmultiple frequencies

15 p2562 A69-30116

Dynamic vibration effects on guidance and control systems performance determined from spectral densities, cross spectral densities and vibratory environment amplitude distributions

15 p2608 A69-30367

Valence force constants for nitric acid evaluated from fundamental mode vibration spectra by matrix method

15 p2561 A69-30467

RF spectra for hyperfine structure of ortho-hydrogen molecular ion, calculating doubling constant for vibrational effects

15 p2693 A69-30784

Wave reflection in laser resonators with ferrite end faces, determining oscillation spectra and wave amplitudes

15 p2579 A69-30954

Perturbation formula for frequencies as function of Poisson coefficient, considering vibration modes of elastic body subject to boundary conditions

15 p2713 A69-31097

Relative intensities of lines in vibration and rotation bands of isotopic carbon dioxide in planet Venus, tabulating partition functions

15 p2656 A69-31154

Franck-Condon factors for band systems of molecular hydrogen, computing wave functions for vibrational levels using potential energy function, Part II

15 p2656 A69-31157

Vibrational excess entropy in dilute solid solutions alloys calculated by changes in potential fields surrounding impurity atoms

16 p2798 A69-31706

Photoinduced shock processes involving metastable hydrogen atoms and molecules, discussing vibrational and rotational levels

16 p2813 A69-31754

Vibrating objects phase determined by time average and real time holographic interferometry

17 p2974 A69-33324

Mechanical single degree of freedom system mean square response to AM random noise, considering frequency response, input excitation spectrum, etc [ASME PAPER 69-APM-25]

18 p3214 A69-34398

Beam torsion nodal line displacement dependence on flexural and torsional bending frequency

18 p3223 A69-34998

Intensity changes in visible sidelight emission from carbon dioxide laser switched on and off, calculating vibrational temperatures

18 p3153 A69-35243

Random vibratory environment simulation for spectra, noting electrodynamic generator employed to excite electric field force

19 p3294 A69-35904

Rate coefficient for primary process in removing molecular nitrogen in high vibrational levels from active nitrogen by N atoms

19 p3379 A69-36424

Central tuning dip on rotation-vibration transitions of nitrous oxide and carbon dioxide laser with nitrogen, noting frequency discriminator generation

19 p3339 A69-36698

Vibration phenomena analysis by transfer function computer, discussing precision spectrum analyzers

20 p3498 A69-37003

Vibrational temperature of low density nitrogen measured by electron beam method, discussing relationship to ratio of integrated vibrational band intensities

20 p3579 A69-37222

He-Ne laser oscillation frequency shifts with variations in DC discharge ascribed to changes in populations of He and Ne levels

20 p3556 A69-38124

Peak power ranges of Q switched CO-air-He molecular laser, noting recovery time and CO vibrational temperature

21 p3742 A69-39742

Rectangular waveguide with periodic array of infinitely thin metallic strips, studying intrinsic oscillations critical frequencies and amplitude spectrum

23 p4124 A69-42036

Book on interaction between oscillatory systems and energy source of limited capacity, examining stability and resonance phenomena

23 p4170 A69-42166

Upper atmosphere OH molecules vibrational temperature and total emission energy, measuring average seasonal variations

24 p4308 A69-43007

Computerized spectral analysis of vibrational frequency due to elastic waves in isotropic hollow spherical shells [ASME PAPER 69-APMW-8]

24 p4402 A69-43106

Herzberg bands synthetic spectra matched to various spectrograms to determine vibrational populations of molecular O state in nightglow

24 p4310 A69-43186

VIBRATIONAL STRESS

Blade natural frequency distribution around rotor and mechanical coupling between blades effects on flexing amplitudes under forced vibration [ASME PAPER 68-WA/GT-3]

05 p0837 A69-16139

Amplitude dependent internal friction of materials under inhomogeneous strain, giving values for torsional, free longitudinal and transverse vibration modes

08 p1331 A69-20175

Fuel concentration effect on turbojet engine reheat jet pipe vibrations via tests

09 p1573 A69-22616

Viggen computer development, stressing reliability towards aircraft vibrations

15 p2577 A69-30620

Crack analysis in stiffened vibrating plate based on dynamic stress distribution, showing high bending stresses at intersection

18 p3223 A69-35168

Mechanical vibration effects on human body in industry and in terrestrial, aerial and nautical vehicles, discussing harmful frequencies and safety measures

19 p3259 A69-35605

Damaging effects of vibration on materials and parts to estimate fatigue life, considering periodic and non-periodic stress vs time relationships

22 p4041 A69-40167

VIBRATORS

U ELECTRIC CHOPPERS

VIBRATORY LOADS

Laminated plates vibrational characteristics calculations by transition matrices, relating stresses and displacements under load

04 p0679 A69-14907

Material selection for structures under vibration loads, analyzing fatigue strength on basis of stress susceptibility and relationship with tensile strength

09 p1620 A69-22574

Strength hypothesis for structures under multiaxial vibration load, taking into account plane stress state

09 p1620 A69-22575

Laminated plates vibrational characteristics calculations by transition matrices, relating stresses and displacements under load

12 p2182 A69-26660

External and internal energy dissipation coefficients in vibrating aerodynamic rod structures

14 p2537 A69-29748

Lifetime of structural plastics under vibration loading, considering polystyrene and polyformaldehyde samples under tension

15 p2643 A69-30972

Fiberglass reinforced plastic tensile strength dependence on vibration time and temperature and vibrational effect on modulus of elasticity

15 p2643 A69-31203

Facility for determining energy dissipation in materials under cyclic stresses or strains for wide range of temperatures

17 p2946 A69-33925

Mean stresses effect on fatigue strength by specimens vibratory/tensile mean stress diagram combining Goodman line and Gerber parabola merits with increased accuracy

17 p3067 A69-34197

Soft damping system required by LF vibrational loads

18 p3171 A69-34563

Axisymmetric Lamb wave propagation in semi-infinite micropolar elastic solid, considering time varying load on half space boundary

24 p4406 A69-43730

Forced parametrically excited periodic vibration of finite length plate in plane supersonic flow, considering periodic forces applied at edges

24 p4407 A69-43733

VIBROCARDIOGRAPHY

U PHONOCARDIOGRAPHY

VIBROMETERS

U VIBRATION METERS

VICKERS VC-10 AIRCRAFT

U VC-10 AIRCRAFT

VICKERS 1100 AIRCRAFT

U VC-10 AIRCRAFT

VIDEO COMMUNICATION

Light valving techniques applied to large screen display of computer generated video information, noting electron beam control mechanism for transmitted light

06 p0928 A69-17922

Analog video processor in omnidirectional radar system for flight safety, discussing construction, transistorization and circuitry

08 p1276 A69-20605

Maximum errors of telemetering systems under interchannel transient distortions in multistage amplifier of video signals

22 p3899 A69-40250

Nonlinear encoding for picture transmission using nonlinear analog to digital converter

23 p4119 A69-41747

Optical communication through random atmospheric turbulence via heterodyne and video detection, estimating performance from optical wave propagation analysis

23 p4125 A69-42186

VIDEO DATA

Digital computer system for storing, processing and displaying TV pictures

01 p0077 A69-10024

Satellite digital video data analyzed by two dimensional filter computer technique, discussing biomedical applications

02 p0213 A69-12155

Adaptive compression system for predicting and encoding video data for transmission in noiseless channel

03 p0427 A69-12869

Delay line bandwidth reduction for video or digital information, noting radar tracking application

03 p0392 A69-13251

Synchronous extractor for simultaneous extraction and association of primary and secondary radar videos

in civil system, discussing automatic identification process

05 p0721 A69-16592

Satellite picture signal reception from ESSA, Nimbus and ATS to ascertain instrument requirements

06 p0888 A69-17651

Light valving techniques applied to large screen display of computer generated video information, noting electron beam control mechanism for transmitted light

06 p0928 A69-17922

Optical/mechanical IR line scanner imagery role in remote sensing

12 p2096 A69-26979

Digitized video cloud picture data from ESSA satellite, discussing mesoscale archive and computer products including time averages and composites

19 p3279 A69-35810

Buffer storage for telemetry nonstationary video data compression, analyzing requirements, predictor algorithm and variable aperture control using simulation

19 p3272 A69-36260

Receiving and display telemetry system for obtaining direct ionospheric topside ionograms from Alouette 1 satellite, discussing video data tape recording cost

20 p3507 A69-37861

Automatic discriminator design for identifying distorted image in noise based on ideal transmitter and use of split scanning beam

23 p4163 A69-41551

VIDEO EQUIPMENT

Statistical analysis of cascade of bandpass limiter, ideal phase detector and video filter for mathematical modeling of coherent communication systems

07 p1084 A69-19147

Density measurements of particle tracks in nuclear emulsions utilizing digitized video scan, discussing operation and instrumentation

[IEEE PAPER 2A-7] 07 p1133 A69-19185

Atmospheric turbidity and visibility measuring instrument /videograph/ using light backscattering, noting shipboard, coast guard service, large cities and weather stations applications

08 p1314 A69-20376

Monograph on computer aided air traffic control systems design, discussing air navigation, man-machine relations, equipment requirements, programs, plan position color display, etc

11 p1914 A69-25085

Radar target simulator approximating pulse radar receiver output for evaluating amplitude-sensing video target detection devices

17 p2921 A69-33629

Variable time lapse videoscintiscopes in medical applications, discussing implementation of TV camera, signal tape recording and audio activation

18 p3134 A69-34541

Image intensifiers and orthicons, plumbicons, vidicons as photoelectric devices in TV auroral observation from ground stations and jet aircraft

21 p3706 A69-38484

VIDICONS

Silicon vidicon for near IR and visible radiation viewing describing spectral response, energy transfer characteristics, resolution and dark leakage currents

09 p1466 A69-22456

Surveyor 7 TV system in photon integration mode, analyzing slow scan vidicon storage characteristics and dark current limitations

[SMPTE PAPER 105-72] 12 p2078 A69-25772

One inch ceramic vidicon with slow scan photoconductor, electrostatic focusing and magnetic deflection to withstand sterilization and environmental testing for space applications

13 p2234 A69-28262

Pulsating and flaming auroral patches recorded by image intensifier vidicon camera, calculating upward field aligned speeds for luminosity enhancement

16 p2780 A69-32305

Image intensifier and return beam sections of 4.5 inch high resolution vidicon and camera system for high definition signal readout

17 p2976 A69-34063

X ray TV system with electronic-optical converter and X ray vidicon for industrial defectoscopy

18 p3138 A69-35113

TV camera tubes with electron beam scanning adapted to IR imaging, emphasizing vidicon

19 p3311 A69-36069

Balloon flights for testing remote sensor systems prior to space flight, considering return beam vidicon and tracking telescope suitability for experimentation

22 p3865 A69-40806

VIEW EFFECTS

Electro-optical tracking device with pyramidal reflector for field of view dissection, determining dead zones and trajectories for pointing error correction

10 p1698 A69-24219

Wide view angle holocamera to produce 360 degree hologram in strips for simultaneous image reconstruction from single laser beam

20 p3536 A69-36932

VIGNETTING

Vignetting effect on impulse response of general coherent optical Fourier processor, noting time varying character and input position sensitivity

12 p2036 A69-25912

VIKING LANDER SPACECRAFT

Thermal control coatings, windows and mirrors for 1973 Mars Viking Lander vehicles under simulated Martian surface conditions

[AIAA PAPER 69-1023] 22 p3923 A69-40393

VINYL CYANIDE

U ACRYLONITRILES

VINYL ETHYLENE

U BUTADIENE

VINYL POLYMERS

Polyvinyl acetate and polyvinyl alcohol thermoplastic adhesives, discussing gluing properties, chemical properties, preparation, polymerization methods

14 p2469 A69-29347

VIOLENCE

U ATTACKING [ASSAULTING]

VIRO STAR CLUSTER

H alpha emission line in nucleus of Virgo A radio galaxy observed on spectrograph, estimating gas electron density and mass

09 p1588 A69-21360

Virgo XR-1 rocket observations, presenting count rate histograms, differential photon spectrum and X ray and M87 core radio spectra

15 p2701 A69-31535

Four color photoelectric photometry of bright galaxies in Virgo Cluster, analyzing properties in nuclear regions

16 p2860 A69-32230

H alpha emission line in nucleus of Virgo A radio galaxy observed on spectrograph, estimating gas electron density and mass

18 p3197 A69-34750

Spiral galaxy linear diameter relation to luminosity applied to Virgo galactic clusters, noting effect on distance modulus and Hubble constant

19 p3427 A69-36652

IC 3258 emission line spectrum observations, discussing blueshift, extragalactic location, possible nature, etc

23 p4219 A69-42374

VIRIAL THEOREM

Second virial coefficient of plasma at arbitrary temperature, noting small Coulomb interaction

02 p2292 A69-12639

Second virial coefficient of atomic nitrogen and oxygen, discussing thermodynamic properties of dissociating mixtures

03 p0473 A69-14158

Second dielectric virial coefficient of rare gases derived by cluster method

04 p0632 A69-14865

Rotating stellar models oscillation and stability approximated by virial equations

07 p1220 A69-19389

Physical conditions of intergalactic space in Local Group using virial theorem and assuming energy equipartition, discussing temperature, ionized hydrogen density, turbulent motions, etc

08 p1381 A69-19795

Virial theorem extended to investigate star condensations in large interstellar gas clouds

10 p1787 A69-24119

Force-free magnetic field integral properties, obtaining rate of decrease limitation via virial theorem

11 p1951 A69-24239

Gas-gas interactions second virial coefficients measured at various temperatures, comparing experimental data with results calculated by Kihara potential

14 p2488 A69-29927

Radio galaxy Messier 87 mass determined using virial theorem for nucleus velocity dispersion

15 p2695 A69-30883

VIRTUAL PROPERTIES

Virtual power principles applied to solving force acting on fluid consisting of colloidal suspension of polarized particles in neutral vehicle

12 p2136 A69-26404

VIRTUAL WORK

U EQUILIBRIUM

VIRUSES

NT BACTERIOPHAGES

Cosmic radiation interactions with living viruses, considering X ray effects and optimal radiation dosage for cancer cell destruction

01 p0013 A69-10157

Unique sequence of oligonucleotides located in tobacco mosaic virus ribonucleic acid

03 p0370 A69-13461

Viruslike particles in fat body cells and oenocytes of *Drosophila melanogaster* imagoes, in glial cells of cephalic ganglionic center of flies and in gamma radiated cells

23 p4091 A69-42021

Altered gaseous environments effect /parabrosis/ on interferon production in mice injected with Newcastle disease virus, noting hypoxia role

24 p4262 A69-42888

Inoculum dose effect on complement-fixing antigen production, heat lability and separation from BHK-21 cells infected with lymphocytic choriomeningitis virus

24 p4263 A69-43336

VISCERA

NT ADRENAL GLAND

NT BLADDER

NT ESOPHAGUS

NT INTESTINES

NT KIDNEYS

NT LIVER

NT LUNGS

NT ORGANS

NT PINEAL GLAND

NT PITUITARY GLAND

NT RECTUM

NT STOMACH

NT THYROID GLAND

Visceral afferent pathways influence on vasopressin secretion, ADH levels and urinary excretory patterns of dogs during surgical stress

05 p0708 A69-15970

VISCOELASTIC CYLINDERS

HF pressure waves dispersion in blood vessels ascribed to viscoelastic behavior of walls

02 p0204 A69-12602

Heating effects produced by periodic stresses in viscoelastic bodies with resonance dispersion, considering torsional oscillations of viscoelastic cylinders

06 p1019 A69-16826

Frequency response from linearized dynamic equations for viscous incompressible fluid flow in viscoelastic tubes, discussing transfer gain

08 p1304 A69-20704

Heat generation in thin viscoelastic cylindrical shell with relaxation and resonance dispersion during torsional vibration

11 p2000 A69-25168

Volterra integral equation with nondifference type singular kernel for stress-strain state in long hollow viscoelastic cylinder with moving inner boundary

13 p2361 A69-27744

Plane strain solution for thick walled viscoelastic cylinder bonded to thin elastic shell from deformation rate and strain, including inertia effects

16 p2871 A69-31876

Creep calculation with temperature considerations for multilayer cylinder under nonisothermal load, comparing stress-strain state of viscoelastic and elastic cylinders

18 p3225 A69-35358

Ronay effect in reversed cyclic torsion or tension in thin cylindrical viscoelastic tube showing creep under sustained load

20 p3625 A69-37596

Stress analysis of hollow viscoelastic cylinder reinforced with elastic helically wound wires

[ASME PAPER 69-APMW-23] 24 p4401 A69-43096

VISCOELASTIC DAMPING

U ELASTIC DAMPING

U VISCOUS DAMPING

VISCOELASTIC FLOW

U VISCOELASTICITY

VISCOELASTICITY

NT PHOTOVISCOELASTICITY

NT THERMOVISCOELASTICITY

Nonlinear viscoelastic bodies arising in 3d rheological models with hidden parameters behaving according to law compatible with objectivity and 2nd thermodynamics principles

01 p0171 A69-11131

Unsteady slow rotational motion of viscoelastic liquid contained between two concentric spheres rotating with constant angular velocities

02 p0230 A69-11563

Thermodynamic foundations of permanent deformation theory, noting parallel to viscoelastic material theory
02 p0350 A69-11714

Viscoelastic materials thermomechanical behavior, discussing constitutive equation and derivation of stress tensor and entropy density from viscoelastic potential
02 p0344 A69-12294

Idealized slider bearings with Maxwell liquid as lubricant, analyzing elasticity effects on pressure, load capacity and friction
02 p0253 A69-12413

Time dependent viscoelastic stress distribution in two phase composite material, using plane stress model for approximation
02 p0348 A69-12540

Automatic determination of relaxation and retardation spectra for linearly viscoelastic materials from experimental data using simple numerical techniques
02 p0348 A69-12605

Elastoviscous flow in curved channels, analyzing nonNewtonian effects for case of circular and elliptic walls
02 p0234 A69-12608

Asymptotic constitutive approximations for rapid finite deformation of general viscoelastic materials, noting isotropic solids and fluids
03 p0523 A69-13020

Mechanical and optical viscoelastic characterization of Hysol 4290 epoxy polymer as function of time and temperature, using creep test data
03 p0524 A69-13064

Twisted yarns composed of continuous viscoelastic filaments dynamic response under periodic strain effect on dynamic modulus
04 p0619 A69-14686

Viscoelasticity effect on tensile stress in absorption layer for free surface uniaxial motion
04 p0676 A69-14705

Stability of circular cylindrical viscoelastic and elastic shells with local effects due to radial load on circumference or thermally induced tangential stress
04 p0680 A69-14928

NonNewtonian hydrodynamics equations for non-linearly viscous and viscoelastic media, analyzing dependence on rheological model
05 p0745 A69-15786

Constitutive equation for viscoelastic materials generalized, assuming instantaneous part of deformation to be nonlinear function of time dependent stress state
05 p0835 A69-15868

Coupled heat equation to calculate transient and steady state temperature distributions in viscoelastic solids under cyclic deformations
05 p0836 A69-15878

Frequency dependent shear modulus for hexachlorobiphenyl measured under rare gas infusion at 5-25 C and from ambient atmospheric to 4000 psi
05 p0796 A69-15912

Resonant beam tuned vibration damping device, noting weight saving potential
[ASME PAPER 68-WA/GT-2]
05 p0837 A69-16138

Tension stress and shearing strain vs time for simultaneous stress relaxation and creep in polyurethane
[ASME PAPER 68-WA/APM-8]
05 p0839 A69-16186

Book on continuum mechanics covering elasticity, fluid mechanics, plasticity and viscoelasticity, emphasizing basic concepts
05 p0843 A69-16713

Temperature dependence of dynamic viscoelastic properties of plasticized epoxy resins
06 p0946 A69-17125

Secular equation for Couette flow stability in incompressible viscoelastic fluid
06 p0909 A69-17240

Free energy in linear viscoelastic solids
06 p1022 A69-17241

Longitudinal and transverse vibrations of viscoelastic rods excited by inertia with aid of linear oscillator subjected to harmonic stress, using Kelvin-Voigt model
07 p1233 A69-19326

Reciprocity, variational and uniqueness theorems developed within linear theory of coupled thermoviscoelasticity
07 p1233 A69-19327

Anisotropic stress analysis of creep in theory of linear viscoelasticity
07 p1234 A69-19381

Flow fracture and rheological properties of viscoelastic material under biaxial loading
07 p1202 A69-19386

Axially loaded viscoelastic constrained bar instability for large deformation
07 p1235 A69-19440

Viscoelastic rod model of human spine subjected to accelerations
07 p1072 A69-19725

Generalized approximate method for solving problems in linear viscoelasticity theory to cover arbitrary creep and relaxation centers
08 p1412 A69-20327

Viscoelastic problem solutions for hereditary media, using Laplace transforms or solutions of integral equations for inaccurately approximated kernels
08 p1412 A69-20329

Uniqueness theorem for equations of dynamics of viscoelastic bodies, using energy and hereditary elasticity considerations
08 p1415 A69-20658

Bounds for real and imaginary parts of dynamic moduli of composite viscoelastic systems
08 p1417 A69-20824

Viscoelastic properties of heterogeneous media of composite sphere model type obtained from shear modulus formula
08 p1417 A69-20825

Large deflections and associated moments in circular ring of linearly viscoelastic material subjected to small strains
09 p1615 A69-21925

Linear viscoelastic bending of anisotropic plates based on equation for Voigt plate, considering elliptic and rectangular plates
10 p1793 A69-22881

Short memory elasticoviscous fluid motion in and around oscillating spherical shell
10 p1800 A69-23240

Forced vibrations of elastic beam covered by viscoelastic layer subjected to transverse harmonic excitation
10 p1800 A69-23241

Laminar elasticoviscous flow of liquid with short memory in two dimensional channel with porous walls
10 p1680 A69-23668

Elastomeric solid propellant grains viscoelastic flow, analyzing stresses and strains under various operating conditions and rocket engine geometry effect
10 p1801 A69-23702

Elongational viscosity coefficient determined from tensile measurements of materials under applied stress
10 p1681 A69-23976

Damping properties of nonlinear viscoelastic solids with applications to vibrating continua, using Gauss principle of least constraints
11 p1970 A69-24605

Book on strength and failure of viscoelastic materials covering linear and three dimensional polymers or polymer-based materials, flexibility and temperature effects
11 p1970 A69-24610

Modulus of elasticity changes and stress relaxation spectra of viscoelastic liquids measured by acoustic methods
11 p1887 A69-25206

Transient dynamic response of linearly viscoelastic structures and continua, presenting finite element displacement formulation
11 p1993 A69-25528

Viscoelastic models for solving longitudinal oscillations of one degree of freedom system under dynamic load, taking into account energy dissipation
12 p2177 A69-25995

Correlation between temperature and stress field in thermal buckling of square viscoelastic Maxwell plates under random temperature
12 p2188 A69-27113

Torsional testing facility for delayed elastic and non-recoverable strains in materials, noting application to diffraction limited reflecting optics
13 p2240 A69-27955

Tension stress and shearing strain vs time for simultaneous stress relaxation and creep in polyurethane
[ASME PAPER 68-WA/APM-8]
13 p2362 A69-28121

Isothermal deformations in linear viscoelastic material under uniaxial stress, determining optimum strain rate history for maximum work lower bound
15 p2707 A69-30637

Viscoelastic half space properties effect on self excited vibration boundaries determination
16 p2873 A69-32063

Energy method determining sufficient conditions for fluid motion stability described by infinitesimal theory of viscoelasticity, restricting analysis to confined fluids or periodic velocity field
17 p2949 A69-33015

Normal stress effects in viscoelastic fluid theories applied to one dimensional Burgers model of weak turbulence predicting drag reduction
17 p2951 A69-33256

Damping techniques using viscoelastic materials, discussing mechanical hysteresis
17 p2992 A69-33660

Axisymmetrical vibration characteristics of circular sandwich shell with viscoelastic core layer analyzed via differential equation to obtain frequency equation and composite loss factors
18 p3211 A69-34327

Local stability of viscoelastic shells of revolution under axisymmetric loads, discussing asymmetric snapthrough of dome
18 p3216 A69-34573

Transverse vibrations of thin linear viscoelastic rectangular plate of constant thickness resting on elastic medium
18 p3223 A69-35171

Linearity range of viscoelastic properties of fiberglass reinforced plastics, calculating stress-strain state
18 p3163 A69-35364

Dynamic reciprocity relationship for linear directed continuous viscoelastic media, using Stieltjes convolution
19 p3373 A69-36307

Uniqueness theorems for energy methods solution of equations of dynamic thermoelasticity and viscoelasticity
19 p3439 A69-36470

Nonlinear rotational viscoelastic membranes creep rupture and failure found dependent on function of accumulated energy and power dissipation during deformation
19 p3444 A69-36806

Equations of deformation for elastoviscoplastic bodies with different properties under loading and unloading conditions
19 p3445 A69-36812

Finite element displacement method using elastic analogy applied to viscoelastic materials plane stress analysis
19 p3445 A69-36830

Vibration response approximation of three layer sandwich beam with nonlinear viscoelastic material core during flexural vibrations
20 p3619 A69-36910

Viscoelastic materials gradual resilience loss under tensile stress, discussing mathematical relations between stress, loading time, elastic deformation and experimental verification
20 p3625 A69-37600

Viscoelastic nonlinear and linear solids models and rheological equations, studying stress-strain states of various complex Hookean, Kelvin, Maxwellian and Zener elements
20 p3625 A69-37601

Nonlinear viscoelastic material properties evaluation from experimental data with illustration for polymers, deriving equations from thermodynamic principles
20 p3626 A69-37719

Constitutive equation for nonlinear viscoelastic materials, noting validity for short times, slow motions or small deformations
21 p3840 A69-39288

Constitutive equations for homogeneous viscous fluid and Kelvin-Voigt viscoelastic solid in electromagnetic field, using linear irreversible thermodynamics and continuum mechanics
21 p3851 A69-39289

Final period of decay for viscoelastic fluid in homogeneous isotropic turbulence, deriving expressions for double correlation function and energy decay
22 p3928 A69-39891

Gupta stability solution extended to liquid anisotropic viscoelastic films, analyzing surface and shear wave perturbations in material structures
22 p3929 A69-39893

Load transfer to sheet metal plate from bonded strip axially loaded by single force, assuming linear viscoelastic adhesive layer
22 p4038 A69-39896

Viscoelastic fluid steady flow in porous walled channel, examining mass flow solution continuity
22 p3930 A69-40118

Viscoelastic properties of lenses extracted from cats and dogs analyzed as function of displacement using computer simulation
22 p3883 A69-40875

Positive solutions of parabolic and hyperbolic partial differential equations arising as viscoelastic media equations of motion, noting maximum principle utilization
22 p3976 A69-41035

One dimensional shock waves and acceleration fronts in nonlinear isotropic viscoelastic materials using constitutive equations

23 p4235 A69-42463

Law of mixture governing creep strength of composite materials reinforced unidirectionally by continuous filaments, taking into account fibers and matrix viscoelastic properties

24 p4400 A69-43054

ISCOMETERS

Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect

04 p0679 A69-14905

Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect

12 p2182 A69-26658

Microrheological property of blood measured with microglass fiber viscosimeter, noting sensitivity to intercellular friction of erythrocytes

23 p4098 A69-42100

ISCOMETRY

Human blood viscosity measurement over wide range of shear rates, obtaining rheological data, suggesting osmotic red cell crenation role

23 p4095 A69-42078

ISCOPLASTIC FLOW

U VISCOPLASTICITY

ISCOPLASTICITY

Temperature evolution velocity parameter effect on behavior of elastoviscoplastic solids, noting demonstration by work hardening tests at variable temperatures [ONERA-TP-644]

01 p0164 A69-10036

Thermodynamics of viscoplastic materials under dynamic loads within framework of continuum mechanics of materials with memory

02 p0343 A69-12281

Crystal dislocation motion in viscous media, discussing velocity stress behavior and measurements by etching and ultrasonic attenuation methods

02 p0343 A69-12285

Elastic/viscoplastic wave propagation in thin tubes under combined stress of tension and torsion, using viscoplastic constitutive equations

02 p0344 A69-12293

Spherical wave reflection from nondeformable plane in elastic viscoplastic medium

03 p0528 A69-13926

Propagation of longitudinal transverse loading and unloading waves (with cylindrical symmetry) in non-homogeneous elastic/viscoplastic medium, accounting for plastic dilatational strains

03 p0528 A69-13929

Technique for compressive mechanical behavior of viscoplastic nonlinear composites, discussing rate dependence and one dimensional stress-strain time properties

07 p1159 A69-18721

Quasi-linear differential constitutive equation of work hardenable elastoviscoplastic material in case of plane wave propagation in half space

08 p1415 A69-20662

Thermodynamics of strain rate sensitive elastoviscoplastic solids, considering kinematic description of plastic deformation and choice of state variables

11 p1994 A69-25601

Three dimensional harmonic dispersion analysis of incremental waves in uniaxially prestressed plastic and viscoplastic bars, plates and unbounded media

13 p2363 A69-28125

Reflection of spherical stress wave against smooth in-deformable plane in elastoviscoplastic medium, discussing Taylor series expansions for displacement, velocity and stress fields

18 p3226 A69-35463

Closed form solutions for rigid viscoplastic cylindrical shell under dynamic loading based on constitutive equations for rate sensitive plastic material

19 p3439 A69-36478

Equations of deformation for elastoviscoplastic bodies with different properties under loading and unloading conditions

19 p3445 A69-36812

Viscoplastic thermomechanically coupled systems stability, considering effects of heat transfer to surroundings and heat capacity in material regions below yield

20 p3625 A69-37591

VISCOSITY

NT EDDY VISCOSITY

NT GAS VISCOSITY

Viscous effects of neutrinos in anisotropic cosmological models examined using Boltzmann equation with simple collision term

01 p0148 A69-10053

Viscoseal sealing coefficient and friction factor under turbulent flow conditions [ASLE PREPRINT 68AM 5B-1]

01 p0087 A69-10911

Low temperature effects on calf thymus deoxy-nucleoprotein, crystalline egg albumin and fibrillar actin, noting molecular weight and viscosity changes

01 p0018 A69-11089

Energy transfer and viscosity coefficients during gas molecular interactions, using spherical monatomic gas molecules model

03 p0415 A69-13419

Solid viscosities effects on dynamic load factors of ring and hollow sphere subject to uniformly distributed impulsive loads along inner and outer edges

03 p0530 A69-14089

Electron viscosity coefficient in weakly turbulent plasma in strong magnetic field, noting electrical and thermal conductivity

03 p0480 A69-14136

Prigogine-Nicolis-Misguich transport theory tested with inert gas liquids and compared with Rice-Allnatt theory, based on modified Lennard-Jones potential model

04 p0589 A69-14863

Temperature dependence of viscosity and density in molten thallium sulfide, noting structural changes absence in short range order

04 p0643 A69-14998

Thermal diffusion coefficient and composition of gas mixtures by measuring gas flow rate in capillary tube as function of viscosity

04 p0688 A69-15410

Viscosity coefficient tensor in terms of autocorrelation functions, using linear reaction theory of mechanical disturbances

05 p0794 A69-15785

NonNewtonian hydrodynamics equations for non-linearly viscous and viscoelastic media, analyzing dependence on rheological model

05 p0745 A69-15786

Liquid oxygen shear viscosity dependence on temperature and pressure obtained by measuring electrical characteristics of immersed torsional vibrating crystal

05 p0846 A69-15916

Book on fluid mechanics fundamentals and applications covering incompressibility and compressibility effects, viscosity, hydrostatics, aerostatics, one dimensional, potential, turbulent flow and boundary conditions

07 p1121 A69-19376

Viscous stress tensor for collisionless plasma with anisotropic pressure in magnetic field

08 p1365 A69-20522

Self gravitating incompressible fluid sphere free oscillations, deriving characteristic equations for arbitrary viscosities

09 p1481 A69-21790

Molybdenum fiber sintering activation by adding nickel, noting decrease in impact viscosity

10 p1711 A69-23336

Thermal convection in earth mantle with temperature and pressure dependent viscosity, considering mechanisms for fluid-like mantle

10 p1682 A69-23412

Steady state spherically symmetric model for solar plasma acceleration with distance, showing essential role of viscosity

10 p1769 A69-23899

Viscosity-temperature chart for hydrocarbons permitting linear extrapolations into low viscosity high temperature regions

10 p1753 A69-23975

Elongational viscosity coefficient determined from tensile measurements of materials under applied stress

10 p1681 A69-23976

Crack propagation through layer of viscous fibers joining orthotropic elastic half planes

10 p1803 A69-24029

Metal fatigue at elevated temperatures concerning viscosity, energy loss and stress, strain and temperature cycling

10 p1803 A69-24043

Variational calculation of coefficients of viscosity, thermal conductivity, thermal diffusivity and diffusion in binary mixture

11 p1997 A69-24285

Turbulent viscosity and thermal conductivity coefficients for entire cross section of fluid flow including wall boundary layers

11 p1873 A69-25228

Book on negative turbulent viscosity theory covering laboratory analysis and applications to earth and solar atmospheres, oceanic circulations, spiral galaxies and solar nebula

12 p2131 A69-26868

Turbulence constant for flows near walls, analyzing viscosity dependence on wall distance by utilizing maximum stability principle

15 p2590 A69-30048

Plasma viscosity relation to stellar magnetic fields generation, taking into consideration angular momentum transfer

15 p2700 A69-31492

Langevin equation for interacting molecule system derived by Fourier transformation of Hamiltonian, noting physical correspondence to equation for shear viscosity in monatomic liquids

16 p2815 A69-32370

Nonnewtonian solid propellant viscosity and pseudoplasticity utilizing rheological characterization for optimal casting and pot life determination [AIAA PAPER 69-518]

16 p2833 A69-32665

Mathematical model of yielding of adhesive bonds in form of viscous threads between elastic bodies, obtaining solution to two dimensional problem

18 p3215 A69-34569

Quasi-static crack growth in viscous bodies analyzed by continuum mechanics, rheological models and energy equation, discussing fine structure

18 p3215 A69-34570

Viscosity coefficient tensor in terms of autocorrelation functions, using linear reaction theory of mechanical disturbances

18 p3173 A69-35037

Shaft speed limitations on close clearance seals, using test data on changes in fluid viscosity causing contact and damage [ASLE PAPER 68-LC-13]

21 p3731 A69-38763

Dilute solution of He 3 in He 4 near absolute zero measured for viscosity, showing temperature effect

21 p3772 A69-39582

Polystyrene melt tensile viscosity prediction from shearing viscosities, using rheological network rupture theory

21 p3753 A69-39730

Free convection of capillary fluid at vertical plate, allowing for temperature dependence of viscosity coefficient

21 p3854 A69-39843

Solid viscosities effects on dynamic load factors of hollow sphere subjected to uniformly distributed impulsive loads, using three element model

22 p4044 A69-40598

Forced convection liquid flow past heated flat plate with variable viscosity and thermal conductivity, analyzing velocity and temperature distribution in boundary layer

22 p4051 A69-40685

Starting process in nozzle with one dimensional flow treated numerically by finite difference method using pseudoviscosity term

22 p3860 A69-40926

Blood viscosity as possible key factor in physiology and pathology of circulation, suggesting causes of myocardial infarction and coronary occlusion

24 p4261 A69-42725

VISCOUS DAMPING

Viscous damping of internal waves on rotating earth, analyzing spatial propagation attenuation in two layer system

02 p0247 A69-12775

Single degree of freedom structural damping estimations from viscous and hysteretic energy dissipation data

03 p0523 A69-12947

Constrained layer damping and conventional techniques combination for vibration and noise control

04 p0606 A69-14691

Linear mechanical systems idealized by single degree of freedom system with viscous damping subjected to combined deterministic and random excitation

04 p0680 A69-14968

Root fixture and grip load effects on cantilever beam damping, using bandwidth and logarithmic decrement measurement methods

10 p1800 A69-23244

Vibration control by alternate layers of high damping viscoelastic material, discussing damping and loss factors, beams design and attachment

15 p2622 A69-30704

Vibrations attenuation by viscoelastic sandwich shear damping, discussing examples of aircraft equipment racks, gyro and airborne circuit board mountings

15 p2622 A69-30705

Temperature, velocity and density perturbation propagation as heat convection wave in viscoelastic thermally compressible heat conducting fluid, analyzing damping and frequency spectra
16 p2878 A69-31952

Nonlinear response of single Helmholtz resonator subjected to finite amplitude pressure oscillations, detailing entrance, orifice and cavitation flow [AIAA PAPER 69-481]
16 p2844 A69-32719

Damping techniques using viscoelastic materials, discussing mechanical hysteresis
17 p2992 A69-33660

Viscous friction damping effect on impact vibrator stability, analyzing boundary region of multiply periodic single impact motion by point mapping
18 p3172 A69-34588

Boundary layer method for calculation of viscous damping coefficients for small amplitude progressive waves propagating in nonhomogeneous fluid
23 p4153 A69-42408

VISCOUS DRAG

Viscous liquid layer flow down inclined plane under boundary conditions, taking into account drag and penetration at porous bed surface
02 p0234 A69-12774

Velocities, accelerations and drag forces on spheres falling along center line in viscous fluid, considering different Reynolds numbers and Stokes approximation range
05 p0788 A69-15725

Viscous hydrodynamical equations for flow field exterior to obstacle moving with constant velocity, discussing force relationships, drag invariance and integral representations
07 p1121 A69-19298

Integral representation for velocity and pressure fields produced by horizontal motion of two dimensional bodies below or on free surface of viscous liquid
11 p1866 A69-24278

Viscous drag reduction - Conference, Dallas, September 1968
17 p2950 A69-33247

Turbulence measurements and roughness effects on viscous drag reduction with polymer solution in pipe flow, discussing friction factor, wall velocity profile, etc.
17 p2951 A69-33252

Concentration, flow rate and tube diameter effects on viscous drag reduction in nonpolar soap solutions, using pressure drop measurements to observe turbulent flow behavior
17 p2951 A69-33253

Linear oscillations of sphere in compressible viscous fluid with slip at surface, noting drag variation
19 p3297 A69-35836

VISCOUS FLOW

NT BOUNDARY LAYER FLOW
NT BOUNDARY LAYER SEPARATION
NT COUETTE FLOW
NT DETACHED FLOW
NT SECONDARY FLOW
NT SEPARATED FLOW
NT STOKES FLOW

Viscous electrically conducting fluid with aligned magnetic field flowing past flat plate at nonzero angle of attack
01 p0126 A69-10163

Heat conduction in viscous fluid flows with large concentration of suspended solid particles
02 p0351 A69-12052

Exact solutions for Navier-Stokes equations for nonsteady incompressible viscous flow near two dimensional or axisymmetrical stagnation point
02 p0233 A69-12527

Hydrodynamic analysis for determining steady flow region with closed separation area for Reynolds numbers to describe viscous mixing by Prandtl equations
02 p0190 A69-12570

Viscous effects on impact pressure measurements in free jet low density gas flows at high Mach numbers
02 p0234 A69-12633

Analysis of solution of Navier-Stokes equations describing two dimensional flow of viscous incompressible fluid by finite difference techniques and introduction of curl
03 p0416 A69-13652

Problem of viscous supersonic flow past blunt bodies based on Navier-Stokes equations formulated and solved numerically with explicit difference scheme
03 p0363 A69-13653

Turbulent fluctuations of viscous sublayer of two dimensional flow, assessing wall shear stress spectrum
04 p0587 A69-14544

Steady flows of incompressible viscous fluid exterior or interior to circular cylinder
04 p0589 A69-14898

Ekman boundary layer problem of steady axisymmetric viscous incompressible flow between infinite coaxial rotating disk, studying laminar range of Taylor number R
05 p0744 A69-15665

Circulation, geometry and viscosity effects on speed of surge in bathtub vortex
05 p0744 A69-15718

Peculiarities of aerodynamic characteristics of flow past plate and pointed and blunt slender cones in viscous hypersonic thermodynamically ideal gas
05 p0699 A69-16673

Viscous MGD channel flow in boundary layer approximation with heat conduction, transforming resultant partial differential equations set to system of ordinary differential equations
06 p0966 A69-17523

Pressure distribution, heat transfer rates and shear stresses in laminar boundary layer of supersonic viscous flow incident on corner point of body
06 p0861 A69-17641

Ellipsoids of revolution in viscous flow at very low Reynolds number, determining optimum shapes and minimum resistance values
06 p0911 A69-17780

Chemical nonequilibrium, mass transfer and viscous interaction effects on spherically blunted cones at hypersonic conditions, emphasizing stagnation point [AIAA PAPER 69-168]
06 p0862 A69-18047

Pressure distribution determined from laminar viscous-inviscid interactions in supersonic flow, including flows with heat transfer [AIAA PAPER 69-7]
06 p0913 A69-18095

Time dependent technique for inviscid blunt body flows to analyze viscous rarefied shock layer regime, using Navier-Stokes equations [AIAA PAPER 69-139]
06 p0865 A69-18173

Xenon flash lamps with electrolytic capacitors designed for photographic studies of laminar flows of viscous fluids
07 p1116 A69-18259

Motion of viscous incompressible fluid in interspace between rotating and parallel fixed permeable plane having supplementary fluid injection solved by Navier-Stokes equations
07 p1119 A69-18743

Navier-Stokes equations for steady rotational motions of incompressible viscous fluid at small Reynolds numbers between rotational surfaces
07 p1119 A69-18748

Stationary viscous incompressible fluid flow past rough surface, noting solution stability and friction stress determination for given pressure gradient
07 p1119 A69-18751

Unsteady conducting incompressible viscous fluid flow past plate in magnetic field, analyzing surface friction reduction
07 p1192 A69-19018

Heat transfer in horizontal and vertical tubes with viscous gravity flow with boundary conditions
07 p1243 A69-19733

Approximation method applied to closed viscous streamline flow in rectangular cavity, discussing constant shear stress boundary conditions
08 p1304 A69-20811

Solid cylindrical body entrainment by viscous incompressible fluid flow in tube under constant pressure gradients and absence of gravitational force
10 p1678 A69-23366

Numerical solutions for incompressible Newtonian flow around circular cylinder for various Reynolds numbers
11 p1867 A69-24279

Viscosity and electrical conductivity effects on axisymmetric instabilities of current carrying annular cylinder of mercury
11 p1923 A69-24292

Turbulent flow problems, discussing hot-wire techniques, viscosity effect, compressibility surface curvature, turbulent boundary layers, heat transfer, etc.
11 p1871 A69-25017

Viscous flow stability in rotating pipe, giving velocity components in cylindrical polar coordinates
11 p1871 A69-25125

Aerodynamic characteristics of flat plate in viscous hypersonic flow incident at zero or small angle of attack, using numerical integration
11 p1820 A69-25471

Hypersonic viscous gas flow past thin bodies, deriving equations for interactions between boundary layer and external flow
11 p1820 A69-25472

Supersonic nozzle design ensuring desirable flow field in inviscid core of viscous gas flow, using boundary layer equations
11 p1820 A69-25473

Self similar axisymmetric and plane laminar viscous gas channel flows noting exponential or hyperbolic law of decrease in static pressure along channel
11 p1875 A69-25482

Viscous flow-induced vibrations of elastically restrained flat plates in narrow channel, considering one dimensional viscous flow theory
11 p1991 A69-25515

Navier-Stokes equations for compressible gas, generalizing viscous channel flow of heat conducting gas to slip flow of rarefied gas
12 p2061 A69-25887

Pressure distribution in viscous flow between parallel disks with sinusoidal oscillation, noting effects of oscillation amplitude and vibrating disk velocity [ASME PAPER 68-LUBS-1]
13 p2244 A69-27278

Expansion of stream function of steady meridional flow of viscous fluid at small Reynolds numbers, giving expansion in spherical coordinates
13 p2247 A69-27737

Wall shear stress measurement by evaporating liquid film, determining optimum liquid viscosity
13 p2375 A69-27793

Numerical method for time dependent compressible Navier-Stokes equations applied to axisymmetric flow field produced by hypervelocity impact, examining viscous effects [AIAA PAPER 69-354]
13 p2366 A69-28288

Demixed layer at wall in shear flow of nonsedimenting suspensions with different geometries due to viscous and inertia effect superposition
13 p2251 A69-28498

Nonreacting turbulent far wake problems, discussing centerline decay of viscosity models, similarity profiles and radial distributions at various Mach numbers
13 p2200 A69-28500

Model to study viscous flow characteristics in channel with porous walls and constant suction, noting non-monotonic velocity profile
14 p2429 A69-29015

Rate equation for effective turbulent viscosity variations, considering effects of generation, convection, diffusion and decay in quasi-parallel shear flows
15 p2591 A69-30905

Numerical approximation of Taylor vortices in viscous incompressible fluid flow between concentric rotating cylinders, using truncated eigenexpansions
15 p2593 A69-31518

One dimensional viscous magnetofluid dynamic flow in annulus formed by concentric cylindrical electrodes, reducing problem to linear partial differential equation set [AIAA PAPER 69-725]
17 p3012 A69-33493

Viscous convergent-divergent nozzle flow slender channel approximations, discussing roles of nozzle geometry, Reynolds number and wall temperature, calculating velocity, enthalpy, etc [AIAA PAPER 69-654]
17 p2894 A69-33502

Low Reynolds number solutions for incompressible viscous flows resulting from finite disk steady rotation
18 p3121 A69-34784

Similarity solutions of viscous transonic equation describing spiral and radial flows, containing shock-like transitions of corresponding inviscid solutions
18 p3121 A69-34787

Viscous electrically conducting fluid flow around thin profiles for equal Reynolds and magnetic Reynolds numbers, using Oseen method to linearize equations
18 p3124 A69-35285

Flow viscosity and heat conduction effects on shock wave propagation in bent channel with weak Mach reflection
18 p3124 A69-35326

Asymptotic solution of supersonic linearized nonisentropic flow of viscous and heat conducting gas with internal heat sources past cylindrical shell, deriving surface pressure
18 p3089 A69-35460

Viscous incompressible fluid flow around semi-infinite oscillating plate and skin friction on infinite cylinders oscillating parallel to length
19 p3237 A69-35620

Boundary conditions of incompressible fluid viscous flow on semi-infinite plate edge defined using difference methods for Navier-Stokes equations
19 p3299 A69-36394

Nonequilibrium laminar heat transfer in viscous flow of chemically unstable gases past blunt body and plate
20 p3513 A69-37087

Incompressible viscous fluid flow past sphere at low Reynolds number, evaluating stream function and drag on sphere
21 p3694 A69-38771

- Equation of motion for determining nonlinear vibration of rod pendulum in viscous flow of varying velocity
21 p3773 A69-39679
- Laminar viscous flow and skin friction near trailing edge of flat plate analyzed by modified Oseen approximation, noting accuracy for high Reynolds numbers
22 p3930 A69-40683
- Unsteady viscous flow past flat plate based on Stokes approximation, calculating shear stress
22 p3931 A69-40684
- Free viscous layers structure at large Reynolds numbers, using matched asymptotic expansions for two dimensional compressible flow
22 p3932 A69-40927
- Integral equations of motion for plane steady flow of viscous incompressible electrically conducting fluid round flat plate
22 p3992 A69-41109
- Transport coefficients in neutral gases, discussing fundamental relations of parameters in viscosity, thermal conductivity and self, pressure and thermal diffusion
23 p4193 A69-41514
- Microrheological property of blood measured with microglass fiber viscosimeter, noting sensitivity to intercellular friction of erythrocytes
23 p4098 A69-42100
- Shock wave/boundary layer interaction calculation methods circumventing simultaneous large longitudinal and transverse pressure gradients and viscous effects
24 p4243 A69-42582
- Peristaltic pumping in circular cylindrical tube, discussing viscous fluid flow induced by axisymmetric traveling sinusoidal wave imposed on flexible tube wall [ASME PAPER 69-APMW-3]
24 p4275 A69-43108
- Dynamic models for viscous fluid transmission lines using distributed parameter for accuracy and rational approximate form to avoid computational difficulty
24 p4301 A69-43289
- Viscous shock wave chemical relaxation for diatomic nonequilibrium dissociating gas flow, using Navier-Stokes and chemical kinetics equations
24 p4302 A69-43487
- Secondary flow occurrence and geometry in viscous turbulent flow in square channel, using iterative solution
24 p4303 A69-43501
- Laminar turbulent boundary layer prediction using mixing length model modified for viscous sublayer structural changes near wall compared with heat transfer data [ASME PAPER 69-HT-13]
24 p4303 A69-43556
- ISCUOUS FLUIDS**
- Small oscillations in solid body with arbitrary cavity partially filled with viscous incompressible fluid
01 p0165 A69-10084
- Boundary value problems for steady, three dimensional MHD flow of viscous incompressible conducting fluid past various bodies, proving existence of solutions
01 p0126 A69-10164
- Energy dissipation at rounded pipe entrance in viscous fluid, showing relation between entrance loss and radius of roundness
01 p0059 A69-10308
- Asymptotic forms of Navier-Stokes equations for laminar motions of incompressible viscous fluid, discussing validity and applications [ONERA-TP-651]
01 p0059 A69-10383
- Two dimensional Navier-Stokes equations of axisymmetric motion of viscous incompressible fluid, giving integral and solutions for stream function
02 p0231 A69-12135
- Two dimensional unsteady Rayleigh flow velocity of conducting and nonconducting viscous fluid past porous plate, analyzing suction and magnetic field effects
02 p0232 A69-12156
- Mixed boundary value problem for system of Navier-Stokes equations for viscous incompressible fluid in stationary motion in vessel, noting rotating fluid
02 p0272 A69-12223
- Accelerated plate motion effect on flow of electrically conducting viscous incompressible fluid past infinite flat plate in uniform magnetic field
02 p0289 A69-12237
- Resisting forces produced by transverse vibration of rotating disks in viscous fluid
02 p0232 A69-12257
- Viscous liquid layer flow down inclined plane under boundary conditions, taking into account drag and penetration at porous bed surface
02 p0234 A69-12774
- Plane Couette flow stability in heated nonlinear viscous fluid flowing between horizontal plates heated to different temperatures
02 p0235 A69-12828
- Cauchy-Poisson problem for viscous liquid, calculating free liquid surface response to point impulse or initial displacement
03 p0414 A69-13015
- Unsteady transient flow of viscous fluid in suddenly rotating open pot, taking into account effect of bottom in determination of velocity profile
03 p0414 A69-13019
- Laminar flow of viscous fluid along wall with fixed leading edge and moving surface, discussing conditions of boundary layer formation and dynamic similarity
03 p0417 A69-13792
- Numerical solution of axisymmetric incompressible viscous fluid flows about rotating cylinder, Taylor vortex between cylinders and through labyrinth seal
03 p0419 A69-13990
- Navier-Stokes equations for self gravitating viscous fluid, discussing generalization based on irreversible thermodynamics
04 p0588 A69-14699
- Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect
04 p0679 A69-14905
- Thermal explosion in Poiseuille flow of reacting viscous fluid in infinite circular cylindrical channel or between two rotating infinite cylinders
04 p0686 A69-14986
- Asymptotic expansion for transonic flow of viscous fluid at great distance from plane obstacle
04 p0544 A69-15057
- Unsteady hydromagnetic flow of viscous electrically conducting incompressible liquid over infinite conducting harmonically oscillating plate
04 p0638 A69-15093
- Viscous incompressible fluid motion in two or more dimensions and with zero fluid velocity on domain boundary, determining lower bounds and uniqueness for solutions
04 p0626 A69-15311
- Equations of motion derived for incompressible and irrotational viscous fluids in special relativity
05 p0792 A69-15682
- Velocities, accelerations and drag forces on spheres falling along center line in viscous fluid, considering different Reynolds numbers and Stokes approximation range
05 p0788 A69-15725
- Intense transverse resonant acoustic field interaction with viscous fluid flows [ASME PAPER 68-WA/FE-8]
05 p0748 A69-16091
- Viscous electrically conducting liquid flow through insulating porous medium in presence of transverse magnetic field in region of validity of Darcy law
05 p0805 A69-16603
- Cauchy problem for nonstationary linearized Navier-Stokes equations for fixed container partially filled with liquid
06 p0959 A69-17888
- Unsteady flow of viscous incompressible conducting fluid in MHD generator channel, discussing external circuit inductance and flow velocity during start-up
06 p0969 A69-17915
- Viscous gravitating sphere oscillations and velocity field, noting oscillations of Maxwell sphere
07 p1123 A69-18806
- Boundary layer approximation for steady laminar flow of viscous incompressible fluid past paraboloid of revolution, obtaining vorticity distribution
07 p1120 A69-18812
- NonNewtonian effects in axisymmetric rotational flows of elastico-viscous liquids
07 p1180 A69-18815
- Ellipsoidal gas bubble dissolution in low viscosity fluid, discussing rate of steady motion, deformation degree and diffusion rate
07 p1120 A69-18990
- Navier-Stokes equations solved for viscous incompressible fluid flow due to laminar jet flow into channel in presence of magnetic field
07 p1120 A69-18997
- Rise velocity of large gas bubbles in liquid calculated, assuming velocity is determined by propagation of bubble produced wave disturbance
07 p1120 A69-18999
- Laminar flow of viscous conducting fluid between parallel walls in traveling magnetic field, using Hartmann number expansion
07 p1192 A69-19023
- Nondimensional Jeffreys number as ratio of Reynolds to Froude number for gravitational motion of viscous masses, with application to lunar maria and plastic ice
07 p1218 A69-19262
- Unsteady suction motion of viscous incompressible fluid under action of slowly rotating suction disk, noting fluid velocity variation
08 p1302 A69-19875
- Clebsch transformation application to equations describing viscous fluid, deducing canonical equations equivalent to Navier-Stokes equations
08 p1303 A69-20125
- Integral of Navier-Stokes equations for steady three dimensional motion of incompressible viscous fluid, giving angular velocity vector projections
08 p1342 A69-20320
- Flow behind shock front propagating along viscous fluid film surface, noting shock intensities as related to detonation velocities, using schlieren photographs
08 p1303 A69-20326
- Logarithmic decrement and period of disks performing torsional oscillations measured in viscous fluid, noting dependence on oscillation amplitude
08 p1417 A69-20781
- Turbulent flow of viscous nonNewtonian fluids in smooth pipes, noting effects of viscous stresses
09 p1481 A69-21929
- Approximate solution method for Navier-Stokes equations for incompressible viscous fluids
10 p1718 A69-22861
- Viscous fluids rotational flow in cylindrically symmetrical vessels, circumventing Navier-Stokes equations of motion by Wedemeyer approximation
10 p1677 A69-22896
- Rotating disk induced viscous conducting fluid motion in axial magnetic field
10 p1727 A69-23099
- Short memory elasticoviscous fluid motion in and around oscillating spherical shell
10 p1800 A69-23240
- Dynamics of turbulent motion of incompressible viscous fluid particles, using Lagrangian functions
11 p1867 A69-24536
- Second approximation of asymptotic damping of disturbances in viscous heat conducting gas supersonic flow about solid of revolution at critical velocity
11 p1817 A69-24627
- Steady flow of viscous incompressible fluid studied with system of equations equivalent to Navier-Stokes equations and finite difference method
11 p1875 A69-25480
- Steady flow field for viscous incompressible fluid in rotating pipe with porous walls determined from Navier-Stokes equations
11 p1875 A69-25481
- Solid body motions containing cavity filled with viscous fluid under influence of gravity, formulating motion equations for fluid and body
12 p2061 A69-25884
- Electrohydrodynamic instability of incompressible conducting cylindrical viscous jet in external magnetic field, noting viscosity role in oscillation modes and growth rate
12 p2136 A69-26403
- Absolute viscosity measurements from translational undamped oscillations of plate in liquid, considering viscosimeter walls effect
12 p2182 A69-26658
- Navier-Stokes equations of slow viscous fluid laminar flow near pipe inlet and exit with negligible mass forces, discussing velocity and pressure distribution
13 p2244 A69-27258
- Allowable thermodynamic processes and constitutive equation restrictions determined by Clausius-Duhem inequality, noting applications to plasticity theory and linear viscous fluids
13 p2371 A69-27319
- Viscous incompressible fluid self similar mixing problems, performing group analysis for complete boundary value problem
14 p2428 A69-28803
- Intense transverse resonant acoustic field interaction with viscous fluid flows [ASME PAPER 68-WA/FE-8]
14 p2430 A69-29444
- Unsteady jet viscous fluid flow under pulse variations based on Prandtl equations, showing turbulent motion analogy
14 p2432 A69-29608
- Incompressible viscous fluid steady motion caused by rotating ellipsoid, determining drag moments for circular disk and sphere
14 p2432 A69-29627

Parametric resonance motion in viscous fluid column in communicating vessels during vertical oscillations, calculating critical accelerations over viscosity range
14 p2432 A69-29628

Kinetic energy conversion into heat in moving viscous media, formulating equations as volume integrals of spherical harmonics products
14 p2487 A69-29980

Gas visco seals performance analysis for continuum flow regime, noting coefficient agreement with laminar flow analysis
[ASLE FICFS PREPRINT 34]
15 p2621 A69-30494

Stagnation flow of viscous fluid against rotating magnetized disk, determining effects on magnetic and velocity fields, currents and shear stresses
15 p2659 A69-30674

Weakly damped transverse and thermal waves development and propagation in viscous heat conducting incompressible fluid under temperature and gravitational fields
15 p2718 A69-31168

Entrainment of viscous electrically conducting liquid in long duct with narrow rectangular cross section and movable walls in magnetic induction field
16 p2816 A69-31606

Exact solution for motion of conducting solid of revolution rotating in infinite conducting viscous fluid, describing magnetic field
16 p2817 A69-31666

Three dimensional laminar jet mixing of incompressible viscous fluid from rectangular cross section nozzle into uniform stream
16 p2768 A69-31687

Asymptotic behavior of one dimensional laminar flow of incompressible viscous fluid in infinite cylindrical tube, giving equations for boundary conditions and flow rate
16 p2769 A69-31831

Cylindrical viscous jet transition points from stable to unstable modes of oscillation found same as for viscous jet
16 p2773 A69-32570

Vortex diffusion in viscous compressible fluid approximated by linear differential equations
17 p2957 A69-33714

Periodic solution of boundary value problem involving motion equation of viscous fluid
18 p3123 A69-35053

Angular velocity torsional oscillations of solid sphere under elastic force couple rotating in viscous liquid bounded by immobile concentric sphere
18 p3175 A69-35320

Laminar flow of viscous compressible fluid with density dependent on temperature, calculating steady state Navier-Stokes equations using vector function
19 p3297 A69-35852

Hydrodynamic equations of laminar plane flow of incompressible viscous fluid in rectangular region, calculating velocity field by equivalent network and integration
19 p3297 A69-35853

Viscous fluid secondary flow stability between coaxial rotating cylinders, using nonlinear differential equations derived from equations of motion
19 p3299 A69-36391

Monograph on motion of solid body with cavities containing viscous liquid, covering kinetics involving completely or partly filled fluids
20 p3578 A69-38200

Viscous incompressible nonNewtonian fluids flow with treatment for steady rotational problems and oscillatory motion, considering primary and secondary motions
20 p3519 A69-38319

Momentum and energy equations for fluctuating flow of viscous incompressible conducting fluid past flat plate with time dependent suction under transverse magnetic field
21 p3691 A69-38445

Constitutive equations for homogeneous viscous fluid and Kelvin-Voigt viscoelastic solid in electromagnetic field, using linear irreversible thermodynamics and continuum mechanics
21 p3851 A69-39289

Spheres impulsive starting in incompressible viscous fluid, including Reynolds number and investigation time parameters in Navier-Stokes equation
21 p3696 A69-39296

Nonlinear differential equations for flow of viscous liquid thin sheet on horizontal plane, solving initial value problems for zero slope bed
21 p3697 A69-39680

Motion of body with cavity completely filled with viscous fluid about center of mass in potential mass-force field, applying small parameter method
22 p3980 A69-40109

Oscillations of highly viscous incompressible fluid in partially filled cavity of body moving about fixed point, solving Navier-Stokes equations by asymptotic method
22 p3929 A69-40111

Homogeneous, viscous and electrically conducting fluid bounded at one end by infinite plane surface of rigid body vibrating relative to fluid body
22 p3991 A69-41036

Mixed boundary value problem for system of Navier-Stokes equations for viscous incompressible fluid in stationary motion in vessel, noting rotating fluid
23 p4183 A69-41974

Parallel magnetic field effect on free boundary layer type flows stability of low Reynolds number between parallel streams of viscous incompressible conducting fluid
24 p4298 A69-42596

MHD flow of incompressible viscous fluid between rotating electrical insulator disks
24 p4354 A69-42599

Stokes stream function and forces acting on two spheres moving in contact along line of centers through viscous fluid
24 p4299 A69-42747

Dynamic pressure response of viscous compressible fluids in rigid tubes with dead ended volume termination, testing Ibrall theorem as function of Stokes number
24 p4301 A69-43287

Turbulence and laminarity effect on vertical waves development rising in thin layer of heavy viscous fluid in contact with vertical gas flow
24 p4302 A69-43480

Energy dissipation in oscillating sphere filled with viscous fluid, giving fluid response by solving Navier-Stokes equation
24 p4305 A69-43587

VISIBILITY

NT LOW VISIBILITY

All-weather landing factors for aircraft and pilots, describing instrument landing system, runway and visibility, pilot and crew procedures, etc
01 p0112 A69-10454

Visibility improvement in warm fog by seeding with micron size hygroscopic particles, noting results for NaCl
01 p0111 A69-10696

Atmospheric influence on ground visibility reduction of airborne objects, using radiative transfer equation to calculate contrast transmission function
01 p0111 A69-11100

Evaporation rate measurements in fog during carbon dioxide laser radiation, obtaining correlation to describe visibility improvement
02 p0258 A69-12622

Aerosol size distribution and variation with humidity effects on visual range, comparing computations with transmissometer and scattering recorder measurements
02 p0276 A69-12760

Shipboard standard visibility measurements by means of AEG-FFM scattered light recorder aboard Meteor in Atlantic Ocean during 1965
04 p0628 A69-15158

Instrument for measuring light transmission in atmosphere to determine runway visual range
07 p1132 A69-18673

Atmospheric turbidity and visibility measuring instrument /videograph/ using light backscattering, noting shipboard, coast guard service, large cities and weather stations applications
08 p1314 A69-20376

Atmospheric effects on laser beam attenuation, noting application to optical visibility measurement by ruby laser
08 p1327 A69-21089

Visual observation of aerospacecraft, discussing object luminance, eye contrast sensitivity, atmospheric contrast transmission function and psychophysiological and atmospheric effects
10 p1649 A69-23872

Incident integral light flux relations and visibility range equation derived for objects illuminated by narrow light beams in scattering media
10 p1725 A69-23971

High intensity light adaptation effects on visibility of raster scan, TV type and avionic displays for symbol luminance needs
16 p2746 A69-32788

Star motion perturbations by invisible body, stressing bright bodies invisible by position near perturbed star
17 p3034 A69-33407

Visibility changes in fog at London airport determined by transmissometer records
18 p3167 A69-35262

Visibility degree of noctilucous cloud determined from ratio of brightness contrast against sky to eye contrast threshold
19 p3362 A69-36411

Incident integral light flux relations and visibility range equation derived for objects illuminated by narrow light beams in scattering media
21 p3772 A69-39677

VISIBLE RADIATION

U LIGHT [VISIBLE RADIATION]

VISIBLE SPECTRUM

U LIGHT [VISIBLE RADIATION]

U SPECTRA

VISION

NT BINOCULAR VISION

NT COLOR VISION

NT MONOCULAR VISION

NT NIGHT VISION

NT STEREOSCOPIC VISION

Visual factors of laser displays providing human factors recommendation for several visual variables
05 p0760 A69-15591

High oxygen concentration influence at normal pressure on evoked potential of cortical optic zone and sub-cortical zones
05 p0709 A69-16515

Climatic factors affecting pilot vision and contributing to misjudgement during landing procedures, noting effect of downward slope in runway approach
06 p0884 A69-18036

High oxygen concentration influence at normal pressure on evoked potential of cortical optic zone and sub-cortical zones
18 p3096 A69-34734

Human optical system as remote sensor consisting of transducing, data transmission and processing subsystems, defining perception function and describing visual aids
20 p3483 A69-37745

Luminance additivity for human visual system in terms of photometric methods based on direct brightness matching, incremental threshold, etc
22 p3880 A69-40849

Human vision mathematical simulation, relating optical input signal parameters to corresponding visual impression
23 p4109 A69-41978

Human hearing and vision mathematical simulation, relating signal perception parameters to corresponding adaptation processes
23 p4109 A69-41979

Dynamic reactions of mathematical model representing vision and hearing process adaptation
23 p4110 A69-41984

Mathematical model construction to simulate light adaptation in human vision based on Maxwell disk experimental results
23 p4110 A69-41985

VISIOPLASTICITY

U FLOW VISUALIZATION

U PLASTIC FLOW

VISUAL ACUITY

Ophthalmic 2 percent pilocarpine effect on normal ocular dynamics of various age groups, including visual acuity, accommodation and refraction
01 p0022 A69-11347

Human acceleration tolerance under reduced pressures corresponding to various high altitudes, noting visual disorders
07 p1065 A69-18982

Minimal angle of resolution /MAR/ between point and extended circular source and between point source and simulated horizon, studying irradiation effects on manual navigation
07 p1177 A69-19208

Coincidence error between star image and planet edge for entrance pupil and telescope magnification
08 p1314 A69-20383

Real time 2000 line TV camera with 40 MHz bandwidth, 1600 line vertical resolution and 1000 line horizontal resolution
[SMPT PAPER 105-73]
12 p2077 A69-25769

Human acceleration tolerance under reduced pressures corresponding to various high altitudes noting visual disorders
20 p3480 A69-38230

Grating size effect on threshold of grating pattern for various colors of illumination and target orientations
22 p3879 A69-40840

Retinal eccentricity effects on horizontal-vertical illusion magnitude, considering eye flattening and astigmatic properties

24 p4263 A69-43117

Pilots myopia incidence statistical study after initiate medical examination, emphasizing skiagram value in prognosis

24 p4267 A69-43400

VISUAL AIDS

Low cost pilot proximity warning instrument, discussing design influences of Xe strobe lights, atmospheric radiation transmission characteristics and detection considerations

17 p2917 A69-34103

Optical instruments as visual aids in scientific research including electron optical image converters detecting emissions invisible to human eye

22 p3943 A69-39974

VISUAL CONTROL

Electrooculographic method to study eye movements control system for fixation on stationary point or following discretely or continuously moving target

09 p1447 A69-22675

Visual simulation for critical maneuvers of aircraft takeoff and landing, noting method based on limited corridor simulation and maneuver freedom

[AIAA PAPER 68-255] 11 p1866 A69-25376

VISUAL DISCRIMINATION

Visual distortion in discrimination of figure proportion

06 p0875 A69-18022

Reading and reliability efficiency comparison in round vs vertical aircraft displays

06 p0883 A69-18025

Visual systems of hamster brain, discussing relative visual localization and discrimination blindness produced by ablation of cortical or tectal areas

08 p1265 A69-20685

Dark adaptation mechanisms studied from light intensity recovery after experimental flash, using electroretinography methods

10 p1647 A69-23588

Distance discrimination in simulated space environment, studying just noticeable difference /JND/ to determine relations between distance threshold and observation distance

12 p2022 A69-26372

Aircraft canopy scratches effects on pilot visual discrimination

13 p2214 A69-28533

Apparent movement in peripheral vision induced by sequential flashing of spatially unresolved two dots, studying dynamics of illusion

16 p2746 A69-31556

Digital simulation of biological model for visual images classification derived from human visual system aspects

17 p2911 A69-34094

Multilayer retina model with lateral couplings for visual pattern recognition, noting applications to data processing

19 p3260 A69-35898

Visibility degree of noctilucent cloud determined from ratio of brightness contrast against sky to eye contrast threshold

19 p3362 A69-36410

Visual succession threshold for sides of square contour affected by presenting single line on parallel contour sides

22 p3882 A69-40868

Laser granularity effects on brightness discrimination [AAS PAPER 69-464]

24 p4272 A69-42843

Head movement affecting visual and kinesthetic localization accuracy, discussing free and fixed head conditions

24 p4275 A69-43118

VISUAL DISPLAYS

U DISPLAY DEVICES

VISUAL FIELDS

Error correction for correlation coefficient between satellite data of earth radiation intensity and satellite vision field shift

14 p2435 A69-29043

Multiple reference sources to improve field of view of lensless Fourier transform holography limitation due to modulation transfer function of film and turbulence

17 p2971 A69-32920

Depth distortions in binocular visual fields from misleading size cues

21 p3653 A69-38900

Band movement phenomenon model for temporal and spatial interactions

22 p3880 A69-40854

Visual field meridians in circumstriate visual cortex of monkey determined by tracing degenerating axons stained by Nauta method

22 p3881 A69-40858

Visual stimuli initiating horizontal eye vergence movement in human subjects, noting cerebral conditions for convergence

22 p3881 A69-40859

Device for studying stereoscopic field of vision applied to determining field of vision standards for healthy individuals

22 p3886 A69-41113

VISUAL FLIGHT

Alpha numerical and symbolic information combined for head up display /HUD/ systems, providing pilot with takeoff director

03 p0379 A69-12885

Visual simulation for critical maneuvers of aircraft takeoff and landing, noting method based on limited corridor simulation and maneuver freedom [AIAA PAPER 68-255]

11 p1866 A69-25376

Air traffic control, discussing objectives, governmental responsibilities and airspace organization, including U.S. system

18 p3170 A69-34859

VISUAL OBSERVATION

Observation of satellites, orbit calculation and use in upper atmosphere research [UN PAPER 68-95789]

01 p0064 A69-10459

Optical spacecraft tracking organization in U.S.S.R., describing network of visual observation and photographic stations for satellite and space probe tracking

01 p0032 A69-10952

Visual sonar target detectability probability function of retinal position and brightness contrast

02 p0203 A69-12218

Acoustoelectric domains in CdS, making time evolution visible by means of modified optical strain birefringence and stroboscopic illumination

02 p0258 A69-12618

Aircraft high level cloud data to estimate vertical distribution of cirriform clouds and tropical tropopause levels on airline routes

03 p0458 A69-13032

Diurnal variations of visual meteoric activity mean hourly rates compared with earlier observations

04 p0658 A69-14879

Jupiter Red Spot visual observations in 1966 and 1967 noting changes in size, color and planetographic coordinates and variation of apparent intensity

04 p0659 A69-14963

Visual observations data on noctilucent clouds /1963-1967/

04 p0595 A69-15307

Sunspot group classifications made at Zurich and Catania during 19th solar cycle compared to determine seeing influence

05 p0826 A69-16388

Luminous particles in space observed by Vostok, Mercury and Voskhod astronauts, discussing distribution, trajectories and terrestrial origin

07 p1222 A69-19617

Ballistics room of Royal Belgian Observatory for observation of geodetic satellites

08 p1272 A69-19993

Reflection interferometry for visual evidence of surface deformation of rock and metal samples using two beam Fizeau fringe system

09 p1496 A69-22012

Binary eclipsing visual star systems angular momenta, discussing evolution

10 p1777 A69-23313

Visual observation of aerospacecraft, discussing object luminance, eye contrast sensitivity, atmospheric contrast transmission function and psychophysiological and atmospheric effects

10 p1649 A69-23872

Green flash photographed at sunset by aircraft at 10.6 km over Pacific, noting correspondence with visual observation

12 p2066 A69-26232

Satellite celestial equator intersection time calculation from visual satellite observation near equator including satellite draconic period determination, particularly for high altitude

12 p2069 A69-26438

Cosmos 17 and 44 draconic periods of rotation, discussing period variations determination from visual observations

12 p2173 A69-26439

Draconic period changes of satellite 1965-11-D /Cosmos 54 rocket/ during visual observations with Interobs

12 p2174 A69-26444

Visual observation of surface vibration nodal patterns by incoherent light illumination of object, noting holography

12 p2099 A69-27176

Visual and photographic observations of Perseids meteor trails velocity noting discrepancy

13 p2353 A69-28035

Visual, photographic and spectral observations of comets during IQSY, discussing comets Tomita-herber-Honda 1964c and Ikeya-Seki 1965f

14 p2525 A69-29716

Visual orientation near moon and at surface, considering terrestrial and lunar objects reflectivity and light reflection at various angles of incidence

14 p2525 A69-29750

Apollo 8 photooptics, considering TV camera and broadcasts, photographic equipment and visual observation

15 p2609 A69-30469

Visual ashen light observation on Venus possibly attributable to solar particle bombardment from dark side emission detection by spectroscopic and photometric studies

16 p2861 A69-32300

Lunar rotation parameters determined from photographs and visual observations independent of moon profile

17 p3027 A69-32874

Visual observation of pipe wall regions in turbulent flow by suspending colloidal size particles and photographing with high speed motion picture camera

17 p2956 A69-33598

Selection effects on comets discovery, comparing effectiveness of photographic and visual observation techniques

17 p3045 A69-34221

Spectral reflectances of objects and vegetative backgrounds to generate color photographic technique increasing detection sensitivity and rate

18 p3133 A69-34247

Jupiter Red Spot visual observations in 1966 and 1967 noting changes in size, color and planetographic coordinates and variation of apparent intensity

18 p3197 A69-34726

Umbral chromosphere flashes visual and photometric observations at 5 sec intervals on K line filtergrams using Halle filter

18 p3204 A69-35390

Heated body cooling off study via temperature field isothermal lines visualization on TV screen

20 p3539 A69-37437

Vibrating surface relative phases visual observation by introducing small rotation between exposures of stroboscopic hologram

20 p3546 A69-38123

Laser shadowgraph technique for visual observation of projectiles surface flying at hypersonic velocity along ballistic trajectory

22 p3963 A69-40601

After image measuring method of eccentric fixation during autokinetic light tracking

22 p3878 A69-40837

Human visual response to moving spatially periodic patterns, analyzing critical frequencies, dependence on stimulus area and period, phase blindness and pattern reversal

22 p3880 A69-40850

Visual observation of meteor and train microstructure obtained by refractor

22 p4033 A69-41058

Human observers visual monitoring of multiple meter display differentially controlled by concurrent signal scheduling

23 p4081 A69-41438

VISUAL PERCEPTION

NT AUTOKINESIS

NT CRITICAL FLICKER FUSION

NT SPACE PERCEPTION

Holographic theory of visual memory behavior, discussing human tests in situation of prompted visual recall

01 p0083 A69-10985

Validation study of pilots visual sampling behavior, using queueing model based on instrument and eye movement data from Link trainer mission flights

02 p0202 A69-11954

High oxygen concentration breathing effect on foveal thresholds, using sea level tests on trained observers

02 p0203 A69-12216

Temporal pattern perception by human subjects required to integrate information presented in two modalities

02 p0200 A69-12724

Human visual systems ability to encode retinal images produced by different size objects
03 p0369 A69-13359

Aircraft instrument panel lighting, comparing red and white colors for general and peripheral vision
05 p0715 A69-16623

Individual differences and relation to Witkin concept of perceptual style in target identification in aerial photographs
06 p0880 A69-17211

Stereoscopy effects on pattern recognition in visual noise
06 p0880 A69-17214

Detection time to light point source noting response to dark, star field and glare source backgrounds
06 p0881 A69-17215

Visual feedback mechanisms in simulated high altitude conditions, discussing physiology of ocular homeostasis adaptation
06 p0882 A69-17647

Classical and differential eyelid conditioning for truth or falsity of visually presented verbal statements
07 p1064 A69-18632

Group observers magnitude estimation judgements of stationary spacecraft model apparent distance in simulated space, obtaining psychophysical functions for three stimulus ranges
07 p1069 A69-19501

Electrooculographic method to study eye movements control system for fixation on stationary point or following discretely or continuously moving target
09 p1447 A69-22675

Stimuli human subjects can identify on unidimensional visual stimulus continuum, discussing apparatus and line length influence
10 p1641 A69-23039

Visual observation of aerospacecraft, discussing object luminance, eye contrast sensitivity, atmospheric contrast transmission function and psychophysiological and atmospheric effects
10 p1649 A69-23872

Photography role in experimental research with applications to flight analysis and comparison with human visual accuracy
11 p1881 A69-24573

Witkin Rod and Frame Testing of pilots and engineers showing greater field independence in pilots, discussing applications to pilot instructor selection
12 p2023 A69-26556

Visual orientation near moon and at surface, considering terrestrial and lunar objects reflectivity and light reflection at various angles of incidence
14 p2525 A69-29750

Apparent movement in peripheral vision induced by sequential flashing of spatially unresolved two dots, studying dynamics of illusion
16 p2746 A69-31556

Visual perception of three dimensional objects under simulated solar illumination in space considered in relation to manned spaceflight maneuvers
17 p2913 A69-33174

Cortical auditory-evoked response during eye movement in cats, discussing relation to central mechanism
17 p2911 A69-34171

Transient electrical responses from retinas, discussing visual pigment role in visual excitation, photochemistry, etc
19 p3258 A69-36377

Luminescence effects on apparent size and shape of foveally fixated targets of various forms
19 p3259 A69-36458

Astronaut vestibular and motor analyzer functions during flight and simulation tests, discussing illusory space orientation and role of cortical dynamics
20 p3469 A69-37241

Sensorimotor coordination of man performing graphic assignments in upright, reclining and prone position, discussing interaction of vestibular, visual and motor analyzers
20 p3470 A69-37246

Motor and tonic reactions in animals during weightlessness, discussing interaction between gravity receptors and visual analyzer
20 p3470 A69-37247

Visual and vestibular analyzers interrelation in subjects receiving light pulses before and after rotation, noting role of cortical elements
20 p3470 A69-37249

Human optical system as remote sensor consisting of transducing, data transmission and processing subsystems, defining perception function and describing visual aids
20 p3483 A69-37745

Psychology and physiology of vision in relation to large screen display design, discussing effects of symbol size and spacing, color usage, etc
21 p3662 A69-38330

Model for lateral inhibitory interaction in human retina, providing systematic account of simultaneous brightness contrast
21 p3653 A69-38898

Depth distortions in binocular visual fields from misleading size cues
21 p3653 A69-38900

Visual long term storage capability demonstration, describing negative aftereffect of motion perceived after fixation of moving spiral pattern
21 p3661 A69-39332

Visual retroactive perceptual masking effect in monkeys pretrained in visual discrimination task, interpreting electrical potentials recorded along optic pathways
22 p3876 A69-40265

Responsiveness of cortex and visual pathway during transient hypotension induced by increased gravitational stress, discussing intraocular pressure of cat
22 p3878 A69-40779

Zoellner illusion in human visual system measured as function of background pattern density consisting of intersect angles and background line spacing
22 p3879 A69-40841

Visual suppression association with smooth following and saccadic eye movements in tracking slow moving target
22 p3879 A69-40842

Psychopharmacological drug effect on visually evoked responses in cats from recordings from visual cortex, noting latencies increase with dose
22 p3879 A69-40847

Flicker characteristics of eye color receptive systems by measuring modulation thresholds for sinusoidal flicker of color superimposed on complementary color background
22 p3880 A69-40851

Brightness of fixated element in visual field as function of element luminance
22 p3880 A69-40853

Saccadic eye movements comparison during fixation and reading by contact lens optical lever technique
22 p3880 A69-40855

Horizontal tracking eye movements response to unpredictable constant velocity target motions with or without saccadic position corrections recorded by contact lens optical lever
22 p3881 A69-40856

Linear models with self excitation for brightness and contrast perception studies in human visual system
22 p3881 A69-40862

Tritanope and trichromat experiments for parafoveal visual response of tritanope, measuring spectral sensitivity and absolute threshold values
22 p3882 A69-40869

Human peripheral retina contrast sensitivity determined by measuring psychophysically for sinusoidal grating target describing luminance effects
22 p3882 A69-40870

Hue shift and brightness enhancement of flickering light measured as function of illuminance, wavelength and target size
22 p3882 A69-40871

Retinal topography relation to blue arcs phenomenon, assessing disparity in photoreceptor location and associated neurones for analysis of critically sited plots
22 p3882 A69-40872

Comparative study of differential luminance threshold and spatial summation exponent for solid and annular objects with equal surfaces
22 p3883 A69-40877

Retinal mechanisms determining visual band movement thresholds obtained by manipulation of retinal locus, luminance, arc length and spectral distribution of moving stimulus
22 p3883 A69-40879

Blue cone mechanism contribution to mesopic function in producing Purkinje shift with luminance decrease, measuring sensitivity by flicker technique
22 p3883 A69-40880

Response characteristics of human visual mechanisms sensitive to motion while varying adaptation stimulus contrast to control visual effectiveness
22 p3884 A69-40887

Physiological experiments to investigate aerospace flight stresses effects on oculomotor equilibrium, noting cardiovascular reaction and mechanism for interpretation
23 p4087 A69-41804

Contact lenses hazards during high altitude aircraft piloting analyzed via bubble development
23 p4106 A69-41806

Senior commercial jet pilots ability to visualize flight instruments
23 p4089 A69-41829

Point images reference groups identification by human operator with limited visual perception in background noise, comparing results with automatic system using selection algorithms
23 p4109 A69-41955

Visual ellipse phenomena excitation by sinusoidal stimulating currents, noting frequency effects on ellipse shape
23 p4095 A69-42077

Combined eye and ear identification of bimodally presented signals in noise over oscilloscope and earphones, noting significance of independent observers model
23 p4111 A69-42168

Electroretinogram and visually evoked cortical potential as response potentials in human visual system
24 p4271 A69-42644

Interpolated position and orientation perception by vision and active touch
24 p4275 A69-43116

M-1 Valsalva maneuver induced cardiovascular stresses effect on oculobulbar vergence of subjects observing Thorington scale, discussing probable physiological mechanisms
24 p4266 A69-43373

Skiagrams results of retinoscopic measurements of eye peripheral refraction of pilots, attempting correlation between skiagram type and central refraction
24 p4267 A69-43399

VISUAL PHOTOMETRY

Wavelength dependence of polarization and UVRI photometry of highly polarized stars, correlating IR interstellar extinction with maximum polarization wavelength
12 p2153 A69-25809

Seyfert galaxy NGC 4151 electrophotometric investigation in UV, confirming nucleus optical variability observed in visible and IR
15 p2686 A69-30536

Response color curves of U, B, V photometric system compatible for stellar observation, including U revision
15 p2689 A69-30562

Photometric calibration correction for B-V and U-B colors taking into account hydrogen line blocking
15 p2694 A69-30786

Photometer for simultaneous stellar photometry in UVB bands, purposes and performance characteristics and circuit diagrams
16 p2790 A69-32209

Photoelectric observations in B and V colors of binary system S Equ
16 p2858 A69-32212

Photoelectric visible radiation observations of binary star AH Vir
16 p2858 A69-32215

UBV photometry of southern quasars, radio galaxies and normal galaxies including two color diagrams, radio luminosity, brightness and color distribution
16 p2859 A69-32228

Epsilon CrA light and color curves analyzed from UVB photoelectric photometry observations
16 p2863 A69-32398

Nova Delphini 1967 /HR Del/ observations in UPX-YZV photometric system, tabulating color indices
19 p3426 A69-36564

Visible and IR spectral reflectivity of Apollo lunar landing sites, attributing reflectivity differences to compositional and/or mineralogical differences
21 p3815 A69-39586

VISUAL SIGNALS

Hand operated visual signaling devices, discussing Mini Signals and cartridge load aerial signals
06 p0878 A69-16962

Human observers visual monitoring of multiple meter display differentially controlled by concurrent signal scheduling
23 p4081 A69-41438

Bisensory auditory and visual signals characteristics effects on human reaction time, noting different results for unilateral and bilateral signal pairs
23 p4083 A69-41454

VISUAL STIMULI

Cerebral cortical neurons response to visual stimuli during stationary and rapid eye movement
03 p0369 A69-13360

- Attenuation of visual vigilance decrement through visual stimulation combined with various sound conditions
06 p0880 A69-17213
- Classical and differential eyelid conditioning for truth or falsity of visually presented verbal statements
07 p1064 A69-18632
- Instrumental reward experiment using concept learning paradigm with word-color compounds as stimuli
07 p1064 A69-18636
- Classical and differential conditioning of eyelid response with correctness of solutions of arithmetic problems as discriminandum
07 p1064 A69-18637
- Stimuli human subjects can identify on unidimensional visual stimulus continuum, discussing apparatus and line length influence
10 p1641 A69-23039
- Response rates of rats to periodic shocking for food reinforcement with added clock cue stimuli
10 p1644 A69-23304
- Electrical response of frog and human visual cortex neurons to thermal vestibular and light flash stimulation
20 p3469 A69-37242
- Labyrinth polarization effect on stimulation and neuron activity in visual cortex of cats, using electroencephalograph
20 p3469 A69-37244
- Single flash and rhythmic light stimuli effect on nystagmus of patients with tumoral posterior cranial fossa, recorded electroencephalographically
20 p3470 A69-37250
- Motion sickness forms in human subjects subjected to induced rocking, noting impaired performance and sensorimotor reactions to visual stimuli
20 p3472 A69-37263
- EEG patterns evoked from left and right cerebral hemisphere by visual and verbal stimuli, showing asymmetrical role of hemispheres in governing cognitive behavior
21 p3656 A69-38976
- Brain weight and cholesterolase activity in rats after exposures to acoustic and light stimuli
21 p3662 A69-39627
- Rhesus monkeys visual responses recorded before and after unilateral striate lesions, optic tract section and inferotemporal lesions
22 p3876 A69-40263
- Local electroretinogram responses produced in cats by light intensity incremental changes
22 p3878 A69-40835
- Visual backward masking experiment for studying overlapping and nonoverlapping contours of target and masking stimuli straight line
22 p3879 A69-40843
- Neuronal organization of initial afferent inflow in thalamic visual center /lateral geniculate body /LGB/ of unanesthetized cats/, noting unit activity
22 p3879 A69-40845
- Human visual response to moving spatially periodic patterns, analyzing critical frequencies, dependence on stimulus area and period, phase blindness and pattern reversal
22 p3880 A69-40850
- Luminance threshold for compound stimulus detection measured as function of two components relative luminance
22 p3880 A69-40852
- Brightness of fixated element in visual field as function of element luminance
22 p3880 A69-40853
- Band movement phenomenon model for temporal and spatial interactions
22 p3880 A69-40854
- Visual stimuli initiating horizontal eye vergence movement in human subjects, noting cerebral conditions for convergence
22 p3881 A69-40859
- Psychophysical threshold changes during subliminal monocular and interocular stimulation, studying conditioning flash size effects on temporal summation
22 p3881 A69-40860
- Nocturnal and diurnal monkeys spectral sensitivity functions determined from simultaneous recordings of light-evoked cortical and retinal responses
22 p3882 A69-40867
- Angular velocity of visual stimulus effect on human torsional eye movements using sectored disks
22 p3883 A69-40874
- Spatial interactions and thresholds in identification and detection of compound visual stimuli
22 p3883 A69-40878
- Retinal mechanisms determining visual band movement thresholds obtained by manipulation of retinal locus, luminance, arc length and spectral distribution of moving stimulus
22 p3883 A69-40879
- Cat intraretinal DC component and b-wave separation based on sensitivity to visual stimuli, discussing electroretinogram recorded with microelectrodes
22 p3883 A69-40881
- Human electroretinogram /ERG/ physiological variations as function of stimulation energy and wavelength
22 p3884 A69-40884
- Topographic distribution of cortical potentials produced with tachistoscope and by stroboscopic stimulation, studying occipital and frontal differences
22 p3884 A69-40885
- Response characteristics of human visual mechanisms sensitive to motion while varying adaptation stimulus contrast to control visual effectiveness
22 p3884 A69-40887
- Human response to visual beat phenomena by combining intermittent stimuli, considering brightness estimation
22 p3884 A69-40889
- Pigeon accelerated performance patterns as function of contiguity of brief visual stimuli and food reinforcement, noting pattern absence during stimuli omission
23 p4081 A69-41436
- Visual ellipse phenomena excitation by sinusoidal stimulating currents, noting frequency effects on ellipse shape
23 p4095 A69-42077
- Attention shifts in maintained discrimination, discussing combined responses of varying and constant visual and auditory stimuli in pigeons
24 p4275 A69-43198
- Circadian periodicity of human reaction times tested during normal diurnal cycles and 24 hour wakefulness, noting acoustic and visual stimuli effects on learning
24 p4267 A69-43387
- VISUAL TASKS**
- Human inspection performance in quality control operations to assess visual inspection tasks accuracy
03 p0433 A69-13386
- Attenuation of visual vigilance decrement through visual stimulation combined with various sound conditions
06 p0880 A69-17213
- Minimal angle of resolution /MAR/ between point and extended circular source and between point source and simulated horizon, studying irradiation effects on manual navigation
07 p1177 A69-19208
- Human information processing rates during one and two axis compensatory tracking tasks with secondary auditory task
10 p1650 A69-23880
- Lunar visual environment effects on astronaut control manipulation task performance, discussing solar illumination simulation facility
12 p2059 A69-26554
- Combined cueing and knowledge of results for transfer of training in visual monitoring
13 p2213 A69-28256
- Fast visual task performance indoors found dependent on sound pressure level
15 p2550 A69-30305
- Apparent movement in peripheral vision induced by sequential flashing of spatially unresolved two dots, studying dynamics of illusion
16 p2746 A69-31556
- Continuous and intermittent noise effects on audiovisual checking task performing subjects, considering omission errors
17 p2911 A69-34009
- Mental patient performance in detecting and identifying visual signals under fixed interval schedule, noting nonuniform performance and comparing to normal subjects
23 p4091 A69-42014
- Visual and tactual interaction in judgments of vertical in dark room experiments, discussing effects of various reference systems
24 p4271 A69-42752
- VISUAL TRACKING**
U OPTICAL TRACKING
- VISUALIZATION OF FLOW**
U FLOW VISUALIZATION
- VITAMIN B**
U THIAMINE
- VITAMIN B 06**
U PYRIDOXINE
- VITAMIN C**
U ASCORBIC ACID
- VITAMIN E**
U TOCOPHEROL
- VITAMINS**
U ASCORBIC ACID
U PYRIDOXINE
U THIAMINE
U TOCOPHEROL
- VITREOUS MATERIALS**
- Surface effects on mechanical properties of crystalline and vitreous materials, considering environmental effects on dislocation mobility
03 p0454 A69-13870
- Method for preparation of vitreous materials in hollow cylindrical form, considering chemical homogeneity, porosity and geometrical shape
12 p2101 A69-25936
- VLASOV EQUATIONS**
- One dimensional Vlasov plasma nonlinear response to external electric field varying in space and time
01 p0133 A69-11214
- Two dimensional equilibria for high beta mirror devices found by solving Vlasov equation and Ampere law, including particle loss
03 p0475 A69-13152
- MHD waves, Landau damping and magnetosonic waves in homogeneous relativistic Vlasov plasma
04 p0636 A69-15043
- Stationary solutions of Vlasov equation with external electric fields and BGK collision terms, using perturbation theory in moving frame
05 p0801 A69-15745
- Kinetic description of inhomogeneous plasma in ring approximation, discussing Vlasov equation and velocity distribution function
07 p1193 A69-19034
- Relativistically corrected Vlasov equation solved as approximate solution of exact relativistic equations of motion for low density media
10 p1724 A69-22924
- Stress analysis of reinforced cylindrical shells under external loading, using Vlasov semimomentless theory
11 p1982 A69-24949
- Normal mode representation of HF properties of inhomogeneous plasma, analyzing Vlasov equation for free oscillations under external driving field
11 p1929 A69-25269
- Laboratory models for solar wind and magnetosphere interactions with similarity laws of Vlasov theory as reference system
12 p2150 A69-26737
- Vlasov equations solved for electrons and ions in electromagnetic field, coupling electric field to density oscillation modes of plasma
13 p2306 A69-27461
- Beam-plasma interactions by nonlinear Vlasov equation, describing amplification of longitudinal waves
14 p2493 A69-29692
- Geomagnetic ring current study, giving exact kinetic description based on Vlasov equation of plasma ring current in dipolar field
15 p2598 A69-31218
- Vlasov-Poisson equations reformulation by arbitrary transformation to velocity variable, considering time or space secularity of perturbation theory
16 p2817 A69-31642
- Vlasov turbulence exact solutions, considering closure conditions, correlation length, Lundgren hierarchy, homogeneous turbulence, etc
17 p2958 A69-34229
- Vlasov thin shell theory extended for undamped bending, transforming partial differential equations and stress function into integral equation solvable by successive approximations
23 p4225 A69-41407
- Guiding center Vlasov equation derived dielectric tensor of collisionless plasma, obtaining dispersion relation of Alfvén waves in warm plasma
23 p4197 A69-42416
- VLF EMISSION RECORDERS**
- Antarctic VLF emissions observations at 12 kHz, showing dependence on geomagnetic disturbances, auroras and radio absorption in ionosphere
18 p3102 A69-34964
- Antarctic VLF emissions polarization and direction determination, using combination of antennas with planes lying in geomagnetic E-W and N-S directions
18 p3102 A69-34965
- Wideband vertical electric field noise reduction in ELF/VLF atmospheric receiving systems using bucking, delayed feedback and frequency rejection units
23 p4128 A69-42504

VOICE

Retarded voice tests apparatus using graphical recording to determine intensity of deformations by autoaudition, considering application to recruitment investigation

24 p4270 A69-42604

VOICE COMMUNICATION
NT TELEPHONY

Optimum modulation technique determination for single channel voice communication under severe noise conditions
[UN PAPER 68-95851]

01 p0029 A69-10526

Modems for high data transmission rates on available voice bandwidth channels, noting point to point and multipoint polled networks and signal to noise ratio

04 p0564 A69-15208

Recorded vocal reactions of humans analyzed as characteristic of positive and negative emotions

05 p0709 A69-16518

Hearing errors in voice communication with radio telephone, noting effects of mean syllable number and consonants per syllable in pilots and controllers

06 p0891 A69-18034

Time division multiple access satellite communication system employing pulse code modulation of voice channels and phase shift keying of RF carrier

07 p1077 A69-18759

Noise level criteria for acceptable voice communications in office environment, noting acclimatization

11 p1830 A69-24797

Digitally controlled formant/spectral maximum/generator for terminal analog speech synthesizer

11 p1852 A69-25292

Optimized receivers synthesized for narrow band radio signal filtration, comparing noise rejection properties of various pulse modulation types during speech transmission

14 p2413 A69-29464

He speech processor for aerospace applications, discussing He speech distortion nature

17 p2911 A69-34095

Machine recognition of continuous speech at acoustic level, analyzing low bit rate speech communication system

17 p2932 A69-34119

Recorded vocal reactions of humans analyzed as characteristic of positive and negative emotions

18 p3096 A69-34737

Transmission filter to improve voice communication intelligibility and SNR, describing applications to non-linear circuits

20 p3505 A69-37293

VOICE DATA PROCESSING

Man-computer speech communication, discussing model and aspects of acoustics, phonetics, linguistics, language training, physiology, psychology, bionics, etc

18 p3107 A69-35099

VOID RATIO

Powder properties effect on rolled strip thickness and compactness, angles, pressure at roll and torsion during rolling, analyzing Fe, Ni and Cu powders

15 p2630 A69-31183

Nondestructive tests for glass filament wound composites void content, considering test methods and mechanical properties prediction role

17 p2979 A69-33656

VOIDS

Substructural void formation in tungsten powder metallurgy as function of annealing temperature for doped, undoped and electron beam melted material

01 p0093 A69-10061

Generalized parametric form of IR radiometric scan method applied to void detection problems, designing test techniques and establishing inspection procedure

15 p2631 A69-31506

VOIGT EFFECT

Computer program to predict spectra from electronic transitions of diatomic molecules and atoms, noting line intensity distribution by Voigt profile

18 p3177 A69-35239

VOLATILITY

Propellants volatile fraction removal followed by gas chromatographical determination, noting use of heating method

02 p0302 A69-11522

Volatile liquid pressurization, discussing pressurants, heat sources and system design
[AIAA PAPER 68-630]

02 p0232 A69-12382

Gas chromatography based on sampling gas-vapor phase at liquid surface for determining volatile oxygen containing compounds in biological media

13 p2216 A69-28627

VOLATILIZATION
U VAPORIZINGVOLCANICS
U VOLCANOLOGY

VOLCANOLOGY

Seismic refraction study of internal structure of volcanic cinder cone

02 p0236 A69-11465

Volcanic gas from lava lake, noting carbon and sulfur gases depletion during cooling and solidification

02 p0236 A69-11466

Large scale lunar surface photographs for estimating conical formations identified with terrestrial stratovolcanoes

03 p0507 A69-13093

Lunar glowing spots near Aristarchus considered volcanic eruptions of molten material

04 p0657 A69-14676

Lead isotope composition and concentrations of U, Th, Ra, total Pb and Pb 210 in recent volcanic rocks, noting disequilibrium due to chemical fractionations

04 p0593 A69-15011

Volcanic origin of lunar crater Dawes based on photoeological evidence obtained from Lunar Orbiter 5 photographs

11 p1952 A69-24264

Airborne and satellite IR survey over active effusive eruption at Surtsey, Iceland, comparing thermal energy yield and radiant emission to ground measurements

12 p2076 A69-27011

Large scale lunar surface photographs for estimating conical formations identified with terrestrial stratovolcanoes

14 p2516 A69-28775

Lunar volcanism origin of tektite and pearlite, noting no cosmic ray effects

20 p3597 A69-37338

Orthopyroxenes cooling history, studying order-disorder transitions between ferrous iron and magnesium

20 p3523 A69-37518

Effusive volcanic eruptions recorded by high thermal sensitivity satellite-borne IR systems

21 p3721 A69-38631

Tectonic classification of earth gravitational field based on mean gravity anomalies, correlating positive anomalies with Quaternary volcanism

23 p4154 A69-41318

Undulating dunelike deposits of surface debris similar to base-surge deposits in maar volcanoes and tuff rings, discussing underground ice existence

23 p4216 A69-42203

VOLT-AMPERE CHARACTERISTICS

Electric arc properties, investigating volt-ampere characteristics by approximate similitude and dimensional analysis

01 p0125 A69-10099

Bilateral plasma outflow plasmatron with variable electrode diameter, discussing efficiency, current-voltage characteristics and size

01 p0125 A69-10102

Schmitt trigger current-voltage characteristic for determining switching behavior and switching point temperature, examining formulas and equivalent circuits

01 p0039 A69-10171

Probability characteristics of temperature and supply voltage dependent parameters of semiconductor equipment

01 p0047 A69-10783

Current/field characteristic of n-type GaAs, using high power microwave techniques in presence and absence of transverse magnetic field

01 p0139 A69-10819

Indium phosphide p-n junction current-voltage characteristics various temperatures, considering degree of doping effect

01 p0139 A69-10885

Penning discharge in inhomogeneous magnetic mirror field, observing high burning voltage at low current in rarefied hydrogen plasma

01 p0133 A69-11218

Spherical and cylindrical probes emitting electrons and ions in unbounded plasma, deriving I-V characteristics equations

02 p0247 A69-11569

Metallic dismountable thermionic converter enclosed in mica sealed vacuum chamber, giving I-V characteristics, optimal temperature of liquid cesium phase and output power

02 p0194 A69-11587

Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage

02 p0214 A69-11613

Electrical conductivity of sintered polycrystalline cubic and monoclinic europium sesquioxide from DC

current-voltage characteristics obtained in air at various pressures

02 p0296 A69-11874

Temperature dependence of semiconductivity of sintered polycrystalline EuO from current-voltage characteristics, measuring activation energy

02 p0296 A69-11875

Current-voltage characteristics of avalanche transistors, noting impact ionization

02 p0218 A69-12266

Josephson voltage-frequency relation independence of superconductor nature, noting c/h value and importance to voltage standards and quantum electrodynamics

02 p0299 A69-12599

Tunnel diodes current voltage characteristics in crossed electric and magnetic fields, observing tunnel current decrease in GaSb

02 p0300 A69-12634

Dynamic current-voltage characteristics of thin film diodes on chalcogenide glass base

02 p0223 A69-12834

Diffusion in conduction process in dielectric fluids, discussing space charge limited current-voltage characteristics

03 p0415 A69-13140

Voltage variable resistor MOST, noting channel resistance controllability

04 p0574 A69-14351

Current and voltage dependence of negative differential resistance segment of current-voltage characteristic on nature of m-p contact in germanium p-n-p-m structures

04 p0642 A69-14793

Low temperature plasma electric arc source operation describing current voltage characteristics and potential distribution

05 p0802 A69-15902

Recombination radiation of tellurium and zinc doped GaAs alloy type diodes, discussing luminescence spectra, current-voltage characteristics and temperature effects

05 p0729 A69-16210

Circuit with tunnel diodes and transistors for nonlinear amplification, noting current-voltage characteristics dependence on circuit parameters

05 p0730 A69-16221

Statistical studies of current-voltage characteristics of zinc-doped silicon diodes

05 p0732 A69-16425

Insulated gate tetrode with high drain breakdown potential and low Miller feedback capacitance, noting V-I characteristics

05 p0733 A69-16556

Approximate functions for tunnel diode dynamic conductance in three voltage ranges and Fourier conductance terms for tunnel diode frequency converters

05 p0735 A69-16647

Diffused Si and GaAs diodes electroluminescence and current-voltage characteristics

06 p0893 A69-16898

Low voltage Knudsen arc in cesium argon mixture using tungsten electrodes, analyzing current voltage characteristics

06 p0963 A69-16920

Two section model of saturation drain conductance of MOS transistors

06 p0893 A69-17155

Solid state diodes made by pulsed laser irradiation of polished silicon surfaces, discussing application to integrated circuit design

06 p0893 A69-17157

Tunnel junctions of narrow gap GeTe and wide gap GaAs, noting current voltage characteristics similar to those in Schottky barrier

06 p0980 A69-17770

Current-voltage characteristic of tunnel diodes, with curve approximation by even degree polynomials of voltage, discussing quasi-linear analysis

06 p0898 A69-17802

Current and voltage waveforms of transit time, resonant domain and LSA modes of operation of transferred-electron oscillators

07 p1097 A69-18443

Microwave spectrum of n-InSb avalanche plasmas under magnetic field, considering dynamic current-voltage characteristics, hole wave instabilities and microwave emission processes

07 p1197 A69-18466

Substrate bias influence on AC characteristics of MOS transistors used in variable resistor region

07 p1102 A69-18860

Metal oxide semiconductor circuits with higher orders of complementarity for performing multiple elec-

- onic functions, noting I-V characteristics and effects of bias
07 p1104 A69-18887
- Diffusion current detection method applied to reverse biased volt-ampere characteristics of Ge diodes, noting surface leakage role
07 p1105 A69-19007
- Current and voltage distribution in electromagnet compressor channel with solid electrodes of finite resistance, noting error analysis
07 p1059 A69-19029
- Electron-electron interaction effect on I-V characteristic and equivalent circuit of metal-semiconductor contact, noting conductivity and rectifying properties
07 p1107 A69-19162
- Plasma heating dynamics by straight turbulent discharge current influenced by initial plasma parameters
07 p1195 A69-19592
- Properties of ion implanted GaAs diodes fabricated at room temperature, analyzing light emission, resistance and breakdown voltage
ECS PAPER 172] 08 p1284 A69-20369
- Spacecraft applications of Langmuir probes, obtaining data from current-voltage characteristics for electron/ion concentrations, ion mass spectra and charged particle energy distribution
08 p1316 A69-20474
- Semiconductor laser with isolated diodes in cavity, noting watt-ampere characteristics during nonuniform excitation and threshold curves
08 p1326 A69-20539
- Normalized thermionic field emission in metal semiconductor barriers for forward and reverse current-voltage relation
08 p1373 A69-20861
- SERT 2 mercury vapor fed hollow cathode operated in bell jar, determining volt-ampere characteristics and flow rates for plasma diagnostics
[AIAA PAPER 69-258] 09 p1561 A69-21221
- Dark and photocurrent volt-ampere characteristics induced by capture of carriers injected into illuminated CdS single crystals
09 p1555 A69-21506
- DC electrical resistance of magnetosphere between two satellites with sheaths and current voltage relation of satellite sheath
09 p1489 A69-21710
- Forward volt-ampere characteristics and differential resistance peak of Schottky barrier diode on doped Si
09 p1557 A69-21744
- Current controlled negative differential resistivity observed during current-voltage measurements made with p-type Te at 77 K
09 p1557 A69-21747
- Trapping state effect on tunneling probability in Schottky barriers, discussing current-voltage characteristics
09 p1557 A69-21748
- Current oscillations in seminsulating O and Cr doped GaAs samples at room temperature, noting photoconductivity excitation spectra
09 p1557 A69-21753
- Reproducibility of thermionic converters performance, comparing volt-ampere characteristics with reservoir and collector temperature
09 p1437 A69-21813
- Local axial voltage variation from one dimensional model applied to solve thermionic boundary conditions in two dimensional thermal analysis of converter
09 p1440 A69-21834
- Diffusion and minority carriers drift effect on current-voltage characteristics of p-n-p-n structure in high density current
10 p1742 A69-22997
- Probability characteristics of temperature and supply voltage dependent parameters of semiconductor equipment
10 p1661 A69-23112
- N enhancement silicon MOST saturation current as function of temperature
10 p1743 A69-23175
- Current voltage characteristics of p-n junctions in cadmium telluride, discussing spectral sensitivity bands
10 p1744 A69-23212
- Semiconductors with negative differential conductivity, investigating decreasing current-voltage characteristics, S or N shaped curves, perturbation parameters, instability, etc
10 p1744 A69-23300
- Three layer vacuum deposited silicon monoxide films current voltage and conduction current density temperature dependence
10 p1745 A69-23324
- Current-voltage characteristics of combustion driven shock tube generated argon plasma
10 p1737 A69-23466
- Current voltage characteristics in silicon carbide diodes having negative differential resistance
10 p1663 A69-23571
- Positive and negative sloped current-voltage characteristics of silicon tunnel diodes with p-n junctions
10 p1746 A69-23574
- Tunnel diode test circuit, measuring differential resistances and bias voltages on loss resistance and of socket capacitance
10 p1665 A69-24215
- Frequency retuning characteristics of oscillator employing avalanche transit-time diode with complementary varactor subject to current or voltage variation
11 p1844 A69-24449
- Germanium tunnel diode current-voltage characteristics, proposing expression for approximation of differential conductivity as function of voltage
11 p1847 A69-24721
- Calorimeter for IR carbon-dioxide laser output power measurement, noting range calibration and accuracy
11 p1885 A69-24903
- Forward and reverse current-voltage characteristics and reverse biased capacitance for nZnSe-pGe emitter base diodes of heterojunction transistors
11 p1851 A69-25114
- Emission and diffusion theories of metal-semiconductor contacts for describing current characteristics of abrupt isotype nGe-nGaAs heterojunction
11 p1938 A69-25115
- Porous cermet electrodes thermochemical protection by blowing neutral gas into electrode boundary layer, examining effect on volt-ampere characteristics
11 p1826 A69-25395
- Solar cell equation series resistance and junction recombination parameters determination, considering I-V characteristics
11 p1826 A69-25395
- Arc mode thermionic Cs converter nonlinear I-V characteristics explained by current-dependent temperature and potential fields in plasma
11 p1827 A69-25400
- Current increase and voltage decrease in high voltage low pressure Penning discharge ascribed to hollow cathode effect
11 p1933 A69-25544
- Current-voltage characteristics and ionization equilibrium of low voltage arc plasma in narrow gap of thermionic converter at high current density
11 p1933 A69-25554
- Voltage and current waveforms of resonant domain and limited space charge accumulation modes in transferred electron oscillators, noting drift current
12 p2036 A69-25908
- Rarefied Ar plasma flow current-voltage characteristics in discharge tube, noting plasma boundary layer thickness influence on saturation current
12 p2137 A69-26532
- Nanosecond time variations in current-voltage characteristics of gas discharge in air, taking into account discharge circuit resistance and discharge space capacitance
12 p2137 A69-26534
- Multielectrode probe performance in plasma diagnostics, considering effects of plasma pressure, probe geometry and space charge on current-voltage characteristics
12 p2138 A69-26539
- Bias circuit LF oscillations in short Gunn devices, analyzing sinusoidal and relaxation oscillations and stable bias in terms of terminal I-V characteristics
12 p2041 A69-26628
- Indium phosphide p-n junction current-voltage characteristics at various temperatures, considering degree of doping effect
12 p2144 A69-26649
- Soviet book on plasma thermionic energy conversion covering operation modes, transport processes, current-voltage characteristics, density, temperature, electric field distribution
12 p2017 A69-26850
- Harmonic generation, using nonlinear current-voltage characteristics of Gunn diodes at 9500 MHz frequency
13 p2226 A69-27235
- Liquid metal induction MHD generator I-V characteristics at no load permitting self excitation with capacitors
13 p2208 A69-27509
- Negative resistance formation in impurity compensated semiconductor diodes ascribed to injected carrier drift path increment with increasing current, deriving I-V characteristics
13 p2230 A69-27877
- High resistivity GaAs impedance with nonlinear I-V characteristics, showing appreciable reactive component
13 p2317 A69-27881
- Photoelectric characteristics of thin film CdS-CdTe heterojunction diodes, considering I-V illuminance, spectral characteristics and conduction band continuity
13 p2230 A69-27882
- Current oscillations in n-type gallium arsenide related to electroacoustic domains motions, noting oscillation period dependence on voltage
13 p2318 A69-27892
- High power voltage tunable magnetron, discussing operating characteristics, life and applications
13 p2232 A69-28056
- Electrical breakdown voltage and voltage-current characteristics of uncooled coplanar carbon electrodes in walls of supersonic conical and rectangular nozzles [AIAA PAPER 68-713] 13 p2249 A69-28231
- MOS unitor switching circuit operation subjected to nonlinear load, using analytic approximations of current-voltage characteristics
13 p2234 A69-28507
- Current-voltage characteristics for double injection processes in nonideal contact p-i-n semiconductors operating in ohmic relaxation mode
13 p2323 A69-28524
- Capture centers effect on current-voltage characteristic of p-i-n diodes during injection, noting negative resistance appearance
13 p2236 A69-28525
- Current-voltage characteristics of p-n-p-n diodes, discussing collector voltage effect on current carrier concentration distribution in diode base
13 p2236 A69-28531
- Two chamber DC arc heater with vortex stabilization, determining current-voltage characteristics and efficiency
13 p2244 A69-28557
- Electric field distribution in TWT electron beam deflection system determined, accounting for current-voltage characteristics dependence on electromagnetic field distribution
13 p2237 A69-28582
- I-V characteristics of electron emitting satellite in ionosphere, analyzing spherical Langmuir probe in collisionless plasma in magnetic field
14 p2511 A69-28956
- Weak superconducting contacts volt-ampere characteristics current steps and emission spectra, showing singularities due to superconducting current nonhomogeneity
14 p2504 A69-28994
- Low voltage arc in cesium thermionic converter, investigating current-voltage characteristics, electron temperature, electron density and plasma potentials in ignited mode
14 p2401 A69-29231
- Voltage drop of ignited mode related to current density in cesium diode, noting plasma zones
14 p2401 A69-29232
- Low voltage arc discharge characteristics in cesium vapor, considering energy balance, electron temperature, energy losses, volt-ampere characteristics, ignition, cathode temperatures, etc
14 p2401 A69-29234
- Thermionic converter current-voltage characteristics under various emitter temperatures and cesium vapor pressures, noting role of Schottky effect
14 p2402 A69-29241
- Rare gases effect on thermionic converters volt-ampere characteristics, noting gas pressure, oxygen contamination and performance relations
14 p2403 A69-29251
- Preignition volt-ampere curves for thermionic cesium diodes exhibiting nonsaturation characteristics under low temperature and electron-rich emission conditions
14 p2403 A69-29253
- Spectral lines emitted from low voltage discharge in cesium filled diode with hot cathode, giving current-voltage characteristics as function of pressure and temperature
14 p2491 A69-29260
- One dimensional analysis of static collector emitter saturation voltage of epitaxial and triple diffused devices, considering transistor with lightly doped collector
14 p2421 A69-29545

Plasma scanner in obtaining current cross sections and current-voltage characteristics of hollow cathode magnetically confined arc plasma in argon
14 p2450 A69-29568

Gunn effect GaAs oscillators with p-n junctions, studying electrical characteristics, threshold voltages and currents during breakdown and p-n junctions injection
15 p2666 A69-30063

Transistorized circuit operation with nonlinear feedback through tunnel diode analyzed by piecewise-linear approximation of I-V characteristics
15 p2573 A69-30114

Oscillation breakdown of varactor diodes in parametric amplifiers from studying I-V characteristics, noting resonant circuit retuning effect
15 p2574 A69-30127

Space charge effects on trigger current and reflector voltages of reflex klystron
15 p2574 A69-30131

Negative resistance section of current-voltage curve for long diodes of p-type indium antimonide, noting magnetic field effects on electrical breakdown
15 p2581 A69-31149

Electric arc plasma generator efficiency analysis including supply voltage, working current, current-source impedance, ballast resistor and optimum voltage-current selection
15 p2664 A69-31177

High voltage thin film transistor, discussing design criteria, fabrication, I-V characteristics and switching speed
16 p2757 A69-31614

Plasma parameters, except ion temperature, obtained from current-voltage characteristics of flowing plasma measured by electrostatic probes in low density wind tunnel
16 p2816 A69-31637

Electrical and thermal conductivities of high pressure arc plasmas from I-V characteristics and radial temperature profile
16 p2817 A69-31644

Electron trap behavior on charged spacecraft, obtaining expressions for current to aperture and internal retarding electrodes for all apertures and spacecraft potentials
16 p2849 A69-31976

I-V characteristics of caloelectric plasma converter with concentric electrodes measured for various hot electrode temperatures and mercury vapor flow rates
16 p2822 A69-32065

Hall ion thruster prime propulsion system, considering low and high voltage mode in plasma source I-V characteristics
17 p3019 A69-33338

Transient characteristics of three phase AC alternators with rectified outputs
17 p2905 A69-34089

Aircraft secondary power sources reliability dependence on electric loads, charge control and maintenance, discussing hermetically sealed batteries features
17 p2905 A69-34113

Laboratory device for investigating thermionic energy converters and measuring current-voltage characteristics by static/dynamic methods
18 p3136 A69-34700

Plasma parameters relationship with double electrostatic probe volt-ampere characteristics, applying corrected formulas for temperature, ion density, etc, to flame diagnostics
18 p3137 A69-34932

Schottky barrier diodes for high temperature operation prepared on n type GaP single crystals, studying I-V and C-V characteristics
19 p3381 A69-35681

Proton irradiation effects on current degradation at fixed voltages of silicon solar cells with coverslips
19 p3252 A69-35701

Shadow effects on current-voltage characteristics of solar cell array circuits, developing mathematical models
19 p3254 A69-35709

Solar cells volt-ampere characteristics calibrated at various solar incidence angles on LES-6 satellite in synchronous orbit
19 p3254 A69-35712

Pulsed water vapor laser high power operation and strongest component wavelength measurement
19 p3337 A69-36416

Junction lasers current-voltage characteristics, discussing coherence-pinch effect as explanation of threshold behavior
19 p3337 A69-36531

Voltage and temperature dependence of zero-bias anomaly in GaAs p-n junction at 0.40-60 K, investigating voltage dependence of differential resistance
19 p3388 A69-36542

Hot electron behavior in n-type InSb under magnetic fields at 4.2 and 1.7 K, plotting current-voltage and current-Hall voltage characteristics, etc
19 p3388 A69-36544

Current-voltage characteristics of unitoron with metal-dielectric-semiconductor structure /MOSFET/ taking into account substrate potential effect
19 p3284 A69-36592

Metal-semiconductor contact current-voltage characteristic derived from modified diode theory taking into account electron distribution function
19 p3391 A69-36608

MOS threshold voltages calculations, considering fixed bulk and oxide charges and difference in work function between metal and semiconductor, considering MOS-FET devices
20 p3506 A69-37779

Recombination radiation of tellurium and zinc doped GaAs alloy type diodes, discussing luminescence spectra, current-voltage characteristics and temperature effects
20 p3506 A69-37783

Injection and excitation of charge carriers in CdS single crystals, analyzing current-voltage characteristics dependence on electrode separation, temperatures and electric field
21 p3779 A69-38423

GaAs-GaP heterojunctions, analyzing continuous conduction band, capacitance and current-voltage characteristics, photoresponse and modulation effect
21 p3779 A69-38424

Tunnel p-n junctions preparation by diffusing Zn into degenerate Te doped n-type GaSb between 580-600 C, measuring volt-ampere and capacitance characteristics
21 p3780 A69-39043

High resistivity GaAs impedance with nonlinear I-V characteristics, showing appreciable reactive component
21 p3782 A69-39143

Josephson currents interaction with LF surface plasmons in superposed thin dielectric and superconducting metal films, noting I-V characteristics
22 p3992 A69-40420

Nonlinear voltage dependence on current in p-type indium selenide single crystals, detecting negative resistance under pulsed electric field
22 p3992 A69-40602

Electric instabilities in semiconductor devices analyzed by subdividing instabilities into cathode and anode waves, considering recombination and electron and hole production processes
22 p3997 A69-41173

Performance degradation in cadmium sulfide solar cells, discussing cause identification technique, I-V curve parameter changes, etc
23 p4070 A69-42271

Hot spot failure modes in solar cell arrays noting protection through I-V characteristic control
23 p4142 A69-42273

Luminescence, I-V and pulse characteristics of high resistivity Ni doped GaAs single crystals, noting injection conductivity
24 p4362 A69-43734

VOLTAGE

U ELECTRIC POTENTIAL

VOLTAGE AMPLIFIERS

Error origin and control in high gain operational amplifier in time differentiation of voltage signal used for photoemission studies
06 p0897 A69-17700

Maximum voltage and power gain of modulator-demodulator type nonresonant parametric amplifiers
11 p1849 A69-24956

Voltage amplitude for combination frequency of small signal transistor amplifier calculated from feedback dependence
13 p2226 A69-27218

VOLTAGE BREAKDOWN

U ELECTRICAL FAULTS

VOLTAGE GENERATORS

U PHOTOVOLTAIC CELLS

VOLTAGE MEASUREMENT

U ELECTRICAL MEASUREMENT

VOLTAGE REGULATORS

Passive circuit to transform voltage of indefinitely repeated positive or negative pulses using transistors, diodes and magnetic cores
01 p0043 A69-10564

Magnetic core logic circuit system for bidirectional stepping motor drive voltage power supply control in proper phase and time sequence
01 p0047 A69-11000

Automatic device for charging storage capacitors in plasma devices provides voltage and operational frequency control
04 p0580 A69-1449

Regulated high voltage DC to DC converter with output voltage programmable numerically, noting application on board HEOS A satellite
04 p0602 A69-1540

Phase measurement using phase lock loop, voltage controlled oscillator and synchronous counter
05 p0722 A69-1676

Mathematical model for voltage step-down DC to DC converter with hysteretic bistable trigger circuit regulating output voltage
06 p0904 A69-1794

All-diffused process to build monolithic high power series voltage regulator with separately optimized DC and AC characteristics
07 p1103 A69-18881

Regulated voltage converter systems for onboard spacecraft electric power supplies, noting chopper circuits with rectifiers
12 p2015 A69-25867

Variable voltage DC power supplies for energizing cryogenically cooled and superconductive electromagnets
12 p2017 A69-26498

Regulating setup for controlling AC voltage surrounding polarization of magnetic electrode in plasma
15 p2664 A69-31094

Power supply circuits in spacecraft, DC voltage control systems, transistor and thyristor regulators and modulators, etc
17 p2937 A69-33582

Duty cycle IC generator for switching regulators, discussing construction, resistive and dielectric films fabrication, applications, etc
23 p4073 A69-42293

High efficiency boost regulator design and tests for planetary spacecraft, considering input and output voltages
23 p4075 A69-42302

Symmetrically regulated AC/DC converters power characteristics improved by switching in phase rectifiers twice during control cycle
24 p4254 A69-42570

VOLTAGE VARIATION INDICATORS

U VOLTMETERS

VOLTERRA EQUATIONS

Unstable Volterra integral equation reduced to finding solutions for Fredholm integral equation by restricting solutions to closed ball in Hilbert space
01 p0103 A69-10004

Forward and backward scattered modes over frequency range in multimode nonuniform waveguide, transforming coupled modes telegraphist equations into Volterra equations
01 p0043 A69-10621

Volterra equation generalization by method involving operator for mapping of topological space into Banach space
02 p0270 A69-11531

Congruence theorems for Volterra equations with delay
04 p0625 A69-15099

Ground influence on Helmholtz flow in presence of plate perpendicular to stream, reducing problem to mixed Volterra problem in complex half plane
04 p0590 A69-15221

Nonlinear Volterra integral equation, extending topological dynamics application of nonautonomous ordinary differential equations
04 p0626 A69-15288

Theorems and lemmas formulated pertaining to Volterra equations stability
05 p0787 A69-16449

Nonlinear Volterra integral equation solved by Runge-Kutta method
05 p0787 A69-16456

Volterra equation generalization extended and applied to functional Volterra equations, proving theorem dealing with topological, quasi-compact and uniform spaces
08 p1342 A69-20268

Criteria governing solution uniqueness to Volterra equations system
10 p1722 A69-24067

- Perturbations of Volterra integral equation with vectors in n -dimensional real or complex Euclidean space, comparing solution with linear system solution
11 p1909 A69-24886
- Interference between bodies of revolution and wings in supersonic flow, using Volterra method for calculation
11 p1820 A69-25476
- Dirichlet problem solution for Volterra elliptic integrodifferential equation, considering existence theorem hypotheses
12 p2121 A69-26468
- Volterra operator algebra for boundary value problems involving linear viscoelasticity with continuous relaxation time and delay time spectra
12 p2182 A69-26677
- Dahlquist linear multistep methods of stability analysis for ordinary differential equations extended to Volterra integrodifferential equations
12 p2123 A69-26753
- Volterra integral equation with nondifference type singular kernel for stress-strain state in long hollow viscoelastic cylinder with moving inner boundary
13 p2361 A69-27744
- Inequality theorems for multidimensional functional Volterra equations formulated and proved, deriving upper and lower solutions
13 p2290 A69-28684
- Numerical solution of nonlinear Volterra integral equation by Runge-Kutta-Felberg method
15 p2644 A69-30657
- Equilibrium cracks propagation in linear hereditary elastic media using Volterra principle
15 p2715 A69-31201
- Nonlinear theoretical derivation of creep equations for three dimensional processes in polymers, based on Boltzmann-Volterra creep heredity concept using stress-strain summation
16 p2803 A69-32290
- Gyrocompass differential equations of motion reduced to Volterra integral equation, proposing solution algorithm
17 p2995 A69-33617
- Cauchy problem solution for first order nonlinear Volterra integrodifferential equation, using Runge-Kutta method
20 p3569 A69-38294
- Coupled set of differential equations describing generalized Volterra problem of conflicting populations and application to plasma oscillations
22 p3976 A69-41260
- Volterra problem with given singularities for exterior of circle applied to fluid mechanics
24 p4339 A69-42679
- Numerical methods for nonlinear Volterra integral equations of second kind avoiding special starting procedures, giving convergence theorem
24 p4340 A69-43228
- VOLTMETERS**
Photoconductor open circuit voltage determination, calculating responsivity and sensitivity of actual and ideal cases
12 p2093 A69-26481
- VOLUME**
NT BODY VOLUME [BIOLOGY]
Heat capacity at constant volume determined for nitromethane, trinitrotoluene and difluoramine alitanes
[WSCI PAPER 68-39] 07 p1202 A69-18368
- Shrinkage cavity volume formulas for alloy castings with wide liquidus to solidus range, considering effects of diffused porosity and clustering for Mg alloy
20 p3548 A69-37329
- VOLUMETRIC ANALYSIS**
Gas bath cryostat to study volumetric properties of gaseous mixtures at low temperature and high pressure
17 p2975 A69-33669
- Quantitative mineralogical characterization of chondrites by modal analysis using electron microprobe
19 p3416 A69-36125
- VOLUMETRIC STRAIN**
Volumetric and allotropic changes during heating in electrolytic cobalt multiple phase transformations
12 p2114 A69-26455
- Elastic curve shape effects on volume of minimum weight uniformly strong beam under combined longitudinal and transverse bending
23 p4225 A69-41421
- VON KARMAN EQUATION**
Approximate solution for Dirichlet problem for linear Karman differential equation used in thin plate deflections obtained by Bubnov-Galerkin method
01 p0105 A69-10700
- Von Karman flow changes due to unsteady heat transfer from rotating disks impulsively changing temperatures, particularly steady state and response time
08 p1422 A69-20996
- Self controlled vibration of elastically supported cylinder in fluid stream due to von Karman shedding, considering fluidelastic interaction, structural deformation and natural frequency
13 p2360 A69-27437
- Perturbation method for nonlinear panel flutter at high Mach numbers, using von Karman large deflection plate theory and quasi-steady aerodynamic theory
13 p2364 A69-28204
- Nonlinear Galerkin analysis of curved plate flutter, using shallow shell/von Karman equations and quasi-steady aerodynamic theory
13 p2364 A69-28207
- Von Karman swirling flow problem differential equations solved by extending Serrin existence theorems
14 p4322 A69-29676
- Taylor vorticity transport theory and von Karman similarity hypothesis extended to consider three dimensional fluctuating velocity field in analyzing turbulent swirling ducted flow
[ASME PAPER 69-APM-19] 18 p3120 A69-34394
- Von Karman equations in dimensionless and finite difference forms for deflections of elastic circular plate with central hole under load solved by iteration
[ASME PAPER 69-APM-20] 18 p3214 A69-34395
- Number of forms of stability of plates and shells derived from eigenvalues of nonlinear boundary value problem containing generalized von Karman equations
19 p3445 A69-36816
- Von Karman equations for large deflection of simply supported square plates solved using dynamic relaxation method, recommending optimum mesh spacing
20 p3619 A69-36938
- Reynolds number dependence of turbulent velocity profile in circular tube and parallel plate channel analyzed by von Karman similarity hypothesis
20 p3513 A69-37081
- Forced flow against infinite rotating disk, showing von Karman similarity equations solution for axial flow at large distances toward disk
24 p4244 A69-42718
- VON MISES THEORY**
U STRESS FUNCTIONS
- VON ZEIPPEL METHOD**
Short period terms elimination for problem of motion of satellite with strong inclination and eccentricity, using von Zeipel method
03 p0514 A69-13783
- VOR SYSTEMS**
U VHF OMNIRANGE NAVIGATION
- VORTEX BREAKDOWN**
Vortex breakdown effect on aerodynamic coefficients of small aspect ratio delta wings during yawing
04 p0543 A69-14821
- Degree of knottedness of tangled vortex lines, discussing vorticity distribution for inviscid flow and MHD invariants
11 p1872 A69-25126
- Vortex breakdown in rotating fluids associated with wave motion along axis of rotation, considering effects of nonzero wave amplitude
[AIAA PAPER 69-645] 17 p2892 A69-33478
- Vortex breakdown on slender sharp edged and modified delta wings with varying sweep angles investigated in wind tunnel using schlieren system for flow visualization
[AIAA PAPER 69-778] 19 p3237 A69-35644
- VORTEX COLUMNS**
U VORTICES
- VORTEX DISTURBANCES**
U VORTICES
- VORTEX FLOW**
U VORTICES
- VORTEX GENERATORS**
Circulation, geometry and viscosity effects on speed of surge in bathtub vortex
05 p0744 A69-15718
- Shock tube investigation of formation and flow characteristics of impulsively generated vortex street recorded interferometrically, using high speed framing camera
[ASME PAPER 68-FE-32] 05 p0748 A69-16079
- Counter rotating vertical vortices produced by corona discharge on heated flat plate under free convection conditions
[ASME PAPER WA/HT-9] 05 p0846 A69-16117
- Propeller at static working state using vortex theory assuming infinite blade number, discussing thrust and torque coefficients
06 p0857 A69-17194
- Visual investigation of flow field at swept wing, measuring pressure distribution at stall fence and vortices formation
06 p0858 A69-17341
- Compressible combustor turbulent shear flow analysis, discussing eddy diffusivity, density fluctuations, vorticity intensification and turbulent transport
[WSCI PAPER 68-27] 06 p1034 A69-17793
- Discontinuous vortex power amplifier and diode design, noting supply regulator effects and load matching
09 p1443 A69-22737
- Vortex amplifiers small signal analysis based on mathematical model and network theory
09 p1443 A69-22739
- Vortex amplifiers design and performance, noting nonvented and vented amplifiers and fluid valving applications
09 p1443 A69-22741
- Incompressible fluid flow engine spiral casing, considering flow as potential flow
10 p1632 A69-22914
- Hybrid fluidic pressure regulator combining vortex amplifier and confined-jet amplifier with performance upgrading moving metering element, noting greater efficiency and reliability
10 p1639 A69-23560
- Secondary vortex generation in near wake of circular cylinders under forced oscillation, analyzing motion dependent transition regimes using hydrogen bubbles flow visualization
[AIAA PAPER 69-755] 18 p3084 A69-34411
- Model predicting steady state input-output characteristics of vortex amplifiers operating in incompressible flow regime, correlating model with experimental data
[ASME PAPER 69-FLCS-20] 20 p3465 A69-37980
- Forced and periodic motion of air or water jets impinging in double input vortex chamber described in terms of oscillator deriving energy from hydrodynamic instability
[ASME PAPER 69-FLCS-19] 20 p3465 A69-37981
- Plane Poiseuille flow with nonlinear temperature distribution, studying vortex type secondary flow onset due to buoyant forces
[ASME PAPER 69-HT-37] 24 p4411 A69-43533
- Taylor Goertler vortex formation effect on heat transfer through boundary layer on concave wall
[ASME PAPER 69-HT-3] 24 p4414 A69-43563
- VORTEX INJECTORS**
Vortex motion enhancement of jet penetration and spreading in supersonic fuel injection into large diameter combustors
[AIAA PAPER 69-664] 17 p2953 A69-33437
- VORTEX RINGS**
Vortex ring production in liquid jet by vibration induced pressure pulses at orifice, discussing plates formed under high g vibration
[AIAA PAPER 68-132] 16 p2770 A69-31880
- Algorithm using Biot-Savart law for determining induced velocity of curved vortex lines in aerodynamics, noting required line integration method
20 p3458 A69-37169
- VORTEX STREETS**
NT KARMAN VORTEX STREET
Shock tube investigation of formation and flow characteristics of impulsively generated vortex street recorded interferometrically, using high speed framing camera
[ASME PAPER 68-FE-32] 05 p0748 A69-16079
- Strouhal and Reynolds numbers relation from data on vortex streets of circular cylinder in two dimensional flow
07 p1119 A69-18749
- Boundary layer separation and vortex street buildup conditions of gas flow in circular cylinder wake
08 p1252 A69-20713
- Vortex shedding and wake formation behind inclined flat plate at low Reynolds number, using dye injector method for streak line observation
16 p2768 A69-31767
- Vortex wakes behind high lift wings, considering effects of height above ground and various tunnel heights and widths for STOL operations
[AIAA PAPER 69-740] 18 p3083 A69-34405
- Flow field induced by spiral vortex sheet, noting existence of radial velocity component
21 p3692 A69-38610

VORTEX TUBES

Model for statistically isotropic homogeneous turbulence in incompressible fluid, representing turbulence as superposition of individual vortex sheets
22 p3930 A69-40525

Vortex shedding from circular cylinders rotating normal to free stream velocity, studying roles of rotation rate and Reynolds number
24 p4248 A69-43601

VORTEX TUBES U HILSCH TUBES U VORTICES VORTICES

Vortices coupling between superposed superconducting tin films as function of perpendicular magnetic field, primary current and temperature
01 p0135 A69-10014

Jet line in rotational incompressible plane flows around shrouded propeller blade, using electrical analog
01 p0058 A69-10037

Confined vortex in air tangential and axial velocity distribution based on smoke profile pictures
01 p0060 A69-10413

Characteristics of electrovortices and auroral electrovortices of polar disturbance field, discussing dynamics during geomagnetic storms
02 p0240 A69-11723

Vortex valve characteristics, noting Reynolds number and geometry effects on flow and turnaround ratio
02 p0195 A69-12079

Vortex controlled fluid amplifiers, discussing static and dynamic performance characteristics
02 p0195 A69-12081

Photographic flow patterns of separated flows with vortex formation obtained in wind tunnel for different aerodynamic configurations of revolution
02 p0191 A69-12586

Discrete vortices in two dimensional subsonic and supersonic wake, determining Strouhal numbers, frequencies and flow velocities with aid of HF cinematography
02 p0191 A69-12587

Thermovortex effect, determining functional relations between interdependent parameters by means of dimensional analysis
03 p0531 A69-12966

Large scale disturbances in summertime stratosphere observed from high level balloon, discussing diurnal wind patterns and planetary traveling waves
03 p0461 A69-13343

Supersonic flow past blunt body with convex corner calculated to establish sonic point on body
03 p0362 A69-13406

Nonstationary model of mesoscale atmospheric vortex with vertical axis based on atmospheric thermohydrodynamics
03 p0462 A69-13932

Numerical solution of axisymmetric incompressible viscous fluid flows about rotating cylinder, Taylor vortex between cylinders and through labyrinth seal
03 p0419 A69-13990

Unsteady two dimensional flow in square cavity with fluid initially at rest and constant velocity upper surface of cavity, noting vortex center
04 p0587 A69-14510

Test of similarity theory of leading edge vortices above slender wings in subsonic conical flow
04 p0543 A69-14820

Tetron flight observations of eddy velocities in planetary boundary layer, noting effects of height and seasonal variations
04 p0626 A69-14912

Light aircraft hazards due to trailing vortex generated by heavy transport aircraft, suggesting specific procedures for takeoff, landing and flight phase
04 p0549 A69-14930

Covariances of temperature and meridional wind component and relation to northward flux of sensible heat due to transient eddies in stratosphere
04 p0627 A69-15084

Vortex motion of separated flow from slender wings and rotor loading, discussing computer role in low speed aerodynamic research
05 p0696 A69-15562

Aerodynamic interference effects arising from jet efflux of V/STOL aircraft, developing vortex sheet theory for jet interference
05 p0696 A69-15566

Stationary velocity profile near jet driven vortex tube outer wall calculated by laminar boundary layer flow theory, neglecting wall curvature effects
05 p0798 A69-15610

Stabilizing influence of axial magnetic field on confined vortex flow of aqueous electrolytic conductor generated by two dimensional wall jets
05 p0798 A69-15611

Circulation, geometry and viscosity effects on speed of surge in bathtub vortex
05 p0744 A69-15718

Two dimensional supersonic rotational flow around convex corner solved using coordinate system consisting of left running characteristics and streamlines
05 p0697 A69-15722

Static and dynamic performance of pancake vortex flow field and application to signal amplification
05 p0704 A69-16001

Vortex devices and turbulence amplifiers, describing circuits, operating principles and performance
05 p0705 A69-16005

Vortex value and angular rate sensor based on amplification of tangential velocity component of swirl achieved by control jet or rotation
05 p0746 A69-16006

Pressure distribution across short vortex chamber to exit radius with known inlet geometry based on incompressible flow model and visualization photographs [ASME PAPER 68-WA/FE-17]
05 p0748 A69-16093

Self similar solution for Navier-Stokes equations describing steady motion of submerged eddy jet of incompressible viscous fluid injected into half space
06 p0908 A69-16825

Mach number effects on pattern of vortex flow past delta wing and circular cones at various Reynolds numbers
06 p0858 A69-17339

Cross hatching on various body surfaces due to periodic surface pressure fluctuations, discussing origin from counterrotating longitudinal vortices in boundary layer [AIAA PAPER 69-11]
06 p0915 A69-18213

Spherical particle motion in vortex gas flow between planes of turbulence chamber perpendicular to axis of flow rotation, noting collisions effect
07 p1181 A69-19000

Large scale tropical eddies using two layer dry atmospheric model containing nongeostrophic effects and parametrized dissipation
07 p1176 A69-19035

Planetary wave-zonal flow interaction interpretation in terms of potential vorticity eddy transport, deriving zonal wind change and temperature field
07 p1126 A69-19037

Flexible rotor blade dynamic response to radially moving force, emphasizing helicopter rotor vibration characteristics associated with tip-vortex impingement [AIAA PAPER 69-203]
07 p1054 A69-19546

Stability of plane vortex sheet in magnetic fields, noting stabilization effect of compressibility for nonmagnetic case
08 p1358 A69-19797

Mean and eddy terms contribution to momentum and heat balance of troposphere and lower stratosphere at solstices, describing zonal wind equations
08 p1308 A69-20318

Vortex valves and amplifiers small signal analysis using mathematical model to describe quantitative effects of vortex parameter changes [AGARDOGRAPH-118]
08 p1257 A69-20953

Ranque vortex tube as cooling device in MA-3 ventilating garment
09 p1447 A69-22550

Vortex fluidic devices - Conference, Philadelphia, January-February, 1967
09 p1443 A69-22736

Vortex valve pure fluid modulators steady state characteristics, analyzing geometry of exit, control and supply areas and chamber
09 p1443 A69-22738

Vortex fluid devices in control systems, considering electrical, mechanical and hydraulic systems
09 p1443 A69-22740

Permanent flow of solenoidal vector line rotation in steady nondegenerate rotational flow having complex lamellar unit normal to streamline
10 p1727 A69-22862

Viscous fluids rotational flow in cylindrically symmetrical vessels, circumventing Navier-Stokes equations of motion by Wedemeyer approximation
10 p1677 A69-22896

Vortex amplifier as active element in analog circuits
10 p1639 A69-23556

Vortex incompressible flow in thin cylindrical chamber, analyzing outer and inner region and interface tangential velocity, shear and static pressures
10 p1679 A69-23557

Large signal vortex amplifier analysis using load lines to evaluate series orifice and vortex flow control valve characteristics
10 p1639 A69-23558

Longitudinal vibrations induced by internal flow in metal bellows resembling vortex shedding excitations of elastically restrained cylinders, discussing spring mass mechanical model [ASME PAPER 69-VIBR-5]
10 p1805 A69-24163

Mean and eddy motions in atmosphere described by mathematical expressions for total and mean kinetic energies
11 p1911 A69-24323

Wing geometry and wing lower surface boundary layer effects on rolled-up tip vortices geometry and strength
11 p1819 A69-25372

Aircraft vortex wake development prediction for turbulent flow noting vortex size, strength and peak tangential velocity
11 p1819 A69-25377

Different pressure and deflection measurements coherence in vortex flows verified assuming radial equilibrium conditions
12 p2012 A69-26362

Vortices interaction effect on vertical turbulent heat flow in atmosphere boundary layer, determining dependence of vortex mean vertical temperature gradient
13 p2293 A69-27841

Energy transport between vortices in turbulent flow calculated from vortex stability study
14 p2430 A69-29508

Hydrogen plasmas motions in multipole magnetic fields, discussing plasma polarization, double vortex flow patterns and field line configurations
15 p2661 A69-30924

Numerical approximation of Taylor vortices in viscous incompressible fluid flow between concentric rotating cylinders, using truncated eigenexpansions
15 p2593 A69-31518

Fluidic vortex valve to modulate solid propellant generated hot gas flow [AIAA PAPER 69-424]
16 p2844 A69-32723

Rotating cylinder or vortex motion in shear flow with friction, noting drag and rotor force combined influence
17 p2950 A69-33151

Leading edge flap angle and planform effects on low speed vortex patterns of flat plate double delta wings, measuring aerodynamic forces
17 p2890 A69-33246

RF high pressure plasma discharges contained within radial inflow vortex, measuring radiation efficiencies, power densities and radiation fluxes [AIAA PAPER 69-695]
17 p3010 A69-33442

Finite amplitude standing transverse resonant acoustic field effects upon flow behavior of viscous fluid in cylindrical enclosure to acoustically model combustion instability [AIAA PAPER 69-667]
17 p2954 A69-33457

Vortex diffusion in viscous compressible fluid approximated by linear differential equations
17 p2957 A69-33714

Cyclonic vortices production by horizontal convergence in rotating water bowl as function of bottom surface inclination, modeling cyclogenesis in jet stream entropy field
17 p3000 A69-33760

Model calculations for movement of barotropic and initially symmetric vortices in rotating fluids with Coriolis parameter or fluid depth varying horizontally
17 p3000 A69-33761

Leading edge vortices and shock detachment flow over delta wings, discussing drag reduction due to lift
17 p2896 A69-34025

Helicopter rotor vortex noise data analyzed for noise suppression, obtaining sound power equations
17 p2896 A69-34034

Taylor vortices calculated as branching solutions of nonlinear Navier-Stokes boundary value problem
17 p2958 A69-34152

Standing twin vortices in wake behind thin flat plate normal to flow visualized by Al dust, noting Karman vortex street
18 p3086 A69-35167

Vortex wakes behind circular cylinder subject to transverse sinusoidal oscillations in uniform water flow at specific Reynolds numbers, photographing varied frequency flow patterns
18 p3086 A69-35169

Lifting line theory for hovering propellers deformed wakes based on continuous vortex sheet representation
18 p3087 A69-35217

Rotating static thrust propeller or hovering rotor flow field study by schlieren photography, considering vortex field, tip flow and shock wake formation
18 p3087 A69-35218

Vortex shedding effects on helicopter rotor noise with and without blade slap, noting far and near field noise
18 p3088 A69-35223

Secondary flow consisting of longitudinal vortices superposed on convection flow on inclined plate, obtaining flow pattern through flow visualization
18 p3124 A69-35383

Secondary flows in confined viscous vortex for nuclear rockets, employing rotating disk in chamber end wall for recirculation
19 p3296 A69-35756

Tangential and radial velocities in vortex boundary layer flow, relating diminishing amplitudes to increasing height using iterative method
19 p3363 A69-36499

Horizontal wind components over U.S.S.R., Western Europe and Northeast Atlantic obtained from satellite photographs of vortex cloud systems
19 p3365 A69-36668

Monograph on interaction between primary and jet flapped secondary airfoils covering line-vortex use for lift augmentation, aerodynamic characteristics, etc
19 p3242 A69-36820

Roshko correlation for estimating vortex shedding from circular cylinder in sheared flow with velocity in Strouhal and Reynolds numbers
20 p3515 A69-37228

Vortex flow air cooling system for lasers using vortex effect of gas separation, resulting in minimum weight and dimensions and high cooling efficiency
21 p3734 A69-38399

Forces on stationary cylinder under sinusoidal flow, considering symmetrically located vortex pairs and flowfield
[ASME PAPER 69-FE-13] 21 p3643 A69-38601

Laminar boundary layer on funnel wall, considering internal vortical and radial flow
21 p3692 A69-38611

Narrow band vortex shedding from circular cylinder in critical Reynolds number range, noting increase in Strouhal number
21 p3644 A69-38690

Interaction between boundary layer and external vortex flows and stability transitions of heated rotating fluid annulus
21 p3698 A69-39869

Velocity profile and skin friction in boundary layer on flat plate with periodic vorticity near leading edge
22 p3929 A69-40015

Horizontally flowing eddies or Rossby waves in solar convection zone and photosphere, giving mathematical models showing hydromagnetic dynamo effects inducing reversing magnetic fields
22 p4019 A69-40294

Helicopter rotors trailing vortices by flow visualization, comparing Euler and Runge-Kutta iterative solutions
23 p4150 A69-41376

Instability theory of baroclinic vortices in incompressible and inviscid fluid, investigating symmetric meridional motions time evolution by numerical integration of hydrodynamic equations
23 p4153 A69-42346

Spanwise velocity correlations of turbulent vortices shed by two dimensional bluff body of D section with different aspect ratios, noting end plates effect
23 p4234 A69-42397

Axial and angular momentum flux, flow force and circulation to determine strength and structure of narrow rotating axisymmetric vortex and swirling core flows
24 p4298 A69-42598

Shape, position and velocity of vortex wakes shed in unsteady multienergy flows near trailing edge, applying Kutta condition
[ASME PAPER 69-APMW-19] 24 p4245 A69-43099

Design of vortex fluid amplifiers operating in incompressible flow regime, based on fluid properties and geometry effects on amplifier behavior
24 p4256 A69-43299

VORTICITY
Mean meridional circulation models in tropics based on vorticity equation
03 p0460 A69-13334

Kinematic and dynamic relations determined for vortex flow of ideal incompressible fluid past circular cylinder, noting use for calibrating cylindrical adapters
04 p0541 A69-14484

Propeller at static working state using vortex theory assuming infinite blade number, discussing thrust and torque coefficients
06 p0857 A69-17194

Jupiter Red Spot vorticity at perimeter indicated by interaction with dark spots circulating along south equatorial belt
07 p1213 A69-18606

Vorticity behind shock waves in conducting gases when magnetic field is tangential or normal to shock surface using momentum equation
08 p1367 A69-20789

Stagnation point heat transfer sensitivity to free stream turbulence attributed to external vorticity, noting correlation with Prandtl number
09 p1622 A69-21905

Degree of knottedness of tangled vortex lines, discussing vorticity distribution for inviscid flow and MHD invariants
11 p1872 A69-25126

Direction of maximum turbulent vorticity in turbulent shear flow, determining alignment
11 p1874 A69-25282

Linear amplification, nonlinear limiting and secondary instability induced by unsteady effects illustrated for various transitional flows, including roughness and streamwise vorticity
17 p2950 A69-33248

Hydraulic resistance of pipes with flow vorticity produced by helical swirlers
21 p3695 A69-38862

Temperature-vorticity analogy for viscous two dimensional fluid flow extended to compressible flows, noting enthalpy and shear stress analogy
22 p3929 A69-39892

Shock tube boundary layers dependence on shock strength determined using vorticity transport to define boundary layer coordinate
22 p3930 A69-40531

Boundary layer effects in turbulent spiral vortex flow of compressible fluid in supersonic centrifugal compressor, discussing flow geometry, using momentum integral method
23 p4152 A69-42109

VORTICITY EQUATIONS

Stability theorems for barotropic vorticity equation integrated within limited region for flow through boundary without existing physical boundary conditions
13 p2294 A69-28494

Alpine effects on wind field at synoptic scale using potential-vorticity equation, discussing deflection angle dependence on potential temperature distribution
15 p2650 A69-31445

Predictability of deterministic fluid systems with many scales of motion using vorticity equation for two dimensional incompressible flow, noting application to earth atmosphere
19 p3303 A69-36404

Operational circulation model numerical experiment suggesting elimination of spurious divergence-on-divergence interactions from implied vorticity equations in primitive equations
19 p3363 A69-36503

Hadley and equatorial cell models for mean meridional circulation in terms of vorticity equation
24 p4345 A69-43152

VORTICITY TRANSPORT HYPOTHESIS

Taylor vorticity transport theory and von Karman similarity hypothesis extended to consider three dimensional fluctuating velocity field in analyzing turbulent swirling ducted flow
[ASME PAPER 69-APM-19] 18 p3120 A69-34394

VOSKHOD 1 SPACECRAFT

Voskhod 1 and 2 crew performance, orientation and motor activity analysis indicating time increment for task performance, psychophysiological irregularities and visual analyzers impaired functioning
02 p0203 A69-12123

VOSKHOD 2 SPACECRAFT

Voskhod 1 and 2 crew performance, orientation and motor activity analysis indicating time increment for task performance, psychophysiological irregularities and visual analyzers impaired functioning
02 p0203 A69-12123

Weightlessness effects on human external respiration, gas exchange and energy expenditure indices during flight of Voskhod 2
12 p2020 A69-26563

VOSKHOD MANNED SPACECRAFT

Cardiovascular system, respiratory system and metabolism of cosmonauts on three man flight of Voskhod, noting physiological and biochemical studies
03 p0377 A69-14195

Cosmonauts cardiac activity and respiration changes during physical exertion in orbital flight on Voskhod spacecraft
03 p0377 A69-14196

Physiological and medical tests on Soviet cosmonauts onboard Voskhod spacecraft, assessing CNS, cardiovascular and respiratory systems and work-rest schedule
07 p1060 A69-18571

VOWELS

Whispered vowels pitch perception test using listen-and-compare method to determine formants for comparison with complex analysis procedure
23 p4190 A69-41575

VOYAGER PROJECT

Planetary quarantine and biological search strategy, discussing Voyager-Mars mission configuration, sterilization, back contamination and decisions
01 p0021 A69-11090

Microorganism viability in rocket engine combustion environments used to determine probability of biological contamination of Mars by Voyager missions
05 p0714 A69-15949

VOYAGEUR HELICOPTER

U CH-46 HELICOPTER

VTO FIGHTER AIRCRAFT

U FIGHTER AIRCRAFT

U VERTICAL TAKEOFF AIRCRAFT

VTOL

U VERTICAL LANDING

U VERTICAL TAKEOFF

VTOL AIRCRAFT

U VERTICAL TAKEOFF AIRCRAFT

VULCANIZATES

U VULCANIZED ELASTOMERS

VULCANIZED ELASTOMERS

Vulcanized elastomers suitable for contact with liquid oxygen, discussing preparation, mechanical properties, transition temperature and structure
05 p0717 A69-16497

Low viscosity/density RTV silicone rubber sealants obtained by using glass microballoon fillers
24 p4337 A69-43454

VULCANIZING

High strength room temperature vulcanizing silicone rubber for tooling and fabrication of aircraft and missile components
09 p1507 A69-22331

Room temperature vulcanizing silicone rubber adhesive sealants strength and self bonding, describing primerless adhesion to Ti and Al alloys, Al, Ni and stainless steels
19 p3356 A69-35532

VZ-2 AIRCRAFT

Technological evolution of turboprop propeller powered tilt wing V/STOL aircraft, discussing XC-142A, CL-84 and VZ-2 aircraft
05 p0701 A69-15564

VZ-10 AIRCRAFT

U XV-4 AIRCRAFT

VZ-12 AIRCRAFT

U P-1127 AIRCRAFT

W

W WINGS

U VARIABLE SWEEP WINGS

WAFERS

Current oscillations or instabilities in semiconductor wafer with one electromagnetic mode and one carrier mode, investigating resonant frequencies
03 p0408 A69-14049

WAKES

NT AIRCRAFT WAKES

NT HELICOPTER WAKES

NT HYPERSONIC WAKES

NT LAMINAR WAKES

NT PROPELLER SLIPSTREAMS

NT SLIPSTREAMS

NT SUPERSONIC WAKES

NT TURBULENT WAKES

Acoustic resonance excitation in axial flow compressor annulus by wake shedding from blades
01 p0142 A69-10058

Wake structure behind spherical bodies in rarefied plasma flow by measuring plasma parameters and disturbances with probes
01 p0134 A69-11308

Three dimensional wakes and jets, discussing centerline velocity, half width growth and velocity irregularities

02 p0190 A69-12549

Lunar wake in solar wind at large distances, noting no satellite evidence of lunar magnetic field and evidence for lunar generated turbulence

03 p0514 A69-14007

Inviscid cavity and wake flows behind submerged bodies, analyzing mathematical and theoretical models

04 p0587 A69-14608

Aircraft propulsion by wake regeneration, noting supersonic transport ogee layout with maximum drag fraction

05 p0811 A69-15555

Perturbed wake behind spherical models in rarefied plasma flow, noting effects of electron temperature and electric potential of models

05 p0803 A69-16048

Circular cylinder near wake in cross flow measured with hot-wire anemometry for various Reynolds numbers, noting data processing on digital computer [ASME PAPER 68-FE-5]

05 p0747 A69-16068

High altitude observations of luminous wake behind Black Brant 2 rockets by mounted dual wavelength spatially scanning photometer

06 p0918 A69-17511

Weakly ionized wakes study in free quasi-molecular regime of supersonic flow, using Langmuir probe in wind tunnels, discussing ion density distribution

06 p0966 A69-17639

Electron bombardment ion source generated Ar plasma beam to study wakes of disks and spheres, considering plasma interaction with bodies [AIAA PAPER 69-79]

06 p0865 A69-18200

Jet flow and wakes in external stream and tailored pressure gradients, deriving similarity solutions for boundary layer equations

08 p1252 A69-20782

Wall flows and wake laws validity analyzed by wall balance technique, considering boundary layers under perturbation and core flow restrictions

13 p2251 A69-28633

Radiating gray gas laminar jet in thermodynamic equilibrium ejected from plane nozzle into wake analyzed using boundary layer, divergence and transfer equations

14 p2432 A69-29612

Vortex shedding and wake formation behind inclined flat plate at low Reynolds number, using dye injector method for streak line observation

16 p2768 A69-31767

Turbulent and transitional near wake of adiabatic slender wedge with and without base injection at Mach 4 in supersonic wind tunnel [AIAA PAPER 68-100]

16 p2732 A69-31882

Trails arising in wake of fan type jets in transverse gas flow during uniform fuel-air mixture combustion

16 p2879 A69-32140

Secondary vortex generation in near wake of circular cylinders under forced oscillation, analyzing motion dependent transition regimes using hydrogen bubbles flow visualization [AIAA PAPER 69-755]

18 p3084 A69-34411

Transient uniform flow over sphere at intermediate Reynolds numbers with recirculatory wakes, utilizing difference approximation to time dependent Navier-Stokes equations

18 p3120 A69-34434

Coupling conditions by distinct equations for two laminar flow regions, studying near wake and considering Euler, Navier-Stokes and Prandtl correlations [ONERA-TP-738]

19 p3299 A69-36649

Transition in near wake, from study of base pressure on circular cylinders in incompressible flow

19 p3242 A69-36809

Scattering cross sections of radio waves at wake of vertically moving body near reflecting ionospheric layer, noting wave sphericity influence

20 p3486 A69-37023

Radio wave sphericity influence on scattering at moving body wake in ionosphere, determining scattering cross section principal maximum

20 p3486 A69-37024

Cold plasma approximation of whistler excitation of lower hybrid resonance at wake of body moving through ionosphere, comparing results with Alouette satellite observations

20 p3519 A69-37025

Plasma ion and electron concentration perturbations in wake of body moving at high velocity in collisionless plasma under steady magnetic field

20 p3459 A69-37659

Rarefied nonmagnetic plasma in wake of body moving at higher than electron and ion thermal velocities

20 p3525 A69-37660

Perturbed wake behind spherical models in rarefied plasma flow, noting effects of electron temperature and electric potential of models

20 p3581 A69-37957

Electrical conductivity in wake neck measured using RF bridge on boom extending from reentry vehicle

21 p3724 A69-39030

Diffusion parameters for fluid stream flowing from round hole with given radius and velocity into wake flow

21 p3696 A69-39091

Radio wave scattering cross section in wake of body moving in ionosphere, using simplified procedure with asymptotic expressions

22 p3901 A69-41094

Separation flows in flat channel with step recess, analyzing dynamic characteristics in mixing region, in wake of rarefaction waves and in attachment zone

24 p4247 A69-43498

Low Reynolds number unsteady wake flows, using hydrogen bubble flow visualization in high concentration glycerine mixtures

24 p4298 A69-43691

WALKING

Human locomotion analysis, measuring metabolic expenditure and mechanical energy levels of principal body segments during walking

15 p2558 A69-30587

WALKING MACHINES

Hopping transporter vehicle designs for lunar exploration providing low fuel consumption at high average speed [AIAA PAPER 68-1139]

22 p3927 A69-40547

WALL FLOW

Heat transfer between arc column and discharge chamber wall of vortex linear plasmatron, using approximate similitude method

01 p0125 A69-10091

Turbulent jet model of unsymmetrical velocity profile for design of wall attachment device

02 p0231 A69-12072

Impervious wall effectiveness of two dimensional wall jet, discussing effectiveness dependence on slot height and turbulence intensity [ASME PAPER 68-HT-4]

02 p0352 A69-12209

Local mass transfer from wall with homogeneous or heterogeneous chemical reactions in uniform velocity flow, Couette flow and boundary layer flow

02 p0232 A69-12234

Time dependent tube wall radial displacement during explosive welding as function of distance from initial explosion

02 p0254 A69-12675

Similarity law for channel wall influence in wind tunnels valid for all flow velocities

02 p0192 A69-12830

Boundary layers and heat transfers at shock tube walls, establishing approximate solution of boundary layer equation for laminar and turbulent cases [ONERA-TP-647]

03 p0412 A69-12875

Conservation equations for steady incompressible flow in variable area duct with mass transfer at walls simplified by linearizing inertial and convective terms

03 p0413 A69-13011

Laminar accelerating flow of thin film falling along vertical wall, emphasizing growth and decrease of boundary layer and film thickness [ASME PAPER 68-APM/Z]

04 p0586 A69-14388

Wall attachment type fluidic logic devices with low power consumption requirements, noting monostable and bistable devices

05 p0704 A69-16002

Two dimensional incompressible laminar boundary layer on curved wall for potential velocity inversely proportional to distance along origin [ASME PAPER 68-WA/FE-20]

05 p0749 A69-16096

Bistable fluid device utilizing Coanda effect along convex surface for wall attachment [ASME PAPER 68-WA/FE-27]

05 p0749 A69-16101

Velocity fields and wall shear stress distributions in eccentric annuli [ASME PAPER 68-WA/FE-35]

05 p0750 A69-16108

Integral method for backward boundary layers, developing third order polynomials for two dimensional potential flow toward opening

05 p0752 A69-16737

Simultaneous natural and forced convection flow around wall, analyzing perturbations of hydrodynamic elements due to obstacle

06 p1030 A69-17095

Kinetic boundary value problem of gas flow over plane wall with constant mass-velocity gradient

06 p0910 A69-17346

Approximate solution of equations for boundary layer flow of conducting medium on insulating and electrode walls of MHD generator channel

06 p0871 A69-17914

Nonsimilar MHD channels boundary layers on insulating walls noting influence of loading factor, wall temperature and Hall effect on separation [AIAA PAPER 69-46]

06 p0972 A69-18191

Laminar flow of viscous conducting fluid between parallel walls in traveling magnetic field, using Hartmann number expansion

07 p1192 A69-19023

Wall friction influence on three dimensional flow in axial flow turbomachines, introducing shear stresses between flow planes

08 p1252 A69-20724

Incompressible laminar thermal boundary layer unsteady development from state of rest in vicinity of wall of obstacle subjected to unsteady thermal field [ONERA-TP-680]

08 p1304 A69-20754

Highly turbulent boundary layers on walls in channels using laser light sources

09 p1515 A69-21434

MHD oscillatory flow along infinite plane porous wall with variable suction velocity, obtaining expressions for velocity and magnetic fields in boundary layer

09 p1547 A69-21607

Tangential air jet for separation control of two dimensional incompressible flow along circular cylindrical wall

09 p1431 A69-22277

Thin wall flow of circular jets in bounded transverse flow, showing hydrodynamical parameter of mixture effect on jets dimensionless path

10 p1679 A69-23567

Streamwise pressure gradient effect on velocity profile in viscous sublayer of two dimensional turbulent flow along smooth wall

11 p1872 A69-25131

Sandwich electrode for direction and magnitude measurement of velocity gradients at wall for flow around cylinder at high Reynolds numbers

11 p1872 A69-25132

Diffraction accompanying reflection of plane shock wave obliquely impinging on walls of obtuse wedge at finite incidence, considering Lighthill method

11 p1873 A69-25135

Similarity solutions for incompressible, steady hydrodynamic and thermal boundary layers on longitudinally curved walls, allowing for displacement and curvature effects

12 p2060 A69-25761

Gas jets collision flowing from parallel wall channels, applying solution to calculating geometrical characteristics of fluid jet amplifiers

12 p2016 A69-25879

MHD generators semihot wall duct, discussing structural design, ceramic insulation elements brazing, temperature control, electrodes, working fluid, etc

13 p2372 A69-27447

LF spectrum analysis of hydrodynamic flow near-wall pressure pulsations over rough surfaced wall

13 p2246 A69-27537

Wall shear stress measurement by evaporating liquid film, determining optimum liquid viscosity

13 p2375 A69-27793

Relative variations of wall friction and thermal flux for laminar incompressible flow of constant volume mass

13 p2250 A69-28357

Demixed layer at wall in shear flow of nonsedimenting suspensions with different geometries due to viscous and inertia effect superposition

13 p2251 A69-28498

Wall flows and wake laws validity analyzed by wall balance technique, considering boundary layers under perturbation and core flow restrictions

13 p2251 A69-28633

Turbulent boundary layer in corner, measuring velocities, wall shear and turbulent normal stresses by employing momentum integral and similarity analyses

14 p2431 A69-29576

Shunting effect of conducting channel walls in induction MHD machines, discussing wall effects on pressures during pumping and generating operation modes

14 p2405 A69-29912

- Turbulence constant for flows near walls, analyzing viscosity dependence on wall distance by utilizing maximum stability principle
15 p2590 A69-30048
- Steady rectilinear translational motion of circular disk-shaped slightly bent wings near solid wall in incompressible fluid medium in absence of vortices and external forces
15 p2547 A69-30583
- Flush electrostatic probe edge effect, considering Couette flow of weakly ionized compressible gas past discontinuous wall potential
15 p2653 A69-30912
- Flow and temperature boundary layers on longitudinally curved walls, giving higher approximation exact solutions
15 p2591 A69-30933
- Static pressure distribution induced by statistically roughened duct walls on supersonic stream
15 p2593 A69-31148
- Fluidic curved-wall electropneumatic converter optimization, presenting steady state, step and pulse mode responses for various positions and lengths of resistive heaters
15 p2553 A69-31298
- Steady inviscid compressible flow past wavy wall with simulated ablation, studying reflections effect on relationship between surface pressure and wall geometry
16 p2770 A69-31909
- Diagonal conducting wall (DCW) MHD generator channel flows in formulation including Hall effect, electrode drop and electrode wall angle
16 p2736 A69-32172
- Transverse turbulent pipe flow, obtaining limiting behavior of time averaged velocity gradient at wall
17 p2949 A69-33013
- Turbulent velocity distribution and wall friction calculated from eddy viscosity distribution for concentric annulus
17 p2956 A69-33575
- Visual observation of pipe wall regions in turbulent flow by suspending colloidal size particles and photographing with high speed motion picture camera
17 p2956 A69-33598
- Displacement of rectangularly mouthed pitot tubes in turbulent tube flow, determining roles of wall and shear effects
17 p2976 A69-34049
- Rough wall turbulent boundary layer development in pipe flow determined for different roughness geometries in zero and adverse pressure gradients
18 p3125 A69-33587
- Electrohydrodynamic subsonic flow of isothermal charged gas over wavy insulator wall by perturbation method, calculating surface pressure, streamlines and electric lines of force
19 p3297 A69-35837
- Electrohydrodynamic supersonic flow over wavy wall by oscillating piston model, calculating streamlines and density distributions
19 p3297 A69-35838
- Wall influence on thermoanemometer readings in incompressible air stream measured with wedge shaped film sensors
19 p3308 A69-35857
- Wall boundary condition model modification applied to molecular beam-solid surface scattering, noting qualitative agreement with observed distributions
19 p3377 A69-36179
- Wall curvature effect on hydrodynamic stability of laminar incompressible boundary layer with respect to perturbing Tollmien-Schlichting waves
19 p3299 A69-36587
- Wing tunnel and theoretical studies of hypersonic wall flow on cone, considering static pressure and convection heat flux density effects
19 p3241 A69-36759
- Thesis on turbulent velocity distribution and wall friction in flow channels of various cross sections
20 p3515 A69-37925
- Heat transfer to compressible laminar jet flowing along flat wall, obtaining distributions of temperature, wall shearing stress, heat transfer rates and jet thicknesses
[ASME PAPER 69-FLCS-30]
20 p3516 A69-37979
- LF spectrum analysis of hydrodynamic flow near-wall pressure pulsations over rough surfaced wall
20 p3518 A69-38203
- Laminar boundary layer on funnel wall, considering internal vortical and radial flow
21 p3692 A69-38611
- Analytical relations in phenomenological model theories for turbulent flow near wall
21 p3695 A69-39010
- Skin friction results from free stream velocity boundary layers with varying injection and suction wall conditions, describing flow characteristics
21 p3696 A69-39431
- Velocity and temperature boundary layers on plane wall developed by ideal shock tube flow for weak shock and expansion waves
22 p3932 A69-40894
- Laminar flow in porous circular pipe with constant suction or injection applied at wall
24 p4298 A69-42618
- Momentum, heat and mass transfer in turbulent channel flow emphasizing phenomena close to wall, using boundary layer growth-breakdown model
24 p4407 A69-42914
- Volatile wall vaporization gas flow expansion into vacuum from tube approximating unsteady mass and energy transfer and pressure at blocked end
24 p4408 A69-43489
- Laminar, transition and turbulent boundary layer heat transfer measurements along wall in thermal entrance region of high temperature turbulent airflow through cooled tube
24 p4414 A69-43560
- Taylor Goertler vortex formation effect on heat transfer through boundary layer on concave wall
[ASME PAPER 69-HT-3]
24 p4414 A69-43563
- WALL JETS**
- Switching action mechanism in wall attachment fluid amplifier, outlining theory based on turbulent jet entrainment
02 p0195 A69-12073
- Impervious wall effectiveness of two dimensional wall jet, discussing effectiveness dependence on slot height and turbulence intensity
[ASME PAPER 68-HT-4]
02 p0352 A69-12209
- Open circuit wind tunnel experiment to measure properties of two dimensional plane turbulent wall jet in moving stream
[ASME PAPER 68-WA/APM-13]
04 p0586 A69-14390
- Round air jet projected parallel to wall, analyzing velocity profiles, decay and growth rate
04 p0591 A69-15487
- Stabilizing influence of axial magnetic field on confined vortex flow of aqueous electrolytic conductor generated by two dimensional wall jets
05 p0798 A69-15611
- Wall jet type fluidic elements subjected to hydroaerodynamic effects, discussing use of boundary layer flow properties
05 p0705 A69-16016
- Tangential stress distribution and heat transfer in circular cylinder with attached wall jet
05 p0746 A69-16022
- Laminar conducting wall jet injected in transverse magnetic field, analyzing partial differential equations obtained
07 p1192 A69-19020
- Incompressible jets bounded by infinite auxiliary thin jets, discussing straight wall jets and establishing existence and uniqueness of boundary value problem solution
09 p1480 A69-21734
- Turbulent circular wall air jet trajectory and spreading in perpendicular crossflow of constant and varying velocities
[ASME PAPER 69-GT-33]
09 p1483 A69-22491
- Turbulent wall jet growth in streaming two dimensional incompressible flow over plane smooth wall with pressure gradient
11 p1873 A69-25139
- Attachment and separation of free jet from wall, discussing model equations for wall attachment fluid amplifier
14 p2428 A69-28877
- Incompressible laminar jet bounded by two parallel walls or by three walls, using linearized analysis related to Oseen approximation
14 p2429 A69-29023
- Incompressible attached wall jet (Coanda flow) over circular cylinder with finite incompressible injection normal to surface
16 p2772 A69-32148
- Circular jet flow exhausting at right angles from plane wall into uniform cross flow, considering application to V/STOL aircraft
17 p2896 A69-34036
- Film cooling slot adiabatic wall effectiveness measurement in two dimensional constant property flow, showing role of lip thickness and injection angle
20 p3585 A69-37082
- Coanda effect of separated jets reattachment to wall at high Knudsen number in pneumatic fluidic devices, discussing Reynolds and Mach numbers effect
[ASME PAPER 69-FLCS-37]
21 p3692 A69-38602
- Velocity decay and heat transfer rates measurement in cylindrical wall jet formed by jet emerging through convergent nozzle
21 p3695 A69-38972
- Free and dividing streamlines shapes for two dimensional jet from parallel walls penetrating into counterstream, discussing finite cavities
22 p3859 A69-40143
- WALL PRESSURE**
- Compressible and incompressible laminar boundary layer with constant wall shear stress, using initial profiles
02 p0233 A69-12535
- Pressure distribution at wedge wall during instantaneous small variation of supersonic motion
03 p0364 A69-13662
- Static pressures, profiles of local longitudinal velocity, fluctuating wall pressures and power spectra of wall pressures measured for subsonic turbulent flow
[ASME PAPER 68-WA/FE-36]
05 p0750 A69-16109
- HF instability of steady combustion process with allowance for elastic strains in chamber walls
07 p1242 A69-18993
- Wall pressure fluctuations due to turbulent boundary layer flow, calculating statistical properties
[AIAA PAPER 68-642]
13 p2244 A69-27246
- Wall pressure and heat flux distribution in hypersonic flow on delta wings at variable angle of attack for low Reynolds numbers
16 p2731 A69-31605
- Steady inviscid compressible flow past wavy wall with simulated ablation, studying reflections effect on relationship between surface pressure and wall geometry
16 p2770 A69-31909
- Pressure in sealing groove and increase time due to pumping action of moving wall applied to force cylinder of translational motion, considering liquid in groove laminar
16 p2736 A69-32135
- WALL TEMPERATURE**
- Time history of unsteady heat transfer in laminar boundary layer over semiinfinite flat plate due to step change in wall temperature or wall flow
01 p0177 A69-11401
- Nonlinear diffusion of heat in semiinfinite wall having thermophysical characteristics dependent on temperature, showing dissymmetry between heating and cooling
01 p0177 A69-11404
- Film cooling by subsonic gas injection of air through porous flat plate into 2.9 Mach air flow, noting wall temperatures
03 p0413 A69-12994
- Similar solutions of boundary layer equations for compressible model fluid adjacent to wall, discussing velocity overshoot dependence on wall temperature
03 p0413 A69-13013
- Entry region flow and convective heat transfer prediction in cooled vertical pipe open at both ends, considering wall temperature
05 p0845 A69-15717
- Stability of laminar natural convection boundary layer flow, discussing thermal capacity coupling between fluid and wall and Prandtl number
05 p0744 A69-15719
- Heat transfer in accelerated turbulent boundary layer between converging planes with varying wall temperature and decreasing Stanton number
[ASME PAPER 68-WA/HT-13]
05 p0847 A69-16120
- Wall temperature and Mach number effect on heat flux distribution at spreading line of flow for supersonic gas on ellipsoid of revolution
06 p0858 A69-17331
- Convection in conducting fluid filled cavities with variable wall temperature due to magnetic field, with results applicable to rheological systems
07 p1241 A69-18921
- Wall temperature influence on intensity of transverse flow of three dimensional laminar boundary layer resulting from transverse pressure gradient
08 p1251 A69-20274
- Turbulent heat transfer in conducting fluid flow through circular tube in longitudinal magnetic field and constant wall heat flux, using Lyon relation
09 p1621 A69-21590

Wall temperature and Prandtl number effects on turbulent boundary layer thickness and shape factors for subsonic compressible gas flow over flat plate
[ASME PAPER 69-GT-55] 09 p1432 A69-22513

Heat and mass transfer between cryogenic fluid and superheated wall, analyzing experimental data
11 p1996 A69-24228

Laminar Newtonian flow heat transfer to fluids with variable physical properties in vertical tubes with constant wall heat flux, considering viscosity and density
11 p2000 A69-25164

Free convection boundary layer flow past vertical flat plate analyzed for nonlinear wall temperature distributions using series solutions
11 p2002 A69-25243

Initial nonuniformity effect of temperature distribution in main stream on efficiency of cooling by air injection through slit or porous collar
11 p2002 A69-25338

Temperature variation effects on heat transfer in laminar tube flow, taking into account constant wall temperature and heat flow density
12 p2189 A69-25762

Heat transfer coefficient deterioration between fluid and tube wall at supercritical pressure and high heat fluxes
[ASME PAPER 68-HT-39] 13 p2373 A69-27771

Differential approximation for radiative transfer between concentric spheres enclosing gray gas
[ASME PAPER 68-HT-21] 13 p2373 A69-27774

Eddy diffusivities ratio for heat and momentum by mixing length theory, using Mach-Zehnder interferometer for temperature profiles
13 p2380 A69-28497

Similarity solutions for laminar compressible boundary layer with reverse flow, considering various wall/stagnation temperature ratios
15 p2591 A69-30907

Nonequilibrium plasma boundary layer along channel insulator wall, noting different electron and heavy particle temperatures
[AIAA PAPER 68-134] 16 p2821 A69-31873

Conical shock wave-turbulent boundary layer interaction data obtained for adiabatic wall conditions at supersonic free stream Mach numbers, including suction effects
[AIAA PAPER 69-450] 16 p2773 A69-32754

Mach number, cone angle, bluntness and wall to recovery temperature ratio effects on slender cones boundary layer transition measurements at hypersonic speeds
17 p2890 A69-33250

Viscous convergent-divergent nozzle flow slender channel approximations, discussing roles of nozzle geometry, Reynolds number and wall temperature, calculating velocity, enthalpy, etc
[AIAA PAPER 69-654] 17 p2894 A69-33502

Contact thermocouples to measure temperature of wall exposed to radiation, evaluating errors
17 p2975 A69-33596

Superposition method for predicting tube wall temperatures with gas property and heating rate axial variation, noting application to gas flow problems
18 p3227 A69-34315

Convective heat flux from nonisothermal surface by temperature superposition method with Spalding function as turbulent heat transfer coefficient, noting wall temperature
18 p3229 A69-34836

Wall temperature distributions predicted in turbulent boundary layer with arbitrary pressure gradients, basing calculations on Spalding function solutions
19 p3302 A69-36853

Local heat transfer coefficients determined from temperature distribution on porous walls, deriving mathematical expressions for various surface geometries and transfer modes
20 p3630 A69-36977

Laminar free convection from horizontal infinite strip with downward facing thermally insulated vertical walls at edges, noting boundary layer thickness and flow pattern
21 p3853 A69-39672

Hypersonic flow for low Reynolds number, including magnetic field and wall temperature effects on heat transfer and skin friction for blunt shapes
22 p3860 A69-40540

Hot gas flow through multilayer cylindrical shells, calculating temperature fields in walls
24 p4407 A69-42588

WALL TEMPERATURE DISTRIBUTION

U TEMPERATURE DISTRIBUTION
WALLS
NT BULKHEADS
NT NOZZLE WALLS

NT POROUS WALLS
NT THICK WALLS
NT THIN WALLS
NT WIND TUNNEL WALLS

Channel wall effect on gain of apparent mass of cylindrical and elliptical bodies floating in channel and subject to vertical impact
11 p1875 A69-25487

Heat transfer mechanisms between fluidized beds and wall surfaces by application of film penetration theory of mass transfer, noting bubbling bed model
20 p3632 A69-37519

WANKEL ENGINES

Rotary engines, discussing scissor, eccentric rotor, multiple rotor and revolving block types
07 p1203 A69-18910

Book on Wankel RC engine design and performance covering sealing, timing, life, lubrication, etc
11 p1942 A69-25237

Wankel aircraft engines compared to piston and turbine aircraft engines for performance, maintenance and reliability
19 p3395 A69-36872

WARFARE

NT COMBAT

CH-46 Sea-Knight and CH-47 Chinook transport helicopters experience in Vietnam war, discussing missions, payloads, speeds, operating ranges, etc
01 p0009 A69-10405

Tactical support aircraft size, economy and flexibility requirements based on Vietnam experience
04 p0549 A69-15486

Helicopter use in military activities noting role in overcoming combined enemy, weather and terrain conditions
[AIAA PAPER 69-190] 07 p1244 A69-19547

Military applications of VTOL aircraft, discussing role in battle area with restricted surface transportation
[AIAA PAPER 69-326] 07 p1055 A69-19556

Briteye battlefield illumination flare configuration, candle power, burn duration and hot air balloon-type suspension system
20 p3461 A69-37166

WARHEADS

Detonation system for exploding missile warheads, discussing trigger detonation and safety release elements
17 p3050 A69-33698

WARMING

U HEATING

WARNING SYSTEMS

NT BALLISTIC MISSILE EARLY WARNING SYSTEM
NT EARLY WARNING SYSTEMS
NT MINE DETECTORS

All-weather landing flight director systems and fault warning display simulator studies of Boeing 707-720B aircraft in Category 3-C environment
01 p0010 A69-10455

Industry airborne collision avoidance systems /CAS/ development program, discussing cooperative devices in aircraft
05 p0790 A69-16725

Pilot warning indicators to equip all aircraft at low cost, discussing Doppler system
05 p0790 A69-16726

Solar flare in-flight radiation detection and warning system for Concorde SST, noting radiation hazards due to solar cosmic rays
07 p1131 A69-18551

Hypoxia warning system based on dry electrolyte oxygen sensor with millisecond response time
07 p1071 A69-19430

Aircraft electronic proximity warning devices applications, discussing compatibility in ATA collision avoidance system
[SAE PAPER 69-0340] 11 p1914 A69-24496

Airborne collision avoidance system /CAS/ performance and operational requirements
11 p1914 A69-25430

Collision avoidance system for air traffic, discussing false signal discrimination via electronic measurement of light pulse duration from aircraft Xenon discharge beacon lamp
12 p2129 A69-26772

Bird warning and forecast systems based on radar data covering 50 mile radius from airport
17 p2899 A69-33367

Low cost pilot proximity warning instrument, discussing design influences of Xe strobe lights, atmospheric radiation transmission characteristics and detection considerations
17 p2917 A69-34103

Concorde SST fire protection equipment, discussing fire and overheat detectors, fire extinguisher, crash fire protection, explosion suppression equipment, etc
19 p3256 A69-36864

Solar flare radiation hazard to SST crew and passengers, discussing onboard and ground based warning systems and ICAO requirements
23 p4063 A69-41820

Antenna design, based on helical beam radiator data providing checking facility giving automatic alarm
24 p4312 A69-42510

WARPAGE

Warping rigidity effect on stability of cantilever beam under eccentric follower end load, discussing bending torsional flutter and buckling
12 p2179 A69-26210

Woven roving construction and fill/warp ratio effects on flexural strengths of four ply laminates
14 p2469 A69-29414

Elastic stability of warped rods, using small oscillations method for varying end conditions and torsional moment vector behavior
17 p3057 A69-33196

Near resonant oscillations of warped turbine or compressor blades, discussing stress-strain relations
17 p3064 A69-33918

Energy dissipation in vibrating warped turbine blades subject to complex stress-strain rate produced by simultaneous bending, torsional and tensile stresses
17 p3065 A69-33924

Design laws of warping-free multicellular box beams under torsion or bending, using variational method
19 p3443 A69-36786

Warping of doubly supported submerged wings, calculating stress and strains due to bending and constrained torsion
23 p4225 A69-41423

WASHINGTON

Washington area airport efficient use plan from projections of passengers, aircraft operations and net revenue trends
22 p4053 A69-40709

WASHOUT [RADIOACTIVITY] U FALLOUT

WASPALOY

Carbon influence on cast Waspaloy, discussing chemical segregation, chemical gradients and tensile ductility
[SAE PAPER 69-0100] 07 p1158 A69-18307

WASTE DISPOSAL

Mars contamination with terrestrial microorganisms, considering possibility of waste materials ejection from manned orbital vehicles
05 p0714 A69-15951

Reactors technical characteristics for high temperature mineralization of closed life systems biological wastes, deriving equations to estimate energy balance
10 p1649 A69-23504

Mineralizing metabolic wastes by catalytic oxidation of pyrolysis products, noting nutritive value of ash solutions for *Chlorella* cultivation
10 p1649 A69-23579

Water purification through biological oxidation of organic wastes using controlled photosynthesis, discussing algae production and harvesting
21 p3668 A69-39711

WASTE UTILIZATION

Mineralized human wastes solutions utilization for *Chlorella* cultivation, noting growth rates
02 p0200 A69-11511

Integrated Waste Management/Rocket Propulsion System, using human feces as propellant component
[SAE PAPER 68-0717] 03 p0495 A69-13442

Wet oxidation process for management of organic waste products in closed ecologies of long term manned space missions
[SAE PAPER 68-0714] 03 p0380 A69-13443

Physicochemical method for converting human urine and feces into carbohydrates in closed ecological systems
03 p0381 A69-14195

Biowaste propelled resistojet control systems selection criteria based on NASA Manned Orbital Research Laboratory with six man crew
[AIAA PAPER 68-121] 04 p0554 A69-15506

Monosaccharide production from carbon dioxide from respiration or human waste incineration, evaluating toxicological effects of synthetic monosaccharides
15 p2557 A69-31477

Open cycle air evaporation technique selected for water recovery from human urine, based on tradeoff studies
19 p3258 A69-36455

Separation system for collecting wash and waste water from gaseous environment and separating liquid and gaseous phases during space missions
[AAS PAPER 69-473] 24 p4272 A69-42845

Material recovery from metabolic and other wastes for long duration manned space missions, discussing carbon dioxide removal, bioregenerative food systems, etc
[AAS PAPER 69-143] 24 p4272 A69-42876

ASTES
U FECES
U HUMAN WASTES
U METABOLIC WASTES
U RADIOACTIVE WASTES
U URINE

ATCHES
U CLOCKS

ATER
NT HEAVY WATER
NT POTABLE WATER
NT SEA WATER

Fine structure of vibrational spectra of molecular H and O, water and deuterium oxide, using molecular photoelectron spectrometer
01 p0023 A69-10141

Water and carbon dioxide IR spectra compared with laboratory measurements
05 p0759 A69-16638

Automatic inflators for life jackets and survival gear in emergencies activated after submersion in water
06 p0877 A69-16955

Water cooling jackets of plastic textile reinforced film for high inside temperature reduction in protective clothing
06 p0883 A69-18027

Water in interstellar regions detected by microwave emission from 6 sub 16 to 5 sub 23 rotational transition
08 p1383 A69-19896

Water molecules radio spectral lines from microwave emission sources in Galaxy studied for variability, size and polarization
09 p1587 A69-21307

Optical parametric noise in water by ruby laser beam for phase matched four photon process
09 p1539 A69-21751

Gas vacuoles development in blue green algae by cell transfer from defined medium to distilled water
10 p1644 A69-23184

Water content of tektites, impactites and artificial glass of tektite composition using IR absorption measurements
10 p1778 A69-23413

Millimeter wave propagation over water, discussing fading characteristics and atmosphere absorption effects
11 p1836 A69-24989

Simultaneous HCN and HOH laser emission in pulsed discharge through mixture containing H, C, N and O
12 p2107 A69-26330

Water and carbon dioxide IR spectra compared with laboratory measurements
14 p2433 A69-28794

Aluminum corrosion in ethylene glycol-water systems, discussing protection mechanisms of adsorption-type inhibitors and additives effects on corrosion rate
14 p2466 A69-29932

Removal rate of reaction water from fuel cells by diffusion-condensation procedure as function of temperature and electrolyte concentration
16 p2736 A69-32200

Medium temperature fuel cells advantages including improved electrochemical reaction kinetics, water and heat removal
16 p2739 A69-32417

Statistical characteristics of wind wave development in initial stage, obtaining distribution functions and frequency spectrum for various velocities and temperatures
18 p3167 A69-35341

Rivers on moon, discussing possibilities of water existence on lunar surface in view of temperature, gravity and atmospheric conditions
19 p3419 A69-36145

Air bubbles rise velocity and path in water based on time measurement of bubble traversing two light beams, describing electronic recording system
24 p4299 A69-42918

WATER BALANCE
Transient electro-osmosis of water in capillary tubes for pumping and generation modes, analyzing response to step change in pressure or voltage change under external loading
04 p0555 A69-14862

WATER CONSUMPTION

Test dogs feeding through enteropancreatic fistula homogenized mixture containing juice excretion stimulating agents during long space flight
08 p1265 A69-19829

WATER CONTENT

U MOISTURE CONTENT

WATER COOLED REACTORS

U NRX REACTORS
U PLUM BROOK REACTOR

WATER DEPRIVATION

Electrode stimulated hypothalamic drinking in rats compared with drinking induced by water deprivation, noting difference in consumption
17 p2910 A69-33750

WATER EROSION

Ceramic radome materials resistance to rain erosion at high Mach numbers
07 p1171 A69-19532

Wind tunnel rain erosion testing of components of aircraft or missiles flying at high speed
07 p1117 A69-19534

Cumulative damage concept for rain erosion of solid materials, noting incubation period and similarity to microscopic damage in fatigue failure
12 p2187 A69-26848

Vacuum chamber model for sinuous rilles on lunar surface produced by aqueous erosion under ice blanket
14 p2485 A69-28873

Rain erosion problems in aircraft design, reviewing protective measures for all-weather aircraft
21 p3646 A69-38393

Rain erosion process on aircraft surface, using single impact test apparatus with photographic recording and photoelastic study
23 p4227 A69-41872

WATER FLOW

LF spectral analysis of flowing water pressure pulsations behind single bulge on hydrodynamic channel smooth wall at low disturbance level
13 p2246 A69-27535

Liquid-vapor interaction in loop plates with different heat pipe capillary geometries using water as heat transporting medium
14 p2539 A69-29207

Self diffusing substance /salt/ distribution in turbulent water flow at different Reynolds numbers by NMR, obtaining diffusion function consistent with experiments
14 p2430 A69-29424

Vortex wakes behind circular cylinder subject to transverse sinusoidal oscillations in uniform water flow at specific Reynolds numbers, photographing varied frequency flow patterns
18 p3086 A69-35169

LF spectral analysis of flowing water pressure pulsations behind single bulge on hydrodynamic channel smooth wall at low disturbance level
20 p3518 A69-38202

Distributed suction effect on boundary layer structure of water flow from turbulence measurements, determining velocity and pulsation intensity distributions
22 p3933 A69-41029

WATER HAMMER

Analog simulation of water hammer type phenomena governed by linear constant coefficient partial differential equations
05 p0751 A69-16475

WATER INJECTION

Nuclear rocket engine exhaust gas cooling by injecting water jet eliminates need for secondary cooling
[AIAA PAPER 68-604] 04 p0591 A69-15516

Mean drop size generated in vapor pressure regime of liquid water jet, noting effect of water temperature and orifice diameter
09 p1483 A69-21995

Water injection cooling of exhaust gases during stage testing of NERVA engine, discussing exhaust duct configuration and flow characteristics, spray nozzle geometry, etc
[AIAA PAPER 69-514] 19 p3372 A69-36301

WATER JETS

U HYDRAULIC JETS

WATER LANDING

NT DITCHING [LANDING]

Problems connected with rescue of crew members ejected over water
15 p2551 A69-30866

WATER LOSS

Exploding wire discharges similarity with underwater sparks for understanding water breakdown and parallel discharges
01 p0117 A69-10657

Vacuum, radiation and freeze drying effects on survival rate of microorganisms, noting influence of protective materials on extent of damage
07 p1064 A69-18943

Energy source for space environments based on compact cold hydrogen-oxygen fuel cell, discussing heat control and water elimination methods
08 p1260 A69-21041

Justi-Winsel extraction process by electrodialysis for removing product water from electrochemical reaction in H-O fuel cells
08 p1260 A69-21043

Moisture losses of men wearing partial pressure suit with oxygen mask determined by changes in skin temperature and heat flow
10 p1647 A69-23591

Optimization of electrodyalytic extraction process of water from H-O fuel cells through choice of current density as function of electrolyte concentration
16 p2738 A69-32414

Urine excretion following water load in male subjects exposed to normal, hot/dry and comfortable/dry environment applied to airline crews
17 p2914 A69-33182

Insensible water loss from human skin as function of ambient vapor concentration using IR gas analysis, applying results to water loss model revision
23 p4077 A69-41293

WATER MODERATED REACTORS

Water moderated beryllium reflected reactor design for testing NERVA or Rover type fuel elements in nuclear environment, noting core location
[AIAA PAPER 69-513] 16 p2810 A69-32656

WATER PRESSURE

Lung ventilation mechanics affecting respiration in hyperbaric environment during deep diving, stressing biological necessity of equal pressure respiration
13 p2215 A69-28598

Aircraft tire skidding on wet surfaces, measuring interstitial water pressure for various treads, velocities and surface textures
19 p3247 A69-35910

WATER RECLAMATION

Space controlled microbiology, discussing telemetry control of waste material conversion in air and water pollution
[UN PAPER 68-95861] 01 p0014 A69-10456

Biological problems in prolonged space voyages including oxygen replacement, water supply and food regeneration
01 p0020 A69-11075

Membrane vapor diffusion for water reclamation from urine and wash water on space missions
03 p0379 A69-12992

Microbiology of water management subsystem for manned space flight, discussing sterilization by heat and tests inside Integrated Life Support System (ILSS) [SAE PAPER 680718] 03 p0379 A69-13441

Regenerative life support systems, discussing water reclamation, carbon dioxide removal, onboard oxygen generation and radio isotope thermal energy sources
19 p3262 A69-36318

Open cycle air evaporation technique selected for water recovery from human urine, based on tradeoff studies
19 p3258 A69-36455

Separation system for collecting wash and waste water from gaseous environment and separating liquid and gaseous phases during space missions
[AAS PAPER 69-473] 24 p4272 A69-42845

WATER TAKEOFF AND LANDING AIRCRAFT

NT SEAPLANES

Water hover effects tested on tilt wing V/STOL seaplane model, noting effects of wind and waves on water passing through propellers
01 p0011 A69-11061

Helicopter seaworthiness, comparing full scale sea landing and flotation studies with model test results
08 p1255 A69-20653

Tilt wing V/STOL aircraft spray circulation characteristics in overwater operation, examining forces, moments and generated environmental conditions
[AIAA PAPER 69-791] 19 p3243 A69-35638

WATER TREATMENT

Water purification through biological oxidation of organic wastes using controlled photosynthesis, discussing algae production and harvesting
21 p3668 A69-39711

WATER TUNNELS

U HYDRAULIC TEST TUNNELS

WATER VAPOR

WATER VAPOR

- Crack growth in ceramics from velocity measurements on glass and sapphire as function of applied force, temperature and moisture environment
01 p0101 A69-10767
- Radio telescope measurements of total vertical atmospheric absorption to determine effective mean free path of oxygen and water vapor for absorption
02 p0206 A69-11450
- Spectral transmission for water vapor and carbon dioxide bands
02 p0236 A69-11451
- Submillimeter water vapor laser power output for admixtures of H, N, carbon dioxide, methane, He and Ar, noting buffer effect of H
04 p0612 A69-15175
- Pulsed water vapor laser with single Brewster window for operation between 20 and 120 microns, comparing performance with ordinary laser
05 p0776 A69-16334
- Submillimeter wave absorption by dimeric water in atmosphere, using interferometer and maser
05 p0759 A69-16658
- Atmospheric ozone photochemistry, studying time dependence on hydrogen compounds, equilibrium concentration effects on reaction rates, latitude and season
06 p0916 A69-17004
- Vibrational excitation by electron impact in kinetic energy range 30-60 eV studied for water vapor and carbon dioxide, determining intensities relative to elastic scattering
06 p0960 A69-17108
- Water droplet simulation by glass spheres used in study of light scattering at cloud particles
06 p0953 A69-17992
- Atmospheric water vapor content determination from microwave radiation measurements and satellite aircraft
06 p0953 A69-17996
- Long wave radiative water vapor cooling in troposphere determined by numerical prediction model, including vertical distribution of cloud and moisture effects
07 p1175 A69-18896
- Water vapor absorption line for nitrogen and oxygen mixtures with frequency measurements at various pressures and temperatures, discussing attenuation and line breadth
07 p1184 A69-18911
- Bulk aerodynamic method for heat and water vapor fluxes from data obtained at Chiba (1966), introducing modified integral diffusivity
07 p1176 A69-18965
- Molecular line intensity requirement in line of sight for detecting interstellar water vapor cloud, assuming transparent atmosphere and ideal radio telescope
09 p1591 A69-21446
- Spacecraft debris atmosphere effects on observations, discussing contamination of exposed optical surfaces and light scattering by ice particles from cabin water vapor leakage
09 p1487 A69-21654
- Solar radiation absorption measurements by balloon for atmospheric water vapor distribution
09 p1536 A69-21864
- Vertical atmospheric absorption of radio waves by water vapor and oxygen molecules near rotational resonance based on radio emission measurements
10 p1658 A69-23944
- Water vapor laser, discussing water vapor molecular structure, population inversion mechanism, perturbation model, etc
12 p2106 A69-26325
- Venusian water vapor spectroscopic data indicating longitudinal and time dependent variations in abundance
13 p2345 A69-27650
- Satellite and rocket probe measurements of water vapor in mesosphere
13 p2253 A69-27694
- Vapor phase reaction sequence to explain water cluster ions in D region
14 p2434 A69-28940
- Undulation in output waveforms of pulsed water vapor laser observed with In-doped Ge detector
14 p2461 A69-29887
- Corrosive wear by atmospheric air and moisture under nonscuffing conditions, noting control by dry nitrogen blanketing and oil additives [ASLE PAPER 68-LC-10]
15 p2622 A69-30608
- Submillimeter atmospheric absorption spectra, emphasizing absorption by isotopic and vibrationally excited forms of water molecules
15 p2568 A69-30699

- Radio wave absorption by water vapor in Venusian and Martian atmospheres, constructing model from Venera 4 data
15 p2569 A69-30952
- Water vapor recondensation effect on structure of liquid particle flow into vacuum
16 p2769 A69-31869
- Virtual temperature change with respect to height of saturated air rising during water vapor condensation, discussing actual temperature and precipitation factor
16 p2808 A69-32454
- Submillimeter water vapor laser power output for admixtures of H, N, carbon dioxide, methane, He and Ar, noting buffer effect of H
18 p3152 A69-34717
- Water vapor absorption at submillimeter wavelengths in atmospheric window regions related to foreign gas pressure, using HCN maser
18 p3152 A69-35241
- Water vapor microwave emission measurement from galactic hydroxyl sources
18 p3205 A69-35435
- Charge exchange cross sections and electron losses in hydrogen ion beam impacting on water vapor molecules
19 p3378 A69-36190
- Water vapor laser submillimeter emission spectra, considering rotational and vibrational laser transitions due to electron impact and molecular interactions
19 p3336 A69-36349
- Pulsed water vapor laser high power operation and strongest component wavelength measurement
19 p3337 A69-36416
- Maser submillimeter emission lines used to determine atmospheric and water vapor absorption, noting role of pressure
20 p3553 A69-37296
- Rocket probe devices based on thermometrical body principle for measuring upper atmosphere water vapor and atomic oxygen
20 p3543 A69-37798
- Satellite onboard transmission measurements determining atmospheric water vapor influence on integrated refractivity at specific absorption line resonant frequency
20 p3545 A69-38097
- Water vapor profiles in stratosphere from IR radiometric observations under cloudless conditions, indicating relation to tropospheric meteorological features
20 p3535 A69-38261
- Saturn surface spectrum near ring shadow examined for water vapor content in ring and greenhouse effect on surface
20 p3616 A69-38305
- Solar spectrum data covering wavelength intervals from 13138-14707 and 21877-17731 A and 1.4 micron water band
21 p3800 A69-38682
- Cavitation flow of water and ethyl alcohol in venturi tube, noting effect of varying vapor concentration and thermodynamic properties
21 p3696 A69-39101
- Dispersion and correlation function for atmospheric transparency due to water vapor from statistical model of absorption bands and effective mass
21 p3759 A69-39113
- Molecular hydrogen, oxygen and deuterium additions effect on CW laser operation with ordinary and heavy water as active medium
21 p3738 A69-39131
- Construction and components of laboratory water vapor laser emitting coherent radiation in far IR
21 p3738 A69-39446
- Water vapor abundance in Mars atmosphere determined from spectrograms, noting restricted existence on surface
22 p4018 A69-40268
- Weld porosity in Al alloys as function of composition variations, discussing water vapor contamination of welding arc
22 p3956 A69-40461
- Germanium single crystals etching with water vapor and hydrogen sulfide in hydrogen flow system, studying concentration, pressure and temperature effects on surface reactions
22 p3970 A69-40737
- Electron excitation and collisional energy transfer processes in laser level of pure carbon dioxide fill and carbon dioxide-water vapor mixture
23 p4171 A69-41390
- Pure water vapor and water vapor-air mixture continuum absorption of carbon dioxide laser radiation measured to determine atmospheric attenuation
23 p4173 A69-41631

WATER VEHICLES

- NT AIRCRAFT CARRIERS
- NT CAPTURED AIR BUBBLE VEHICLES
- NT NUCLEAR POWERED SHIPS
- NT SHIPS
- NT SUBMARINES
- Hovercraft handling characteristics, seakeeping and maneuverability during English Channel operation
02 p0277 A69-11592
- Maritime radio communications satellite service for ship safety, discussing stationary equatorial satellite systems [AIAA PAPER 68-232]
02 p0356 A69-12383
- Semi-amphibious Vosper VT 1 hovercraft for passengers and cars, discussing design, water contact propulsion, peripheral skirt, supercavitating propellers, structure, performance, etc
04 p0549 A69-15187
- Monograph on air cushion vehicles /ACV/ in Scandinavian water transport, covering state of the art, technical and economic competitiveness, etc
09 p1434 A69-22075
- Skirts on hovercraft, noting rough water drag, plough in and overturning, and skirt oscillation and wear problems
10 p1634 A69-23629
- Hovercraft development by British Hovercraft Corporation, discussing technical contributions in design, control and propulsion, environmental tests, etc
12 p2014 A69-27140
- Mountbatten /SR.N4/ hovercraft development, seakeeping, skirt design and service introduction
15 p2550 A69-30479
- Near field flow noise generated in boundary layer of water vehicle measured for rotating cylinder, ship and buoyant unit using hydrophone
17 p3004 A69-32953

WATER WAVES

- Water hover effects tested on tilt wing V/STOL seaplane model, noting effects of wind and waves on water passing through propellers
01 p0011 A69-11061
- Airborne magnetometer application for remote measurement of ocean wave spectra, obtaining wave noise power spectra and wave height profile
12 p2075 A69-26998
- Laser profilometer to measure sea wave profiles from airborne platform, describing transmitter, receiver and signal processor
21 p3739 A69-39461

WATERPROOFING

- Rain repellent system providing transparent film on aircraft windshield surface
06 p0877 A69-16954

WAVE ATTENUATION

- NT ACOUSTIC ATTENUATION
- NT MANDELSTAM REPRESENTATION
- NT RADAR ATTENUATION
- NT RADIO ATTENUATION
- NT SHOCK WAVE ATTENUATION
- Plasma ion oscillation suppression by intensified electron plasma oscillations
02 p0287 A69-11934
- Viscous damping of internal waves on rotating earth, analyzing spatial propagation attenuation in two layer system
02 p0247 A69-12775
- Decay stability of large amplitude neutral wave into two ion acoustic waves in weakly ionized plasma
03 p0475 A69-13158
- Electromagnetic wave dispersion and damping in mixed molecular crystal, relating refractivity, wave absorption and concentration shift of bottom of exciton band to other parameters
03 p0484 A69-13279
- Circuit for accurate division of attenuation and phase shift changes, noting calculation errors
04 p0573 A69-14337
- Elastic behavior of large blood vessels in canine aorta by measuring dispersion and attenuation of artificially induced pressure waves
04 p0553 A69-14692
- Nonlinear damping of circularly polarized electromagnetic wave propagating in plasma along magnetic field, noting particle motion in resonance region
04 p0558 A69-14982
- Disturbing TM mode generation effect on attenuation measurement accuracy in TE mode attenuators
08 p1283 A69-20126
- Two dimensional unsteady wave motion in shallow water using MHD theory
08 p1362 A69-20354

Wavelength dependence of polarization and UV-VIS photometry of highly polarized stars, correlating IR interstellar extinction with maximum polarization wavelength
12 p2153 A69-25809

Elliptical waveguide design dimensions for minimum attenuation in fundamental mode, giving formulas for attenuation constant and minor-major axis ratio
12 p2044 A69-27070

Optimal thickness of inhomogeneous absorption layer subjected to normally incident plane monochromatic wave treated as Mayer-Boltz variational problem
13 p2297 A69-27381

Elastic microwaves propagation attenuation along lithium niobate crystals trigonal axis at various temperatures
15 p2665 A69-30040

Love wave amplitude data satisfying earth model with intrinsic internal friction at depths assumed due to single thermally activated relaxation
15 p2596 A69-30624

Plasma turbulence effect on magnetosonic wave attenuation, noting increased electron and ion collision frequency and appearance of anomalous resistance
16 p2820 A69-31794

Wave damping in current sheet in geomagnetic tail by radiating energy from sheet sides by electrostatic waves
[AFCL-69-0396]
16 p2781 A69-32318

Waveforms analyzer for mixtures of exponentially damped sine waves, noting application to interferometer curves in plasma wave propagation
17 p2970 A69-32852

Longitudinal plasma waves collision damping calculations using Rostoker test particle method
18 p3179 A69-34439

Short radio wave damping of earth satellite transmitter due to ionospheric diffraction resulting from increasing satellite-ground station distance
20 p3491 A69-37689

Book on ultrasonics theory and application covering generation, propagation and dissipation of ultrasonic waves of high and low intensities
20 p3545 A69-37903

X ray sources and diffuse background radiation observed in gamma and X ray spectral regions, considering electromagnetic waves attenuation by interstellar matter
21 p3789 A69-38817

Electromagnetic waves attenuation and field structure within gas filled dielectric waveguide tube, tube walls and waveguide surroundings
21 p3674 A69-39123

MHD waves attenuation in ionosphere due to gyrorelaxation, reducing analysis to determination of anomalous absorption of acoustic waves
23 p4155 A69-41841

Detonation wave instability and damping in gas containing liquid or solid inflammable aerosol, considering atomized propellants
23 p4240 A69-42339

Ionospheric heating and velocity dependence of collision cross sections on transversely propagated equatorial hydromagnetic waves, discussing ordinary and extraordinary modes
23 p4161 A69-42437

WAVE DEGRADATION

Arbitrary form temperature rate wave growth and decay, determining differential equation governing wave amplitude
21 p3853 A69-39671

WAVE DIFFRACTION

Terrain influence in ground wave propagation evaluated by two dimensional diffraction and scattering problems, using Airy type wave functions
[AFCL-68-0212]
01 p0033 A69-10970

Axisymmetric optical filter synthesis based on holographic technique for making Gabor zone plates, using scalar diffraction theory
02 p0249 A69-11927

Diffraction of cylindrical and plane waves in system of two parallel circular cylinders, using equivalent circuit method
02 p0217 A69-12261

Diffraction by rocket exhausts, discussing electromagnetic signal attenuation based on two dimensional straight edge diffraction model
02 p0209 A69-12352

Lighthill method based expressions derived for discontinuity shape formed during shock wave diffraction near small angle
02 p0234 A69-12588

Diffraction of cylindrical waves at half plane in cold anisotropic plasma, using Fresnel integrals
02 p0293 A69-12842

Nonlinear weak shock wave diffraction around convex angled corners in polytropic inviscid thermally nonconducting gas
03 p0412 A69-12848

Electromagnetic diffraction theory for radar cross section of aircraft, missiles and satellites, discussing mathematical representations of electromagnetic field for extreme wavelengths
03 p0383 A69-12902

HF approximations, discussing plane wave diffraction by conducting circular cylinder using Watson transform
03 p0384 A69-12903

Missile radar cross section based on modeling from simple forms, noting computer program
03 p0384 A69-12910

Diffraction coefficient for higher order edge-edge interaction terms in two dimensional diffraction by narrow slit and small circular aperture
03 p0396 A69-13631

Electromagnetic wave diffraction at uniformly expanding sphere solved by Kirchhoff method
03 p0397 A69-13719

Radio waves diffraction around earth with atmospheric dielectric constant having linearly quadratic height dependence
03 p0399 A69-14130

Diffraction effects on periodic structures in millimeter wavelength range, discussing apparatus for measurements of Fraunhofer zone field, polarization and phase characteristics
04 p0598 A69-14852

Radio wave diffraction by knife edge obstacle on conducting earth surface noting effect on radio propagation
[AFCL-68-0375]
04 p0560 A69-15216

Space-time diffraction for asymptotic solution of Klein-Gordon equation, studying one dimensional dispersive medium
05 p0802 A69-15930

Weak shock wave diffraction at two dimensional obstacles, discussing time behavior of pressure distribution
05 p0746 A69-16018

Asymptotic formulas for field diffracted by conducting wedge illuminated by line source usable for self consistent field analyses
05 p0720 A69-16344

Quasi-phonon model for acoustic scattering and diffraction from rigid real obstacle in fluid medium
05 p0797 A69-16649

Diffraction of plane electromagnetic waves obliquely incident on conducting rotated periodically tapered grating structure formed of infinite metal strips
05 p0723 A69-16788

Scattering matrix for internal diffraction in rectangular waveguide with transversely magnetized ferrite core
06 p0895 A69-17455

Transmission coefficient of plane electromagnetic wave obliquely incident on perforated metal screen in frequency range near primary resonance of structure
07 p1076 A69-18527

Initial equations for plane wave diffraction at grids of squared beams, calculating transmission and reflection coefficients by reflection method and computer
07 p1084 A69-19149

Plane electromagnetic wave diffraction at oblique screen of circular cross section conducting wires solved, assuming smaller wire radius than grid spacing and wavelength
07 p1084 A69-19150

Field diffraction at finite metallic surface represented in eigenfunctions of discrete spectrum, considering forced oscillations of open circuit
07 p1084 A69-19151

Scattering and diffraction of plane electromagnetic wave incident on conducting cylinder coated with moving anisotropic medium
07 p1086 A69-19469

Radiation pattern deformation due to sharp angle radome studied by analyzing diffraction in antenna dihedron system
07 p1112 A69-19539

Schlieren optics study of omega wave in water filled cuvette, noting propagation by wall reflected water wave
08 p1350 A69-19889

Radio wave propagation over smooth cylindrical surface with specified boundary impedance, discussing diffraction loss and effect of surmounted obstacle
08 p1273 A69-20024

Back diffraction field behind hologram illuminated with laser beam, noting hologram image observation through beam cross section
08 p1312 A69-20086

VHF radio transmission beyond horizon, discussing instrumentation, annual and diurnal signal fluctuations and diffraction role in signal propagation
08 p1274 A69-20112

Line shape for dynamic Stark effect during optical resonance field irradiation calculated as function of relaxation constants and beam intensity
08 p1325 A69-20282

Plane H polarized electromagnetic wave diffraction incident on array of rectangular rods described by linear algebraic equations
08 p1275 A69-20433

Cylindrical electromagnetic waves diffraction at impedance wedge in anisotropic cold plasma, using Maxwell equation and double contour integral
09 p1545 A69-21505

Ionospheric scattered radio wave field amplitude and phase variations assessed for diffraction at regular phase screen
09 p1453 A69-21526

Electromagnetic diffraction for waves generated by electric quadrupole on perfectly conducting wedge, discussing finiteness and radiation emission
09 p1455 A69-22082

Limits in applicability of earth equivalent radius to measuring microwave diffraction field in atmosphere
09 p1456 A69-22284

Electromagnetic wave diffraction on conducting sphere in inhomogeneous medium with given refractive index variation law, using asymptotic solution for boundary value problem
09 p1459 A69-22628

Diffraction problem on cylindrical bodies of arbitrary shape reduced to integral equations by using Green functions for free spaces
09 p1459 A69-22634

Quantitative analysis of plane waves for weak interaction of two dimensional sound and light fields in acoustical imaging by diffracted light
10 p1695 A69-23545

Acoustical transparencies illuminated by sound waves for optical imaging and ultrasonic diffraction, noting application to visualization of inhomogeneities in samples
10 p1695 A69-23546

Subauroral traveling ionospheric disturbances and fading due to diffraction observed by geostationary satellites
10 p1685 A69-23831

Scalar wave diffraction at body in scattering medium analyzed on basis of determinate medium with complex inhomogeneous effective refractive index
10 p1658 A69-23957

Diffraction of plane electromagnetic wave incident on conducting sphere segment, deriving secondary electromagnetic field equations in geometrical optics approximation
11 p1846 A69-24613

Holographic techniques application to optical systems for high resolution images of distant objects by overcoming atmospheric turbulence and light diffraction limitations
11 p1883 A69-24688

Electromagnetic plane wave scattering from slender semiinfinite cone, obtaining contribution to tip return arising from direct diffraction
11 p1836 A69-24988

Radiation pattern of axial slot on circular conducting cylinder based on wedge diffraction and creeping wave theory
11 p1836 A69-24993

Geometrical diffraction theory for bistatic scattering of plane wave by conducting frustum, calculating scattering matrix
11 p1837 A69-24999

Diffraction accompanying reflection of plane shock wave obliquely impinging on walls of obtuse wedge at finite incidence, considering Lighthill method
11 p1873 A69-25135

Unsteady surface and internal waves diffraction induced by source in ideal incompressible fluid, obtaining solutions in form of convolution and transfer functions
12 p2061 A69-25953

Diffraction theory of schlieren photometric slot and wire methods for cylindrical light wave of even order, discussing Fresnel diffraction for spherical wave
12 p2088 A69-26180

Time harmonic electromagnetic waves diffraction by circular aperture in conducting plane screen between different media, using Hertz vector formulation
12 p2030 A69-26463

Simultaneous Wiener-Hopf equations for electromagnetic wave diffraction, giving cyclic matrix solution
12 p2030 A69-26463

WAVE DISPERSION

tions for Dirichlet and Neumann mixed boundary value problems

13 p2287 A69-27299

Wave scattering from infinite line source by long convex cylinder, noting field prediction by geometrical diffraction theory

13 p2299 A69-28194

Shadow zone diffraction of plane step function compressional wave by circular cavity, using Friedlander wave front approximations

13 p2368 A69-28347

Couple stresses effect on dynamic stress concentrations, considering elastic compressional wave diffraction by cylindrical discontinuity

13 p2369 A69-28351

Diffraction and mirror analyses of right angle corner in overmoded waveguide for scattered modes, discussing transmission loss

13 p2234 A69-28426

Radio signal amplitude changes from Explorer 22 beacon satellite attributed to wave diffraction by tropospheric structures

14 p2411 A69-29107

X band open resonator terminated by step-rimmed flat mirrors, discussing rim effect on Fabry-Perot diffraction loss

14 p2424 A69-29765

Diffraction effects on periodic structures in millimeter wavelength measurements of Fraunhofer zone field, polarization and phase characteristics

15 p2607 A69-30244

Integral equation for diffraction from infinitely extended grating as mixed boundary problem of electromagnetic field, discussing single anomaly

15 p2568 A69-30795

Asymmetrical waves diffraction field at wide slots in circular waveguides determined in Huygens-Kirchhoff approximation

15 p2570 A69-30955

Soviet papers on wave diffraction and propagation covering marine life communication, diffraction at impedance sphere, cavity oscillations, resonator fields, plasma diffraction, etc

16 p2750 A69-32027

Diffraction of electromagnetic waves produced by vertical dipole on impedance sphere of large radius in isotropic medium, using moment method

16 p2751 A69-32028

Parametric interaction of electromagnetic field with spherical cavity having time variable radius, considering wave diffraction and TM oscillations

16 p2751 A69-32029

Electromagnetic wave diffraction in plasma cylinder of small nonuniform radius, analyzing interior field and radio wave reflection

16 p2751 A69-32031

Diffraction of axisymmetric electromagnetic wave at surface discontinuity of impedance cylinder forming core of coaxial waveguide

16 p2761 A69-32479

Ionospheric scattered radio wave field amplitude and phase variations assessed for diffraction at regular phase screen

16 p2754 A69-32521

Knife-edge obstacle diffraction of nonisotropic transmitter analyzed via isotropic source model propagation path noting accuracy

17 p2917 A69-32847

Wave diffraction problem solution method based on Rayleigh hypothesis equivalent to extended boundary condition method

17 p2920 A69-33422

Far field of line source in medium with sinusoidally stratified dielectric constant, studying diffraction effects due to Bragg mechanism

17 p2925 A69-33842

LF radio waves propagation in ionosphere by combining ray tracing in complex space with geometrical theory of diffraction, including diffraction by earth

17 p2928 A69-33866

Electromagnetic wave diffraction in vacuum by equidistant conducting grating, deriving integrodifferential equations for calculating amplitudes

17 p2930 A69-33886

Diffraction of modal field by semiinfinite waveguide, integral representation for Wiener Hopf kernel factorization and applications to open resonators

17 p2930 A69-33888

Diffraction of skew incident plane electromagnetic wave by perfectly conducting right angled wedge embedded in uniaxially anisotropic medium

17 p2930 A69-33889

Angular spectrum representation of diffracted wave fields expressible by plane wave expansions containing only homogeneous waves

17 p3007 A69-34153

Electronically tunable lithium niobate optical filter utilizing collinear acousto-optic diffraction in anisotropic medium

17 p2943 A69-34157

Penumbra current distribution in plane electromagnetic waves diffraction by conducting cylinder, obtaining transient solution for impulsive excitation, discussing time harmonic problem [AFCRL-69-0038]

18 p3100 A69-34232

Plane shock wave propagation around cylinders of various radii recorded with shadowgrams and Mach-Zehnder interferograms, discussing wave diffraction mechanics

18 p3120 A69-34472

Canonical forms for three dimensional diffraction problem of elastic harmonic waves propagating along circular cylinders infinite array

19 p3437 A69-36144

Plane electromagnetic wave diffraction on conducting sphere situated in absorbing nonuniform plasma layer

19 p3275 A69-36340

Radio wave diffraction by inhomogeneities arising from ionized gas clouds in interstellar medium

19 p3428 A69-36882

Short radio wave damping of earth satellite transmitter due to ionospheric diffraction resulting from increasing satellite-ground station distance

20 p3491 A69-37689

Remote sensors geometrical optics, considering power flow direction, specular reflection, imaging and dihedral in case of specular reflectors, reflection and diffraction

20 p3577 A69-37744

Electromagnetic wave diffraction in three dimensional space divided by dielectric orthogonal half planes/wedges/, using contact boundary value problem

21 p3673 A69-39012

Asymmetry method for precision alignment of rectilinear systems, using laser light diffraction behind misaligned target

21 p3742 A69-39781

Nonresonant Green functions of auxiliary boundary value problems for deriving integral equations for Dirichlet and Neumann diffractions at open screens

22 p3901 A69-40949

Numerical solution by approximation of Wiener-Hopf-Fock equation for diffractions at finite or infinite number of equidistant half planes applied to open-end waveguides

22 p3901 A69-40950

Surface integration technique used in conjunction with wedge diffraction theory to analyze TEM radiation patterns of parallel plate waveguides

23 p4136 A69-41581

Edge diffracted fields by conical body frustums evaluated, including equivalent currents for caustic regions

23 p4136 A69-41583

Thermal radiation diffraction of dielectric cylinder/cold plasma model/ containing N plus one layers with arbitrary temperatures and permittivities

23 p4123 A69-42028

Electromagnetic wave diffraction normally incident on symmetrical five element metallic array

23 p4123 A69-42029

Linearly polarized electromagnetic wave diffraction during oblique incidence on crossed strip arrays, describing crossing angle effects on reflection, transmission and polarization conversion coefficients

23 p4124 A69-42030

Electromagnetic oscillations emission by monochromatic electron beam in infinite waveguide formed by periodic diffracting array with energy losses, determining radiated power

23 p4124 A69-42031

Plane electromagnetic wave diffraction by screened periodic metallic strips array with real ferrite transversely magnetized to saturation

23 p4124 A69-42032

Electromagnetic wave diffraction by multielement periodic metallic strips arrays positioned transversely in rectangular waveguide

23 p4124 A69-42035

Accuracy standards for diffraction measurements of electromagnetic waves incident on periodic arrays, using monochromatic field and plane phase wavefront

23 p4139 A69-42042

Plane polarized electromagnetic wave diffraction incident on skewed metal ribbons array

23 p4125 A69-42043

Diffraction characteristics of electromagnetic wave by periodic two element arrays, noting amplitude measurement of harmonics in millimeter wavelength range

23 p4139 A69-42044

Ultrasonic diffraction delay lines technique to extend radar systems range without affecting target pinpointing capability

24 p4286 A69-42901

WAVE DISPERSION

Pulsar radiation origin related to electromagnetic wave distortion during propagation through resonant media

01 p0149 A69-10272

Quasi-monochromatic wave dispersion relation and energy transfer in inhomogeneous anisotropic medium

01 p0126 A69-10278

Hydromagnetic wave propagation in current carrying regions of ionosphere and magnetosphere using macroscopic equations, deriving dispersion relation

01 p0067 A69-10972

Ion acoustic wave dispersion in highly ionized Ar plasma in longitudinal magnetic field, noting effects of several phenomena

01 p0133 A69-11216

Narrow band normal steady state random processes applied to signal dispersion by extended oscillating body, obtaining statistical characteristics

02 p0206 A69-11602

Two dimensional diffuse shock waves in carbon dioxide, noting effect of shock curvature equivalence to thickness

02 p0233 A69-12534

HF pressure waves dispersion in blood vessels ascribed to viscoelastic behavior of walls

02 p0204 A69-12602

Dielectric dispersion in inhomogeneous dielectrics and semiconductors, discussing three layered equivalent circuit

02 p0301 A69-12837

Electromagnetic wave dispersion and damping in mixed molecular crystal, relating refractivity, wave absorption and concentration shift of bottom of exciton band to other parameters

03 p0484 A69-13279

Ionospheric beam deflection maximum and minimum levels, deriving equations for maximum usable frequency at given ionization conditions and radiation angles

03 p0424 A69-13540

Complex Doppler effect for oscillating source moving in dispersive medium, analyzing time behavior of radiation field

03 p0396 A69-13630

Dispersion equation for two dimensional periodic slow wave structure formed by periodically sequential loading

03 p0407 A69-13981

Disintegration spectrum of Langmuir wave excited in plasma column by antenna, discussing conditions of resonance and parametric amplification

03 p0480 A69-14113

Dispersion equation for electron-ion and electron-hole plasma linear oscillations in crossed electric and magnetic fields

03 p0480 A69-14134

Elastic behavior of large blood vessels in canine aorta by measuring dispersion and attenuation of artificially induced pressure waves

04 p0553 A69-14692

Dispersion relations for propagation of quasi-TEM mode and higher order symmetric modes in longitudinally magnetized ferrite filled coaxial waveguide

04 p0575 A69-14751

Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic

05 p0718 A69-15649

Dispersive properties of axial and annular longitudinally magnetized plasma waveguides

05 p0802 A69-15925

Coupled waves in ferromagnetic and antiferromagnetic semiconductors in constant electric and magnetic fields, discussing spin, electromagnetic and plasma waves dispersion

05 p0809 A69-16548

Wave dispersion analysis for amplification in cold plasma filled cylindrical waveguide penetrated by electron beam of same radius

05 p0736 A69-16790

Deviation of dispersion equations for all modes existing in E-plane slabs of dielectrically loaded rectangular waveguides

06 p0888 A69-17486

Dispersion equation for dipolar surface waves in uniform cold lossless infinitely long magnetoplasma column in free space, obtaining numerical and asymptotic solutions

06 p0968 A69-17774

Dispersion relation for longitudinal oscillations of one component weakly ionized plasma without intercarrier collisions in uniform constant electric field

06 p0970 A69-17957

Phase matched optical harmonic generation by anomalous dispersion in liquid media, using dye fuchsin red [IEEE PAPER V-9]

07 p1155 A69-19086

Elastic constants of composite materials by dispersion relation of sound waves for long wavelength, assuming periodicity in three dimensional rectangular lattice

07 p1236 A69-19457

Collisionless shock waves in rarefied plasma, discussing dispersion effect and oscillatory shock wave structure

08 p1303 A69-19996

Light intensity dispersion logarithm calculated along axis of laser beam propagating in atmosphere

08 p1351 A69-20437

Galactic H II regions and projected electron density or dispersion measures of pulsars, noting early stars

08 p1397 A69-20696

Ion Landau damping and finite Larmor radius effects on dispersion relation of Kelvin-Helmholtz instability due to shear in ion fluid velocity

08 p1367 A69-20799

Dispersion equation to describe spectrum of LF density perturbations by pumping plane electromagnetic wave in transparent homogeneous plasma or fluid media

09 p1453 A69-21570

Plasma wave excitation and dissipation in fast thetatron discharge, indicating electron nonadiabatic inductive acceleration without equilibrium orbit

09 p1552 A69-22046

Earth upper mantle wave velocity structure based on surface wave dispersion, noting low velocity layers thickness

09 p1491 A69-22153

Cosserat continuum and elasticity models of dynamics of composite materials, analyzing dispersive longitudinal waves

10 p1798 A69-23148

Relativistic energy momentum tensor of electromagnetic field in moving multicomponent dispersive media and instability of wave

10 p1653 A69-23193

Plasma concentration diagnostics in magnetosphere based on hydromagnetic whistlers/pearls/dispersion

10 p1688 A69-23934

Radio wave propagation in unstable inhomogeneous medium with space-time dispersion, showing adiabatic compression or expansion of wave packet spectrum

10 p1658 A69-23955

Photoelectric and photographic observations in UVB system of open star clusters, analyzing dispersion in two color diagrams, noting absorbing material structure

11 p1951 A69-24247

Electrostatic wave dispersion relation in uniformly rotating plasma cylinder used in interpreting Q machine experiments

11 p1924 A69-24300

Normal mode dispersion at upper hybrid frequency propagating parallel to uniform magnetic field in spatially inhomogeneous plasma

11 p1924 A69-24302

Beam-plasma dispersion relations, obtaining dispersion equation for plasma waves and dispersion curves for longitudinal waves

11 p1925 A69-24366

Dispersion relation for internal gravity wave propagation across exponentially decreasing magnetic field in conducting fluid, noting atmospheric wave propagation in ionosphere

11 p1877 A69-24564

Narrow band normal steady state random processes applied to signal dispersion by extended oscillating body, obtaining statistical characteristics

11 p1835 A69-24709

Landau dispersion relation solutions, noting higher order Landau poles and coupling of spatial Landau modes and least damped wave

11 p1929 A69-25265

Linear interaction of electron beam and plasma in magnetic field noting convective wave instability, wave dispersion and properties behavior

11 p1929 A69-25267

HF electrostatic waves propagation in nonuniform plasma in uniform magnetic field, obtaining solutions of dispersion relation

11 p1931 A69-25360

Pi 2 micropulsations at African low latitude stations, considering damping effect on ionospheric micropulsation transmission signal dispersion and SNR

12 p2074 A69-26959

Instabilities related to particles transit time in system of two counterstreaming electron beams of finite length, noting wave dispersion

12 p2141 A69-27179

Alternating electric field parametric effects on inhomogeneous plasma in magnetic field, obtaining electrostatic wave coupling dispersion relation by density gradients considerations

13 p2304 A69-27298

Dispersion relations in semiconductors in magnetic field indicating current anisotropic instability association with excessive noise

13 p2317 A69-27876

Interacting carriers acoustoelectric waves in semiconductors with high dielectric constant, analyzing dispersion equation

13 p2317 A69-27878

Leaky helix and solid metal waveguides propagation losses measured by shuttle pulse method in SHF

13 p2233 A69-28063

Dispersion and coupling impedance of logarithmic spiral resting on anisotropic magnetodielectric layer for microwave devices design

13 p2235 A69-28512

Libroelastic wave propagation and dispersion characteristics /solid carbon dioxide/ evaluated by using Raman scattering measurements

13 p2286 A69-28668

Frequency time dispersion of storm sudden commencement micropulsations, noting polarization effects

14 p2440 A69-29129

Microwave dispersion systems, using waveguide loaded with dielectric material to obtain group linear frequency delay characteristic

14 p2412 A69-29395

Monochromatic plane waves propagation in anisotropic homogeneous cold plasmas, treating dispersion surface, reflection, refraction and waveguide applications

14 p2492 A69-29399

Dispersion of electromagnetic wave propagating along ferrite loaded wire, calculating tuning curves and three port waveguide circulator modes

14 p2417 A69-29755

Equations describing interaction between HF and LF waves propagating in linearly dispersive medium, obtaining approximate solutions

15 p2568 A69-30733

Dispersion characteristics of open interdigital line structure by treating structure as radiator, applying linear antenna theory

16 p2748 A69-31580

Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic

16 p2762 A69-32506

Propagation in inhomogeneous and dispersive media, noting potential functions for vector electromagnetic field

17 p2924 A69-33838

Wave propagation in rectangular guides, determining dispersion curves by continued fractions method allowing for infinite set of time-space harmonics

17 p2925 A69-33843

Line source excited ferrite layer radiation pattern reduced to one dimensional form by Fourier transform, obtaining angle of maximum leaky wave radiation

17 p2926 A69-33852

Deformation of amplitude and frequency envelopes of plane modulated electromagnetic waves with dispersion in isotropic dielectric with cubic nonlinearity

17 p2928 A69-33869

Dispersion relation for gravity waves propagating in atmosphere with horizontal background wind variable with altitude

18 p3128 A69-34801

Microwave background angular fluctuations investigated for relationship between whirl motion velocity and temperature dispersion, noting role of scattering by moving plasma

18 p3188 A69-35208

Acoustic surface waves on thin film for pulse compression radar dispersive delay line, describing delay characteristic synthesis and control

19 p3267 A69-35929

Shock and current sheet separation in magnetic shock tubes, determining electron temperature behind shock and within current layer

20 p3511 A69-38241

Dispersion relations in semiconductors in magnetic field indicating current anisotropic instability association with excessive noise

21 p3782 A69-39142

Biquadratic plane wave dispersion relation for gyrotropic waveguides with dielectric and magnetic properties, discussing associated quartic equation for refractivity

21 p3675 A69-39285

YIG single crystal disk instability, noting dispersion of magnetostatic and plane spin waves from supplementary absorption and LF oscillations recording

21 p3783 A69-39561

Steady state mathematical modeling of light field structure for narrow collimated light beams propagating in artificial dispersive media

22 p3981 A69-40245

Algorithm for numerical modeling by Monte Carlo method of diffusion bounded light beams in dispersive media, applying to light pulse in cloudlike medium

22 p3981 A69-40248

Dispersion relations for surface plasma oscillations in normal metals for single and multiple films taking into account retardation effects, noting dielectric function

22 p3992 A69-40419

Asymmetric surface waves in radial spiral structures above conducting plane, analyzing spiral thickness and plane influence on dispersion and energy characteristics

22 p3916 A69-40951

Waveguide-resonance investigation of temperature dependence of dielectric constant and paraelectric dispersion of Ba and Sr titanate single crystals at millimeter wavelengths

22 p3995 A69-41158

He-Ne laser heterodyne system for measuring dispersion at 6328 and 6401 A due to Ne metastable atoms in gas discharge

23 p4172 A69-41397

Variational principle for analyzing dispersion properties of closed regular waveguide with traveling wave-modulated dielectric constant

23 p4123 A69-41943

Equivalent circuit technique for dispersion equation and coupling impedance of slow wave structures of ring-rod systems, noting retardation

23 p4139 A69-41944

Dispersion and resonant properties of electromagnetic waves propagating along plane metallic strip array with shield and dielectric

23 p4124 A69-42038

Double cellular surface geometry effect on dispersion and coupling impedance of two dimensional periodic resonator slow wave structure

23 p4140 A69-42048

Ridge-slot-ridge slow-wave structures used in multibeam TWT (traveling wave tube), analyzing E type electromagnetic dispersion as function of system parameters

23 p4140 A69-42049

Mean and variance of Faraday rotation and pulsar signal dispersion in galactic turbulent structure, applying to statistically homogeneous disk model of Galaxy

24 p4375 A69-42659

Fully dispersed wave reflection from plane wall in stable relaxing gas, obtaining canonical equation of state

24 p4299 A69-42717

Dispersive pulse propagation in laminated composites compared with theoretical predictions for timing and amplitude of oscillations [ASME PAPER 69-APMW-22]

24 p4401 A69-43097

Geometric dispersion of transient stress waves in linearly elastic laminated composite based on sinusoidal modes [ASME PAPER 69-APMW-20]

24 p4401 A69-43098

Moving striations dispersion and stability theory applied to ionization waves excited in Ar, Ne and Hg-Ar mixture low and medium pressure discharge

24 p4356 A69-43363

WAVE DRAG

NT INTERFERENCE DRAG

Two dimensional stratified flow over obstacle in finite height channel, noting lee waves and drag increase with decreasing speed

11 p1869 A69-24892

WAVE EQUATIONS

- Fresnel dragging effect on 3 cm microwaves by electron gas drift in low pressure glow discharge, noting electron density and excitation modes
12 p2133 A69-25766
- Ion drag effects on acoustic gravity waves propagation in isothermal F region, discussing indicated wave damping
14 p2434 A69-28944

WAVE EQUATIONS

- NT DIRAC EQUATION
NT KLEIN-GORDON EQUATION
NT LAME WAVE EQUATIONS
NT SCHROEDINGER EQUATION
- Coupled wave equations for propagation transverse to magnetostatic field in horizontally stratified and magnetized gyrotropic warm plasma
01 p0129 A69-10611
- Simple wave solution existence for system of equations describing rapid plane flows of ideally plastic material
02 p0337 A69-11560
- Boundary value technique for initial boundary value problems for linear and mildly nonlinear wave equations
02 p0271 A69-11733
- Asymptotic and approximate waves constructed for system of nonlinear partial differential equations for phases corresponding to multiple characteristics
02 p0271 A69-12034
- Finite element solution of Helmholtz equation and application to waveguides with complicated boundaries
03 p0404 A69-13598
- Integrals of nonlinear equations of evolution and solitary waves, discussing double wave solutions of Korteweg-de Vries equation
03 p0468 A69-13825
- Propagation velocity upper limits for plasma waves during state of equilibrium transition determined for nonlinear wave equation
04 p0630 A69-14553
- Electromagnetic wave propagation in moving isotropic refractive media, giving Maxwell-Minkowski and EM wave equations
04 p0557 A69-14760
- Potential functions to solve coupled wave equations for compressible anisotropic plasma with electric and magnetic current sources
05 p0803 A69-16350
- Approximate method for wave equation with dielectric variation in propagation direction
06 p1030 A69-17116
- Asymptotic wave equation application conditions in describing field behavior near caustic surface, using Airy functions
07 p1076 A69-18520
- Magnetosonic wave evolution in inhomogeneous dispersive plasma created by magnetic piston, discussing equation solution
07 p1181 A69-19001
- Coupled wave equation solution based on spectral resolution for longitudinal components of electric and magnetic fields when source currents are present in compressible anisotropic plasma
08 p1274 A69-20031
- Constitutive equations for propagation of plane waves of finite amplitude in nonsimple elastic solids, discussing holohedral isotropic solids and transverse harmonic circularly polarized waves
08 p1411 A69-20141
- Micropolar elasticity using Green functions to solve wave equations in unbounded medium, noting effects of concentrated force and body couples
09 p1618 A69-22261
- Micropolar thermoelasticity using Green functions to solve wave equations in unbounded medium and study displacement, rotation and temperature fields
09 p1618 A69-22262
- Electromagnetic wave propagation in rectangular waveguide containing uniaxial anisotropic birefringent medium, deriving field equations
11 p1853 A69-25350
- LF electromagnetic waves stability and propagation conditions in plasma confined in central-conductor configuration measured, noting agreement with wave equation solution
11 p1931 A69-25362
- Boundary value problems for hyperbolic and mixed equations using model of wave, Lavrentiev-Bitsadze and Tricomi equations
12 p2123 A69-26727
- Nonlinear hyperbolic partial differential equations with dissipation term for periodic solutions
12 p2124 A69-26929

- Plane wave solution for wave propagation in inhomogeneous anisotropic time-varying media
13 p2219 A69-27397
- Variational method for weak second order resonant interactions among waves with position and time varying amplitudes and phase angles
13 p2297 A69-27634
- Monograph on sound generation by turbulence and surfaces in arbitrary motion, discussing sound and multiple fields and governing equations
13 p2247 A69-27974
- General formulas, reciprocity theorem and modified Green formula derived from variational principles for mixed problem of wave equation
14 p2485 A69-29354
- Radiative instability problem of stream plasma system in kinetic regime, discussing Fung letter
14 p2502 A69-29960
- Monograph on wave propagation and multiple scattering in random continuum, emphasizing scalar wave equation solutions
15 p2564 A69-30150
- Substitute kernel approximation for acoustic waves radiative transfer equations for nongray gas near equilibrium
15 p2717 A69-30791
- Stress waves propagation through elastic-plastic medium with uniaxial displacement, discussing wave interactions and interface conditions
16 p2870 A69-31809
- Wave generation in infinite micropolar elastic solid body analyzed by linearized equations of motion
17 p3053 A69-33018
- Electromagnetic wave diffraction in vacuum by equidistant conducting grating, deriving integrodifferential equations for calculating amplitudes
17 p2930 A69-33886
- Wave equations governing evolution of long nonlinear axially symmetric wave motion in inviscid rotating fluids
18 p3120 A69-34441
- Wave equation of electromagnetic field of optical resonator with arbitrary mirrors, utilizing Schroedinger equation and equivalent mechanical system
19 p3333 A69-35880
- Single loop directional stripline filters synthesis, including general expression for frequency characteristics based on wave matrices
19 p3284 A69-36570
- Thomas wave equation in fluid mechanics, examining coordinates system with normal hyperbolic metric of universe tube having given signature
20 p3598 A69-37430
- Q switched laser pulse propagation in nonlinear laser amplifier using bitemporal relativity theory, deriving five dimensional wave equation revealing superlight signal existence
21 p3770 A69-38839
- Equations governing stress waves generated by rapid nonuniform heating of solids, comparing elastoplastic with purely elastic solutions
21 p3837 A69-39158
- Laminated random media stochastic displacement, using perturbation procedure to derive mean wave propagation deterministic equations
22 p4040 A69-39979
- Two dimensional gas dynamics differential equations for simple waves, discussing invariant solutions and conditions for group solutions
22 p3933 A69-41030

WAVE EXCITATION

- NT ACOUSTIC EXCITATION
NT HARMONIC EXCITATION
- Growth rate of wave instability in conducting liquid jet in perpendicular electric field and accelerating under gravity
01 p0062 A69-11207
- Induced discharge laser wave propagation in medium with active and absorbing admixtures, determining stationary wave shape and velocity range
02 p0206 A69-11609
- Standing ion-acoustic wave excitation in weakly ionized plasma, noting isothermal compression of electron gas
02 p0292 A69-12555
- Finite amplitude surface wave excitation in infinitely deep ideal fluid by moving pressure, noting phase velocity increase with amplitude
03 p0466 A69-13277
- Longitudinal elastic wave damping, excitation and propagation in lithium niobate crystals at frequencies from 200 to 2000 MHz
03 p0487 A69-13729

- Disintegration spectrum of Langmuir wave excited in plasma column by antenna, discussing conditions of resonance and parametric amplification
03 p0480 A69-14113
- Transverse normal waves excitation in flat plate by applying piezoelectric plate or comb shaped emitter to surface or end face
04 p0678 A69-14901
- Electrostatic ionospheric waves excited around lower hybrid resonance frequency by high energy electrons
06 p0918 A69-17381
- Surface plasma waves excitation by light and decay into photons applied to nonradiative modes
07 p1188 A69-18278
- Electromagnetic waves excitation during interaction between density modulated beam and plasma in magnetic field, analyzing instabilities
07 p1189 A69-18508
- Open resonator reflection coefficient resonance curve compared with transmission coefficient, noting low Q waves excitation role
07 p1106 A69-19152
- Fresnel formulas for surface plasma waves excitation by light in thin metal foil embedded between dielectric layers, discussing transmissive and absorptive resonances
08 p1372 A69-20290
- Coupling electromagnetic power to beam plasma amplifiers without use of helices and cavities, discussing modes of interaction, gap coupling and Cerenkov coupling
09 p1463 A69-21805
- Electrons resonant heating in beam plasma discharge, discussing ion cyclotron wave excitation in hot electron plasma produced by electron beam
09 p1549 A69-22016
- Plasma wave excitation and dissipation in fast thetatron discharge, indicating electron nonadiabatic inductive acceleration without equilibrium orbit
09 p1552 A69-22046
- Single degree of freedom mechanical system under random excitation studied for creep effect on vibrations by harmonic analysis
09 p1617 A69-22095
- Plasma electron beam nonlinear interaction, considering equations of motion of electron distribution function, plasma wave spectrum and mode coupling effects
10 p1729 A69-23407
- Induced discharge laser wave propagation in medium with active and absorbing admixtures, determining stationary shape and velocity range
11 p1895 A69-24716
- Radiation pattern as function of asymmetry in amplitude of secondary source excitation by primary aperture antenna
11 p1852 A69-25117
- Transverse normal waves excitation in flat plate by applying piezoelectric plate or comb shaped emitter to surface or end face
12 p2182 A69-26654
- LF oscillations nonlinear excitation increment in plasma by electron beam found proportional to reciprocal of wave potential
12 p2138 A69-26709
- Saturation and distortion effects on magnetoelastic wave excitation in yttrium garnet single crystals by large amplitude microwave frequency field
12 p2145 A69-26725
- Finite amplitude surface wave excitation in infinitely deep ideal fluid by moving pressure, noting phase velocity increase with amplitude
14 p2482 A69-28785
- Equatorial jet stream excitation of longitudinal waves, analyzing plasma beam instability and spectrum of short wave inhomogeneities by quasi-hydrodynamic equations
14 p2437 A69-29073
- Standing ion-acoustic wave excitation in weakly ionized plasma, noting isothermal compression of electron gas
15 p2658 A69-30252
- Two photon absorption excitation of luminescence in ruby crystals by neodymium laser radiation, determining luminous intensity dependence on pumping intensity
15 p2634 A69-30731
- Plasma wave echoes concept extended to transverse electromagnetic wave excitation propagating parallel to external magnetic field
16 p2823 A69-32467
- Plasma-cyclotron interaction wave coupling mechanism in symmetrical double beam system in

uniform magnetic field leading to unstable wave excitation along beam

17 p3015 A69-33831

Wave excitation in resonant dissipative and inhomogeneous structures, discussing resonator geometry, mode spectra, etc

17 p2926 A69-33849

Phased array blindness at inoperative scan angles explained in terms of elements excitation and termination caused by leaky wave

17 p2928 A69-33872

Drift waves parametric excitation in resistive plasma derived from fluid equations, assuming plane geometry with periodic boundary conditions in magnetic field and azimuthal directions

18 p3179 A69-34440

Transient phenomena in bounded dispersive medium emphasizing surface wave propagation, discussing space and surface waves excitation in bounded cold magnetoplasma

20 p3494 A69-37842

Nonlinear effects in spiral galaxies with emphasis on solar neighborhood region, discussing radial motion, stationary state with excited waves and vertex deviation

20 p3607 A69-38036

Negative energy waves presence, showing qualitative difference on theoretically derived parametric amplification in plasmas

20 p3582 A69-38244

Saturation and distortion effects on magnetoelastic wave excitation in yttrium garnet single crystals by large amplitude microwave frequency field

21 p3782 A69-39138

Directional couplers applied to excitation of non-propagating surface wave antennas, examining ridge slot system

23 p4139 A69-41946

Combination resonance and instability regions of second type for parametrically excited oscillations with nonlinear/cubic/ damping

23 p4230 A69-42107

Transverse acoustic wave excitation of elastic circular cylindrical sandwich shell submerged in infinite fluid medium, describing simultaneous equations development for modal response [ASME PAPER 69-APMW-17]

24 p4401 A69-43100

WAVE FRONT DEFORMATION

Photographic image degradation resulting from wave front distortion due to atmospheric refractive density gradients over long oblique optical path

01 p0107 A69-10223

Optical heterodyne detection of randomly distorted signal beam, noting time invariant scheme yielding largest average SNR in atmospheric turbulence

07 p1087 A69-19642

Precision optical systems tests, using two beam interferometer and CW gas laser to examine reflected or transmitted wavefront contours

12 p2092 A69-26421

WAVE FRONT RECONSTRUCTION NT KINFOFORM

Holographic phase variation distribution recording by interference between reconstructed wave fronts from separate holograms

01 p0083 A69-10984

Holography, discussing one beam recording, real time interferometry, pulsed laser, etc

05 p0761 A69-15774

Strain releasing method for reduction of small local movements of recording holographic emulsions resulting in degradation of holographically reconstructed wavefronts

06 p0923 A69-16930

Acoustic holograms, describing electronic method of reconstructing holographic image in order to avoid multiple image problem

06 p0923 A69-16933

Lippman-Bragg holograms production with high reconstruction efficiencies by suitable recording and processing techniques with commercially available photographic plates

06 p0926 A69-17481

Ultrasonic holograms and optical reconstructions derived by scanning receiver or source

06 p0930 A69-18228

Microwave holographic reconstruction of metal objects inside purse by nonscanning method, visualizing microwave field by polaroid and liquid-crystal techniques

07 p1135 A69-19449

Image degradation in holograms undersampled with respect to space-bandwidth product, noting signal to noise ratio and resolution

08 p1312 A69-20078

Back diffraction field behind hologram illuminated with laser beam, noting hologram image observation through beam cross section

08 p1312 A69-20086

Holographic technique for measuring thin fluid film profiles using interference image reconstruction and helium-neon laser as coherent light source

08 p1317 A69-20873

Borrmann effect and abnormal transmission and extinction observed by reconstruction of images of holograms recorded in three dimensional photosensitive medium

09 p1494 A69-21492

Holographic technique for reconstructing light wave front, developing algorithm for three dimensional images recognition

09 p1495 A69-21859

Holographic technique application to radio and sound wave ranges, discussing incoherent holography development to overcome difficulties in image reconstruction of stationary objects

09 p1498 A69-22133

Light wave reconstruction including polarization, using single reference beam with depolarizing diffuser as source

10 p1690 A69-22951

Shearing interferometry by simultaneous reconstruction of two wavefronts on single photographic plate

10 p1690 A69-22952

Digital reconstruction of images from optical holograms for acoustical data, discussing image degradations

10 p1695 A69-23547

Matrix method for acoustical holograms and optical reconstruction of virtual and conjugate images using laser light of 6328 A wavelength

10 p1696 A69-23549

Computer generated kinoform optical element operating on phase of incident waves and forming wave front reconstruction single image

10 p1697 A69-23867

Computer generated holograms using binary transmittance for wave fronts and three dimensional images construction

10 p1697 A69-23869

Multicolor hologram recording and reconstruction gas lasers, discussing control of ghosts in three dimensional image

11 p1882 A69-24679

Holographic recording materials effect on optical reconstruction wave and hologram properties

11 p1882 A69-24681

Pulsed laser holography advantages for recording small objects in motion and holographic interferometry advantages for complex surfaces and time-separated events

11 p1883 A69-24682

Holographic multiplexing for producing three dimensional reconstruction of nonlaboratory objects in horizontal direction, noting TV and X ray pictures applications

11 p1883 A69-24684

Holographic reconstruction of spatial distribution of laser light field within and outside resonator, noting suitability for pulsed laser analysis

11 p1885 A69-24919

Holograms reconstructing images of points with diameters approximated by width of autocorrelation functions

11 p1886 A69-25058

Multiple information storage in sampled hologram in space division multiplexing holography, constructing hologram with sound waves and reconstructing images with laser light

12 p2079 A69-25921

Holographic recording in spatially incoherent light, describing hologram reconstruction method

12 p2090 A69-26293

Moire fringes, discussing fringe multiplication by filtering to obtain small strain measurement sensitivity and engraving technique for wave front reconstruction

12 p2099 A69-27164

Image formation with arbitrary holographic surfaces achieved by reversing direction of propagation of diverging wave

14 p2450 A69-29582

Microwave hologram construction and image reconstruction by laser beam, analyzing results by matrix expression

15 p2610 A69-30802

Linear mean square estimator for restoration of images degraded by system with bandlimited spread function

15 p2611 A69-31032

Restoration of photographic images by optical spatial filtering with least mean square error filter in presence of random additive noise

15 p2611 A69-31033

Point object image differential field during reconstruction by surface nonplanar holograms, determining image position and aberrations

17 p2981 A69-33115

Holographic method of a posteriori restoration of images formed by coherent and incoherent light by spatial frequency retrieval

19 p3304 A69-35603

Optical imaging with partially coherent nonthermal light, discussing reconstruction of object from image and similarity between object and image, including detection

19 p3372 A69-35908

Holographic wave front reconstruction emphasizing between-wave interference fringes, discussing application to microscopy, Thompson and Parent disdrometer, interferometry, etc

20 p3540 A69-37637

Holographic recording of focused images and reconstruction in white light, discussing optimal conditions, calculating ray paths

21 p3725 A69-39543

Holograms capable of multiple imaging or reconstructing point images, using extended and correlated signal and reference sources in recording process

21 p3727 A69-39777

Resolution limitations in holographic images using single record, discussing lensless holography using plane reference waves

21 p3727 A69-39778

Fresnel zone plate as converging and diverging lens in holographic image reconstruction, noting sine wave zone plate

22 p3947 A69-40864

Reconstruction properties of image plane holography for producing bright white light displays, using reference beams

23 p4164 A69-41627

Hologram film nonlinearity effect on reconstructed image, discussing role of illumination type

23 p4165 A69-41636

Reconstruction of three dimensional holograms without reference beam, noting thick layered Lippmann emulsions and dyed alkali halide crystals

23 p4166 A69-41969

Acoustical holography principles and reconstruction techniques, noting advantages of liquid-surface and temporal reference holography over optical counterpart

23 p4167 A69-42199

Holography phototechnical and optical variants, discussing combination of conventional photography and wave front reconstruction

24 p4312 A69-42616

Linear motion blur compensation technique in photographic recordings by reconstruction of sharp image from hologram

24 p4314 A69-42972

Fraunhofer hologram of glass fiber by Be X rays reconstructed using He-Ne laser light

24 p4314 A69-42973

Image reconstruction by graphical method for equal wavelengths of recording and reconstructing radiation and equal scales of hologram

24 p4315 A69-43166

Hologram electronic transmission, obtaining required bandwidth reduction by differential recording of image and scene diffraction pattern

24 p4317 A69-43761

WAVE FRONTS

NT SHOCK FRONTS

Wave front profiles sensitivity to form of constitutive equation in one dimensional stress problem

02 p0344 A69-12291

Transverse mode selection effects on wave front of long pulsed ruby laser beam

02 p0257 A69-12409

Plasma instability in inhomogeneous magnetic field noting wavefront structure role

09 p1546 A69-21571

MHD first order partial differential equations used to investigate wave front between perturbed and unperturbed flow regions in magnetosonic propagation through homogeneous medium

10 p1727 A69-23090

Two dimensional wavefront shape induced in finitely strained elastic body by impulsive point body force

11 p1969 A69-24338

High speed photographic study of plasma luminescence front and charged particle concentration

WAVE FUNCTIONS

front counter to electrodynamic force in crossed electric and magnetic fields
12 p2141 A69-27130

Shadow zone diffraction of plane step function compressional wave by circular cavity, using Friedlander wave front approximations
13 p2368 A69-28347

Microwave induced ionization wave propagation in rare gases, noting rapid electron density increase at rare front and subsequent slow plasma decay
16 p2818 A69-31671

N wave propagation across nonuniform medium described by cloud or front layer, using geometrical optics
16 p2812 A69-31924

Wave front resistivity in laser produced plasma interacting with magnetic field enhanced by two stream instability
16 p2823 A69-32564

Structure of solitary waves propagating in collisionless plasma perpendicular to magnetic field, considering soliton wavefronts charge separation and relativistic velocity
17 p2922 A69-33696

Ionization wavefronts nonlinear analysis including energy effects and ionization wave structure, discussing Joule heating due to transverse electric field
22 p3990 A69-40758

Holographic technique of coherent light field transformation with desirable phase distribution from laser light beams of arbitrary wavefront characteristics
22 p3950 A69-41115

Initially sharp plane pressure pulse propagation through linear elastic composite material, determining wave front shape change and stresses behind front [ASME PAPER 69-APMW-11]
24 p4401 A69-43103

WAVE FUNCTIONS

NT MOLECULAR ORBITALS

Total energy of plasma wave from second order energy, showing close approximation to wave packet energy
02 p0287 A69-11876

Asymptotic solutions for prolate spheroidal wave functions satisfying given differential equation, producing asymptotic expansions in terms of confluent hypergeometric functions
04 p0623 A69-14892

LCAO-MO-SCF wave functions determined for ground and excited states of nitrogen dioxide at five different ONO angles
06 p0960 A69-17109

Natural orbital expansion coefficients of LCAO-MO-SCF-CI wave functions for ground state of H molecule
06 p0960 A69-17112

Electromagnetic waves and photons coexistence, discussing wave mechanics and guidance of particles, photon guidance and corpuscular magnitudes, etc
08 p1351 A69-20117

Electron states at deep levels in InSb by deriving equations for Bloch wave functions of conduction and valence bands
09 p1556 A69-21508

Exact solutions for two state potential curve crossing in subexcitation molecular collisions in terms of various decoupling schemes
12 p2131 A69-25983

Surface resistivity oscillatory dependence on magnetic field in single crystal metals, examining electron trajectories, energy levels and wave functions
13 p2316 A69-27641

Inelastic scattering cross sections calculated, comparing results for various nuclear states expressed as Wood-Saxon radial and harmonic oscillator functions
14 p2504 A69-29006

Sum rule properties of finite set of wave functions obtained from application of variational principles to basis functions linear combinations
14 p2471 A69-29921

Electromagnetic wave propagation in anisotropic media analyzed for wave packet behavior function, stressing waveguide theories
17 p2926 A69-33847

Upper bounds for electromagnetic transition rates for Ne 20 determined using Hartree-Fock wave functions
18 p3177 A69-35166

Refractive index profiles yielding wave functions expressed in terms of standard transcendental functions for electric fields in spherically stratified isotropic media
19 p3372 A69-35618

Franck-Condon factors for band systems of molecular hydrogen, computing wave functions for each electronic state by numerical solutions of radial Schroedinger equation
21 p3774 A69-38758

Equatorial radiation pattern of parallel plate TEM mode axial slot on elliptical conducting cylinders, using wedge diffraction and creeping wave theory
22 p3914 A69-40703

Natural orbitals calculated from spin free one density matrix of open shell limited configuration-interaction wave function constructed from nonorthogonal basis
23 p4194 A69-42206

Collective rotational motion separation from internal motion in system of n point masses based on wave mechanics, emphasizing three body problem
24 p4349 A69-42650

Density matrices of symmetry projected single determinant wave functions for finite groups, considering many particle system
24 p4351 A69-43810

WAVE GENERATION

Transverse plasma mode excitation by nonlinear interaction analyzed by Hamiltonian function
01 p0127 A69-10280

Electromagnetic wave generation in 0.2-3mm range, noting applications to physics, biology and technology
02 p0250 A69-12247

Finite deformation mode stability for finite amplitude first diameter nonlinear plastic wave initiation and growth at impact face in long rods
02 p0342 A69-12279

Ion cyclotron wave generation in RF self sustained mode improved by installing grid structures in plasma near magnetic mirrors
03 p0474 A69-13113

Propagation of detonation wave in tube containing single stream of diethyldichlorohexane droplets dispersed in gaseous oxygen
03 p0415 A69-13139

Generation of UHF space charge waves by nonlinear interaction of two microwave signals in magnetoplasma, predicting optical mixing
03 p0475 A69-13146

Velocity field generated by shock wave incident on slender symmetrical body resting in infinite compressible medium
03 p0362 A69-13418

Microwave generation and amplification, noting microwave transit time tubes, semiconductor devices and methods utilizing quantum electronic effects to generate and amplify EHF oscillations
03 p0395 A69-13611

Dispersion equation for two dimensional periodic slow wave structure formed by periodically sequential loading
03 p0407 A69-13981

Equations for self oscillating mode of operation for O-type backward wave generator with electrostatically focused electron beam and finite values of amplification parameter
03 p0407 A69-13986

Single punch through silicon avalanche diode structure and two distinct modes of oscillation making possible pulsed generation of microwaves
04 p0573 A69-14334

Delta wing head wave at zero angle of attack in steady supersonic flow during transition from subsonic to supersonic leading edges [DVL-871]
06 p0858 A69-17242

Hydromagnetic wave propagation and generation in magnetosphere, discussing hydromagnetic waves in uniform and axisymmetric magnetic fields
07 p1208 A69-19356

Coupling electromagnetic power to beam plasma amplifiers without use of helices and cavities, discussing modes of interaction, gap coupling and Cerenkov coupling
09 p1463 A69-21805

Thermally generated stress wave propagation in dispersive elastic rod investigated experimentally and analytically, using ruby laser and differential equation
09 p1617 A69-22010

Large scale heat sources influence on formation and dynamics of ultralong waves in atmosphere, using linear time dependent quasi-geostrophic model
09 p1491 A69-22164

Gunn diode operating to VHF range with coaxial line to generate rectangular waves and to function as memory element
09 p1467 A69-22587

Neon discharges, discussing similarities in type p plasma ionization waves generated by pulsing
10 p1740 A69-23721

Circuit for generation of square wave with frequency as sum or difference of two periodic signal frequencies, discussing SSB modulation
10 p1665 A69-24047

Two dimensional wavefront shape induced in finitely strained elastic body by impulsive point body force
11 p1969 A69-24336

Magnetoacoustic waves generated by Cerenkov radiation from corpuscular fluxes due to star interaction with stellar wind, determining deceleration forces on star
11 p1955 A69-24385

Acoustic wave amplification and generation in piezoelectric semiconductors and semimetals by supersonic carrier drift currents
11 p1926 A69-2464

Microwave antenna testing on small indoor ranges, discussing reflectors and feeds for generation of approximately uniform plane waves for antenna illumination
11 p1852 A69-25314

Critical condition for electromagnetic radiation generation by energetic electrons gyrating in dense magnetized plasma, proposing plasma instability mechanism
11 p1931 A69-25363

Operational amplifier integrated circuits applications, discussing simple and transducer amplifiers, operational circuits, wave shapers and generators and power supplies
11 p1857 A69-25665

Acoustic wave generation in neutral particle component of weakly ionized gas by variation of electron temperature with low power RF signal
12 p2134 A69-26096

Elastoplastic stress wave generation by penetration of impulsive electromagnetic radiation through thin surface layer of solid
12 p2179 A69-26215

Electrical equivalent circuit for piezoelectric generation and detection of transient and sinusoidal ultrasonic waves by interdigital electrodes
12 p2039 A69-26376

Submillimeter wave generated in ZnTe by difference frequency mixing of Q switched ruby laser, discussing beat power [IEEE PAPER B-4]
14 p2457 A69-28927

Orotron electron beam excited oscillator-generator of millimeter and submillimeter wave bands with wide frequency tuning range
14 p2421 A69-29546

Spiral density waves formation in galaxy model with differentially rotating and nonrotating subsystems based on collective interactions
15 p2688 A69-30550

Hydromagnetic stability calculations applied to umbral models, showing overstable oscillations relation to thermal hydromagnetic wave generation occurrence in sunspots
15 p2693 A69-30780

Wave regeneration by resonant particles interaction in inhomogeneous plasma of electrons confined in quadratic potential solved in WKB approximation
15 p2660 A69-30918

Shock wave growth or decay in atmospheres with density and temperature variation using singular surface theory
16 p2768 A69-3166

Microwave induced ionization wave propagation in rare gases, noting rapid electron density increase at wave front and subsequent slow plasma decay
16 p2818 A69-31671

Q switched laser produced blast waves in low pressure Ar, discussing gas density and time dependence roles
16 p2796 A69-31705

Inhomogeneity effects on elastic waves generated by impulsive loading of surface using asymptotic method, discussing high stress intensification regions
16 p2873 A69-32157

Wave generation in infinite micropolar elastic solid body analyzed by linearized equations of motion
17 p3053 A69-33018

Wave generation in infinite micropolar elastic body, studying axially symmetric displacement and rotation fields
17 p3053 A69-33019

Collisionless shock wave generation and structure in zeta and theta pinches
17 p3013 A69-33819

Wave equations covering evolution of long non-linear axially symmetric wave motion in inviscid rotating fluids
18 p3120 A69-34441

- Acoustic gravity waves generated in isothermal atmosphere by ground energy source calculated using stationary phase method and kinematic theory
18 p3129 A69-34953
- Discrete radio sources spectra at decametric wavelengths, showing variation with frequency and radio wave generation mechanism leading to various spectral types
18 p3200 A69-35134
- Atmospheric gravity waves amplitude generated in equatorial electrojets and polar regions
20 p3593 A69-38107
- Photon induced precursor ionization and electron produced wave separation from electrical shock tubes
20 p3511 A69-38240
- Device producing step-like output representing amplitude of ECG R-wave on beat by beat basis
21 p3667 A69-39443
- Stellar atmospheres acoustic energy generation rate calculations, studying corona mass ejection effects on stellar rotation
21 p3813 A69-39521
- Coronae around helium stars and X ray sources, calculating acoustic energy generation rates in convection zones
21 p3813 A69-39522
- Electromagnetic wave propagation in nonlinear media, considering evolution and decay of electromagnetic shocks
21 p3697 A69-39670
- Chromospheric heating above sunspots by analyzing MHD wave generation and propagation in sunspots and solar atmosphere
22 p4010 A69-39992
- Kinematic dynamo waves, discussing excitation and maintenance of magnetic field by assumed motion of uniformly conducting fluid using small parameter and numerical methods
22 p3989 A69-40195
- Orographic inhomogeneities of underlying surfaces for radiating atmospheric waves formation, deriving formulas for plane stable atmosphere
23 p4185 A69-42492
- Wave processes in pipelines during fluid filling, studying effects of flow resistance due to pumps and nozzles
24 p4300 A69-43075
- Saturn F-1 rocket engine as generator of infrasonic waves and magnetic fluctuations, noting ignition and cut-off signal characteristics
24 p4365 A69-43415
- Turbulence and laminarity effect on vertical waves development rising in thin layer of heavy viscous fluid in contact with vertical gas flow
24 p4302 A69-43480
- Shock formation mechanism in simple shock tube using multistage modification of White model, deriving variation of shock Mach number
24 p4305 A69-43631
- Wave generation in infinite micropolar elastic solid, determining displacement and rotation fields and strain state
24 p4406 A69-43731
- Magnetoacoustic waves generated by Cerenkov radiation from corpuscular fluxes due to star interaction with stellar wind, determining deceleration forces on star
24 p4390 A69-43775
- WAVE INCIDENCE CONTROL**
- Optimal focusing of acoustic system for tube defectoscopy with circular normal waves
24 p4296 A69-42655
- WAVE INTERACTION**
- NT SHOCK WAVE INTERACTION**
- Semiclassical wave emission and absorption theory applied to charged particles interaction with waves in magnetized plasmas
01 p0126 A69-10123
- Exact solution for coupling effects between two waves with complex coupling function, defining region of validity for earlier perturbation theory
01 p0027 A69-10252
- Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave
01 p0131 A69-10788
- Ionospheric irregularities and cross field plasma instability, analyzing nonlinear behavior of latter with two dimensional model
01 p0073 A69-11179
- Stability of weakly inhomogeneous plasmas with free energy available for nonlinear resonant three wave interactions
01 p0133 A69-11212
- Nonlinear interaction between longitudinal Langmuir waves and parallel wave vectors in heated plasma study, based on Cauchy problem of kinetic equation for electron distribution
02 p0285 A69-11461
- Collision broadened homogeneous linewidth measurements for 6328 angstrom Ne line in Ne and He-Ne discharges, using nonlinear interaction between two traveling waves
02 p0257 A69-12613
- Oppositely moving waves interaction during nonlinear transient process of oscillations buildup in annular solid state laser found dependent on coupling via scattering
02 p0259 A69-12648
- Q switched laser based on light waves parametric interaction in nonlinear medium operating at wavelengths from UV to IR
03 p0439 A69-13054
- Nonlinear interaction between waves in relativistic plasma, determining probability between transverse and longitudinal waves with different phase velocities
03 p0397 A69-13710
- Traveling waves interaction effects on emission modes of gas laser with circular resonator
04 p0611 A69-14545
- Colliding waves synchronization and stability in annular gas laser by electronic simulation
05 p0770 A69-15645
- Internal gravity waves propagation in shear flow, detailing interaction stress in incompressible stratified Boussinesq liquid, conservation energy exchange and radiation stress
05 p0788 A69-15721
- Intense transverse resonant acoustic field interaction with viscous fluid flows
[ASME PAPER 68-WA/FE-8]
05 p0748 A69-16091
- Nonstationary nonlinear wave phenomena in ultrashort high intensity light pulse formation, discussing nonstationary stimulated Raman scattering and picosecond pump reduction of Raman amplification
[IEEE PAPER H-5]
05 p0774 A69-16316
- Hydrodynamic and lattice vibrations equations for coupled waves in ion semiconductors in external electric and magnetic fields, observing sound amplification
06 p0978 A69-16897
- Resonant four wave interaction for nonlinear energy transfer in electron plasma oscillations
06 p0963 A69-17143
- Packet of finite amplitude VLF whistler waves, examining cyclotron resonance interaction with high energy electrons and development in magnetosphere
06 p0917 A69-17378
- Reciprocal interaction of combustion wave and field of turbulence, discussing aerodynamic principles, turbulence effect on flame propagation speed and measuring methods
06 p1032 A69-17420
- Electrostatic waves interaction to electrons in plasma characterized by bump-in-tail distribution function, deducing mechanism of wave particle interaction
06 p0966 A69-17521
- Symmetrical formulation of quantum theory of three wave optical parametric interactions in crystals
06 p0958 A69-17710
- Nonlinear interaction between cyclotron harmonic waves propagating perpendicular to static magnetic field in warm magnetoplasma, noting parametric amplification and mode conversion
06 p0968 A69-17766
- Interaction of laminar hypersonic boundary layer and supersonic corner expansion wave, discussing upstream influence, transverse pressure gradients and external flow
[AIAA PAPER 69-137]
06 p0913 A69-18078
- Small signal coupled mode analysis including relativistic effects for studying spiraling electron beam interaction with fast wave circuits
07 p1114 A69-18436
- Nonlinear interaction between cyclotron harmonic waves, demonstrating synchronism conditions for traveling wave parametric amplification and passive mode conversion
07 p1189 A69-18439
- Equations for electron scattering by sound in n-type semiconductors, giving corrections to sound propagation velocity during interactions
07 p1199 A69-18680
- Nonpolarized single frequency gas laser radiation produced by interferential effects in complex resonator
07 p1149 A69-18936
- Planetary wave-zonal flow interaction interpretation in terms of potential vorticity eddy transport, deriving zonal wind change and temperature field
07 p1126 A69-19037
- Parametric light interactions application to optics stressing nonlinear spectrograph and cavity and traveling wave oscillator
[IEEE PAPER K-5]
07 p1152 A69-19066
- Thin electron flux interaction with electromagnetic wave in open waveguide, discussing nonlinear theory and performance of gyroresonance transverse wave tube
07 p1107 A69-19159
- Resonance effects during piezoelectric interaction between charged drift wave and flexural wave in semiconductors with one sign current carriers
08 p1371 A69-19806
- Exact solution to kinetic equation for resonant three wave coupling in weakly turbulent plasmas, assuming only single triplet of modes interaction
08 p1360 A69-19989
- Collective interactions of electromagnetic waves in plasma, discussing light scattering from electron fluctuations, stimulated emission and anomalous absorption
08 p1361 A69-20220
- Nonlinear interactions between plasma waves of various intensities, noting changes in particle distribution
08 p1362 A69-20427
- Plasma oscillation modes perpendicular to magnetic field used to study energy conversion by wave coupling across density discontinuity
08 p1367 A69-20795
- Wave interaction in magnetically confined plasma taking into account body and surface waves
08 p1370 A69-21014
- Cyclotron waves interaction when propagating in solid state plasma in magnetic field, determining amplification zones and factors
08 p1374 A69-21078
- Plasma wave coupling in absence of magnetic field in revolving system containing dielectrics and circular waveguide
08 p1371 A69-21150
- Plasma dissipative drift instability and nonlinear wave interaction from discharge with oscillating electrodes, investigating LF plasma oscillations
09 p1550 A69-22019
- Mass displacement in light path due to interaction with gravitational wave accompanying light pulse, discussing general relativity tests for time delay and starlight bending
09 p1540 A69-22081
- Mach wave and anisotropic supersonic flow interaction, considering constant entropy along streamline and layer of entropy discontinuities/interfaces
10 p1631 A69-22906
- Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave
10 p1653 A69-23107
- Quantitative analysis of plane waves for weak interaction of two dimensional sound and light fields in acoustical imaging by diffracted light
10 p1695 A69-23545
- Level degeneracy effect on nonlinear interactions between traveling waves of different planes of polarization
10 p1705 A69-23815
- Long and short duration pulses interactions with nonlinear dielectric, calculating frequency variations and spectral transformations
10 p1658 A69-23953
- Capture of parametrically coupled waves by pulses and beams of pumping radiation in case of different group velocities directions
10 p1705 A69-23956
- Mode interactions in argon lasers between two spectral lines noting effect on output
10 p1705 A69-24003
- Transformation of longitudinal plasma wave into electromagnetic wave during collision with dielectric in plasma
11 p1934 A69-25708
- Short circuit and variable frequency technique for measurement of coupling efficiency between dielectric loaded rectangular and trough waveguides, noting propagation modes
12 p2039 A69-26374
- Energy exchange between LF waves and magnetospheric energetic particle population by bounce resonant interaction
12 p2073 A69-26946
- Electromagnetic flux from nonlinear self interaction of electron plasma waves in far field of perturbation under anisotropic electron pressures
12 p2141 A69-27147

Pressure waves interaction with solid fuel hot surface at HF based on linear theory of acoustic instability in condensed systems

13 p2371 A69-27383

Variational method for weak second order resonant interactions among waves with position and time varying amplitudes and phase angles

13 p2297 A69-27634

Waves propagating along rotating electron beam and interacting with magnetized plasma waveguide slow waves

13 p2312 A69-28118

Gas ring lasers, discussing optimal parameters, colliding waves interference, nonmutual effect and radiation polarization

13 p2272 A69-28175

Shadow zone diffraction of plane step function compressional wave by circular cavity, using Friedlander wave front approximations

13 p2368 A69-28347

Admittance of radiating elements in circular array with longitudinal slots on conducting cylinder, taking into account element interactions

13 p2234 A69-28505

Intense transverse resonant acoustic field interaction with viscous fluid flows
[ASME PAPER 68-WA/FE-8]

14 p2430 A69-29444

Integral formulation of scattering theory extended to Coulomb interactions by expanding Green function and treating kernel singularities

14 p2489 A69-29995

Laser-nonlinear crystal dynamical interactions, studying saturation and coherence properties of second harmonic wave generated inside laser cavity

15 p2632 A69-30026

Magnetoelastic resonant interaction of microwave longitudinal phonons propagating at right angles to magnetic bias applied to YIG rod axis

15 p2565 A69-30184

Theory of temperature dependent magnon energies in antiferromagnets based on spin wave operator expansion of Hamiltonian, taking into account dynamical interaction between waves

15 p2668 A69-30684

Equations describing interaction between HF and LF waves propagating in nonlinear dispersive medium, obtaining approximate solutions

15 p2568 A69-30733

Galactic cosmic rays and Alfvén waves interaction, considering gyration frequency resonance, wave growth, Fokker-Planck equation and diffusion model

15 p2675 A69-30761

Power coupling among modes in semiconductor lasers in presence of spontaneous or forced microwave modulation of population inversion

15 p2634 A69-30875

Disturbance currents from penetration of acoustic waves in weakly ionized gas, analyzing wave interaction with DC glow discharge

15 p2665 A69-31547

Nonlinear interaction between three monochromatic waves propagating parallel to magnetic field in plasma, considering relativistic drift motions of particles

16 p2816 A69-31640

Stress waves propagation through elastic-plastic medium with uniaxial displacement, discussing wave interactions and interface conditions

16 p2870 A69-31809

Electromagnetic fields in closed one dimensional resonators with oscillating boundary, analyzing amplitude buildup

16 p2751 A69-32030

Colliding waves synchronization and stability in angular gas laser by electronic simulation

16 p2798 A69-32502

Monograph on interaction between flow and sound fields as singular: perturbation problem, using matched asymptotic expansion

17 p2949 A69-32998

Aerodynamic interactions between two wing configurations with same aspect ratio located in same plane, discussing testing principles and initial experimental results

17 p3061 A69-33595

Wave interaction in gas ring laser, delineating single mode emission zones as function of pumping, emission frequency position and Q factor differences

17 p2982 A69-33632

Nonresonance parametric phenomena in distributed systems, discussing interaction between signal and parameter wave at superlight velocity

17 p2928 A69-33868

Electroacoustic-electromagnetic waves nonlinear coupling in compressible isotropic plasma, comparing slowly varying and resonant interaction approaches

17 p2928 A69-33870

Atmospheric whistlers and ion acoustic waves interaction in nonisothermal plasma, determining damping frequencies, decrements and wave polarization

18 p3180 A69-35024

Fluid-shell interactions, using piston theory and cylindrical-wave approximations

18 p3223 A69-35174

Bogoliubov averaging method of perturbation in wave mechanics for radiation and matter interaction, considering monochromatic and broad spectral incident wave for resonance study

18 p3175 A69-35483

Turbulent wake and ambient flow interaction analysis based on integral methods in boundary layer theory

19 p3299 A69-36390

Magnetospheric disturbances effect on radio wave propagation, discussing wave-particle interactions, VLF emissions and electrostatic waves

19 p3303 A69-36429

Monograph on interaction between primary and jet flapped secondary airfoils covering line-vortex use for lift augmentation, aerodynamic characteristics, etc

19 p3242 A69-36820

Vibration analysis, using rigid body and normal modes to solve interconnection problem, applied to free-free natural vibration modes of clustered rockets

20 p3621 A69-37195

Asymptotic method for analyzing small long wave perturbations in plasma, showing instability with respect to perturbations propagating at angles to ion-acoustic wave

20 p3582 A69-38005

NonJeans gravitational instability of stars and interstellar gas in Galaxy due to wave interaction with stars having velocity near wave phase velocity

20 p3607 A69-38037

Absolute and convective instability criteria of interacting electromagnetic waves in waveguide systems involving parametric oscillators and amplifiers

21 p3677 A69-39555

Monograph on whistler mode waves in plasma covering apparatus for studying gyroresonant interaction between whistler radiation and fast electrons

21 p3779 A69-39868

Coupling coefficients and excitation increments determined for nonlinear interactions of surface waves in nonisothermal semibounded plasma

22 p3990 A69-40790

Nonlinear interaction between extraordinary waves propagating perpendicular to static magnetic field in cold homogeneous magnetoplasma

23 p4195 A69-41538

H and He atoms escape from atmosphere under MHD waves action at exosphere boundary

23 p4156 A69-41847

Nonlinear plasma physics, discussing nonequilibrium effects, wave-wave coupling, wave-particle interactions, single nonlinear wave behavior, etc

23 p4197 A69-42312

Electrode interactions effects in interdigital surface wave transducers on piezoelectric materials, using Fourier analysis

24 p4312 A69-42615

Whistlers nonlinear interaction during cold magnetoplasma propagation, considering energy exchanges between waves

24 p4309 A69-43174

- NT SHOCK WAVE ATTENUATION
- NT SHOCK WAVE PROPAGATION
- NT SHORT WAVE RADIO TRANSMISSION
- NT SINGLE SIDEBAND TRANSMISSION
- NT SOUND TRANSMISSION
- NT TELEVISION TRANSMISSION
- NT TRANSEQUATORIAL PROPAGATION

Plane wave propagation in infinite viscoelastic medium taking into account mutual effects of deformation and temperature fields

01 p0164 A69-10076

Electron plasma wave dispersion along cylindrical plasma column in magnetic field

01 p0126 A69-10271

Nonlinear hydromagnetic solitary wave propagation at angle to magnetic field in fully ionized quasi-neutral collisionless warm plasma, noting isotropic pressure effect

01 p0127 A69-10336

Gravity waves train propagation in cylindrical channel, discussing derivation by three dimensional flow analysis method

01 p0059 A69-10382

Alfvén and magnetoacoustic waves propagation in inhomogeneous stable plasma situated in field with helical lines of forces

01 p0130 A69-10742

Hydromagnetic wave propagation in current carrying regions of ionosphere and magnetosphere using macroscopic equations, deriving dispersion relation

01 p0067 A69-10972

First normal modes characteristics and lateral wave in weak dielectric layer applicable to microwave propagation

01 p0033 A69-10975

Electrostatic polarization field formation by acoustic wave propagation through ionosphere, calculating effect on ionization drift velocity

01 p0068 A69-11110

Electromagnetic waves trajectory distortion in moving plasma due to additional time delay noting propagation of pearl pulsations, whistling atmospherics and proton whistlers

01 p0068 A69-11114

Electromagnetic wave path emitted by artificial satellites across anisotropic ionosphere due to geomagnetic field determined by computer program

01 p0068 A69-11115

Numerical method for determining group velocity of waves in homogeneous anisotropic medium, using implicit function from dispersion relation

01 p0131 A69-11117

Vertical propagation of acoustic waves in atmosphere without gravitational waves and with height varying atmospheric shear viscosity

02 p0274 A69-11440

Electromagnetic waves propagation in cylindrical waveguide containing plasma column along axis in absence of constant magnetic field

02 p0285 A69-11463

Book on propagation characteristics of various wave modes in ionized gas plasmas

02 p0285 A69-11518

Induced discharge laser wave propagation in medium with active and absorbing admixtures, determining stationary wave shape and velocity range

02 p0206 A69-11609

Low field helicon wave transmission through n-type Ge at liquid He temperature, noting cyclotron resonance damping

02 p0295 A69-11787

Instability of longitudinal plasma waves propagating across magnetic field in plasma with electrons and ions drifting with different velocities across field

02 p0286 A69-11830

Dispersion relation of internal acoustic gravity wave motion in compressible nonviscous and nonheatconducting atmosphere

02 p0242 A69-11868

Magnetosphere studies in France noting magnetosphere characteristics, wave propagation, charged particles, particle precipitation mechanisms in auroral zones and polar caps

02 p0242 A69-11904

Magnetoplasma wave propagation in periodic conducting solid, calculating electron drift effect on space harmonics

02 p0287 A69-11945

Electromagnetic wave propagation problems, using asymptotic solutions of differential and integral equations in domains containing transition points

02 p0208 A69-12130

Dispersion relations of axisymmetric and dipolar surface modes propagation along inhomogeneous plasma columns on dispersion relations

02 p0289 A69-12242

Alfven wave propagation in nonhomogeneous systems for relativistic MHD, discussing magnetic and velocity perturbations
02 p0290 A69-12254

Plastic deformation wave propagation and heat generated near yield point of annealed aluminum
02 p0342 A69-12280

Elastic-plastic wave profiles in Al alloy under uniaxial strain load, investigating sensitivity to various strain rates
02 p0344 A69-12289

Wave front profiles sensitivity to form of constitutive equation in one dimensional stress problem
02 p0344 A69-12291

Plane strain plastic stress waves radial propagation from center of hollow cylinder subject to dynamic pressure load
02 p0344 A69-12292

Elastic/viscoplastic wave propagation in thin tubes under combined stress of tension and torsion, using viscoplastic constitutive equations
02 p0344 A69-12293

Geomagnetic micropulsations mechanism, discussing hydromagnetic waves transmission generated by interface instability between solar wind and magnetosphere, noting transmission path role
02 p0244 A69-12395

Alfven wave propagation designations in terms of polarization and propagation velocity, resolving contradictory aspects
02 p0290 A69-12400

Radar target amplitude, angle and Doppler scintillation from analysis of echo signal propagation in space
02 p0211 A69-12447

Wave structure for moving load on surface of anisotropic material in plane stress investigated for stable elastic wave propagation
02 p0348 A69-12609

Spherical elastic-plastic stress wave propagation analysis via finite difference procedure
02 p0348 A69-12610

Viscous damping of internal waves on rotating earth, analyzing spatial propagation attenuation in two layer system
02 p0247 A69-12775

Sound radiation from vibrating bodies, noting errors in Lighthill conclusion
02 p0282 A69-12800

High speed compression waves, rarefaction waves and gas interface regions position and velocity measurement in shock tube by sensing electrical impedance
03 p0428 A69-13104

Density gradient driven collisional drift waves, discussing identification, stabilization and enhanced plasma transport
03 p0474 A69-13145

Decay stability of large amplitude neutral wave into two ion acoustic waves in weakly ionized plasma
03 p0475 A69-13158

VOR path course errors, emphasizing effects of propagation and receiver processing
03 p0392 A69-13245

ELF radio wave propagation characteristics using two layered ionospheric model, noting deeper penetration than VLF
03 p0421 A69-13326

Mathematical models to investigate transient plane bending wave propagation in elastic plates, using elasticity and plate theories
03 p0525 A69-13606

Wavelength dependence of microwave propagation beyond radio horizon
03 p0395 A69-13626

Propagation of long electromagnetic waves in ionosphere and exosphere, discussing thunderstorm noise spectrum
03 p0396 A69-13702

Longitudinal elastic wave damping, excitation and propagation in lithium niobate crystals at frequencies from 200 to 2000 MHz
03 p0487 A69-13729

Longitudinal thermoelastic wave propagation in infinite body, proving generalized Kirchhoff theorem
03 p0528 A69-13924

Propagation of longitudinal transverse loading and unloading waves /with cylindrical symmetry/ in nonhomogeneous elastic/viscoplastic medium, accounting for plastic dilatational strains
03 p0528 A69-13929

Helicon waves in nonresistive cylindrical and spherical plasmas
03 p0479 A69-13961

Dispersion equation for two dimensional periodic slow wave structure formed by periodically sequential loading
03 p0407 A69-13981

Magnetosonic wave propagation across magnetic field in warm collisionless Maxwellian multicomponent plasma studied for small electron cyclotron and ion cyclotron radii
03 p0479 A69-14020

LF hydromagnetic waves propagation in ionospheric waveguide duct resulting from minimum in Alfven speed near F 2 ionization peak
03 p0399 A69-14023

Langmuir wave disintegration, analyzing instability criterion and growth rate
03 p0480 A69-14057

Longitudinal and transverse elastic waves propagation in medium with random inhomogeneities, deriving scattering coefficients in Born approximation for Fraunhofer region
04 p0667 A69-14262

Elastic-plastic boundaries velocities for combined longitudinal and torsional plastic wave propagation in thin walled tube during unloading [ASME PAPER 68-WA/APM-7]
04 p0670 A69-14403

One dimensional wave propagation analysis for zero value stress time derivatives on both sides of elastic-plastic boundary
04 p0670 A69-14407

Anisotropic nonlinear wave propagation in arbitrarily moving ideal gas, using singular surface/ray combined theories
04 p0630 A69-14532

Propagation velocity upper limits for plasma waves during state of equilibrium transition determined for nonlinear wave equation
04 p0630 A69-14553

Kinetic theory to determine wave increments propagating across magnetic field in system of relativistic electrons in cold plasma
04 p0635 A69-14555

Time harmonic vibrations and wave propagation in laminated plate, using elasticity theory equations and continuum theory for layered medium
04 p0675 A69-14685

Surface impedance variation effect on surface wave propagation along rod waveguide
04 p0576 A69-14761

Space-frequency correlation relationship of complex field fluctuations, amplitude and intensity to levels and phases of waves propagating in medium of random inhomogeneities
04 p0557 A69-14774

Higher modes of longitudinal wave propagation in dispersive thin elastic rod, noting response to laser pulse
04 p0678 A69-14869

Flexural waves passage through obstacles in infinite plate, determining vibration arresting properties of rigid ribs, elastic inserts and hinged couplings
04 p0678 A69-14902

East-West aligned fast auroral waves, suggesting origin in hydromagnetic processes occurring near equatorial plane
04 p0594 A69-15123

Nonlinear demodulation of amplitude modulated wave propagating in plasma
04 p0559 A69-15210

Reflection and transmission of radiation from very thick and semiinfinite homogeneous atmospheres with arbitrary phase function, using asymptotic fitting method
04 p0595 A69-15285

Long distance propagation of acoustic gravity waves ducted in thermosphere, noting effect of seasonal variations in polar region
04 p0595 A69-15437

Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor
05 p0717 A69-15634

Gyrotropically filled waveguides propagation parameters calculation by variational method
05 p0718 A69-15648

Holograms applied to analysis of wave packets propagating in quasi-optical transmission lines
05 p0718 A69-15650

Plane shear pressure wave propagation in elastic-plastic half space for various combined normal and shearing loadings
05 p0835 A69-15798

Acceleration wave propagation and growth in elastic materials, discussing thermodynamic influences
05 p0836 A69-15931

Atmospheric density variation measurements by density gages on Explorer 32 satellite confirm wave propagation in neutral thermosphere as free internal gravity waves
05 p0754 A69-16261

Rotation wave propagation in elastic homogeneous isotropic centrosymmetric body in asymmetric elasticity theory
05 p0843 A69-16645

Electron plasma interaction with transverse EM wave propagating along magnetic field, calculating permittivity, density, field strength and applied frequency
05 p0805 A69-16699

Alfven waves observed propagating along lines of force in inhomogeneous plasma in presence of homogeneous gravitational field
05 p0805 A69-16706

Submillimeter plane monochromatic wave amplitude and phase fluctuations during propagation in turbulent atmosphere surface layer, considering absorption by water vapor
05 p0722 A69-16778

Longitudinal acoustic waves propagation in partially ionized gas in external electric field, taking into account ionic collisions with electrons and neutral particles
06 p0963 A69-17079

Theoretical and experimental results on annealed tapered aluminum rods to assess one-dimensional rate independent theory of plastic wave propagation from longitudinal impact
06 p1022 A69-17365

Finite amplitude longitudinal wave propagation in lattices analyzed by study of compressive wave in chain of mass points with nearest neighbor interaction
06 p1022 A69-17367

Reciprocal interaction of combustion wave and field of turbulence, discussing aerodynamic principles, turbulence effect on flame propagation speed and measuring methods
06 p1032 A69-17420

Transient nonaxisymmetric elastic wave propagation in infinite isotropic elastic plate, using linear elasticity theory
06 p1024 A69-17509

Trapped mode wave propagation for cold uniform magnetoplasma cylinder in free space, studying dipole modes and one-wave approximation
06 p0967 A69-17756

Nonlinear interaction between cyclotron harmonic waves propagating perpendicular to static magnetic field in warm magnetoplasma, noting parametric amplification and mode conversion
06 p0968 A69-17766

Surface wave propagation on circular plasma column moving in axial direction in free space region
06 p0968 A69-17775

Ion-cyclotron instabilities in hot-ion cold- electron plasma resulting from left-hand circularly polarized wave propagating parallel to magnetic field
06 p0969 A69-17951

Low temperature simulation of hypersonic melting ablation and wave patterns of gas-liquid interface
06 p0907 A69-18064

Nonisothermal wave propagation in n-type indium antimonide in orthogonal static and magnetic fields, considering instabilities and acoustic and polar optical phonon scattering
07 p1197 A69-18467

Wave propagation on cylindrical electron beam in vacuum and in plasma background, including relativistic effects
07 p1189 A69-18657

Structure of plane shock wave of arbitrary force propagating across magnetic field in hot rarefied plasma
07 p1190 A69-18692

Rise velocity of large gas bubbles in liquid calculated, assuming velocity is determined by propagation of bubble produced wave disturbance
07 p1120 A69-18999

Large amplitude longitudinal wave propagation in elastic rod solved by method of characteristics, prescribing end velocity as step function of time
07 p1233 A69-19176

Cross modulation of amplitude modulated wave propagating in nonlinear dispersive plasma, obtaining electric vector
07 p1086 A69-19228

Plasma column radial density profile measurement by electron plasma waves propagation in presence of strong magnetic field
07 p1194 A69-19323

Hydromagnetic wave propagation and generation in magnetosphere, discussing hydromagnetic waves in uniform and axisymmetric magnetic fields
07 p1208 A69-19356

Wave propagation and instabilities in rotating anisotropic collisionless plasma, analyzing plane and cylindrical perturbations
07 p1195 A69-19438

Fluid motion and MHD disturbances in viscous incompressible fluid of finite electrical conductivity, studying axis of oscillating dipole perpendicular to exciting field
07 p1195 A69-19451

Shock waveforms lengthening due to propagation to high altitudes derived from computed numerical values, studying N waves from SST
07 p1054 A69-19463

HF wave propagation in unbounded electron-plasma systems using moment equations, discussing collisions effect and dispersion relation
07 p1086 A69-19468

Phase shift and losses in wave propagation in dielectric environment, defining power transmission coefficient and insertion phase shift
07 p1087 A69-19518

Axial waves in blood vessels, determining phase velocities and damping, noting anisotropic behavior of artery wall
[SESA PAPER 1350] 07 p1069 A69-19726

Plane radiative shock wave propagation in homogeneous medium noting heating ahead and cooling behind shock front
08 p1302 A69-19798

Linearized model for vertical propagation of Rossby waves through atmosphere with Newtonian cooling, discussing atmospheric wind effects
08 p1344 A69-19812

Schlieren optics study of omega wave in water filled cuvette, noting propagation by wall reflected water wave
08 p1350 A69-19889

Landau damping of long wavelength ion acoustic waves in collision-free one dimensional plasma with gravity field
08 p1359 A69-19983

Ultrashort optical pulses of coherent light, discussing propagation in inhomogeneously broadened medium of two level systems
08 p1324 A69-20083

Constitutive equations for propagation of plane waves of finite amplitude in nonsimple elastic solids, discussing holohedral isotropic solids and transverse harmonic circularly polarized waves
08 p1411 A69-20141

Two gravitational fields theory of gravitation in general relativity for flat universe, discussing gravitational wave propagation
08 p1390 A69-20276

Propagation modes in corrugated cylindrical waveguides determined by imposing nonisotropic surface reactance boundary condition at corrugated walls
08 p1284 A69-20295

Mode designation and propagation characteristics of dielectric tube waveguide, noting practicability at higher microwave frequencies
08 p1284 A69-20296

Large amplitude waves in inviscid flows of stably stratified fluids over barriers with constant density upstream constructed from vortex pairs and doublets
08 p1346 A69-20313

Two dimensional unsteady wave motion in shallow water using MHD theory
08 p1362 A69-20354

Spherical wave generalization for plane light wave propagating in turbulent medium, describing circular objective averaging effect on intensity fluctuations
08 p1351 A69-20438

Microwave plasma diagnostics, discussing electromagnetic radiation and wave propagation measurements
08 p1316 A69-20470

Quasi-linear differential constitutive equation of work hardenable elastoviscoplastic material in case of plane wave propagation in half space
08 p1415 A69-20662

Wave behavior in warm inhomogeneous plasma with magnetic field perpendicular to density gradients of unperturbed plasma, solving Maxwell-Vlasov equations by perturbation methods
08 p1365 A69-20744

Self modulation, self steepening and spectral development of light in small scale trapped filaments, noting influence of relaxation time
08 p1352 A69-20745

Gravitational wave solution of Einstein field equations, deriving Ricci and Riemann tensors for Einstein space
08 p1352 A69-20755

Symmetric Alfvén waves propagation in hydrogen plasma with nonuniform density distribution, deriving dispersion relations for fully ionized plasma
08 p1367 A69-20794

Collisional theory of longitudinal wave propagation for two fluid viscous ionized plasmas formulated from coupled Maxwell and Boltzmann equations
08 p1367 A69-20796

Mach number values and propagation rates of wear disturbances in interplanetary medium obtained from Mariner 2 data during low solar activity
09 p1575 A69-21523

Singular surface theory combined with ray theory for propagation of weak discontinuities in nonlinear anisotropic media applied to MGD
09 p1547 A69-21613

Characteristic equation obtained by considering world line vector, basic thermodynamic variables and metric tensor as functions of Lichnerowicz class
09 p1480 A69-21614

Steady state currents effect on hydrodynamic waves propagated normal to magnetic field
09 p1547 A69-21662

Bond shear effects on dynamic behavior of two layered cylindrical shell, identifying bond stiffness parameters
[AIAA PAPER 68-354] 09 p1616 A69-21941

Thermally generated stress wave propagation in dispersive elastic rod investigated experimentally and analytically, using ruby laser and differential equation
09 p1617 A69-22010

Integrodifferential equations describing longitudinal oscillation properties in nonlinear region of electron Maxwellian plasma waves and two cold electron beams
09 p1550 A69-22026

Weak discontinuities in wave propagation, studying ionized gas nonsteady flow having electrical conductivity in magnetic field
10 p1727 A69-22916

Perturbation solution for propagation of fourth order coherence function in random medium extended to larger field fluctuations, deriving integrodifferential equation
10 p1724 A69-23042

MHD first order partial differential equations used to investigate wave front between perturbed and unperturbed flow regions in magnetosonic propagation through homogeneous medium
10 p1727 A69-23090

Forced vibrations in semibounded elastic bar with various moduli of elasticity, discussing reversing longitudinal force and elastic waves propagation
10 p1799 A69-23155

Relativistic energy momentum tensor of electromagnetic field in moving multicomponent dispersive media and instability of wave
10 p1653 A69-23193

Electromagnetic wave propagation over constant impedance flat earth, using electromagnetic compensation theorem
10 p1655 A69-23422

Longitudinal and transverse wave propagation in compressible isotropic turbulent plasma, noting mode coupling effect
[AFCL-69-0289] 10 p1729 A69-23424

Microwave frequency room temperature acoustic surface wave propagation losses in lithium niobate measured by laser light deflection, discussing propagation and insertion losses
10 p1703 A69-23511

Microwave magnetoelastic wave propagation in ferromagnet subjected to pulsed magnetic field using coupled mode approach
10 p1746 A69-23655

Discharge plasma ionized waves, determining mechanism of wave propagation and instabilities
10 p1740 A69-23699

Transmission line analogs and kinetic power theorems for space charge waves amplification in semiconductors, considering internal effect and wave excitation
10 p1748 A69-24052

Space charge waves amplification in semiconductors on coupling with forward circuit wave by transmission line analog, noting application to electromagnetic and acoustic waves
10 p1748 A69-24053

MHD generator plasma anisotropic instability caused by amplified magnetosonic waves propagating normal to current
11 p1922 A69-24227

Nonlinear integrodifferential kinetic equation for weak turbulence of resonant four wave processes, considering spectral energy density
11 p1921 A69-24294

Normal mode dispersion at upper hybrid frequency propagating parallel to uniform magnetic field in spatially inhomogeneous plasma
11 p1924 A69-24302

Wave propagation in connected space-time for linear second order hyperbolic partial differential equation, describing unitary invariant theory
11 p1908 A69-24356

Propagation of extensional cylindrical waves in elastic plates with free boundaries, considering plane stress and Lamb dispersion
11 p1969 A69-24414

Growth rates for convective disturbances propagation in atmosphere with linear entropy variation, noting WKB approximation
11 p1957 A69-24422

Radio wave field distortions by dielectric prisms in lens waveguides, discussing beam transformation, noting both geometrical optics effects and diffraction role
11 p1833 A69-24436

Dispersion relation for internal gravity wave propagation across exponentially decreasing magnetic field in conducting fluid, noting atmospheric wave propagation in ionosphere
11 p1877 A69-24564

Elastic waves propagation in inhomogeneous composite media, considering coefficient of structural stress concentration
11 p1972 A69-24649

Two dimensional contained plastic deformation in asymmetrical elasticity theory based on Cosserat medium, examining boundary value problems, stress concentration and elastic wave propagation at holes
11 p1973 A69-24659

Induced discharge laser wave propagation in medium with active and absorbing admixtures, determining stationary shape and velocity range
11 p1895 A69-24716

Millimeter wave propagation over water, discussing fading characteristics and atmosphere absorption effects
11 p1836 A69-24989

Transient signal propagation through cold inhomogeneous plasma with electron density decreasing exponentially in direction of propagation
11 p1836 A69-24990

Full wave calculation of gravity waves for thermospheric model, describing wave type reflection, transmission, conversion and coupling by scattering matrix elements
11 p1878 A69-25150

LF waves and instabilities on positive column in axial magnetic field, noting axisymmetric and asymmetric ion acoustic and electron wave modes and current convective instability
11 p1929 A69-25268

Unstable ion sound wave propagation across magnetic field in collisionless shock waves, noting drift instability
11 p1930 A69-25273

HF electrostatic waves propagation in nonuniform plasma in uniform magnetic field, obtaining solutions of dispersion relation
11 p1931 A69-25360

LF electromagnetic waves stability and propagation conditions in plasma confined in central-conductor configuration measured, noting agreement with wave equation solution
11 p1931 A69-25362

HF electrostatic waves propagation excited by electron beam in hot inhomogeneous plasma in magnetic field, studying wave transformation and absorption
11 p1931 A69-25364

Surface instabilities at tangential discontinuity between media caused by beam-plasma interaction, deriving dispersion relation
11 p1931 A69-25365

Two dimensional elastic stress wave propagation in thick multilayered cylindrical shells for nonuniform external pressure distribution
11 p1991 A69-25511

Dynamic plastic response of finite bar subject to axial impact load noting reflected waves, stress-strain time histories and residual strain
11 p1991 A69-25512

Monochromatic waves propagation in infinite micropolar elastic plate, treating Lamb and Love waves
11 p1995 A69-25605

Elastic waves propagation in micropolar cylinder, treating longitudinal and torsional monochromatic waves in Cosserat medium
11 p1995 A69-25606

TEM-WAVE propagation between parallel conducting planes, stressing changes in curved waveguide section

11 p1841 A69-25619

Excitation coefficients of waves subjected to sudden expansion in radiating waveguide using integral relations, noting convergence

11 p1855 A69-25621

Waveguide cross connection of right-angled waveguides to determine reflection and transmission factors for incidence of H waves

11 p1855 A69-25623

TEM-DUAL surface wave propagation in coaxial cable with stratified dielectric structure to reduce attenuation calculated by addition theorem to Bessel functions

11 p1856 A69-25659

Asymptotic solution of two dimensional problem of elastic impact of bars, showing longitudinal and surface waves decay with time

11 p1996 A69-25737

Gas velocity variation in ionizing shock waves arbitrarily oriented with respect to magnetic field, considering magnetic viscosity and conductive piston

11 p1935 A69-25740

Characteristic plane harmonic free internal neutral atmospheric wave oblique propagation through horizontally stratified quiet atmosphere for various thermospheric parameters

12 p2065 A69-26101

HF interferometry for statistical-numerical oscillation analysis of unsteady plane transonic flow, constructing phase planes for study of wave surfaces propagation

12 p2089 A69-26188

Spherical wave propagation in homogeneous turbulent medium, discussing nonstationary statistics as applied to vertical propagation in atmosphere

12 p2029 A69-26251

Flexural waves passage through obstacles in infinite plate, determining vibration arresting properties of rigid ribs, elastic inserts and hinged couplings

12 p2182 A69-26655

Plasma properties when carrying periodic magnetoacoustic wave expressed in terms of periodic functions, discussing small perturbation propagation

12 p2138 A69-26708

LF wave propagation and emission in magnetosphere, discussing steady noise and discrete emissions

12 p2072 A69-26745

Fluctuations of beam wave propagating through locally homogeneous medium, considering amplitude and phase correlation and structure functions

12 p2032 A69-26855

Gas lasers, including stimulated emission in monochromatic field of traveling and standing plane waves, spontaneous emission with stimulated transitions, etc

12 p2109 A69-26906

Love-wave propagation at UHF observed by thin film surface wave transducers

13 p2218 A69-27203

Nonlinear periodic wave propagation at angle to magnetic field in collisionless plasma studied by two fluid plasma equations

13 p2304 A69-27297

Wave damping in plasma, developing Boltzmann analysis of electron mode dispersion relations involving momentum transfer and relaxations of electron-ion temperature and anisotropy

13 p2305 A69-27377

Kelvin waves relation to quasi-biennial oscillation, using zonal wind and temperature variance data taken at Canton Island

13 p2290 A69-27391

Plane wave solution for wave propagation in inhomogeneous anisotropic time-varying media

13 p2219 A69-27397

Velocity dependence of temperature waves/second sound/ in liquid He II measured as function of relative velocity for normal and superfluid

13 p2297 A69-27460

Wave propagation on heavy fluid surface forming splashes in container with vertical walls

13 p2247 A69-27746

Wave propagation and bandwidth characteristics of rectangular waveguide loaded with H plane lossless dielectric slab

13 p2222 A69-28075

Collisions effect on wave propagation in homogeneous plasma, calculating permittivity tensor and electron equilibrium current using Boltzmann kinetic equation

13 p2311 A69-28104

Three dimensional harmonic dispersion analysis of incremental waves in uniaxially prestressed plastic and viscoplastic bars, plates and unbounded media

13 p2363 A69-28125

Geomagnetic pulsations and hydromagnetic wave propagation in magnetosphere, using geometric optics approximation

13 p2254 A69-28176

Unstable weakly ionized HF magnetoplasma fluctuations with no axial drift, noting phase velocity parametric dependence

13 p2312 A69-28197

LF wave propagation in DC discharge hydrogen plasma, noting self and artificial wave excitation

13 p2316 A69-28584

Atmospheric LF and HF sound transmission anomalies, discussing Tyndall paradox for fog signals propagation over ocean

13 p2301 A69-28666

Libroelastic wave propagation and dispersion characteristics /solid carbon dioxide/ evaluated by using Raman scattering measurements

13 p2286 A69-28668

Temperature effects on propagation of HF internal and surface waves in bounded plasma, deriving dispersion equations

14 p2410 A69-28733

Ionospheric effect sudden commencement parameters of magnetic storm related to distance from origin in polar regions

14 p2435 A69-29051

Solar X ray flux deduced from flare effects on VLF propagation, showing total energy content as measure of ionizing radiation

14 p2411 A69-29105

Frequency time dispersion of storm sudden commencement micropulsations, noting polarization effects

14 p2440 A69-29129

Hydromagnetic waves propagation in finitely conducting fluid mass immersed in nonuniform magnetic field, using curvilinear coordinates based on lines of force

14 p2491 A69-29336

Multiple scattering of electromagnetic waves in underdense plasma, deriving transport equation for radar backscatter

14 p2412 A69-29453

Phase screen technique for deriving statistical characterizations of perturbations imposed on wave propagating through random medium applied to remote probing

14 p2414 A69-29511

Plane wave reflection and transmission by unidirectionally conducting screen, considering oblique incidence and two polarizations

14 p2421 A69-29547

Coupled mode theory for surface wave propagation along tapered cylindrical dielectric rod, considering radiation field effects

14 p2422 A69-29557

Two dimensional adiabatic transverse normal modes of inviscid compressible uniformly rotating fluid, discussing harmonic wave propagation in opposite directions and rotation effects

14 p2431 A69-29581

Image formation with arbitrary holographic surfaces achieved by reversing direction of propagation of diverging wave

14 p2450 A69-29582

Successive approximations method applied to system of independent equations describing electromagnetic wave propagation in space with gravitational wave metric

14 p2487 A69-29669

Leaky waves propagation characteristics helix waveguide covered with slitted cylinder using transverse network representation, emphasizing small pitch angles, hybrid TE and TM modes, etc

14 p2422 A69-29752

Computational accuracy of point matching solution for uniform nonsymmetric waveguides

14 p2423 A69-29758

Group delay time for dispersive wave propagation velocity determined using correlation method

15 p2562 A69-30094

Large scale atmospheric wave motions analyzed by spherical harmonic representation of height fields over earth, detailing wave components and quasi-stationary fluctuations

15 p2647 A69-30216

Wave energy flux and correlation wave energy flux relationship to energy transport, noting applicability to fluids

15 p2595 A69-30218

Cylindrical wave propagation in thermoelastic incompressible isotropic solids, considering cases of zero and nonzero coefficient of thermic dilation

15 p2707 A69-30626

Annealed aluminum rods dynamically compressive impact loading used to study longitudinal plastic waves propagation velocity

15 p2709 A69-30677

Equations describing interaction between HF and LF waves propagating in nonlinear dispersive medium, obtaining approximate solutions

15 p2568 A69-30733

Collisional emission and absorption of longitudinal waves due to particle encounters in numerical experiments on one dimensional one species plasma

15 p2661 A69-30921

Uniform approximation mathematical theory applied to wave propagation problems, considering cylindrical waves and rainbows and glory scattering

15 p2653 A69-31165

Weakly damped transverse and thermal waves development and propagation in viscous heat conducting incompressible fluid under temperature and gravitational fields

15 p2718 A69-31168

Schlieren and photoelastic methods for continuous and pulsed ultrasonic waves propagating in transparent media, discussing nondestructive testing applications

15 p2617 A69-31510

Wave propagation in warm uniaxial plasma filled waveguide, analyzing TE modes, TM mode splitting and power transfer

16 p2756 A69-31576

Auroral absorption influence on ionospheric wave propagation calculated for distances over 4000 km

16 p2749 A69-31603

Propagation and linear transformation of HF electrostatic waves in hot magnetoactive radially inhomogeneous plasma, noting wavelength shortening

16 p2816 A69-31638

Nonlinear interaction between three monochromatic waves propagating parallel to magnetic field in plasma, considering relativistic drift motions of particles

16 p2816 A69-31640

Magnetic field effects on ultrasonic propagation in high field superconductors

16 p2826 A69-31825

Temperature, velocity and density perturbation propagation as heat convection wave in viscoelastic thermally compressible heat conducting fluid, analyzing damping and frequency spectra

16 p2878 A69-31952

Discrete layers criterion for multilayer approximation to real atmosphere in acoustic gravity wave propagation

16 p2774 A69-31980

Soviet papers on wave diffraction and propagation covering marine life communication, diffraction at impedance sphere, cavity oscillations, resonator fields, plasma diffraction, etc

16 p2750 A69-32027

Relativistic exceptional wave propagating heat, computing speeds in direction orthogonal to heat vector

16 p2782 A69-32042

Acceleration waves propagation in nonlinear conducting thermoelastic solid, treating homogeneously deformed and undeformed media

16 p2873 A69-32060

Wave propagation at different group velocities along parametric line in traveling wave parametric amplifier

16 p2805 A69-32254

UHF propagation in spherically stratified superrefractive troposphere with trapping surface layer, discussing distant field strength dependence on refractivity profile

16 p2752 A69-32388

Wave propagation in open periodic two dimensional iris waveguide and beam reconstruction by diffraction, considering existence and character of modal fields

16 p2753 A69-32394

Absorption effect on fluctuation of signal level propagating in turbulent atmosphere taking into account absorption in water vapor

16 p2754 A69-32492

Gyrotropically filled waveguides propagation parameters calculation by variational method

16 p2754 A69-32505

Holograms applied to analysis of wave packets propagating in quasi-optical transmission lines

16 p2754 A69-32507

Mach number values and propagation rates of weak disturbances in interplanetary medium obtained from Mariner 2 data during low solar activity

16 p2851 A69-32518

Elastic wave reflection and refraction around cracks, considering plane harmonic compressional and vertically-horizontally polarized shear waves

17 p3053 A69-32986

Vortex breakdown in rotating fluids associated with wave motion along axis of rotation, considering effects of nonzero wave amplitude
[AIAA PAPER 69-645]

17 p2892 A69-33478

Structure of solitary waves propagating in collisionless plasma perpendicular to magnetic field, considering soliton wavefronts charge separation and relativistic velocity

17 p2922 A69-33696

Wave propagation and scattering in anisotropic media, obtaining asymptotic expression for dyadic Green function for infinite space

17 p2924 A69-33835

Propagation in inhomogeneous and dispersive media, noting potential functions for vector electromagnetic field

17 p2924 A69-33838

Wave propagation in two dimensional anisotropic media with several perturbation speeds, using Lundquist linear equations ensuring lacunas presence

17 p2925 A69-33841

Wave propagation in rectangular guides, determining dispersion curves by continued fractions method allowing for infinite set of time-space harmonics

17 p2925 A69-33843

Wave propagation in plasma filled cylindrical waveguide in axial magnetic field, approximating plasma density profile by WKB method

17 p2926 A69-33848

Methodology and classification survey of wave propagation problems in various fields of application

17 p2926 A69-33853

Fokker-Planck equation applied to probability density for finding rays larger than correlation distance during propagation in random medium

17 p2926 A69-33854

Radio wave propagation in homogeneous turbulent gyrotropic medium, presenting solution for fluctuations in direction of wave scattering by geometrical optics approximation

17 p2927 A69-33861

Signal wave scattering and transmission by ionized medium disturbed by high power pumping wave, studying wave interactions with Born approximation for bounded medium

17 p2928 A69-33871

Coupled stresses in thermoelasticity for displacement and rotation vector characterized medium, discussing wave propagation in unbounded medium

18 p3211 A69-34262

Plane wave propagation due to combined compressive and shear stresses in half space, assuming elastoplastic material
[ASME PAPER 69-APM-12]

18 p3213 A69-34388

Elastoplastic boundaries of wave propagation of combined longitudinal and torsional stresses at tube end
[ASME PAPER 69-APM-13]

18 p3213 A69-34389

Simple waves in compressible isotropic flows of inviscid nonheat-conducting gas free of shock waves

18 p3121 A69-34534

Rod buckling under impact load, discussing compression strain wave front propagation

18 p3217 A69-34580

Stressed state analysis in dynamic brittle breakdown wave front of compression waves propagating in brittle rod under longitudinal impact

18 p3217 A69-34592

Hard cosmic radiation hypothesis for Newton gravitation law for neighboring bodies, obtaining gravitational energy quanta and propagation velocity relationship

18 p3172 A69-34627

Wave propagation in gas particle flow, obtaining fourth order particle differential equation from perturbation theory

18 p3121 A69-34772

Dispersion relation for gravity waves propagating in atmosphere with horizontal background wind variable with altitude

18 p3128 A69-34801

Radio navigation principles, radio waves propagation characteristics and factors affecting navigation systems choice

18 p3169 A69-34848

Hydromagnetic whistlers propagation mechanism in magnetosphere determined by wave theory, assuming

Gaussian radial density distribution and estimating duct width necessary for trapping

18 p3102 A69-34966

Polarization operator and Green function of photon for propagation of plane electromagnetic waves in constant crossed field, noting refractive indices

18 p3103 A69-35128

Relationship between micropulsation periods and size of magnetosphere expressed in power law form and interpreted with wave propagation

18 p3131 A69-35193

Moment and discrete ordinate methods in radiative transfer problems in planar, radiating and nonscattering media, noting conical transformation of moment equations

18 p3174 A69-35237

Ionization effects in hydrodynamic model of radiation driven breakdown wave propagation, obtaining wave velocity and absorbed laser flux density relationship

18 p3174 A69-35286

Transient processes of strain wave propagation in elastic shells and plates under time varying loads

18 p3224 A69-35321

Statistical characteristics of wind wave development in initial stage, obtaining distribution functions and frequency spectrum for various velocities and temperatures

18 p3167 A69-35341

Book on wave propagation around earth covering intermedia passage, terrain influence, diffraction zones, ground waves, roles of atmosphere, troposphere and ionosphere, etc

19 p3275 A69-36382

Longitudinal and transverse wave propagation in homogeneously deformed isotropic elastic solids, considering Hadamard and Green materials

19 p3440 A69-36588

Longitudinal waves propagation in unbounded thermoelastic medium expressed as surface integrals generalizing Kirchhoff theorem

19 p3444 A69-36804

Linearized wave propagation digital simulation models to predict arterial blood flow characteristics and impedance, comparing phase velocity and transmission per wavelength

19 p3264 A69-36868

Finite elements general theory applied to wave propagation, gas kinetics, nonlinear partial differential equations, continuum mechanics and fluid dynamics

20 p3567 A69-36948

Boundary value problem of wave propagation in three dimensional region of waveguide bounded by surface solved by variational method

20 p3487 A69-37078

Semiinverse method for elastic nonhomogeneity problems, considering case of seismic wave propagation

20 p3624 A69-37589

Superposition principle extended for wave propagation in composite materials/nonhomogeneous elastic media/

20 p3627 A69-37765

Transient phenomena in bounded dispersive medium emphasizing surface wave propagation, discussing space and surface waves excitation in bounded cold magnetoplasma

20 p3494 A69-37842

Book on ultrasonics theory and application covering generation, propagation and dissipation of ultrasonic waves of high and low intensities

20 p3545 A69-37903

Transverse wave propagation and instabilities within magnetosphere, noting loss cone limited velocity-space distribution function

20 p3533 A69-38081

Field patterns, propagation constants and losses determined for axially propagating modes guided by circular cylindrical inhomogeneous dielectric, using perturbation method

20 p3497 A69-38130

Uniqueness theorems for wave propagation in homogeneous or inhomogeneous anisotropic media

20 p3578 A69-38196

Radiation sources fields and propagation in homogeneous lossy magnetoplasma, deducing wave equations for electric and magnetic current electron flux and mechanical body force sources

21 p3775 A69-38434

Transverse wave-beam interaction propagation in fast wave structure in finite homogeneous magnetostatic field, deriving wave-beam equation for non-relativistic beams

21 p3672 A69-38435

Nonlinear interaction of electron-acoustic oscillations in plasma, allowing for decay and inductive scattering in equation derivation for wave packet intensity

21 p3776 A69-38584

Microwave elastic propagation in single crystal specimen of yttrium-iron-garnet ferrite, discussing attenuation

21 p3780 A69-38774

Small amplitude acoustic waves propagating in compressible fluid with parallel shear flow and within constant gravitational field

21 p3772 A69-39241

Scalar waves propagation in bounded randomly fluctuating media, emphasizing interface effects on coherent wave motion

21 p3675 A69-39283

Propagation, damping, power coupling and plasma heating characteristics of harmonic ion cyclotron waves, noting temperature effects

21 p3777 A69-39455

Soviet book on earth atmosphere fluctuations covering propagation of acoustic, gravity and gyroscopic waves using linearized equations of hydrodynamics

21 p3717 A69-39528

Arbitrary form temperature rate wave growth and decay, determining differential equation governing wave amplitude

21 p3853 A69-39671

Wave trains of incident pulse diffraction in thin composite rod determined by transmission and reflection coefficients of plane waves at plane interfaces

21 p3845 A69-39677

Laminated random media stochastic displacement, using perturbation procedure to derive mean wave propagation deterministic equations

22 p4040 A69-39979

Coherent MHD waves propagation in presence of plasma density fluctuations, applying perturbation technique to solve stochastic wave equation

22 p3990 A69-40529

Linear self consistent diffraction emission theory and relationship to electron beam propagation

22 p3899 A69-40615

One dimensional flow of perfect compressible relativistic fluids, obtaining expression showing wave velocity dependence on relativistic speed of sound

22 p3931 A69-40711

Thermal perturbation propagation in nonlinear medium, considering thermal relaxation effects

22 p4051 A69-40712

Natural frequencies of N open dielectric waveguides system, obtaining fields expressions and dispersion equation for propagation constants

22 p3901 A69-40954

Nonlinear relativistic wave velocity distribution within spherical nucleus bounded by shock wave in superdense gas determined by Cauchy problem

22 p3861 A69-41114

Electric instabilities in semiconductors analyzed by subdividing instabilities into cathode and anode waves, considering recombination and electron and hole production processes

22 p3997 A69-41173

Sensors array to determine propagation wave vector velocity via high resolution frequency wavenumber spectrum analysis, emphasizing seismic applications

22 p3902 A69-41220

Green matrix for operator M governing steady state wave propagation in inhomogeneous anisotropic media obtained as solution of integral equations system

23 p4180 A69-41368

Nonlinear interaction between extraordinary waves propagating perpendicular to static magnetic field in cold homogeneous magnetoplasma

23 p4195 A69-41538

Thermotidal energy transfer from lower neutral atmosphere to and above lower ionosphere, considering tidal wave transmission mechanism

23 p4155 A69-41561

Transverse spectra and structural functions of fluctuations for plane waves of different frequencies propagating in isotropic turbulent medium

23 p4117 A69-41728

LF hydromagnetic waves propagation along geomagnetic field lines in gyrotropic ionosphere model taking Hall effect into account

23 p4157 A69-41864

Average total losses of H waves transmitted over waveguide communication lines by nanosecond pulse sequences

23 p4123 A69-41949

Space charge wave propagation induced by electron beam moving in annular waveguide, considering radiated field and current redistribution

23 p4124 A69-42034

Acoustic gravity waves propagation over spherical earth with isothermal windless atmosphere, determining pressure perturbations

23 p4158 A69-42175

Boundary layer method for calculation of viscous damping coefficients for small amplitude progressive waves propagating in nonhomogeneous fluid

23 p4153 A69-42408

One dimensional shock waves and acceleration fronts in nonlinear isotropic viscoelastic materials using constitutive equations

23 p4235 A69-42463

Wave propagation in dynamical theory of thermoelasticity, considering half space subject to step time strain, temperature and stress distributed over free surface

23 p4235 A69-42464

Gravitational field structure effects on Alfvén waves propagation in inhomogeneous medium

23 p4223 A69-42478

Beam wave propagation in conducting hollow circular cylinder applied to shielding cylinders design for aperture antenna transmission

24 p4282 A69-42987

Dispersive pulse propagation in laminated composites compared with theoretical predictions for timing and amplitude of oscillations [ASME PAPER 69-APMW-22]

24 p4401 A69-43097

Initially sharp plane pressure pulse propagation through linear elastic composite material, determining wave front shape change and stresses behind front [ASME PAPER 69-APMW-11]

24 p4401 A69-43103

Three dimensional and shell theory analysis of nonaxisymmetric harmonic elastic wave propagation in hollow elastic sphere [ASME PAPER 69-APMW-7]

24 p4402 A69-43105

Peristaltic pumping in circular cylindrical tube, discussing viscous fluid flow induced by axisymmetric traveling sinusoidal wave imposed on flexible tube wall [ASME PAPER 69-APMW-3]

24 p4275 A69-43108

Whistlers nonlinear interaction during cold magnetoplasma propagation, considering energy exchanges between waves

24 p4309 A69-43174

Interphase momentum transfer during propagation of infinitesimal pressure pulse through bubbly flow two phase mixture

24 p4409 A69-43511

Stress wave propagation in nonhomogeneous elastic media, considering curvilinear characteristics transformation into equal slope straight lines by change of independent variable

24 p4403 A69-43574

Axisymmetric Lamb wave propagation in semiinfinite micropolar elastic solid, considering time varying load on half space boundary

24 p4406 A69-43730

Pressure wave transmission in liquid filled tubes, determining attenuation and phase shift for hemodynamics applications

24 p4279 A69-43798

WAVE RADIATION

U ELECTROMAGNETIC RADIATION

WAVE REFLECTION

Multiple light scattering and reflection elimination from observed light brightness indicatrix to obtain true light scattering indicatrix, discussing error analysis

01 p0074 A69-11184

Shock reflection structure in ionizing xenon determined by fast rise pressure gauge mounted in shock tube end wall

01 p0132 A69-11205

Normally incident linearly polarized electromagnetic wave reflection and transmission by semiinfinite longitudinally drifting magnetoplasma in static magnetic field

01 p0134 A69-11290

Reflection of plane electromagnetic wave from impedance cylinder in vacuum, using ray expansion method

02 p0217 A69-12262

Reflection of plane electromagnetic wave from conducting plane covered with moving uniaxial sheath

02 p0209 A69-12334

Centimeter radio wave reflections from explosion region produced by TNT and hexogen charge

02 p0282 A69-12415

Doppler effect in centimeter wave range demonstrated by radio interferometer, noting amplitude difference between reference wave and wave reflected from moving reflector

03 p0393 A69-13333

Radio waves diffusive and oblique reflections from F region, noting diffusive properties decrease during magnetic storms, especially during maximum solar activity

03 p0423 A69-13529

Computer program for electromagnetic wave metal shielding evaluation

03 p0398 A69-13901

Spherical wave reflection from nondeformable plane in elastic viscoplastic medium

03 p0528 A69-13926

Plane reflector with variable reflection coefficient for electromagnetic centimeter waves, consisting of plane grating of semiconductor diodes mounted in waveguide

03 p0406 A69-13938

Reflectivity of low Richardson number critical levels for internal gravity waves propagating in stably stratified fluids with shear, studying stability numerically

03 p0424 A69-13953

Flexural wave reflection from corner joint between plates, establishing reflection coefficient dependence on wave frequency

04 p0679 A69-14903

Spatial dispersion of electromagnetic waves reflection from moving plasma layer in magnetic field, determining transmission and energy absorption coefficients

06 p0886 A69-16895

Electromagnetic wave transmission and reflection at boundary of relativistic collisionless plasma, using Laplace transformation

06 p0968 A69-17783

Short wave radiation field reflected anisotropically from underlying surface into atmosphere calculated from brightness coefficient

06 p0952 A69-17985

Diffuse reflection of electromagnetic waves by rough random surface using probabilistic method and statistical distributions

07 p1075 A69-18280

Acoustical Bragg reflection and Debye-Sears effect with application to light and ultrasonics interaction

07 p1144 A69-18285

Partial reflections from ionosphere, analyzing electron number densities, noting relation between D region ionization increases and small solar proton events

07 p1205 A69-18956

Interaction between shock wave and magnetic field of current carrying grid for ideal gas with constant coefficients, discussing dissipation, ionization and Joule heat

07 p1120 A69-18998

Boresight error in missile radome-antenna combination due to reflection and surface wave effects

07 p1111 A69-19536

Electromagnetic wave reflection from moving plasma characterized by conductivity for slow waves, calculating reflection and absorption factors

07 p1196 A69-19748

Radiative transfer by doubling very thin layers in problem of diffuse reflection from plane-parallel atmosphere eliminates numerically solving transfer equation

08 p1420 A69-20064

Electromagnetic wave reflection from subrefractive layers in inhomogeneous region

09 p1454 A69-21679

Reflection interferometry for visual evidence of surface deformation of rock and metal samples using two beam Fizeau fringe system

09 p1496 A69-22012

Polarized electromagnetic waves phase shift during total reflection from stratified dielectric region found dependent on transition zone width in addition to permittivity

10 p1657 A69-23862

Reflection coefficient of electromagnetic wave reflected from thin ionization layer, using frequency dependence of amplitude to estimate ionospheric layer thickness

10 p1686 A69-23912

Surface wave reflection from free ends of ideally conducting rods forming semiinfinite grid to study rod delay systems and wave-duct antennas

11 p1833 A69-24438

Double focus lens holography for diffusely reflecting surface deformation recording, discussing gas lasers, Polaroid photographic materials, etc

11 p1880 A69-24467

Diffraction accompanying reflection of plane shock wave obliquely impinging on walls of obtuse wedge at finite incidence, considering Lighthill method

11 p1873 A69-25135

Wave reflections due to rotationally symmetrical jump in circular waveguide cross section, using orthogonal expansion to solve resulting boundary value problem

11 p1855 A69-25622

Waveguide cross connection of right-angled waveguides to determine reflection and transmission factors for incidence of H waves

11 p1855 A69-25623

Reflection and absorption characteristics of two dimensional array of magnetic dipoles for microwaves, considering element orientation and distribution

12 p2035 A69-25901

Surface waves effect on electromagnetic waves incoherent reflection from plasma-vacuum boundary, describing polarization and angular and spectral distributions

12 p2031 A69-26530

Flexural wave reflection from corner joint between plates, establishing reflection coefficient dependence on wave frequency

12 p2182 A69-26656

Ionospheric plasma density vertical profile by measuring reflected radio waves phase frequency characteristics

12 p2070 A69-26685

Reflection coefficient of polarized radio waves at ionized meteoric trails obtained by numerical integration of differential equations

12 p2031 A69-26691

Plane transient electromagnetic wave from cold lossless plasma half space and slab

12 p2033 A69-26865

Radio wave propagation in anisotropic inhomogeneous medium, obtaining reflection and conversion coefficients and electromagnetic field distribution

13 p2218 A69-27182

Errors in Appleton-Bayton equation for skip distance of radio waves in ionosphere

13 p2218 A69-27214

Elliptical polarization in ultrabroadband YIG pulse compression networks, using reflections at rod faces

13 p2230 A69-27680

GaS, GaSe and InSe crystals band structure from analyzing reflection spectra, noting sensitivity to visible, IR and hard radiation

13 p2317 A69-27883

Diffraction and mirror analyses of right angle corner in overmoded waveguide for scattered modes, discussing transmission loss

13 p2234 A69-28426

Electric field distribution in focal region of finite offset paraboloid reflector illuminated by linearly polarized plane wave

13 p2234 A69-28427

Book on depolarization of electromagnetic waves covering interface reflection and diffraction, scattered waves, anisotropic media, random scattering, Fresnel coefficients, Brewster angle, etc

14 p2412 A69-29315

Fourier analysis of ionospheric wave reflection pulses for frequency contents and relative phase angles

14 p2440 A69-29351

Plane wave reflection and transmission by unidirectionally conducting screen, considering oblique incidence and two polarizations

14 p2421 A69-29547

Reflection of electromagnetic wave from magnetoactive plasma at inclined incidence, finding reflection and absorption coefficients

14 p2417 A69-29661

Plasma microwave measurement error allowance for multiple reflection of waves from vacuum chambers dielectric walls

14 p2498 A69-29806

Inhomogeneities effect on polarization of radio waves reflected from ionosphere, based on permittivity tensor

14 p2417 A69-29862

Reflection of plane waves at boundary surface of two semiinfinite media in relative motion, calculating power reflection coefficients

15 p2568 A69-30796

Wave reflection in laser resonators with ferrite end faces, determining oscillation spectra and wave amplitudes

15 p2579 A69-30954

Reflection of plane waves from stress free flat surface of micropolar elastic half space, presenting reflection laws and amplitude ratios

15 p2714 A69-31147

Fresnel irregularities calculated from radio wave partial reflection from lower ionosphere measured by rocket probes

15 p2604 A69-31420

Mach reflection shock-shock locus in shock tube implosions generation by area change
16 p2766 A69-31919

Partial reflections method of Gardner and Pawsey for determining vertical profile of electron collision frequencies in lower ionosphere and upper D layer
16 p2775 A69-32034

Atmospheric absorption calculations, noting direct D layer reflection effects on lower HF oblique propagation
16 p2752 A69-32389

Gas phase ignition theory with feedback of homogeneous propellant exposed to stagnant gas after shock reflection
[AIAA PAPER 69-559] 16 p2880 A69-32740

Shear layer effect on plane sound waves, discussing reflection and refraction at velocity discontinuity between two regions of fluid
17 p3005 A69-32954

Elastic wave reflection and refraction around cracks, considering plane harmonic compressional and vertically-horizontally polarized shear waves
17 p3053 A69-32986

Electromagnetic transient wave propagation and reflection in lossless isotropic stratified ionized media, discussing time variations of fields due to incident plane unit step wave
17 p2924 A69-33839

Flow viscosity and heat conduction effects on shock wave propagation in bent channel with weak Mach reflection
18 p3124 A69-35326

Reflection of spherical stress wave against smooth-indeformable plane in elastoviscoplastic medium, discussing Taylor series expansions for displacement, velocity and stress fields
18 p3226 A69-35463

Shock waves Mach reflection at various velocities in real gases, observing temperature and pressure distributions, double reflections, effects of internal degrees of freedom excitation, etc
19 p3450 A69-36363

Shock and detonation waves refraction due to small disturbances in medium, noting causes of wave cellular structure
19 p3451 A69-36369

Mach reflection limiting parameters of conical shock wave in Plexiglas cylinders, showing head wave curvature radius linear relationship to cylinder diameter
19 p3302 A69-36845

Lower ionosphere geomagnetic field local gradients determination by partial reflection method
20 p3522 A69-37055

Occurrence, development and disappearance of diffused reflections, relating dynamic behavior to ionospheric electron concentration
20 p3529 A69-37687

Reflection indicatrices of rough surface subjected to heat radiation for stationary and variable incidence angle, noting spatial distribution
21 p3847 A69-38455

Electromagnetic wave reflection and transmission from boundary between semiinfinite plasma and air by applying static magnetic field
21 p3672 A69-38743

Diffuse reflection of electromagnetic longitudinal wave from magnetoactive plasma in oblique incidence
22 p3990 A69-40788

Ionizing shock wave propagation and reflection in transverse magnetic field based on MHD theory, assuming gas thermal equilibrium
22 p3992 A69-41176

Microwave reflection technique for transient and quiescent electrical conductivity of Si, noting nonohmic contacts
22 p3997 A69-41226

Plane EM wave transmission and reflection by semiinfinite isotropic plasma moving in arbitrary direction parallel to boundary, using Lorentz transformation
23 p4114 A69-41360

Rectangular waveguide with inhomogeneity represented by half space dielectric filling with boundary causing polarization, obtaining reflection elimination or minimization reflection
23 p4125 A69-42047

Electromagnetic waves incident upon anisotropic plasma, determining transmission and power reflection coefficients
24 p4282 A69-42978

Temperature distribution on surfaces of close binary stars as basis for predicting variation of monochromatic reflection effect
24 p4387 A69-43350

Reflection of spherical stress wave against plane clamped partition in elastoviscoplastic medium, investigating three dimensional problem by infinitesimal deformations theory
24 p4406 A69-43732

WAVE SCATTERING

NT ACOUSTIC SCATTERING
NT ATMOSPHERIC SCATTERING
NT ELECTROMAGNETIC SCATTERING
NT HALOS
NT IONOSPHERIC F-SCATTER PROPAGATION
NT LIGHT SCATTERING
NT MICROWAVE SCATTERING
NT MIE SCATTERING
NT RAMAN SPECTRA
NT RAYLEIGH SCATTERING
NT REVERBERATION
NT TROPOSPHERIC SCATTERING
NT X RAY SCATTERING

Wave scattering in nonuniform cross section waveguides with large flare angles using coupled differential equations
01 p0044 A69-10622

Terrain influence in ground wave propagation evaluated by two dimensional diffraction and scattering problems, using Airy type wave functions
[AFCRL-68-0212] 01 p0033 A69-10970

Plane wave scattering from modulated corrugated structures, obtaining reflection coefficients for multimode propagation
01 p0033 A69-10973

Electron concentration in lower ionosphere based on measurement of Faraday rotation of polarization plane of radio waves scattered by meteor trail
03 p0423 A69-13535

Spatial autocorrelation functions of amplitude and phase fluctuations in plane parallel to wavefront of incident wave for conditions of multiple scatter
03 p0468 A69-13807

Scattering from thin conducting sheet obstacle on cylindrical surface
03 p0399 A69-14253

Longitudinal and transverse elastic waves propagation in medium with random inhomogeneities, deriving scattering coefficients in Born approximation for Fraunhofer region
04 p0667 A69-14262

Torsional elastic wave scattering from penny shaped crack, determining local dynamic stress field
04 p0678 A69-14872

Electromagnetic waves transformation and scattering in plasma in electric field, showing abrupt increase at certain critical value
06 p0886 A69-16894

Plane wave scattering by conducting wire impedance loaded at center, discussing loading effect on backscattering cross sections
06 p0888 A69-17512

Induced and combination scattering of high HF radio waves in ionosphere and magnetosphere
07 p1076 A69-18521

HF scattering of scalar plane wave by transparent sphere based on Watson transformation
07 p1181 A69-19033

Scattering and diffraction of plane electromagnetic wave incident on conducting cylinder coated with moving anisotropic medium
07 p1086 A69-19469

Beam wave scattering by small sphere, discussing dielectric constant and difference from plane wave
08 p1273 A69-20028

Incoherent wave scattering of particle orbits as nonlinear effect of LF instabilities
08 p1367 A69-20801

Scattering and transformation of electromagnetic waves in plasma in crossed electric and magnetic fields showing radiation spectrum maxima due to ion-acoustic oscillations propagation
08 p1277 A69-21080

Scalar wave diffraction at body in scattering medium analyzed on basis of determinate medium with complex inhomogeneous effective refractive index
10 p1658 A69-23957

Scattering of spherical electromagnetic wave emitted by electric and magnetic dipoles with equal moments at truncated infinitely thin ideally conducting paraboloid of revolution
11 p1846 A69-24614

Geometrical diffraction theory for bistatic scattering of plane wave by conducting frustum, calculating scattering matrix
11 p1837 A69-24999

Electrostatic drift wave dissipative instability in framework of macroscopic theory, accounting for resistivity and viscosity using WKB method
11 p1934 A69-25655

Cyclotron harmonic waves /CHW/ nonlinear decay instability and parametric amplification, considering applicability to practical amplifiers
12 p2135 A69-26314

E region radio waves triple splitting observed in probe ionograms, analyzing diurnal and seasonal variations in Z component reflections occurrence
12 p2031 A69-26686

Horizontally moving body wake scattering cross section calculated with allowance for sphericity of incident and scattered radio waves, using Bessel functions
12 p2031 A69-26699

Electromagnetic and plasma waves scattering by space vehicle excited by ground source in isotropic warm plasma, obtaining radar cross sections
13 p2221 A69-27965

Wave scattering from infinite line source by long convex cylinder, noting field prediction by geometrical diffraction theory
13 p2299 A69-28194

Elastic medium properties recovered from reflected or transmitted plane waves at normal incidence, obtaining computational procedures and analytical solution from Schroedinger equation
13 p2300 A69-28664

Correlation function of auroral reflection radio signals with allowance for polar ionospheric scattering and pulse signal transmission and reception
14 p2436 A69-29055

Absorption band observation near 0.43 mu in solar spectra and scattered radiation of sky, determining nontelluric origin
14 p2441 A69-29407

Ray optics method of far field scattering by discontinuity in parallel plane waveguide applied to strips, apertures, bifurcations, etc
14 p2423 A69-29753

Integral formulation of scattering theory extended to Coulomb interactions by expanding Green function and treating kernel singularities
14 p2489 A69-29995

Nonlinear wave scattering at plasma particles and weak plasma inhomogeneity effects on plasma current instability
15 p2662 A69-30965

Radio wave single scattering at particles randomly grouped in space, showing correlation function of water content fluctuations in scattered field in clouds
16 p2807 A69-32267

Wave propagation and scattering in anisotropic media, obtaining asymptotic expression for dyadic Green function for infinite space
17 p2924 A69-33835

Radio wave propagation in homogeneous turbulent gyrotropic medium, presenting solution for fluctuations in direction of wave scattering by geometrical optics approximation
17 p2927 A69-33861

Signal wave scattering and transmission by ionized medium disturbed by high power pumping wave, studying wave interactions with Born approximation for bounded medium
17 p2928 A69-33871

Wave scattering from nonplanar periodic structures using periodicity method, including Green function and Mellin transform
17 p2929 A69-33880

Critical review of Derugin theory of scattering from rough lamellar surfaces using separation of variables method, discussing energy conservation violation
17 p2930 A69-33885

Electromagnetic wave scattering in two angled rectangular waveguides filled with isotropic homogeneous medium
17 p2930 A69-33887

Scattering cross sections of radio waves at wake of vertically moving body near reflecting ionospheric layer, noting wave sphericity influence
20 p3486 A69-37023

Radio wave sphericity influence on scattering at moving body wake in ionosphere, determining scattering cross section principal maximum
20 p3486 A69-37024

Lunar surface scattering properties at 2.5 cm wavelength determined using computerized backscattering diagram and equations for obtaining scattering data
20 p3606 A69-37971

Induced Compton scattering of plasma and electromagnetic waves under astrophysical conditions, discussing HF radio emission spectra from cosmic objects and quasar
20 p3607 A69-38035

Layer model of random discrete inhomogeneities used to derive harmonic wave one dimensional scattering field and mean square of field
21 p3673 A69-38993

Wave scattering in elastic medium by discontinuity line or finite crack, noting dynamic stress intensity dependence on incident wavelength and Poisson ratio
21 p3840 A69-39293

WAVE SUPERHEATERS
U HYPERVELOCITY WIND TUNNELS
U SHOCK TUBES

WAVEFORMS
NT PULSE AMPLITUDE
NT PULSE DURATION
NT SAWTOOTH WAVEFORMS
NT SQUARE WAVES

Wide range linear delay circuit with compensated bootstrap circuit generating linear ramp waveform and regenerative Schmitt trigger comparator
01 p0041 A69-10241

Amplitude modulation factors expressed as carrier and sideband power for sinusoid and square wave signals, considering negative clipping by modulator cut-off
01 p0028 A69-10419

Pulse shape influence on electromagnetic compatibility and transmitter efficiency, discussing trapezoidal, raised-sine, sliced and complete error function shapes
01 p0030 A69-10631

Spikes on sonic boom pressure waveforms due to simultaneous focusing and diffraction of planar N wave by inhomogeneous atmosphere layer
01 p0011 A69-11280

Elastic-plastic wave profiles in Al alloy under uniaxial strain load, investigating sensitivity to various strain rates
02 p0344 A69-12289

Wave front profiles sensitivity to form of constitutive equation in one dimensional stress problem
02 p0344 A69-12291

Filter uncertainty for time or frequency resolution in analysis of waveform, decomposing characteristic functions and determining least uncertain realizable filter
02 p0226 A69-12306

Waveform distortions of trapezoidal wave passing through Gaussian filter in pulse transmission, discussing ideal filter effects on degradation
05 p0719 A69-16296

Shock waveforms lengthening due to propagation to high altitudes derived from computed numerical values, studying N waves from SST
07 p1054 A69-19463

Differentiating network with nonlinear resistance and capacitance elements, noting improvement in pulse shaping properties
08 p1295 A69-19910

Book on high resolution radar covering waveform analysis, resolution theory, radar mapping, target detection, etc
08 p1275 A69-20370

Minimum bandwidth of M real equal energy signals with specified code or correlation matrix, noting optimum waveforms
09 p1452 A69-21313

Simultaneous transmission of information signals and pseudonoise synchronization waveforms in common bandwidth
[IEEE PAPER 67-TP-1173-COM]
10 p1655 A69-23532

Angle of attack and Reynolds number effect on hypersonic flow past circular cone, obtaining shock wave shape
[ONERA-TP-692]
11 p1818 A69-24751

Voltage and current waveforms of resonant domain and limited space charge accumulation modes in transferred electron oscillators, noting drift current
12 p2036 A69-25908

Permutation modulation for waveform transmission of quantized bandlimited signal, deriving signal to noise ratio
12 p2030 A69-26386

Amplitude spectra of periodic pulse sequences or pseudonoise sequences calculated using weighting and shape functions
12 p2030 A69-26389

Undulation in output waveforms of pulsed water vapor laser observed with In-doped Ge detector
14 p2461 A69-29887

MHD generator design with electric conductivity waveform at small magnetic Reynolds numbers
14 p2405 A69-29911

Probability density functions of waveforms from summation of digits in n-stage shift register generating m-sequence
15 p2568 A69-30617

Earth ionosphere cavity model for atmospheric waveform shape, considering ELF pulse distortion after propagation through antipode
16 p2750 A69-31978

Radar control system based on load waveform monitoring by coupled control and modulating circuits
16 p2753 A69-32439

Waveforms analyzer for mixtures of exponentially damped sine waves, noting application to interferometer curves in plasma wave propagation
17 p2970 A69-32852

Backscattered impulse response waveforms of conducting circular cylinder for broadside incidence utilizing Fourier synthesis
17 p2917 A69-32918

Optimal radar receivers and waveforms with limited dynamic range for detecting point target masked by thermal noise and clutter returns
17 p2921 A69-33625

Optimum signal design to maximize SNR for pulse communications systems with signal energy detection, considering frequency, transmission and filtering characteristics and signal duration
18 p3104 A69-35484

High index frequency modulated waveform spectrum analysis including upper bound on approximation error to avoid fallacy of Woodward theorem
[IEEE PAPER 68-TP-74-COM]
19 p3276 A69-36485

Optimal radar phase modulated waveform with optimal ambiguity function synthesized by solving variational equations for orthogonal series coefficients of expanded modulation
20 p3492 A69-37708

Radar signal design, considering ambiguity and modulation functions, envelope surfaces, coding conditions, etc
20 p3496 A69-37904

Scattering equations for sonic boom waveform spike perturbations produced by atmospheric turbulence, discussing supersonic aircraft pressure signatures
21 p3646 A69-38689

QRS complex detection time error in noisy electrocardiograms
21 p3667 A69-39442

Pi 2 micropulsation waveform variation with time from simultaneous observations at low latitude stations, estimating phase velocity of higher frequency component
23 p4161 A69-42440

Active weighted pulse compression radar receiver output waveform analysis for amplitude, phase and frequency modulation, noting effects of spectrum weighting mismatch parameter
23 p4132 A69-42548

WAVEGUIDE ANTENNAS
NT HORN ANTENNAS

Impedance matching of volumetrically scanned waveguide arrays, stressing element spacing, surface wave impedance, etc
04 p0571 A69-14312

Asymptotic decay of coupling for infinite phased arrays proved valid for infinite parallel linear plate array immersed in magnetized cold plasma
04 p0571 A69-14314

Forced surface wave resonances in dielectric free 45 degree triangular grid circular waveguide phased arrays
08 p1282 A69-20038

Wideband device for rotating polarization plane of waves in waveguide between antennas, receivers and transmitters without affecting field linearity
09 p1469 A69-22643

Surface wave reflection from free ends of ideally conducting rods forming semiinfinite grid to study rod delay systems and wave-duct antennas
11 p1833 A69-24438

Passive electric microwave probe with balancing capacitance for studying waveguide fields at high microwave power levels in radiative plasma accelerators
14 p2498 A69-29807

Omnidirectional microwave parallel plate waveguide fed antenna design for flush mounted broadband spacecraft, noting equatorial and polar patterns
22 p3913 A69-40697

WAVEGUIDE FILTERS
Microwave directional filter using ring resonator and couplers to obtain low transmission loss and center frequency tuning
13 p2226 A69-27187

Microwave filters for canonical realization of non-minimum phase transfer functions, combining magic-T or hybrid junction with ladder structure network
13 p2228 A69-27668

Low pass quasi-optical waveguide filters, using metal strips in dielectric material to obtain broad stopband and low dissipation loss
13 p2229 A69-27675

AC ignitor priming of quartz-chlorine gas discharge X band waveguide limiter with fast recovery used as radar receiver protector
15 p2573 A69-30035

Waveguide below cut-off resonators for active microwave circuits, describing experiments with avalanche and Gunn diodes
15 p2577 A69-30613

Channel dropping filter for millimeter wave in low loss circular waveguide for overland telecommunications in bandwidth over 10 GHz
17 p2936 A69-33032

Single loop directional stripline filters synthesis, including general expression for frequency characteristics based on wave matrices
19 p3284 A69-36570

Multiple strip H guide field distribution and low loss wave mode analysis, obtaining approximate thin layer equations
22 p3917 A69-41254

Waveguide band filter with reflecting ferrite resonators and frequency matched loads for improved microwave SNR
23 p4139 A69-41945

Waveguide below cut-off high pass filters fabrication technique using slot cut into waveguide section
23 p4170 A69-42231

WAVEGUIDE TUNERS
Miniature microwave tuners with solid state reliability and reduced power consumption, using YIG, mixer circuits and integrated control circuitry
07 p1102 A69-18672

Microwave directional filter using ring resonator and couplers to obtain low transmission loss and center frequency tuning
13 p2226 A69-27187

Waveguide capacitive screw tuners effects on dissipative loss, discussing microwave measurements with copper screw tuners
16 p2757 A69-31586

Waveguide Y-circulator parameters thermal stability equation, considering temperature, magnetization level and magnetic field resonance effects on tuning frequency
23 p4123 A69-41951

WAVEGUIDE WINDOWS
C band waveguide window for average power transmission featuring relatively small biconcave dielectric disk
07 p1096 A69-18435

Aircraft measurements of earth atmosphere radiance in 8-14 micron window compared to calculated values as functions of altitude
08 p1311 A69-21094

Multiaperture waveguide directional couplers analyzed by four port equivalent circuits, discussing synthesis method for optimizing coupling directivity
13 p2228 A69-27669

Iris beam waveguide transmission loss as function of irises alignment, iris frame width and guide axis curvature
13 p2233 A69-28070

Driving point admittance of radiating aperture in infinite periodic phased array, determining Floquet series and coefficients of waveguide modal expansion
17 p2938 A69-33876

WAVEGUIDES
NT BEAM WAVEGUIDES
NT PLASMAGUIDES

Forward and backward scattered modes over frequency range in multimode nonuniform waveguide, transforming coupled modes telegraphist equations into Volterra equations
01 p0043 A69-10621

Wave scattering in nonuniform cross section waveguides with large flare angles using coupled differential equations
01 p0044 A69-10622

E field transmission and reflection coefficients in linearly tapered waveguide for fundamental and higher order modes, using point matching method
01 p0044 A69-10629

Propagation in waveguides filled with moving media, discussing first order theory
01 p0030 A69-10630

Symmetrical design of short ferrite Faraday rotator using matrix representation, noting matching to rectangular waveguide
01 p0048 A69-11034

WAVEGUIDES

S band thyratron waveguide switch as pretriggered megawatt balanced duplexer 01 p0048 A69-11035

Ionosphere formed waveguide electromagnetic field determined by expression, accounting for radio wave absorption during communications via artificial satellites 02 p0206 A69-11661

Procedure accounting for variable thermal conductivity and internal heat generation in temperature distribution prediction for waveguide ferrite slabs 02 p0215 A69-11877

Reflected and transmitted radiation fields for dielectric loaded infinite phased array of parallel plate waveguides as function of scan angle 02 p0218 A69-12326

Admittance of parallel plate waveguide aperture with infinite flange illuminating metal sheet, using wedge diffraction theory and integral transform method 02 p0218 A69-12328

C and S band waveguide impedance measurements taken in flight in reentry plasma, noting results for plasma 02 p0218 A69-12333

Microwave thermal noise standards, discussing construction, calibration and errors for field operational liquid nitrogen cooled waveguide noise standard 02 p0210 A69-12438

Gas discharge tubes and waveguide mounts as reference noise accuracy standards for S, C and X bands in WR284, WR137 and WR90 waveguides 02 p0210 A69-12439

Tubular light beam waveguide properties, studying changes related to heating and ionization of medium 02 p0258 A69-12644

Finite element solution of Helmholtz equation and application to waveguides with complicated boundaries 03 p0404 A69-13598

Planar phased array of circular waveguides arranged in equilateral triangular grid, solving boundary value problem 03 p0406 A69-13829

Strain effects on transverse electromagnetic modes of anisotropic dielectric waveguides at p-n junctions 03 p0406 A69-13830

Element pattern nulls in phased arrays and relation to guided waves supported by array face 04 p0570 A69-14310

Linearly polarized waveguide phased array design, noting waveguide aperture size effect on admittance and minimization of zero radiation directions 04 p0571 A69-14313

H plane waveguide Y circulators engineering design based on circulation equations 04 p0575 A69-14460

Optical waveguide with optimum refractive index distribution for equalizing group velocities of different modes and minimizing waveform distortion 04 p0575 A69-14749

Moving media influence on transient electromagnetic modal wave propagation in dispersive waveguides 04 p0557 A69-14752

High power waveguide tuner for use in traveling wave resonator to tune out reflections in resonant ring 04 p0576 A69-14759

Surface impedance variation effect on surface wave propagation along rod waveguide 04 p0576 A69-14761

Waveguide arc location by sound ranging to determine RF breakdown onset in high power microwave system, describing experiment determining feasibility 04 p0576 A69-14762

Reflection coefficient determination of bent multiwave waveguide, considering reflected wave due to secondary conversion of parasitic waves interacting with primary wave 04 p0576 A69-14773

Dielectric waveguide propagation, impedance and attenuation characteristics and insertion loss and launching efficiency of mode transducer 04 p0577 A69-14971

Toroidal gas discharge in waveguide by coupling of microwave power into gas to heat gas, noting plasma confinement [IMPI PAPER A4] 04 p0636 A69-14999

Waveguide field of arbitrary cross section determined on models with quasi-static fields 05 p0717 A69-15635

Resonance rotation of polarization plane in circular waveguide with ferrite resonator 05 p0718 A69-15640

Equation for analyzing radiation produced by current passing through filament situated over anisotropically conducting plane in flat waveguide 05 p0718 A69-15647

Gyrotropically filled waveguides propagation parameters calculation by variational method 05 p0718 A69-15648

Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic 05 p0718 A69-15649

VLF phase measurements for apparent and equivalent diurnal height variation for lower ionosphere waveguide 05 p0752 A69-15666

Surface waveguide composed of inhomogeneous dielectric thin film used as low loss transmission line 05 p0731 A69-16294

Input admittance of confocal Fabry-Perot resonator, with waveguide coupled infinitely long conic-section cylindrical reflectors, taking into account diffraction and resistive losses 05 p0731 A69-16295

Cut-off frequency relation to geometry for dielectric ridge waveguide 05 p0777 A69-16579

Composite equivalent circuits method for complex waveguide-resonator couplings based on variational principle for admittance matrices of electromagnetic volume couplings 05 p0736 A69-16785

Ferrite materials characteristics related to choice for use in waveguide devices, noting importance of low HF magnetic losses and thermal stability 05 p0810 A69-16792

General theorem of isotropic microwave waveguide junction ports imposed by reflection symmetry 06 p0893 A69-16935

Scattering matrix for internal diffraction in rectangular waveguide with transversely magnetized ferrite core 06 p0895 A69-17455

Residue contributions to integrals associated with admittance of plasma or dielectric covered circular aperture antenna used to calculate surface wave contribution to waveguides 06 p0896 A69-17477

Suppressed rotation reciprocal ferrite phase shifter theory explained in terms of nonreciprocal coupling of cross polarized waveguide modes 06 p0896 A69-17484

Deviation of dispersion equations for all modes existing in E-plane slabs of dielectrically loaded rectangular waveguides 06 p0888 A69-17486

Characteristic impedance of rectangular waveguide computation curve explained on basis of computer program for cascade of transmission line sections 06 p0897 A69-17490

Numerical methods for VLF electromagnetic wave propagation in earth-ionosphere waveguide, discussing boundary conditions assignment effect at ionosphere on eigenvalues 06 p0920 A69-17732

Power flow in cyclotron and plasma modes propagating in waveguide filled with cold collisionless axially magnetized plasma 06 p0897 A69-17760

Second order nonlinear coefficient measurement for optical generation of millimeter wave difference frequencies in GaAs waveguide, using carbon dioxide laser 06 p0928 A69-17903

Circularly polarized waveguide mode simulation for multislotted leaky waveguide harmonic content measurement 07 p1105 A69-19046

Field diffraction at finite metallic surface represented in eigenfunctions of discrete spectrum, considering forced oscillations of open circuit 07 p1084 A69-19151

Annular traveling wave resonator for feedback in resonance particle accelerator of smooth waveguide 07 p1107 A69-19160

Reflection and transmission scattering coefficients for step type transition between two uniform waveguides with surface impedance boundaries, discussing coupled differential equations 08 p1272 A69-20020

Horizontal electric dipole excitation of spherical guide waves between earth and ionosphere, discussing TM and TE modes and ELF and VLF range 08 p1273 A69-20023

Resonance conditions in dielectric sheathed or plug loaded phase arrays of waveguides 08 p1281 A69-20034

Conjugate echoes in Alouette 2 topside sounder ionograms explained by multiple reflections between conjugate points of field line, noting magnetospheric waveguides role 08 p1274 A69-20045

Lower ionosphere and earth-ionosphere waveguide effects on polarization characteristics of transmitted radio whistlers 08 p1306 A69-20181

Mode designation and propagation characteristics of dielectric tube waveguide, noting practicability at higher microwave frequencies 08 p1284 A69-20296

Miniaturized E-Tee three port circulator with wide bandwidth, noting negligible effect of static field small variations on performance 08 p1291 A69-20980

Transverse density nonuniformity effect on electromagnetic wave propagation in cylindrical plasma waveguide immersed in magnetic field, noting frequency increase 09 p1545 A69-21348

Charge and traveling wave interaction in circular waveguide in resonance regime solved by Krylov-Bogoliubov asymptotic method 09 p1551 A69-22037

Cut-off coupled microwave bandpass filters for use in dielectric filled waveguide systems 09 p1466 A69-22447

Quasi-static modified field distributions in inhomogeneously filled cavities and waveguide tubes, comparing with homogeneously filled cavities and obtaining matrix eigenvalues 09 p1467 A69-22561

Short multiconical TE sub 01 mode X band taper for connecting two different diameter circular waveguides 09 p1468 A69-22604

Waveguides and resonators design by solving scalar problem for eigenvalues of elliptic operator 09 p1469 A69-22626

VLF electromagnetic wave propagation in earth-ionosphere waveguide with reflections from ionosphere, noting TE and TM mode coupling and mode conversion 09 p1460 A69-22699

Waveguide Y circulator electrodynamic parameters by design algorithm and computer programs 10 p1661 A69-23108

Waveguides mutual coupling in finite antenna arrays analyzed by integral equation method, noting coupling decrease correlation with wavelength and waveguides distance 10 p1663 A69-23421

Computer calculated phase velocities for surface wave and waveguide modes given for circular waveguide filled with inhomogeneous electron plasma 11 p1844 A69-24437

Excitation of plane plasma layer in magnetic field perpendicular to wave vector of excitation wave in gyrotropic waveguide 11 p1927 A69-24916

Radiation field patterns from metal wall aperture in waveguide with rectangular cross section determined using elliptic cylinder 11 p1850 A69-24982

Radiating collinear open ended waveguides and near field coupling analyzed using simultaneous integral equations and Fourier series expansion of aperture field 11 p1850 A69-24984

Electromagnetic wave propagation in rectangular waveguide containing uniaxial anisotropic birefringent medium, deriving field equations 11 p1853 A69-25350

Wave-mode converter with feed for omnidirectional antenna excitation, discussing H to E wave conversion, waveguides, emitter, etc 11 p1854 A69-25616

TEM-WAVE propagation between parallel conducting planes, stressing changes in curved waveguide sections 11 p1841 A69-25619

Excitation coefficients of waves subjected to sudden expansion in radiating waveguide using integral relations, noting convergence 11 p1855 A69-25621

Wave reflections due to rotationally symmetrical jump in circular waveguide cross section, using orthogonal expansion to solve resulting boundary value problem 11 p1855 A69-25622

Waveguide cross connection of right-angled waveguides to determine reflection and transmission factors for incidence of H waves 11 p1855 A69-25623

- Microwave filters with lumped capacitances and coupled waveguides derived by frequency conversion from lumped filters circuits
11 p1855 A69-25628
- Directional coupler for TEM waves composed of two waveguides and having locally dependent coupling function
11 p1855 A69-25629
- Resonance method determining spurious modes excitation in natural mode converter, discussing construction, application and mathematical correlation
11 p1856 A69-25630
- Attenuation losses on curved dielectric waveguide in X band
11 p1856 A69-25633
- Saddle point analysis of electromagnetic ground wave propagation in source excited field in waveguide formed by two parallel plate dielectrics
12 p2028 A69-25898
- Broadband plasma waveguide switch application extended to 26-40 GHz range, discussing isolation, cold loss, switching time, trigger signal and ionized plasma
12 p2036 A69-25938
- Short circuit and variable frequency technique for measurement of coupling efficiency between dielectric loaded rectangular and trough waveguides, noting propagation modes
12 p2039 A69-26374
- Perturbation analysis in dielectric loaded rectangular waveguides, considering scattered modes and phase progression
12 p2039 A69-26381
- Internal guiding of microwaves by elevated tropospheric layer noting refractive index, radius of curvature and attenuation
12 p2032 A69-26856
- VLF wave propagation along mixed path in curved earth-ionosphere waveguide, considering reflection and transmission coefficients of modes
12 p2032 A69-26858
- Elliptical waveguide design dimensions for minimum attenuation in fundamental mode, giving formulas for attenuation constant and minor-major axis ratio
12 p2044 A69-27070
- Horn exciter with fundamental and second mode in feeding waveguide of shallow paraboloid antennas
12 p2044 A69-27093
- Waveguide higher order modes solved by finite-difference method, employing successive overrelaxation to compute field potentials at discrete points in arbitrary guide shapes
13 p2228 A69-27670
- Applied magnetic field effects on longitudinally magnetized reciprocal ferrite phase shifters, showing shift type dependence on guide electrical thickness
13 p2229 A69-27673
- High power ferrite latching switch with forced air cooling, discussing nonreciprocal phase shifter materials and configurations
13 p2229 A69-27674
- Optical surface wave propagation on thin dielectric film waveguides, noting applications to integrated optical data processors
13 p2229 A69-27676
- Guided waves in circular cylindrical radially inhomogeneous medium, using vector theory based on Maxwell equations
13 p2221 A69-28062
- Leaky helix and solid metal waveguides propagation losses measured by shuttle pulse method in SHF
13 p2233 A69-28063
- Transmission type E saki diode amplifier with stabilizing dielectric loaded rectangular waveguide
13 p2233 A69-28067
- Diffraction and mirror analyses of right angle corner in overmoded waveguide for scattered modes, discussing transmission loss
13 p2234 A69-28426
- Wave parameters in coupled parallel surface wave transmission lines and dielectric waveguides, discussing phase velocities and spatial beat period
13 p2223 A69-28570
- Ionosphere formed waveguide electromagnetic field determined by expression, accounting for radio wave absorption during communications via artificial satellites
13 p2224 A69-28692
- H plane waveguide Y circulators engineering design based on circulation equations
14 p2418 A69-28831
- Book on open resonators and open waveguides
14 p2419 A69-29316
- Microwave dispersion systems, using waveguide loaded with dielectric material to obtain group linear frequency delay characteristic
14 p2412 A69-29395
- Monochromatic plane waves propagation in anisotropic homogeneous cold plasmas, treating dispersion surface, reflection, refraction and waveguide applications
14 p2492 A69-29399
- Electromagnetic wave propagation through magnetolectric media in circular waveguide
14 p2416 A69-29540
- Leaky waves propagation characteristics helix waveguide covered with slitted cylinder using transverse network representation, emphasizing small pitch angles, hybrid TE and TM modes, etc
14 p2422 A69-29752
- Ray optics method of far field scattering by discontinuity in parallel plane waveguide applied to strips, apertures, bifurcations, etc
14 p2423 A69-29753
- Discontinuity capacitance of coaxial line terminated in circular waveguide calculated using Rayleigh-Ritz variational technique
14 p2423 A69-29754
- Dispersion of electromagnetic wave propagating along ferrite loaded wire, calculating tuning curves and three port waveguide circulator modes
14 p2417 A69-29755
- Computational accuracy of point matching solution for uniform nonsymmetric waveguides
14 p2423 A69-29758
- Adapter between dielectrically loaded waveguides with different cut-off frequencies and sizes for pulse compression systems
14 p2423 A69-29760
- Quasi-optical oversize waveguide directional coupler with two prisms interface matched by Brewster angle effect
14 p2424 A69-29764
- Corrugated cylindrical waveguides used as hybrid mode feeds for reflector antennas
15 p2575 A69-30175
- Cut-off wavelength of transverse magnetic mode related to cross section eccentricity of hollow conducting elliptical waveguide
15 p2575 A69-30178
- Waveguide mode propagation theory for determining earth-ionosphere spherical waveguide upper boundary height diurnal variation for VLF waves
15 p2595 A69-30224
- Resonance measurement of power percentage in single spurious mode of overmoded waveguide, using back to back transducers and reflection at input
15 p2577 A69-30611
- Flexible aluminum elliptical waveguide design, discussing installation, economy and electrical characteristics
15 p2578 A69-30798
- Asymmetrical waves diffraction field at wide slots in circular waveguides determined in Huygens-Kirchhoff approximation
15 p2570 A69-30955
- Propagation modes attenuation and guidance on circular hollow dielectric waveguides dependent on dielectric loss tangent
16 p2757 A69-31587
- High resolution swept frequency reflectometer suitable for impedance matching in waveguides or coaxial lines
16 p2759 A69-31940
- Computerized finite element waveguide analysis for determining propagating modes and cut-off frequencies
16 p2760 A69-31942
- Waveguide bends fields expressed in coupled local annular modes derived by evaluating differential scattering coefficients
16 p2760 A69-31943
- Dual channel waveguide insertion loss test set for calibrations at 90 GHz in radio astronomy and communication systems, using sprayed thermistor mount
16 p2760 A69-31945
- VLF radio wave propagation in waveguide channel formed by earth and inhomogeneous anisotropic ionosphere
16 p2751 A69-32032
- Meteorological radar dead zone diminished by using hybrid electronic waveguide suppression system to eliminate antenna sidelobe reflections
16 p2791 A69-32281
- Diffraction of axisymmetric electromagnetic wave at surface discontinuity of impedance cylinder forming core of coaxial waveguide
16 p2761 A69-32479
- Waveguide field of arbitrary cross section determined on models with quasi-static fields
16 p2762 A69-32493
- Resonance rotation of polarization plane in circular waveguide with ferrite resonator
16 p2762 A69-32498
- Equation for analyzing radiation produced by current passing through filament situated over anisotropically conducting plane in flat waveguide
16 p2762 A69-32504
- Gyrotropically filled waveguides propagation parameters calculation by variational method
16 p2754 A69-32505
- Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic
16 p2762 A69-32506
- Waveguide feeder for Goonhilly Downs satellite communication antenna reducing feeder loss for use with low elevation Intelsat 3 satellite
17 p2935 A69-32849
- Asymptotic solutions for vector fields and propagation constants of axial modes in circular cylindrical waveguides, noting changes in dielectric constant
17 p2921 A69-33673
- Electromagnetic wave propagation in anisotropic media analyzed for wave packet behavior function, stressing waveguide theories
17 p2926 A69-33847
- Diffraction of modal field by semiinfinite waveguide, integral representation for Wiener Hopf kernel factorization and applications to open resonators
17 p2930 A69-33888
- Electromagnetic field formulation of eigenvalue problem for optical coaxial dielectric waveguide, using computer root searching method
17 p2930 A69-33892
- Plane anisotropic dielectric p-n junction layer waveguide properties, deriving characteristic equations for refraction indices
17 p2983 A69-33971
- Reflection coefficient of symmetric parallel plate waveguide operating in TEM mode illuminating lossless dielectric layer, using wedge diffraction and geometrical optics methods
18 p3108 A69-34802
- ELF wave propagation in earth-ionosphere waveguide, considering ionospheric vertical inhomogeneity and models for ambient and disturbed /PCA/ conditions
18 p3101 A69-34949
- Radiation emission by molecules in electromagnetic field, considering cavity resonators and waveguides excitation
18 p3178 A69-35404
- Near and antipodal fields in earth-ionosphere waveguide using mode theory, ray theory, zonal harmonics series and method of images to derive field representations
19 p3283 A69-35931
- Boundary value problem of wave propagation in three dimensional region of waveguide bounded by surface solved by variational method
20 p3487 A69-37078
- Modified residue-calculus technique combined with scattering matrix multiple reflection techniques for boundary value problems in waveguide phased arrays, diffraction gratings, etc
20 p3505 A69-37298
- TEM mode reflection coefficient for symmetric parallel plate waveguide composed of adjacent conducting wedges composition and radiating into perfectly reflecting sheet
20 p3507 A69-37839
- Field patterns, propagation constants and losses determined for axially propagating modes guided by circular cylindrical inhomogeneous dielectric, using perturbation method
20 p3497 A69-38130
- Electromagnetic waves attenuation and field structure within gas filled dielectric waveguide tube, tube walls and waveguide surroundings
21 p3674 A69-39123
- Free space to dielectric waveguide millimeter wavelength ratio as function of frequency, discussing equipment and procedure
21 p3674 A69-39130
- Biquadratic plane wave dispersion relation for gyrotropic waveguides with dielectric and magnetic properties, discussing associated quartic equation for refractivity
21 p3675 A69-39285
- Microwave absorption by Ar plasma of positive column discharge in waveguide under inhomogeneous magnetic field
21 p3778 A69-39547

Absolute and convective instability criteria of interacting electromagnetic waves in waveguide systems involving parametric oscillators and amplifiers
21 p3677 A69-39555

Book on Smith chart electronic applications in waveguide, circuit and component analysis and synthesis
22 p3915 A69-40780

Resonance frequency behavior of waveguide cavity with evanescent air gap symmetrically loaded with dielectric
22 p3900 A69-40925

Numerical solution by approximation of Wiener-Hopf-Fock equation for diffractions at finite or infinite number of equidistant half planes applied to open-end waveguides
22 p3901 A69-40950

Natural frequencies of N open dielectric waveguides system, obtaining fields expressions and dispersion equation for propagation constants
22 p3901 A69-40954

Polycrystalline ferroelectrics dielectric dispersion region in decimeter-centimeter wavelength range using waveguide resonance method employing wideband strip line
22 p3997 A69-41167

Mode conversion in nonuniform multimode waveguides and transitions using Maxwell equations, considering tapered and circular waveguides
23 p4135 A69-41354

Periodic ladder type design delay equalizer for linear delay characteristics in millimeter waveguide systems
23 p4135 A69-41361

Surface integration technique used in conjunction with wedge diffraction theory to analyze TEM radiation patterns of parallel plate waveguides
23 p4136 A69-41581

Edge diffraction effects in TEM axially slotted finite ground plane on radiation pattern in waveguides of different geometries
23 p4116 A69-41588

Rectangular waveguides coupled by oblique subresonant slots in common face, discussing slot orientation and geometry roles
23 p4123 A69-41941

Self consistent fields in waveguides containing thin conductors, expanding induced field into Fourier series in normal waves for series coefficients
23 p4123 A69-41942

Variational principle for analyzing dispersion properties of closed regular waveguide with traveling wave-modulated dielectric constant
23 p4123 A69-41943

Average total losses of H waves transmitted over waveguide communication lines by nanosecond pulse sequences
23 p4123 A69-41949

Electromagnetic oscillations emission by monochromatic electron beam in infinite waveguide formed by periodic diffracting array with energy losses, determining radiated power
23 p4124 A69-42031

Electromagnetic wave propagation in rectangular and plane parallel waveguides coupled by common wall with periodic transverse slots
23 p4124 A69-42037

Electromagnetic waves scatter propagation in isotropic plasma in plane waveguide, noting electron charge density fluctuations role
23 p4125 A69-42040

Smooth multiwave waveguide junctions design ensuring minimum losses of fundamental wave
23 p4125 A69-42046

Rectangular waveguide with inhomogeneity represented by half space dielectric filling with boundary causing polarization, obtaining reflection elimination or minimization reflection
23 p4125 A69-42047

Light transmission through curved dielectric rectangular rod, studying optical waveguides of various cross sectional dimensions and radii of curvature
24 p4287 A69-43329

Electromagnetic waveguides direction-changing capability, deriving expressions for permitted bending radius with respect to mode conversion
24 p4288 A69-43331

Gas lens system for periodic light beam waveguide, describing gas enclosed in circular cylinder and heated by specific temperature distribution
24 p4350 A69-43332

Measurement technique using dielectric waveguides for studying microwave fields influence on and energy imparted to body tissue
24 p4279 A69-43705

WAVELENGTHS

Laser wavelength selection device for parallel wavelength separation or recombination of laser beams external to laser cavities
01 p0091 A69-10841

Electromagnetic waves parametric interactions during unsteady Josephson effect as function of wavelength ratio, magnetic field penetration and contact dimensions
02 p0293 A69-11464

GaAs injection lasers noting spectral function, I-V characteristics and relations among lasing wavelength, threshold current density and impurity concentration
02 p0256 A69-11993

Wavelength dependence of microwave propagation beyond radio horizon
03 p0395 A69-13626

Uniaxial pressure applied to p-n junction of GaAs injection laser, discussing effects on threshold current and wavelength
03 p0441 A69-13848

Beam foil spectroscopy for measuring wavelengths and spectral line intensities
04 p0595 A69-14276

Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic
05 p0718 A69-15649

Absolute wavelength standard using saturated molecular absorption in methane inside He-Ne laser cavity [IEEE PAPER P-1]
05 p0775 A69-16323

Isophotal wavelengths of U, B, V and R bright star systems for replacing spectrophotometry with broadband multicolor data
08 p1408 A69-21134

Wavelength of convective motions, discussing effects of lid heat conductivity on Rayleigh number
11 p2003 A69-25354

Quantitative interferometric analysis of shock induced wavelength variations in glass and polished steel plates using Q switched ruby laser light source
12 p2089 A69-26185

Quasars intensity variations at various cm wavelengths confirming wavelength dependence
12 p2167 A69-27045

Galactic H II regions of high surface brightness in radio continuum surveyed at 1.95 cm wavelength with high resolution and positional accuracy
13 p2339 A69-27568

Optimum emission wavelengths in atmospheric refractive index determination in optical range finder/refractometer system, noting laser applicability
13 p2260 A69-27826

Turbulence and temperature fluctuations spectral characteristics in thermally stratified atmosphere determined for various wave numbers, using energy and mass transfer functions
14 p2472 A69-29402

Late type stars with emission peak wavelength approximating graphite Debye frequency induced by graphite impurity atoms
14 p2521 A69-29586

Pressure and wavelength dependence of molecular O absorption coefficient near 1215 A, utilizing UV emission from crossed beam atomic collision
15 p2656 A69-31031

Temperature, velocity and density perturbation propagation as heat convection wave in viscoelastic thermally compressible heat conducting fluid, analyzing damping and frequency spectra
16 p2878 A69-31952

Polarimetric observations of Be stars, noting dependence and self absorption by hydrogen of polarization produced by electron scattering
16 p2863 A69-32397

Wavelength range analysis for determining ambiguous section of circular waveguide dispersion characteristic
16 p2762 A69-32506

Complex index of refraction of naturally occurring rock and mineral as function of wavelength of incident radiation
17 p2973 A69-33093

Long path difference vacuum Michelson interferometer application to far IR and IR laser wavelength measurements compared with 6328 A He-Ne wavelength
17 p3006 A69-33405

Refractive indices for various glasses obtained as function of wavelengths and temperature, using spectrometer as collimator
17 p3007 A69-34158

Wavelength dependence of total and depolarized backscatter laser light cross section for rough metallic surfaces
18 p3172 A69-35000

Electron concentration in hypersonic nonequilibrium shock layer flow by two wavelength laser interferometry, noting wavelength dependence of refractivity
19 p3306 A69-35707

Wavelength dependence of stellar scintillation discussing apparatus to detect color effect in twinkling
19 p3401 A69-35800

Solid state laser emission frequency control and retuning using dispersive resonators, analyzing interference methods for wavelength measurement
19 p3331 A69-35800

Solar flares less than 10 A X rays effect on ionospheric ionization between 60 and 100 km
19 p3397 A69-36752

Wavelength-surface temperature relationship of ruby laser, discussing thermal control of emission wavelength
20 p3552 A69-36960

Solar spectrum data covering wavelength intervals from 13138-14707 and 12187-17731 A and 1.4 microwave water band
21 p3800 A69-38682

Approximate formula for energy spectrum of isotropic turbulence at large wave numbers, showing agreement with Gaussian exponential form
21 p3694 A69-38833

Free space to dielectric waveguide millimeter wavelength ratio as function of frequency, discussing equipment and procedure
21 p3674 A69-39130

Flux densities of radio sources in 3CR catalog measured at 2.8 cm wavelength
22 p4014 A69-40127

Tabulation of solar UV spectrum features between 3650 and 3000 A from intercomparison of photoelectric records and Second Revised Rowland, indicating wavelength relocations
22 p4014 A69-40146

Human electroretinogram (ERG) physiological variations as function of stimulation energy and wavelength
22 p3884 A69-40888

MHD tearing mode, considering most unstable wavelength, energetics and stability in two dimensional equilibria
24 p4355 A69-42684

WAVES

Supersonic compressors for supersonic and subsonic air intakes, studying wave configuration at entry of circular cascade of blades with hydraulic analogy [ONERA-TP-669]
05 p0699 A69-16340

Hyperbolic double waves found in compressible flow problems, presenting method of plotting all waves and determining geometrical characteristics
05 p0751 A69-16646

Dispersion and coupling impedance calculation for symmetrical or helical slow wave structures employed in traveling and backward wave tubes
22 p3916 A69-40958

WEAPON SYSTEM MANAGEMENT

Measurable and strategic characteristics of Army laboratories management, considering papers published, inventions and laboratory performance
15 p2721 A69-31070

WEAPON SYSTEMS

NT GROUND OPERATIONAL SUPPORT SYSTEM

NT MISSILE SYSTEMS

Operational research in RAF, discussing weapons tactics and research, strike aircraft speed and height effect on target-finding, VTOL and STOL dispersion value, etc
01 p0180 A69-10863

Fiat G.91Y subsonic light tactical fighter, discussing fixed armaments and weapons facilities
02 p0193 A69-12679

Weapons propulsion system off-design engine performance, noting installation loss effects [SAE PAPER 680712]
03 p0496 A69-13445

Flight test support design, developing measure of performance of test environments stated in weapon or space system terms
05 p0742 A69-15804

Characteristics, employment and tactics of Huey Cobra attack helicopter in Vietnam, discussing three primary weapon configurations
06 p0867 A69-17661

Nonlinear equations of motion approximate solution, determining ordnance weapons aerodynamic stability coefficients from angular motion as functions of angle of attack
[AIAA PAPER 69-135] 06 p0863 A69-18120

F-111 interdiction capability, discussing avionics subsystems for low level penetration flying and Vietnam performance 07 p1052 A69-18550

Firebee 2/BQM-34E/ turbojet-propelled re-coverable supersonic aerial target construction, performance prediction and missions 09 p1434 A69-21901

Maintenance van loading technique for number of spares and test equipment in Minuteman weapon system for uncommissioned launch facilities at minimum cost 10 p1669 A69-22980

Spare kit evaluation model for problems with constraints on spare parts quantities, considering optimization and simulation routines for weapon system maintenance 10 p1669 A69-22981

WSEIAC /Weapon System Effectiveness Industry Advisory Committee/ formula, analyzing correctness within Markovian limitations and reward systems extension 12 p2102 A69-26570

Ground military equipment hardening against nuclear environment, selecting worst case levels from isodamage curves 15 p2651 A69-30380

Weapon systems integrated testing, determining test quantities as function of subsystems utilizing Neyman-Pearson confidence levels 15 p2619 A69-30400

Military systems trouble documentation and evaluation, emphasizing computerized monitoring of reliability and maintainability 15 p2722 A69-31121

Cost effectiveness of DOD/military systems, discussing principles and analytical model with case study 15 p2722 A69-31125

Markov chain applications to avionics weapons system reliability specifications starting with mission profile, failure rates, success probabilities, etc 15 p2581 A69-31136

AH-56A Cheyenne integrated avionics, armament and fire control system for precise weapons delivery and navigation [AHS PAPER 312] 17 p2903 A69-33542

Airborne radomes reliability and high temperature environments, discussing missile nose cones, light weight ceramic techniques, circular polarization, etc 17 p2942 A69-34084

Aircraft avionics subsystems and weapon system functional integration reflecting aircraft mission, operational, natural and enemy environments 18 p3109 A69-35140

Polaris and Poseidon nuclear missile systems, considering efficiency and launching depth from nuclear submarine 19 p3432 A69-36687

Training missions and military exercises to field test weapons system models [AAS PAPER 69-478] 24 p4296 A69-42884

WEAPONS

NT GUNS [ORDNANCE]
NT NUCLEAR WEAPONS
NT SPACE WEAPONS
NT WARHEADS

Helicopter self defense armament for fire support of British Army operations, discussing vulnerability, weapons selection and tactics, logistics, etc 01 p0010 A69-10869

WEAPONS DEVELOPMENT

Gun projectiles assisted by solid propellant motor to increase range, discussing construction, performance and free-wheeling rotation band use 15 p2702 A69-30592

IRIG /Inter-Range Instrumentation Group/ telemetry standards for U.S. Department of Defense missile and weapons systems, reviewing evolution, content, scope, philosophy, revisions, etc 23 p4121 A69-41770

WEAR

Ball bearings lubrication and wear in cryogenic hydrogen turbopumps by transfer films provided from self lubricating cage 01 p0084 A69-10109

Analytical determination of traces of metals caused by wear in aircraft liquid fuels, hydraulic fluids and lubricants, noting polarography and coulometry 03 p0435 A69-14101

Laws of wear and average life, noting application to electric connector reliability 04 p0579 A69-15320

Atmospheric influence on friction endurance of solid powdered lubricants at constant layer thickness [IME PAPER 3] 07 p1138 A69-18563

Surface finish and hardness effects on wear life of inorganic solid lubricant film [ASLE PREPRINT 68AM 7C-3] 07 p1139 A69-18623

Modes and mechanisms of wear covering adhesive, abrasive and corrosive wear, surface fatigue and fretting corrosion 13 p2265 A69-27231

Abrasive wear model leading to abrasive wear equation and empirical findings on relative abrasive wear resistances 13 p2265 A69-27233

Collection of Soviet papers on wear and antifriction properties of materials 13 p2268 A69-28050

Friction wear of solid bodies based on microscopic contact system model, deriving particle distribution law from physico-statistical analysis 13 p2268 A69-28051

Statistical theory of cumulative wear of machine parts with application to engine parts of passenger aircraft, automobiles, tractors, etc 13 p2268 A69-28052

Mathematical model of mechanical wear in surface friction based on approximation of cross section profiles, using Fokker-Planck equation for distribution function 14 p2455 A69-29331

WEAR INHIBITORS

Wear-resistant hard thin layers deposited on various base material surfaces analyzed by electron microprobe 13 p2282 A69-28164

Plating wear resistant electrodeposits of Ag, Cu, Ni and Cr on Ti, noting adhesion tests 18 p3148 A69-34654

Wear protection of pressure loaded Ti-Mn alloy by heat diffused lubricated electrodeless Ni coatings 24 p4331 A69-42786

WEAR TESTS

Surface fatigue significance in sliding wear studied from damage on copper single crystal using electron microscope techniques 01 p0085 A69-10368

Friction and wear behavior of mechanical face seals, considering techniques and lubricants for increasing product of pressure and sliding velocity 02 p0253 A69-12160

Wear ring seals evaluation program for application to high pressure high speed liquid rocket turbopumps impeller wear rings [ASME PAPER 68-WA/LUB-1] 05 p0768 A69-16129

Mechanical and physical properties and cryogenic wear tests performed on composite materials, considering NERVA cryogenic turbopump bearing retainer development [ASME PAPER 68-WA/LUB-10] 05 p0768 A69-16133

Dry sliding friction and wear in ultrahigh vacuum, emphasizing slip rings and brushes for space applications [IME PAPER 7] 07 p1138 A69-18561

Miniature ball and jewel bearings and gear lubrication in ultrahigh vacuum tests for space environment operation [IME PAPER 6] 07 p1138 A69-18562

Film thickness effect on wear life of resin bonded solid lubricant film compared for various load test conditions [ASLE PREPRINT 68AM 7C-4] 07 p1139 A69-18624

Solid lubricant compacts for ball bearing separator materials, describing fabrication, design and friction and wear properties in air and vacuum 07 p1139 A69-18626

Friction and wear tests of synthetic rutile single crystals against diamond styli and spherical sliders of ruby, sapphire and hardened steel [ASLE PAPER 68-LC-3] 07 p1140 A69-19307

Aircraft tire wear determination by measuring intensity of radiation originating from point source within thread, using thulium 170 isotope 07 p1143 A69-19703

Yielding of matrix material and cell size of substructure relationship to dry abrasion resistance of SAP type aluminum alloy at room temperature 08 p1319 A69-19995

Primary silicon crystals content and grain size effect on wear of high silicon aluminum alloys 09 p1526 A69-22281

Refractory alloys electrodes used for surface coating Ti alloys by electric spark method, studying microhardness and wear resistance 10 p1711 A69-23339

Wear and friction properties of nylon and polyethylene sliding over unlubricated steel, considering adhesion theory 11 p1892 A69-25021

Evaluation of wear testing - ASTM Conference, San Francisco, June 1968 13 p2265 A69-27230

Modes and mechanisms of wear covering adhesive, abrasive and corrosive wear, surface fatigue and fretting corrosion 13 p2265 A69-27231

Friction and wear characteristics of ceramics and cermets as bearing materials, with tabulation of room temperature hardness and maximum service temperatures 13 p2284 A69-27232

Graphites wear rates and structural changes in machine parts under dynamic stresses in air or vacuum, noting pressure role 14 p2467 A69-28912

Calculated and experimental surface wear damage data correlated for materials under friction conditions 15 p2618 A69-30106

Engineering models for wearout reliability prediction in dynamical systems subject to random loading, demonstrating practical and statistical methods 15 p2705 A69-30366

Solid lubricant films friction and wear life determined under various conditions of contact, temperature, load and atmosphere [ASLE PREPRINT 69AM 6C-1] 15 p2619 A69-30471

Unlubricated wear characteristics of polyimide resin sliding against carbon steel in air, noting effects of surface temperature, bearing pressure and velocity [ASLE PREPRINT 69AM 5C-2] 15 p2619 A69-30473

Load, speed and coating thickness effect on wear life of resin bonded solid lubricant, using oscillating motion and low pressure blocks [ASLE PREPRINT 69AM 5C-3] 15 p2619 A69-30474

Hot pressed molybdenum disulfide-nickel composite film friction and wear tests in air and face seal configuration [ASLE FICFS PREPRINT 23] 15 p2620 A69-30491

Corrosive wear due to atmospheric O in sliding metal systems, noting oxidation rate relation to wear rate and activation energy [ASLE PAPER 68-LC-11] 15 p2622 A69-30605

Corrosive wear by atmospheric air and moisture under nonscuffing conditions, noting control by dry nitrogen blanketing and oil additives [ASLE PAPER 68-LC-10] 15 p2622 A69-30608

Erosion wear of graphitic and mica-ceramic materials used for sealing turbine compressors at high temperatures, including test installation 15 p2643 A69-31186

Solid solutions atomic ordering effect on friction and wear in vacuum, using CuAu and FeCo systems 18 p3149 A69-35183

Molybdenum disulfide dry film lubricant wear theory and test correlation problems, considering sintering self propagation due to chemical effect of environment 19 p3323 A69-35580

Controllable process for forming Ti-Ni intermetallic wear resistant coating on Ti alloys, discussing techniques, weight saving advantage, gear tests, etc 19 p3323 A69-35582

Titanium alloys case hardened by diffusion of various metals at high temperatures, measuring increase in wear resistance 19 p3344 A69-36153

Nylon wear curves and friction coefficients for steel-nylon pairs determined as function of normal load 19 p3329 A69-36495

Titanium alloys wear and fatigue resistance as functions of time and temperature of nitriding by purified nitrogen 19 p3347 A69-36743

Wear and friction of fiber-metal Mo bodies impregnated with molybdenum disulfide, noting coating-endurance life 20 p3547 A69-36953

Wear resistance of briquetted lubricants from fluoroplast and molybdenum disulfide under pressure 21 p3733 A69-39805

WEATHER

- Impact effects on metallic materials deformation and wear, considering impact force, time and coefficients, penetration depth, deformation energy, etc
22 p3966 A69-39876
- Wear resistant Ti carbide based cermets with alloy steel binder, noting electrical and heat conductivity dependence on composition and temperature
22 p3971 A69-40919
- Wear resistance and antifriction measurement device for polymer coatings in high vacuum, various gases and during exposure to electron radiation
23 p4169 A69-41599
- Sand erosion behavior of metals and plastics in air blast rig under varying exposure time, angles of impact and tensile stress
24 p4363 A69-42787

WEATHER NT COLD WEATHER

- Piloting aspects of jet V/STOL aircraft for poor weather operations without complicated ground aids, discussing deceleration transition, forward speed and final approach angle
01 p0010 A69-10868
- Meteorological application of ATS observations in form of time lapse movies of weather in motion, describing camera and data flow
[AIAA PAPER 68-1094] 12 p2174 A69-26804

WEATHER CHARTS U METEOROLOGICAL CHARTS

WEATHER DATA RECORDERS

- Tiros Operational Satellite system for global weather analysis data acquisition and cloud cover photography, noting sensor development for numerical weather prediction
[UN PAPER 68-95823] 01 p0108 A69-10473
- Meteorological rocket probes in Spain for wind and temperature measurements, including stratospheric circulation data
11 p1877 A69-24519

WEATHER FORECASTING

- NT LONG RANGE WEATHER FORECASTING
- NT NUMERICAL WEATHER FORECASTING
- NT STATISTICAL WEATHER FORECASTING

- Weather forecasting, discussing atmospheric models and computer operations for long range forecasting based on hydrodynamic theory and statistics
01 p0108 A69-10398

- Atmospheric model development relating temperature, density, moisture and energy measurements from satellite observations for long term weather forecasting
[UN PAPER 68-95397] 01 p0108 A69-10463

- Tiros Operational Satellite system for global weather analysis data acquisition and cloud cover photography, noting sensor development for numerical weather prediction
[UN PAPER 68-95823] 01 p0108 A69-10473

- World Weather Watch /WWW/ system and meteorological satellites, discussing observational networks, data centers, telecommunication facilities, research, education and training program
[UN PAPER 68-95209] 01 p0178 A69-10478

- Space techniques for application to civil aviation, discussing air to ground communications, air traffic monitoring and navigation and weather forecasting by satellite
[UN PAPER 68-95349] 01 p0179 A69-10490

- Satellites use in meteorology, noting monsoon rain forecasting through mesoscale sea surface temperatures of Indian Ocean
[UN PAPER 68-95355] 01 p0109 A69-10502

- Objective layer of maximum wind /LRMW/ analysis technique for Northern Hemisphere jet stream, noting generation of initial guess fields
01 p0110 A69-10689

- Meteorological probability assessors, describing framework for evaluation consistent with subjective probability theory
01 p0110 A69-10690

- Boundary layer effect on large scale atmospheric processes from analyzing two layer free atmosphere model, plotting weather forecast charts
02 p0273 A69-11435

- Correlation between CAT and thermal gradient increase at standard isobaric levels found to be potential forecasting tool
02 p0275 A69-11818

- European space programs requirements for satellite launch autonomy/independence from U.S. and U.S.S.R., discussing satellite applications for resource surveys, weather forecasting, etc
02 p0335 A69-12682

- Meteorological satellites for atmospheric data collection applicable to weather forecasting and synoptic analysis
02 p0277 A69-12778

- Short term weather forecasts by means of hydrodynamic equations in adiabatic approximation, noting atmospheric motions and processes, adiabatic invariants and meteorological fields
03 p0459 A69-13332

- Ghost project for gathering weather data by balloons and transmission of data to central data processing stations by satellite
03 p0520 A69-13621

- Temperature change and fog forecasting diagram modified by Swinbank relation in place of Brunt formula
03 p0462 A69-13965

- Tiros and ESSA weather satellites meteorological contributions, discussing photographic interpretation for weather predictions
04 p0626 A69-14690

- Interpretation technique for weather satellite photographs of spatially coherent cloud distributions
04 p0628 A69-15090

- Digital computers for global atmospheric circulation, describing circulation models and computer produced color movies utilization
04 p0628 A69-15363

- Atmospheric processes interpretation from cloud cover pictures televised by orbiting satellite, examining indirect weather forecasting
[UN PAPER 68-95713] 06 p0949 A69-17029

- Meteorological satellites data for quantitative weather forecasts, discussing error effects due to data treatment in adiabatic approximation
06 p0949 A69-17032

- Meteorological satellites in weather forecasting, contrasting satellite data continuity to discreteness of synoptic charts
[UN PAPER 68-95760] 06 p0949 A69-17037

- Meteorological rockets for space meteorology, aeronomy and weather forecasting, noting international programs involving U.S.S.R.
06 p1043 A69-17056

- European cyclonic system development phases determined from characteristic structural features of satellite cloud pictures
[UN PAPER 68-95711] 06 p0950 A69-17070

- Relation between satellite data concerning thermal microwave radiation and meteorological conditions in lower atmosphere for possible use in weather forecasting
06 p0953 A69-17995

- Dynamics of large scale processes in atmosphere extended to two week predictions using nine level hemispheric moist general circulation model
07 p1175 A69-18895

- Subjective and objective upper air forecasts for aviation comparison by isobaric pressure height fields, discussing error analysis
08 p1345 A69-19886

- Weather forecasts range and accuracy, outlining procedure for estimating growth rate of atmospheric behavior
08 p1346 A69-20600

- Radiocommunications for Tiros and Nimbus meteorological satellites, noting weather data communications and hydrological experiments
09 p1451 A69-21289

- Efficiency of weather forecasts taking into account quality criteria and integrating index number, discussing optimization principle for new parameter
09 p1534 A69-21510

- Subjective and objective upper air forecasts compared for error analysis of headwinds, noting influence of geographical location
09 p1536 A69-22074

- Wind velocities statistical properties at various altitudes, noting linear regression of orthogonal components and prediction of wind velocities at all altitudes
11 p1911 A69-24694

- Statistical method for determining accuracy of air-field weather reports on takeoff and landing conditions, visibility and cloud ceiling, correlating forecasts and actual conditions
11 p1913 A69-25205

- Stratosphere and troposphere processes analyzed, indicating feasibility of forecasting geopotential and wind fields between 12 and 24 km
12 p2126 A69-26581

- IR TV cloud pictures from meteorological satellites used for sky condition diagnostics and forecasting through automatic interpretation by image brightness quantization
13 p2291 A69-27728

- Earth TV pictures from Molniia 1 communication satellite, showing advantages of high orbit over low

- orbit photography for global weather analysis and forecasting
13 p2292 A69-27729

- Meteorological problems in Italy analyzed by digital computer program through numerical integration of atmospheric models to provide weather forecasts
13 p2295 A69-28651

- Soviet collection of articles on aviation forecasting of cloud cover, high altitude wind and turbulence
14 p2473 A69-29734

- Flight regularity and safety in complex meteorological situations, noting synoptic forecasting advantages over inertial forecasting
14 p2475 A69-29740

- Atmospheric motions equations in mesometeorology prognostic problems taking into account free atmosphere and boundary layer interactions
15 p2646 A69-30107

- Computer uses for air traffic control in Germany including flight plans and weather report data processing
15 p2650 A69-30230

- Initial uncertainties role in weather forecasting, discussing errors as represented by rms deviation of ensemble members from mean
15 p2649 A69-30894

- Meteorological satellite data application to weather analyses and forecasts, discussing sea-ice boundaries and snow fields location
15 p2650 A69-31364

- Weather forecasting potential accuracy, noting further improvement possible with present worldwide observations quality and quantity
16 p2808 A69-32385

- Weather forecasting correlation between atmospheric ozone vertical profiles and postsounding ground meteorological situation, describing computer data processing
16 p2786 A69-32629

- Meteorological forecasting as problem in fluid mechanics and thermodynamics, discussing accuracy and electronic computer role in classical or mathematical methods
18 p3166 A69-34694

- Atmospheric predictability as revealed by naturally occurring analogs, noting superposed error
20 p3573 A69-38057

- Clear air turbulence computerized analysis and forecast over U.S. using upper air rawinsonde measurements
22 p3976 A69-39927

- Minimum air temperature forecast by terrestrial thermal or long wave radiation balance measurement, using radiometer data
23 p4184 A69-42211

- Formulas for discriminant and regressive weather analysis for computer calculations under operational weather forecasting conditions
23 p4184 A69-42490

- Surface pressure field forecast by meteorological fields expansion into orthogonal components, estimating number of predictors in regression equation
23 p4184 A69-42491

- Satellite-based meteorological observation system for global atmospheric research program, discussing wind measurement, IR and microwave sounding possibilities, etc
[AAS PAPER 69-120] 24 p4307 A69-42817

- NIMBUS program individual missions characteristics emphasizing NIMBUS 3 results and weather forecasting improvements
[AAS PAPER 69-421] 24 p4392 A69-42835

- Short range aviation terminal weather predictions concerning runway visual range, cloud-base height and wind, using FAA mesometeorological network
24 p4342 A69-42892

- Liquefied propane fog dispersal at Medford-Jackson airport, Oregon
04 p0585 A69-14918

- WEATHER RADAR
U METEOROLOGICAL RADAR

- WEATHER FRONTS
U FRONTS [METEOROLOGY]

- WEATHER MAPS
U METEOROLOGICAL CHARTS

- WEATHER MODIFICATION
NT CLOUD SEEDING

- Air mass cumulus cloud growth stimulation by means of vertical updrafts capable of perforation of retaining layers
03 p0461 A69-13409

- World Weather Watch /WWW/ system and meteorological satellites, discussing observational net-

works, data centers, telecommunication facilities, research, education and training program
[UN PAPER 68-95209] 01 p0178 A69-10478

Automation of meteorological fields analysis using computer
07 p1175 A69-18677

Satellite and aerological ground station data combined to determine geopotential fields and wind velocity fields for inadequately serviced areas
13 p2292 A69-27732

Anomalous meteorological field distribution as observed by correlated stations, determining independent stations number observing same data
13 p2293 A69-27851

Seven helix antenna array components and operation mode at Berlin weather station, including biaxial rotator, preamplifier servoamplifier and VHF telemetry receiver
17 p2946 A69-33768

WEATHERING

Weathering tests on wrought aluminum alloys exposed at U.S. sites compared to British industrial atmospheric exposure results
01 p0101 A69-11354

Glass fiber reinforced plastics aging behavior under heat and weathering influence
03 p0454 A69-13823

Long term weather and radar transmission effects on three ply fabric cloth fire-retardant polyester resin radome panel
08 p1414 A69-20485

Outdoor aging effects on unstressed Al-Al lap shear joints bonded by various polymeric adhesives
19 p3320 A69-35562

WEAVING

Woven roving construction and fill/warp ratio effects on flexural strengths of four ply laminates
14 p2469 A69-29414

WEBS (MEMBRANES)

U MEMBRANES

WEBS (SUPPORTS)

Shear buckling test data for shallow corrugated webs compared with theoretical analysis with web buckling as orthotropic plate or local mode
01 p0170 A69-10866

Shear buckling of simply supported infinitely long plates orthogonally reinforced by stiffeners with flexural and torsional rigidity
11 p1984 A69-25142

Flanges flexural rigidity effect on load carrying capacity, failure mechanism and postbuckling behavior of webs in shear, noting permissible load
18 p3227 A69-35492

WEDGE FLOW

Hypersonic flow of nonequilibrium diatomic gas on and near wedge, studying shock curvature variations
01 p0005 A69-10161

Pressure distribution at wedge wall during instantaneous small variation of supersonic motion
03 p0364 A69-13662

Steady two dimensional MHD flow of perfectly conducting fluid past nonconducting wedge with magnetic field orthogonal to flow velocity
06 p0964 A69-17244

Heat transfer to wedge in nearly free-molecular hypersonic flow of strongly rarefied gas
07 p1050 A69-18707

High velocity subsonic flow past wedge in wind tunnel with perforated walls, applying solution to optimum parameter determination of suction system
07 p1050 A69-18741

Two dimensional boundary value problem for symmetrical entry of wedge into incompressible nonviscous fluid using complex variable theory
08 p1305 A69-20995

Oblique shock wave separation conditions in supersonic gas flow past wedge
09 p1483 A69-22665

Inviscid supersonic flow in right angle corner of varied angular intersecting wedges with bow waves remaining planar up to intersection line
13 p2200 A69-28251

Supersonic gas flow past wedge at zero angle of attack with separated shock wave, calculating velocity gradient at stagnation point and pressure and drag distribution
14 p2390 A69-29615

Supersonic jet flow with separated shock wave flowing past infinite wedge using Chaplygin method, assuming negligible entropy variations
14 p2391 A69-29619

Turbulent and transitional near wake of adiabatic slender wedge with and without base injection at Mach 4 in supersonic wind tunnel
[AIAA PAPER 68-100] 16 p2732 A69-31882

Mean near wake flow of adiabatic two dimensional wedge at Mach 4 with tripped turbulent boundary layers and base mass addition
16 p2733 A69-32147

Surface pressure, skin friction and heat transfer measurements on sharp flat plates and wedges in low density hypersonic flow, noting slip velocity
20 p3458 A69-37186

Linearly elastic medium supersonic flow past rigid wedge, considering longitudinal and transverse perturbations interactions, dry friction, adhesion, slip and wedge physicochemical properties
20 p3515 A69-37439

Subsonic compressible flow at two dimensional inlets, analyzing field representation, boundaries, surface configuration and optimal wedge
23 p4060 A69-41915

Inviscid hypersonic flow over oscillating slender wedge, defining equivalent phase shift
24 p4248 A69-43582

Perturbation equations for oscillating wedges and caret wings with attached bow shock in hypersonic and supersonic flows
24 p4249 A69-43659

Strong shock and Mach waves interaction generated downstream of thick wedge body shock in unsteady hypersonic and supersonic flows
24 p4306 A69-43674

WEDGES

Upper and lower bounds for eigenvalues of differential problem connected with transverse vibrations of wedge shaped simply supported beam
02 p0272 A69-12193

Boundary layer flow of viscous incompressible liquid past wedge embedded circular cylinder
04 p0590 A69-15276

Radar scattering cross section of finite perfectly conducting wedge for case of illumination by polarized plane wave
08 p1274 A69-20047

Electromagnetic diffraction for waves generated by electric quadrupole on perfectly conducting wedge, discussing finiteness and radiation emission
09 p1455 A69-22082

Asymptotic solutions for transverse oscillations of wedge and cone by virtual displacements principle, considering nonlinear law of elasticity and energy dissipation
11 p1975 A69-24762

Diffraction accompanying reflection of plane shock wave obliquely impinging on walls of obtuse wedge at finite incidence, considering Lighthill method
11 p1873 A69-25135

Plane mixed boundary value problem in elasticity theory for infinite wedge
14 p2531 A69-28809

Diffraction of skew incident plane electromagnetic wave by perfectly conducting right angled wedge embedded in uniaxially anisotropic medium
17 p2930 A69-33889

Lateral and head-on interactions between plane shock wave and supersonic wedge, showing solution dependent on apex angle and incident flow Mach number
19 p3239 A69-36398

Thermal stress distribution induced in wedge by apex heat source analyzed using elasticity theory, considering lateral surface heat transfer
21 p3833 A69-38644

Babinet compensator with birefringent wedges made of stress frozen photoelastic material rather than quartz
22 p4042 A69-40442

Eigenfunction expansion technique to analyze three dimensional crack and wedge problems, emphasizing stress field near straight edged crack
24 p4395 A69-42641

WEIBULL DENSITY FUNCTIONS

Failure distribution functions based on Eyring component aging model, including failure probability density function for Weibull and gamma type distributions
08 p1322 A69-21104

Stochastic model for calculating expected component failures in transient state from Weibull distribution failure data for first generation
09 p1504 A69-22149

WEIGHT [MASS]

NT BODY WEIGHT

NT ORGAN WEIGHT

NT STRUCTURAL WEIGHT

Runway roughness effects on aircraft, formulating relationship between weight and resonant frequency through simple harmonic motion analogy
01 p0057 A69-11274

Pressurization system for liquid rockets, analyzing inert weight and complexity reduction using Saturn 5 S-4B stage
02 p0305 A69-12386

Supercharged bypass engines for possible application in light aircraft, noting payload fractions and total takeoff weights values
08 p1254 A69-20168

Channel wall effect on gain of apparent mass of cylindrical and elliptical bodies floating in channel and subject to vertical impact
11 p1875 A69-25487

Aircraft structure geometry design for minimizing total mass concerning flutter requirements
11 p1989 A69-25493

Periodic motions in single mass impact vibration system by point transformations method, noting complexity characteristics
18 p3172 A69-34565

Automated handling of mass properties data, describing data stored, central bank, report outputs, system logic, etc
[SAWE PAPER 811] 18 p3221 A69-34899

Pneumatic Vernier engines in aircraft and spacecraft, discussing weight, gas expansion and gas temperature
21 p3785 A69-39093

Multisupport suspension arrangements for reducing reflector surface weight-loading distortion in steerable parabolic radio telescope antennas
23 p4149 A69-42128

WEIGHT ANALYSIS

Space radiators for heat rejection from nuclear powered spacecraft doubling as primary structures to save weight, discussing conical or cylindrical configurations
01 p0160 A69-10151

Lunar surface power plants, considering weight constraint for various systems using nuclear power, solar cell/fuel cells and H-O reactant regeneration
01 p0013 A69-11396

Structural designs for minimum flexibility or weight using energy intensity per unit mass parameter
02 p0345 A69-12380

Numerical method for explicit solution of aircraft mass problem based on linearization of equations describing individual aircraft section masses
03 p0367 A69-13790

Prestressing of aircraft wing stringers in order to reduce weight, noting initial bending moment, initial axial stress and prestressing methods
05 p0832 A69-15690

Equation for calculating meteor shielded tubular panel heat radiators emissivity and weight optimization, considering surface thermal balance and temperature distribution
05 p0846 A69-15897

Small column insulated delay /SCID/ aircraft seat ejection systems, illustrating weight saving
06 p0877 A69-16957

Nonlinear constrained optimization by nonrandom complex method demonstrated by minimum weight structural analysis of elastic ring and plate
06 p1022 A69-17366

Pressure garments weight reduction methods, comparing partial pressure systems equipped with bladder, capstan, airpipe or foam rubber
06 p0884 A69-18037

Computerized objective analysis of meteorological variables based on weight determination involving autocorrelations
08 p1345 A69-20309

Electrochemical generators using zinc electrode in alkaline medium, noting weight consideration of zinc/air or zinc/oxygen cells
08 p1261 A69-21049

Fiber content by weight of reinforced plastics measured by pyrolysis
10 p1716 A69-23695

Free carbon content by weight in titanium, zirconium and hafnium carbides
10 p1714 A69-23846

Weight minimizing of circular disk subjected to behavioral and side constraints, considering resonance frequency of vibration and tolerances
[ASME PAPER 69-VIBR-1] 10 p1700 A69-24159

Variable and fixed weight growth factor effect on aircraft, showing coincidence of minimum weight
11 p1987 A69-25432

WEIGHT INDICATORS

Minimum weight design of structures excited to harmonic vibrations by given single load, with intensity dependent on time

13 p2369 A69-28350

Thin film thickness determined by weighing film and substrate in liquid having same density as substrate material

15 p2607 A69-30239

Spray oil cooling to reduce aircraft generator weight, enhance reliability and lengthen overhaul intervals

15 p2552 A69-30326

Helicopter weight analysis in preliminary design and proposal field

15 p2550 A69-30463

Higher plants utilization as nutrition source in space missions, comparing weight requirements for cultivation equipment and food storage

15 p2560 A69-31408

Starting weight increments in aircraft designs having various structural features and dimensions

16 p2735 A69-32144

Optimum nonequilibrium nozzle performance for hydrogen-fluorine propellant system, considering contour, engine/nozzle weights and recombination kinetics [AIAA PAPER 69-472]

16 p2733 A69-32652

Aircraft auxiliary power systems, discussing weight and power requirements, component design, driving methods and influence on power plant design

17 p3018 A69-33217

Parametric thermal control weight and power requirements for spacecraft life support systems, considering number of cabins, crew activity, heating, cooling and regeneration

17 p2914 A69-33305

Minimum weight design of tiltable enclosed antenna structure as subject to deformation constraints

18 p3211 A69-34341

Computer-aided design application to mass property engineering, describing repetitive mathematics functions, design information retrieval and display, automated synthesis, etc

18 p3107 A69-34863

Weight estimation and forecast in manned spacecraft design, noting size and weight relationship

18 p3208 A69-34864

Rational vehicle weight estimation based on statistical data/REBOS/ including gross weight, weight coding, subdivisions, balance and size, inertia moments and products, etc

18 p3220 A69-34866

Advanced design weight analysis and fixed equipment and propulsion systems weight prediction, noting error probability

18 p3220 A69-34867

Weight estimation of structures and systems unique to VTOL aircraft, considering remote fan and high bypass engine lift propulsion concepts

18 p3090 A69-34868

Weights study of V/STOL aircraft types for similar mission and payload requirements with different propulsion systems and flight profiles

18 p3091 A69-34869

Army OH-6A helicopter light weight design, considering effects of WRAP/weight, radius, area, power/factors on empty weight

18 p3091 A69-34870

Market analysis program to evaluate relationship between launch vehicle jettison weight and total cost based on all projected missions

18 p3208 A69-34872

Aerospace vehicle mass property limits and dynamic balancing related, noting errors

18 p3208 A69-34875

Earth orbital entry vehicles weight prediction, noting vehicle geometry as function of vehicle shape, hypersonic lift drag ratio and crew size

18 p3208 A69-34876

Statistical weight estimation equations developed by constrained regression analysis, noting application to vertical tail of cargo/transport aircraft

18 p3220 A69-34879

Gross weight and aircraft size estimates for configuration design of fighter aircraft

18 p3220 A69-34880

STAN integral weight and balance system providing aircrews with takeoff gross weight and CG data

18 p3136 A69-34882

Satellite attitude control mass properties, showing weight tradeoff analyses role in selecting control system

18 p3208 A69-34885

Computer program for weight and center of gravity tolerance data for assembly aerospace vehicle

18 p3221 A69-34892

Design iteration loop calculations related to fighter aircraft weight growth factor, noting asymptotic aircraft performance and strength

18 p3221 A69-34893

Synthesis and integration of cross discipline function for weight effective design of airplanes

18 p3221 A69-34895

Aerospace structures optimization, discussing weight considerations and finite element techniques

18 p3221 A69-34896

Aircraft preliminary design weight and volume characteristics relation to aircraft density

18 p3221 A69-34897

Parametric approach for weight estimation of surface control systems of transonic and supersonic combat and subsonic transport aircraft

18 p3221 A69-34898

Analytical-statistical weight prediction to derive and apply correlation expression, illustrated with bending stress equation applied to aircraft wing group

18 p3221 A69-34900

Computer aided design analysis program to provide weight and sizing data for entry spacecraft

18 p3208 A69-34903

Crane helicopters for heavy lift transport mission, noting weight and size effect on productivity

18 p3091 A69-34905

Monograph on weight and performance tradeoff methodology for selection of high lift devices

18 p3091 A69-34906

Lockheed L-500 aircraft weight consideration in structural design as all cargo lifter, describing engine thrust, payload, options, etc

18 p3092 A69-35464

Two stage vehicle gross weight minimization determined by slide rule computation using formula based on specific impulse differences between stages

19 p3429 A69-35918

Power subsystem weight effects on temperature ratio of Rankine type cycle, discussing method for rapid estimation

19 p3254 A69-35957

Ammonium chlorate thermal decomposition by measuring formed noncondensable gas pressure and weight loss in solid state kinetic investigation

21 p3669 A69-38800

RMS surface error compensation in radome-housed Cassegrain parabolic antenna including weight analysis

23 p4150 A69-42137

Maximum admissible weight of structural elements required for conventional wing conversion into variable geometry wing without performance impairment

24 p4253 A69-43092

WEIGHT INDICATORS

NT MICROBALANCES

NT STRAIN GAGE BALANCES

Magnetic suspension system used as dynamic balance for wind tunnel models, discussing delta wing test results

19 p3292 A69-35738

Wind tunnel model one component magnetic support and balance system for sphere drag investigation at subsonic Mach numbers

24 p4298 A69-43714

WEIGHT MEASUREMENT

Relative weight of fuel required for flight along prescribed flight trajectory

03 p0519 A69-12964

Onboard aircraft weighing system/OBAWS/ for accurate gross weight and CG measurements, describing axle shear deflection transducer system

10 p1693 A69-23276

Aircraft structural weight optimization based on design consideration of grouped related elements, noting application to Boeing 747 trailing edge flap drive

18 p3220 A69-34881

Aircraft onboard weighing system, eliminating or ring seal friction to permit accurate measurement of oleo strut pressure

18 p3137 A69-34883

Aircraft on board weight and balance system, discussing operations and economics programs

18 p3091 A69-34901

Weight estimation inaccuracies due to use of quickie equations, discussing error and extrapolation avoidance in wing weight study

18 p3222 A69-34904

Oscillating fiber microbalance for direct mass determinations in .1 mg to .0001 microgram range

21 p3720 A69-38592

WEIGHTING FUNCTIONS

Structural weight fraction factor analysis leading to improvements in materials and structures

01 p0011 A69-11021

Integral operators on space of Borel measurable functions bounded considering weight function, giving condition for infinite complex matrices, mapping analytic sequence spaces

01 p0107 A69-11244

Weighting functions for finite optically thick atmospheres, discussing emission line formation

02 p0328 A69-12755

Optimum control of fourth order digital control system

03 p0408 A69-12916

Weighting functions effect in calculating average scalar electrical conductivity in Lorentzian gas

04 p0638 A69-15317

Weighted pulse trains for clutter suppression during radar target detection

04 p0562 A69-15467

Digital controller weighting function sectionalization to simplify logic in developing adaptive control system

05 p0739 A69-16386

Optimum gathering of information for linear automatic control system with distributed parameters in presence of random input disturbance

09 p1471 A69-21437

Singular integral equation for velocity in linearized Rayleigh problem in rarefied gas flow field solved by applying Luke weight coefficients

10 p1679 A69-23596

Discrete Fourier transforms, discrete linear filters and spectrum weighting for purpose of sidelobe reductions

10 p1666 A69-23888

Optimum automatic selection of redundancies, discussing weighting and pivot choice and rigid element incorporation

11 p1993 A69-25529

Polynomial coefficients multiplication by weighted damping factors for increased conformal mapping and boundary value problems solutions accuracy for doubly connected regions

12 p2178 A69-25998

Amplitude spectra of periodic pulse sequences or pseudonoise sequences calculated using weighting and shape functions

12 p2030 A69-26389

Weighting factors relation in optimal systems integral squared error/ISE/ cost functional, characteristic coefficients and time response performance measures

14 p2534 A69-29317

Earth polar coordinates determined from latitude observations, discussing weighting functions for determining polar motion

17 p2959 A69-32869

Compressed signal spectral analyzer resolving power, discussing dynamic amplitude range influence and weighting functions role

17 p2939 A69-33906

Weighting coefficients calculations by recursive algorithm for designing optimal discrete adaptive Kalman filter

20 p3509 A69-37142

Weighting function of statistically optimal automatic dynamic system generating stochastic loads, using Fredholm equations

21 p3688 A69-39861

Active weighted pulse compression radar receiver output waveform analysis for amplitude, phase and frequency modulation, noting effects of spectrum weighting mismatch parameter

23 p4132 A69-42548

Correcting deficiencies in parametric expressions for rate distortion function of Gaussian process under weighted square error criterion

24 p4281 A69-42722

Weighting function of linear dynamic plant with steady random sampling determined with iterative method similar to stochastic approximation

24 p4289 A69-42951

Composite and metal tubes compared to determine properties for various loadings

24 p4405 A69-43653

Helix to coil transition for triple stranded macromolecule in solution, calculating ring weighting and partition functions and intact bonds

24 p4353 A69-43812

WEIGHTLESS FLUIDS

Excessive extrapolation limitations in applying transient data to low gravity fluid behavior for orbital refueling systems, presenting orbital fluid transfer experiment

16 p2870 A69-32755

WEIGHTLESSNESS

Wheat seedling germination and growth processes in absence of gravitational force onboard Biosatellite 2
01 p0015 A69-10932

Monkey psychomotor reactions during ballistic flight, noting alertness reduction during weightlessness
01 p0017 A69-11082

Weightlessness effects on fertilized frog egg development on board Gemini 8 and 12 manned orbital flights, discussing cell division, differentiation and embryogenesis
01 p0017 A69-11084

Soviet book on human movements coordination during space flight covering space walks, lunar surface photographs, space docking, weightlessness, etc
01 p0018 A69-11180

Heat transfer procedure and equipment during boiling under short term weightlessness
01 p0177 A69-11313

Weightlessness effects on organism in space flight along parabolic trajectories, discussing interaction between analysors
02 p0197 A69-11499

Physiological processes occurring in voluntary movements of animals under space flight weightlessness conditions
02 p0199 A69-11827

Weightlessness effects research during Soviet and U.S. manned space flights
02 p0199 A69-12120

Physiological causes and prevention of motion sickness during space flight, emphasizing conditioned reflex, different analysors interactions and vestibular-vegetative changes during weightlessness
02 p0200 A69-12122

Voskhod 1 and 2 crew performance, orientation and motor activity analysis indicating time increment for task performance, psychophysiological irregularities and visual analysors impaired functioning
02 p0203 A69-12123

Soviet collection of articles on dynamics of fluid-containing bodies under weightlessness conditions
03 p0417 A69-13808

Ideal liquid small oscillations in vessel under close to weightlessness conditions, discussing surface tension, equilibrium conditions and solution by decomposing vector function space
03 p0418 A69-13811

Space environment barriers to man due to biological evolution and transition from land to space in single generation, noting orientation problems
03 p0380 A69-14067

Simulation of regulatory function of cardiovascular system during weightlessness
03 p0376 A69-14193

Weightlessness effect on blood circulation system of human beings and animals during suborbital/ orbital space flight
03 p0376 A69-14194

Cardiovascular system, respiratory system and metabolism of cosmonauts on three man flight of Voskhod, noting physiological and biochemical studies
03 p0377 A69-14195

Physiological mechanisms of weightlessness on human organism, discussing adaptation to weightlessness
03 p0377 A69-14197

Biological space research, discussing microecology and weightlessness effects on human space flight [DVL-847]
04 p0553 A69-14811

Collection of papers on hypodynamics and hypogravities, physiology of inactivity and weightlessness
06 p0872 A69-17010

Weightlessness simulation, discussing mechanics of biological effects, simulation of specific anticipated effects and concept of mechanical acceleration and gravity equivalent effects
06 p0879 A69-17012

Cellular effects on weightlessness noting relation to size and cell complexity
06 p0872 A69-17013

Energy metabolism changes during weightlessness, considering effects on basal and nonbasal requirements connected with added increments for activity
06 p0872 A69-17014

Orthostatic intolerance, with assessment of circulatory problem of weightlessness in prolonged space flight
06 p0873 A69-17016

Musculoskeletal system and weightlessness state, concerning muscular disuse atrophy possibility during prolonged space flights
06 p0873 A69-17018

Physiological response of human skeleton to hypogravity and hypodynamics studied by bed rest experiments, suggesting disuse atrophy of bone
06 p0873 A69-17019

Soviet astronaut experiences and visual impressions during space walk outside Voskhod 2, noting dominance of optical analyser in space perception and orientation
[UN PAPER 68-95717] 06 p1000 A69-17049

Psychomotor reactions to zero gravity during ballistic rocket flights, analyzing electrical activity of cortex in animals
06 p0874 A69-17649

Flour beetle under irradiation and weightlessness during space flight, analyzing effects on somatic wing development, germ cells and pupal period
06 p0876 A69-18177

Rules for selecting Soviet cosmonauts and physiological studies concerning heart and respiratory reactions to accelerations and weightlessness during preparation
07 p1060 A69-18569

Soviet cosmonauts physiological reactions during weightlessness, analyzing EKG, arterial pressure, heart and respiratory rates and motion coordination
07 p1060 A69-18570

Gravitational effects during physiological functions formation of human organism, noting myogenic tonus rearrangement as primary response
07 p1060 A69-18572

Physiological aspects of weightlessness
07 p1060 A69-18573

Human sensory reactions to short term weightlessness
07 p1060 A69-18574

Physiological reactions of dogs during acceleration and weightlessness in suborbital flights of ballistic rockets
07 p1061 A69-18577

Statistical study of heart beat, respiration rate and arterial pressure of man during intermittent accelerations and short term weightlessness
07 p1061 A69-18579

Human vestibular reactions during weightlessness preceded and followed by acceleration
07 p1061 A69-18581

Astronauts increased heart beat, respiration rates and higher blood pressure subsides during repeated weightlessness tests
07 p1061 A69-18582

Human and animal cardiovascular system reactions to weightlessness, noting vagus nerve role in adjusting organism
07 p1061 A69-18583

Human vestibular and sensory reactions to rotation and rocking, Coriolis acceleration and vestibular reaction inhibition on ground test stand for effects of temporary weightlessness
07 p1062 A69-18586

Vestibular-vegetative reactions during angular and Coriolis accelerations alternating with weightlessness, noting increased parasympathetic and sympathetic activity
07 p1062 A69-18587

Oculomotor muscular tonus of rabbit during rocket flight acceleration and weightlessness
07 p1062 A69-18590

Decrease in bioelectric activity of skeletal muscles in animals and man during intermittent acceleration and weightlessness
07 p1062 A69-18591

Human motor reactions during weightlessness based on parabolic or orbital space flight observations, noting cosmonaut writing performance
07 p1063 A69-18595

Space flight crew efficiency during prolonged weightlessness, stressing preflight adaptation and space vehicle technology improvement
07 p1063 A69-18596

Drosophila melanogaster flies reproductive behavior and Tradescantia paludosa chromosome patterns after weightlessness onboard Vostok 3 and 4
07 p1063 A69-18597

Arbitrary human motions coordination in reorganization phases determined during weightlessness for cyclographic analysis of adjustment time
07 p1065 A69-18979

Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects
07 p1065 A69-18981

Weightlessness effect on critical heat flow during forced motion of water in different kinds of channels
07 p1243 A69-19616

Human organism reaction to prolonged limitation of muscular activity during weightlessness simulated by

bed rest, noting hypokinetic component of weightlessness
08 p1262 A69-19837

Vestibular analyser role in spatial orientation under weightlessness conditions during aircraft flights, discussing underestimations of rotation angle of Barany chair
08 p1262 A69-19840

Electrodes behavior for fuel cells with liquid electrolyte under high-g and weightlessness conditions, discussing spontaneous liquid motion
08 p1259 A69-21038

Animals in weightless state, noting vigilance, attention, sensorial and motor reaction time, muscular tone at rest and muscles electrical activity in movement
09 p1445 A69-22721

Monkey behavior in high atmosphere under weightless conditions, discussing problems connected with biological measurements, logic systems and vibration protection
09 p1447 A69-22722

Macaque monkeys in weightless state on sounding rocket, noting vigilance level and characteristics
09 p1445 A69-22724

Liquids in zero g environment for controlling position of propellant within tank for restart of rocket engine, noting minimum energy principle applications
11 p1944 A69-25599

Weightlessness and higher g values effects on caloric and rotational nystagmus
12 p2020 A69-26551

Weightlessness effects on human external respiration, gas exchange and energy expenditure indices during flight of Voskhod 2
12 p2020 A69-26563

Weightlessness and vibration effects on soft red winter wheat seedlings
15 p2557 A69-31368

Liquid free surface response to mass force variation during space flight near zero-g, discussing effects on ignition
16 p2866 A69-31735

Weightlessness problems, discussing artificial gravitation on spacecraft and astronaut experiences
16 p2746 A69-31930

Electrodes for fuel cells with liquid electrolytes, discussing problems under weightless and high gravity situations
16 p2738 A69-32409

Human motion coordination under acceleration followed by weightlessness during jet flights along Keplerian orbits, discussing initial disturbance and subsequent subsiding
17 p2907 A69-32938

Oxygenator for weightlessness operation, generating oxygen electrolytically and passing oxygen through membrane for animal experiments
17 p2903 A69-33039

Bedrest as analog of weightlessness, evaluating role of extravascular dehydration in postrecumbency orthostatism
17 p2909 A69-33179

Pulmonary mechanics during zero gravity maneuvers, noting decrease in flow rate and increase in expiration time without decrease in vital capacity
17 p2909 A69-33181

Compensative adaptational reactions to weightlessness, discussing blood supply to thorax area, external respiration, gas exchange and energy loss during parabolic and orbital flights
17 p2909 A69-33384

Hand movements in water environment, weightlessness and normal gravity conditions, discussing inner coordinative structure and muscular efforts
17 p2915 A69-33385

Compensatory reactions to prolonged weightlessness in human and animal organisms emphasizing blood circulation, heart, metabolism, digestive and nervous systems
17 p2909 A69-33577

Space research centrifuge counteracting null gravity physiological deconditioning, discussing linear and angular accelerations sensitivity and deconditioning effect on reentry task performance
18 p3114 A69-34368

Gravity independence of life processes in terrestrial organisms concluded from zero gravity experiments with algae, hatched larvae, etc
18 p3095 A69-34692

Manufacturing in space based on nongravity and hard vacuum environment, considering crystal growth and refinement, perfectly shaped bodies, refractory metals ultrapurification, etc
18 p3234 A69-35066

Space manufacturing operations program, discussing zero gravity effect during earth orbit flight, Apollo Applications Program Orbital Workshop Flight 2, etc 18 p3208 A69-35067

Materials and products fluid state processing in space, discussing g, zero-g and induced forces effect on fluid matter and process, cost and operational effectiveness 19 p3324 A69-35588

Materials processing in space, suggesting electronic single crystals preparation, materials melting and utilization of low g earth orbit environment 19 p3324 A69-35589

Motor and tonic reactions in animals during weightlessness, discussing interaction between gravity receptors and visual analyzer 20 p3470 A69-37247

Orientation reflexes of animals in weightlessness, analyzing turnover, vestibular and cervix reactions using motion pictures 20 p3470 A69-37248

Otolith apparatus functioning under weightlessness and accelerations in test stand experiments, discussing measuring techniques and nystagmic reaction durations 20 p3471 A69-37253

Combined angular and centrifugal acceleration effects on human and animal eyes motion studied to explain weightlessness effects on humans 20 p3471 A69-37257

Spacecraft rotation and astronaut head and body motion as stimuli for vestibular analyzer function study during weightlessness 20 p3473 A69-37275

Weightlessness tests during parabolic flight to supplement vestibular tests in astronaut selection 20 p3481 A69-37276

Arbitrary human motions coordination in reorganization phases determined during weightlessness for cyclographic analysis of adjustment time 20 p3479 A69-38227

Time perception capacity of astronauts and jet pilots during brief weightlessness, noting emotional state effects 20 p3480 A69-38229

Biological responses to weightlessness prediction, considering gravity perception mechanisms, cellular metabolism, etc 21 p3656 A69-38921

Human susceptibility to motion sickness under Coriolis acceleration during parabolic flight weightlessness 21 p3659 A69-39168

Motion sickness susceptibility during parabolic flight, comparing weightlessness and hypergravity effects on normal and labyrinthine-defective subjects 21 p3660 A69-39176

Cardiovascular changes induced in animals by prolonged weightlessness, using implanting polyethylene cannulas in neck or head 23 p4108 A69-41824

Pulmonary mechanics during zero gravity maneuvers, noting decrease in flow rate and increase in expiration time without decrease in vital capacity 23 p4089 A69-41825

Zero g deployment dynamics of erectable truss parabolic antennas, obtaining latchup loads as function of reflector mechanical energy [AAS PAPER 69-336] 24 p4398 A69-42827

Space manufacturing processes for orbital low and zero gravity environment, discussing buoyancy and thermal convection sensitive and molecular forces controlled methods [AAS PAPER 69-486] 24 p4380 A69-42844

Dielectrophoretic zero gravity cryogenic liquid expulsion using lightweight high voltage ribbon electrode conduits and electrohydrodynamic bang-bang field effect 24 p4300 A69-43237

Cardiopulmonary bypass developed for studies of long term weightlessness on cardiovascular system of mice, white rats and squirrel monkeys 24 p4278 A69-43394

WEIGHTLESSNESS SIMULATION

Organic reaction and adaptation of rabbits and dogs to simulated weightlessness and acceleration compared with orbital flight data of human responses 03 p0376 A69-14192

Weightless simulators effectiveness for obtaining space systems maintainability criteria, using non-parametric experimental design for performance data 06 p0882 A69-17648

Psychotechnical problems of weightlessness, considering cohesive forces, surface tension and mechanical behavior of fluids and weightlessness simulation techniques 07 p1070 A69-18568

Subjects sensory reactions to weightlessness during parabolic flight, studying coordination of writing, eating and drinking motions 07 p1060 A69-18575

Otolith apparatus response threshold under weightlessness conditions simulated by aircraft flight, measuring galvanic current threshold for banking 08 p1263 A69-19934

Simulated weightlessness used in determining ontogenesis of otolith organ in tadpoles and eggs as function of acceleration forces [DVL-855] 10 p1647 A69-24021

Friction damping properties of deployed structures vibrating in weightless state compared to damping in space for true determination 12 p2183 A69-26792

Space flight food evaluation by metabolic balance techniques during space flight simulation, considering food consumption during weightlessness 15 p2560 A69-31470

Mechanical linear accelerator simulating acceleration, shock and weightlessness, noting data acquisition and interpretation 17 p2945 A69-33423

Real time servo driven simulator of human body in zero-g activity used to study self induced rotation and astronaut mobility under thruster forces 21 p3664 A69-39034

Neutral buoyancy simulation of astronaut performing module replacement and repair task in zero-g environment [AIAA PAPER 69-1005] 22 p3921 A69-40379

WEIGHTS [COEFFICIENTS]

U COEFFICIENTS

WELD STRENGTH

Electrode indentation in resistance spot welds related to weld strength for titanium, steel and aluminum alloy 01 p0086 A69-10538

Butt weld fatigue properties improvement in maraging steels, using shot peening and prestretching 03 p0434 A69-13762

Spot weld strength of tungsten inert gas spot welding on Al-Mg-Si sheets greater than resistance welding, noting crack formation during inert gas welding 05 p0769 A69-16538

Welding of thermoplastic polycarbonate films, noting dryness requirement for satisfactory weld strength 06 p0930 A69-17094

Titanium surface impurities effect on porosity in welds, proposing machining immediately before welding as solution 06 p0945 A69-17894

Titanium alloy interaction porosity with fillers during diffusion brazing, discussing joint strength as function of time, temperature and pressure 06 p0945 A69-17896

Maraging stainless steel for manufacturing liquid rocket propellant tanks, discussing composition determination and mechanical properties 07 p1166 A69-19236

Weld mechanical properties of Ti-6Al-2Sn-4Zr-2Mo titanium alloy as function of cooling rate changes or transformation rate shifts resulting in wide range of hardnesses 08 p1318 A69-19965

Weldability of maraging steels, suggesting factors for weld toughness and reliability 08 p1320 A69-20408

High strength steels welding processes effects on weld metal composition and microstructure, heat affected zone, etc 08 p1320 A69-20410

Friction welding of aerospace materials, discussing joint strength and dissimilar materials 09 p1508 A69-22335

IR nondestructive, in-process microweld evaluator, discussing energy correlations and tensile strength 09 p1510 A69-22347

Weld discontinuities effects on fatigue strength of Al welds tested to determine unaffected defect size and severity of discontinuities 09 p1527 A69-22372

Thermomechanical treatment effect on VT15 Ti alloy properties and welds after deformation, attaining high tensile strength and plastic properties 11 p1889 A69-24277

Aluminum alloy weld tensile strength increased by heat treatment, discussing weld porosity due to surface film of absorbed hydrogen 11 p1891 A69-24896

Weld defects effects on static and fatigue properties of weldments prediction, including tests of titanium-aluminum-vanadium joints 11 p1892 A69-24932

Microcracking susceptibility studies of Inconel 718 weld heat affected zones, noting hot ductility, weld circle patch and fillerless fusion welding tests 11 p1905 A69-24932

Multiple repair welding effects on AL welds tensile strength, using conductivity measurements to monitor strength 15 p2631 A69-31509

Sigma phase and temperature effects on toughness austenitic stainless steel weldments 18 p3150 A69-35423

Nickel maraging steel weld metal impact strength and fracture toughness improved by heat treatment 18 p3151 A69-35430

Electron beam welds orientation effects on tensile and deformation properties of strengthened and welded austenitic stainless steels 18 p3151 A69-35432

Tensile and stress rupture strengths of diffusion bonded Ni superalloys, using spin tests of simulated hollow turbine disks 19 p3320 A69-35559

Weld defect data analysis in relation to aerospace structure performance, emphasizing effect on fatigue behavior and acceptance standard [SBAC PAPER 17] 20 p3550 A69-37450

Al alloys sheet, plate and weldments crack behavior and fracture toughness at cryogenic temperatures, using notched and surface flawed plane strain specimens [ASM PAPER W9-19.3] 21 p3743 A69-38669

Single run reheated weld wrought steel H cracking tested by constant load rupture /static fatigue/ technique 24 p4320 A69-42943

WELD TESTS

Mechanical properties of AZ5G-Zr-Cr alloy welded sheet subjected to biaxial stress at low temperature 01 p0088 A69-11152

Fracture toughness of Ni maraging steel weldments, using bending tests [AIAA PAPER 68-507] 03 p0450 A69-13919

Sheet steel composition effect on gas-tungsten arc welds porosity 04 p0607 A69-15219

Fully austenitic stainless steel welding electrodes for welds in cryogenic or high temperature applications, noting creep rupture test results 04 p0607 A69-15220

Nondestructive testing of welds - Conference, Chicago, January-February 1967 07 p1139 A69-18794

Nondestructive weld tests of propellant tanks in Saturn V-S-1C stage 07 p1140 A69-18798

Leak testing of welded pressure and vacuum vessels, considering nature of flow of gases through small restrictions 07 p1140 A69-18799

Integrated nondestructive testing systems to ensure welded assemblies reliability for Saturn 5 program, including surface defect detection 07 p1117 A69-19699

Mechanical properties of welds of niobium and Ni based heat resistant alloys and susceptibility to crack formation at high temperatures 09 p1504 A69-22146

IR nondestructive, in-process microweld evaluator, discussing energy correlations and tensile strength 09 p1510 A69-22347

Weld defects effects on static and fatigue properties of weldments prediction, including tests of titanium-aluminum-vanadium joints 11 p1892 A69-24932

Vacuum effects on resistance spot welds in aluminum, stainless steel and titanium alloys, noting X ray and tensile shear test results 12 p2103 A69-26622

Micrographic reagent coloring grains of Mo in relation to crystalline orientation applied to refractory metal welding and diffusion studies 14 p2505 A69-29221

Aircraft gas turbine parts design and fabrication, discussing role of welding techniques 15 p2629 A69-30928

Delta technique for ultrasonic weld inspection, noting ability to detect randomly oriented weld defects 15 p2631 A69-31508

Automatic ultrasonic inspection device search head, servomechanism and electronic system used for detecting weld defects and cracks

18 p3137 A69-35111

Standard reference radiographs for weld defects on steel sheets and plates

18 p3150 A69-35425

H concentration and pore formation in Ti fusion welds

24 p4319 A69-42885

Structural detection in steel welded joints using higher harmonics from eddy current sensing element

24 p4319 A69-42886

Thickness direction tensile properties, ultrasonic attenuation and mild steel plate lamellar tearing in multipass fillet joints measured by weld cracking test

24 p4320 A69-42942

WELDABILITY

Aluminum-Zn-Mg alloys: weldability, discussing base metal composition and heat treatment influence during gas-shielded arc welding

01 p0086 A69-10536

Fusion, resistance and pressure welding of titanium, discussing shielding, brazing, diffusion and adhesive bonding

02 p0253 A69-12064

Weldability of thermally stable titanium alloy, noting properties of electron beam and submerged arc welding

06 p0940 A69-17092

Aluminum alloy weld tensile strength increased by heat treatment, discussing weld porosity due to surface film of absorbed hydrogen

11 p1891 A69-24896

Weld cracking sensitivity of Inconel 713C investigated for determining aluminum content effect on weldability of nickel base heat resistant alloys

11 p1906 A69-25577

Heat treatable low alloy steels weldability for lightweight ultrahigh strength pressure vessels, gear and shaft fabrication in aerospace applications

12 p2100 A69-25827

Highly alloyed steels weldability, considering nickel maraging and precipitation hardening stainless steels

12 p2111 A69-25829

Aluminum alloys precipitation hardening types requiring solution heat treatment, quenching and artificial aging, noting advantages in strength and weldability

13 p2282 A69-28180

Maraging steel weldability, discussing residual stresses, hydrogen cold cracking, age hardening and hot cracking

15 p2617 A69-30098

Ti alloys commercial applications and properties, discussing alloying elements influence, deformability, weldability, stress corrosion and market trends

16 p2801 A69-31784

Mechanical properties and weldability of austenitic steel for cryogenic applications

18 p3158 A69-35417

Aircraft structures efficiency and weldability as function of application, welding procedures and metallurgical factors, considering high strength Al alloys, Ti and Ni alloys, etc

20 p3550 A69-37457

Minor element effects on Ni alloy weldability - Conference, Houston, October 1967

22 p3966 A69-39878

Minor element influence on high temperature weldability of high Ni alloys and weld quality

22 p3967 A69-39879

Minor elements effect on cracking sensitivity of weld heat affected zone in Hastelloy alloy X, noting hot tearing and midrange cracking

22 p3967 A69-39881

Minor elements effect on weld-metal cracking resistance of wrought Ni-base heat resistant alloy by Circular Patch Test

22 p3967 A69-39882

Mn, S and rare earth additions influence on Inconel alloy weld microfissuring including material, hot ductility and tensile strength data

22 p3967 A69-39883

Ti, Al, S and P influence on Ni alloys weldability, discussing chemical composition, susceptibility to hot cracking and ductility temperatures

22 p3967 A69-39884

Composition and thermal treatment effects on weldability of precipitation hardened Ni base alloy, analyzing heat affected zone cracking sensitivity

22 p3968 A69-39885

Weldability of alloy Ni-Cr-Fe base-filler alloy combinations, noting threaded mold test and surface fissures

22 p3968 A69-39886

High strength austenitic Cr-Mn-Ni steel applicability to welded pressure vessels for cryogenic fluid storage, discussing operating temperature stability, weldability, etc

23 p4175 A69-41475

WELDED JOINTS

NT SPOT WELDS

Natural aging effects on fracture characteristics of aluminum weldments, investigating precracked Charpy impact toughness

01 p0086 A69-10537

High strength steel welding with physical properties equal to parent metal, discussing gas tungsten-arc, electron beam and plasma arc techniques

01 p0088 A69-11399

Laser applications in metal working including dissimilar metal welding, hole drilling, material removal and dynamic balancing [ASTME PAPER MR68-406]

02 p0252 A69-11796

Ultrasonic quality control test methods for melt through welds in hydraulic line assemblies, noting equipment and surface roughness requirements

02 p0252 A69-11810

Shot peening effect on fatigue properties of maraging and Al-Zn-Mg alloy steel welds, using repeated tensile tests

02 p0253 A69-12061

Delayed rupture strength of metals and welded joints at fixed stress level

04 p0674 A69-14541

Cavities elongation in automatic inert gas shielded welds in titanium alloys

05 p0767 A69-15972

Ultrasonic inspection of soundness and penetration or corner welds for Zircaloy 2 casings, discussing method reliability and sensitivity limits

07 p1141 A69-19346

Weld defects, discussing criteria for rejection, harmful and harmless defects, welding process and procedures and weld vs base metal defects

07 p1143 A69-19696

IR nondestructive, in-process microweld evaluator, discussing energy correlations and tensile strength

09 p1510 A69-22347

Automatic plasma needle arc fusion welding for computer memory arrays and miniature electronic devices

09 p1511 A69-22355

Weld discontinuities effects on fatigue strength of Al welds tested to determine unaffected defect size and severity of discontinuities

09 p1527 A69-22372

Arc welding aluminum to steel using bimetal transition insert piece

11 p1891 A69-24929

Narrow gap gas metal arc welding process in spray transfer range for narrow welds in thick plates, discussing equipment and applications

11 p1891 A69-24930

Weld defects effects on static and fatigue properties of weldments prediction, including tests of titanium-aluminum-vanadium joints

11 p1892 A69-24932

Electron beam welding of Lunar Module Descent Engine, emphasizing variable area injector element and manifold assembly problems and techniques

12 p2102 A69-26621

Aluminum-boron metal matrix composite joining methods including electron beam, resistance spot, plasma arc and fusion welding [ASM PAPER W9-23.4]

14 p2455 A69-29449

Pulsed ruby lasers for welding fine wires for electrical interconnections, considering laser energy and pulse duration effects

15 p2617 A69-30097

Diffusion bonding for leaktight joints in connectors using intermediate metal system of Au-Cu-Au

15 p2617 A69-30100

Adhesive pressure welded joints tightness and fabrication stability analyzed on duraluminum sheet samples

17 p2978 A69-32949

Seam and stitch welding in miniaturized semiconductor package fabrication, including leak rate tables

18 p3149 A69-35272

Dual filler metals for increasing joint efficiency by changing fusion zone composition, discussing mechanical properties in Ti and Al plates welding

22 p3956 A69-40462

Joints structure, phase and chemical composition in kinetics of titanium diffusion brazing with copper

22 p3958 A69-41203

Mechanical properties of welded joints in Kh 18N9T steel at very low temperatures using austenitic-ferritic and austenitic welds

22 p3958 A69-41204

Room temperature tensile tests determining failure modes and defect influence on diffusion welds of unalloyed Ti, using electron microscopy and fractography

24 p4331 A69-42939

Porosity and inclusions effects on Al arc weld fatigue properties at ambient and cryogenic temperatures

24 p4331 A69-42940

WELDED STRUCTURES

Electron beam welding of beryllium, discussing procedures, weld quality and tensile strength efficiencies

02 p0252 A69-11863

Integrated nondestructive testing systems to ensure welded assemblies reliability for Saturn S program, including surface defect detection

07 p1117 A69-19699

Constructional HY steels for high stress critical welded structures, discussing fracture mechanics stress intensity factor

08 p1333 A69-20405

High pressure vessels welding reliability improvement, discussing edge profile, air expulsion from vessel and shielding atmosphere

11 p1892 A69-25670

Steels classification for welded construction according to heat treatment and metallurgical structures

12 p2111 A69-25826

Diffusion bonded Ti honeycomb sandwich, demonstrating structural integrity, efficiency, low weight and cost effectiveness

12 p2115 A69-26828

Automatic ultrasonic instrument monitoring on-line welding conditions of RF longitudinally seamwelded tubes

18 p3136 A69-34778

Seam welded U-type fin efficiency and effectiveness, studying effects of fin height, heat transfer coefficient and thermal resistance

19 p3452 A69-36371

Al alloy application to welded primary airframe structures, discussing welding processes with emphasis on fusion welding [SBAC PAPER 4]

20 p3549 A69-37445

Weld defect data analysis in relation to aerospace structure performance, emphasizing effect on fatigue behavior and acceptance standard [SBAC PAPER 17]

20 p3550 A69-37450

Seam welded Al alloy aircraft structure fabrication problems, emphasizing stress corrosion [SBAC PAPER 5]

20 p3550 A69-37454

Electron beam welding machine modifications for welded airframe components production, discussing work chamber, vacuum system and workpiece mounting [SBAC PAPER 13]

20 p3550 A69-37455

Aircraft structures efficiency and weldability as function of application, welding procedures and metallurgical factors, considering high strength Al alloys, Ti and Ni alloys, etc

20 p3550 A69-37457

Stress corrosion cracking of welded Al alloys in sea water solution, showing combined action of sustained stress, corrosive environment and heat treatment

21 p3748 A69-39492

Three dimensional welded structure of thin walled girders with stability loss, discussing welding strain gage measurements and simplified computational procedure

23 p4169 A69-42007

Welded honeycomb sandwich structures of Ti, steel and similar materials for use in extreme thermal and acoustical environments [AIAA PAPER 68-973]

24 p4326 A69-43716

NT ULTRASONIC WELDING

Welding procedure for avoiding hydrogen cracking in high strength steels, stressing hydrogen escape from weld deposits 01 p0088 A69-11398

Welding use in aircraft design, noting weight and cost advantages and problems of stressing, stress corrosion and inspection 02 p0253 A69-12062

Welding with aluminum-zinc-magnesium alloys, discussing stress corrosion, embrittlement, compositions, heat treatment, material production and fabrication 02 p0266 A69-12063

Time dependent tube wall radial displacement during explosive welding as function of distance from initial explosion 02 p0254 A69-12675

Explosive welding application to dissimilar metals and tube to tube plate welding, noting influence of detonation and sound bulk velocity 04 p0608 A69-15481

Metal welding procedures for aircraft assembly, discussing weight, specific alloys and airframe components 04 p0608 A69-15483

Quality control in welding from design through experimental manufacture, product testing, large scale production and improvements 04 p0608 A69-15485

Welding of thermoplastic polycarbonate films, noting dryness requirement for satisfactory weld strength 06 p0930 A69-17094

Imaging systems for weld inspection, discussing physical factors and selection of radiation 07 p1139 A69-18796

Acoustic emission from welds in stainless steel plates used for detecting defects in single and multiple pass machine welds 08 p1318 A69-19963

Laser welding in nonconventional applications and tiny components 08 p1319 A69-20203

Fabrication welding with maraging steels with emphasis on minimizing heat input 08 p1320 A69-20407

Weldability of maraging steels, suggesting factors for weld toughness and reliability 08 p1320 A69-20408

Friction welding of aerospace materials, discussing joint strength and dissimilar materials 09 p1508 A69-22335

Welding defects, processes, inspection and personnel training problems 10 p1700 A69-23372

Laser beam welding effectiveness for TWT with coaxial input and output lines 11 p1896 A69-24741

Diffusion processes in metal welding noting role of recovery, polygonization, recrystallization, polymorphic transformations, etc 11 p1890 A69-24799

Gas bubble formation in Ti welding associated with gas nuclei in metal, molten dwell time, gas diffusion coefficients, joint edge conditions, etc 11 p1892 A69-25669

Welding - ASME-AISI Conference, Detroit, October 1968 12 p2100 A69-25825

Explosive bonding technique, discussing choice of explosive and geometrical parameters to match material parameters [ASME PAPER 69-DE-47] 14 p2454 A69-28849

Pulsed ruby lasers for welding fine wires for electrical interconnections, considering laser energy and pulse duration effects 15 p2617 A69-30097

Continuous butt welding with CW carbon dioxide laser, noting heat affected area, remelt zone and weld efficiency 15 p2617 A69-30099

Aluminum nonheat-treatable alloys cryogenic vessels welding, considering TIG, pulsed arc and MIG processes with respect to plate thickness, joint and accessibility 15 p2630 A69-31210

Welding research program at Polish Institute of Aviation concerning electron beam, AR shielded arc, resistance welding and soldering of heat resistant alloys 17 p2979 A69-33688

Welding processes providing low hydrogen welds for high strength steels, discussing heat treatment, maraging steels, fracture toughness, fatigue and static strength [SBAC PAPER 8] 20 p3549 A69-37447

Welding quality control in aircraft structures, considering weld design, process, weld and materials specifications, welding equipment and inspection [SBAC PAPER 15] 20 p3550 A69-37452

C and B influence on heat affected zone hot cracking and postweld heat treatment on Ni base superalloys 22 p3967 A69-39880

Preferential welding oxidation emphasized as element transfer mechanism in weld metal composition control 22 p3955 A69-40460

Weld porosity in Al alloys as function of composition variations, discussing water vapor contamination of welding arc 22 p3956 A69-40461

Metal matrix fiber-reinforced composite materials joining by welding and brazing techniques 22 p3956 A69-40480

WELDING MACHINES

Drilling and welding with sealed-off continuous carbon dioxide gas laser with outcoming beam collimated by Ge lens 01 p0086 A69-10821

Resistance welding monitoring systems including thermal expansion slow scan ultrasonic and electric energy monitor/limiter systems 02 p0253 A69-11864

Ruby laser boring and welding apparatus cooled by evaporated nitrogen gas, suitable for diamond boring 03 p0434 A69-13720

Vacuum evaporated thin film components welding, using torsional ultrasonic vibrations for joint activation 04 p0605 A69-14561

Narrow gap gas metal arc welding process in spray transfer range for narrow welds in thick plates, discussing equipment and applications 11 p1891 A69-24930

Electron beam welding machine modifications for welded airframe components production, discussing work chamber, vacuum system and workpiece mounting [SBAC PAPER 13] 20 p3550 A69-37455

WENTZEL-KRAMER-BRILLOUIN METHOD

WKB approximation for metal-semiconductor junction tunneling and transmission coefficient of parabolic barrier, discussing density of states in degenerate semiconductors 02 p0301 A69-12652

Wentzel-Kramers-Brillouin approximation validity determined by sufficiency conditions based on differential equations series solution 14 p2471 A69-29454

Atom-atom scattering potential from phase shifts, using WKB formula and Jeffreys-Born approximation 19 p3378 A69-36189

X ray diffraction used to measure alpha-SiC whiskers orientation in polymeric matrices 01 p1012 A69-11262

Whisker research history, discussing characteristic morphology, mechanical and physical properties and future applications as reinforcing components in reinforced metals 04 p0616 A69-14843

Nickel reinforced with mullite whiskers produced by hot pressing 05 p0782 A69-16794

Sapphire whisker reinforced aluminum composites fabrication and evaluation 06 p0939 A69-16942

Fiber orientation and morphology effect on tensile behavior of aluminum-nickel whisker reinforced aluminum 06 p0939 A69-16943

Diffusion bonding of whisker reinforced aluminum in closed steel die in argon atmosphere 06 p0943 A69-17238

Fiber reinforced plastic and metallic composites for longevity and endurance of materials at high temperatures and extreme loads, discussing alumina whiskers 07 p1167 A69-19290

Thermoplastics reinforcement with fiber and whisker fillers, evaluating graded asbestos, carbon, silicon nitride, silicon carbide and potassium titanate 08 p1337 A69-20479

Fiber composite design, discussing contribution of filament diameter, number, content and properties, ply parameters and void content to structural response 08 p1341 A69-20512

Metallic and nonmetallic matrices reinforcement by ceramic whiskers, describing mechanical properties 09 p1525 A69-22142

Unidirectional filamentary composites thermoelastic properties relation to constituent materials properties, using semiempirical micromechanics theory 09 p1530 A69-22320

Ceramic whiskers and metallic matrix chemical reactions during composite formation, analyzing coated and uncoated SiC whiskers in titanium matrix 09 p1527 A69-22359

Whiskerized graphite fiber in resin matrix composites, analyzing interstitial growth characteristics, resin infiltration, layup and compaction 09 p1511 A69-22360

Whisker metal matrix composite fabrication, discussing aligned whisker distribution without degrading strength or fracturing and detailing extrusion process 09 p1511 A69-22361

Metal composites of Ni or Mo fibers in Be matrix, discussing chemical compatibility in terms of reactions, solid solubility and diffusion at various temperatures 10 p1707 A69-22991

Fiber reinforced metals, discussing crystalline whiskers, metallic and ceramic fibers and mechanical characteristics 10 p1711 A69-23335

Metallic and ceramic whiskers and fibers for material reinforcement, discussing properties and fabrication techniques 12 p2111 A69-25856

Orthotropic properties and stress fields for configurations of fiber or whisker reinforced composite materials subjected to nonaxial loading, considering infinite elastic matrix 12 p2186 A69-26824

Prototype system for continuous dielectrophoretic deposition and alignment of micron sized ultrahigh strength whisker reinforced composites 13 p2269 A69-28676

Silicon nitride staple fibers synthesis, development and characterization, noting tensile strength and sonic modulus 19 p3354 A69-35517

Boron fiber reinforced Al matrix composite material for high performance aircraft gas turbine engine compressor blading [AIAA PAPER 68-1037] 20 p3586 A69-37153

WHISKERS [SINGLE CRYSTALS]

- High aspect ratio submicroscopic whiskers of beta-SiC, investigating rheological properties of suspensions in various fluids
01 p0102 A69-11260
- X ray diffraction used to measure alpha-SiC whiskers orientation in polymeric matrices
01 p0102 A69-11262
- Creep relaxation and kinking of aluminum-nickel whiskers at elevated temperature, noting permanent plastic deformation after heat treatment
03 p0443 A69-13119
- Thallium whisker growth /compression or squeeze/ method
04 p0641 A69-14457
- Whisker research history, discussing characteristic morphology, mechanical and physical properties and future applications as reinforcing components in reinforced metals
04 p0616 A69-14843
- Statistical theory of material strength with application to composite materials reinforced with whiskers and continuous fibers
[AIAA PAPER 69-123]
06 p1028 A69-18142
- Fatigue characteristics of unidirectionally solidified Al-intermetallic aluminum nickel eutectic alloy consisting of discontinuous Al-Ni intermetallic whiskers in Al matrix
08 p1329 A69-20006
- Fiber-metal matrix composites fabrication, applications, mechanical properties and powder metallurgy
08 p1332 A69-20204
- Laminates and filament wound structures using carbon fibers with silicon carbide whiskerized surfaces, noting compositing and laminating techniques
08 p1339 A69-20501
- Whiskerizing technique for growing small beta SiC single crystals on graphite filament surfaces, noting changes in interface geometry and chemistry
08 p1341 A69-20511
- Microfilaments, Taylor production method, mechanical properties and comparison to whisker
08 p1320 A69-20582
- Metallic and nonmetallic matrices reinforcement by ceramic whiskers, describing mechanical properties
09 p1525 A69-22142
- Metallic and ceramic whiskers and fibers for material reinforcement, discussing properties and fabrication techniques
12 p2111 A69-25856
- Alpha alumina whiskers grown by vapor reaction examined by X ray microtopography and etching
16 p2802 A69-32341
- Fe whiskers formation and cross section determination by Fe dichloride reduction
22 p3919 A69-40233

WHISTLER RECORDERS

- Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
09 p1485 A69-21531
- Ion whistlers recorded by Alouette 2 VLF receiver providing information on ion composition of terrestrial ionosphere, showing variation with latitude and relationship to solar cycle
15 p2604 A69-31410
- Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
16 p2783 A69-32526
- Whistlers occurrence and dispersion rate variations from data obtained at lower latitudes during magnetic storms
18 p3102 A69-34967

WHISTLERS

- Ducted echoes on topside ionograms and whistler diffuseness at midlatitudes, noting common occurrence of phenomena
01 p0029 A69-10551
- Whistler rate and dispersion daily and annual variations derived relative to propagation conditions and magnetospheric behavior over North Italy
01 p0067 A69-11033
- Amplification process for VLF whistler mode radio signals observed in study of magnetosphere frequency shifting mechanism
01 p0077 A69-11241
- Whistler dynamic spectra variation studies, emphasizing distorted magnetospheric geomagnetic field structure effect
02 p0238 A69-11671

- Ion cut-off whistlers observed during VLF experiment aboard OGO 2 and OGO 4, noting possible application to relative ionospheric proton concentration determination
03 p0426 A69-14029
- Whistler mode propagation in homogeneous electron plasma situated in longitudinal electrostatic field, using Fokker-Planck model
05 p0758 A69-16417
- Electromagnetic emissions excited by whistlers in neighborhood of lower hybrid frequency, suggesting interpretation as whistlers modified by magnetospheric propagation
05 p0759 A69-16606
- Whistlers and VLF emissions from ground based and satellite measurements, applying results to electron density mapping and ion detection
07 p1127 A69-19354
- Lower ionosphere and earth-ionosphere waveguide effects on polarization characteristics of transmitted radio whistlers
08 p1306 A69-20181
- Atmospheric whistlers trajectories in magnetosphere calculated, assuming electron concentration as exponential function of altitude
08 p1309 A69-20429
- Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
09 p1485 A69-21531
- Self focusing of plasma whistler wave along magnetic field at small threshold power
09 p1546 A69-21577
- Real configuration effect of magnetic field in moderately perturbed magnetosphere on whistlers dynamic spectra, stressing geomagnetic perturbation detection
09 p1490 A69-21766
- Magnetospheric perturbations as aftermath of proton flare discovered by whistlers, noting plasmopause movement toward earth
10 p1683 A69-23776
- Plasma concentration diagnostics in magnetosphere based on hydromagnetic whistlers /pearls/ dispersion
10 p1688 A69-23934
- Landau type interaction between electron beam and whistler /helicon/ wave electric field within semiconductor /InSb/
10 p1742 A69-24107
- Artificial triggering of VLF magnetospheric noise by NAA Morse code transmission during whistler duct drift across magnetic shells on 17 June 1965
11 p1878 A69-25154
- Whistler type electromagnetic waves excitation by electron beam in plasma, noting intensity dependence on electron frequency
13 p2314 A69-28443
- Whistler dynamic spectra variation studies, emphasizing distorted magnetospheric geomagnetic field structure effect
13 p2257 A69-28702
- Electron plasma oscillations and electron whistler of solar wind near Jupiter orbit
14 p2513 A69-29115
- Magnetospheric equatorial electron density profile estimated from midlatitude whistler observations, determining paths from dispersion data
15 p2677 A69-31357
- Noise signals in earth magnetosheath interpreted as electromagnetic waves propagating in whistler mode
16 p2774 A69-31985
- Dispersion and average monthly numbers of whistlers for propagation trajectories during solar activity minimum, discussing electron concentrations in magnetosphere
16 p2783 A69-32526
- VLF and ULF whistler propagation in magnetosphere for remote sensing magnetospheric plasma parameters, exhibiting characteristic patterns and interaction with plasma
17 p2962 A69-33712
- Geomagnetic field latitudinal variation effect on cut-off frequencies of proton whistlers, discussing LF electromagnetic wave propagation in cold multicomponent plasma
18 p3100 A69-34253
- Whistlers propagation in cold plasma in uniform magnetic field, considering amplitude dispersion effect
18 p3179 A69-34437
- Hydromagnetic whistlers propagation mechanism in magnetosphere determined by wave theory, assuming Gaussian radial density distribution and estimating duct width necessary for trapping
18 p3102 A69-34966

- Whistler vertical propagation downwards through inhomogeneous ionosphere in vertical magnetic field, deriving wave equation, calculating transmission and reflection coefficients
18 p3130 A69-34972
- Atmospheric whistlers and ion acoustic waves interaction in nonisothermal plasma, determining damping frequencies, decrements and wave polarization
18 p3180 A69-35024
- OGO-F electric and electromagnetic fields measurement for ionosphere using dipole antenna, emphasizing broadband observation covering whistler mode waves
19 p3284 A69-36677
- Cold plasma approximation of whistler excitation of lower hybrid resonance at wake of body moving through ionosphere, comparing results with Alouette satellite observations
20 p3519 A69-37025
- Alouette satellite VLF observations data of ionosphere ion composition determined from ion whistlers and noise bands with LF cut-off
20 p3530 A69-37873
- Monograph on whistler mode waves in plasma covering apparatus for studying gyroresonant interaction between whistler radiation and fast electrons
21 p3779 A69-39868
- Magnetospheric instabilities and whistler mode turbulence relationship to loss of high energy electrons from Van Allen belts
24 p4306 A69-42692
- Whistlers nonlinear interaction during cold magnetoplasma propagation, considering energy exchanges between waves
24 p4309 A69-43174

WHITE DWARF STARS

- Pulsating magnetic white dwarfs as pulsar models, discussing radio emission mechanisms via shock wave interaction with stellar plasma atmosphere
01 p0149 A69-10269
- Pulsar hypothesis based on oscillating white dwarf surrounded by hot rarefied corona to explain radio emission
03 p0505 A69-13077
- White dwarfs atmospheric pulsation suggested as pulsar mechanism, considering thin adiabatic atmospheric model with constant lapse rate
05 p0828 A69-16659
- Model for phase transition mechanism quantum-Coulomb plasmas, finding transition temperature for white dwarfs
06 p0968 A69-17785
- White dwarf general relativistic instability toward dynamic collapse and Type I supernovae
06 p1010 A69-17975
- White dwarfs transfer to superconducting state, using BCS theory for superconducting transition temperature dependence on electron density
08 p1391 A69-20546
- Binary stars systems with same total mass calculated for evolution from main sequence stage through mass exchange to white dwarfs
08 p1393 A69-20569
- Instability of stellar structures intermediate between white dwarfs and neutron stars shown by stellar models, discussing pulsar signals periodicities
08 p1397 A69-20770
- Carbon rich star models with and without neutrinos, considering carbon burning, central stars of planetary nebulas and hot white dwarfs
09 p1606 A69-22419
- Power spectrum analysis of photometric observations of white dwarf stars for measuring variability of stellar luminosity
10 p1788 A69-24124
- Axisymmetric models for stable and unstable oscillations of rapidly rotating zero temperature white dwarfs, discussing kinetic and potential energy
10 p1789 A69-24129
- Hydrodynamic calculation of 1.42 solar mass white dwarf supernova, considering instability and collapse initiation by electron capture
12 p2156 A69-26210
- White dwarfs structure model for deriving formula for phase density in color-luminosity diagram
12 p2159 A69-26665
- Gravitational parameters of highly condensed objects, considering white dwarf evolutionary stages, density and upper mass limit
13 p2334 A69-27190
- White dwarf atmospheric structure, analyzing masses and radii for DA stars and surface parameters of Eri B, based on grid of line blanketed models
13 p2339 A69-27563

Electron gas behavior in nondegenerate envelope of magnetic white dwarf, discussing increased opacity due to magnetic fields

13 p2343 A69-27624

Critical parameters of isothermal quasi-degenerate white dwarfs calculated by energy method, allowing for relativity theory error and neutron irradiation effect

13 p2351 A69-27871

Pulsar hypothesis based on oscillating white dwarf surrounded by hot rarefied corona to explain radio emission

14 p2515 A69-28759

White dwarfs periods of radial oscillations, considering ion gas contribution to adiabatic coefficient computation

14 p2517 A69-29090

Outer convection zone of cool white dwarf by atmospheric models, using mixing length theory and abundances

14 p2529 A69-29982

Nova thermal explosion, analyzing hydrogen combustion after penetration from white dwarf shell into degenerate core

15 p2682 A69-30507

Pulsar clock mechanisms on basis of relativistic gravitational effects, considering white dwarfs and neutron stars

15 p2694 A69-30855

Pulsars properties, nature and utilization for interstellar medium study including radiation mechanisms, white dwarf stars and neutron star development

16 p2855 A69-31762

Superfluidity and superconductivity under cosmic conditions, discussing Bose-Einstein condensation, neutron stars, white dwarfs, etc

16 p2856 A69-31950

DQ Herculis photometric measurements synchronized with white dwarf component pulsation, discussing equipment, eclipse curve and binary period dependence on time

16 p2862 A69-32373

Pulsed radio sources origin from models, emphasizing pulsating white dwarfs

17 p3037 A69-33640

Pulsation periods for pure He white dwarfs calculated by Chandrasekhar equation including relativity and rotation effects

17 p3037 A69-33641

Radial oscillation periods of Hamada-Salpeter white dwarf models graphically compared with models by Harrison-Wheeler Wakano equation of state

17 p3037 A69-33642

Observed and computed radio pulse profiles of white dwarfs, noting resemblance of emissivity variation with latitude to magnetic field distribution on sun

17 p3037 A69-33644

X ray sources model, describing possible ring of matter around white dwarf near end of active evolution

18 p3188 A69-35204

General relativity effects on isotropic stars evolution, discussing dynamic stability and white dwarfs

21 p3798 A69-38540

Normal radial vibrations in Newtonian and general relativistic stellar objects and dynamic instability, determining modes and natural frequencies

22 p4014 A69-40142

Book on white dwarf formation through mass exchange covering binary star system, primary star mass losses and evolution into white dwarf

22 p4021 A69-40421

WHITE NOISE

NT THERMAL NOISE

Quantizing noise effect on reconstructed analog signal at reception terminal of digital data transmission system

01 p0027 A69-10250

Integral and sigma pulse frequency modulation effects on white noise, analyzing autocorrelation and spectral density functions of PFM system output

01 p0034 A69-11221

Reliability of eliminating multivaluedness in two scale phase measurement method resolved by algorithm formulated on white Gaussian noise interference

02 p0206 A69-11603

Coherent PSK system in multipath environment/Rician fading and additive Gaussian white noise/with phase locked loop for coherent reference extraction

03 p0393 A69-13255

Mathematical modeling of Gaussian and non-Gaussian processes obtained by linear and nonlinear transformations of white Gaussian noise, noting Markov processes

04 p0623 A69-14694

Optimal control of system governed by linear parabolic equation with white noise inputs, using mathematical model to generate distributed system analog

05 p0740 A69-16599

Optimum and suboptimum detection of K binary symbols corrupted by white Gaussian noise, discussing searching procedure and average error probability

07 p1081 A69-19097

Noise generator design employing diffused Ge avalanche transit time diode

07 p1107 A69-19156

Approximate noise analysis of phase locked loop with signal clipping

08 p1270 A69-19857

Single degree of freedom mechanical system under random excitation studied for creep effect on vibrations by harmonic analysis

09 p1617 A69-22095

Reliability of eliminating multivaluedness in two scale phase measurement method resolved by algorithm formulated on white Gaussian noise interference

11 p1835 A69-24710

Transfer function parameters identification by fault isolation technique using white noise stimulus and processor matrix of orthogonal filters

11 p1865 A69-25077

Recursive estimation of noisy nonlinear multivariable systems in white noise by Kalman, second order nonlinear and iteration filters

12 p2046 A69-26062

Error bounds for orthogonal signals in additive white Gaussian noise channels for class of generalized decision strategies permitting variable-size list decoding

12 p2029 A69-26204

Nondeterministic differential games with imperfect state information, emphasizing linear system with quadratic cost functional and additive white Gaussian noise

12 p2053 A69-26505

Nonlinear systems disturbed by random white noise analyzed by Fokker-Planck equation for probability density in state space

12 p2124 A69-27141

Singularities of optimal filtration for random signals given by differential equations with variable coefficients and white noise

13 p2218 A69-27251

Optimal direction finding systems based on bearing angle representation in multidimensional Markov process, considering white and interference noise

13 p2219 A69-27254

Noise stability of receiver network during detection of finite duration noise signal on white noise background, considering various narrow band preselectors

15 p2563 A69-30142

Power spectrum analyzer of weak periodic signal obscured by white noise by zero interactions count of signal and noise mixture

15 p2579 A69-30945

Likelihood ratio for random signals detection in white Gaussian noise based on innovation process

17 p2920 A69-33622

Noiseless feedback schemes for digital and analog transmission over additive white Gaussian noise channels

21 p3671 A69-38405

Relation between smoothed and filtered linear least squares estimates of signal process in white noise from deriving resolvent identity of covariance function

21 p3754 A69-38432

Gyro drift rate mathematical modeling based on stationary and nonstationary time series analysis techniques with random process reduction to white noise residuals

[AIAA PAPER 69-838] 21 p3761 A69-39369

Sequential filter equations for nonlinear system dynamics and observational model with linear estimator, comparing difference between white and colored noise filter results

[AIAA PAPER 69-840] 21 p3686 A69-39371

Stable linear system/shaping filter/synthesis transforming stationary white noise into random process having given covariance function

21 p3688 A69-39661

Nonlinear random vibrations excitation in rectangular flat plate with initial imperfection by white noise, assuming clamped boundary conditions

22 p4048 A69-41183

Linear filtering effects in channel with binary direct sequence antipodal biphase modulation in presence of white noise and sinusoidal interference, noting variance

23 p4122 A69-41774

Recursive estimation of noisy nonlinear multivariable systems in white noise by Kalman, second order nonlinear and iteration filters

23 p4146 A69-42447

Optimum control synthesis for nonlinear plant subject to white noise perturbation, using integral estimates of phase coordinate functions

24 p4289 A69-42949

Optimal deterministic inputs derived for estimating dynamic control system parameters from white observation noise

24 p4293 A69-43245

WHITTAKER FUNCTIONS

Existence of periodic solutions by Whittaker criterion to equations describing motion of satellite of spheroidal planet in planetocentric coordinate system

02 p0317 A69-119595

Astronomical and geophysical observations, selecting degree of smoothing via Whittaker method for curve construction

17 p3028 A69-328777

WICKS

Heat pipes for thermionic converters, wicks development, high temperature life testing and performance

09 p1440 A69-218331

Pumping pore size and permeability of wicks as part of heat pipes design

23 p4074 A69-422981

Heat pipes design for avionic applications, using wicking bench tests

23 p4075 A69-42305

Temperature distributions in heat pipe wicks as function of liquid thermal conductivity

[ASME PAPER 69-HT-23] 24 p4412 A69-43545

Wick capillary pressure, permeability and burnout heat flux measurements to provide data for heat pipe design

[ASME PAPER 69-HT-18] 24 p4412 A69-43548

Wick-limited heat pipe performance, discussing maximum, steady heat transfer rate and transient response

[ASME PAPER 69-HT-20] 24 p4413 A69-43549

Heat pipe wick materials liquid transport properties analysis, using water and Freon 113 as working fluids

[ASME PAPER 69-HT-17] 24 p4413 A69-43551

WIDE ANGLE LENSES

Radiation measurements quality by wide angle receivers of Cosmos 122 satellite analyzed, showing agreement with data by other methods

11 p1912 A69-24830

Astronomical wide field cameras of large aperture ratio to detect extended near UV light sources outside atmosphere

12 p2080 A69-26127

Superwide angle camera with aerial photogrammetric lens system, discussing light distribution, rotary disk shutter, etc

22 p3944 A69-40047

WIDEBAND

U BROADBAND

WIDEBAND COMMUNICATION

Radio systems for discrete information transmission, emphasizing phase difference modulation, wideband, universal and adaptive systems

01 p0031 A69-10778

Low noise front end wideband amplifier for 100-150 MHz broadband receivers, using distributed amplifier techniques

02 p0216 A69-12028

96 element wide band scanning array measurements, considering array simulators usability at frequencies above operating frequencies

02 p0219 A69-12343

Decimeter wideband directional antenna system for investigation of ionosphere by retrodiffusion method

03 p0402 A69-12860

Lossy transmission line filters and wideband impedance matching

03 p0406 A69-13906

Bandpass characteristic for wide instantaneous bandwidth microwave components for phased arrays, noting error effect on compressed signal and time delay design

04 p0571 A69-14318

Wideband microwave KDP light modulator for amplitude and phase modulation, using ring-plane traveling wave circuit

05 p0732 A69-16553

Wideband uncooled two stage reflecting parametric amplifiers with low noise temperature, noting application to space stations for telecommunications by satellites

07 p1099 A69-18463

- Broadband multibeam antenna array with frequency independent beam directions, noting aperture gain limitation
08 p1288 A69-20965
- Communication satellite system design for operation with frequency bands above 10 GHz, noting wideband communication
09 p1450 A69-21284
- Structure of quasi-linear and wideband satellite transponders, discussing possible improvements
09 p1609 A69-21619
- Wideband signal Doppler distortion influence on parameter estimate accuracy
09 p1454 A69-21725
- Orbiting Data Relay Network communications system provides continuous wideband communication between ground and earth orbiting spacecraft via synchronous satellite repeaters [AIAA PAPER 68-432]
09 p1455 A69-21989
- Coherent FSK LF/VLF radio communication modem with large predetection bandwidth for improvement of reception in atmospheric noise
09 p1458 A69-22473
- Wideband device for rotating polarization plane of waves in waveguide between antennas, receivers and transmitters without affecting field linearity
09 p1469 A69-22643
- Noise rejection and carrying capacity of wideband and narrowband discrete systems transmitting complex signals in concentrated noise spectrum
13 p2218 A69-27213
- Complex pulsed radar signals synthesis with uncertainty function having principal maximum and small secondary maxima for radar stations and wideband communications systems
15 p2563 A69-30140
- Linear distortions effect on signals detection in binary communication channel with fluctuating noise, determining error probability
15 p2564 A69-30146
- Wideband PM communication system with synchronous reception and automatic control of reception bandwidth, providing improvement in noise stability
15 p2564 A69-30147
- Wideband multiplexers design with directional filters, discussing operational characteristics
15 p2581 A69-31524
- Wideband frequency switch to connect narrow band auxiliary to wideband radio system antenna, describing components
16 p2759 A69-31861
- Traveling wave tube amplifier for wideband radio in SHF range containing periodically integrated magnetized system, discussing output power variation range
16 p2759 A69-31863
- Wideband signal Doppler distortion influence on parameter estimate accuracy
20 p3488 A69-37461
- Optimum wideband signal for minimum Doppler distortion, describing pulse compression by linear-period modulation
21 p3671 A69-38406
- Holographic storage of electric signals in wideband pulsed carrier radar communications, noting Fourier transform in ultrasonic light modulator
23 p4164 A69-41626
- Wideband FM telemetry transmitters for S band, using symmetrical discriminator
23 p4119 A69-41741
- ### WIDMANSTATTEN STRUCTURE
- Widmanstatten angles relation to orientation of plane of section in iron meteorites
07 p1217 A69-19235
- Structure transitions in iron meteorites from Widmanstatten to granular pattern to study Barringer crater and Canon diablo meteorites formation
09 p1597 A69-22154
- Iron meteorites microscopic and macroscopic features due to preterrestrial mechanical deformation, stressing local displacements encountered in normal or acicular kamacites
19 p3418 A69-36134
- ### WIENER FILTERING
- Synthesis of infinite and finite Wiener optimal networks or equalizers using delay lines with feedforward and/or feedback taps
01 p0029 A69-10554
- Optimum nonstationary Gaussian signals estimation in presence of noise, generalizing Wiener stationary processes filtering theory
12 p2029 A69-26202
- ### WIENER HOPF EQUATIONS
- Group classification of solutions to Hopf equation according to type of viscosity coefficient
07 p1118 A69-18700
- Cylindrical antenna in uniaxial resonant plasmas, calculating current distribution and input admittance on basis of Wiener-Hopf technique
07 p1107 A69-19227
- Integral representation for Wiener Hopf factorization of functions of complex variables for numerical processing of radiation problems
11 p1851 A69-24998
- Stresses and displacements in half plane with edge crack given as eigenfunction expansions using Wiener-Hopf technique
11 p1987 A69-25438
- Dielectric coated finite cylindrical antennas, using numerical and Wiener-Hopf methods to obtain input admittance and current distribution
12 p2041 A69-26604
- Simultaneous Wiener-Hopf equations for electromagnetic wave diffraction, giving cyclic matrix solutions for Dirichlet and Neumann mixed boundary value problems
13 p2287 A69-27299
- Stress-strain problem of piecewise-homogeneous plane with cut normal to interface line reduced to Wiener Hopf equation, obtaining solution for arbitrary boundary conditions
14 p2531 A69-28805
- Diffraction of modal field by semiinfinite waveguide, integral representation for Wiener Hopf kernel factorization and applications to open resonators
17 p2930 A69-33888
- Numerical solution by approximation of Wiener-Hopf-Fock equation for diffractions at finite or infinite number of equidistant half planes applied to open-end waveguides
22 p3901 A69-40950
- Fourier series solution of finite range Wiener Hopf equation, determining coefficients from Wiener Hopf procedure
23 p4181 A69-41608
- ### WIGHTMAN THEORY
- U FIELD THEORY [PHYSICS]
U QUANTUM THEORY
U RELATIVISTIC THEORY
- ### WIGNER COEFFICIENT
- Polynomial bases for orthogonal group irreducible representations, rederiving Wigner coefficients
18 p3164 A69-34807
- ### WIND [METEOROLOGY]
- NT GEOSTROPHIC WIND
NT GUSTS
NT JET STREAMS [METEOROLOGY]
NT MONSOONS
NT SQUALLS
NT WINDS ALOFT
- Solar cycle influence on winds in lower ionosphere
05 p0759 A69-16421
- Geopotential and wind prediction by integration of prognostic equations of single level atmosphere
13 p2294 A69-27852
- Dynamic characteristics of local slope winds, considering thermal and geometrical effects of underlying surfaces
15 p2648 A69-30577
- Upper atmospheric winds to produce solar quiet day magnetic variations based on dynamo theory, illustrating solenoidal, irrotational and mixed winds
16 p2782 A69-32460
- Flow over uniformly rough surface in planetary boundary layer from mixing length wind spiral model, using surface shear stress and wind direction data
17 p2997 A69-33153
- Zonal winds in temperate latitude analyzed as function of latitude and month from GHOST balloon flights in Southern Hemisphere at 200 mb
17 p2997 A69-33163
- Climatological patterns of atmospheric kinetic energy dissipation in free atmosphere derived from upper wind statistics of Northern Hemisphere, using Kolmogoroff functions
18 p3166 A69-34825
- Numerical wind field prediction based on advection equations and quasi-geostrophic wind assumption, considering equatorial belt in case of zonal pressure field
19 p3364 A69-36506
- Doppler radar observations of precipitation induced mesoscale wind oscillations near melting layer produced by pressure perturbations due to horizontal variations in cooling
20 p3572 A69-37909
- Upper atmosphere horizontal unsteady wind with pressure gradient time dependence, solving heat conduction type equation by integral representations
21 p3758 A69-38411
- ### WIND CIRCULATION
- #### U ATMOSPHERIC CIRCULATION
- #### WIND DIRECTION
- Air movements in lower stratosphere analyzed on basis of ozone measurements, showing correlation with north-south gradient of total ozone amount
02 p0246 A69-12762
- Large scale disturbances in summertime stratosphere observed from high level balloon, discussing diurnal wind patterns and planetary traveling waves
03 p0461 A69-13343
- Standard deviation of wind direction fluctuations by simultaneous measurements of wind vane displacements and number of wind direction reversals
04 p0626 A69-14911
- Hot-wire anemometer with no moving parts for measurement of three orthogonal components of wind velocity and wind direction
06 p0923 A69-16926
- Day and night reversals in NmF2 north-south asymmetry related to neutral wind direction
06 p0918 A69-17384
- Statistical analysis of lee wave clouds from satellite TV pictures, determining lengths and air flow direction
11 p1912 A69-24828
- Time and altitude distribution of wind zonal components over Fernando Noronha Island off Brazilian coast, discussing tropospheric pattern
11 p1913 A69-25204
- Jet stream winds direction correlated with direction of LF pressure disturbances crossing microbarograph array
12 p2125 A69-26015
- Aircraft reports of high level turbulence on European and Atlantic routes, noting rapid changes in large scale flow pattern occurring locally
12 p2127 A69-26901
- Automatic processing and error analysis of horizontal, vertical, static and geostrophic wind data by U.S.S.R. Hydrometeorological Service
13 p2292 A69-27839
- Time correlation functions for wind vectors and components at various altitudes over Moscow in winter and summer
13 p2294 A69-27856
- Westerly air flow frequency decline resulting in lower seasonal temperatures, tabulating Lamb categories daily maximum and minimum temperatures
13 p2222 A69-28474
- Qualitative analysis of CAT parameters from radio sounding data, noting mean bumpiness probability dependence on Richardson number and wind vector shift
14 p2474 A69-29735
- Solar wind direction by analysis of data from IMP 1 satellite, noting anticorotation tendency
16 p2847 A69-31962
- Wind speed and direction determination accuracy of radar or theodolite methods
20 p3572 A69-37698
- Blast angle effect on fanjet gas dynamics in crosswind, using equations for free lateral flow trajectories and reverse flow regions
21 p3850 A69-38863
- WE and SN wind components models from 60 to 130 km for different months and latitudes, discussing meridional and interhemispheric circulations
23 p4154 A69-41306
- Qualitative model of atmospheric mass circulation constructed from radar meteor trail drifts observations, considering solar thermal radiation and zonal wind direction
23 p4214 A69-41862
- ### WIND EFFECTS
- Water hover effects tested on tilt wing V/STOL seaplane model, noting effects of wind and waves on water passing through propellers
01 p0011 A69-11061
- Missile control during propulsion period, emphasizing vane deflection required for lateral wind compensation
01 p0163 A69-11297
- Lift fluctuation on airfoil due to transverse and chordwise gusts applied to rotating fan and compressor blade design [ASME PAPER 68-FE-28]
05 p0697 A69-16070
- Trajectory calculation of unguided meteorological rocket by digital computers and by equations of motion, discussing wind influence on ceiling and horizontal ranges
08 p1409 A69-20457

Mean tropospheric wind vectors periods compared to annual variations of earth rotation and pole latitude
08 p1309 A69-20854

Self excited aeroelastic galloping oscillations of long prismatic bodies subjected to wind velocity, noting effect of aerodynamically unstable cross sections
09 p1615 A69-21923

Aircraft gust alleviation system for minimizing weighted sum of normal acceleration and pitch rate response by limiting control surface deflections
09 p1434 A69-22279

Zonal momentum vertical transport due to large scale moving disturbances in westerlies of equatorial lower stratosphere
09 p1537 A69-22299

Carbon dioxide laser beam deflection and thermal defocusing due to wind in absorbing medium
10 p1701 A69-22949

Stratified atmosphere mean vertical flux due to ground disturbances, obtaining results for various wind and temperature profiles
10 p1685 A69-23856

Atmospheric turbulence effects on aircraft flight noting causes of turbulence
11 p1911 A69-24527

Air movement component of winter anomaly effect on radio wave absorption in mesosphere directly detected by rocket sounding
11 p1913 A69-25436

Forced convection in atmospheric boundary layer above nonuniformly heated earth surface, noting roles of wind and stratification parameters
12 p2126 A69-26579

Statistical correlation of temperature and tail-wind data for London-New York route at 50 mb for SST operation
15 p2651 A69-30690

Wind effects on ionospheric electric currents, using equivalent circuits to study tidal modes and current patterns
16 p2775 A69-32087

Vertical wind effects in atmosphere on S577 A radian, showing dependence on atomic oxygen density
16 p2778 A69-32185

Combined midlatitude neutral air wind and equatorial electrodynamic drift effect on F2 layer diurnal variations
16 p2781 A69-32316

Stratospheric winds effect on instrument package suspended from high altitude balloon, discussing package displacements, yarn shapes and air drag characteristics
17 p2961 A69-33612

Nonrecirculating wind tunnel configuration with minimum atmospheric wind disturbances for V/STOL vehicles aerodynamic testing
[AIAA PAPER 68-398] 17 p2947 A69-34024

Dispersion relation for gravity waves propagating in atmosphere with horizontal background wind variable with altitude
18 p3128 A69-34801

Wind shear effects on radar echo decay constant for finite meteor trail, considering roles of trail length and electron density variations
19 p3276 A69-36482

Lower E region field-aligned plasma instability arising from neutral wind driving ionization across magnetic field
20 p3534 A69-38091

Europa 1 launch clearance procedure based on wind load precalculations from weather balloon determined wind profiles
20 p3619 A69-38281

Balloon location by low orbit meteorological satellites, discussing balloon movement due to wind and geometric and nongeometric effects on errors
21 p3760 A69-38618

Equations of motion of unguided rocket under wind effect, calculating launch angles for wind compensation
22 p4037 A69-40815

Electron concentration vertical profile in ionosphere in presence of horizontal wind shifts determined using E layer charged particle redistribution approximation
23 p4155 A69-41840

Time averaged and fluctuating wind load effects on large radio telescope structures, discussing wind shear and turbulence influence on steady and unsteady loading
23 p4230 A69-42125

Isobaric inhomogeneous atmosphere effect on sonic boom determined, using analytic equation relating transmitted wave intensity to local free stream Mach number
24 p4254 A69-43728

Martian seasonal darkening attributed to windblown dust
24 p4389 A69-43742

WIND MEASUREMENT

Wind profile harmonic analysis based on meteor trail observations, noting wind power spectra and propagating waves in atmosphere
01 p0072 A69-11170

Ionosphere studies in France noting lower ionosphere dynamics, ionospheric winds, plasma electron densities, electron and ion temperature and ion-neutron collision frequency
02 p0242 A69-11903

Wind measurements by radio observation of meteor trails compared with fading drift results
02 p0275 A69-12042

Errors in wind data due to wind response of parachute-borne sensor corrected with radar tracking, comparing corrected and uncorrected data
02 p0276 A69-12700

Standard deviation of wind direction fluctuations by simultaneous measurements of wind vane displacements and number of wind direction reversals
04 p0626 A69-14911

Geostrophic wind direct computation from grid point analysis of observed winds, using balance equation
04 p0626 A69-14913

Frequency distribution of wind velocity as function of height, averaging time and thermal stratification
04 p0628 A69-15088

Wind turbulence measurement by shock wave tracking using Doppler radar, stressing relative location of antenna and sound source
04 p0628 A69-15149

Stratospheric temperature, wind and ozone concentration measurement during solar eclipse by sounding rocket system
06 p0916 A69-17008

Upper wind observation and computation accuracy, comparing radar and slide rule instrument errors
06 p0950 A69-17788

Atmospheric measurements from satellites, discussing ATS-1 cloud images for definition of wind and use of WEFAX through ATS 2 satellites for data transmission
[AIAA PAPER 69-158] 06 p0954 A69-18038

Rawin systems for upper air measurements of wind and thermodynamic parameters, using balloon-borne radiosonde
07 p1057 A69-19581

Pilot balloon and radiosonde measurements for p as function of wind direction, velocity and stability, discussing variation with air layers
09 p1535 A69-21516

Low latitude easterly wind measurements by optical tracking of chemicals from sounding rockets and gun probes during darkness
09 p1487 A69-21621

Dropsonde for vertical wind profile or wind shear measurement without tracking noting low cost
10 p1692 A69-23254

Mesopause wind measurements at high latitude locations by sounding rockets noting relation to noctilucent clouds
13 p2294 A69-28466

Focused beam wave applied to atmospheric turbulence probing for spectral density of index of refraction, structure constant and wind velocity
14 p2414 A69-29512

Upper atmosphere winds and temperature measurements from rocket grenade, discussing TMA experiments
15 p2598 A69-31317

E region ionization redistribution by neutral winds, comparing calculated vertical drift velocities to observed electron density profiles
15 p2677 A69-31395

Atmospheric temperature and vertical gradient in E region based on measured instantaneous wind profiles
15 p2603 A69-31399

Mesospheric fine winds structure, discussing data obtained by Skua II rocket with chaff payload
15 p2604 A69-31415

Strong vertical wind in low ionosphere due to short period reflected gravity waves, obtaining standing wave system
15 p2606 A69-31449

Direct wind measurement and momentum transport estimates obtained from cyclones and anticyclones daily displacements over Northern Hemisphere, applying results to planetary atmospheres
16 p2780 A69-32306

Sonic anemometers for atmospheric turbulence, discussing variance spectra of vertical wind components and temperature in atmospheric surface layer
16 p2808 A69-32600

Radar unit for network component /wind patrol/ in statistical observations of wind drift conditions in meteor trails
17 p2939 A69-33901

Statistical characteristics of wind wave development in initial stage, obtaining distribution functions and frequency spectrum for various velocities and temperatures
18 p3167 A69-35341

Horizontal wind components over U.S.S.R., Western Europe and Northeast Atlantic obtained from satellite photographs of vortex cloud systems
19 p3365 A69-36668

Rocket observations of ionospheric E layer winds using Na release method
20 p3529 A69-37796

Mesospheric wind measurement by meteorological rockets based on radar determination of drift trajectories of chaff clouds
20 p3529 A69-37797

Meteor winds analysis method used on tidal period wind measurement data obtained by chemical release from rocket in 95-135 km region
20 p3574 A69-38092

Vertical neutral wind measurements in lower E region with wavelike spatial structure, noting vertical shear role in ionosphere dynamics
21 p3703 A69-38363

Wind information obtained for design and operation of tethered or hovering free floating balloon systems
22 p3864 A69-40804

Angular grid spacing resolution near poles effect tests in global prediction model for geophysical fluid dynamics, investigating forecast height and wind fields
24 p4344 A69-43066

WIND PRESSURE

Spherical sandwich radomes designs, discussing aerodynamic loads, wind pressure effect, electrical properties and mountings
07 p1112 A69-19538

WIND PROFILES

Wind profile harmonic analysis based on meteor trail observations, noting wind power spectra and propagating waves in atmosphere
01 p0072 A69-11170

Midlatitude ionospheric wind profiles noting seasonal and time differences in circulation patterns, speed, shear, wavelength, energy content and dissipation
01 p0072 A69-11171

Vertical wind profiles and electron density profiles in E region, determining time dependence and ionization drift velocity
01 p0072 A69-11172

All weather wind profile monitoring system using FPS-16 radar/Jimisphere system and flight simulation for protection of space vehicle and missile launches
03 p0462 A69-13852

Gravity wave contribution to atmospheric wind motion at 100 km
03 p0426 A69-14031

Wind data from Arctic upper mesosphere showing easterly winds increasing with height, resolving diurnal and semidiurnal oscillations
06 p0949 A69-17005

Wind velocity and shear stress profiles above surface with changed roughness, using mixing length theory
08 p1346 A69-20311

Stereophotogrammetric measurements of smoke columns for wind soundings
09 p1535 A69-21517

Influence function for vertical wind profile from pressure gradient field
09 p1536 A69-21867

Validity of finite difference approximations for barotropic instability of zonal currents
09 p1537 A69-22298

Dropsonde for vertical wind profile or wind shear measurement without tracking noting low cost
10 p1692 A69-23254

Sonic anemometer for wind velocity through pulse communication transducers noting applications to aerospace vehicle design
10 p1692 A69-23255

Stability of barotropic perturbations superimposed on wind velocity profile of basic currents in geostrophic multilayer models
11 p1911 A69-24586

Wind velocities statistical properties at various altitudes, noting linear regression of orthogonal components and prediction of wind velocities at all altitudes

11 p1911 A69-24694

Time and altitude distribution of wind zonal components over Fernando Noronha Island off Brazilian coast, discussing tropospheric pattern

11 p1913 A69-25204

Power law profiles of mean wind velocity and temperature in thermally stratified shear flow, considering dependence on thermal stability and Richardson number

11 p1874 A69-25381

Zonal and meridional wind components monthly global cross sections for stratosphere and mesosphere from sounding and radar data

12 p2070 A69-26577

Optimum coordination between homogeneous isotropic geopotential field and derivatives, estimating efficiency of geopotential and wind fields simultaneous analysis

12 p2126 A69-26580

Stratosphere and troposphere processes analyzed, indicating feasibility of forecasting geopotential and wind fields between 12 and 24 km

12 p2126 A69-26581

Wind structure in atmosphere meteor region from persistent meteor trail radio echoes amplitude fluctuations, noting horizontal wind velocity profiles

12 p2074 A69-26962

Thermal stratification effect on wind structure in Ekman layer, assuming turbulent transfer and height dependence

13 p2290 A69-27390

Kelvin waves relation to quasi-biennial oscillation, using zonal wind and temperature variance data taken at Canton Island

13 p2290 A69-27391

Normalized correlation functions of dispersion values for pressure fields and geopotential obtained by low latitude stations, noting wind field features

14 p2478 A69-29833

Earth orography influence on climatological distribution of wind and geopotential fields, stressing central asiatic mountains role in atmospheric circulation

14 p2478 A69-29835

Turbulence coefficient in layers between main isobaric surfaces based on wind and temperature fields analysis

15 p2648 A69-30646

Atmospheric temperature and vertical gradient in E region based on measured instantaneous wind profiles

15 p2603 A69-31399

Alpine effects on wind field at synoptic scale using potential-vorticity equation, discussing deflection angle dependence on potential temperature distribution

15 p2650 A69-31445

Pressure gradients and moving ions driven neutral-air winds in F region, using asymmetric pressure model

16 p2779 A69-32302

Meteor trails radar observations to measure zonal wind profiles between 80-110 km, noting short period oscillations

16 p2865 A69-32609

Froude number for scaling wind stress at air-water interface, verifying logarithmic wind profile and relating shear velocity to surface roughness

17 p2996 A69-33152

Flow measurements about high Mach number low Reynolds number laminar wake behind spherically blunted cones, including surface and wake flow field data, radial wake profiles, etc [AIAA PAPER 69-714]

17 p2894 A69-33500

Temperature profiles and associated wind profiles obtained with Jimsphere/FPS-16 radar system at Cape Kennedy, discussing remote CAT detector assessment

17 p2999 A69-33739

Vertical structure concepts for air density, wind and sound velocity profiles in rocket climatology, discussing vertical relationship of wind shear statistics

17 p3000 A69-33794

Tropical circulation long term mean values of wind and temperature fields, momentum and heat fluxes from weather stations data, noting consistent pattern and energy source

18 p3165 A69-34418

Wind profile data measured by AN/FPS-16 radar/suppression balloon system, noting error sources

18 p3139 A69-35428

Wind and temperature profiles in Ekman boundary layer, using numerical integrations of dynamic equations including time derivative terms

19 p3363 A69-36501

Numerical wind field prediction based on advection equations and quasi-geostrophic wind assumption, considering equatorial belt in case of zonal pressure field

19 p3364 A69-36506

Japanese meteorological sounding rocket for atmospheric temperature and wind from 60 km down to balloon observation level, discussing principles and payload separation

20 p3543 A69-37795

Lower ionosphere vertical wind velocity profiles determined from rocket-released grenade glow cloud photographs, developing cloud buoyancy effect empirical model

23 p4154 A69-41305

WE and SN wind components models from 60 to 130 km for different months and latitudes, discussing meridional and interhemispheric circulations

23 p4154 A69-41306

Equatorial stratosphere and mesosphere wind, temperature and density data from rocket and balloon sounding, noting seasonal variations and possible stratosphere-ionosphere coupling

23 p4159 A69-42423

WIND SHEAR

Morphological behavior of blanketing sporadic E at middle latitudes, discussing wind shear time variations, solar cycle variation and geomagnetic storm effects

01 p0070 A69-11158

Sporadic E layer formation, considering ion convergence effects due to neutral wind shears and drift ionization due to electrostatic field

01 p0072 A69-11174

Midlatitude sporadic E layer vertical and horizontal structure and statistical properties, discussing theory of ion concentration by wind shear

01 p0073 A69-11177

Wind perturbations characteristics near large convective cloud banks as function of ascending current, wind shear and turbulence

02 p0274 A69-11446

Planetary Rossby waves vertical propagation through weak westerly wind wave guides, using adiabatic linear model

03 p0460 A69-13335

Wind shear and reflectivity gradient effects on Doppler radar spectra

03 p0461 A69-13341

Maximum downwind and crosswind vertical wind shear in boundary layer, noting effect on swept wing jet aircraft landing

06 p0951 A69-17790

Time and latitude variations of blanketing sporadic E using wind shear theory, predicting ionization layer formation in ionospheric E layer

07 p1125 A69-18840

Wind velocity and shear stress profiles above surface with changed roughness, using mixing length theory

08 p1346 A69-20311

Dropsonde for vertical wind profile or wind shear measurement without tracking noting low cost

10 p1692 A69-23254

Diurnal variations in sporadic E layer and wind in ionosphere during equinox and solstice periods, noting wind shear mechanism and ambient electron density

10 p1688 A69-23932

Jet stream vertical wind shear chart construction for aircraft with gas turbine propulsion

14 p2473 A69-29730

External wind shear influence on isolated cumulus cloud evolution based on hydrodynamic and thermodynamic equations numerical integration

15 p2648 A69-30644

Sporadic E ionization by rocket sounding, comparing positive ion density measurements with separate wind shear observations

16 p2780 A69-32310

Horizontal shear effect on structure of growing baroclinic waves by two layer model, assuming small radius of deformation, compared to planetary scale

17 p2960 A69-33150

Froude number for scaling wind stress at air-water interface, verifying logarithmic wind profile and relating shear velocity to surface roughness

17 p2996 A69-33152

Atmospheric wind shear velocity snapping effect on yarn suspending instrument package from balloon gondola during parachute recovery

17 p2975 A69-33613

Thermal wind instability by numerical integration of equations of motion, noting convective cells tilt

17 p2998 A69-33734

Wind shear effects on jet aircraft approach, discussing airspeed and glide path position maintenance requirements [AIAA PAPER 69-796]

19 p3367 A69-35634

Wind shear effects on radar echo decay constant for finite meteor trail, considering roles of trail length and electron density variations

19 p3276 A69-36482

Vertical wind shears, structure functions, turbulence and power spectra for transverse velocity fluctuations in troposphere and stratosphere, noting clear air turbulence

20 p3570 A69-37506

Vertical neutral wind measurements in lower E region with wavelike spatial structure, noting vertical shear role in ionosphere dynamics

21 p3703 A69-38363

WIND TUNNEL APPARATUS

Intermittent traversing gear with stepping motor for small hypersonic helium wind tunnels

01 p0054 A69-10219

Wind tunnel and test equipment for studying flow in straight airfoil lattices at Reynolds numbers 50,000-1,200,000 and Mach numbers 0.1-1.0

03 p0412 A69-13789

Factors influencing development of both wind tunnel and flight test technology for determining aerodynamic derivatives of aircraft motions

05 p0741 A69-15572

Tensiometric aerodynamic balances in great velocity ranges, discussing measurements, elastic elements and tensiometric balance construction and measuring errors nature

05 p0762 A69-15922

Semiconductor strain gage balance with temperature compensation for conventional wind tunnels

10 p1672 A69-23665

Magnetic suspension system used as dynamic balance for wind tunnel models, discussing delta wing test results

19 p3292 A69-35738

Subsonic wind tunnel balance and holders investigated for effects on lift, drag and stability of models of body of revolution

24 p2497 A69-43084

WIND TUNNEL BALANCES

U WEIGHT INDICATORS

WIND TUNNEL CALIBRATION

Wind tunnel model low pressure measuring system, discussing pressure transducers, automatic control and pressure distribution tests [AIAA PAPER 68-402]

17 p2947 A69-34023

WIND TUNNEL DRIVES

Jet pump actuation of intermittently operating variable density closed circuit subsonic wind tunnels, measuring wind tunnel power factor

11 p1892 A69-25371

Ejector driven wind tunnel for turbulent flow generation with arbitrary velocity profile, using jet arrays [AIAA PAPER 69-743]

18 p3114 A69-34408

WIND TUNNEL MODELS

Elastic wind tunnel models used for testing at full scale dynamic pressures, discussing scaling laws and manufacturing and testing problems [AIAA PAPER 68-56]

01 p0011 A69-11018

Multichannel telemetering device for magnetically suspended or free flight wind tunnel models noting strain gage pickups, switching and auxiliary circuits [ONERA-TP-643]

02 p0226 A69-11623

Photographic flow patterns of separated flows with vortex formation obtained in wind tunnel for different aerodynamic configurations of revolution

02 p0191 A69-12586

Wind tunnel pressure tests of Concorde air intake mockups in presence of aircraft wing and nose for Mach numbers 2, 2.2 and 2.35

03 p0361 A69-12879

Reentry plasma sheath simulation in wind tunnel by injection of nitrogen plasma from model vehicle nose

03 p0412 A69-13679

Three dimensional boundary layers on cones at small angle of attack, presenting numerical solutions with heat transfer effects for wind tunnel model [ASME PAPER 68-WA/APM-24]

04 p0541 A69-14389

Ground effects influence on VTOL aircraft secondary forces during hovering and transitional flight, discussing component dynamic coefficients in wind tunnel [DVL-851]

04 p0547 A69-14813

Factors influencing development of both wind tunnel and flight test technology for determining aerodynamic derivatives of aircraft motions

05 p0741 A69-15572

Large subsonic wind tunnels for correct simulation of V/STOL powered flight by minimizing wall constraint effects on flow field

05 p0741 A69-15573

WIND TUNNEL NOZZLES

Free fall vehicle dynamics for wind tunnel measurements of research shapes used in computer simulation of vehicle trajectories [AIAA PAPER 69-229] 06 p0864 A69-18130

Similarity of mean flow patterns of natural local wind to model wind in wind tunnel 07 p1176 A69-18964

Wind tunnel measurements on integrated shrouded propeller model proposed for power gliders 07 p1052 A69-19633

Electrolytic bubble level during wind tunnel tests for aircraft model attitude 10 p1672 A69-23268

Store separation from high speed aircraft via wind tunnel test techniques, discussing drop model, flowfield survey and captive trajectory testing [AIAA PAPER 68-361] 11 p1819 A69-25373

V/STOL air intakes and jets simulation in wind tunnel tests, noting thrust simulation possibilities 11 p1866 A69-25431

Subsonic wind tunnel solid and ventilated wall interference on air flow around aerodynamic models, discussing data corrections and slotted wall tests [AIAA PAPER 68-360] 12 p2059 A69-26766

Refractory cone models made of copper and Co coated Be for force tests in high enthalpy hypersonic arc tunnels at high simulated attitudes 12 p2059 A69-26796

Thermographic phosphor coatings to obtain optical quantitative heat transfer distribution on wind tunnel models 12 p2099 A69-27150

Supersonic boundary layer acoustic characteristics measured in wind tunnel on cylindrical model with several forebody configurations [AIAA PAPER 69-344] 13 p2249 A69-28279

Minimal interference thin metal strap support system for dynamic stability tests of high fineness ratio wind tunnel models [AIAA PAPER 69-350] 13 p2243 A69-28284

Flow simulation on wind tunnel test models for aerodynamic characteristics of aircraft design, discussing boundary layer and external flow coupling [AIAA PAPER 69-660] 17 p2945 A69-33471

Dynamically scaled model rotor tested in wind tunnel to evaluate blade aeroelastic limits constructed with realistic mass and stiffness distributions [AHS PAPER 341] 17 p3059 A69-33506

Wind tunnel model low pressure measuring system, discussing pressure transducers, automatic control and pressure distribution tests [AIAA PAPER 68-402] 17 p2947 A69-34023

Hover and forward speed aerodynamic characteristics of tracked air cushion vehicle (TACV) models, discussing wind tunnel tests [AIAA PAPER 69-750] 18 p3084 A69-34410

Sublimation of various compressed naphthalene wind tunnel models analyzed in supersonic air flow, discussing effects of temperature and model configurations 18 p3231 A69-35121

Flow breakdown in wind tunnel tests of high disk loading systems at low forward speeds, investigating downwash distribution effect using disk loading and airfoil models 18 p3119 A69-35230

C-5A aircraft model high subsonic speed tests, correlating data from three transonic wind tunnels [AIAA PAPER 69-794] 19 p3237 A69-35636

Multichannel pressure telemetry system for base pressure measurements on small wind tunnel models, considering proximity effects on transducer-telemetry units 19 p3305 A69-35727

Magnetic suspension system used as dynamic balance for wind tunnel models, discussing delta wing test results 19 p3292 A69-35738

DYDRA data logger for dynamic measurements of pressure distributions on harmonically excited wind tunnel models, noting use as general transfer function analyzer 19 p3293 A69-35746

Aircraft wing aerodynamic forces and moments due to lifting engine air intake simulated by wind tunnel experiment 19 p3239 A69-36400

Aerodynamic performance tests of autorotative unpowered rotor entry vehicle model at various Mach numbers and angles of attack [AIAA PAPER 68-950] 20 p3458 A69-37155

Panel flutter testing in supersonic blowdown wind tunnels, analyzing model and test chamber layout 21 p3847 A69-39859

Operational characteristics of multiple arcjet wind tunnel for time varying mass flow rate programs, calculating isentropic core densities and velocities [AIAA PAPER 68-229] 22 p3927 A69-40541

Subsonic wind tunnel balance and holders investigated for effects on lift, drag and stability of models of body of revolution 24 p4297 A69-43084

Dry ice ablating models for unheated supersonic and hypersonic wind tunnel tests, noting mass addition rate extension 24 p4297 A69-43255

WIND TUNNEL NOZZLES

Axisymmetric hypersonic wind tunnel nozzle design by determining inviscid contour and correcting for turbulent boundary layer growth [AIAA PAPER 69-337] 13 p2200 A69-28273

Pressure and temperature surveys of Mach 27-47 nozzle boundary layer at Ames M-50 He tunnel, determining velocity profiles, wall friction coefficient, etc [AIAA PAPER 69-686] 17 p2953 A69-33441

Laminar boundary layers in low density supersonic and hypersonic conical and axisymmetric nozzles, treating displacement, transverse curvature, velocity slip and temperature jump [AIAA PAPER 69-653] 17 p2954 A69-33458

Miniature probe with short time response for total temperature profile measurements in hypersonic turbulent boundary layer on wall of hypersonic tunnel nozzle 19 p3293 A69-35751

Supersonic blowdown wind tunnel operating at Mach numbers obtained by fixed nozzles for aerodynamic optimization of wings and bodies 20 p3510 A69-37422

WIND TUNNEL STABILITY TESTS

Elastic wind tunnel models used for testing at full scale dynamic pressures, discussing scaling laws and manufacturing and testing problems [AIAA PAPER 68-56] 01 p0011 A69-11018

Supersonic interference on lateral stability of planar configurations analyzed using wind tunnel data [AIAA PAPER 68-21] 02 p0189 A69-12377

Entry phase flight data of Missions AS-202, Apollo 4 and 6 compared with wind tunnel aerodynamics data [AIAA PAPER 68-1143] 03 p0519 A69-13556

Airplane drag prediction by wind tunnel tests 05 p0695 A69-15543

Buffeting tests of model wing in wind tunnel as function of angle of attack and Mach number 06 p0857 A69-17096

Free fall vehicle dynamics for wind tunnel measurements of research shapes used in computer simulation of vehicle trajectories [AIAA PAPER 69-229] 06 p0864 A69-18130

Aircraft propelled at Mach 7, discussing low speed and transonic characteristics, stability, power plant integration and ONERA wind tunnel experiments [ONERA-TP-657] 07 p1052 A69-18414

Concorde testing program, detailing materials, structure, systems, engine, wind tunnel and flight tests 07 p1054 A69-19294

Laminar hypersonic roll damping derivatives for 10 degree half angle cone at zero angle of attack for environmental flow conditions of hypersonic wind tunnel 09 p1430 A69-21958

Electrolytic bubble level during wind tunnel tests for aircraft model attitude 10 p1672 A69-23268

Strip method for prediction of subcritical frequency and damping characteristics for subsonic wind tunnel and flight flutter tests 11 p1987 A69-25368

Minimal interference thin metal strap support system for dynamic stability tests of high fineness ratio wind tunnel models [AIAA PAPER 69-350] 13 p2243 A69-28284

Helicopter wind tunnel testing, discussing solutions in terms of test procedures and test bed equipment 16 p2735 A69-32075

Amplified boundary layer oscillations and transition at swept flat nosed wing attachment line with/without boundary layer suction analyzed by wind tunnel tests 17 p2890 A69-33251

Wind tunnel wall interference effects in wind tunnel testing of STOL aircraft by inducing interference velocities [AIAA PAPER 68-399] 17 p2947 A69-34022

Wind tunnel tests for static stability of Black Brant 4 vehicle second stage with flare and two fin flare combinations at supersonic speed 17 p2948 A69-34212

Helicopter rotors forward-flight noise characteristics determined by wind tunnel tests compared to rotor noise during flyover 18 p3119 A69-35225

V/STOL model small scale tests compared with full scale tunnel or flight tests, considering normal differences in parameters and rotor instability 18 p3119 A69-35227

Flow field throughout wind tunnel containing rotor with sharply deflected blades, noting reversed flow effect in front of wake 18 p3119 A69-35228

Flow breakdown in wind tunnel tests of high disk loading systems at low forward speeds, investigating downwash distribution effect using disk loading and airfoil models 18 p3119 A69-35230

Wind tunnel tests of swept wing fighter aircraft for transonic buffet onset lift coefficient resulting from camber and leading and trailing edge deflection [AIAA PAPER 69-793] 19 p3238 A69-36297

Sounding rocket aerodynamic stability as function of nose length and mass, discussing wind tunnel test data 19 p3432 A69-36761

Aircraft propelled at Mach 7, discussing low speed and transonic characteristics, stability, power plant integration and ONERA wind tunnel experiments 21 p3644 A69-39164

Wind tunnel tests determining propeller slipstream effect on roll-damping derivative in transitional flight region, estimating STOL aircraft characteristics 22 p3863 A69-40145

Buoyant Venus Station balloon for deployment and inflation during parachute descent into Venus atmosphere tested with scale model balloons in wind tunnels [AIAA PAPER 69-1017] 22 p3922 A69-40389

Unsteady aerodynamic heating at stagnation region including surface combustion in arc heated high enthalpy wind tunnel 22 p3860 A69-40597

Solid fuel ablation and supersonic combustion processes for various propulsion configurations, testing plastic models in wind tunnel 24 p4414 A69-43569

WIND TUNNEL WALLS

Similarity law for channel wall influence in wind tunnels valid for all flow velocities 02 p0192 A69-12830

Large subsonic wind tunnels for correct simulation of V/STOL powered flight by minimizing wall constraint effects on flow field 05 p0741 A69-15573

Wind tunnel wall constraints effects at extreme force coefficients during V/STOL testing shown different from effects in conventional aircraft testing 05 p0741 A69-15574

Blockage correction for blunt based bodies of revolution in wind tunnels at low Mach numbers 05 p0699 A69-16395

Optimal V/STOL wind tunnel through interference study of slotted tunnel walls, including porosity and height to width ratio effects [AIAA PAPER 69-171] 06 p0908 A69-18203

High velocity subsonic flow past wedge in wind tunnel with perforated walls, applying solution to optimum parameter determination of suction system 07 p1050 A69-18741

Subsonic wind tunnel solid and ventilated wall interference on air flow around aerodynamic models, discussing data corrections and slotted wall tests [AIAA PAPER 68-360] 12 p2059 A69-26766

Wind tunnel wall interference effects in wind tunnel testing of STOL aircraft by inducing interference velocities [AIAA PAPER 68-399] 17 p2947 A69-34022

Vortex wakes behind high lift wings, considering effects of height above ground and various tunnel heights and widths for STOL operations [AIAA PAPER 69-740] 18 p3083 A69-34405

Cascade wind tunnels performance experiments, investigating effect of exit side walls lengths 19 p3241 A69-36753

WIND TUNNELS

NT BLOWDOWN WIND TUNNELS

NT CASCADE WIND TUNNELS

NT HOTSHOT WIND TUNNELS

NT HYPERVELOCITY WIND TUNNELS

NT LOW DENSITY WIND TUNNELS

NT LOW SPEED WIND TUNNELS

NT PLASMA JET WIND TUNNELS

NT SHOCK TUNNELS

NT SLOTTED WIND TUNNELS

NT SUBSONIC WIND TUNNELS

NT SUPERSONIC WIND TUNNELS

NT TRANSONIC WIND TUNNELS

- Thermographic phosphor technique to provide transient temperature measurements in impulse wind tunnel
01 p0078 A69-10152
- Wind tunnel measurement of rear parts drag of small scale aircraft models
[ONERA TP-633] 02 p0226 A69-11624
- Göttingen type wind tunnel, discussing stream characteristics and turbulence measurement by hot-wire anemometer
03 p0420 A69-14238
- MHD aligned flow of compressible fluid past slender body in wind tunnel
06 p0861 A69-17719
- Hot air open circuit wind tunnel for testing vaporized fuel films heat and mass transfer over flat plates
08 p1302 A69-20878
- Equilibration potentials between dense thrust beam and dilute space plasma measured in wind tunnel
[AIAA PAPER 69-263] 09 p1568 A69-21728
- Computer controlled data acquisition and control system (JDACS) for wind tunnel applications, describing system and programs
10 p1673 A69-23286
- Radiated aerodynamic noise effects on boundary layer transition on sharp leading edge hollow cylinders in wind tunnels, noting Reynolds numbers correlation
[AIAA PAPER 68-375] 13 p2241 A69-28211
- Boundary layer characteristics of incompressible flow in wind tunnel with asymmetric two dimensional contraction, discussing flow profiles
13 p2249 A69-28235
- Hypersonic wakes interference effects induced by facility instrumentation, discussing results of wind/shock tunnel investigations
15 p2588 A69-30475
- Running test facility for study of aerodynamics and flight dynamics of V/STOL aircraft models
17 p2944 A69-32851
- Blockage effects of flat plates and solid bluff bodies in closed wind tunnels compared concerning drag coefficient values
17 p2890 A69-33245
- Book on experimental aerodynamics covering subsonic and supersonic wind tunnels, wall measurements, airfoils, aerodynamic characteristics of propellers, fixed and rotary wing aircraft
17 p2891 A69-33318
- Nonrecirculating wind tunnel configuration with minimum atmospheric wind disturbances for V/STOL vehicles aerodynamic testing
[AIAA PAPER 68-398] 17 p2947 A69-34024
- V/STOL wind tunnel data at low forward speeds, discussing test limit dependence on model size, downwash angle and tunnel geometry
18 p3119 A69-35229
- Continuously operating multipurpose wind tunnel for laser light scattering experiments in supersonic two phase flow
21 p3689 A69-38596
- Aerodynamic characteristics of turbulent twisted jet in slipstream in open jet wind tunnel, determining static pressure, temperature and velocity component profiles
21 p3645 A69-39848
- Linear small perturbation approximation for supersonic nonequilibrium flows past oscillating airfoil in two dimensional wind tunnel, noting Laplace transform solution
23 p4061 A69-42349

WIND VANES

- Flutter vibration of sails fixed along edge and single wing weather vanes in supersonic flows
02 p0192 A69-12824
- Theoretical response of cup and vane anemometers to steady and varying flows derived analytically and by using analog computer
08 p1314 A69-20315

WIND VARIATIONS

- Turbulence characteristics up to 150 m above ground, noting surface roughness length directional dependence, longitudinal turbulence spectra and turbulent energy budget
01 p0110 A69-10695
- Factors producing wind deviations from geostrophic pattern under various atmospheric conditions
03 p0458 A69-13267
- Quasi-biennial oscillation in tropical stratosphere as result of long period gravity waves interaction with zonal wind
03 p0461 A69-13342
- Thermal forcing role in diurnal oscillation of planetary boundary layer wind above sloping terrain
03 p0462 A69-13682

- Long range prediction of zonal westerlies based on lunar cycles or quasi-biennial oscillations, considering aliasing problem
07 p1175 A69-18945
- Mean and turbulent energies and energy spectra of large scale wind velocity pulsations, analyzing annual variation for fixed wave numbers
09 p1536 A69-21861
- Zonal westerlies variations associated with tidal cycles, discussing principal component analysis, zonal index, bandpass filtering, aliasing, prediction and stepwise regression
09 p1537 A69-22242
- Power spectral analysis of upper wind data of equatorial lower stratosphere noting quasi-biennial oscillation
09 p1537 A69-22297
- Characteristics method for solution of differential equations representing time changes of wind and pressure fields in divergent barotropic channel flow
11 p1911 A69-24585
- Tropospheric zonal wind semiannual oscillations in Southern Hemisphere tropics with westerly maxima and easterly minima in May and November
12 p2064 A69-26011
- Latitudinal and vertical variations in six-month zonal wind cycles in equatorial and tropical stratosphere and lower mesosphere, utilizing rocket observations
13 p2294 A69-27854
- Thermally excited diurnal wind oscillations in lower mesosphere using model atmosphere in CIRA 1965, discussing daytime ozone density profiles
14 p2441 A69-29379
- Equatorial stratospheric wind fluctuations from pressure fluctuation data, relating southern fluctuations, stratospheric fluctuations and seasonal hemispheric air exchange
14 p2442 A69-29726
- Two year cyclic monsoon type variations in zonal wind distribution in tropical stratosphere and mesosphere obtained by rocket measurements
14 p2478 A69-29834
- Horizontal wind pulsations in precipitations obtained from pulsed Doppler radar data, including degree of turbulent flow anisotropy
16 p2807 A69-32271
- Diurnal wind variations below 30 km plotted on constant pressure charts, showing topographical influence on tidal fluctuations
18 p3166 A69-34828
- Time variability of horizontal wind as function of time provided by Kolmogoroff structure functions for components of isotropic turbulence
18 p3167 A69-34829
- Eulerian correlation functions representation of wind variations in analytic form by three parameter function, noting field diagram
20 p3571 A69-37507
- Horizontal wind speeds kinetic energy spectrum near surface, discussing diurnal variations
24 p4343 A69-43063

WIND VELOCITY

- Turbulence conditions in atmospheric boundary layer within similarity theory, including wind velocity and temperature profile
02 p0274 A69-11447
- Three term formula for describing vertical wind velocity distribution in upper boundary layer of atmosphere, taking into account friction and orography effects
02 p0240 A69-11708
- Venus atmosphere from Mariner 5 and Venera 4 data, discussing surface temperatures and pressures, cloud top region, McElroy model and maximum wind velocities
02 p0330 A69-12803
- Statistical analysis of data concerning difference between real wind velocity and velocity of gradient wind for winds of various velocities
03 p0458 A69-13268
- Ekman-Okkerblom problem for electrically conducting atmosphere located in external magnetic field, obtaining altitude distribution for wind velocity components
03 p0461 A69-13510
- Correlations at regional scale between clear air turbulence aircraft observation, Richardson number and wind intensity and direction at flight level
03 p0462 A69-13966
- Tetron flight observations of eddy velocities in planetary boundary layer, noting effects of height and seasonal variations
04 p0626 A69-14912

- Frequency distribution of wind velocity as function of height, averaging time and thermal stratification
04 p0628 A69-15088
- Turbulence characteristics and wind velocity in atmospheric boundary layer determined from pressure and temperature fields
05 p0788 A69-16453
- Terminal velocities of dust particles for two Venus atmospheric models from Mariner 5 and Venera 4 data, obtaining vertical wind velocity requirements
06 p1001 A69-17172
- Atmospheric wind velocity in Northern and Southern Hemisphere, noting increase with height
06 p0921 A69-17747
- Similarity of mean flow patterns of natural local wind to model wind in wind tunnel
07 p1176 A69-18964
- Wind velocity and shear stress profiles above surface with changed roughness, using mixing length theory
08 p1346 A69-20311
- Wind velocities statistical properties at various altitudes, noting linear regression of orthogonal components and prediction of wind velocities at all altitudes
11 p1911 A69-24694
- Air flow distribution and wind velocities in cyclones constructed from Cosmos 122 TV cloud images
11 p1912 A69-24825
- East-west asymmetry in solar wind velocity due to solar rotation effects on interaction between fast and slow streams
11 p1950 A69-25148
- Horizontal wind velocity energy spectra, attributing free atmosphere meso and microscale turbulence to meso and micrometeorological processes
12 p2070 A69-26575
- Wind structure in atmosphere meteor region from persistent meteor trail radio echoes amplitude fluctuations, noting horizontal wind velocity profiles
12 p2074 A69-26962
- Satellite and aerological ground station data combined to determine geopotential fields and wind velocity fields for inadequately serviced areas
13 p2292 A69-27732
- Wind velocity, geopotential and atmospheric layer temperature fields constructed from Tiros 9 satellite cloud data using least squares method and trigonometric polynomials
13 p2292 A69-27733
- Wind shifts and mean gustiness calculation from short range weather forecasts, using dynamic model for wind motion in atmospheric boundary layer
13 p2293 A69-27844
- Vertical wind velocity profiles approximation accuracy determined by linear, exponential and logarithmic functions of altitude during ice and frost
13 p2293 A69-27846
- Wind velocity fluctuations calculation in CAT based on closed equations numerical solution for turbulent layers in upper troposphere
15 p2649 A69-30649
- Diurnal variations of wind velocity, temperature and density at high altitude measured by Skylark rockets
15 p2598 A69-31319
- Average angular velocity of upper atmosphere from changes in orbital inclinations of satellites, discussing wind speeds
15 p2600 A69-31352
- Atmospheric models for pressure variation and neutral air winds in thermosphere, discussing wind velocity vector relation to satellites orbital inclination
15 p2603 A69-31403
- Thermosphere neutral wind speed measured from observing Doppler shift in O I 6300 night airglow line with Fabry-perot interferometer
16 p2776 A69-32093
- Angel sources rate of motion observed at automatic tracking coherent pulse station, obtaining coincidence with wind and insect velocities
16 p2779 A69-32276
- Meteorite trails radar observations to measure zonal wind profiles between 80-110 km, noting short period oscillations
16 p2865 A69-32609
- Wind velocity and precipitation particle terminal fallspeeds component determination from continuity equation for data collected by Doppler radar
17 p2919 A69-33162
- Fully developed whirls steady state structure, discussing tornadoes maximum azimuthal speed, hurricanes rotational speed, model for mature hurricane and numerical computation
[AIAA PAPER 69-671] 17 p2997 A69-33499

WIND VELOCITY MEASUREMENT

Tropical storms wind speeds related statistically to characteristics as pictured from satellites
17 p2997 A69-33690

Meteor trail drift radar observations in Kharkov, giving wind velocity diurnal and seasonal variations
17 p3041 A69-33897

Correlation between disturbances in troposphere and in geomagnetic field observed after widespread high winds and magnetic storms, using superposed epoch method
18 p3127 A69-34648

Vertical air velocity in rain measured for size distribution of drops, using relation between drop fall rate and diameter
18 p3104 A69-35342

Cirrus clouds occurrence, position and wind velocities on jetstream axes based on statistical analysis of aerological data and satellite TV pictures
19 p3366 A69-36669

Wind velocity components calculation at F-sphere maximum level, taking into account electrodynamic drift of ionospheric plasma and ion motion
20 p3519 A69-36972

Wind velocity below 100 meters from Laikhtman atmospheric boundary layer model, solving equations for horizontally homogeneous, stationary and nonadvective air flow
20 p3571 A69-37695

Pulsation velocities distribution wind in meteor region of atmosphere during hourly intervals over eleven month period, noting normal distribution
21 p3759 A69-39115

Horizontal wind speeds kinetic energy spectrum near surface, discussing diurnal variations
24 p4343 A69-43063

WIND VELOCITY MEASUREMENT

Influence of winds aloft on fading rate of microwaves propagated beyond horizon
01 p0030 A69-10566

Atmospheric turbulence power spectra for design criteria of future low altitude aircraft from LO-LOCAT program, analyzing turbulence scale lengths
[AIAA PAPER 68-216] 01 p0011 A69-11023

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
03 p0458 A69-13270

COSPAR manual on stratospheric temperature and wind measurements, discussing synoptic and time variation study by Arcas and Loki-Judi meteorological sounding rocket systems
05 p0752 A69-15706

Hot-wire anemometer with no moving parts for measurement of three orthogonal components of wind velocity and wind direction
06 p0923 A69-16926

Wind changes calculated from Doppler data and inertial system, noting role of heading and air speed
08 p1346 A69-20317

Automatic measuring device for short term air temperature and wind velocity fluctuations leading to air mixtures propagation
09 p1535 A69-21515

Sonic anemometer for wind velocity through pulse communication transducers noting applications to aerospace vehicle design
10 p1692 A69-23255

Wind velocity evaluating device operating by scale enlargement
12 p2079 A69-25896

Cloud drift radar measurements for determining wind velocity profiles in mesosphere, using rocket released dipole reflectors
13 p2253 A69-27848

Richardson number in vertical tropospheric region of maximum wind computed from data on jet streams observed in winter over radiosonde stations in Italy
13 p2295 A69-28656

Vertical wind velocity structure and turbulent heat flux temperature measurements over steppe and sea, noting underlying surface influence
14 p2471 A69-28778

Remote optical heterodyne measurement of Doppler shift as method for determining vector wind velocity, noting influence of air pollution
14 p2448 A69-29523

Vertical wind velocity pulsations in precipitation and passage through subfrontal clouds measured by pulse radar
16 p2807 A69-32272

Gust probes in model of low altitude atmospheric turbulence during USAF research program LO-LOCAT, plotting relationship between peak count distribution curves
17 p2999 A69-33737

Analog device to compute running ten minute average and store latest ten minute peak of unipolar data input for wind speed sensors
19 p3312 A69-36278

Vertical atmospheric motions, considering wind velocity measurements associated with synoptic processes
19 p3366 A69-36673

Wind speed and direction determination accuracy of radar or theodolite methods
20 p3572 A69-37698

Wind motion and turbulence in upper atmosphere from Rehbar 15 and 16 rocket observations
21 p3703 A69-38362

Wind and cloud velocities from ESSA 3 and 5 and ATS 1 pictures for typhoon and tropical vortices in intertropical convergence zone
21 p3758 A69-38371

Statistical analysis of wind velocity measurements at floating buoy stations, presenting velocity power spectra for different frequency bands
21 p3758 A69-39111

Airborne microwave radiometric measurements of simulated ocean surface under various conditions, suggesting possible wind velocity measurement by satellite
21 p3726 A69-39750

Lower ionosphere vertical wind velocity profiles determined from rocket-released grenade glow cloud photographs, developing cloud buoyancy effect empirical model
23 p4154 A69-41305

Atmospheric model for calculating wind velocity profile and turbulence of stable atmospheric boundary layer with given temperature stratification and pressure gradient distribution
23 p4184 A69-42489

Constant temperature thermoanemometer design and subsystem operation applied to measurements of turbulent flow velocity and pulse characteristics
24 p4311 A69-42558

WINDING

U FILAMENT WINDING

U HELICAL WINDINGS

U WIRE WINDING

WINDMILLING

U AUTOROTATION

WINDOWS

Passenger cabin windows on Convair liner type aircraft, describing construction, installation, strength, etc
17 p3061 A69-33667

WINDOWS [APERTURES]

NT WAVEGUIDE WINDOWS

Computer program for predicting temperature distribution and heat transfer through coated and uncoated window systems of aerospace vehicles
[AIAA PAPER 69-28] 06 p1038 A69-18178

Homogeneous fused silica and quartz reinforced resins as dielectric materials for reentry vehicle antenna windows
07 p1090 A69-18400

Halide salts, semiconductors and nonoxide glasses as materials for high power laser windows
07 p1144 A69-18401

Electromagnetic windows - Conference, University of Paris, September 1967
07 p1108 A69-19507

Thermal behavior of space vehicle window systems predicted by mathematical analysis and computer methods for heat transfer through glass
[AIAA PAPER 68-65] 13 p2378 A69-28215

Acoustoelastic interaction effects of sonic bangs on natural frequencies response of large windows backed by closed cavity
21 p3836 A69-38988

Thermal control coatings, windows and mirrors for 1973 Mars Viking Lander vehicles under simulated Martian surface conditions
[AIAA PAPER 69-1023] 22 p3923 A69-40393

Autotransformer with static tap changer to provide varying power levels for controlled gradual heating of aircraft window to avoid thermal shock
22 p3869 A69-40414

WINDOWS [INTERVALS]

U LAUNCH WINDOWS

WINDS ALOFT

NT GEOSTROPHIC WIND

NT JET STREAMS [METEOROLOGY]

Influence of winds aloft on fading rate of microwaves propagated beyond horizon
01 p0030 A69-10566

Curvilinear plasma motions in ionosphere same as cyclones and anticyclones in troposphere, solving ionospheric unstable wind as function of pressure gradients
06 p0919 A69-17722

WINDSCREENS

U WINDSHIELDS

WINDSHIELDS

Rain repellent system providing transparent film on aircraft windshield surface
06 p0877 A69-16954

Tempered glass plates strength nondestructive testing by scattered light photoelastic method, discussing application to aircraft windshield sandwich structures
[AIAA PAPER 68-323] 12 p2118 A69-26768

Instruction manual for maintenance personnel and pilots regarding clear vision and window integrity of Convair aircraft, discussing windshield installation and replacement
14 p2391 A69-28932

Electrical failures in aircraft due to static electrification of electrically heated windscreens, noting materials for reducing surface resistivity
19 p3256 A69-36769

WINDWARD

U WIND [METEOROLOGY]

WING CAMBER

Rotor aerodynamics research in terms of theoretical and experimental data comparison, rotor blade flow visualization and blade section camber
23 p4057 A69-41372

WING FLAPS

NT LEADING EDGE SLATS

NT TRAILING-EDGE FLAPS

Minimum drag wing flap profile design, discussing application for trailing edge flaps
08 p1251 A69-20441

Aerodynamic characteristics of propeller-wing-flap systems used on deflected slipstream STOL aircraft
09 p1431 A69-22278

Torsionally flexible blade controllable twist rotor with pitch horn and servoflap control, discussing optimum inputs, airloads and angles of attack contours
18 p3089 A69-35234

WING FLOW METHOD TESTS

Aerodynamic characteristics of propeller-wing-flap systems used on deflected slipstream STOL aircraft
09 p1431 A69-22278

Velocity potential function for flow over disk shaped wing near screen, noting aerodynamic lift and drag
13 p2199 A69-27524

WING-FUSELAGE STORES

Aircraft stability during sideslip, discussing influence of fuselage/wing interference
04 p0548 A69-14824

WING LOADING

Polygonal wing planform pressure distribution in incompressible flow calculated on basis of lifting surface theory
01 p0008 A69-11298

Spar attachments of aircraft wings analyzed with respect to weight and applied loads, determining optimum bolt diameter ratio to lug width
04 p0673 A69-14496

Design parameters optimization for V/STOL jet aircraft with lift engines mounted in wing pod, discussing wing loading and aspect ratio, power plant, etc
04 p0547 A69-14812

Prestressing of aircraft wing stringers in order to reduce weight, noting initial bending moment, initial axial stress and prestressing methods
05 p0832 A69-15690

Lift drag ratio for conical sector with V-shaped wing at zero incidence
06 p0858 A69-17340

Approximation formula for calculating descent speed and lift-drag ratio
10 p1633 A69-22873

Theoretical nonlinear method for calculating aerodynamic forces on low aspect ratio wings at high angles of attack and wide range of Mach numbers
21 p3644 A69-39084

Aeroelasticity of supersonic aircraft in flight, discussing buffeting, wing flutter and control surface flutter
22 p3862 A69-40003

WING OSCILLATIONS

Idealized delta wing free-free oscillations determination by deriving equations of motion for flexibility and rigidity and formulating boundary value problems
01 p0172 A69-11358

Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces
02 p0188 A69-11976

Nonstationary wing motion in gas stream near solid surface, analyzing differential equation for acceleration potential

02 p0188 A69-12134

Velocity field generated by vibrations propagating at finite velocity over elastic wing surface

02 p0190 A69-12571

Thickness effects on flow past sweptback wings in supersonic flight noting influence of oscillatory motion [ASME PAPER 68-FE-31]

05 p0698 A69-16078

Buffeting tests of model wing in wind tunnel as function of angle of attack and Mach number

06 p0857 A69-17096

Lifting pressure distributions on oscillating surfaces in subsonic flows using doublet lattice method for various surface geometries [AIAA PAPER 68-73]

09 p1430 A69-21946

Mathematical model with straight wake airfoil to determine aerodynamic forces on oscillating rotor blades in hovering flight

11 p1821 A69-25514

Collection of papers on aerodynamic flutter covering airfoils, flow theory, aircraft structures, etc

13 p2358 A69-27234

Velocity field excited by wing vibrations propagating over elastic surface at supersonic velocities, considering nonvertical motion and absence of external forces

15 p2547 A69-30259

Laminar boundary layer on rotating blades and yawed infinite wings, solving partial differential equations numerically by implicit finite difference scheme on computer

16 p2732 A69-31885

Aerodynamic behavior of airfoil oscillating in reverse flow defined for various angles of attack and oscillatory amplitudes at low Mach numbers

18 p3087 A69-35219

Perturbation equations for oscillating wedges and caret wings with attached bow shock in hypersonic and supersonic flows

24 p4249 A69-43659

LF approximation in predicting unsteady aerodynamic forces affecting large aircraft stability, analyzing velocity potential of oscillating wings

24 p4250 A69-43729

WING PLANFORMS

NT DELTA WINGS

NT TRAPEZOIDAL WINGS

NT VARIABLE SWEEP WINGS

Polygonal wing planform pressure distribution in incompressible flow calculated on basis of lifting surface theory

01 p0008 A69-11298

Wing penetration into zone of sharply localized gust, deriving equations for forces and moments acting on wing

07 p1050 A69-18742

Book on wing theory in supersonic flow covering simple and cruciform wings, wings with vertical plane tail, etc

08 p1251 A69-20523

Three dimensional optimum hypersonic wings construction for wave drag minimization for given lift [AIAA PAPER 68-158]

09 p1430 A69-21944

Automated Structural Analysis Procedure employing Displacement Method of Matrix analysis applied to validation studies of various finite elements for wing structures

12 p2184 A69-26809

Nonuniform flowfield from supersonic penetration of plane shock by three dimensional pointed planar wing, using integral transform method to study field perturbation pressure

13 p2199 A69-27323

Steady rectilinear translational motion of circular disk-shaped slightly bent wings near solid wall in incompressible fluid medium in absence of vortices and external forces

15 p2547 A69-30583

Surface of minimum drag symmetrical trapezoidal wing in supersonic flow solved by variational method

15 p2548 A69-31022

Leading edge flap angle and planform effects on low speed vortex patterns of flat plate double delta wings, measuring aerodynamic forces

17 p2890 A69-33246

Lift coefficients of idealized tunnel type ram wing consisting of truncated semiconical shell computed by lifting surface theory

22 p3860 A69-40819

Rheoelectrical analog technique for low speed aerodynamic characteristics of finite wings in incompressible flow, using deep electrolytic tank for lifting surface calculations

23 p4061 A69-42351

Maximum admissible weight of structural elements required for conventional wing conversion into variable geometry wing without performance impairment

24 p4253 A69-43092

WING PROFILES

Wing-body combinations analysis and design at supersonic and subsonic speeds by aerodynamic influence coefficients method [AIAA PAPER 68-53]

01 p0006 A69-11016

Lifting wing profiles in uniform transonic compressible fluid flow calculated by analog method, noting hodograph method simplification

02 p0187 A69-11536

Wing upper surface velocity distributions having peak near leading edge, considering incompressible flow at zero angle of attack [ONERA-TP-632]

02 p0187 A69-11618

Subsonic lifting surface analysis accuracy tested by planar circular wing theory

04 p0543 A69-14818

Pressure distribution on star-shaped bodies in wind tunnel at Mach 4 and Reynolds number. 000006

07 p1050 A69-18703

Minimum drag wing flap profile design, discussing application for trailing edge flaps

08 p1251 A69-20441

Cross-spectral density of pressure induced on lifting surface by isotropic atmospheric turbulence, solving integral equation [ONERA-TP-681]

09 p1613 A69-21689

Shear field pattern theory modified to apply to determination of sweptback wings, calculating stress development

10 p1801 A69-23645

Minimum drag wing profile at zero angle of attack in supersonic flow, allowing for initial structural flaws and randomly varying parameters

11 p1818 A69-25328

Wing geometry and wing lower surface boundary layer effects on rolled-up tip vortices geometry and strength

11 p1819 A69-25372

Aerodynamic interactions between two wing configurations with same aspect ratio located in same plane, discussing testing principles and initial experimental results

17 p3061 A69-33595

Vortex wakes behind high lift wings, considering effects of height above ground and various tunnel heights and widths for STOL operations [AIAA PAPER 69-740]

18 p3083 A69-34405

Design and fabrication of plane and trapezoidal fiberglass wings with laminar plastic profiles for aerodynamic tests, including wing rigging and slotted wing

19 p3324 A69-35831

Stream surface characteristics as criteria for hypersonic lifting bodies shapes for optimal aerodynamic and fuel performance

19 p3248 A69-36399

Book on optimal aerodynamic shapes by means of variational method, covering conventional and triangular thick wing lift systems in supersonic flow

21 p3644 A69-39667

Warping of doubly supported submerged wings, calculating stress and strains due to bending and constrained torsion

23 p4225 A69-41423

Laminar boundary layer in steady compressible gas flow past plane wing profile, studying surface temperature and suction effects

23 p4058 A69-41709

Newton formula and Ritz method to determine wing shape with blunt leading edge, considering minimum drag achievement at hypersonic velocities

24 p4247 A69-43497

WING SLATS

U LEADING EDGE SLATS

WING SLOTS

Slot height, position and trailing edge geometry effects on elliptically shaped rotors selected for hover efficiency, size, transitional gust insensitivity and rigidity

18 p3058 A69-35231

WING SPAN

Lift augmentation by lateral blowing over lifting surface, discussing wind tunnel pressure tests on wings, flaps and stabilizers [AIAA PAPER 69-193]

07 p1051 A69-19554

WING STALL

U BOUNDARY-LAYER SEPARATION

WING TANKS

Deposit formation in empty wing tanks due to autoxidative degradation of hydrocarbon fuel, noting results of environment simulation tests [SAE PAPER 680733]

03 p0366 A69-13439

Skyvan 2 aircraft aerodynamic design, describing modifications to increase fuel capacity, directional stability and range capability

17 p2896 A69-34193

Redesigned A1 wing structure using B-epoxy composite applied to pressurized fuel carrying section, including material, fabrication and test data

24 p4323 A69-43418

WING TIPS

Wing geometry and wing lower surface boundary layer effects on rolled-up tip vortices geometry and strength

11 p1819 A69-25372

Wingtip mounted propellers effect on wing lift and induced drag, varying lift to drag ratio by changing inflight aspect ratio

24 p4250 A69-43713

WINGED ROCKET BOOSTERS

U LAUNCH VEHICLES

WINGED VEHICLES

Marchetti SV-20A and SV-20C twin turbine helicopters with two bladed rotors and fixed wings, discussing propeller on starboard engine rear of compound version

12 p2013 A69-26466

Variational problem involving winged flight vehicles ascending and descending flight optimal program determination, considering necessary extremal conditions

21 p3767 A69-39823

Artificial damping of longitudinal winged reentry vehicle motions in earth atmosphere, discussing vibration damper dynamic characteristics

21 p3829 A69-39828

WINGS

NT CAMBERED WINGS

NT CARET WINGS

NT CRUCIFORM WINGS

NT DELTA WINGS

NT FIXED WINGS

NT FLEXIBLE WINGS

NT LIFTING ROTORS

NT LOW ASPECT RATIO WINGS

NT PARAGLIDERS

NT PARAWINGS

NT RIGID ROTORS

NT RIGID WINGS

NT RING WINGS

NT ROTARY WINGS

NT SLENDER WINGS

NT SWEPT WINGS

NT THIN WINGS

NT TILTING ROTORS

NT TIP DRIVEN ROTORS

NT TRAPEZOIDAL WINGS

NT TWISTED WINGS

NT VARIABLE SWEEP WINGS

Air deflection and modulation /ADAM/ turbofan propulsive wing V/STOL design [AIAA PAPER 69-201]

07 p1056 A69-19573

Interference between bodies of revolution and wings in supersonic flow, using Volterra method for calculation

11 p1820 A69-25476

Wing section of high lift/drag test vehicle for 2500 F reentry, describing design, manufacture and testing

12 p2103 A69-26837

Weight estimation inaccuracies due to use of quickie equations, discussing error and extrapolation avoidance in wing weight study [SAWE PAPER 794]

18 p3222 A69-34904

Wing elastic strains effect on vertical velocity in downwash, noting wing tail combination

18 p3086 A69-34999

Aircraft wing aerodynamic forces and moments due to lifting engine air intake simulated by wind tunnel experiment

19 p3239 A69-36400

Multiple support wing deformations, obtaining bending equations solutions by matrix methods

21 p3835 A69-38872

Design of Concorde wing for Mach 2 cruising speed including fuselage/wing relations, wing planform and leading edge camber, etc [RAES PAPER 18]

22 p3859 A69-40497

WINTER

Midwinter warmings in upper stratosphere for differences between various stratospheric and mesospheric levels, noting need for additional upper air data

08 p1345 A69-20134

Light waves refractive index distribution from balloon sounding data found to decrease with height in winter regardless of time of day

09 p1536 A69-21917

WIRE

Seasonal variation in ionospheric radiation absorption related to time variation between sunrise and constant angle attainment of sun 14 p2437 A69-29072

Irregular data obtained by radiosondes in winter for charts of high isobaric levels, noting stratospheric temperature effects on radiosonde ascent height 14 p2473 A69-29731

Gyroplasma probe data from rocket observations, determining winter ionospheric electron density profiles, electron temperature and electrostatic cyclotron waves effect 15 p2606 A69-31446

Ionospheric winter anomaly duration in height range of mesopause region based on zenith angle dependence of absorption at LF 16 p2782 A69-32456

Relation between atmospheric processes in troposphere and upper stratosphere in cold half year 18 p3166 A69-34817

WIRE

NT ELECTRIC WIRE
NT EXPLODING WIRES

Torsional pendulum for stress and strain relaxation measurements of wire sample 01 p0079 A69-10221

Temperature dependence of internal friction in molybdenum wire in moderate and high temperatures 03 p0446 A69-13576

Twin differential calorimeter for measuring heat dissipation by wire specimen under fatigue tests, using semiconductor thermopiles 04 p0618 A69-15205

Flow stress of iron wire reinforced aluminum alloy composites [ASME PAPER 68-WA/MET-10] 05 p0780 A69-16150

Plane wave scattering by conducting wire impedance loaded at center, discussing loading effect on backscattering cross sections 06 p0888 A69-17512

Treatment and testing of thin platinum and gold alloy wires used in thermoelements for studying liquid fuel vaporization in combustion chambers 07 p1130 A69-18258

Holography for temperature distribution measurement around heated wire, using He-Ne laser 11 p1887 A69-25197

Reversion and drawing techniques for ultrahigh strength ductile maraging steel wire without excessive deformation 13 p2278 A69-27412

Wire-wrap solderless joints production technology in electronic equipment 16 p2763 A69-32579

Diffusion welding and soldering of metallic wire with graphite and graphitized viscose applied to chromel, copel, chromel-alumel, Mo, W and W-Re 21 p3728 A69-38617

Stress-strain curves of W wires and of aligned composites of same wires in Cu matrix 21 p3845 A69-39709

Monostatic radar cross sections/RCS/ for 5 and 11 wavelength straight wires obtained from induced current integral equation solutions 23 p4116 A69-41594

Extreme value statistics used to determine minimum acceptable tensile strength of wire command links in TOW antitank missiles 24 p4318 A69-42642

WIRE BRIDGE CIRCUITS

NT WHEATSTONE BRIDGES

Nondestructive testing of quality of electroexplosive devices based on determination of heat flow between bridge wire and surroundings 04 p0607 A69-14973

WIRE CLOTH

Filtration and flow characteristics of wire cloths used in hydraulic systems described by expressions from measured properties [ASME PAPER 68-WA/FE-39] 05 p0750 A69-16111

Wire screen deployable boom concept for avoiding thermal bending of slender tubes problem in application to gravity gradient stabilization and antennas of spacecraft 07 p1229 A69-18350

Initial equations for plane wave diffraction at grids of squared beams, calculating transmission and reflection coefficients by reflection method and computer 07 p1084 A69-19149

Plane electromagnetic wave diffraction at oblique screen of circular cross section conducting wires

solved, assuming smaller wire radius than grid spacing and wavelength 07 p1084 A69-19150

Hard-drawn steel wire wound pipes and tanks, properties and design calculation, discussing laminates and permissible stress 08 p1414 A69-20487

EMI-RFI knitted wire mesh gasket for corrosion prevention, noting use of moisture tight seal 09 p1523 A69-21895

Surface wave reflection from free ends of ideally conducting rods forming semiinfinite grid to study rod delay systems and wave-duct antennas 11 p1833 A69-24438

WIRE WINDING

Statistical processing of oscillograms of instantaneous values of wire tension during winding, determining stress characteristics 06 p0927 A69-17691

Pulse transformer design relationships and definitions, discussing core and winding structure choice 08 p1285 A69-20382

Wire wound glass fibers for rocket motors, discussing rupture strength 17 p3021 A69-33357

Stress analysis of hollow viscoelastic cylinder reinforced with elastic helically wound wires [ASME PAPER 69-APMW-23] 24 p4401 A69-43096

WIRELESS COMMUNICATIONS

Sweep frequency measuring setup for adjusting equalizers in carrier transmission systems 11 p1841 A69-25639

Wireless telemetry system design for physiological signals in human diagnosis, discouraging casual use of wireless transmission 19 p3261 A69-36269

Soviet book on modern systems of wireless telecommunication covering radio communication and tropospheric, ionospheric and satellite wireless systems 20 p3487 A69-37235

WIRING

Printed circuit board wiring technique for strain gage rosettes application in extensive airframe static tests 02 p0250 A69-12231

Supersonic airplane high temperature wire tests, detecting corona onset voltage /COV/ or voltage breakdown 05 p0731 A69-16245

Design and tests of cable assemblies for F-111 aircraft 05 p0731 A69-16246

Heat convection coefficient for wires enclosed in cylindrical tubes filled with water or ethanol, showing dependence on inclination angle 07 p1242 A69-18926

Automation of wiring diagrams and printed circuit conductor patterns by computerization 15 p2632 A69-31520

Automated design system producing wire format data for cabling avionics subsystems of light attack aircraft [AIAA PAPER 69-976] 22 p3912 A69-40356

WKB APPROXIMATION

U WENTZEL-KRAMER-BRILLOUIN METHOD

WOOD

Radiation processed wood-plastic materials produced by impregnating natural wood with liquid monomer followed by ionizing radiation induced polymerization 04 p0605 A69-14582

WOOD AIRCRAFT CONSTRUCTION

U AIRCRAFT STRUCTURES

U WOODEN STRUCTURES

WOODEN STRUCTURES

Adhesive joints design with uniform shear stress for prestressing wood beams 24 p4323 A69-43425

WORK

NT PHYSICAL WORK

Mechanical work recoverable from stored energy and heat absorbed by taking material through closed cycle in strain and entropy space 20 p3575 A69-37074

WORK CAPACITY

Work and rest scheduling effect on working capacity and physiological state of male subjects in sealed chamber 03 p0381 A69-14201

Work capacity and adaptation characteristics of humans confined in small chamber and experiencing effects of isolation and sensory deprivation 08 p1262 A69-19838

Acclimation to altitude hypoxia and duration of resistance to muscular effort in white Wistar rats on treadmill 09 p1445 A69-22725

Traditional flight crew organization relevance to current and developing flight systems, discussing inadequacies, anachronisms and safety threats 12 p2023 A69-26555

Heart rate and respiratory response correlations in men during surface and underwater work, showing reasonable approximations of workload in surface equivalent terms 14 p2406 A69-29293

Telemetry techniques, based on pulse rate measurements, permitting continuous examination of humans under natural working conditions 15 p2559 A69-31228

Healthy, physically untrained students compared with trained athletes for differences in working capacity concerning orthostatic tolerance and blood pressure responses 22 p3889 A69-39940

Oxygen uptake and circulatory response in human male subjects during maximal treadmill and bicycle exercise 22 p3874 A69-40226

Prolonged wakefulness effect on human work capacity in isolated chamber, determining physical, intellectual and sensory capacities 22 p3877 A69-40280

Healthy, physically untrained students compared with trained athletes for differences in working capacity concerning orthostatic tolerance and blood pressure responses 23 p4108 A69-41821

WORK FUNCTIONS

Beam-lead fabrication on dual Schottky barrier diodes for low noise integrated microwave mixers 02 p0222 A69-12474

Photoelectric effect of thin gold films on silver and quartz substrates, analyzing work function dependence on thickness of deposited metal 02 p0300 A69-12630

Photoelectric effect of thin gold film under electric field, noting work function dependence on film thickness exhibits extremum 02 p0300 A69-12631

Electron emission into vacuum from forward biased Schottky barrier consisting of cesiated thin layer of Pt on n-type ZnS 03 p0493 A69-14186

Electron phonon coupling in barriers of GaAs Schottky diodes, noting first and second derivatives of I-V characteristic in n-type GaAs-Pd Schottky diode 03 p0493 A69-14242

Schottky barrier mixer diodes and point contact diodes failure, discussing criterion for degradation of noise figure, 1/f noise and reverse breakdown voltage 04 p0574 A69-14352

Shot noise in Si Schottky barrier diodes for frequencies between 100 Hz and 50 kHz 05 p0734 A69-16564

Barium, oxygen and BaO adsorption influence on Mo and Ti thin films conductivity and work functions 06 p0978 A69-16900

Thermal metal-plasma thermodynamic equilibrium, using surface ionization of inner and outer potentials and work function, discussing ion and electron extraction 06 p0979 A69-17249

Surface parameters influence on energy transfer to arc jet anode, discussing work function, accommodation coefficient and diffuse reflection coefficient of electrons [AIAA PAPER 69-107] 06 p1039 A69-18185

Observation of photocurrents generated in Schottky barrier diodes on barium titanate, suggesting practical utility of photon-to-electron conversion efficiencies 07 p1104 A69-18905

Thermal faceting of tungsten single crystal surfaces in oxygen, using vibrating-capacitor work function probe with low energy electron diffraction 08 p1330 A69-20137

Interaction of nitrogen oxides and carbon dioxide on nickel crystal surface using low energy electron diffraction and mass spectrometer, discussing work function 08 p1268 A69-20138

Destructive breakdown in Shottky barrier diodes by evaporating contact metal through mask onto silicon, showing local heating by thin wax layer 08 p1286 A69-20860

Richardson constant for thermionic emission in Schottky barrier diodes, noting effect of surface shadows 08 p1286 A69-20865

Ag-GaAs Schottky barrier photodiodes, describing fabrication and use as UV radiation detectors
09 p1462 A69-21334

Work function change of tungsten single crystal /100/ surface measured as time function during surface molecular gas adsorption
09 p1521 A69-21338

Forward volt-ampere characteristics and differential resistance peak of Schottky barrier diode on doped Si
09 p1557 A69-21744

Trapping state effect on tunneling probability in Schottky barriers, discussing current-voltage characteristics
09 p1557 A69-21748

Effective work function of Re and Mo electrode samples determined from Schottky plots and emission measurements from grains
09 p1557 A69-21807

Work function and desorption energy measurements of alkali metals from metallic substrates with modulated molecular beam, noting surface contamination
09 p1558 A69-21808

Temperature effect on work function minimum of cesiated tungsten single and polycrystal surfaces, using vibrating capacitor technique
09 p1558 A69-21809

Comparative performance data of cylindrical diodes with various types of tungsten emitters, including emitter work function measuring device
09 p1439 A69-21821

Side wall currents in unignited hardware type thermionic energy converters, discussing work function and heat choke
09 p1439 A69-21822

Energy distribution in electron gun with single crystal spherical cathode, noting work function, space charge cloud and beam overlapping effects
09 p1464 A69-22396

Schottky barriers on n-type GaAs, measuring forward current characteristics for various electron concentrations and temperatures
10 p1745 A69-23358

Peaked electron emission from nickel surface with large work function under laser radiation, discussing emission pulses, electron currents and surface temperature time variations
10 p1703 A69-23572

Energy theorem for time dependent materials, deriving convexity conditions for minimum work and maximum complementary work functions
11 p1969 A69-24412

Sr and La ionization on crystal surfaces of W and polycrystalline W, discussing temperature effect on oxidation and work function
12 p2142 A69-26113

Avalanche Schottky barrier photodiodes fabricated by plating GaAs with thin Pt layer and forming proton radiation guard ring, discussing gain bandwidth and SNR
13 p2226 A69-27195

Free electron model for electron work functions and number density distributions and surface potentials in metals
14 p2504 A69-29009

CO adsorption on tungsten, determining work function changes and Fowler-Nordheim preexponentials on field emitter single crystal faces
14 p2409 A69-29093

Unignited mode converter and emitter work function patches, calculating electron-cesium momentum transfer cross sections from saturation current measurements
14 p2490 A69-29240

Thermionic converter current-voltage characteristics under various emitter temperatures and cesium vapor pressures, noting role of Schottky effect
14 p2402 A69-29241

Emission characteristics of thermionic converter electrodes surfaces with emphasis on work function
14 p2505 A69-29262

Electronegativity and work function relationship from thermodynamic and quantum mechanics standpoint, describing electrons structure by spin orbitals localized around lattice sites
14 p2505 A69-29263

Thermionic emission from bare and Cs-covered metal surfaces, calculating current and work function by employing localized electron orbital model
14 p2505 A69-29264

Thermoemission converters /TEC/ cathode materials, discussing determination of local work function by electron microscope and delay curves methods
14 p2505 A69-29265

Work function measurements of polycrystalline W, Re and Ni disks in high pressure cesium plasma for low probe temperature range
14 p2506 A69-29266

Tungsten surfaces with high work functions generated by electrochemical etching, discussing effects of heat treatment in vacuum
14 p2506 A69-29267

Tungsten emitting surfaces work functions, discussing dense crystalline planes electrolytic or pyrolytic deposit growth and surface chemical or electrolytic attack
14 p2506 A69-29268

Thermionic converters semiconducting collector surfaces, evaluating work functions of nickel-chromium steel and aluminum trioxide collectors
14 p2506 A69-29269

Sessile drops contact angles of alkali liquid metals on Re, W, Mo, Ta and Nb substrates related to substrate surface bare work function
14 p2506 A69-29270

Work function changes of tungsten single crystals as function of oxygen and CO gas pressure at high temperatures, using emission microscope
14 p2506 A69-29272

Tungsten work function increase by oxygen in diode thermionic emission, investigating crystals and vapor deposited layers
14 p2507 A69-29273

Plasma anode technique for work functions measurements of polycrystalline W and Re wires in cesium vapor with cesium oxide additive
14 p2507 A69-29274

Alkaline metal adsorption on high work function metals with charge transfer, measuring polycrystalline Mo photoelectric emission as function of Cs coverage
14 p2507 A69-29275

Electron work function profile determined for polycrystalline Mo and W single crystals with and without Cs vapors by emission microscope and photomultiplier
14 p2507 A69-29276

Gallium phosphide Schottky barrier diodes, discussing construction and metals used, barrier height relationships to impurity concentration and temperature, rectifying characteristics and internal quantum efficiency
16 p2757 A69-31613

Uniaxial stress effect in Schottky barrier diodes measured by beam balance noting higher sensitivity
16 p2758 A69-31619

Axial gas turbine efficiency and work functions, discussing turbine using isothermal high velocity combustor
16 p2837 A69-32064

Yttrium desorption from W wire by strong electric field, noting electron work function or temperature increase effects on desorption field
17 p3015 A69-33631

Low energy electron diffraction oxygen adsorption kinetics on planes of tungsten at coverages below monolayer and work function measurements
18 p3183 A69-35106

Schottky barrier diodes for high temperature operation prepared on n-type GaP single crystals, studying I-V and C-V characteristics
19 p3381 A69-35681

Electric fields and electron work functions, surface potentials and number density distributions in selected metals surfaces determined using free electron model
19 p3382 A69-36045

Surface structures, work function changes, Auger electron and surface plasma losses for Cs on clean W surface
19 p3392 A69-36733

MOS threshold voltages calculations, considering fixed bulk and oxide charges and difference in work function between metal and semiconductor, considering MOS-FET devices
20 p3506 A69-37779

WORK HARDENING NT STRAIN HARDENING

Temperature evolution velocity parameter effect on behavior of elastoviscoplastic solids, noting demonstration by work hardening tests at variable temperatures [ONERA-TP-644]
01 p0164 A69-10036

Aging and cold work hardening effect on deformability of aluminum-magnesium-silicon-copper alloy
02 p0254 A69-12677

Tangential and normal stress distribution in deformed metals, discussing work hardening of metals and cold working without softening effect
03 p0435 A69-14118

Work hardening - Conference, Chicago, November 1966

05 p0777 A69-15752

Work hardening of fcc single crystals, emphasizing transmission electron microscopy of thin foils, X ray topography and etch pitting techniques
05 p0778 A69-15753

Dislocation distributions in cold worked fcc, bcc and hcp metals, discussing dislocation structures in deformed single crystals and work hardening theories
05 p0778 A69-15754

Unified theory of stress-strain curve of fcc metal crystals in Stages II and III of work hardening
05 p0778 A69-15755

Work hardening in quenched fully hardened and overaged Mg-Mn alloy single crystals as function of temperature and strain rate
05 p0778 A69-15757

Work hardening characteristics of Ta and Ta-base alloy single crystals as function of temperature and interstitial concentration
05 p0778 A69-15758

Microplastic properties of arc-cast and Ti-Zr-Mo molybdenum sheet in tension at room temperature, measuring plastic strains with resistance strain gages
05 p0778 A69-15759

Cross slip model for work hardening of nickel aluminate crystals, discussing temperature dependence
05 p0779 A69-15760

Plastic deformation in hypoeutectoid and hypereutectoid Ni-Ti alloys studied by compressive stress-strain analysis and transmission electron microscopy
06 p0941 A69-17222

Edge dislocations effect in perpendicular slip planes on work hardening and strain aging, calculating dilatation centers absorbed
07 p1238 A69-19695

Plane strain and stress compared for elastoplastic cracked plate in work hardening tension
15 p2710 A69-30811

Displacement bounding principle for work hardening plasticity theory based on Drucker inequality and stress space path existence [ASME PAPER 69-APM-7]
18 p3213 A69-34385

Martensite transformation, C content and work hardening relations in stainless steels studied for magnetic detection of embrittlement during deformation
18 p3138 A69-35117

Cylindrical steel specimens high strain rate tensile tests, using Malvern theory for ideal elastoplastic and work hardened materials
23 p4236 A69-42529

WORK-REST CYCLE

Work and rest scheduling effect on working capacity and physiological state of male subjects in sealed chamber
03 p0381 A69-14201

Human endurance during isolation in closed space with prescribed voelergometric exercises, noting impairment of functional capacity
08 p1263 A69-19933

Transient ventilatory response to breaths of nitrogen at rest and during exercise in high altitude and sea level natives
12 p2019 A69-26131

Cardiovascular system, neuromuscular activity and mental fitness of subjects performing physical and mental assignments with prescribed work-rest schedule during confinement
17 p2906 A69-32936

Space crew performance subsequent to sudden sleep arousal, noting selection between simultaneous and staggered sleep schedules
19 p3263 A69-36453

Time required for acclimatization to work in high temperatures, noting rectal temperature and heart rate changes
21 p3654 A69-38905

Constant illumination intensity effects fixed ratio lever pressing behavior for appetitive reinforcement with chimpanzee in temperature and humidity controlled environment
24 p4260 A69-42702

WORKING FLUIDS

Dissociating gas as working fluid for space plant, noting role in radiator area reduction
04 p0551 A69-15313

Thermodynamic and aerodynamic characteristics of organic Rankine cycle working fluids for ideal applicability to manufacturing [SAE PAPER 690063]
07 p1057 A69-18308

Bearing lubrication at low temperature, examining safety limits, working fluid in liquid or gaseous state [IME PAPER 9]
07 p1138 A69-18565

Linear induction MHD generator using Rankine cycle with K-Na working fluid noting longitudinal edge effect compensation
07 p1058 A69-19026

Montardi circuit with sectioned electrodes to simulate isotropically conducting still liquid for application in MHD pump, discussing potentials distribution
07 p1059 A69-19031

MHD electrical power generation - Conference, Warsaw, July 1968, Volume 1, Closed cycle MHD with gaseous working fluids
10 p1729 A69-23433

Ar-K plasma studied as possible MHD generator working fluid by investigating influence of emission and external magnetic field on nonequilibrium electrical conductivity
10 p1732 A69-23441

Momentum transfer cross sections, recombination coefficients and ionization coefficients of working gases for MHD energy converter
10 p1733 A69-23446

Argon discharges in metal capillary cathodes noting effects of electron density, flow velocity, electrode phenomena and gas temperature
10 p1733 A69-23450

Mercury cesium plasma in crossed electric and magnetic fields as working fluid of MHD generators based on Rankine cycle
10 p1636 A69-23458

MHD electrical power generation - Conference, Warsaw, July 1968, Volume 2, Closed cycle MHD with gaseous working fluid
10 p1735 A69-23464

Large disk MHD generator operating at high Hall coefficient and driven by cesium seeded argon or molecular gases
10 p1637 A69-23473

MHD conversion experiments using rare gas, considering Typhoe loop, electron heating and correction effects
10 p1738 A69-23475

Engineering and reactor parameters associated with ionization of gas passing through nuclear reactor used as closed cycle MHD system working fluid
10 p1723 A69-23485

Power generating equipment operating with high temperature plasma as working medium requiring reactors with plasmaed nuclear fuel coupled to MPD generators
10 p1738 A69-23489

Gaseous suspensions of thermionic emitting particles assessed as MHD working fluids in large scale MHD electric power generators
10 p1738 A69-23491

Properties of superdense NaCl plasmas as model working substance for MHD generator, discussing ion concentration and collisions, charge reversal and conductivities
10 p1739 A69-23493

Throttling effect on thermodynamic efficiency of MHD generator Rankine cycle with various working fluids
11 p1824 A69-24222

Closed loop cycle converter, composed of MHD generator and compressor consuming thermal energy, exhibiting moderate cycle efficiency decreases
11 p1824 A69-24223

Thermal efficiencies of liquid-metal MHD generator cycles, analyzing optimum parameters, working fluid and partial irreversibilities
13 p2205 A69-27484

Laminar to turbulence transition in submerged and bounded jets, using schlieren visualization for compressible flow and birefringent visualization for incompressible flow
14 p2428 A69-28876

Working fluids elastic characteristics variability effect on hydraulic actuator dynamics, studying adiabatic and isothermal conditions
14 p2405 A69-29423

Working fluid flow parameters compensation by expelled cooling air in air-gas flow area of turbine stage
18 p3184 A69-34985

DC MHD generator using gas plasma as working fluid, discussing fundamental principle, components interactions and energy conversion
21 p3777 A69-39165

Closed cycle MHD with gaseous working fluids and steady state nonequilibrium ionization
21 p3777 A69-39479

Plasma instabilities in closed cycle MHD generator with gaseous working fluids, discussing effective Hall parameters
21 p3777 A69-39481

Sonic vapor flow heat transfer limitations in heat pipes for Na, K and Cs, showing strong influence of temperature and working fluid
23 p4239 A69-41719

Rankine cycle power systems with reciprocating engines using organic working fluids, discussing engine development, system characteristics, etc
23 p4067 A69-42237

Rankine power cycle for fluid evaluation, discussing radiating area, thermodynamics, etc
23 p4239 A69-42276

Two fluid heat pipe performance, measuring temperatures and condenser end vapor pressures for two thermal power input conditions
23 p4240 A69-42306

Undissolved air effects on working fluids elastodynamics in aircraft hydraulic actuators
24 p4255 A69-43076

Heat pipe wick materials liquid transport properties analysis, using water and Freon 113 as working fluids [ASME PAPER 69-HT-17]
24 p4413 A69-43551

Performance curves of cylindrical water heat pipe for performance map, observing free hydrogen accumulation [ASME PAPER 69-HT-15]
24 p4413 A69-43554

WORLD

U EARTH [PLANET]

WORLD DATA CENTERS

World Weather Watch /WWW/ system and meteorological satellites, discussing observational networks, data centers, telecommunication facilities, research, education and training program [UN PAPER 68-95209]
01 p0178 A69-10478

Meteorological rocket soundings and global synoptic observations, noting influence of atmospheric middle region [UN PAPER 68-95405]
01 p0109 A69-10484

Statistical characteristics of ozone measurements with Dobson spectrophotometers and filter ozonometers, determining requirements for maximum effectiveness of ozone network
16 p2787 A69-32639

WORMS

NT FLATWORMS

Automatic bioprobe life support system for long duration interplanetary space flight, discussing blood leech as suitable research animal
02 p0199 A69-11828

WRINKLING

Post-wrinkling nonlinear behavior of conical shell of revolution subjected to bending loads [AIAA PAPER 69-90]
06 p1027 A69-18074

Wrinkling of pressurized cylindrical and conical fixed free membrane column under lateral load, considering membrane sheets elastic properties
22 p4045 A69-40814

WROUGHT ALLOYS

Microstructure relationship to tensile strength and creep resistance in Zn-Ni-Ti alloy extrusions, discussing role of finely dispersed intermetallic particles
08 p1329 A69-20002

Wrought superalloys fusion welding behavior, discussing hot cracking, hot microfissuring and strain age cracking [SAE PAPER 690102]
09 p1503 A69-21558

Processing characteristics of wrought Co base alloys, discussing thermomechanical treatment effects, yield strength, ductility, etc
14 p2456 A69-29892

Ingot dendrite arm spacing and thermomechanical treatment effects on fracture behavior and mechanical properties of Al alloy, finding ultimate and yield strengths
23 p4176 A69-41506

Single run reheated weld wrought steel H cracking tested by constant load rupture /static fatigue/ technique
24 p4320 A69-42943

WURTZITE

Direct amplification of ultra and hypersonic surface waves in semiconducting crystals of wurtzite group, taking into account drift effects and boundary conditions
03 p0490 A69-13925

Perfect piezosemiconductor resonator /phaser/ with CdSe/CdS/ crystal, discussing vibration excitation in wurtzite type crystal in electric field of electron drift
03 p0431 A69-13930

W2F AIRCRAFT

U E-2 AIRCRAFT

X

X BAND

U SUPERHIGH FREQUENCIES

X RAY ABSORPTION

Dislocation effects on intensity jumps near K edge of absorption, using interferential transmission of X rays in Ge
03 p0490 A69-13944

Spectral distribution of X ray atmospheric absorption used to determine high energy photoelectrons spectrum
09 p1577 A69-21774

Metagalactic electrons and relic radiation interaction calculations allowing for universe expansion, space curvature and X ray absorption
15 p2687 A69-30541

X ray absorption in surrounding gas sphere as function of continuous absorption, electron scattering and diffuse ionizing radiation, using radiative transfer theory
18 p3186 A69-34296

Soft x ray extragalactic background flux measurements, considering correction for absorption by interstellar medium
21 p3788 A69-38541

Interstellar absorption of 10 A X rays from sources in Scorpio-Sagittarius region, noting gas density between earth and Crab Nebula
21 p3788 A69-38648

X RAY ANALYSIS

Solar X ray flares measurement by rocket and satellite, discussing X ray spectrum hardening, hard flares and SID
03 p0500 A69-13225

Nepheline occurrence in unequilibrated chondrites, discussing crystallographic evidence from X ray powder patterns
04 p0659 A69-15010

X ray emission from powdered graphite, diamond and titanium carbides
06 p0946 A69-17545

Nimonic alloys recovery analyzed by X rays and electrolytic phase separation, showing precipitated gamma phase effect
07 p1159 A69-18533

Avalanche detector radioisotope X ray fluorescence analyzer development for XRF analysis of potassium and calcium, noting precision [IEEE PAPER 3B-9]
07 p1135 A69-19201

Polymorphic characteristics of titanium pentoxide prepared by reducing titania, examining oxidation products with X ray diffraction
07 p1168 A69-19601

Phase equilibria in V-Cr-C, Nb-Cr-C and Ta-Cr-C systems determined by microscope and X ray analyses
09 p1523 A69-21872

Impurity heterogeneities in unoxidized and oxidized silicon slices from electron probe X ray microanalyzer, discussing thermal oxidation effects
10 p1743 A69-23171

Thin film thickness and composition determination through scattered electron and characteristic X ray radiation recording
10 p1747 A69-23847

X ray microanalyzer maximum sensitivity obtained using flow type proportional and scintillation counters with proper tuning and eliminating scattered electrons
12 p2093 A69-26596

Dislocations observations in fracture study of crystals, considering etching, decoration technique, X ray topography and diffraction electron microscopy
13 p2316 A69-27223

X ray investigation of niobium, aluminum and niobium-aluminum systems to obtain K-spectra and L-spectra
14 p2508 A69-29664

X ray detectable preferred disorder in solids by shock loading studied in Ainsworth meteorite and in hexagonal alpha silicon dioxide
15 p2671 A69-31538

Flux grown magnetic garnet crystal internal defects analyzed by etching and Lang X ray transmission topography, revealing tubular structural deviations
16 p2825 A69-31692

X ray diffractometer stress analysis of WC-Co cermets, discussing surface preparation and heat treatment
16 p2802 A69-32339

Alpha alumina whiskers grown by vapor reaction examined by X ray microtopography and etching
16 p2802 A69-32341

- Microstructure and X ray structure compared for two and three component chromide, titanide and silicide diffusion layers on Nb, discussing phase composition 20 p3563 A69-37820
- X ray analysis of rolled and compressed Ti powder produced by calcium hydride reduction, noting coexistence of screw dislocations 21 p3745 A69-38952
- ### X RAY APPARATUS
- X ray spectrographic camera for nondestructive spectrum analysis of small samples 03 p0427 A69-13101
- Solar corona X ray emission during flares and under quiet sun conditions investigated by satellite with X ray heliograph 07 p1210 A69-19614
- Silicon diode array camera tube modified to permit X ray images to be displayed on TV monitor 09 p1463 A69-21845
- Solar corona observed by X ray instrumentation of SOLRAD 8 satellite crossing moon penumbra during solar eclipse of 20 May 1966 15 p2698 A69-31363
- ### X RAY ASTRONOMY
- Energetic X ray intensities from large and small Magellanic clouds investigated by balloon flight sky survey, noting energy flux upper limits 01 p0150 A69-10370
- Optical identification of X ray source Cen XR-2 as variable star WX Cen, discussing colors and similarity to Sco X-1 01 p0145 A69-10857
- Reflecting telescope objective for far UV and X ray regions, discussing microfinishing and optical and mechanical tolerances 01 p0121 A69-10896
- UV and X ray radiations of stars and interstellar gas of Milky Way and remote galaxies 02 p0316 A69-11906
- X ray source in constellation Vela lying close to galactic plane observed by attitude controlled Aerobee 150 rocket 02 p0308 A69-12594
- Radio source near UV object identified with X ray source GX3 plus 1 02 p0308 A69-12595
- Narrow band and UV photometry of GX3 plus 1 and Wolf-Rayet stars /HD 50896 and HD 45166/ 02 p0325 A69-12596
- Soft X ray spectrum of Sco XR-1, noting intensity change from previous measurement 02 p0309 A69-12711
- Energy sources and properties of quasars and radio galaxies by X ray astronomy 02 p0310 A69-12793
- Gamma ray astronomy, noting fluxes above 100 Mev from strong radio sources and intensities of Crab Nebula 03 p0497 A69-12931
- Optical imaging systems achieving aperture synthesis by lensless Fourier transform holography, noting X ray astronomy, ultrasonic and space applications 03 p0430 A69-13324
- Cosmic X ray sources resolved against diffuse background radiation lying close to galactic plane 03 p0501 A69-13767
- Planetary nebulae as possible low energy galactic X ray source 04 p0661 A69-15144
- X ray astronomy, discussing sources associated with bremsstrahlung or synchrotron radiation, astrophysical models, black body radiation, relativistic electrons, etc 04 p0662 A69-15326
- X ray emission from Seyfert galaxy nuclei, noting model with bremsstrahlung from hot source 04 p0649 A69-15387
- Earth X ray flux due to solar X rays reflected in atmosphere observed by Skylark rockets, noting observations of Sco XR-1 and Cen XR-2 04 p0649 A69-15440
- X ray astronomy techniques, discussing X ray spectrographs, heliographs and nonsolar celestial X ray sources 05 p0762 A69-15840
- Galactic X ray sources noncoincident with conspicuous visible or radio objects, identifying visible and radio counterparts by determination of accurate celestial coordinates 05 p0813 A69-15845
- Gas accretion on neutron star surface as energy source for X ray radiation 05 p0814 A69-15847
- Space observation of flare sprays and solar limb surges, stressing X ray research 05 p0814 A69-15860
- Large area X ray collector, matrix detector for ionizing radiation and inflatable gas counter, considering application to X ray optics and astronomy 05 p0794 A69-16587
- Celestial X ray sources astronomy, discussing emission mechanism in 2 to 100 kev range and balloon observations in Cygnus and Taurus constellations 05 p0817 A69-16715
- UK space research in 1970s emphasizing solar observations in UN, cosmic X ray astronomy, solar space astronomy and ionospheric investigation 06 p0997 A69-16853
- X ray and gamma astronomy, discussing galactic gamma radiation source and diffuse X ray background radiation 06 p0998 A69-16969
- X ray astronomy use for probing hot regions of outer space and high energy electrons 06 p0991 A69-17307
- X ray sources intensity and spectrum variation with time, describing proposed balloon experiments with equatorial launching for performing measurements 06 p0992 A69-17312
- Pulsar characteristics absence in X ray sources, noting data for Scorpius XR-1 07 p1218 A69-19254
- Discrete extragalactic X ray sources model for explanation of diffuse X ray background, noting evolutionary aspects 07 p1206 A69-19255
- Sco XR 1 optical and X ray spectra simultaneous observations during rocket flights 07 p1220 A69-19391
- Balloon observations of cosmic X ray sources in Cygnus and Crab Nebula, discussing data application to energy spectra analysis 07 p1210 A69-19716
- Acoustic energy generation for helium rich stars, discussing X ray radiation from helium star corona 08 p1380 A69-20645
- Discrete source hypothesis for interpreting high energy cosmic gamma ray measurements obtained by OSO-3 spacecraft 08 p1380 A69-20699
- Narrow band photometry of variable stars and X ray source Cyg X-2, considering continuum variations with time 09 p1591 A69-21451
- Low energy X ray spectra of Sco X-1 and Sagittarius sources measured by Be and Al window proportional counters during rocket flight 09 p1574 A69-21460
- Solar and cosmic X rays observed by OSO-C, stressing galaxy M 87 upper limits and Lupus XR-1 power law spectral form 09 p1578 A69-22171
- Iron line absence in emission spectrum of thermal X ray sources, constraining proposed thermal models 09 p1580 A69-22231
- Grazing incidence telescopes for X ray astronomy, describing mirrors, detection systems and dispersion techniques 09 p1501 A69-22688
- Solar system plasmas and X ray astronomy - Conference, Adelaide, Australia, August 1968 09 p1581 A69-22742
- X ray astronomy, tabulating properties of 22 discrete sources and discussing spectra, radio emission, optical identification, X ray production, etc 09 p1583 A69-22762
- Weak X ray sources at 20-100 Kev photon energies observed during balloon flight, finding hard rays from Ara XR-1 and Nor XR-1 09 p1583 A69-22763
- High energy X ray observational data for Sagittarius sources scanned by active telescope during February 1968 balloon flight 09 p1583 A69-22764
- X rays from galactic center and Centaurus regions, discussing Cen X-2 flux 09 p1583 A69-22765
- Spectrum of high energy X ray flux from Sco XR-1 during balloon flight using active collimator detector and graded shield detector 09 p1584 A69-22766
- Multiple pinhole camera for X ray astronomy, suggesting cross correlation image recovery technique based on Fourier convolution theorem 09 p1502 A69-22768
- X ray universe, considering contribution of X ray astronomy to phenomena of big bang, supernovae, neutron stars, exploding galaxies, etc 10 p1760 A69-22869
- Modulation collimators determining angular sizes and celestial positions of X ray sources Sco X-1 and Taurus XR-1 10 p1678 A69-23326
- Optical features of Sco-X-1, Tau-X-1 and Cyg-X-2 X ray sources, discussing optically thin hot plasma model for X ray emitter 10 p1682 A69-23327
- Celestial X ray source positions from rotating modulation collimator, predicting performance of collimator 10 p1722 A69-23328
- X ray emission from radio galaxies as possible bremsstrahlung radiation of hot gas, noting Crab Nebula 12 p2166 A69-27037
- Scorpius XR-1 X ray emission spectra, discussing Fe emission line near 7 kev plasma models, supernova mass and cosmic abundance 13 p2325 A69-27313
- X ray pulsations in Crab Nebula at frequency closely matching radio and optical pulsations, noting energy distribution 13 p2354 A69-28465
- Rocket-borne scintillation spectrometer for cosmic photon radiation 14 p2449 A69-29566
- X ray energy spectrum from Crab Nebula and diffuse background on celestial sphere near galactic anticenter, noting spectral index 15 p2675 A69-30759
- Sco X-1 fluctuating optical and X ray emission observed simultaneously, determining total energy flux and plasma radius and density 15 p2676 A69-30885
- Extraterrestrial X ray galactic and extragalactic sources research fields, emphasizing identification with optical objects 15 p2696 A69-31213
- Five color photometry of X ray source SCO X-1 in 1966-1968, discussing luminosity pulsations and flare activity 16 p2847 A69-31648
- X ray source Cyg XR-1 angular diameter upper limit determined from balloon experiment data obtained with collimated X ray telescopes 17 p3026 A69-32860
- Cosmic X rays diffuse component possible origin, discussing galactic gamma ray flux and disagreement with measured isotropy 18 p3185 A69-34275
- Pulsed hard X radiation from NP 0532, discussing slow down rate and luminous intensity 18 p3186 A69-34316
- Extrasolar X rays and sources from studying distribution, luminosity, diameters and variability of rays 18 p3193 A69-34364
- X ray sources model, describing possible ring of matter around white dwarf near end of active evolution 18 p3188 A69-35204
- Solar far UV images systematic photometry for thin solar models in terms of quiet sun intensity 20 p3603 A69-37546
- Pulsed X ray emission associated with pulsar NP 0532 in Crab Nebula measured by six element detector on Aerobee 150 rocket 20 p3590 A69-37574
- Balloon-borne proportional counters to measure X rays intensity and spectral distribution from Taurus X-1 and Cygnus X-1 20 p3593 A69-38153
- Scorpius X-1 X ray star model based on relativistic electron distribution due to magnetic field fluctuations, considering role of Alfvén waves 20 p3593 A69-38154
- X ray sources and diffuse background radiation observed in gamma and X ray spectral regions, considering electromagnetic waves attenuation by interstellar matter 21 p3789 A69-38817
- X rays and gamma rays extragalactic components, calculating background component intensity for given model of universe 21 p3789 A69-38818
- Solar X rays observations, describing instrumentation, radiation characteristics, association with flares, spectrum analysis, etc 21 p3791 A69-39506
- Coronae around helium stars and X ray sources, calculating acoustic energy generation rates in convection

X RAY DENSITY MEASUREMENT

zones

Anomalous X ray signals from Explorer 30 satellite showing saturation in ionization chamber possibly due to enhanced solar and atmospheric X rays
21 p3813 A69-39522

Extended source Fourier transform holography for single image synthesis of multiple identical images produced by multiple pinhole camera in X ray astronomy
22 p3943 A69-40019

Low energy X ray flux existence in Cen X-2 observed by rocket flight
22 p4007 A69-40773

Sco X-1 X-ray source energy spectrum and time variation from rocket flights in India
22 p4030 A69-40774

X ray spectra of four high energy sources near galactic center
23 p4206 A69-42114

Galactic X ray sources observed in EM spectrum high energy region, discussing hot plasma cloud thermal radiation and electrons synchrotron radiation as emission sources
23 p4206 A69-42318

Observational cosmology developments with radio and X ray astronomy emphasizing existence, origin, effects and anisotropy of excess microwave background
23 p4219 A69-42327

Polarimeter using 45 degree Bragg angle reflection applied to rocket payload design for determining polarization of celestial sources X rays
23 p4207 A69-42382

Continuous electron acceleration in astrophysics, discussing Crab Nebula X ray flux and galactic and extragalactic radio source power law spectra
24 p4355 A69-42696

Isotropic cosmic X rays measured by balloon-borne scintillation telescope, discussing agreement with electron energy spectral distribution
24 p4368 A69-43185

Soft cosmic X ray background flux from rocket observations on 21 September 1968 from White Sands, discussing flux origins
24 p4368 A69-43220

Rotating neutron stars, pulsars and cosmic X ray sources, accounting for large and small diameter sources by rotating neutron star losing mass in magnetic field
24 p4369 A69-43222

X RAY DENSITY MEASUREMENT

Simultaneous VLF hiss, auroral light and X rays observed during Norwegian balloon study
02 p0309 A69-12744

Oxygen surface densities measured by method based on characteristic X ray production by 100 kev protons
04 p0631 A69-14446

Auroral zone X ray measurements obtained by simultaneous balloon flights over Northern Scandinavia
05 p0813 A69-15822

Balloon-borne instrumentation X ray measurements, discussing detector electronics, telemetry, pressure transducer, power supply, environmental tests, energy limit and calibration
05 p0762 A69-15824

Nonthermal intergalactic bremsstrahlung model as isotropic X ray background due to subcosmic electron interactions with thermal ionized gas in expanding universe
11 p1947 A69-24595

Galactic X ray sources density nearly proportional to interstellar gas density squared, discussing X ray intensities estimation, galactic age, etc
17 p3030 A69-33069

M-87 X ray luminosity from balloon-borne detectors, considering background counting rate relation to azimuth
20 p3588 A69-37488

Soft x ray extragalactic background flux measurements, considering correction for absorption by interstellar medium
21 p3788 A69-38541

Low energy X ray flux existence in Cen X-2 observed by rocket flight
22 p4007 A69-40773

Balloon-borne instrument for auroral X ray measurements at Antarctic station, discussing design requirements, circuit characteristics and improvement recommendations
23 p4166 A69-42011

Galactic X ray flux from H I region low energy cosmic ray nuclei, studying electron capture effects on

line intensities

Solar X ray flux measurements from OGO 4, comparing peak fluxes before, during and after flares with IQSY data
24 p4367 A69-43048

X RAY DIFFRACTION

Synthetic solid lubricants impurity detection by X ray diffraction and oxidation thermogravimetry
01 p0102 A69-10909

X ray diffraction used to measure alpha-SiC whiskers orientation in polymeric matrices
01 p0102 A69-11262

Stacking faults in Ge epitaxial layers revealed by etching reagents and X ray diffraction with photographic recording
02 p0297 A69-11880

Crystal structure of boron filaments vapor deposited on tungsten wire substrate, using X ray diffraction and transmission-electron microscopy
02 p0268 A69-12405

Magnetite content of type I carbonaceous meteorite from quantitative X ray diffractometry of Orgueil meteorite
02 p0328 A69-12729

Superconductivity of electron beam evaporated tungsten films by X ray and electron diffraction techniques, discussing temperature dependence of energy gap
04 p0640 A69-14447

X ray diffraction studies of deformation effects on bcc niobium alloys in terms of particle size, strain, faulting probability and dislocation density
04 p0618 A69-15202

Lattice strains in matrix phase of aluminum-boron and copper-tungsten composites measured by X ray diffraction
06 p0939 A69-16944

Stainless steel sensitization analyzed using Mossbauer spectroscopy and X ray diffraction, noting ferromagnetic phase
06 p0944 A69-17852

Optical Fourier transform applied to structural analysis of catalase crystalline media by gas laser
06 p0928 A69-17890

Wear-resistant hard thin layers deposited on various base material surfaces analyzed by electron microprobe
13 p2282 A69-28164

Growth kinetics, lattice constant changes and hardness during aging of nimonic alloy from X ray diffraction diagrams
14 p2463 A69-29310

Crystal structures of intermediate phases in La-Co and Nd-Co systems by powder X ray diffraction technique
15 p2667 A69-30087

Co content influence on temperature stress in WC-Co cermets using one exposure and two exposure X ray diffraction
16 p2802 A69-32340

Integrated reflection coefficient with unpolarized incident X radiation for mosaic and perfect LiF crystals, presenting coefficient as function of wavelength
20 p3582 A69-37137

Co 2 chloride aqueous and alcoholic solutions by X ray diffraction to find potential ligands relative coordinating abilities
20 p3484 A69-37496

Phase analysis of systems Mn-S, Mn-Se and MnS-MnSe by X ray diffraction techniques, revealing homogeneity ranges
20 p3485 A69-38286

La-Rh system study by powder X ray diffraction, metallographic and differential thermal analysis, constructing equilibrium diagram and determining crystal structure data
21 p3744 A69-38739

X ray diffraction as nondestructive technique for measuring residual surface stress
21 p3845 A69-39476

Stacking fault formation probability in Ti and Zr by X ray diffraction techniques, using Fourier analysis and half-width measurements
21 p3749 A69-39600

X RAY FLUORESCENCE

X Ray fluorescence of rock samples as applied to geological problems, noting standard deviations for element distribution
01 p0082 A69-10890

X ray airglow in daytime sky, suggesting origin in atmospheric N and O K alpha lines due to fluorescent excitation by solar X rays
02 p0307 A69-12022

Avalanche detector radioisotope X ray fluorescence analyzer development for XRF analysis of potassium and calcium, noting precision
07 p1135 A69-19201

X ray fluorescence and electron microprobe for determining thin film thickness
07 p1113 A69-19582

Chemical composition of stony meteorites by analytical methods, discussing sample preparation and X ray fluorescence
11 p1953 A69-24358

Oxygen K-shell X ray production cross section and stopping power of aluminum oxide thin films for 20-100 kev protons
14 p2489 A69-29994

Chondritic Cr and Mn content studied by X ray fluorescence, noting positive correlation in H and L groups and negative correlation in carbonaceous chondrites
15 p2681 A69-30416

X RAY INSPECTION

X ray and ultrasonic methods for surface residual stresses induced in machined or ground specimen
15 p2631 A69-31511

X ray TV system with electronic-optical converter and X ray vidicon for industrial defectoscopy
18 p3138 A69-35113

Three dimensional X ray pictures of flaws shape and location in various materials
20 p3551 A69-38311

Structural changes during annealing of W and Mo single crystals deformed by rolling, using X ray diffraction topography methods with two crystal spectrometer
21 p3742 A69-38583

X RAY IRRADIATION

Prophylactic and therapeutic vitamin and organic compounds complexes in radiation damage reduction and death prevention for dogs exposed to X rays
02 p0197 A69-11493

Procedure and apparatus for integral microwave and X ray and spectral measurements of quasi-steady plasma radiation
03 p0473 A69-12897

Accelerated helium and carbon ions effects on mutation-induction and nuclear inactivation in *Neurospora crassa* compared with X rays, discussing relative biological effectiveness/RBE/
03 p0373 A69-13490

Mammalian cell survival, chromosome abnormalities and recovery from heavy ion and X ray irradiation
03 p0373 A69-13492

High energy X ray irradiation of head of *Macaca mulatta*, determining effect on cerebral blood flow and blood pressure
03 p0376 A69-14075

Neutron and X ray radiation effects upon gallium arsenide devices including Gunn oscillators, transistors, Schottky barrier diodes and optoelectronic pulse amplifiers
06 p0978 A69-16890

Radiation tests on Ovonic threshold switches performed with fast neutrons and broadband X rays
06 p0978 A69-16891

X ray irradiated dogs subjected to heat stresses to determine thermoregulatory ability
09 p1445 A69-22548

Drift and tunnel effect of MOS transistors under ionizing electron and X ray irradiation, considering fabrication, electrical characteristics and D-2 satellite tests
11 p1848 A69-24873

Morphological microchanges in solar plexus ganglia of white rats after X irradiation
12 p2019 A69-26347

Computer codes describing nuclear weapons effects associated with X ray transport, neutron transport and X ray interactions with material, fireball, blast environments, etc
15 p2652 A69-30381

High temperature effects on electron and X ray irradiated MOS transistors for space charge analysis and defects in silica films
15 p2625 A69-30828

X irradiation and temperature effects on flour beetle *Tribolium confusum* pupae, noting wing abnormalities and pupal stage duration
17 p2910 A69-33748

Optically thin gas surrounding X ray source, plotting electron temperature and ionization equilibrium of hydrogen, He, carbon, nitrogen, oxygen and neon
18 p3186 A69-34295

X ray stroboscope for moving objects in penetrating irradiation, considering synchronization of radiation receiver
18 p3138 A69-35114

- F center formation and X ray and photostimulated F-band luminescence in europium ion-activated potassium halides as function of temperature and X ray dosage
19 p3383 A69-36164
- Intraperitoneal high polymer DNA administration normalizing effect on DNA and RNA contents in liver, spleen and intestinal mucosa of white rats exposed to X rays
21 p3657 A69-39050
- Single large X ray dose depressive effect on aminotransferase activity in rabbit blood serum, liver, kidney, heart, spleen, lungs, etc
21 p3657 A69-39051
- Cholesterol-protein metabolism in muscles, liver and cerebrum of lethal X ray exposed guinea pigs compared with unexposed group
21 p3657 A69-39052
- Nerve tissue oxidation processes relation to nervous system radiation sensitivity in dogs with cerebellum X rayed after enzyme poisons administration
21 p3658 A69-39053
- Enzyme activity changes in liver, heart and cerebrum of X ray exposed rats and rabbits, noting individual enzyme differences in same X rayed organ
21 p3658 A69-39054
- Single X ray dose effect on alpha-amylase and alpha-glucanophosphorylase in rabbit liver tissues and blood serum
21 p3658 A69-39055
- Successive X ray doses effect on oxidative phosphorylation of vitamin B1 in white rats liver tissue ultrastructure during and after irradiation, establishing thiamine biosynthesis suppression
21 p3658 A69-39056
- White rats hyperglycemia during blood sugar changes following single X ray dose, indicating increased sugar benefit in radiation damage treatment
21 p3658 A69-39057
- Pathological changes in solar ganglia cells of white rats following X ray exposure, using electron microscope
21 p3659 A69-39064
- Retarded immunological recovery in sublethally X-irradiated mice by additional thymic exposure reversal with injected marrow cells
22 p3887 A69-41194
- Hemoglobin inhomogeneity in rats irradiated with lethal doses of X rays and fast neutrons, using fractions prepared by column chromatography
22 p3888 A69-41274
- X ray radiation damage to white mice blood serum proteins disappearing following intraperitoneal administration of imidazole or benzimidazole
23 p4077 A69-41300
- Radioprotective effects of 5-azacytidine on bone marrow and blood leukocytes of X ray irradiated AKR mice
23 p4080 A69-41429
- Whole body X irradiation effect on protein degradation in mice, using radioactive I labeled albumin
23 p4099 A69-42151
- Fraunhofer hologram of glass fiber by Be X rays reconstructed using He-Ne laser light
24 p4314 A69-42973
- X RAY PHOTOGRAPHY**
U PHOTOGRAPHY
U RADIOGRAPHY
- X RAY SCATTERING**
Boundary layer local densities in high temperature gas flows obtained by measuring monochromatic soft X rays attenuation in layer
02 p0233 A69-12489
- Nb supersaturated solid solution in Co precipitation mechanism analyzed by X rays and electron microscope, noting diffusive scattering effects
21 p3750 A69-39788
- Compton profile from single crystal of LiH measured with X ray scattering, noting valence-electron momentum distribution role
22 p3993 A69-40730
- X RAY SPECTROSCOPY**
Solar flare X ray line and continuum spectra measured with crystal spectrometers aboard orbiting solar observatory
02 p0308 A69-12297
- Soft X ray spectrum of Sco XR-1, noting intensity change from previous measurement
02 p0309 A69-12711
- X ray spectrographic camera for nondestructive spectrum analysis of small samples
03 p0427 A69-13101
- X ray astronomy techniques, discussing X ray spectrographs, heliographs and nonsolar celestial X ray sources
05 p0762 A69-15840
- Crab Nebula and Cygnus XR-1 X ray spectra shown to have differential number power law spectra and same intensity
05 p0813 A69-15846
- X ray sources intensity and spectrum variation with time, describing proposed balloon experiments with equatorial launching for performing measurements
06 p0992 A69-17312
- Plasma diagnostics in X ray region, determining electron and ion temperatures and densities and energy losses by radiation
08 p1315 A69-20469
- Low energy X ray spectra of Sco X-1 and Sagittarius sources measured by Be and Al window proportional counters during rocket flight
09 p1574 A69-21460
- Hard X ray event spectrum representation by thermal bremsstrahlung spectrum emitted by energetic electrons, determining various physical parameters of source
09 p1579 A69-22180
- K alpha lines in solar soft X ray spectra noting instrumental effect
09 p1580 A69-22232
- Spectral intensity of high energy solar X rays observed during July 7, 1966 polar event with satellite OGO 3, suggesting nonthermal bremsstrahlung origin
10 p1766 A69-23753
- Diffuse X radiation spectrum below 4 kev measured with beryllium window proportional counter at rocket altitudes
10 p1770 A69-24094
- Proportional counter array for detection of soft X ray photons from OSO-4 observations, discussing solar event energy spectra
12 p2151 A69-26936
- Cosmic X ray background measurements and Crab Nebula observation during sounding rocket flight
13 p2326 A69-27570
- Plasma electron temperatures from electron bremsstrahlung spectra measurements in X ray region
14 p2496 A69-29783
- High speed photographs of plasma emission spectra in UV and soft X radiation spectrum regions, discussing theory, design and operation of facilities
14 p2496 A69-29784
- Spin doublet formation analysis in X ray satellite spectra, revealing K, L and M spin doublets existence
15 p2675 A69-30700
- X ray spectra of Sco XR-1, Cyg XR-1 and Cyg XR-2 for proton energy range 1.5-13 kev from proportional counter measurements
20 p3593 A69-38152
- Solar X-ray events observed by scintillation counter telescope on OSO 3 satellite, discussing X ray spectra during burst initial and decay phases
20 p3593 A69-38166
- Galactic X ray source spectral data observed by rocket, presenting graph with corrections
20 p3594 A69-38172
- Cosmic X ray background spectral measurement from rocket flight near geomagnetic pole
21 p3787 A69-38351
- X ray scintillation spectrometers temperature stabilizing circuit, describing amplitude-frequency conversion technique for position stability
21 p3727 A69-39856
- Hartree-Fock calculations for wavelengths of K alpha X ray transitions, tabulating configuration and term energies, dipole integrals and relative multiplet strengths
22 p3984 A69-40156
- Thermal continuum radiation from coronal plasmas at soft X ray wavelengths, investigating variations effect in element abundances
23 p4207 A69-42406
- X RAY STRESS ANALYSIS**
Vacuum evaporation effects on internal macrostresses in deposited metal films based on X ray analysis, showing substrate temperature contribution
12 p2143 A69-26457
- X ray analyzer for residual stress measurement applied to quality control
18 p3150 A69-35423
- X RAY STRESS MEASUREMENT**
X ray diffraction as nondestructive technique for measuring residual surface stress
21 p3845 A69-39476
- Residual stress measurement in steels and composite materials by X ray diffraction, discussing specimen preparation, diffractometer alignment, elastic modulus determination, etc
24 p4331 A69-42736
- X RAY TELESCOPES**
Test method to compare grazing incidence X ray telescope performance in visible light and in X rays
02 p0248 A69-11736
- Attitude stabilized balloon telescope for measuring interplanetary scattered light and nightglow
06 p0999 A69-16972
- Optical design of Wolter type I glancing incidence X ray telescope for 6-100 A wavelength region, describing results of laboratory and rocket flight tests of prototype
08 p1318 A69-21087
- Hard solar and cosmic X rays measured with satellite-borne telescope, considering flux and time variations
09 p1579 A69-22173
- Grazing incidence telescopes for X ray astronomy, describing mirrors, detection systems and dispersion techniques
09 p1501 A69-22688
- X RAYS**
NT RADIOLOGY
NT SOLAR X-RAYS
- Cosmic radiation interactions with living viruses, considering X ray effects and optimal radiation dosage for cancer cell destruction
01 p0013 A69-10157
- Absorbed gas influence on X ray emission from exploding tungsten wires noting ungasged and degassed specimens in vacuum
01 p0118 A69-10668
- Space X ray background measurements, considering relativistic electrons Compton emission and metagalactic gas bremsstrahlung as possible sources
01 p0147 A69-11310
- Galactic X ray sources, discussing location along spiral arms, age and properties of stars responsible for emission
03 p0497 A69-12930
- Radio galaxies and quasars X ray emissions, calculating radiation fluxes produced by scattering of synchrotron radiation quanta at relativistic electrons
03 p0500 A69-13079
- Cosmic X ray sources resolved against diffuse background radiation lying close to galactic plane
03 p0501 A69-13767
- Dislocation effects on intensity jumps near K edge of absorption, using interferential transmission of X rays in Ge
03 p0490 A69-13944
- Frequency time displays of geomagnetic pulsations at Kiruna revealing Pc 1 pulsations accompanied by cosmic noise absorption /CNA/ and X ray enhancements
03 p0425 A69-14024
- Cosmic X ray background production mechanisms
05 p0814 A69-15848
- Diffuse cosmic X radiation flux and intensity law, noting inverse Compton effect of electrons on 3K black body radiation
05 p0817 A69-16714
- Low energy diffuse cosmic X radiation, considering adequacy of single exponent power law spectrum [ISAS-428]
06 p0986 A69-17024
- X rays detection from laser produced deuterium plasma through calibrated absorbers, presenting electron temperatures
06 p0964 A69-17479
- Cosmic X rays, gamma rays and electron production under astrophysical conditions, noting potential use in supernova and quasar research
07 p1204 A69-18391
- Galactic soft X rays observation with two rocket-borne gas filled counters, noting source near Wolf-Rayet star Gamma Velorum in Vela
07 p1204 A69-18599
- Universal instability theory relevance to pulsating optical auroras and fast quasi-periodic variations of auroral X ray fluxes
07 p1125 A69-18852
- Nocturnal auroral electron showers configuration and displacement determined from sounding balloon measurement of X rays due to showers braking in upper atmosphere
08 p1308 A69-20281
- Auroral zone X ray measurements emphasizing temporal intensity variations, energy spectra changes and source region movements during magnetospheric substorms
08 p1379 A69-20534

Sky background of soft X ray emission in spectral band explained by emission lines from galaxies
08 p1380 A69-20769

Cosmological implications of diffuse X ray background, noting Compton black body process effect on isotropic cosmic X rays
09 p1578 A69-22152

Solar extreme UV, soft and hard solar X rays, cosmic X rays and gamma rays, cosmic ray particles and near earth visible radiation observed by OSO-3
09 p1578 A69-22167

Diffuse cosmic X ray background measured during balloon flight with actively shielded and collimated detector
09 p1584 A69-22767

Spectra of low energy X ray source at position of Large Magellanic Cloud, noting flux
10 p1770 A69-24093

Diffuse X radiation spectrum below 4 kev measured with beryllium window proportional counter at rocket altitudes
10 p1770 A69-24094

Spectroscopic observations of optical object identified with X ray source Cygnus X-2 noting radial velocity in absorption and emission lines
10 p1785 A69-24097

Supplemented data to analyze intergalactic gas diffuse X ray background radiation
10 p1792 A69-24209

Lasers applied to simulation of effects of X ray or gamma ray bursts on semiconductor devices
11 p1896 A69-24877

Auroral zone X ray pulsations during great geomagnetic disturbance and auroral electrojet development to maximum phase, noting atmospheric feedback modulation
12 p2065 A69-26109

Cineradiography based on repetitive flashes drawn from single field emission X ray tube energized by high voltage pulse generator
12 p2086 A69-26163

Crab Nebula X ray pulse detection attempt during balloon flight of telescope
12 p2149 A69-26226

Potential mechanisms of electron acceleration inside magnetosphere, measuring power spectrum of X rays by electron braking in upper atmosphere
12 p2066 A69-26295

X ray polarization from Sco X-1, noting spurious instrumental polarization due to cosmic ray anisotropy using X ray polarimeter
12 p2149 A69-26315

Correlation coefficients, comparing galactic X ray sources distribution with classical cepheids, old novae, planetary nebulae and Wolf-Rayet stars
12 p2171 A69-27155

Oscillator strengths and wavelengths of X ray and EUV transitions in highly ionized iron line spectra
13 p2326 A69-27554

Radio galaxies and quasars X ray emissions, calculating radiation fluxes produced by scattering of synchrotron radiation quanta at relativistic electrons
14 p2509 A69-28761

Neutron star atmosphere and X ray emission spectrum, computing incident protons mean free path for two assumptions
15 p2686 A69-30535

Pulsar NP 0532 in Crab Nebula observed by rocket and telescope showing strong pulsed X ray signal
15 p2679 A69-31529

Metagalactic electrons inverse Compton effect on relic radiation to interpret cosmic isotropic X radiation entire energy spectrum
16 p2847 A69-31800

Time variation of optical intensity of Sco X-1 X ray source, evaluating photometric data by power spectral analysis
16 p2852 A69-32805

Cosmic X rays diffused component absolute intensity measurement using rotating collimator borne on sounding rocket, noting flat spectrum and Sco X-1 intensity variation
17 p3023 A69-33068

Nocturnal D region conductivity enhancement relation to X radiation from Scorpius XR-1 and other sources, calculating ion production rate
17 p3024 A69-33378

Low level beta, X and gamma radiation detector incorporating Geiger, proportional and scintillation counting features in various modes suiting radionuclide decay scheme
17 p2975 A69-33747

Electron microprobe to produce plane grating X ray hologram based on Lloyd mirror experiment principle
17 p2977 A69-34160

Nanosecond photography with superradiant light source, X rays or electrons using multipurpose electron accelerator, obtaining stop motion pictures
19 p3305 A69-35721

Radio emission from Sco XR-1 shown as synchrotron radiation of relativistic electrons in low density region surrounding denser core producing X ray
20 p3597 A69-37334

Energy spectrum, spatial characteristics and displacements of auroral zone X rays from X ray spectrometry
21 p3787 A69-38359

X ray emission from high voltage microwave devices during high velocity electron braking measured using X ray sensitive film with superimposed aluminum scale
21 p3664 A69-39059

Auroral zone X rays measurement counting rate vs time patterns from balloon flights at Kiruna
21 p3791 A69-39252

Cosmic X ray bremsstrahlung due to collisions of suprathermal protons with ambient electrons, giving clue about diffuse sky background of X rays
22 p4006 A69-40643

Oxygen effect on X ray induced somatic crossing over frequency in *Drosophila melanogaster*, noting bristle spots number modification on abdominal tergites
23 p4099 A69-42118

High energy astronomical diffuse radiation component properties tabulated, discussing power law and thermal X ray background, gamma rays, etc
23 p4207 A69-42319

X- 15 AIRCRAFT

X-15 research aircraft program piloting problems, ground facilities, heat transfer, space flight and steep reentry
12 p2014 A69-26872

X- 22A AIRCRAFT

Low range airspeed system (LORAS/ on X-22A and P 1127 VTOL aircraft for accurate airspeed information
05 p0767 A69-16774

Test techniques for X-22A VTOL research aircraft during ground simulator work and actual flight test, describing stability and control characteristics [AIAA PAPER 69-319]
10 p1633 A69-23044

X-22A VTOL aircraft testing, discussing control sensitivity, dutch roll mode period and performance test planning based on characteristics prediction
14 p2392 A69-29699

X- 24 AIRCRAFT

Lifting Body Test Program at Edwards AFB compared with flight testing standards of high performance aircraft, discussing testing philosophy
06 p1017 A69-17671

X-Y PLOTTERS

Scratch gages under water in open and at high temperature, including circular X-Y recording scratch strain gage
15 p2610 A69-30682

Alphanumeric listing and digital data x-y plotting by high speed printer, describing equipment modifications and control software
17 p2932 A69-33108

XANTHINES

U URIC ACID

XB-70 AIRCRAFT

U B- 70 AIRCRAFT

XC-142 AIRCRAFT

Technological evolution of turboprop propeller powered tilt wing V/STOL aircraft, discussing XC-142A, CL-84 and VZ-2 aircraft
05 p0701 A69-15564

XENON

Shock reflection structure in ionizing xenon determined by fast rise pressure gauge mounted in shock tube end wall
01 p0132 A69-11205

Radiation attenuation cross sections of monatomic and diatomic xenon gas from UV absorption measurements near resonance line
02 p0284 A69-12551

Xe gas discharge plasma resistivity dependence on current density measured in large turbulent flash lamps
03 p0478 A69-13846

Electrical properties of xenon pulse plasmas with high power dissipation, measuring discharge pressure and radiation distribution as function of voltage drop
05 p0801 A69-15746

Gas pressure control in xenon lasers, using variable temperature surface partially insulated from liquid nitrogen coolant
07 p1155 A69-19090

Ne and Xe in carbonaceous chondrites, noting large amounts of fission Xe and implications for galactic nucleosynthesis models
08 p1405 A69-20925

Partially ionized Kr and Xe transport coefficients for various pressures and at high temperatures computed on basis of charged particle cross sections
09 p1548 A69-21935

Xenon pulse discharge plasma temperature distribution, spectral brightness density and light absorption across quartz tube section, noting temperature drop near wall
10 p1742 A69-24081

High temperature and power gas diodes and thyristors for nuclear electrical space power systems
11 p1847 A69-24744

Laser radiation absorption in xenon plasma, noting dependence on intensity due to atoms ionization
13 p2314 A69-28442

Xenon atom and ion densities downstream from coaxial plasma gun measured using vacuum UV emission, absorption spectroscopy and Langmuir probe
16 p2819 A69-31690

Xenon laser CW operation on unclassified spectral lines of high ionization states, using laser induced spectroscopy
23 p4172 A69-41399

XENON ISOTOPES

Heavy xenon isotopic anomalies in carbonaceous chondrites, rejecting plutonium 244 spontaneous fission decay mechanism
05 p0819 A69-15625

Plutonium-244 existence in early solar system concluded from relative abundance ratios of excess meteoritic heavy Xe isotopes
08 p1401 A69-20900

Geochemistry of fission Xe component in chondrites, suggesting Xe derivation from superheavy elements with Z 112 to 119
15 p2681 A69-30325

Spontaneous symmetric fission of superheavy elements near doubly magic nucleus as explanation for Xe and Kr isotopic composition anomalies in meteorites
20 p3601 A69-37503

XENON LAMPS

Filtering system for xenon arc solar simulator to provide operation at air-mass-two /average sea level/ sunlight
09 p1476 A69-21648

Solar simulator with 20 kw xenon lamps, discussing performance, versatility and problems with collectors, folding mirrors and cooling system
15 p2586 A69-30384

Solar simulator with pulsed Xe arc tube, describing operating characteristics, spectral emission and simulator-sunlight correlation
15 p2586 A69-30385

Xenon high wattage short arc lamps for space/solar simulators, describing seals, electrodes shapes and cooling, operating characteristics, etc [AIAA PAPER 69-998]
22 p3920 A69-40376

Xenon plasma continuous illumination sources design and operation for night and color aerial photography covering photogrammetric resource surveys, ground traffic, flight paths, etc
22 p3950 A69-41000

XENON 129

Level crossing effect in stimulated emission and application to determination of hyperfine splitting in Xe 129 excited electronic state during laser transition
07 p1156 A69-19398

XENON 133

Inert gas diffusion of Xe 133 in aluminum and titanium at various temperature ranges, showing effects of recrystallization, plastic deformation and phase transformations
16 p2800 A69-31775

XH-51 HELICOPTER

Compound rotary wing aircraft research, discussing XH-51A maneuverability program and UH-1 high Mach and high advance ratio program [AIAA PAPER 69-218]
07 p1056 A69-19568

XJ-79-GE-1 ENGINE

U J-79 ENGINE

XV- 4 AIRCRAFT

X V-4B Hummingbird 2, noting modification from XB-4A two engine ejector augmentation to six engine direct and diverted thrust configuration
03 p0366 A69-13112

- Lockheed XV-4B Hummingbird 2 VTOL aircraft propulsion, control, escape systems, with tests
10 p1634 A69-23597
- VTOL variable stability system /VSS/ for XV-4B lift jet for flight control and handling verification
17 p2902 A69-34066
- Lift engine inlet development for XV-4B aircraft, discussing tests, pressure distortion and recovery during simulated hover and transitional flight
[AIAA PAPER 68-636] 20 p3585 A69-37150
- XV- 6A AIRCRAFT
U P-1127 AIRCRAFT

Y

- Y AXIS
U COORDINATES
- YAG [GARNET]
U YTTRIUM-ALUMINUM GARNET
- YAGI ANTENNAS
- Yagi-Uda type antennas analysis based on radiated electric field equations, noting far field pattern dependence on phase velocity
11 p1850 A69-24980
- Short backfire antenna based on yagi type equipped with end reflector, noting fewer elements and low side lobe advantages
16 p2763 A69-32586
- YARNS
- Atmospheric wind shear velocity snapping effect on yarn suspending instrument package from balloon gondola during parachute recovery
17 p2975 A69-33613
- YAW
- Yaw parameter and curvature effects on accuracy of hot-wire anemometer, noting King law
03 p0426 A69-12845
- Vortex breakdown effect on aerodynamic coefficients of small aspect ratio delta wings during yawing
04 p0543 A69-14821
- Boundary shear stress with unknown magnitude and direction measured by yaw probe used as Preston tube
05 p0751 A69-16396
- Additional yawing by gyroscopic moment of power plant and effect on aircraft maneuver during curvilinear flight, noting compensation by automatic control
18 p3092 A69-34973
- Conical delta wings in supersonic-moderate hypersonic flow, studying yaw effects on pressure distribution behind shock wave
20 p3459 A69-37593
- Monograph on forces exerted by air during yawing motion of sharp cones in supersonic and hypersonic flows by semilinear method
20 p3460 A69-37919
- Windward shock angle parameters on yawed cones correlated in single variable for hypersonic flow
23 p4060 A69-41918
- Spacecraft pitch and yaw angles measurement using environmental positive ion probes, discussing Gemini flight tests and attitude control systems
24 p4315 A69-43241

- YAWMETERS
U ATTITUDE INDICATORS
U YAW
- YEAST
- Genetic effects in yeast induced by heavy ion radiation, studying lethality, mitotic segregation, allelic recombination and reverse mutation
03 p0373 A69-13491
- Radiation damage in yeast cells irradiated by high energy C 12 ions evaluated from survival rate study
14 p2406 A69-28915
- Microbial protein extraction from Chlorella algae and Torulula yeasts using urea soaking method
21 p3662 A69-39712

- YHU-1 HELICOPTER
U UH- 1 HELICOPTER

- YIELD
- Generalized quantum yield for sensitivity of photoelectric devices, considering multistage image converter and photomultiplier
14 p2496 A69-29788

- YIELD POINT
- Yield surface after prestraining under radial loading, analyzing formation of yield corner
01 p0166 A69-10303
- Plastic deformation wave propagation and heat generated near yield point of annealed aluminum
02 p0342 A69-12280

- Plates yield point loads limit determination formulated as mathematical programming problem, using finite element representations for velocity and moment fields
[ASME PAPER 68-WA/APM-21] 04 p0670 A69-14405

- Truncated solid cones plastic yielding under quasi-static and dynamic axial loads at various strain rates
04 p0682 A69-15301

- Subsequent yield surfaces in cross shaped brass plates determined after prestraining or cold rolling
04 p0682 A69-15302

- General kinematic yield mechanism and associated kinematically adequate multiplier formulated for structural elements characterized by plane deformation state
05 p0831 A69-15684

- Repeated loading influence on microstrain region, noting decrease in size with each cycle
05 p0836 A69-15876

- Yield point for simply supported conical shell loaded through central boss at vertex
06 p1023 A69-17375

- Temperature dependence of polymethylmethacrylate deformation, yield and fracture in constant strain rate compressive and tensile tests
08 p1335 A69-20215

- Plastic yielding of tensile V-notched aluminum alloys elements with intermediate thickness and various shoulder ratios, studying thickness effect on yield load
09 p1612 A69-21499

- Yield points compared for axial and biaxial tensile loading of aluminum alloy sheets
10 p1801 A69-23849

- Temperature and stress dependence of microstrain and microyielding in polycrystalline W for range of impurities and dislocations, considering transition to macrostrain
11 p1905 A69-25183

- Stress discontinuity surface of three dimensional rigid plastic body arbitrary yield condition, considering equilibrium of regular four sided pyramid
11 p1996 A69-25738

- Rigid plastic circular and annular plates dynamics taking into account yield point dependence on strain rate
12 p2177 A69-25994

- Fatigue crack propagation laws determined by material yielding at crack tips, stress intensity and exponential crack growth law
12 p2187 A69-26846

- Metal fatigue in Al alloys subjected to stress cycles, determining macrocracks propagation stages
13 p2359 A69-27291

- Craze formation and shear yielding considered for glassy polymers in terms of stress field requirements
17 p2993 A69-34169

- Temperature dependence of metal elastic properties including thermal strains effect on stress field, yield stress changes and elastic modulus variations
18 p3212 A69-34353

- WC-Co alloys structural changes under loads near yield limit, noting formation of slip bands
18 p3158 A69-35261

- Yield condition of maximum constant distortion strain energy for anisotropic material without incompressibility assumption
18 p3227 A69-35494

- Reducibility conditions of flow theory for smooth and piecewise smooth yield surfaces to relations of small elastoplastic deformations
19 p3443 A69-36794

- Stress corrosion cracking model for 7075 Al, correlating macroscopic yield stress and corrosion time to failure
19 p3351 A69-36897

- Strain rate-load relations in elastoplastic shells reaching yield point, discussing variational method applicability
21 p3838 A69-39189

- Serrated yielding at high temperatures from dislocation theory viewpoint, considering critical strain relation to temperature and strain rate
21 p3749 A69-39710

- Yield condition and relation between stresses and strain rates for anisotropic body, allowing for influence of stressed state type
22 p3934 A69-41169

- Collapse load of shallow conical shells clamped at base and loaded through finite rigid boss, using Tresca yield condition for sandwich shell
23 p4236 A69-42496

- Strain diagram with piecewise nonlinear curve for statically indeterminate systems stressed beyond elastic limit
24 p4400 A69-43072

YIELD STRENGTH

- Yield condition of polycrystalline hcp metal, considering slip characteristics of hcp crystals
01 p0094 A69-10304

- Irradiation influence on yield stress of Ni-Al intermetallics noting temperature dependence and electron dosage
01 p0095 A69-10608

- Ultrahigh pressure physics of materials, discussing apparatus, phase transitions and yield strength ductility relationships
02 p0260 A69-11803

- Plane strain yielding, stresses and fracture about notches and cracks in terms of flow and fracture stresses and crack tip radii
03 p0528 A69-13876

- Yield curve softening in hard Al subject to cyclic torsional loading, noting deformation resistance, surface hardness and yield strength
04 p0671 A69-14411

- Static criterion for yield computation in plane two dimensional systems
05 p0836 A69-16013

- Crack tip plastic flow effect on strain energy release rate, considering Dugdale model for yielded crack [ASME PAPER 68-WA/MET-17]
05 p0838 A69-16155

- Statistical theory of material strength with application to composite materials reinforced with whiskers and continuous fibers
06 p1028 A69-18142

- Grain size dependence of yield, flow and fracture stresses of Fe-Co-V alloy for 77-298 K
07 p1166 A69-19264

- Polycrystalline beryllium specimens fabricated from powders, discussing initial powder particle size and distribution effects on microyield strength
07 p1168 A69-19598

- Vacuum arc melted W and W-Re alloys mechanical properties, noting Re additions effects
08 p1331 A69-20190

- Plain strain fracture toughness tests on two inch thick maraging steel plates of various strengths, using bend and compact tension tests
10 p1795 A69-23057

- Elastic release wave and pressure drop measurement in 2024-T4 aluminum at 313 kb for dynamic yield strength, considering surface velocity and stress
10 p1712 A69-23665

- Temperature and strain rates effect on delayed yield and failure of plasticized epoxy resin
10 p1717 A69-24218

- Yield to ultimate tensile strength ratio of titanium alloys subjected to thermomechanical treatment
11 p1906 A69-25683

- Plane strain fracture toughness tests on maraging steel plates for various yield strengths and large dimensions
12 p2114 A69-26496

- Effective tensors of elastic moduli and yielding of composite materials, considering multiparticle interactions and use of equilibrium and incompatibility equations
13 p2360 A69-27382

- Discontinuous yielding characteristics of 2024 Al alloy determined for different conditions of solution, heat treatment and age hardening
15 p2639 A69-30598

- Electrical conductivity, hardness, ultimate tensile strength and yield strength correlations of age hardenable Al alloys by eddy current methods
15 p2641 A69-31513

- Load carrying capacity of circular plates under antisymmetric load
16 p2875 A69-32289

- Polyethylene stainless steel lap joints and polyethylene samples yield strength measurements at high temperature, suggesting yield mechanism based on dislocation loops
16 p2794 A69-32573

- Fracture strength of Al alloys, discussing tests for tensile properties, linear elastic fracture mechanics techniques, yield strength, corrosive media, etc
17 p2989 A69-33555

- Mathematical model of yielding of adhesive bonds in form of viscous threads between elastic bodies, obtaining solution to two dimensional problem
18 p3215 A69-34569

- Crystal twinning directional effect on Mg alloys tensile yield strength degradation, investigating recovery methods
19 p3341 A69-35583

YIG [GARNET]

Ti-Al alloys yield and fracture characteristics as function of high exposure temperatures, studying causes of embrittlement

19 p3344 A69-35927

Elastoplastic state of composite structures with applicability of elasticity law and yield conditions illustrated by reinforced plate under plane stress

19 p3444 A69-36808

Yield strength, deformation modes and fracture characteristics of Ti-Al alloys, examining strength and fracture characteristics as function of structure and chemical composition

20 p3557 A69-36959

Laminated composites ultimate strength prediction based on consecutive yield procedure with step-wise reduction of strength or load-carrying capacity used as design criterion

20 p3627 A69-37773

Low strain rate effects on metals yield and tensile strength

20 p3563 A69-38063

Yield stress of normal human blood related to endogenous fibrinogen concentration as function of total protein concentration, proposing fibrinogen adsorption and coupling model

22 p3874 A69-40223

Yield condition for elastic-plastic medium, considering pure torsion-associated second order effects and dissimilarity between stress and strain increment Mohr circles

23 p4234 A69-42409

Plastic inhomogeneity effects on yield stress of isotropic spherical shell and long cylindrical tube under internal pressure

24 p4405 A69-43672

U J-85 ENGINE

YOUNG MODULUS

U MODULUS OF ELASTICITY

YTTRIUM

Temperature dependence of A and C periods of Y crystal lattice at 77 to 300 K, discussing preparation of Y films and anomalous thermal expansion

02 p0298 A69-12047

Rare earth elements and yttrium in meteoritic chondrites determined by radiochemical neutron activation analysis

08 p1403 A69-20916

Yttrium effect on rate of thermal decomposition of silver carbonate powder and pressed pellets by isothermogravimetric analysis, examining water vapor, Co 60 gamma radiation and temperature effects

15 p2561 A69-30442

German monograph on yttrium addition effects on tension and compression behavior of Nb and Mo at high temperature in vacuum

17 p2990 A69-33570

Yttrium desorption from W wire by strong electric field, noting electron work function or temperature increase effects on desorption field

17 p3015 A69-33631

YTTRIUM ALLOYS

Nickel-rich region of Al-Ni-Y ternary system, emphasizing identification of solid phase equilibria through analysis of equilibrated alloy specimens

02 p0265 A69-12004

YTTRIUM-ALUMINUM GARNET

Refractive index and expansion thermal coefficients along axis of oriented Nd-YAG laser rod

04 p0609 A69-14293

Q switching of continuously pumped Nd:YAG laser using variable spacing Fabry-Perot interferometer as variable output coupler

06 p0938 A69-18229

Solar end and lateral pumping apparatus for neodymium doped YAG crystal lasers, noting applicability to space communication

07 p1150 A69-18953

Neodymium doped YAG laser efficiency dependence on pump power level and spectral filtering of pump light

10 p1705 A69-23814

Microimpurities in aluminum-yttrium garnets determined spectrographically by using gallium oxide as carrier and Teflon powder for fluorinator

10 p1747 A69-23843

YAG-Nd laser continuous operation using incoherent injection luminescent pumping by gallium ar-

senide phosphide light emitting diodes at liquid nitrogen temperature

13 p2270 A69-27192

Bismuth oxide introduction into Y and Y-Al garnets, noting effect on formation and properties

13 p2320 A69-27998

Passive mode locking of pulsed Nd-YAG laser using saturable absorber, noting two photon fluorescence contrast ratio

16 p2797 A69-32019

Self Q switching of pumped neodymium-doped YAG and ruby lasers obtained by static misalignment of mirror and pumped laser filament

17 p2979 A69-32916

YTTRIUM COMPOUNDS

NT YTTRIUM-ALUMINUM GARNET

NT YTTRIUM-IRON GARNET

High pressure high temperature synthesis and superconducting properties of yttrium sesquicarbide, noting effect of ambient pressure annealing

07 p1201 A69-19600

YTTRIUM-IRON GARNET

Nonreciprocal tunable yttrium-iron garnet microstrip filter design through generation of circularly polarized field

01 p0041 A69-10202

YIG single crystal resonator tuning of Gunn diode in coaxial line circuit

01 p0042 A69-10320

Dispersive two port components for application to microwave pulse compression, coupling YIG crystal magnetoelastic spin wave mode to acoustic transducer

02 p0217 A69-12149

Magnetoelastic coupling constant b, measured by propagating microwave signals in pure and substituted YIG

02 p0299 A69-12243

Yttrium iron garnet sublattice magnetization calculation using Oguchi method

03 p0485 A69-13297

Miniature microwave tuners with solid state reliability and reduced power consumption, using YIG, mixer circuits and integrated control circuitry

07 p1102 A69-18672

High pressure synthesis of dense ferrimagnetic perovskite allotropic form of yttrium-iron garnet

08 p1372 A69-20372

Spherical electronically tunable multiresonator YIG filters design using filter tables and coupling bandwidth charts

08 p1292 A69-21006

Dislocations effect on magnetization process in YIG crystals, using polarization optical method

09 p1559 A69-22532

Dynamic mode electromagnetic surface waves on axially magnetized single crystalline YIG and polycrystalline ferrite rods

10 p1746 A69-23513

Near IR radiation magneto-optic light modulators using Faraday effect in yttrium-iron garnet and in related compounds

11 p1886 A69-25057

Resonators made of YIG single crystals exhibiting lowest linewidth in ferromagnetic resonance at microwave frequencies

11 p1855 A69-25627

Saturation and distortion effects on magnetoelastic wave excitation in yttrium garnet single crystals by large amplitude microwave frequency field

12 p2145 A69-26725

Elliptical polarization in ultrabroadband YIG pulse compression networks, using reflections at rod faces

13 p2230 A69-27680

Bismuth oxide introduction into Y and Y-Al garnets, noting effect on formation and properties

13 p2320 A69-27998

Yttrium garnet ferrite crystals grown by Czochralski method from inductor crucible exhibiting orthoferrite, iron garnet and eutectic phases along height

13 p2321 A69-28001

Gallium distribution in YIG single crystals by X ray spectral analysis, observing concentration fluctuations

13 p2321 A69-28002

Magnetoelastic resonant interaction of microwave longitudinal phonons propagating at right angles to magnetic bias applied to YIG rod axis

15 p2565 A69-30184

Transistorized L band oscillator tuned by Ga-doped YIG, discussing ferrimagnetic material properties and device equivalent circuit

16 p2761 A69-32450

Optical IR yttrium-iron garnet rectifier increasing light intensity and system Q factor at low external magnetic field

17 p2981 A69-33117

Possibility of combining individual yttrium ferrite single crystals to obtain noninteracting element for quantum paramagnetic traveling-wave amplifier operating at liquid nitrogen temperature

19 p3334 A69-35883

Microwave elastic propagation in single crystal specimen of yttrium-iron-garnet ferrite, discussing attenuation

21 p3780 A69-38774

Saturation and distortion effects on magnetoelastic wave excitation in yttrium garnet single crystals by large amplitude microwave frequency field

21 p3782 A69-39138

YIG single crystal disk instability, noting dispersion of magnetostatic and plane spin waves from supplementary absorption and LF oscillations recording

ZEEMAN EFFECT

Photospheric network obtained by spectroheliograms, discussing Fraunhofer lines weakening, nonsunspot magnetic fields and Zeeman sensitivity

04 p0664 A69-15523

Weak magnetic fields effect on molecular oscillator frequency taking into account Zeeman sublevels

05 p0727 A69-15643

Line broadening possibility for Q switched iodine laser with aid of magnetic effect /Zeeman effect/, noting energy storage capability increase

05 p0773 A69-16288

Zeeman effect in He-Ne lasers during simultaneous emissions at various gas pressures and currents in magnetic fields

06 p0932 A69-16912

Element abundances in magnetic stars, discussing Zeeman effect and anomalies in spectra

08 p1403 A69-20911

Simultaneous action of RF perturbation between Zeeman sublevels of atomic transition sustaining gas laser oscillations, discussing single pi mode laser operation

10 p1704 A69-23808

Zeeman laser with one end mirror exhibiting x-y-type loss anisotropy, considering resonance condition for round trip pass and self consistent field equations

13 p2271 A69-27398

Light saturation development of line profile component of normal Zeeman triplet in sunspot umbrae

14 p2528 A69-29964

Zeeman spectroscopy and UVB photometry of 17 Com and kappa Cnc, observing periodic magnetic and light variations

15 p2692 A69-30774

Metallic line /Am/ stars Zeeman observations, showing 16 Ori as spectroscopic binary, dubious binary nature of 15 Vul and doubtful presence of magnetic fields

15 p2692 A69-30775

Absorption coefficient in three microwave lines of O with different rotational quantum numbers calculated, examining Zeeman effect in geomagnetic field

15 p2597 A69-30941

Weak magnetic fields effect on molecular oscillator frequency taking into account Zeeman sublevels

16 p2762 A69-32500

Cavity linear phase anisotropy and axial magnetic field effect on single mode Zeeman gas laser

16 p2798 A69-32606

Time behavior of output intensity and polarization of single cavity mode internal mirror Zeeman laser in axial magnetic field

16 p2798 A69-32607

Zeeman effect measurement revealing magnetic fields in interstellar neutral H clouds

18 p3190 A69-34291

Gas and solid state lasers optical resonance and radiation generation, frequency properties, frequency shift, spectra and Zeeman effect

18 p3154 A69-35408

- Single mode He-Ne laser frequency stabilization by Zeeman effect

19 p3331 A69-35866
- ZINC TELLURIDES**
GaSb-ZnTe heterojunction fabrication method, noting photoresponse, fluorescence and light transmission
02 p0299 A69-12408
- ZnTe electronic structure from photoemission study, noting emitted electron energy distribution
03 p0493 A69-14239
- ZINC TUNGSTATES**
Angular dependence of EPR line widths of trivalent Cr ions in zinc tungstate in rotating magnetic field, noting spin-phonon mechanism
10 p1743 A69-23131
- ZIRCALOY 2 [TRADEMARK]**
Ultrasonic inspection of soundness and penetration or corner welds for Zircaloy 2 casings, discussing method reliability and sensitivity limits
07 p1141 A69-19346
- ZIRCALOYS [TRADEMARK]**
U ZIRCALOY 2 [TRADEMARK]
- ZIRCONATES**
U BARIUM ZIRCONATES
- ZIRCONIUM**
Thermodynamic study of carburization of liquid titanium and zirconium, examining effects of atmosphere, graphite porosity and alloying elements
03 p0446 A69-13572
- Heterodiffusion of metallic impurities in body centered phases of doped zirconium and titanium, determining diffusion coefficients via radioactive isotopes
04 p0613 A69-14557
- Solid solutions of O in Ti and Zr, noting superstructure formation and physical properties
04 p0618 A69-15078

Tin and zirconium addition effect on transformations of titanium alloys during heat treatment
07 p1162 A69-18775

Shock tunnel hypersonic flow effect on critical Weber number for zirconium drop breakup in partially and fully molten states
12 p2063 A69-26802

Zr doped superconducting ceramic strontium titanate, noting effective electron mass variations and transition temperature
13 p2316 A69-27400

Luminous spherical fog layer surrounding burning zirconium droplet during free fall through oxygen containing atmosphere, noting effect on mass and heat transfer processes
13 p2380 A69-28462

Laser ignited Zr droplet free fall combustion in oxygen, analyzing metal conservation and luminosity correlation assuming reflux action from fog layer [WSCIPAPER 69-1]
16 p2830 A69-32342

Laser ignited combustion of 365 micron Zr droplets falling in ultrapure oxygen using spectroscopic and photographic techniques, discussing vapor phase transport phenomena [WSCIPAPER 69-4]
16 p2830 A69-32345

Flow rate effect of oxygen-argon mixture on Zr oxidation studied to determine exclusion as factor in Zr weight increase
18 p3154 A69-34272

Carbide coatings formation on graphite in molten media, determining diffusion coefficient of carbon in molten Zr
20 p3566 A69-37372

Stacking fault formation probability in Ti and Zr by X ray diffraction techniques, using Fourier analysis and half-width measurements
21 p3749 A69-39600

Cathode materials role in high temperature zirconia electrolyte fuel cell performance, discussing metals, collector-embedded and electronically conducting oxides properties
22 p3869 A69-40734

ZIRCONIUM ALLOYS
NT ZIRCALOY 2 [TRADEMARK]

Mechanical properties of AZ5G-Zr-Cr alloy welded sheet subjected to biaxial stress at low temperature
01 p0088 A69-11152

Soviet collection of articles on physicochemistry of zirconium alloys
02 p0261 A69-11839

Metallographic analysis of Zr corner structure in Zr-Al-Mo system phase diagram, plotting monovariant and nonvariant equilibria reactions
02 p0261 A69-11840

Zr corner of phase diagrams and microstructure, hardness and microhardness of Zr-Al-Nb system alloys
02 p0261 A69-11841

Zirconium corner of Zr-Al-Cr system phase diagram within concentration limits from 1350-700 C, considering corrosion resistance
02 p0262 A69-11842

Metallographic and radiographic analysis of zirconium corner in Zr-Be-Nb system, discussing phase transformation during quenching
02 p0262 A69-11843

Zr-Be-Nb system oxidation resistance decrease at 650 degrees C ascribed to Be and Nb additions
02 p0262 A69-11844

Zr-Be-Nb alloys mechanical tensile properties above room temperature for low concentrations of Be and Nb
02 p0262 A69-11845

Isothermal sections construction of zirconium corner of ternary phase diagram of Zr-Mo-V system from microstructure of cast and quenched alloy specimens
02 p0262 A69-11846

Structure of zirconium corner of Zr-V-Ni system phase diagram, using metallography, hardness and microhardness methods
02 p0262 A69-11847

Isothermal sections construction of Zr-V-Ni system phase diagram from study of alloys at 1000, 700 and 500 C
02 p0263 A69-11848

Alloying additions effect on mechanical properties of Zr-V-Nb system
02 p0263 A69-11849

Omega phase and beta solid solution in Zr-V-Ta alloys quenched from 900 C
02 p0263 A69-11850

Zirconium corner of Zr-Fe-Nb phase diagram, studying alloy tempering at various temperatures
02 p0263 A69-11851

Zirconium corner of Zr-Cu-Mo phase diagram, using microstructure analysis of hardness and microhardness

measurements, discussing plasticity variations and corrosion resistance
02 p0263 A69-11852

Fe, Ni and Cr influence on corrosion resistance and mechanical properties of Zr-Cu-Mo system alloys
02 p0263 A69-11853

Zirconium corner in Zr-Nb-Cu phase diagram, plotting isothermal sections for high temperatures
02 p0263 A69-11854

Zirconium corner of Zr-Mo-Ni phase diagram using metallographic analysis, hardness and microhardness methods, constructing isothermal sections for high temperatures
02 p0264 A69-11855

Zirconium corner of Zr-Nb-Mo system phase diagram, using microstructure, microhardness, hardness and radiographic methods
02 p0264 A69-11856

Oxidation resistance of Zr-Nb-Mo alloys at high temperature in air or water
02 p0264 A69-11857

Isothermal sections of Zr corner of Zr-Mo-Ta system phase diagram at high temperatures, noting composition vs hardness and omega phase
02 p0264 A69-11858

Isothermal sections of Zr corner of Zr-Mo-Ti phase diagram at various high temperatures, noting corrosion resistance in air and water
02 p0264 A69-11859

Isothermal sections of Zr-Ni-Nb system phase diagram at high temperatures, determining principal type of projection on concentration triangle
02 p0264 A69-11860

Isothermal sections of Zr corner of Zr-Nb-Cr system phase diagram at high temperatures, noting variation of stability with concentration
02 p0264 A69-11861

Precipitation hardening effects on Al-Zr recrystallization with Fe and Si additions, noting peak hardness increment with decrease in aging temperature
04 p0617 A69-14931

Phase equilibria, phase transformation temperatures and relation between resistivity and chemical composition for alloys of Ti-Al-Mo-Zr system
04 p0618 A69-15079

Metastable phases of binary zirconium-niobium system, defining decomposition of solid solution in cooling
05 p0781 A69-16614

Zr-Nb alloy structure effect on critical superconductivity parameters determined, using electron microscopy of thin films
05 p0811 A69-16806

Zirconium niobium alloys thermodynamic properties measured by Knudsen effusion method using zirconium 95
07 p1165 A69-18940

Metallographic and X ray study of cellular decomposition and precipitation in superconducting niobium zirconium alloy, noting heat treatment effect on current carrying properties
08 p1331 A69-20192

Omega phase transformation in binary and ternary Zr alloys after water quenching from within /alpha plus beta/ phase region
10 p1707 A69-22988

Phase equilibrium in cast Zr-Re-B and W-Re-B systems using microscopic and X ray analysis
10 p1711 A69-23332

Zr-W high temperature phase relationships, noting Zr-zirconium tungstide eutectic temperature, zirconium tungstide peritectic temperature and Zr solubility in W
11 p1903 A69-24578

Omega phase formation in Ti and Zr alloys with transition metals, discussing effects on mechanical and superconducting properties
18 p3155 A69-34634

Beryllium diffusion coefficients in Zr and Ti bcc phases, using radioactive beryllium 7 at high temperatures
18 p3157 A69-35251

Spectral reflectivities of sintered Ti-TiN-TiC and Zr-N-ZrC alloys and Zr-ZrN-ZrC alloys
20 p3559 A69-37330

ZIRCONIUM CARBIDES
Roentgenographic and metallographic examinations for interaction between ZrC and Re in wide range of temperatures and concentrations, discussing phase diagram
04 p0617 A69-14900

Zirconium and niobium carbide behavior during plasma spray coating, noting optimum oxygen content and mean carbide particle diameter in spray
07 p1165 A69-18933

Slip casting powder mixture of zirconium carbide and tungsten, discussing optimum composition
10 p1716 A69-24056

Pyrolytic zirconium carbide emissivity during initial heating compared with results for specimens prepared by powder metallurgy
15 p2640 A69-30985

Electrical resistance and temperature coefficient dependence on phase composition of Ti, Zr and Nb carbides
15 p2641 A69-31047

Zr and Nb carbide coatings on Nb, Ta Mo and W, investigating methods for coating and base metal combinations
20 p3560 A69-37362

ZIRCONIUM COMPOUNDS NT BARIUM ZIRCONATES

Chemical corrosion of zirconia-based refractories in MHD generators, considering thermal cycling and shock, seed migration and prevention
13 p2284 A69-27469

Ti and Zr diborides sintering with Cr, Mo, W and Re additions, discussing activation, pressure effects and density
22 p3968 A69-39888

ZIRCONIUM HYDRIDES

Zirconium hydride thermoelectric power system for space missions, discussing compactness, shield weight, temperature capability, reliability and SNAP 10A program
16 p2809 A69-31723

Power systems for unmanned spacecraft, noting improved performance for zirconium hydride reactors and thermoelectric converters
23 p4187 A69-42255

Performance, size, weight, operational characteristics and cost estimates of ZrH reactor-organic Rankine power systems
23 p4189 A69-42265

ZIRCONIUM ISOTOPES

Resonances and doublets observation by neutron radiative capture and transmission of W and Zr isotopes in kev region, noting partial wave strength functions
18 p3175 A69-34314

ZIRCONIUM NITRIDES

Young modulus of sintered nonporous titanium, zirconium and chromium nitrides, computing characteristic temperature and root mean square atomic displacements in lattices
06 p0938 A69-16830

Melting points, electrical conductivity, Hall constants, magnetic susceptibility, density, bending strength, microhardness and elastic modulus of zirconium nitride in homogeneity range
20 p3558 A69-37014

ZIRCONIUM OXIDES

High temperature research on systems formed by zirconium dioxide with samarium and gadolinium sesquioxides near melting point
01 p0101 A69-10044

Added metal oxides solid solutions effect on creep kinetics and strain rate of zirconia samples during sintering
12 p2118 A69-26260

Oxygen isotope separation magnitude in zirconia electrolytic cells found proportional to mobility difference of isotopes
15 p2552 A69-30701

Temperature dependence of resistivity of zirconium oxide with copper oxide additions indicates suitability as heat sensitive resistor material in 300 to 1000 degree C range
16 p2827 A69-32482

ZIRCONIUM 95

Zirconium niobium alloys thermodynamic properties measured by Knudsen effusion method using zirconium 95
07 p1165 A69-18940

ZODIAC

Spectroscopic and eclipsing binaries in zodiac tabulated for photometric studies at lunar occultations
12 p2171 A69-27152

ZODIACAL DUST

Zodiacal light, cometary contribution and solar activity
05 p0826 A69-16391

Night sky surface brightness and polarization measurements as basis for zodiacal dust cloud particle density distribution normal to ecliptic plane
07 p1222 A69-19588

Fraunhofer line distortion on scattering from zodiacal dust cloud for various particle density and size distributions, discussing Keplerian orbits
08 p1308 A69-20391

Zodiacal dust density in interplanetary space
08 p1407 A69-20938

Barbados airborne dust collections showing metal fragments and black magnetic spherules contaminants from handling, discussing deep sea cosmic spherules and zodiacal cloud
12 p2075 A69-26964

Noctilucent clouds total or partial extraterrestrial origin, deriving minimum particulate influx from satellite and rocket data
21 p3702 A69-38347

ZODIACAL LIGHT

OSO-B2 satellite zodiacal light observations at constant 90 degree elongation, measuring polarized component as function of time
02 p0245 A69-12718

Zodiacal light isophotes and near-earth component from relationship between brightness at various geomagnetic latitudes and position of moon
03 p0512 A69-13693

Zodiacal light, cometary contribution and solar activity
05 p0826 A69-16391

Doppler shift in zodiacal light spectrum, noting variation of dust concentration and possible orbits
06 p1012 A69-18227

Interplanetary dust and distribution study by micrometeorite analyzer and by zodiacal light observations using solar probe
15 p2694 A69-30879

Photometric observations of zodiacal light, noting dust in earth-moon environment
15 p2599 A69-31334

Zodiacal light models /including spherical and nonspherical models/, discussing mechanisms for orientation of particles in solar orbits
15 p2698 A69-31366

Zodiacal light brightness and polarization measurements from space probes approximated by Mie scattering of interplanetary dust particles
16 p2857 A69-32092

Zodiacal light confirmed as caused predominantly by flattened circumsolar dust cloud
20 p3597 A69-37336

OSO spacecraft thermal design modified to operate University of Minnesota zodiacal light monitor experiment [AAS PAPER 69-173]
24 p4393 A69-42873

ZONAL HARMONICS

Near circular satellite orbits evolution taking into account gravitational fields zonal harmonics effect on motion
01 p0157 A69-11304

Zonal temperature and spectral characteristics of stratospheric circulation, noting westward rotation of second harmonic
02 p0246 A69-12759

Odd zonal harmonics coefficients in earth gravitational potential from analysis of satellite orbital eccentricity variations
14 p2439 A69-29118

Zonal harmonics of Legendre polynomial series of Jupiter attractive force function effects on motion of fifth satellite

14 p2521 A69-29463

Coefficients of zonal spherical harmonics to 21st order in expression for earth gravitational potential
15 p2600 A69-31358

Satellite orbit evolution data applied to refinement of geophysical parameters, including upper atmosphere parameters and zonal harmonic coefficients in gravitational potential expansion
15 p2604 A69-31417

Satellite orbits calculation in nonrotating atmospheres, considering atmospheric drag and zonal harmonics coupled effects [AIAA PAPER 69-925]
21 p3808 A69-39352

ZOND SPACE PROBES

Soviet lunar probe Zond 6 achievements in controlled Earth landing and lunar surface photography
13 p2355 A69-27342

ZOND 5 SPACE PROBE

Soviet probe Zond 5 circumlunar flight to recover space vehicles from interplanetary paths
06 p1003 A69-17389

Upper atmosphere and outer space investigations by Zond and Soyuz spacecraft
15 p2724 A69-31451

ZOND 6 SPACE PROBE

Upper atmosphere and outer space investigations by Zond and Soyuz spacecraft
15 p2724 A69-31451

ZONE MELTING

Ta single crystal growth condition by zone melting, discussing orientation and purity relationship
16 p2803 A69-32490

N-type In-doped ZnSb with melt under H-gas preparation and properties
18 p3183 A69-35268

AIAA TECHNICAL INFORMATION SERVICE

750 THIRD AVENUE

NEW YORK, N. Y. 10017
